(a) *Notice of intent to issue directive.* Except as provided in § 263.85 of this subpart, if a state member bank or bank holding company is operating with less than the minimum level of capital established in the Board's Capital Adequacy Guidelines, the Board may issue and serve upon such state member bank or bank holding company written notice of the Board's intent to issue a directive to require the bank or bank holding company to achieve and maintain adequate capital within a specified time period.

(b) *Contents of notice.* The notice of intent to issue a directive shall include:

(1) The required minimum level of capital to be achieved or maintained by the institution;

(2) Its current level of capital;

(3) The proposed increase in capital needed to meet the minimum requirements;

(4) The proposed date or schedule for meeting these minimum requirements;

(5) When deemed appropriate, specific details of a proposed plan for meeting the minimum capital requirements; and

(6) The date for a written response by the bank or bank holding company to the proposed directive, which shall be at least 14 days from the date of issuance of the notice unless the Board determines a shorter period is necessary because of the financial condition of the bank or bank holding company.

(c) *Response to notice.* The bank or bank holding company may file a written response to the notice within the time period set by the Board. The response may include:

(1) An explanation why a directive should not be issued;

(2) Any proposed modification of the terms of the directive;

(3) Any relevant information, mitigating circumstances, documentation or other evidence in support of the institution's position regarding the proposed directive; and

(4) The institution's plan for attaining the required level of capital.

(d) *Failure to file response.* Failure by the bank or bank holding company to file a written response to the notice of intent to issue a directive within the specified time period shall constitute a waiver of the opportunity to respond and shall constitute consent to the issuance of such directive.

(e) *Board consideration of response.* After considering the response of the bank or bank holding company, the Board may:

(1) Issue the directive as originally proposed or in modified form;

(2) Determine not to issue a directive and so notify the bank or bank holding company; or

(3) Seek additional information or clarification of the response by the bank or bank holding company.

(f) *Contents of directive.* Any directive issued by the Board may order the bank or bank holding company to:

VOL 56 ISS 116 JE 17 1991 UMI

(1) Achieve or maintain the minimum capital requirement established pursuant to the Board's Capital Adequacy Guidelines or the procedures in § 263.85 of this subpart by a certain date;

(2) Adhere to a previously submitted plan or submit for approval and adhere to a plan for achieving the minimum capital requirement by a certain date;

(3) Take other specific action as the Board directs to achieve the minimum capital levels, including requiring a reduction of assets or asset growth or restriction on the payment of dividends; or

(4) Take any combination of the above actions.

(g) *Request for reconsideration of directive.* Any state member bank or bank holding company, upon a change in circumstances, may request the Board to reconsider the terms of a directive and may propose changes in the plan under which it is operating to meet the required minimum capital level. The directive and plan continue in effect while such request is pending before the Board.

§ 263.84 Enforcement of directive.

(a) *Judicial and administrative remedies.* (1) Whenever a bank or bank holding company fails to follow a directive issued under this subpart, or to submit or adhere to a capital adequacy plan as required by such directive, the Board may seek enforcement of the directive, including the capital adequacy plan, in the appropriate United States district court, pursuant to section 908 (b)(2)(B)(ii) of ILSA (12 U.S.C. 3907(b)(2)(B)(ii)) and to section 8(i) of the FDIA (12 U.S.C. 1818(i)), in the same manner and to the same extent as if the directive were a final cease-and-desist-order.

(2) The Board, pursuant to section 910(d) of ILSA (12 U.S.C. 3909(d)), may also assess civil money penalties for violation of the directive against any bank or bank holding company and any institution-affiliated party of the bank or bank holding company, in the same manner and to the same extent as if the directive were a final cease-and-desist order.

(b) *Other enforcement actions.* A directive may be issued separately, in conjunction with, or in addition to any other enforcement actions available to the Board, including issuance of cease-and-desist orders, the approval or denial of applications or notices, or any other actions authorized by law.

(c) *Consideration in application proceedings.* In acting upon any application or notice submitted to the Board pursuant to any statute administered by the Board, the Board may consider the progress of a state member bank or bank holding company or any subsidiary thereof in adhering to any directive or capital adequacy plan required by the Board pursuant to this subpart, or by any other appropriate banking supervisory agency pursuant to ILSA. The Board shall consider whether approval or a notice of intent not to disapprove would divert earnings, diminish capital, or otherwise impede the bank or bank holding company in achieving its required minimum capital level or complying with its capital adequacy plan.

§ 263.85 Establishment of increased capital level for specific institutions.

(a) *Establishment of capital levels for specific institutions.* The Board may establish a capital level higher than the minimum specified in the Board's Capital Adequacy Guidelines for a specific bank or bank holding company pursuant to:

(1) A written agreement or memorandum of understanding between the Board or the appropriate Federal Reserve Bank and the bank or bank holding company;

(2) A temporary or final cease-and-desist order issued pursuant to section 8(b) or (c) of the FDIA (12 U.S.C. 1818(b) or (c));

(3) A condition for approval of an application or issuance of a notice of intent not to disapprove a proposal;

(4) Or other similar means; or

(5) The procedures set forth in paragraph (b) of this section.

(b) *Procedure to establish higher capital requirement*—(1) *Notice.* When the Board determines that capital levels above those in the Board's Capital Adequacy Guidelines may be necessary and appropriate for a particular bank or bank holding company under the circumstances, the Board shall give the bank or bank holding company notice of the proposed higher capital requirement and shall permit the bank or bank holding company an opportunity to comment upon the proposed capital level, whether it should be required and, if so, under what time schedule. The notice shall contain the Board's reasons for proposing a higher level of capital.

(2) *Response.* The bank or bank holding company shall be allowed at least 14 days to respond, unless the Board determines that a shorter period is necessary because of the financial condition of the bank or bank holding company. Failure by the bank or bank holding company to file a written response to the notice within the time set by the Board shall constitute a waiver of the opportunity to respond and shall constitute consent to issuance of a directive containing the required minimum capital level.

(3) *Board decision.* After considering the response of the institution, the Board may issue a written directive to the bank or bank holding company setting an appropriate capital level and the date on which this capital level will become effective. The Board may require the bank or bank holding company to submit and adhere to a plan for achieving such higher capital level as the Board may set.

(4) *Enforcement of higher capital level.* The Board may enforce the capital level established pursuant to the procedures described in this section and any plan submitted to achieve that capital level through the procedures set forth in § 263.84 of this subpart.

Subpart F—Practice Before the Board

§ 263.90 Scope.

This subpart prescribes rules relating to general practice before the Board on one's own behalf or in a representational capacity, including the circumstances under which disciplinary sanctions—censure, suspension, or debarment—may be imposed upon persons appearing in a representational capacity, including attorneys and accountants, but not including employees of the Board. These disciplinary sanctions, which continue in effect beyond the duration of a specific proceeding, supplement the provisions of § 263.6(b) of subpart A, which address control of a specific proceeding.

§ 263.91 Censure, suspension or debarment.

The Board may censure an individual or suspend or debar such individual from practice before the Board if he or she engages, or has engaged, in conduct warranting sanctions as set forth in § 263.94; refuses to comply with the rules and regulations in this part; or with intent to defraud in any manner, willfully and knowingly deceives, misleads, or threatens any client or prospective client. The suspension or debarment of an individual shall be initiated only upon a finding by the Board that the conduct that forms the basis for the disciplinary action is egregious.

§ 263.92 Definitions.

As used in this subpart, the following terms shall have the meaning given in this section unless the context otherwise requires.

(a)(1) *Practice before the Board* includes any matters connected with

presentations to the Board or to any of its officers or employees relating to a client's rights, privileges or liabilities under laws or regulations administered by the Board. Such matters include, but are not limited to, the preparation of any statement, opinion or other paper or document by an attorney, accountant, or other licensed professional which is filed with, or submitted to, the Board, on behalf of another person in, or in connection with, any application, notification, report or document; the representation of a person at conferences, hearings and meetings; and the transaction of other business before the Board on behalf of another person.

(2) *Practice before the Board* does not include work prepared for an institution solely at its request for use in the ordinary course of its business.

(b) *Attorney* means any individual who is a member in good standing of the bar of the highest court of any state, possession, territory, commonwealth, or the District of Columbia.

(c) *Accountant* means any individual who is duly qualified to practice as a certified public accountant or a public accountant in any state, possession, territory, commonwealth, or the District of Columbia.

§ 263.93 Eligibility to practice.

(a) *Attorneys.* Any attorney who is qualified to practice as an attorney and is not currently under suspension or debarment pursuant to this subpart may practice before the Board.

(b) *Accountants.* Any accountant who is qualified to practice as a certified public accountant or public accountant and is not currently under suspension or debarment by the Board may practice before the Board.

§ 263.94 Conduct warranting sanctions.

Conduct for which an individual may be censured, debarred or suspended from practice before the Board includes, but is not limited to:

(a) Willfully violating or willfully aiding and abetting the violation of any provision of the Federal banking laws or the rules and regulations thereunder or conviction of any offense involving dishonesty or breach of trust;

(b) Knowingly giving false or misleading information, or participating in any way in the giving of false information to the Board or to any Board officer or employee, or to any tribunal authorized to pass upon matters administered by the Board in connection with any matter pending or likely to be pending before it. The term "information" includes facts or other statements contained in testimony, financial statements, applications, affidavits, declarations, or any other document or written or oral statement;

(c) Directly or indirectly attempting to influence, or offering or agreeing to attempt to influence, the official action of any officer or employee of the Board by the use of threats, false accusations, duress or coercion, by the offer of any special inducement or promise of advantage or by the bestowing of any gift, favor, or thing of value;

(d) Disbarment or suspension from practice as an attorney, or debarment or suspension from practice as a certified public accountant or public accountant, by any duly constituted authority of any state, possession, commonwealth, or the District of Columbia for the conviction of a felony or misdemeanor involving personal dishonesty or breach of trust in matters relating to the supervisory responsibilities of the Board, where the conviction has not been reversed on appeal;

(e) Knowingly aiding or abetting another individual to practice before the Board during that individual's period of suspension, debarment, or ineligibility;

(f) Contemptuous conduct in connection with practice before the Board, and knowingly making false accusations and statements, or circulating or publishing malicious or libelous matter;

(g) Suspension or debarment from practice before the OCC, the FDIC, the OTS, the Securities and Exchange Commission, the NCUA, or any other Federal agency based on matters relating to the supervisory responsibilities of the Board;

(h) Willful or knowing violation of any of the regulations contained in this part.

§ 263.95 Initiation of disciplinary proceeding.

(a) *Receipt of information.* An individual, including any employee of the Board, who has reason to believe that an individual practicing before the Board in a representative capacity has engaged in any conduct that would serve as a basis for censure, suspension or debarment under § 263.94, may make a report thereof and forward it to the Board.

(b) *Censure without formal proceeding.* Upon receipt of information regarding an individual's qualification to practice before the Board, the Board may, after giving the individual notice and opportunity to respond, censure such individual.

(c) *Institution of formal disciplinary proceeding.* When the Board has reason to believe that any individual who practices before the Board in a representative capacity has engaged in conduct that would serve as a basis for censure, suspension or debarment under § 263.94 the Board may, after giving the individual notice and opportunity to respond, institute a formal disciplinary proceeding against such individual. The proceeding shall be conducted pursuant to § 263.97 and shall be initiated by a complaint issued by the Board that names the individual as a respondent. Except in cases when time, the nature of the proceeding, or the public interest do not permit, a proceeding under this section shall not be instituted until the respondent has been informed, in writing, of the facts or conduct which warrant institution of a proceeding and the respondent has been accorded the opportunity to comply with all lawful requirements or take whatever action may be necessary to remedy the conduct that is the basis for the initiation of the proceeding.

§ 263.96 Conferences.

(a) *General.* The Board's staff may confer with a proposed respondent concerning allegations of misconduct or other grounds for censure, debarment or suspension, regardless of whether a proceeding for debarment or suspension has been instituted. If a conference results in a stipulation in connection with a proceeding in which the individual is the respondent, the stipulation may be entered in the record at the request of either party to the proceeding.

(b) *Resignation or voluntary suspension.* In order to avoid the institution of, or a decision in, a debarment or suspension proceeding, a person who practices before the Board may consent to suspension from practice. At the discretion of the Board, the individual may be suspended or debarred in accordance with the consent offered.

§ 263.97 Proceedings under this subpart.

Except as otherwise provided in this subpart, any hearing held under this subpart shall be held before an administrative law judge of the OFIA pursuant to procedures set forth in subpart A of this part. The Board shall appoint a person to represent the Board in the hearing. Any person having prior involvement in the matter which is the basis for the suspension or debarment proceeding shall be disqualified from representing the Board in the hearing. The hearing shall be closed to the public unless the Board, sua sponte or on the request of a party, otherwise directs. The administrative law judge shall refer a recommended decision to the Board, which shall issue the final decision and order. In its final decision and order, the

VOL 56 ISS 116 JE 17 1991 UMI

Board may censure, debar or suspend an individual, or take such other disciplinary action as the Board deems appropriate.

§ 263.98 Effect of suspension, debarment or censure.

(a) *Debarment.* If the final order against the respondent is for debarment, the individual will not thereafter be permitted to practice before the Board unless otherwise permitted to do so by the Board pursuant to § 263.99 of this subpart.

(b) *Suspension.* If the final order against the respondent is for suspension, the individual will not thereafter be permitted to practice before the Board during the period of suspension.

(c) *Censure.* If the final order against the respondent is for censure, the individual may be permitted to practice before the Board, but such individual's future representations may be subject to conditions designed to promote high standards of conduct. If a written letter of censure is issued, a copy will be maintained in the Board's files.

(d) *Notice of debarment or suspension.* Upon the issuance of a final order for suspension or debarment, the Board shall give notice of the order to appropriate officers and employees of the Board, to interested departments and agencies of the Federal Government, and to the appropriate authorities of the State in which any debarred or suspended individual is or was licensed to practice.

§ 263.99 Petition for reinstatement.

The Board may entertain a petition for reinstatement from any person debarred from practice before the Board. The Board shall grant reinstatement only if the Board finds that the petitioner is likely to act in accordance with the regulations in this part, and that granting reinstatement would not be contrary to the public interest. Any request for reinstatement shall be limited to written submissions unless the Board, in its discretion, affords the petitioner an informal hearing.

Subpart G—Rules Regarding Claims Under the Equal Access to Justice Act

§ 263.100 Authority and scope.

This subpart implements the provisions of the Equal Access to Justice Act (5 U.S.C. 504) as they apply to formal adversary adjudications before the Board. The types of proceedings covered by this subpart are listed in §§ 263.1 and 263.50.

§ 263.101 Standards for awards.

A respondent in a covered proceeding that prevails on the merits of that proceeding against the Board, and that is eligible under this subpart as defined in § 263.103, may receive an award for fees and expenses incurred in the proceeding unless the position of the Board during the proceeding was substantially justified or special circumstances make an award unjust. The position of the Board includes, in addition to the position taken by the Board in the adversary proceeding, the action or failure to act by the Board upon which the adversary proceeding was based. An award will be reduced or denied if the applicant has unduly or unreasonably protracted the proceedings.

§ 263.102 Prevailing party.

Only an eligible applicant that prevailed on the merits of an adversary proceeding may qualify for an award under this subpart.

§ 263.103 Eligibility of applicants.

(a) *General rule.* To be eligible for an award under this subpart, an applicant must have been named as a party to the adjudicatory proceeding and show that it meets all other conditions of eligibility set forth below.

(b) *Types of eligible applicant.* An applicant is eligible for an award only if it meets at least one of the following descriptions:

(1) An individual with a net worth of not more than $2 million at the time the adversary adjudication was initiated;

(2) Any owner of an unincorporated business, or any partnership, corporation, associations, unit of local government or organization, the net worth of which did not exceed $7,000,000 and which did not have more than 500 employees at the time the adversary adjudication was initiated;

(3) A charitable or other tax-exempt organization described in section 501(c)(3) of the Internal Revenue Code (26 U.S.C. 501(c)(3)) with not more than 500 employees at the time the adversary proceeding was initiated; or

(4) A cooperative association as defined in section 15(a) of the Agricultural Marketing Act (12 U.S.C. 1141|(a)) with not more than 500 employees at the time the adversary proceeding was initiated.

(c) *Factors to be considered.* In determining the eligibility of an applicant:

(1) An applicant who owns an unincorporated business shall be considered as an "individual" rather than a "sole owner of an unincorporated business" if the issues on which he or she prevailed are related to personal interests rather than to business interests.

(2) An applicant's net worth includes the value of any assets disposed of for the purpose of meeting an eligibility standard and excludes the value of any obligations incurred for this purpose. Transfers of assets or obligations incurred for less than reasonably equivalent value will be presumed to have been made for this purpose.

(3) The net worth of a financial institution shall be established by the net worth information reported in conformity with applicable instructions and guidelines on the financial institution's financial report to its supervisory agency for the last reporting date before the initiation of the adversary proceeding. A bank holding company's net worth will be considered on a consolidated basis even if the bank holding company is not required to file its regulatory reports to the Board on a consolidated basis.

(4) The employees of an applicant include all those persons who were regularly providing services for remuneration for the applicant, under its direction and control, on the date the adversary proceeding was initiated. Part-time employees are counted on a proportional basis.

(5) The net worth and number of employees of the applicant and all of its affiliates shall be aggregated to determine eligibility. As used in this subpart, "affiliates" are: Individuals, corporations, and entities that directly or indirectly or acting through one or more entities control at least 25% of the voting shares of the applicant, and corporations and entities of which the applicant directly or indirectly owns or controls at least 25% of the voting shares. The Board may determine, in light of the actual relationship among the affiliated entities, that aggregation with regard to one or more of the applicant's affiliates would be unjust and contrary to the purposes of this subpart and decline to aggregate the net worth and employees of such affiliate; alternatively, the Board may determine that financial relationships of the applicant other than those described in this paragraph constitute special circumstances that would make an award unjust.

§ 263.104 Application for awards.

(a) *Time to file.* An application and any other pleading or document related to the application may be filed with the Board whenever the applicant has prevailed in the proceeding within 30 days after service of the final order of the Board disposing of the proceeding.

(b) *Contents.* An application for an award of fees and expenses under this subpart shall contain:

(1) The name of the applicant and an identification of the proceeding;

(2) A showing that the applicant has prevailed, and an identification of the way in which the applicant believes that the position of the Board in the proceeding was not substantially justified;

(3) If the applicant is not an individual, a statement of the number of its employees on the date the proceeding was initiated;

(4) A description of any affiliated individuals or entities, as defined in § 263.103(c)(5), or a statement that none exist;

(5) A declaration that the applicant, together with any affiliates, had a net worth not more than the maximum set forth in § 263.103(b) as of the date the proceeding was initiated, supported by a net worth statement conforming to the requirements of § 263.105;

(6) A statement of the amount of fees and expenses for which an award is sought conforming to § 263.107; and

(7) Any other matters that the applicant wishes the Board to consider in determining whether and in what amount an award should be made.

(c) *Verification.* The application shall be signed by the applicant or an authorized officer of or attorney for the applicant. It shall also contain or be accompanied by a written verification under oath or under penalty of perjury that the information provided in the application and supporting documents is true and correct.

(d) *Service.* The application and related documents shall be served on all parties to the adversary proceeding in accordance with § 263.11, except that statements of net worth shall be served only on counsel for the Board.

(e) *Presiding officer.* Upon receipt of an application, the Board shall, if feasible, refer the matter to the administrative law judge who heard the underlying adversary proceeding.

§ 263.105 Statement of net worth.

(a) *General rule.* A statement of net worth shall be filed with the application for an award of fees. The statement shall reflect the net worth of the applicant and all affiliates of the applicant, as specified in § 263.103(c)(5). In all cases, the administrative law judge or the Board may call for additional information needed to establish the applicant's net worth as of the initiation of the proceeding.

(b) *Contents.* (1) Except as otherwise provided herein, the statement of net worth may be in any form convenient to the applicant which fully discloses all the assets and liabilities of the applicant and all the assets and liabilities of its affiliates, as of the time of the initiation of the adversary adjudication. Unaudited financial statements are acceptable for individual applicants as long as the statement provides a reliable basis for evaluation, unless the administrative law judge or the Board otherwise requires. Financial statements or reports filed with or reported to a Federal or State agency, prepared before the initiation of the adversary proceeding for other purposes, and accurate as of a date not more than three months prior to the initiation of the proceeding, shall be acceptable in establishing net worth as of the time of the initiation of the proceeding, unless the administrative law judge or the Board otherwise requires.

(2) In the case of applicants or affiliates that are not banks, net worth shall be considered for the purposes of this subpart to be the excess of total assets over total liabilities, as of the date the underlying proceeding was initiated, except as adjusted under § 263.103(c)(5). The net worth of a bank holding company shall be considered on a consolidated basis. Assets and liabilities of individuals shall include those beneficially owned.

(3) If the applicant or any of its affiliates is a bank, the portion of the statement of net worth which relates to the bank shall consist of a copy of the bank's last Consolidated Report of Condition and Income filed before the initiation of the adversary adjudication. Net worth shall be considered for the purposes of this subpart to be the total equity capital (or, in the case of mutual savings banks, the total surplus accounts) as reported, in conformity with applicable instructions and guidelines, on the bank's Consolidated Report of Condition and Income filed for the last reporting date before the initiation of the proceeding.

(c) *Statement confidential.* Unless otherwise ordered by the Board or required by law, the statement of net worth shall be for the confidential use of the Board, counsel for the Board, and the administrative law judge.

§ 263.106 Measure of awards.

(a) *General rule.* Awards shall be based on rates customarily charged by persons engaged in the business of acting as attorneys, agents, and expert witnesses, provided that no award under this subpart for the fee of an attorney or agent shall exceed $75 per hour. No award to compensate an expert witness shall exceed the highest rate at which the Board pays expert witnesses. An award may include the reasonable expenses of the attorney, agent, or expert witness as a separate item, if the attorney, agent, or expert witness ordinarily charges clients separately for such expenses.

(b) *Determination of reasonableness of fees.* In determining the reasonableness of the fee sought for an attorney, agent, or expert witness, subject to the limits set forth above, the administrative law judge shall consider the following:

(1) If the attorney, agent, or expert witness is in private practice, his or her customary fee for like services.

(2) The prevailing rate for similar services in the community in which the attorney, agent, or expert witness ordinarily performs services;

(3) The time actually spent in the representation of the applicant;

(4) The time reasonably spent in light of the difficulty or complexity of the issues in the proceeding; and

(5) Such other factors as may bear on the value of the services provided.

(c) *Awards for studies.* The reasonable cost of any study, analysis, test, project, or similar matter prepared on behalf of an applicant may be awarded to the extent that the charge for the service does not exceed the prevailing rate payable for similar services, and the study or other matter was necessary solely for preparation of the applicant's case and not otherwise required by law or sound business or financial practice.

§ 263.107 Statement of fees and expenses.

The application shall be accompanied by a statement fully documenting the fees and expenses for which an award is sought. A separate itemized statement shall be submitted for each professional firm or individual whose services are covered by the application, showing the hours spent in work in connection with the proceeding by each individual, a description of the specific services performed, the rate at which each fee has been computed, any expenses for which reimbursement is sought, the total amount claimed, and the total amount paid or payable by the applicant or by any other person or entity for the services performed. The administrative law judge or the Board may require the applicant to provide vouchers, receipts, or other substantiation for any expenses claimed.

§ 263.108 Responses to application.

(a) *By counsel for the Board.* (1) Within 20 days after service of an

VOL 56 ISS 116 JE 17 1991 UMI

application, counsel for the Board may file an answer to the application.

(2) The answer shall explain in detail any objections to the award requested and identify the facts relied on in support of the Board's position. If the answer is based on any alleged facts not already in the record of the proceeding, the answer shall include either supporting affidavits or a request for further proceedings under § 263.109, or both.

(b) *Reply to answer.* The applicant may file a reply only if the Board has addressed in its answer any of the following issues: that the position of the agency was substantially justified, that the applicant unduly protracted the proceedings, or that special circumstances make an award unjust. Any reply authorized by this section shall be filed within 15 days of service of the answer. If the reply is based on any alleged facts not already in the record of the proceeding, the reply shall include either supporting affidavits or a request for further proceedings under § 263.109, or both.

(c) *Additional responses.* Additional filings in the nature of pleadings may be submitted only by leave of the administrative law judge.

§ 263.109 Further proceedings.

(a) *General rule.* The determination of a recommended award shall be made by the administrative law judge on the basis of the written record of the adversary adjudication, including any supporting affidavits submitted in connection with the application, unless, on the motion of either the applicant or Board counsel, or sua sponte, the administrative law judge or the Board orders further proceedings to amplify the record such as an informal conference, oral argument, additional written submissions, or an evidentiary hearing. Such further proceedings shall be held only when necessary for full and fair resolution of the issues arising from the application and shall be conducted promptly and expeditiously.

(b) *Request for further proceedings.* A request for further proceedings under this section shall specifically identify the information sought or the issues in dispute and shall explain why additional proceedings are necessary.

(c) *Hearing.* The administrative law judge shall hold an oral evidentiary hearing only on disputed issues of material fact which cannot be adequately resolved through written submissions.

§ 263.110 Recommended decision.

The administrative law judge shall file with the Board a recommended decision on the fee application not later than 30 days after the submission of all pleadings and evidentiary material concerning the application. The recommended decision shall include written proposed findings and conclusions on the applicant's eligibility and its status as a prevailing party and, if applicable, an explanation of the reasons for any difference between the amount requested and the amount of the recommended award. The recommended decision shall also include, if at issue, proposed findings as to whether the Board's position was substantially justified, whether the applicant unduly protracted the proceedings, or whether special circumstances make an award unjust. The administrative law judge shall file the record of the proceeding on the fee application upon the filing of the recommended decision and, at the same time, serve upon each party a copy of the recommended decision, findings, conclusions, and proposed order.

§ 263.111 Action by the Board.

(a) *Exceptions to recommended decision.* Within 20 days after service of the recommended decision, findings, conclusions, and proposed order, the applicant or counsel for the Board may file written exceptions thereto. A supporting brief may also be filed.

(b) *Decision by the Board.* The Board shall render its decision within 90 days after it has notified the parties that the matter has been received for decision. The Board shall serve copies of the decision and order of the Board upon the parties. Judicial review of the decision and order may be obtained as provided in 5 U.S.C. 504(c)(2).

Dated: June 5, 1991.

William W. Wiles,

Secretary of the Board.

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Part 308

List of Subjects in 12 CFR Part 308

Administrative practice and procedure, Banks, Banking, *Ex parte* communication, Hearing procedure, Penalties, State nonmember banks.

Authority and Issuance

For the reasons set forth in the common preamble, part 308 of chapter III of title 12 of the Code of Federal Regulations is proposed to be amended as set forth below:

PART 308—RULES OF PRACTICE AND PROCEDURE

1. The authority citation for part 308 is revised to read as follows:

Authority: 12 U.S.C. 1813(e), 1817 (a) and (j), 1818, 1820, 1828(j), 1829, 1831i (secs. 5(a), 7(a), 7(j), 8, 10, 18(j), 19, and 32 of the FDIA); 15 U.S.C. 78l(h), 78m, 78n(a), 78n(c), 78n(d), 78n(f), 78o, 78o–4(c)(5), 78p, 78q, 78q–1, 78s (secs. 12(h), 13, 14(a), 14(c), 14(d), 14(f), 15(b)(4), 15B(c)(5), 16, 17, 17A, 19 of the Securities Exchange Act of 1934); 5 U.S.C. 504 (Equal Access to Justice Act); 5 U.S.C. 554–557 (secs. of the Administrative Procedure Act).

2. Subpart A is revised to read as set forth at the end of the common preamble.

Subpart A—Uniform Rules of Practice and Procedure

3. Subparts B through N and subpart P are revised and subpart O is added to read as follows:

Subpart B—General Rules of Procedure

Sec.
- 308.100 Definitions.
- 308.101 Scope of Local Rules.
- 308.102 Authority of Board of Directors and Executive Secretary.
- 308.103 Appointment of administrative law judge.
- 308.104 Filings with the Board of Directors.
- 308.105 Custodian of the record.
- 308.106 Written testimony in lieu of oral hearing.
- 308.107 Document discovery.

Subpart C—Rules of Practice Before the FDIC and Standards of Conduct

- 308.108 Sanctions.
- 308.109 Suspension and disbarment.

Subpart D—Rules and Procedures Applicable to Proceedings Relating to Disapproval of Acquisition of Control

- 308.110 Scope.
- 308.111 Grounds for disapproval.
- 308.112 Notice of disapproval.
- 308.113 Answer to notice of disapproval.
- 308.114 Burden of proof.

Subpart E—Rules and Procedures Applicable to Proceedings Relating To Assessment of Civil Penalties for Willful Violations of the Change in Bank Control Act

- 308.115 Scope.
- 308.116 Assessment of penalties.
- 308.117 Effective date of, and payment under, an order to pay.
- 308.118 Collection of penalties.

Subpart F—Rules and Procedures Applicable to Proceedings for Involuntary Termination of Insured Status

- 308.119 Scope.
- 308.120 Grounds for termination of insurance.
- 308.121 Notification to primary regulator.
- 308.122 Notice of intent to terminate.
- 308.123 Notice to depositors.
- 308.124 Involuntary termination of insured status for failure to receive deposits.
- 308.125 Temporary suspension of deposit insurance.
- 308.126 Special supervisory associations.

Subpart G—Rules and Procedures Applicable to Proceedings Relating to Cease-and-Desist Orders

- 308.127 Scope.
- 308.128 Grounds for cease-and-desist orders.
- 308.129 Notice to state supervisory authority.
- 308.130 Effective date of order and service on bank.
- 308.131 Temporary cease-and-desist order.

Subpart H—Rules and Procedures Applicable To Proceedings Relating To Assessment and Collection of Civil Money Penalties for Violation of Cease-and-Desist Orders and of Certain Federal Statutes, Including Call Report Penalties

Sec.
- 308.132 Assessment of penalties.
- 308.133 Effective date of, and payment under, an order to pay.

Subpart I—Rules and Procedures for Imposition of Sanctions Upon Municipal Securities Dealers or Persons Associated With Them and Clearing Agencies or Transfer Agents

- 308.134 Scope.
- 308.135 Grounds for imposition of sanctions.
- 308.136 Notice to and consultation with the Securities and Exchange Commission.
- 308.137 Effective date of order imposing sanctions.

Subpart J—Rules and Procedures Relating To Exemption Proceedings Under Section 12(h) of the Securities Exchange Act of 1934

- 308.138 Scope.
- 308.139 Application for exemption.
- 308.140 Newspaper notice.
- 308.141 Notice of hearing.
- 308.142 Hearing.
- 308.143 Decision of Board of Directors.

Subpart K—Procedures Applicable To Investigations Pursuant to Section 10(c) of the Act

- 308.144 Scope.
- 308.145 Conduct of investigation.
- 308.146 Powers of person conducting investigation.
- 308.147 Investigations confidential.
- 308.148 Rights of witnesses.
- 308.149 Service of subpoena.
- 308.150 Transcripts.

Subpart L—Procedures and Standards Applicable to a Notice of Change in Senior Executive Officer or Director Pursuant to Section 32 of the Act

- 308.151 Scope.
- 308.152 Grounds for disapproval of notice.
- 308.153 Procedures where notice of disapproval issues pursuant to § 303.14 of this chapter.
- 308.154 Decision on review.
- 308.155 Hearing.

Subpart M—Procedures and Standards Applicable to an Application Pursuant to Section 19 of the FDIA

- 308.156 Scope.
- 308.157 Relevant considerations.
- 308.158 Filing papers and effective date.
- 308.159 Denial of applications.
- 308.160 Hearings.

Subpart N—Rules and Procedures Applicable to Proceedings Relating to Suspension, Removal, and Prohibition Where a Felony Is Charged

- 308.161 Scope.
- 308.162 Relevant considerations.
- 308.163 Notice of suspension, and orders of removal or prohibition.
- 308.164 Hearings.

Subpart O—Liability of Commonly Controlled Depository Institutions

Sec.
- 308.165 Scope.
- 308.166 Grounds for assessment of liability.
- 308.167 Notice of assessment of liability.
- 308.168 Effective date of and payment under an order to pay.

Subpart P—Rules and Procedures Relating to the Recovery of Attorney Fees and Other Expenses

- 308.169 Scope.
- 308.170 Filing, content, and service of documents.
- 308.171 Responses to application.
- 308.172 Eligibility of applicants.
- 308.173 Prevailing party.
- 308.174 Standards for awards.
- 308.175 Measure of awards.
- 308.176 Application for awards.
- 308.177 Statement of net worth.
- 308.178 Statement of fees and expenses.
- 308.179 Settlement negotiations.
- 308.180 Further proceedings.
- 308.181 Recommended decision.
- 308.182 Board of Directors action.
- 308.183 Payment of awards.

Subpart B—General Rules of Procedure

§ 308.100 Definitions.

For purposes of this part 308, including the Uniform Rules, unless explicitly stated to the contrary:

(a) *Board of Directors* or the *designee* of the Board of Directors means the Board of Directors of the FDIC or the officers or officials of the FDIC acting pursuant to authority delegated by the Board of Directors as provided in 12 CFR part 303 or by specific resolution of the Board of Directors; and

(b) *Executive Secretary* means the Executive Secretary of the FDIC or his or her designee.

§ 308.101 Scope of local rules.

(a) Subparts B and C of the Local Rules prescribe rules of practice and procedure to be followed in the administrative enforcement proceedings initiated by the FDIC as set forth in § 308.01 of the Uniform Rules.

(b) Except as otherwise specifically provided, the Uniform Rules and subpart B of the Local Rules shall not apply to subparts D through P of the Local Rules.

(c) Subpart C of the Local Rules shall apply to any administrative proceeding initiated by the FDIC.

§ 308.102 Authority of Board of Directors and Executive Secretary.

(a) *The Board of Directors.* (1) The Board of Directors may, at any time during the pendency of a proceeding, perform, direct the performance of, or waive performance of, any act which could be done or ordered by the Executive Secretary.

VOL 56 ISS 116 JE 17 1991 UMI

(2) Nothing contained in Part 306 shall be construed to limit the power of the Board of Directors granted by applicable statutes or regulations.

(b) *The Executive Secretary.* When no administrative law judge has jurisdiction over a proceeding, the Executive Secretary may act in place of, and with the same authority as, an administrative law judge, except that the Executive Secretary may not hear a case on the merits or make a recommended decision on the merits to the Board of Directors.

§ 308.103 Appointment of administrative law judge.

(a) *Appointment.* Unless otherwise directed by the Board of Directors or as otherwise provided in the Local Rules, a hearing within the scope of this Part 306 shall be held before an administrative law judge of the Office of Financial Institution Adjudication ("OFIA").

(b) *Procedures.* (1) The Executive Secretary shall promptly after issuance of the Notice refer the matter to the OFIA which shall secure the appointment of an administrative law judge to hear the proceeding.

(2) OFIA shall advise the parties, in writing, that an administrative law judge has been appointed.

§ 308.104 Filings with the Board of Directors.

(a) *General Rule.* All materials required to be filed with or referred to the Board of Directors in any proceedings under this Part 306 shall be filed with the Executive Secretary, Federal Deposit Insurance Corporation, 550 17th Street NW., Washington, DC 20429.

(b) *Scope.* Filings to be made with the Executive Secretary include the record filed by the administrative law judge after the issuance of a recommended decision; the recommended decision filed by the administrative law judge following a motion for summary disposition; referrals by the administrative law judge of motions for interlocutory review; motions and responses to motions filed by the parties after the record has been certified to the Board of Directors; exceptions and requests for oral argument; and any other papers required to be filed with the Board of Directors under this part 306.

§ 308.105 Custodian of the record.

The Executive Secretary is the official custodian of the record when no administrative law judge has jurisdiction over the proceeding. As the official custodian, the Executive Secretary shall maintain the official record of all papers filed in each proceeding.

§ 308.106 Written testimony in lieu of oral hearing.

(a) *General rule.* (1) At any time more than fifteen days before the hearing is to commence, on the motion of any party or on his or her own motion, the administrative law judge may order that the parties present part or all of their case-in-chief and, if ordered, their rebuttal, in the form of exhibits and written statements sworn to by the witness offering such statements as evidence, provided that if any party objects, the administrative law judge shall not require such a format if that format would violate the objecting party's right under the Administrative Procedure Act, or other applicable law, or would otherwise unfairly prejudice that party.

(2) Any such order shall provide that each party shall, upon request, have the same right of oral cross-examination (or redirect examination) as would exist had the witness testified orally rather than through a written statement. Such order shall also provide that any party has a right to call any hostile witness or adverse party to testify orally.

(b) *Scheduling of submission of written testimony.* (1) If written direct testimony and exhibits are ordered under paragraph (a) of this section, the administrative law judge shall require that it be filed within the time period for commencement of the hearing, and the hearing shall be deemed to have commenced on the day such testimony is due.

(2) Absent good cause shown, written rebuttal, if any shall be submitted and the oral portion of the hearing begun within 30 days of the date set for filing written direct testimony.

(3) The administrative law judge shall direct, unless good cause requires otherwise, that—

(i) all parties shall simultaneously file any exhibits and written direct testimony required under paragraph (b)(1) of this section; and

(ii) all parties shall simultaneously file any exhibits and written rebuttal required under paragraph (b)(2) of this section.

(c) *Failure to comply with order to file written testimony.* (1) The failure of any party to comply with an order to file written testimony or exhibits at the time and in the manner required under this section shall be deemed a waiver of that party's right to present any evidence, except testimony of a previously identified adverse party or hostile witness. Failure to file written testimony or exhibits is, however, not a waiver of that party's right of cross-examination or a waiver of the right to present rebuttal evidence that was not required to be submitted in written form.

(2) Late filings of papers under this section may be allowed and accepted only upon good cause shown.

§ 308.107 Document discovery.

(a) Parties to proceedings set forth at § 308.01 of the Uniform Rules and in the Local Rules may obtain discovery only through the production of documents. No other form of discovery shall be allowed.

(b) Any questioning at a deposition of a person producing documents pursuant to a document subpoena shall be strictly limited to the identification of documents produced by that person and a reasonable examination to determine whether the subpoenaed person made an adequate search for, and has produced, all subpoenaed documents.

Subpart C—Rules of Practice Before the FDIC and Standards of Conduct

§ 308.108 Sanctions.

(a) *General rule.* Appropriate sanctions may be imposed when any counsel or party has acted, or failed to act, in a manner required by applicable statute, regulations, or order, and that act or failure to act:

(1) Constitutes contemptuous conduct;

(2) Has in a material way injured or prejudiced some other party in terms of substantive injury, incurring additional expenses including attorney's fees, prejudicial delay, or otherwise;

(3) Is a clear and unexcused violation of an applicable statute, regulation, or order; or

(4) Has unduly delayed the proceeding.

(b) *Sanctions.* Sanctions which may be imposed include any one or more of the following:

(1) Issuing an order against the party;

(2) Rejecting or striking any testimony or documentary evidence offered, or other papers filed, by the party;

(3) Precluding the party from contesting specific issues or findings;

(4) Precluding the party from offering certain evidence or from challenging or contesting certain evidence offered by another party;

(5) Precluding the party from making a late filing or conditioning a late filing on any terms that are just; and

(6) Assessing reasonable expenses, including attorney's fees, incurred by any other party as a result of the improper action or failure to act.

(c) *Limits on dismissal as a sanction.* No recommendation of dismissal shall be made by the administrative law judge or granted by the Board of Directors based on the failure to hold a hearing within the time period called for in this Part 306, or on the failure of an administrative law judge to render a recommended decision within the time period called for in this Part 306, absent a finding:

(1) That the delay resulted solely or principally from the conduct of the FDIC enforcement counsel;

(2) That the conduct of the FDIC enforcement counsel is unexcused;

(3) That the moving respondent took all reasonable steps to oppose and prevent the subject delay;

(4) That the moving respondent has been materially prejudiced or injured; and

(5) That no lesser or different sanction is adequate.

(d) *Procedure for imposition of sanctions.* (1) The administrative law judge, upon the request of any party, or on his or her own motion, may impose sanctions in accordance with this section, provided that the administrative law judge may only recommend to the Board of Directors the sanction of entering a final order determining the case on the merits.

(2) No sanction, other than refusing to accept late papers, authorized by this section shall be imposed without prior notice to all parties and an opportunity for any counsel or party against whom sanctions would be imposed to be heard. Such opportunity to be heard may be on such notice, and the response may be in such form, as the administrative law judge directs. The opportunity to be heard may be limited to an opportunity to respond orally immediately after the act or inaction covered by this section is noted by the administrative law judge.

(3) Requests for the imposition of sanctions by any party, and the imposition of sanctions, shall be treated for interlocutory review purposes in the same manner as any other ruling by the administrative law judge.

(4) *Section not exclusive.* Nothing in this section shall be read as precluding the administrative law judge or the Board of Directors from taking any other action, or imposing any restriction or sanction, authorized by applicable statute or regulation.

§ 308.109 Suspension and disbarment.

(a) *Discretionary suspension and disbarment.* (1) The Board of Directors may suspend or revoke the privilege of any counsel to appear or practice before the FDIC if, after notice of and opportunity for hearing in the matter, that counsel is found by the Board of Directors:

(i) Not to possess the requisite qualifications to represent others;

(ii) To be seriously lacking in character or integrity or to have engaged in material unethical or improper professional conduct;

(iii) To have engaged in, or aided and abetted, a material and knowing violation of the Act; or

(iv) To have engaged in contemptuous conduct before the FDIC.

Suspension or revocation on the grounds set forth in paragraphs (a)(1) (ii), (iii), and (iv) of this section shall only be ordered upon a further finding that the counsel's conduct or character was sufficiently egregious as to justify suspension or revocation.

(2) Unless otherwise ordered by the Board of Directors, an application for reinstatement by a person suspended or disbarred under paragraph (a)(1) of this section may be made in writing at any time more than three years after the effective date of the suspension or disbarment and, thereafter, at any time more than one year after the person's most recent application for reinstatement. The suspension or disbarment shall continue until the applicant has been reinstated by the Board of Directors for good cause shown or until, in the case of a suspension, the suspension period has expired. An applicant for reinstatement under this provision may, in the Board of Directors's sole discretion, be afforded a hearing.

(b) *Mandatory suspension and disbarment.* (1) Any counsel who has been and remains suspended or disbarred by a court of the United States or of any state, territory, district, commonwealth, or possession; or any person who has been and remains suspended or barred from practice before the OCC, Board of Governors, the OTS, the Securities and Exchange Commission, or the Commodity Futures Trading Commission; or any person who has been convicted of a felony, or of a misdemeanor involving moral turpitude, within the last ten years, shall be suspended automatically from appearing or practicing before the FDIC. A disbarment, suspension, or conviction within the meaning of this paragraph (b) shall be deemed to have occurred when the disbarring, suspending, or convicting agency or tribunal enters its judgment or order, regardless of whether an appeal is pending or could be taken, and includes a judgment or an order on a plea of nolo contendere or on consent, regardless of whether a violation is admitted in the consent.

(2) Any person appearing or practicing before the FDIC who is the subject of an order, judgment, decree, or finding of the types set forth in paragraph (b)(1) of this section shall promptly file with the Executive Secretary a copy thereof, together with any related opinion or statement of the agency or tribunal involved. Failure to file any such paper shall not impair the operation of any other provision of this section.

(3) A suspension or disbarment under paragraph (b)(1) of this section from practice before the FDIC shall continue until the applicant has been reinstated by the Board of Directors for good cause shown, provided that any person suspended or disbarred under paragraph (b)(1) of this section shall be automatically reinstated by the Executive Secretary, upon appropriate application, if all the grounds for suspension or disbarment under paragraph (b)(1) are subsequently removed by a reversal of the conviction (or the passage of time since the conviction) or termination of the underlying suspension or disbarment. An application for reinstatement on any other grounds by any person suspended or disbarred under paragraph (b)(1) of this section may be filed at any time not less than one year after the applicant's most recent application. An applicant for reinstatement under this provision may, in the Board of Directors' sole discretion, be afforded a hearing.

(c) *Hearing under this section.* Hearings conducted under this section shall be conducted in substantially the same manner as other hearings under the Uniform Rules, provided that in proceedings to terminate an existing FDIC suspension or disbarment order, the person seeking the termination of the order shall bear the burden of going forward with an application and with proof, and that the Board of Directors may, in its sole discretion, direct that any proceeding to terminate an existing suspension or disbarment by the FDIC be limited to written submissions.

(d) *Summary suspension for contemptuous conduct.* A finding by the administrative law judge of contemptuous conduct during the course of any proceeding shall be grounds for summary suspension by the administrative law judge of a counsel or other representative from any further participation in that proceeding for the duration of that proceeding.

(e) *Practice defined.* Unless the Board of Directors orders otherwise, for the purposes of this section, practicing before the FDIC includes, but is not limited to, transacting any business with the FDIC as counsel or agent for any

VOL 56 ISS 116 JE 17 1991 UMI

other person and the preparation of any statement, opinion, or other paper by a counsel, which statement, opinion, or paper is filed with the FDIC in any registration statement, notification, application, report, or other document, with the consent of such counsel.

Subpart D—Rules and Procedures Applicable to Proceedings Relating to Disapproval of Acquisition of Control

§ 308.110 Scope.

Except as specifically indicated in this subpart, the rules and procedures in this subpart, subpart B of the Local Rules, and the Uniform Rules shall apply to proceedings in connection with the disapproval by the Board of Directors or its designee of a proposed acquisition of control of an insured nonmember bank.

§ 308.111 Grounds for disapproval.

The following are grounds for disapproval of a proposed acquisition of control of an insured nonmember bank:

(a) The proposed acquisition of control would result in a monopoly or would be in furtherance of any combination or conspiracy to monopolize or attempt to monopolize the banking business in any part of the United States;

(b) The effect of the proposed acquisition of control in any section of the United States may be to substantially lessen competition or to tend to create a monopoly or would in any other manner be in restraint of trade, and the anticompetitive effects of the proposed acquisition of control are not clearly outweighed in the public interest by the probable effect of the transaction in meeting the convenience and needs of the community to be served;

(c) The financial condition of any acquiring person might jeopardize the financial stability of the bank or prejudice the interests of the depositors of the bank;

(d) The competence, experience, or integrity of any acquiring person or of any of the proposed management personnel indicates that it would not be in the interest of the depositors of the bank, or in the interest of the public, to permit such person to control the bank;

(e) Any acquiring person neglects, fails, or refuses to furnish to the FDIC all the information required by the FDIC; or

(f) The FDIC determines that the proposed acquisition would result in an adverse effect on the Bank Insurance Fund or the Savings Association Insurance Fund.

§ 308.112 Notice of disapproval.

(a) *General rule.* (1) Within three days of the decision by the Board of Directors or its designee to disapprove a proposed acquisition of control of an insured nonmember bank, a written notice of disapproval shall be mailed by first class mail to, or otherwise served upon, the party seeking acquire control.

(2) The notice of disapproval shall:

(i) Contain a statement of the basis for the disapproval; and

(ii) Indicate that a hearing may be requested by filing a written request with the Executive Secretary within ten days after service of the notice of disapproval; and if a hearing is requested, that an answer to the notice of disapproval, as required by § 308.113, must be filed within 20 days after service of the notice of disapproval.

(b) *Waiver of hearing.* Failure to request a hearing pursuant to this section shall constitute a waiver of the opportunity for a hearing and the notice of disapproval shall constitute a final and unappealable order.

(c) Section 308.18(b) of the Uniform Rules shall not apply to the content of the Notice of Disapproval.

§ 308.113 Answer to notice of disapproval.

(a) *Contents.* (1) An answer to the notice of disapproval of a proposed acquisition of control shall be filed within 20 days after service of the notice of disapproval and shall specifically deny those portions of the notice of disapproval which are disputed. Those portions of the notice of disapproval which are not specifically denied are deemed admitted by the applicant.

(2) Any hearing under this subpart shall be limited to those parts of the notice of disapproval that are specifically denied.

(b) *Failure to answer.* Failure of a party to file a timely answer pursuant to this section shall be deemed a waiver of the party's right to appear at a hearing and contest the disapproval and the notice of disapproval shall constitute a final and unappealable order.

§ 308.114 Burden of proof.

The ultimate burden of proof shall be upon the person proposing to acquire a depository institution. The burden of going forward with a *prima facie* case shall be upon the FDIC.

Subpart E—Rules and Procedures Applicable to Proceedings Relating to Assessment of Civil Penalties for Willful Violations of the Change in Bank Control Act

§ 308.115 Scope.

The rules and procedures of this subpart, subpart B of the Local Rules and the Uniform Rules shall apply to proceedings to assess civil penalties against any person for willful violation of the Change in Bank Control Act of 1978, or any regulation or order issued pursuant thereto, in connection with the affairs of an insured nonmember bank.

§ 308.116 Assessment of penalties.

(a) *In general.* The civil money penalty shall be assessed upon the service of a Notice of Assessment which shall become final and unappealable unless the respondent both requests a hearing pursuant to § 308.19(a); and files an answer pursuant to the provisions of § 308.19 of the Uniform Rules.

(b) *Amount.* (1) Any person who violates any provision of the Change in Bank Control Act or any rule, regulation, or order issued by the FDIC pursuant thereto, shall forfeit and pay a civil money penalty of not more than $5,000 for each day the violation continues.

(2) Any person who violates any provision of the Change in Bank Control Act or any rule, regulation, or order issued by the FDIC pursuant thereto; or recklessly engages in any unsafe or unsound practice in conducting the affairs of a depository institution; or breaches any fiduciary duty; which violation, practice or breach is part of a pattern of misconduct; or causes or is likely to cause more than a minimal loss to such institution; or results in pecuniary gain or other benefit to such person, shall forfeit and pay a civil money penalty of not more than $25,000 for each day such violation, practice or breach continues.

(3) Any person who knowingly violates any provision of the Change in Bank Control Act or any rule, regulation, or order issued by the FDIC pursuant thereto; or engages in any unsafe or unsound practice in conducting the affairs of a depository institution; or breaches any fiduciary duty; and knowingly or recklessly causes a substantial loss to such institution or a substantial pecuniary gain or other benefit to such institution or a substantial pecuniary gain or other benefit to such person by reason of such violation, practice or breach, shall forfeit and pay a civil money penalty not to exceed:

(i) In the case of a person other than a depository institution—$1,000,000 per day for each day the violation, practice or breach continues; or

(ii) In the case of a depository institution—an amount not exceed the lesser of $1,000,000 or one percent of the total assets of such institution for each day the violation, practice or breach continues.

(c) *Mitigating factors.* In assessing the amount of the penalty, the Board of Directors or its designee shall consider the gravity of the violation, the history of previous violations, respondent's financial resources, good faith, and any other matters as justice may require.

(d) *Failure to answer.* Failure of a party to file a timely answer pursuant to this section shall be deemed a waiver of the party's right to appear at a hearing and contest the allegations in the notice.

§ 308.117 Effective date of, and payment under, an order to pay.

If the respondent both requests a hearing and serves an answer, civil penalties assessed pursuant to this subpart are due and payable 60 days after an order to pay, issued after the hearing or upon default, is served upon the respondent, unless the order provides for a different period of payment. Civil penalties assessed pursuant to an order to pay issued upon consent are due and payable within the time specified therein.

§ 308.118 Collection of penalties.

The FDIC may collect any civil penalty assessed pursuant to this subpart by agreement with the respondent, or the FDIC may bring an action against the respondent to recover the penalty amount in the appropriate United States district court. All penalties collected under this section shall be paid over to the Treasury of the United States.

Subpart F—Rules and Procedures Applicable to Proceedings for Involuntary Termination of Insured Status

§ 308.119 Scope.

(a) *Involuntary termination of insurance pursuant to section 8(a) of the FDIA.* The rules and procedures in this subpart, subpart B of the Local Rules and the Uniform Rules shall apply to proceedings in connection with the involuntary termination of the insured status of an insured bank depository institution or an insured branch of a foreign bank pursuant to section 8(a) of the FDIA (12 U.S.C. 2628(a)), except that the Uniform Rules and subpart B of the Local Rules shall not apply to the temporary suspension of insurance pursuant to section 8(a)(8) of the FDIA (12 U.S.C. 1818(a)(8)).

(b) *Involuntary termination of insurance pursuant to section 8(p) of the Act.* The rules and procedures in § 308.124 of this subpart F shall apply to proceedings in connection with the involuntary termination of the insured status of an insured depository institution or an insured branch of a foreign bank pursuant to section 8(p) of the FDIA (12 U.S.C. 1818(p)). The Uniform Rules shall not apply to proceedings under section 8(p) of the FDIA.

§ 308.120 Grounds for termination of insurance.

(a) *General rule.* The following are grounds for involuntary termination of insurance pursuant to section 8(a) of the FDIA:

(1) An insured depository institution or its directors or trustees have engaged or are engaging in unsafe or unsound practices in conducting the business of such depository institution;

(2) An insured depository institution is in an unsafe or unsound condition such that it should not continue operations as an insured depository institution; or

(3) An insured depository institution or its directors or trustees have violated an applicable law, rule, regulation, order, condition imposed in writing by the FDIC in connection with the granting of any application or other request by the insured depository institution or have violated any written agreement entered into between the insured depository institution and the FDIC.

(b) *Extraterritorial acts of foreign banks.* An act or practice committed outside the United States by a foreign bank or its directors or trustees which would otherwise be a ground for termination of insured status under this section shall be a ground for termination if the Board of Directors finds:

(1) The act or practice has been, is, or is likely to be a cause of, or carried on in connection with or in furtherance of, an act or practice committed within any state, territory, or possession of the United States or the District of Columbia that, in and of itself, would be an appropriate basis for action by the FDIC; or

(2) The act or practice committed outside the United States, if proven, would adversely affect the insurance risk of the FDIC.

(c) *Failure of foreign bank to secure removal of personnel.* The failure of a foreign bank to comply with any order of removal or prohibition issued by the Board of Directors or the failure of any person associated with a foreign bank to appear promptly as a party to a proceeding pursuant to section 8(e) of the FDIA (12 U.S.C. 1818(e)), shall be a ground for termination of insurance of deposits in any branch of the bank.

§ 308.121 Notification to primary regulator.

(a) *Service of notification.* (1) Upon a determination by the Board of Directors or its designee pursuant to § 308.120 of an unsafe or unsound practice or condition or of a violation, a notification shall be served upon the appropriate Federal banking agency of the insured depository institution, or the State banking supervisor if the FDIC is the appropriate Federal banking agency. The notification shall be served not less than 30 days before the Notice of Intent to Terminate Insured Status required by section 8(a)(2)(B) of the FDIA (12 U.S.C. 1818(a)(2)(B)), and § 308.122, except that this period for notification may be reduced or eliminated with the agreement of the appropriate Federal banking agency.

(2) "Appropriate Federal banking agency" shall have the meaning given that term in section 3(q) of the FDIA (12 U.S.C. 283(q)), and shall be the OCC in the case of a national bank, a District bank or an insured Federal branch of a foreign bank; the FDIC in the case of an insured nonmember bank, including an insured State branch of a foreign bank; the Board of Governors in the case of a state member bank; or the OTS in the case of an insured Federal savings association.

(3) In the case of a state nonmember bank, insured Federal branch of a foreign bank, or state member bank, in addition to service of the notification upon the appropriate Federal banking agency, a copy of the notification shall be sent to the appropriate State banking supervisor.

(4) In instances in which a Temporary Order Suspending Insurance is issued pursuant to section 8(a)(8) of the FDIA (12 U.S.C. 1818(a)(8)), the notification may be served concurrently with such order.

(b) *Contents of notification.* The notification shall contain the FDIC's determination, and the facts and circumstances upon which such determination is based, for the purpose of securing correction of such practice, condition, or violation.

§ 308.122 Notice of intent to terminate.

(a) *Notice.* (1) If, after serving the notification under § 308.121, the Board of Directors determines that any unsafe or unsound practices, condition, or violation, specified in the notification,

VOL 56 ISS 116 17 1991 JE UMI

requires the termination of the insured status of the insured depository institution, the Board of Directors or its designee, if it determines to proceed further, shall cause to be served upon the insured depository institution a notice of its intention to terminate insured status not less than 30 days after service of the notification, unless a shorter time period has been agreed upon by the appropriate Federal banking agency.

(2) The Board of Directors or its designee shall cause a copy of the notice to be sent to the appropriate Federal banking agency and to the appropriate State banking supervisor, if any.

§ 308.123 Notice to depositors.

If the Board of Directors enters an order terminating the insured status of an insured depository institution or branch, the insured depository institution shall, on the day that order becomes final, or on such other day as that order prescribes, mail a notification of termination of insured status to each depositor at the depositor's last address of record on the books of the insured depository institution or branch. The insured depository institution shall also publish the notification in two issues of a local newspaper of general circulation and shall furnish the FDIC with proof of such publications. The notification to depositors shall include information provided in substantially the following form:

Notice

(Date)_____

1. The status of the _____, as an (insured depository institution) (insured branch) under the provisions of the Federal Deposit Insurance Act, will terminate as of the close of business on the _____ day of _____, 19_____.

2. Any deposits made by you after that date, either new deposits or additions to existing deposits, will not be insured by the Federal Deposit Insurance Corporation.

3. Insured deposits in the (depository institution) (branch) on the _____ day of _____, 19_____, will continue to be insured, as provided by Federal Deposit Insurance Act, for *2 years* after the close of business on the _____ day of _____, 19_____.

Provided, however, that any withdrawals after the close of business on the _____ day of _____, 19_____, will reduce the insurance coverage by the amount of such withdrawals.

_____

(Name of depository institution or branch)

_____

(Address)

The notification may include any additional information the depository institution deems advisable, provided that the information required by this section shall be set forth in a conspicuous manner on the first page of the notification.

§ 308.124 Involuntary termination of insured status for failure to receive deposits.

(a) *Notice to show cause.* When the Board of Directors or its designee has evidence that an insured depository institution is not engaged in the business of receiving deposits, other than trust funds, the Board of Directors or its designee shall give written notice of this evidence to the depository institution and shall direct the depository institution to show cause why its insured status should not be terminated under the provisions of section 8(p) of the FDIA. The insured depository institution shall have 30 days after receipt of the notice, or such longer period as is prescribed in the notice, to submit affidavits, other written proof, and any legal arguments that it is engaged in the business of receiving deposits other than trust funds.

(b) *Notice of termination date.* If, upon consideration of the affidavits, other written proof, and legal arguments, the Board of Directors determines that the depository institution is not engaged in the business of receiving deposits, other than trust funds, the finding shall be conclusive and the Board of Directors shall notify the depository institution that its insured status will terminate at the expiration of the first full semiannual assessment period following issuance of that notification.

(c) *Notification to depositors of termination of insured status.* Within the time specified by the Board of Directors and prior to the date of termination of its insured status, the depository institution shall mail a notification of termination of insured status to each depositor at the depositor's last address of record on the books of the depository institution. The depository institution shall also publish the notification in two issues of a local newspaper of general circulation and shall furnish the FDIC with proof of such publications. The notification to depositors shall include information provided in substantially the following form:

Notice

(Date)_____

The status of the _____, as an (insured depository institution) (insured branch) under the Federal Deposit Insurance Act, will terminate on the _____ day of _____, 19_____, and its deposits will thereupon cease to be insured.

_____

(Name of depository institution or branch)

_____

(Address)

The notification may include any additional information the depository institution deems advisable, provided that the information required by this section shall be set forth in a conspicuous manner on the first page of the notification.

§ 308.125 Temporary suspension of deposit insurance.

(a) If, while an action is pending under section 8(a)(2) of the FDIA, the Board of Directors, after consultation with the appropriate Federal banking agency, finds that an insured depository institution (other than a special supervisory association to which § 308.126 of this subpart applies) has no tangible capital under the capital guidelines or regulations of the appropriate Federal banking agency, the Board of Directors may issue a Temporary Order Suspending Deposit Insurance, pending completion of the proceedings under section 8(a)(2) of the FDIA.

(b) The temporary order shall be served upon the insured institution and a copy sent to the appropriate Federal banking agency and to the appropriate State banking supervisor.

(c) The temporary order shall become effective ten days from the date of service upon the insured depository institution. Unless set aside, limited, or suspended in proceedings under section 8(a)(8)(D) of the FDIA, the temporary order shall remain effective and enforceable until an order terminating the insured status of the institution is entered by the Board of Directors and becomes final, or the Board of Directors dismisses the proceedings.

(d) Notification to depositors of suspension of insured status. Within the time specified by the Board of Directors and prior to the suspension of insured status, the depository institution shall mail a notification of suspension of insured status to each depositor at the depositor's last address of record on the books of the depository institution. The depository institution shall also publish the notification in two issues of a local newspaper of general circulation and shall furnish the FDIC with proof of such publications. The notification to depositors shall include information provided in substantially the following form:

Notice

(Date)_____

The status of the _____, as an (insured depository institution) (insured branch) under the provisions of the Federal Deposit Insurance Act, will be suspended as of the close of business on the _____ day of _____, 19_____, pending the completion of administrative proceedings under section 8(a) of the Federal Deposit Insurance Act.

2. Any deposits made by you after that date, either new deposits or additions to existing deposits, will not be insured by the Federal Deposit Insurance Corporation.

3. Insured deposits in the (depository institution) (branch) on the _____ day of _____, 19_____, will continue to be insured for _____ after the close of business on the _____ day of _____, 19_____. Provided, however, that any withdrawals after the close of business on the _____ day of _____, 19_____, will reduce the insurance coverage by the amount of such withdrawals.

_____

(Name of depository institution or branch)

_____

(Address)

The notification may include any additional information the depository institution deems advisable, provided that the information required by this section shall be set forth in a conspicuous manner on the first page of the notification.

§ 308.126 Special supervisory associations.

If the Board of Directors finds that a savings association is a special supervisory association under the provisions of section 8(a)(8)(B) of the FDIA for purposes of temporary suspension of insured status, the Board of Directors shall serve upon the association its findings with regard to the determination that the capital of the association, as computed using applicable accounting standards, has suffered a material decline; that such association or its directors or officers, is engaging in an unsafe or unsound practice in conducting the business of the association; that such association is in an unsafe or unsound condition to continue operating as an insured association; or that such association or its directors or officers, has violated any law, rule, regulation, order, condition imposed in writing by any Federal banking agency, or any written agreement, or that the association failed to enter into a capital improvement plan acceptable to the Corporation prior to January, 1990.

Subpart G—Rules and Procedures Applicable to Proceedings Relating to Cease-and-Desist Orders

§ 308.127 Scope.

(a) *Cease-and-desist proceedings under section 8 of the Act.* The rules and procedures of this subpart, subpart B of the Local Rules and the Uniform Rules shall apply to proceedings to order an insured nonmember bank or an institution-affiliated party to cease and desist from practices and violations described in section 8(b) of the FDIA, 12 U.S.C. 1818(b); provided that the provisions of the Uniform Rules and subpart B of the Local Rules shall not apply to the issuance of temporary cease-and-desist orders pursuant to section 8(c) of the FDIA.

(b) *Proceedings under the Securities Exchange Act of 1934.* (1) The rules and procedures of this subpart, subpart B of the Local Rules and the Uniform Rules shall apply to proceedings by the Board of Directors to order a municipal securities dealer to cease and desist from any violation of law or regulation specified in section 15B(c)(5) of the Exchange Act, as amended (15 U.S.C. 78o-4(c)(5)) where the municipal securities dealer is an insured nonmember bank or a subsidiary thereof.

(2) The rules and procedures of this subpart, subpart B of the Local Rules and the Uniform Rules shall apply to proceedings by the Board of Directors to order a clearing agency or transfer agent to cease and desist from failure to comply with the applicable provisions of section 17, 17A and 19 of the Securities Exchange Act of 1934, as amended (15 U.S.C. 78q, 78q-1, 78s), and the applicable rules and regulations thereunder, where the clearing agency or transfer agent is an insured nonmember bank or a subsidiary thereof.

§ 308.128 Grounds for cease-and-desist orders.

(a) *General rule.* The Board of Directors or its designee may issue and have served upon any insured nonmember bank or an institution-affiliated party a Notice, as set forth in § 308.18 of the Uniform Rules for practices and violations as described in § 308.127.

(b) *Extraterritorial acts of foreign banks.* An act, violation or practice committed outside the United States by a foreign bank or an institution-affiliated party that would otherwise be a ground for issuing a cease-and-desist order under paragraph (a) of this section or a temporary cease-and-desist order under § 308.131 of this subpart, shall be a ground for an order if the Board of Directors or its designee finds that:

(1) The act, violation or practice has been, is, or is likely to be a cause of, or carried on in connection with or in furtherance of, an act, violation or practice committed within any state, territory, or possession of the United States or the District of Columbia which act, violation or practice, in and of itself, would be an appropriate basis for action by the FDIC; or

(2) The act, violation or practice, if proven, would adversely affect the insurance risk of the FDIC.

§ 308.129 Notice to state supervisory authority.

The Board of Directors or its designee shall give the appropriate state supervisory authority notification of its intent to institute a proceeding pursuant to subpart G of this part, and the grounds thereof. Any proceedings shall be conducted according to subpart G of this part, unless, within the time period specified in such notification, the state supervisory authority has effected satisfactory corrective action. No insured institution or other party who is the subject of any notice or order issued by the FDIC under this section shall have standing to raise the requirements of this subpart as grounds for attacking the validity of any such notice or order.

§ 308.130 Effective date of order and service on bank.

(a) *Effective date.* A cease-and-desist order issued by the Board of Directors after a hearing, and a cease-and-desist order issued based upon a default, shall become effective at the expiration of 30 days after the service of the order upon the bank or its official. A cease-and-desist order issued upon consent shall become effective at the time specified therein. All cease-and-desist orders shall remain effective and enforceable, except to the extent they are stayed, modified, terminated, or set aside by the Board of Directors or its designee or by a reviewing court.

(b) *Service on banks.* In cases where the bank is not the respondent, the cease-and-desist order shall also be served upon the bank.

§ 308.131 Temporary cease-and-desist order.

(a) *Issuance.* (1) When the Board of Directors or its designee determines that the violation, or the unsafe or unsound practice, as specified in the notice, or the continuation thereof, is likely to cause insolvency or significant dissipation of assets or earnings of the bank, or is likely to weaken the condition of the bank or otherwise prejudice the interests of its depositors prior to the completion of the proceedings under section 8(b) of the FDIA and § 308.128 of this subpart, the

VOL 56 ISS 116 JE 17 1991 UMI

Board of Directors or its designee may issue a temporary order requiring the bank or an institution-affiliated party to immediately cease and desist from any such violation, practice or to take affirmative action to prevent such insolvency, dissipation, condition or prejudice pending completion of the proceedings under section 8(b) of the FDIA.

(2) When the Board of Directors or its designee issues a Notice of charges pursuant to 12 U.S.C. 1818(b)(1) which specifies on the basis of particular facts and circumstances that a bank's books and records are so incomplete or inaccurate that the FDIC is unable, through the normal supervisory process, to determine the financial condition of the bank or the details or purpose of any transaction or transactions that may have a material effect on the financial condition of the bank, then the Board of Directors or its designee may issue a temporary order requiring:

(i) The cessation of any activity or practice which gave rise, whether in whole or in part, to the incomplete or inaccurate state of the books or records; or

(ii) Affirmative action to restore such books or records to a complete and accurate state, until the completion of the proceedings under section 8(b) of the FDIA.

(3) The temporary order shall be served upon the bank or the institution-affiliated party named therein and shall also be served upon the bank in the case where the temporary order applies only to an institution-affiliated party.

(b) *Effective date.* A temporary order shall become effective when served upon the bank or the institution affiliated party. Unless the temporary order is set aside, limited, or suspended by a court in proceedings authorized under section 8(c)(2) of the FDIA, the temporary order shall remain effective and enforceable pending completion of administrative proceedings pursuant to section 8(b) of the FDIA and entry of an order which has become final, or with respect to paragraph (a)(2) of this section the FDIC determines by examination or otherwise that the bank's books and records are accurate and reflect the financial condition of the bank.

(c) *Uniform Rules do not apply.* The Uniform Rules and subpart B of the Local Rules shall not apply to the issuance of temporary orders under this section.

Subpart H—Rules and Procedures Applicable to Proceedings Relating to Assessment and Collection of Civil Money Penalties for Violation of Cease-and-Desist Orders and of Certain Federal Statutes, Including Call Report Penalties

§ 308.132 Assessment of penalties.

(a) *Scope.* The rules and procedures of this subpart, subpart B of the Local Rules, and the Uniform Rules shall apply to proceedings to assess and collect civil money penalties, including civil money penalties for violation of section 7(a) of the FDIA (12 U.S.C. 1817(a)).

(b) *Relevant considerations.* In determining the amount of the civil penalty to be assessed, the Board of Directors or its designee shall consider the financial resources and good faith of the bank or official, the gravity of the violation, the history of previous violations, and any such other matters as justice may require.

(c) *Amount.* (1) The Board of Directors or its designee may assess civil money penalties pursuant to section 8(i) of the FDIA (12 U.S.C. 1818(i)), and § 308.01(e)(1) of the Uniform Rules.

(2) The Board of Directors or its designee may assess civil penalties pursuant to section 7(a) of the FDIA (12 U.S.C. 1817(a)) as follows:

(i) *Late filing—Tier One Penalties.* In cases in which a bank fails to make or publish its Report of Condition and Income ("Call Report") within the appropriate time periods, the Board of Directors or its designee may assess a civil money penalty of not more than $2,000 per day where the bank maintains procedures in place reasonably adapted to avoid inadvertent error and the late filing occurred unintentionally and as a result of such error; or the bank inadvertently transmitted a Call Report which is minimally late.

(A) *First offense.* Generally, in such cases, the amount assessed shall be $300 per day for each of the first 15 days for which the failure continues, and $800 per day for each subsequent day the failure continues, beginning on the sixteenth day. For banks with less than $25,000,000 in assets, the amount assessed shall be the greater of $100 per day or 1/1000th of the bank's total assets (1/10th of a basis point) for each of the first 15 days for which the failure continues, and $200 or 1/500th of the bank's total assets, 1/5 of a basis point) for each subsequent day the failure continues, beginning on the sixteenth day.

(B) *Second offense.* Where the bank has been delinquent in making or publishing its Call Report within the preceding five quarters, the amount assessed for the most current failure shall generally be $300 per day for each of the first 15 days for which the failure continues, and $1000 per day for each subsequent day the failure continues, beginning on the sixteenth day. For banks with less than $25,000,000 in assets, those amounts, respectively, shall be 1/500th of the bank's total assets and 1/250th of the bank's total assets.

(C) *Mitigating factors.* The amounts set forth in paragraph (c)(2)(i)(A) of this section may be reduced based upon the factors set forth in paragraph (b) of this section.

(D) *Lengthy or repeated violations.* The amounts set forth in paragraph (c)(2)(i) of this section will be assessed on a case-by-case basis where the amount of time of the bank's delinquency is lengthy or the bank has been delinquent repeatedly in making or publishing its Call Reports.

(E) *Waiver.* Absent extraordinary circumstances outside the control of the bank, penalties assessed for late filing shall not be waived.

(ii) *Late filing—Tier Two penalties.* Where a bank fails to make or publish its Call Report within the appropriate time period, the Board of Directors or its designee may assess a civil money penalty of not more than $20,000 per day for each day the failure continues.

(iii) *False or misleading reports or information*—(A) *Tier One penalties.* In cases in which a bank submits or publishes any false or misleading Call Report or information, the Board of Directors or its designee may assess a civil money penalty of not more than $2,000 per day for each day the information is not corrected, where the bank maintains procedures in place reasonably adapted to avoid inadvertent error and the violation occurred unintentionally and as a result of such error; or the bank inadvertently transmits a Call Report or information which is false or misleading.

(B) *Tier Two penalties.* Where a bank submits or publishes any false or misleading Call Report or other information, the Board of Directors or its designee may assess a civil money penalty of not more than $20,000 per day for each day the information is not corrected.

(C) *Tier Three penalties.* Where a bank knowingly or with reckless disregard for the accuracy of any Call Report or information submits or publishes any false or misleading Call Report or other information, the Board of Directors or its designee may assess a civil money penalty of not more than the lesser of $1,000,000 or 1 percent of the bank's total assets per day for each day the information is not corrected.

(D) *Mitigating factors.* The amounts set forth in paragraph (c)(2) of this section may be reduced based upon the factors set forth in paragraph (b) of this section.

§ 308.133 Effective date of, and payment under, an order to pay.

(a) *Effective date.* (1) Unless otherwise provided in the Notice, except in situations covered by paragraph (a)(2) of this section, civil penalties assessed pursuant to this subpart are due and payable 60 days after the Notice is served upon the respondent.

(2) If the respondent both requests a hearing and serves an answer, civil penalties assessed pursuant to this subpart are due and payable 60 days after an order to pay, issued after the hearing or upon default, is served upon the respondent, unless the order provides for a different period of payment. Civil penalties assessed pursuant to an order to pay issued upon consent are due and payable within the time specified therein.

(b) *Payment.* All penalties collected under this section shall be paid over to the Treasury of the United States.

Subpart I—Rules and Procedures for Imposition of Sanctions Upon Municipal Securities Dealers or Persons Associated With Them and Clearing Agencies or Transfer Agents

§ 308.134 Scope.

The rules and procedures in this subpart, subpart B of the Local Rules and the Uniform Rules shall apply to proceedings by the Board of Directors or its designee:

(a) To censure, limit the activities of, suspend, or revoke the registration of, any municipal securities dealer for which the FDIC is the appropriate regulatory agency;

(b) To censure, suspend, or bar from being associated with such a municipal securities dealer, any person associated with such a municipal securities dealer; and

(c) To deny registration, to censure limit the activities of, suspend, or revoke the registration of, any transfer agent or clearing agency for which the FDIC is the appropriate regulatory agency. This subpart and the Uniform Rules shall not apply to proceedings to postpone or suspend registration of a transfer agent or clearing agency pending final determination of denial or revocation of registration.

§ 308.135 Grounds for imposition of sanctions.

(a) *Action under section 15(b)(4) of the Exchange Act.* The Board of Directors or its designee may issue and have served upon any municipal securities dealer for which the FDIC is the appropriate regulatory agency, or any person associated or seeking to become associated with a municipal securities dealer for which the FDIC is the appropriate regulatory agency, a written notice of its intention to censure, limit the activities or functions or operations of, suspend, or revoke the registration of, such municipal securities dealer, or to censure, suspend, or bar the person from being associated with the municipal securities dealer, when the Board of Directors or its designee determines:

(1) That such municipal securities dealer or such person—

(i) has committed any prohibited act or omitted any required act specified in subparagraph (A), (D), or (E) of section 15(b)(4) of the Exchange Act, as amended (15 U.S.C. 78o);

(ii) has been convicted of any offense specified in section 15(b)(4)(B) of the Exchange Act within ten years of commencement of proceedings under this subpart; or

(iii) is enjoined from any act, conduct, or practice specified in section 15(b)(4)(c) of the Exchange Act; and

(2) That it is in the public interest to impose any of the sanctions set forth in paragraph (a) of this section.

(b) *Action under sections 17 and 17A of the Exchange Act.* The Board of Directors or its designee may issue, and have served upon any transfer agent or clearing agency for which the FDIC is the appropriate regulatory agency, a written Notice of its intention to deny registration to, censure, place limitations on the activities or function or operations of, suspend, or revoke the registration of, the transfer agent or clearing agency, when the Board of Directors or its designee determines:

(1) That the transfer agent or clearing agency has willfully violated, or is unable to comply with, any applicable provision of section 17 or 17A of the Exchange Act, as amended, or any applicable rule or regulation issued pursuant thereto; and

(2) That it is in the public interest to impose any of the sanctions set forth in paragraph (b) of this section.

§ 308.136 Notice to and consultation with the Securities and Exchange Commission.

Before initiating any proceedings under § 308.135, the FDIC shall:

(a) Notify the Securities and Exchange Commission of the identity of the municipal securities dealer or associated person against whom proceedings are to be initiated, and the nature of and basis for the proposed action; and (b) Consult with the Commission concerning the effect of the proposed action on the protection of investors and the possibility of coordinating the action with any proceeding by the Commission against the municipal securities dealer or associated person.

§ 308.137 Effective date of order imposing sanctions.

An order issued by the Board of Directors after a hearing or an order issued upon default shall become effective at the expiration of 30 days after the service of the order, except that an order of censure, denial, or revocation of registration is effective when served. An order issued upon consent shall become effective at the time specified therein. All orders shall remain effective and enforceable except to the extent they are stayed, modified, terminated, or set aside by the Board of Directors, its designee, or a reviewing court, provided that orders of suspension shall continue in effect no longer than 12 months.

Subpart J—Rules and Procedures Relating to Exemption Proceedings Under Section 12(h) of the Securities Exchange Act of 1934

§ 308.138 Scope.

The rules and procedures of this subpart J shall apply to proceedings by the Board of Directors or its designee to exempt, in whole or in part, an issuer of securities from the provisions of sections 12(g), 13, 14(a), 14(c), 14(d), or 14(f) of the Exchange Act, as amended (15 U.S.C. 781, 78m, 78n (a), (c), (d) or (f)), or to exempt an officer of a director or beneficial owner of securities of such an issuer from the provisions of section 16 of the Exchange Act (15 U.S.C. 78p).

§ 308.139 Application for exemption.

Any interested person may file a written application for an exemption under this subpart with the Executive Secretary, Federal Deposit Insurance Corporation, 550 17th Street NW., Washington, DC 20429. The application shall specify the exemption sought and the reason therefor, and shall include a statement indicating why the exemption would be consistent with the public interest or the protection of investors.

§ 308.140 Newspaper notice.

(a) *General rule.* If the Board of Directors or its designee, in its sole discretion, decides to further consider

VOL 56 ISS 116 JE 17 1991 UMI

an application for exemption, there shall be served upon the applicant instructions to publish one notification in a newspaper of general circulation in the community where the main office of the issuer is located. The applicant shall furnish proof of such publication to the Executive Secretary or such other person as may be directed in the instructions.

(b) *Contents.* The notification shall contain the name and address of the issuer and the name and title of the applicant, the exemption sought, a statement that a hearing will be held, and a statement that within 30 days of publication of the newspaper notice, interested persons may submit to the FDIC written comments on the application for exemption and a written request for an opportunity to be heard. The address of the FDIC must appear in the notice.

§ 308.141 Notice of hearing.

Within ten days after expiration of the period for receipt of comments pursuant to § 308.140, the Executive Secretary shall serve upon the applicant and any person who has requested an opportunity to be heard written notification indicating the place and time of the hearing. The hearing shall be held not later than 30 days after service of the notification of hearing. The notification shall contain the name and address of the presiding officer designated by the Executive Secretary and a statement of the matters to be considered.

§ 308.142 Hearing.

(a) *Proceedings are informal.* Formal rules of evidence, the adjudicative procedures of the APA (5 U.S.C. 554–557), the Uniform Rules and § 308.108 of subpart B of the Local Rules shall not apply to hearings under this subpart.

(b) *Hearing procedure.* (1) Parties to the hearing may appear personally or through counsel and shall have the right to introduce relevant and material documents and to make an oral statement.

(2) There shall be no discovery in proceeding under this subpart].

(3) The presiding officer shall have discretion to permit presentation of witnesses within specified time limits, provided that a list of witnesses is furnished to the presiding officer prior to the hearing. Witnesses shall be sworn, unless otherwise directed by the presiding officer. The presiding officer may ask questions of any witness and each party may cross-examine any witness presented by an opposing party.

(4) The proceedings shall be on the record and the transcript shall be promptly submitted to the Board of Directors. The presiding officer shall make recommendations to the Board of Directors, unless the Board of Directors, in its sole discretion, directs otherwise.

§ 308.143 Decision of Board of Directors.

Following submission of the hearing transcript to the Board of Directors, the Board of Directors may grant the exemption where it determines, by reason of the number of public investors, the amount of trading interest in the securities, the nature and extent of the issuer's activities, the issuer's income or assets, or otherwise, that the exemption is consistent with the public interest or the protection of investors. Any exemption shall be set forth in an order specifying the terms of the exemption, the person to whom it is granted, and the period for which it is granted. A copy of the order shall be served upon each party to the proceeding.

Subpart K—Procedures Applicable to Investigations Pursuant to Section 10(c) of the Act

§ 308.144 Scope.

The procedures of this subpart shall be followed when an investigation is instituted and conducted in connection with any open or failed insured depository institution, any institutions making application to become insured depository institutions, and affiliates thereof, or with other types of investigations to determine compliance with applicable law and regulations, pursuant to section 10(c) of the FDIA (12 U.S.C. section 1820(c)). The Uniform Rules and subpart B of the Local Rules shall not apply to investigations under this subpart.

§ 308.145 Conduct of investigation.

An investigation conducted pursuant to section 10(c) of the FDIA shall be initiated only upon issuance of an order by the Board of Directors; or by the General Counsel, the Director of the Division of Supervision, the Director of the Division of Liquidation, or their respective designees as set forth at § 303.9 of this chapter. The order shall indicate the purpose of the investigation and designate FDIC's representative(s) to direct the conduct of the investigation. Upon application and for good cause shown, the persons who issue the order of investigation may limit, quash, modify, or withdraw it. Upon the conclusion of the investigation, an order of termination of the investigation shall be issued by the persons issuing the order of investigation.

§ 308.146 Powers of person conducting investigation.

The person designated to conduct a section 10(c) investigation shall have the power, among other things, to administer oaths and affirmations, to take and preserve testimony under oath, to issue subpoenas and subpoenas duces tecum and to apply for their enforcement to the United States District Court for the judicial district or the United States court in any territory in which the main office of the bank, institution, or affiliate is located or in which the witness resides or conducts business. The person conducting the investigation may obtain the assistance of counsel or others from both within and outside the FDIC. The persons who issue the order of investigation may limit, quash, or modify any subpoena or subpoena duces tecum, upon application and for good cause shown. The person conducting an investigation may report to the Board of Directors any instance where any attorney has been guilty of contemptuous conduct. The Board of Directors, upon motion of the person conducting the investigation, or on its own motion, may make a finding of contempt and may then summarily suspend, without a hearing, any attorney representing a witness from further participation in the investigation.

§ 308.147 Investigations confidential.

Investigations conducted pursuant to section 10(c) shall be confidential. Information and documents obtained by the FDIC in the course of such investigations shall not be disclosed, except as provided in part 309 of this chapter and as otherwise required by law.

§ 308.148 Rights of witnesses.

In an investigation pursuant to section 10(c):

(a) Any person compelled or requested to furnish testimony, documentary evidence, or other information, shall upon request be shown and provided with a copy of the order initiating the proceeding;

(b) Any person compelled or requested to provide testimony as a witness or to furnish documentary evidence may be represented by a counsel who meets the requirements of § 308.06 of the Uniform Rules. That counsel may be present and may:

(1) Advise the witness before, during, and after such testimony;

(2) Briefly question the witness at the conclusion of such testimony for clarification purposes; and

(3) Make summary notes during such testimony solely for the use and benefit of the witness;

(c) All persons testifying shall be sequestered. Such persons and their counsel shall not be present during the testimony of any other person, unless permitted in the discretion of the person conducting the investigation;

(d) In cases of a perceived or actual conflict of interest arising out of an attorney's or law firm's representation of multiple witnesses, the person conducting the investigation may require the attorney to comply with the provisions of § 308.06 of the Uniform Rules; and

(e) Witness fees shall be paid in accordance with § 308.14 of the Uniform Rules.

§ 308.149 Service of subpoena.

Service of a subpoena shall be accomplished in accordance with § 308.11 of the Uniform Rules.

§ 308.150 Transcripts.

(a) *General rule.* Transcripts of testimony, if any, in an investigation pursuant to section 10(c) shall be recorded by an official reporter, or by any other person or means designated by the person conducting the investigation. A witness may, solely for the use and benefit of the witness, obtain a copy of the transcript of his or her testimony at the conclusion of the investigation or, at the discretion of the person conducting the investigation, at an earlier time, provided the transcript is available. The witness requesting a copy of his or her testimony shall bear the cost thereof.

(b) *Subscription by witness.* The transcript of testimony shall be subscribed by the witness, unless the person conducting the investigation and the witness, by stipulation, have waived the signing, or the witness is ill, cannot be found, or has refused to sign. If the transcript of the testimony is not subscribed by the witness, the official reporter taking the testimony shall certify that the transcript is a true and complete transcript of the testimony.

Subpart L—Procedures and Standards Applicable to a Notice of Change in Senior Executive Officer or Director Pursuant to Section 32 of the FDIA

§ 308.151 Scope.

The rules and procedures set forth in this subpart shall apply to the notice filed by a state nonmember bank pursuant to section 32 of the FDIA (12 U.S.C. 1831i) for the consent of the FDIC to add to or replace an individual on the board of directors, or to employ any individual as a senior executive officer, or change the responsibilities of any individual to a position of senior executive officer where the bank:

(a) Has been chartered and operating as an insured nonmember bank for less than two years or the insured state branch has been licensed and operating as an insured branch for less than two years;

(b) Has undergone a change in control within the preceding two years; or

(c) Is not in compliance with the minimum capital requirement applicable to it or is otherwise in a troubled condition as determined by the FDIC on the basis of such institution's most recent report of condition or report of examination or inspection.

§ 308.152 Grounds for disapproval of notice.

The Board of Directors or its designee may issue a notice of disapproval with respect to a notice submitted by a state nonmember bank pursuant to section 32 of the FDIA (12 U.S.C. 1831i) where:

(a) The competence, experience, character, or integrity of the individual with respect to whom such notice submitted indicates that it would not be in the best interests of the depositors of the state nonmember bank to permit the individual to be employed by or associated with such bank; or

(b) The competence, experience, character, or integrity of the individual with respect to whom such notice is submitted indicated that it would not be in the best interests of the public to permit the individual to be employed by, or associated with, the state nonmember bank.

§ 308.153 Procedures where notice of disapproval issues pursuant to § 303.14 of this chapter.

(a) The Notice of Disapproval shall be served upon the insured state nonmember bank and the candidate for director or senior executive officer. The Notice of Disapproval shall:

(1) Summarize or cite the relevant considerations specified in § 308.152;

(2) Inform the individual and the bank that a request for review of the disapproval may be filed within fifteen days of receipt of the Notice of Disapproval; and

(3) Specify that additional information, if any, must be contained in the request for review.

(b) The request for review must be filed at the appropriate regional office.

(c) The request for review must be in writing and should:

(1) Specify the reasons why the FDIC should reconsider its disapproval; and

(2) Set forth relevant, substantive and material documents, if any, that for good cause were not previously set forth in the notice required to be filed pursuant to section 32 of the FDIA.

§ 308.154 Decision on review.

(a) Within 30 days of receipt of the request for review, the Board of Director or its designee, shall notify the bank and/or the individual filing the reconsideration (hereafter "petitioner") of the FDIC's decision on review.

(b) If the decision is to grant the review and approve the notice, the bank and the individual involved shall be so notified.

(c) A denial of the request for review pursuant to section 32 of the FDIA shall:

(1) Inform the petitioner that a written request for a hearing, stating the relief desired and the grounds therefor, may be filed with the Executive Secretary within 15 days after the receipt of the denial; and

(2) Summarize or cite the relevant considerations specified in § 308.152.

(d) If a decision is not rendered within 30 days, the petitioner may file a request for a hearing within fifteen days from the date of expiration.

§ 308.155 Hearing.

(a) *Hearing dates.* The Executive Secretary shall order a hearing to be commenced within 30 days after receipt of a request for a hearing filed pursuant to § 308.154. Upon request of the petitioner or the FDIC, the presiding officer or the Executive Secretary may order a later hearing date.

(b) Burden of proof. The ultimate burden of proof shall be upon the candidate for director or senior executive officer. The burden of going forward with a prima facie case shall be upon the FDIC.

(c) *Hearing procedure.* (1) The hearing shall be held in Washington, D.C. or at another designated place, before a presiding officer designated by the Executive Secretary.

(2) The provisions of §§ 308.06 through 308.12, 308.16, and 308.21 of the Uniform Rules and §§ 308.100 through 308.102, and 308.104 through 308.106 of subpart B of the Local Rules shall apply to hearings held pursuant to this subpart.

(3) The petitioner may appear at the hearing and shall have the right to introduce relevant and material documents and make an oral presentation. Members of the FDIC enforcement staff may attend the hearing and participate as a representative of the FDIC enforcement staff.

VOL 56 ISS 116 JE 17 1991 UMI

(4) There shall be no discovery in proceedings under this subpart.

(5) At the discretion of the presiding officer, witnesses may be presented within specified time limits, provided that a list of witnesses is furnished to the presiding officer and to all other parties prior to the hearing. Witnesses shall be sworn, unless otherwise directed by the presiding officer. The presiding officer may ask questions of any witness. Each party shall have the opportunity to cross-examine any witness presented by an opposing party. The transcript of the proceedings shall be furnished, upon request and payment of the cost thereof, to the petitioner afforded the hearing.

(6) In the course of or in connection with any hearing under paragraph (c) of this section the presiding officer shall have the power to administer oaths and affirmations, to take or cause to be taken depositions of unavailable witnesses, and to issue, revoke, quash, or modify subpoenas and subpoenas duces tecum. Where the presentation of witnesses is permitted, the presiding officer may require the attendance of witnesses from any state, territory, or other place subject to the jurisdiction of the United States at any location where the proceeding is being conducted. Witness fees shall be paid in accordance with § 308.14 of the Uniform Rules.

(7) Upon the request of the applicant afforded the hearing, or the members of the FDIC enforcement staff, the record shall remain open for five business days following the hearing for the parties to make additional submissions to the record.

(8) The presiding officer shall make recommendations to the Board of Directors or its designee, where possible, within fifteen days after the last day for the parties to submit additions to the record.

(9) The presiding officer shall forward his or her recommendation to the Executive Secretary who shall promptly certify the entire record, including the recommendation to the Board of Directors or its designee. The Executive Secretary's certification shall close the record.

(d) *Written submissions in lieu of hearing.* The petitioner may in writing waive a hearing and elect to have the matter determined on the basis of written submissions.

(e) *Failure to request or appear at hearing.* Failure to request a hearing shall constitute a waiver of the opportunity for a hearing. Failure to appear at a hearing in person or through an authorized representative shall constitute a waiver of hearing. If a hearing is waived, the order shall be final and unappealable, and shall remain in full force and effect.

(f) *Decision by Board of Directors or its designee.* Within 45 days following the Executive Secretary's certification of the record to the Board of Directors or its designee, the Board of Directors or its designee shall notify the affected individual whether the denial of the notice will be continued, terminated, or otherwise modified. The notification shall state the basis for any decision of the Board of Directors or its designee that is adverse to the petitioner. The Board of Directors or its designee shall promptly rescind or modify the denial where the decision is favorable to the petitioner.

Subpart M—Procedures and Standards Applicable to an Application Pursuant to Section 19 of the FDIA

§ 308.155 Scope.

The rules and procedures set forth in this subpart shall apply to an application filed pursuant to section 19 of the FDIA (12 U.S.C. 1829) by an insured depository institution and a person, who has been convicted of any criminal offense involving dishonesty or a breach of trust or who has agreed to enter into a pretrial diversion or similar program in connection with the prosecution of such offense, to seek the prior written consent of the FDIC to become or continue as an institution-affiliated party with respect to an insured depository institution; to own or control directly or indirectly an insured depository institution; or to participate directly or indirectly in any manner in the conduct of the affairs of an insured depository institution.

§ 308.157 Relevant considerations.

(a) In proceedings under § 308.156 on an application to become or continue as an institution-affiliated party with respect to an insured depository institution; to own or control directly or indirectly an insured depository institution; or to participate directly or indirectly in any manner in the conduct of the affairs of an insured depository institution, the following shall be considered:

(1) Whether the conviction is for a criminal offense involving dishonesty or breach of trust;

(2) Whether participation directly or indirectly by the person in any manner in the conduct of the affairs of the insured depository institution constitutes a threat to the safety or soundness of the insured depository institution or the interests of its depositors, or threatens to impair public confidence in the insured depository institution;

(3) Evidence of the applicant's rehabilitation;

(4) The position to be held by the applicant;

(5) The amount of influence and control the applicant will be able to exercise over the affairs and operations of the insured depository institution;

(6) The ability of the management at the insured depository institution to supervise and control the activities of the applicant;

(7) The level of ownership which the applicant will have at the insured depository institution;

(8) Applicable fidelity bond coverage for the applicant; and

(9) Additional factors in the specific case that appear relevant.

(b) The question of whether a person, who was convicted of a crime or who agreed to enter a pretrial diversion or similar program, was guilty of that crime shall not be at issue in a proceeding under this subpart.

§ 308.158 Filing papers and effective date.

(a) *Filing with the regional office.* Applications pursuant to section 19 shall be filed in the appropriate regional office.

(b) *Effective date.* An application pursuant to section 19 may be made in writing at any time more than one year after the issuance of a decision denying an application pursuant to section 19. The removal and/or prohibition pursuant to section 19 shall continue until the applicant has been reinstated by the Board of Directors or its designee for good cause shown.

§ 308.159 Denial of applications.

A denial of an application pursuant to section 19 shall:

(a) Inform the applicant that a written request for a hearing, stating the relief desired and the grounds therefor and any supporting evidence, may be filed with the Executive Secretary within 60 days after the denial; and

(b) Summarize or cite the relevant considerations specified in § 308.157 of this subpart.

§ 308.160 Hearings.

(a) *Hearing dates.* The Executive Secretary shall order a hearing to be commenced within 60 days after receipt of a request for hearing on an application filed pursuant to § 308.159. Upon the request of the applicant or FDIC enforcement counsel, the presiding officer or the Executive Secretary may order a later hearing date.

(b) *Burden of proof.* The ultimate burden of proof shall be upon the person proposing to become or continue as an institution-affiliated party with respect to an insured depository institution; to own or control directly or indirectly an insured depository institution; or to participate directly or indirectly in any manner in the conduct of the affairs of an insured depository institution. The burden of going forward with *prima facie* case shall be upon the FDIC.

(c) *Hearing procedure.* (1) The hearing shall be held in Washington, DC, or at another designated place, before a presiding officer designated by the Executive Secretary.

(2) The provisions of §§ 308.06 through 308.12, 308.16, and 308.21 of the Uniform Rules and §§ 308.100 through 308.102 and 308.104 through 308.106 of subpart B of the Local Rules shall apply to hearings held pursuant to this subpart.

(3) The applicant may appear at the hearing and shall have the right to introduce relevant and material documents and oral argument. Members of the FDIC enforcement staff may attend the hearing and participate as a party.

(4) There shall be no discovery in proceedings under this subpart.

(5) At the discretion of the presiding officer, witnesses may be presented within specified time limits, provided that a list of witnesses is furnished to the presiding officer and to all other parties prior to the hearing. Witnesses shall be sworn, unless otherwise directed by the presiding officer. The presiding officer may ask questions of any witness. Each party shall have the opportunity to cross-examine any witness presented by an opposing party. The transcript of the proceedings shall be furnished, upon request and payment of the cost thereof, to the applicant afforded the hearing.

(6) In the course of or in connection with any hearing under this subsection, the presiding officer shall have the power to administer oaths and affirmations, to take or cause to be taken depositions of unavailable witnesses, and to issue, revoke, quash, or modify subpoenas and subpoenas duces tecum. Where the presentation of witnesses is permitted, the presiding officer may require the attendance of witnesses from any state, territory, or other place subject to the jurisdiction of the United States at any location where the proceeding is being conducted. Witness fees shall be paid in accordance with § 308.14 of the Uniform Rules.

(7) Upon the request of the applicant afforded the hearing, or FDIC enforcement staff, the record shall remain open for five business days following the hearing for the parties to make additional submissions to the record.

(8) The presiding officer shall make recommendations to the Board of Directors, where possible, within 20 days after the last day for the parties to submit additions to the record.

(9) The presiding officer shall forward his or her recommendation to the Executive Secretary who shall promptly certify the entire record, including the recommendation to the Board of Directors or its designee. The Executive Secretary's certification shall close the record.

(d) *Written submissions in lieu of hearing.* The applicant or the bank may in writing waive a hearing and elect to have the matter determined on the basis of written submissions.

(e) *Failure to request or appear at hearing.* Failure to request a hearing shall constitute a waiver of the opportunity for a hearing. Failure to appear at a hearing in person or through an authorized representative shall constitute a waiver of hearing. If a hearing is waived, the person shall remain barred under section 19.

(f) *Decision by Board of Directors or its designee.* Within 60 days following the Executive Secretary's certification of the record to the Board of Directors or its designee, the Board of Directors or its designee shall notify the affected person whether the person shall remain barred under section 19. The notification shall state the basis for any decision of the Board of Directors or its designee that is adverse to the applicant.

Subpart N—Rules and Procedures Applicable to Proceedings Relating to Suspension, Removal, and Prohibition Where a Felony is Charged

§ 308.161 Scope.

The rules and procedures set forth in this subpart shall apply to the following proceedings:

(a) To suspend an institution-affiliated party of an insured state nonmember bank, or to prohibit such party from further participation in the conduct of the affairs of the bank, where the individual is charged in any state, Federal, or territorial information or indictment, or complaint, with the commission of, or participation in, a crime involving dishonesty or breach of trust punishable by imprisonment exceeding one year under state or Federal law; or

(b) To remove from office or to prohibit an institution-affiliated party from further participation in the conduct of the affairs of the bank, except with the consent of the Board of Directors or its designee, if continued service or participation by such party poses a threat to the interests of the bank's depositors or threatens to impair public confidence in the depository institution, where a judgment of conviction or an agreement to enter a pre-trial diversion or other similar program is entered against such party, not subject to further appellate review, has been entered against the individual for the commission of, or participation in, a crime involving dishonesty or breach of trust punishable by imprisonment exceeding one year under state or Federal law.

§ 308.162 Relevant considerations.

(a)(1) In proceedings under § 308.161 (a) and (b) for a suspension, removal or prohibition order, the following shall be considered:

(i) Whether the alleged offense is a crime which is punishable by imprisonment for a term exceeding one year under state or Federal law, and which involves dishonesty or breach of trust; and

(ii) Whether continued service or participation by the institution-affiliated party may pose a threat to the interest of the bank's depositors, or threatens to impair public confidence in the bank.

(2) Additional factors in the specific case that appear relevant to its decision to continue in effect, rescind, terminate, or modify a suspension, removal or prohibition order may be considered.

(b) The question of whether an institution-affiliated party charged with a crime is guilty of the crime charged shall not be tried or considered in a proceeding under this subpart.

§ 308.163 Notice of suspension and orders of removal or prohibition.

(a) *Notice of suspension or prohibition.* (1) The Board of Directors or its designee may suspend or prohibit from further participation in the conduct of the affairs of the bank an institution-affiliated party by written notice of suspension or prohibition upon a determination by the Board of Directors or its designee that the grounds for such suspension or prohibition exist. The written notice of suspension or prohibition shall be served upon the institution-affiliated party and the bank.

(2) The written notice of suspension shall:

(i) Inform the institution-affiliated party that a written request for a hearing, stating the relief desired and grounds therefore, and any supporting evidence, may be filed with the

VOL
56
ISS

JE
17
1991
UMI

Executive Secretary within 30 days after receipt of the written notice; and

(ii) Summarize or cite to the relevant considerations specified in § 308.162 of this subpart.

(3) The suspension or prohibition shall be effective immediately upon service on the institution-affiliated party, and shall remain in effect until final disposition of the information, indictment, complaint, or until it is terminated by the Board of Directors or its designee under the provisions of § 308.164 or otherwise.

(b) *Order of removal or prohibition.* (1) The Board of Directors or its designee may issue an order removing or prohibiting from further participation in the conduct of the affairs of the bank an institution-affiliated party, when:

(i) A final judgment of conviction not subject to further appellate review is entered against the individual for a crime referred to in § 308.161(b); and

(ii) The Board of Directors or its designee determines that continued service or participation of the institution-affiliated party may threaten the interests of the bank's depositors or may threaten to impair public confidence in the bank.

(2) The order shall be served upon the institution-affiliated party and the bank.

(3) The order shall:

(i) Inform the institution-affiliated party that a written request for a hearing, stating the relief desired and grounds therefor, and any supporting evidence, may be filed with the Executive Secretary within 30 days after receipt of the order; and

(ii) Summarize or cite the relevant considerations specified in § 308.162 of this subpart.

(4) The order shall be effective immediately upon service on the institution-affiliated party, and shall remain in effect until it is terminated by the Board of Directors or its designee under the provisions of § 308.164 or otherwise.

§ 308.164 Hearings.

(a) *Hearing dates.* The Executive Secretary shall order a hearing to be commenced within 30 days after receipt of a request for hearing on an application filed pursuant to § 308.163. Upon the request of the applicant, the presiding officer or the Executive Secretary may order a later hearing date.

(b) *Hearing procedure.* (1) The hearing shall be held in Washington, DC, or at another designated place, before a presiding officer designated by the Executive Secretary.

(2) The provisions of §§ 308.08 through 308.12, 308.18, and 308.21 of the Uniform Rules and §§ 308.100 through 308.102 and 308.104 through 308.108 of subpart B of the Local Rules shall apply to hearings held pursuant to this subpart.

(3) The applicant may appear at the hearing and shall have the right to introduce relevant and material documents and oral argument. Members of the FDIC enforcement staff may attend the hearing and participate as a representative of the FDIC enforcement staff.

(4) There shall be no discovery in proceedings under this subpart.

(5) At the discretion of the presiding officer, witnesses may be presented within specified time limits, provided that a list of witnesses is furnished to the presiding officer and to all other parties prior to the hearing. Witnesses shall be sworn, unless otherwise directed by the presiding officer. The presiding officer may ask questions of any witness. Each party shall have the opportunity to cross-examine any witness presented by an opposing party. The transcript of the proceedings shall be furnished, upon request and payment of the cost thereof, to the applicant afforded the hearing.

(6) In the course of or in connection with any hearing under paragraph (b) of this section, the presiding officer shall have the power to administer oaths and affirmations, to take or cause to be taken depositions of unavailable witnesses, and to issue, revoke, quash, or modify subpoenas and subpoenas duces tecum. Where the presentation of witnesses is permitted, the presiding officer may require the attendance of witnesses from any state, territory, or other place subject to the jurisdiction of the United States at any location where the proceeding is being conducted. Witness fees shall be paid in accordance with § 308.14 of the Uniform Rules.

(7) Upon the request of the applicant afforded the hearing, or the members of the FDIC enforcement staff, the record shall remain open for five business days following the hearing for the parties to make additional submissions to the record.

(8) The presiding officer shall make recommendations to the Board of Directors, where possible, within ten days after the last day for the parties to submit additions to the record.

(9) The presiding officer shall forward his or her recommendation to the Executive Secretary who shall promptly certify the entire record, including the recommendation to the Board of Directors. The Executive Secretary's certification shall close the record.

(c) *Written submissions in lieu of hearing.* The applicant or the bank may in writing waive a hearing and elect to have the matter determined on the basis of written submissions.

(d) *Failure to request or appear at hearing.* Failure to request a hearing shall constitute a waiver of the opportunity for a hearing. Failure to appear at a hearing in person or through an authorized representative shall constitute a waiver of hearing. If a hearing is waived, the order shall be final and unappealable, and shall remain in full force and effect pursuant to § 308.163.

(e) *Decision by Board of Directors or its designee.* Within 60 days following the Executive Secretary's certification of the record to the Board of Directors or its designee, the Board of Directors or its designee shall notify the affected individual whether the order of removal or prohibition will be continued, terminated, or otherwise modified. The notification shall state the basis for any decision of the Board of Directors or its designee that is adverse to the applicant. The Board of Directors or its designee shall promptly rescind or modify an order of removal or prohibition where the decision is favorable to the applicant.

Subpart O—Liability of Commonly Controlled Depository Institutions

§ 308.165 Scope.

The rules and procedures in this subpart, subpart B of the Local Rules and the Uniform Rules shall apply to proceedings in connection with the assessment of cross-guaranty liability against commonly controlled depository institutions.

§ 308.166 Grounds for assessment of liability.

Any insured depository institution shall be liable for any loss incurred or reasonably anticipated to be incurred by the corporation, subsequent to August 9, 1989, in connection with the default of a commonly controlled insured depository institution, or any loss incurred or reasonably anticipated to be incurred in connection with any assistance provided by the Corporation to any commonly controlled depository institution in danger of default.

§ 308.167 Notice of assessment of liability.

(a) The amount of liability shall be assessed upon service of a Notice of Assessment of Liability upon the liable depository institution, within two years of the date the Corporation incurred the loss.

(b) *Contents of Notice.* (1) The Notice of Assessment of Liability shall set forth:

(i) The basis for the FDIC's jurisdiction over the proceeding;

(ii) A statement of the Corporation's good faith estimate of the amount of loss it has incurred or anticipates incurring;

(iii) A statement of the method by which the estimated loss was calculated;

(iv) A proposed order directing payment by the liable institution of the FDIC's estimated amount of loss, and the schedule under which the payment will be due;

(v) In cases involving more than one liable institution, the estimated amount of each institution's share of the liability.

(2) The Notice of Assessment of Liability shall advise the liable institution(s):

(i) That an answer must be filed within 20 days after service of the Notice;

(ii) That, if a hearing is requested, a request for a hearing must be filed within 20 days after service of the Notice;

(iii) That if a hearing is requested, such hearing will be held within the judicial district in which the liable institution is found, or, in cases involving more than one liable institution, within a judicial district in which at least one liable institution is found;

(iv) That, unless the administrative law judge sets a different date, the hearing will commence 120 days after service of the Notice of Assessment of Liability;

(v) That failure to file both an answer and request a hearing shall render the Notice of Assessment a final and unappealable order.

§ 308.168 Effective date of and payment under an order to pay.

(a) Unless otherwise provided in the Notice of Assessment of Liability, payment of the assessment shall be due on or before the 21st day after service of the Assessment of Liability, under the terms of the schedule for payment set forth therein.

(b) All payments collected shall be paid to the Corporation.

(c) Failure to both file an answer and request a hearing as prescribed herein shall render the order to pay final and unappealable.

Subpart P—Rules and Procedures Relating to the Recovery of Attorney Fees and other Expenses

§ 308.169 Scope.

This subpart, and the Equal Access to Justice Act (5 U.S.C. 504), which it implements, apply to adversary adjudications before the FDIC. The types of adjudication covered by this subpart are those listed in § 308.01 of the Uniform Rules. The Uniform Rules and subpart B of the Local Rules apply to any proceedings to recover fees and expenses under this subpart.

§ 308.170 Filing, content, and service of documents.

(a) *Time to file.* An application and any other pleading or document related to the application may be filed with the Executive Secretary whenever the applicant has prevailed in the proceeding or in a discrete significant substantive portion of the proceeding within 30 days after service of the final order of the Board of Directors in disposition of the proceeding.

(b) *Content.* The application and related documents shall conform to the requirements of § 308.10 of the Uniform Rules.

(c) *Service.* The application and related documents shall be served on all parties to the adversary adjudication in accordance with § 308.11 of the Uniform Rules, except that statements of net worth shall be served only on counsel for the FDIC.

(d) Upon receipt of an application, the Executive Secretary shall refer the matter to the administrative law judge who heard the underlying adversary proceeding, provided that if the original administrative law judge is unavailable, or the Executive Secretary determines, in his or her sole discretion, that there is cause to refer the matter to a different administrative law judge, the matter shall be referred to a different administrative law judge.

§ 308.171 Responses to application.

(a) *By FDIC.* (1) Within 20 days after service of an application, counsel for the FDIC may file with the Executive Secretary and serve on all parties an answer to the application. Unless counsel for the FDIC requests and is granted an extension of time for filing or files a statement of intent to negotiate under § 308.179 of this subpart, failure to file an answer within the 20-day period will be treated as a consent to the award requested.

(2) The answer shall explain in detail any objections to the award requested and identify the facts relied on in support of the FDIC's position. If the answer is based on any alleged facts not already in the record of the proceeding, the answer shall include either supporting affidavits or a request for further proceedings under § 308.180.

(b) *Reply to answer.* The applicant may file a reply if the FDIC has addressed in its answer any of the following issues: that the position of the FDIC was substantially justified, that the applicant unduly protracted the proceedings, or that special circumstances make an award unjust. The reply shall be filed within 15 days after service of the answer. If the reply is based on any alleged facts not already in the record of the proceeding, the reply shall include either supporting affidavits or a request for further proceedings under § 308.180.

(c) *By other parties.* Any party to the adversary adjudication, other than the applicant and the FDIC, may file comments on an application within 20 days after service of the application. If the applicant is entitled to file a reply to the FDIC's answer under paragraph (b) of this section, another party may file comments on the answer within 15 days after service of the answer. A commenting party may not participate in any further proceedings on the application unless the administrative law judge determines that the public interest requires such participation in order to permit additional exploration of matters raised in the comments.

(d) *Additional response.* Additional filings in the nature of pleadings may be submitted only by leave of the administrative law judge.

§ 308.172 Eligibility of applicants.

(a) *General rule.* To be eligible for an award under this subpart, an applicant must have been named or admitted as a party to the proceeding. In addition, the applicant must show that it meets all other conditions of eligibility set out in paragraph (b) of this section.

(b) *Types of eligible applicant.* The types of eligible applicant are:

(1) An individual with a net worth of not more than $2,000,000 at the time the adversary adjudication was initiated; or

(2) Any owner of an unincorporated business, or any partnership, corporation, associations, unit of local government or organization, the net worth of which did not exceed $7,000,000 and which did not have more than 500 employees at the time the adversary adjudication was initiated.

(c) *Factors to be considered.* In determining the types of eligible applicants:

(1) An applicant who owns an unincorporated business shall be considered as an "individual" rather than a "sole owner of an unincorporated business" if the issues on which he or she prevails are related to personal interests rather than to business interests.

(2) An applicant's net worth includes the value of any assets disposed of for

VOL 56 ISS 116 JE 17 1991 UMI

the purpose of meeting an eligibility standard and excludes the value of any obligations incurred for this purpose. Transfers of assets or obligations incurred for less than reasonably equivalent value will be presumed to have been made for this purpose.

(3) The net worth of a bank shall be established by the net worth information reported in conformity with applicable instructions and guidelines on the bank's Consolidated Report of Condition and Income filed for the last reporting date before the initiation of the adversary adjudication.

(4) The employees of an applicant include all those persons who were regularly providing services for remuneration for the applicant, under its direction and control, on the date the adversary adjudication was initiated. Part-time employees are included as though they were full-time employees.

(5) The net worth and number of employees of the applicant and all of its affiliates shall be aggregated to determine eligibility. The aggregated net worth shall be adjusted if necessary to avoid counting the net worth of any entity twice. As used in this subpart, "affiliates" are individuals, corporations, and entities that directly or indirectly or acting through one or more entities control a majority of the voting shares of the applicant; and corporations and entities of which the applicant directly or indirectly owns or controls a majority of the voting shares. The Board of Directors may, however, on the recommendation of the administrative law judge, or otherwise, determine that such aggregation with regard to one or more of the applicant's affiliates would be unjust and contrary to the purposes of this subpart in light of the actual relationship between the affiliated entities. In such a case the net worth and employees of the relevant affiliate or affiliates will not be aggregated with those of the applicant. In addition, the Board of Directors may determine that financial relationships of the applicant other than those described in this paragraph constitute special circumstances that would make an award unjust.

(6) An applicant that participates in a proceeding primarily on behalf of one or more other persons or entities that would be ineligible is not itself eligible for an award.

§ 308.173 Prevailing party.

(a) *General rule.* An eligible applicant who, following an adversary adjudication has gained victory on the merits in the proceeding is a "prevailing party". An eligible applicant may be a "prevailing party" if a settlement of the proceeding was effected on terms favorable to it or if the proceeding against it has been dismissed. In appropriate situations an applicant may also have prevailed if the outcome of the proceeding has substantially vindicated the applicant's position on the significant substantive matters at issue, even though the applicant has not totally avoided adverse final action.

(b) *Segregation of costs.* When a proceeding has presented a number of discrete substantive issues, an applicant may have prevailed even though all the issues were not resolved in its favor. If such an applicant is deemed to have prevailed, any award shall be based on the fees and expenses incurred in connection with the discrete significant substantive issue or issues on which the applicant's position has been upheld. If such segregation of costs is not practicable, the award may be based on a fair proration of those fees and expenses incurred in the entire proceeding which would be recoverable under § 308.175 if proration were not performed, whether separate or prorated treatment is appropriate, and the appropriate proration percentage, shall be determined on the facts of the particular case. Attention shall be given to the significance and nature of the respective issues and their separability and interrelationship.

§ 308.174 Standards for awards.

A prevailing applicant may receive an award for fees and expenses unless the position of the FDIC during the proceeding was substantially justified or special circumstances make the award unjust. An award will be reduced or denied if the applicant has unduly or unreasonably protracted the proceedings. Awards for fees and expenses incurred before the date on which the adversary adjudication was initiated are allowable if their incurrence was necessary to prepare for the proceeding.

§ 308.175 Measure of awards.

(a) *General rule.* Awards will be based on rates customarily charged by persons engaged in the business of acting as attorneys, agents, and expert witnesses, even if the services were made available without charge or at a reduced rate, provided that no award under this subpart for the fee of an attorney or agent may exceed $75 per hour. No award to compensate an expert witness may exceed the highest rate at which the FDIC pays expert witnesses. An award may include the reasonable expenses of the attorney, agent, or expert witness as a separate item, if the attorney, agent, or expert witness ordinarily charges clients separately for such expenses.

(b) *Determination of reasonableness of fees.* In determining the reasonableness of the fee sought for an attorney, agent, or expert witness, the administrative law judge shall consider the following:

(1) If the attorney, agent, or expert witness is in private practice, his or her customary fee for like services, or, if he or she is an employee of the applicant, the fully allocated cost of the services;

(2) The prevailing rate for similar services in the community in which the attorney, agent, or expert witness ordinarily performs services;

(3) The time actually spent in the representation of the applicant;

(4) The time reasonably spent in light of the difficulty or complexity of the issues in the proceeding; and

(5) Such other factors as may bear on the value of the services provided.

(c) *Awards for studies.* The reasonable cost of any study, analysis, test, project, or similar matter prepared on behalf of an applicant may be awarded to the extent that the charge for the service does not exceed the prevailing rate payable for similar services, and the study or other matter was necessary for preparation of the applicant's case and not otherwise required by law or sound business or financial practice.

§ 308.176 Application for awards.

(a) *Contents.* An application for an award of fees and expenses under this subpart shall contain:

(1) The name of the applicant and an identification of the proceeding;

(2) A showing that the applicant has prevailed, and an identification of each issue with regard to which the applicant believes that the position of the FDIC in the proceeding was not substantially justified;

(3) A statement of the amount of fees and expenses for which an award is sought;

(4) If the applicant is not an individual, a statement of the number of its employees on the date the proceeding was initiated;

(5) A description of any affiliated individuals or entities, as defined in § 308.172(c)(5), or a statement that none exist;

(6) A declaration that the applicant, together with any affiliates, had a net worth not more than the ceiling established for it by § 308.172(b) as of the date the proceeding was initiated; and

(7) Any other matters that the applicant wishes the FDIC to consider in determining whether and in what amount an award should be made.

(b) *Verification.* The application shall be signed by the applicant or an authorized officer or attorney of the applicant. It shall also contain or be accompanied by a written verification under oath or under penalty of perjury that the information provided in the application and supporting documents is true and correct.

§ 308.177 Statement of net worth.

(a) *General rule.* A statement of net worth must be filed with the application for an award of fees. The statement shall reflect the net worth of the applicant and all affiliates of the applicant.

(b) *Contents.* (1) The statement of net worth may be in any form convenient to the applicant which fully discloses all the assets and liabilities of the applicant and all the assets and liabilities of its affiliates, as of the time of the initiation of the adversary adjudication. Unaudited financial statements are acceptable unless the administrative law judge or the Board of Directors otherwise requires. Financial statements or reports to a Federal or State agency, prepared before the initiation of the adversary adjudication for other purposes, and accurate as of a date not more than three months prior to the initiation of the proceeding, are acceptable in establishing net worth as of the time of the initiation of the proceeding, unless the administrative law judge or the Board of Directors otherwise requires.

(2) In the case of applicants or affiliates that are not banks, net worth shall be considered for the purposes of this subpart to be the excess of total assets over total liabilities, as of the date the underlying proceeding was initiated, except as adjusted under § 308.172(c)(2). Assets and liabilities of individuals shall include those beneficially owned within the meaning of the FDIC's rules and regulations.

(3) If the applicant or any of its affiliates is a bank, the portion of the statement of net worth which relates to the bank shall consist of a copy of the bank's last Consolidated Report of Condition and Income filed before the initiation of the adversary adjudication. In all cases the administrative law judge or the Board of Directors may call for additional information needed to establish the applicant's net worth as of the initiation of the proceeding. Except as adjusted by additional information that was called for under the preceding sentence, net worth shall be considered for the purposes of this subpart to be the total equity capital (or, in the case of mutual savings banks, the total surplus accounts) as reported, in conformity with applicable instructions and guidelines, on the bank's Consolidated Report of Condition and Income filed for the last reporting date before the initiation of the proceeding.

(c) *Statement confidential.* Unless otherwise ordered by the Board of Directors or required by law, the statement of net worth shall be for the confidential use of counsel for the FDIC, the Board of Directors, and the administrative law judge.

§ 308.178 Statement of fees and expenses.

The application shall be accompanied by a statement fully documenting the fees and expenses for which an award is sought. A separate itemized statement shall be submitted for each professional firm or individual whose services are covered by the application, showing the hours spent in work in connection with the proceeding by each individual, a description of the specific services performed, the rate at which each fee has been computed, any expenses for which reimbursement is sought, the total amount claimed, and the total amount paid or payable by the applicant or by any other person or entity for the services performed. The administrative law judge or the Board of Directors may require the applicant to provide vouchers, receipts, or other substantiation for any expenses claimed.

§ 308.179 Settlement negotiations.

If counsel for the FDIC and the applicant believe that the issues in a fee application can be settled, they may jointly file with the Executive Secretary a statement of their intent to negotiate a settlement. The filing of this statement shall extend the time for filing an answer under § 308.171 for an additional 20 days, and further extensions may be granted by the administrative law judge upon the joint request of counsel for the FDIC and the applicant.

§ 308.180 Further proceedings.

(a) *General rule.* Ordinarily, the determination of a recommended award will be made by the administrative law judge on the basis of the written record. However, on request of either the applicant or the FDIC, or on his or her own initiative, the administrative law judge may order further proceedings such as an informal conference, oral argument, additional written submissions, or an evidentiary hearing. Such further proceedings will be held only when necessary for full and fair resolution of the issues arising from the application and will be conducted promptly and expeditiously.

(b) *Request for further proceedings.* A request for further proceedings under this section shall specifically identify the information sought or the issues in dispute and shall explain why additional proceedings are necessary.

(c) *Hearing.* Ordinarily, the administrative law judge shall hold an oral evidentiary hearing only on disputed issues of material fact which cannot be adequately resolved through written submissions.

§ 308.181 Recommended decision.

The administrative law judge shall file with the Executive Secretary a recommended decision on the fee application not later than 90 days after the filing of the application or 30 days after the conclusion of the hearing, whichever is later. The recommended decision shall include written proposed findings and conclusions on the applicant's eligibility and its status as a prevailing party and an explanation of the reasons for any difference between the amount requested and the amount of the recommended award. The recommended decision shall also include, if at issue, proposed findings on whether the FDIC's position was substantially justified, whether the applicant unduly protracted the proceedings, or whether special circumstances make an award unjust. The administrative law judge shall file the record of the proceeding on the fee application and, at the same time, serve upon each party a copy of the recommended decision, findings, conclusions, and proposed order.

§ 308.182 Board of Directors action.

(a) *Exceptions to recommended decision.* Within 20 days after service of the recommended decision, findings, conclusions, and proposed order, the applicant or counsel for the FDIC may file with the Executive Secretary written exceptions thereto. A supporting brief may also be filed.

(b) *Decision of Board of Directors.* The Board of Directors shall render its decision within 60 days after the matter is submitted to it by the Executive Secretary. The Executive Secretary shall furnish copies of the decision and order of the Board of Directors to the parties. Judicial review of the decision and order may be obtained as provided in 5 U.S.C. 504(c)(2).

§ 308.183 Payment of awards.

An applicant seeking payment of an award made by the Board of Directors shall submit to the executive Secretary a

VOL

UMI

statement that the applicant will not seek judicial review of the decision and order or that the time for seeking further review has passed and no further review has been sought. The FDIC will pay the amount awarded within 30 days after receiving the applicant's statement, unless judicial review of the award or of the underlying decision of the adversary adjudication has been sought by the applicant or any other party to the proceeding.

Dated: June 5, 1991.

Hoyle L. Robinson,

Executive Secretary.

Authority and Issuance

For the reasons set forth in the common preamble, Parts 508, 509, 512, and 513 of subchapter A of chapter V of title 12 of the Code of Federal Regulations are amended as set forth below:

SUBCHAPTER A—ORGANIZATION AND PROCEDURES

PART 509—RULES OF PRACTICE AND PROCEDURE IN ADJUDICATORY PROCEEDINGS

1. The authority citation for part 509 continues to read as follows:

Authority: Sec. 556, 80 Stat. 386, as amended (5 U.S.C. 556); sec. 5, 48 Stat. 132, as amended (12 U.S.C. 1464); sec. 9, as added by sec. 301, 103 Stat. 316 (12 U.S.C. 1467); sec. 10, as added by sec. 301, 103 Stat. 316 (12 U.S.C. 1467a); sec. 3, 64 Stat. 873, as amended by sec. 204, 103 Stat. 190 (12 U.S.C. 1813); sec. 12, 48 Stat. 892, as amended (15 U.S.C. 781).

2. Subpart A is revised to read as set forth at the end of the common preamble.

Subpart A—Uniform Rules of Practice and Procedure

Sec.
509.1 Scope.
509.2 Rules of construction.
509.3 Definitions.
509.4 Authority of Agency Head.
509.5 Authority of the administrative law judge.
509.6 Appearance and practice in adjudicatory proceedings.
509.7 Good faith certification.
509.8 Conflicts of interest.
509.9 Ex parte communications.
509.10 Filing of papers.
509.11 Service of papers.
509.12 Construction of time limits.
509.13 Change of time limits.
509.14 Witness fees and expenses.
509.15 Opportunity for informal settlement.
509.16 Agency's right to conduct examination.
509.17 Collateral attacks on adjudicatory proceeding.
509.18 Commencement of proceeding and contents of notice.
509.19 Answer.
509.20 Amended pleadings.
509.21 Failure to appear.
509.22 Consolidation and severance of actions.
509.23 Motions.
509.24 Scope of document discovery.
509.25 Request for document discovery from parties.

509.35 Conduct of hearings.
509.36 Evidence.
509.37 Proposed findings and conclusions.
509.38 Recommended decision and filing of record.
509.39 Exceptions to recommended decision.
509.40 Review by Agency Head.
509.41 Stays pending judicial review.

3. Subpart B is revised to read as follows:

Subpart B—Local Rules

509.100 Scope.
509.101 Appointment of Office of Financial Institution Adjudication.
509.102 Discovery.
509.103 Civil money penalties.
509.104 Additional procedures.

§ 509.100 Scope.

The rules and procedures in this subpart B shall apply to those proceedings covered by subpart A of this part. In addition, subpart A of this part and this subpart shall apply to adjudicatory proceedings for which hearings on the record are provided for by the following statutory provisions:

(a) Proceedings under section 10(a)(2)(D) of the HOLA (12 U.S.C. 1467a(a)(2)(D)) to determine whether any person directly or indirectly exercises a controlling influence over the management or policies of a savings association or any other company;

(b) Proceedings under section 10(g)(5)(A) of the HOLA (12 U.S.C. 1467a(g)(5)(A)) to determine whether to terminate certain activities by savings and loan holding companies or to terminate ownership or control of a non-insured savings and loan holding company subsidiary; and

(c) Proceedings under section 15(c)(4) of the Securities and Exchange Act of 1934 (15 U.S.C. 78o(c)(4)) ("Exchange Act") to determine whether any association or person subject to the jurisdiction of the Agency pursuant to section 12(i) of the Exchange Act (15 U.S.C. 78*l*(i)) has failed to comply with the provisions of sections 12, 13, 14(a), 14(c), 14(d) or 14(f) of the Exchange Act.

§ 509.101 Appointment of Office of Financial Institution Adjudication.

Unless otherwise directed by the Agency, all hearings under subpart A of this part and this subpart shall be conducted by administrative law judges under the direction of the Office of Financial Institution Adjudication.

§ 509.102 Discovery.

(a) *In general.* A party may take the deposition of an expert, or of a person, including another party, who has direct knowledge of matters that are non-privileged, relevant and material to the proceeding. The deposition of experts shall be limited to those experts who are expected to testify at the hearing.

(b) *Notice.* A party desiring to take a deposition shall give reasonable notice in writing to the deponent and to every other party to the proceeding. The notice must state the time and place for taking the deposition and the name and address of the person to be deposed.

(c) *Time limits.* A party may take depositions at any time after the commencement of the proceeding, but no later than ten days before the scheduled hearing date, except with permission of the administrative law judge for good cause shown.

(d) *Conduct of the deposition.* The witness must be duly sworn, and each party shall have the right to examine the witness with respect to all non-privileged, relevant and material matters of which the witness has factual, direct and personal knowledge. Objections to questions or exhibits shall be in short form, stating the grounds for objection. Failure to object to questions or exhibits

is not a waiver except where the grounds for the objection might have been avoided if the objection had been timely presented. The court reporter shall transcribe or otherwise record the witness's testimony, as agreed among the parties.

(e) *Protective orders.* At any time after notice of a deposition has been given, a party may file a motion for the issuance of a protective order. Such protective order may prohibit, terminate, or limit the scope or manner of the taking of a deposition. The administrative law judge shall grant such protective order upon a showing of sufficient grounds, including that the deposition:

(1) Is unreasonable, oppressive, excessive in scope, or unduly burdensome;

(2) Involves privileged, investigative, trial preparation, irrelevant or immaterial matters; or

(3) Is being conducted in bad faith or in such manner as to unreasonably annoy, embarrass, or oppress the deponent.

(f) *Fees.* Deposition witnesses, including expert witnesses, shall be paid the same expenses in the same manner as are paid witnesses in the district courts of the United States in proceedings in which the United States Government is a party. Expenses in accordance with this paragraph shall be paid by the party seeking to take the deposition.

(g) *Deposition subpoenas*—(1) *Issuance.* At the request of a party, the administrative law judge shall issue a subpoena requiring the attendance of a witness at a deposition. The attendance of a witness may be required from any place in any state or territory that is subject to the jurisdiction of the United States or as otherwise permitted by law.

(2) *Service.* The party requesting the subpoena shall serve it on the person named therein, or on that person's counsel, by personal service, certified mail, or overnight delivery service. The party serving the subpoena shall file proof of service with the administrative law judge.

(3) *Motion to quash.* A person named in the subpoena or a party may file a motion to quash or modify the subpoena. A statement of the reasons for the motion must accompany it and a copy of the motion must be served on the party that requested the subpoena. The motion must be made prior to the time for compliance specified in the subpoena and not more than ten days after the date of service of the subpoena, or if the subpoena is served within 15 days of the hearing, within five days after the date of service.

(4) *Enforcement of deposition subpoena.* Enforcement of a deposition subpoena shall be in accordance with the procedures of § 509.27(d).

§ 509.103 Civil money penalties.

(a) *In general.* Notwithstanding the use of the term "penalty," civil money penalties assessed pursuant to subpart A of this part or this subpart B are remedial and not punitive in nature.

(b) *Assessment.* In the event of consent, or if upon the record developed at the hearing the Agency finds that any of the grounds specified in the notice issued pursuant to § 509.18 have been established, the Agency may serve an order of assessment of civil money penalty upon the party concerned. The assessment order shall be effective immediately upon service or upon such other date as may be specified therein and shall remain effective and enforceable until it is stayed, modified, terminated, or set aside by the Agency or by a reviewing court.

(c) *Payment.* (1) Civil penalties assessed pursuant to subpart A of this part and this subpart B are payable and to be collected within 60 days after the issuance of the notice of assessment, unless the Agency fixes a different time for payment where it determines that the purpose of the civil money penalty would be better served thereby; however, if a party has made a timely request for a hearing to challenge the assessment of the penalty, the party may not be required to pay such penalty until the Agency has issued a final order of assessment following the hearing. In such instances, the penalty shall be paid within 60 days of service of such order unless the Agency fixes a different time for payment. Notwithstanding the foregoing, the Agency may seek to attach the party's assets to secure payment of the potential civil money penalty or other obligation in advance of the hearing in accordance with section 8(i)(4) of the FDIA (12 U.S.C. 1818(i)(4)).

(2) Checks in payment of civil penalties shall be made payable to the Treasurer of the United States and sent to the Controller's Division of the Agency. Upon receipt, the Office shall forward the check to the Treasury of the United States.

(d) *Relevant considerations.* In determining the amount of the penalty to be assessed in any proceeding under subpart A or this subpart, the Agency shall consider the financial strength and good faith of the party against whom the penalty is assessed, the gravity of the violation, any previous violations, and such other matters as justice may require.

§ 509.104 Additional procedures.

(a) *Replies to exceptions.* Replies to written exceptions to the administrative law judge's recommended decision, findings, conclusions or proposed order pursuant to § 509.39 shall be filed within 10 days of the date such written exceptions were required to be filed.

(b) *Motions.* All motions shall be filed with the administrative law judge; provided however, once the administrative law judge has certified the record to the Agency pursuant § 509.39, all motions must be filed with the Agency within the 10 day period allowed for the filing of replies to exceptions. Responses to such motions timely filed before the Agency Head, other than motions for oral argument before the Agency Head, shall be allowed pursuant to the procedures at § 509.23(d). No response is required for the Agency Head to make a determination on a motion for oral argument.

(c) *Authority of administrative law judge.* In addition to the powers listed in § 509.5, the administrative law judge shall have the authority to deny any dispositive motion and shall follow the procedures set forth for motions for summary disposition at § 509.29 and partial summary disposition at § 509.30 in making determinations on such motions.

(d) *Notification of submission of proceeding to Agency Head.* Upon the expiration of the time for filing any exceptions, any replies to such exceptions or any motions and any ruling thereon, and after receipt of certified record, the Agency shall notify the parties within ten days of the submission of the proceeding to the Agency Head for final determination.

(e) *Extensions of time for final determination.* The Director may, *sua sponte*, extend the time for final determination by signing an order of extension of time within the 90 day time period and notifying the parties of such extension thereafter.

(f) *Service upon the Agency.* Service of any document upon the Agency shall be made by filing with the individuals and/or offices designated by the Agency in its Notice issued pursuant to § 509.46(d) or the notification in paragraph (d) of this section or such other means reasonably suited to provide notice of the person and/or office designated to receive filings.

(g) *Presence of electronic media.* Notwithstanding the authority of the administrative law judge to set the time, place and manner of hearings, including the presence of the media and general public, the decision as to the presence of

electronic media shall be reserved to the Agency Head. Any petition to permit electronic media shall be filed with the Agency Head no later than thirty days in advance of the hearing. The Agency Head may decide to grant or deny the petition without soliciting the views of the parties. If the petition is granted, the Agency Head shall promptly serve the administrative law judge and all parties with the determination.

PART 508—[AMENDED]

4. The authority citation for part 508 continues to read as follows:

Authority: Sec. 8, 48 Stat. 132, as amended (12 U.S.C. 1464); sec. 2, 84 Stat. 879, as amended (12 U.S.C. 1818).

§ 508.7 [Amended]

5. Section 508.7(a) is amended by adding "508.5" in place of "508.4".

§ 508.13 [Amended]

6. Section 508.13(b) is amended by adding "508.26" in place of "508.27(b)".

§ 508.14 [Amended]

7. Section 508.14 is amended by revising "508.9, 508.10, 508.11, 508.12, and" to read "508.10, 508.11, and 508.12".

PART 512—[AMENDED]

8. The authority citation for part 512 continues to read as follows:

Authority: Sec. 3, as added by sec. 301, 103 Stat. 278 (12 U.S.C. 1462a); sec. 4, as added by sec. 301, 103 Stat. 280 (12 U.S.C. 1463); sec. 5, 48 Stat. 132, as amended (12 U.S.C. 1464); sec. 9, as added by sec. 301, 103 Stat. 316 (12 U.S.C. 1467); sec. 10, as added by sec. 308, 103 Stat. 318 (12 U.S.C. 1467a); sec. 3, 64 Stat. 873, as amended by sec. 204, 103 Stat. 190 (12 U.S.C. 1813); sec. 12, 48 Stat. 892, as amended (15 U.S.C. 781).

§ 512.7 [Amended]

9. Section 512.7(b) is amended by adding "Chief Counsel or his designee" in place of "Director or any Deputy Director of Enforcement" and "Director or the Deputy Director", each place they appear.

PART 513—[AMENDED]

10. The authority citation for part 513 continues to read as follows:

Authority: Sec. 3, as added by sec. 302, 103 Stat. 278 (12 U.S.C. 1462a); sec. 4, as added by sec. 301, 103 Stat. 280 (12 U.S.C. 1463); sec. 5, 48 Stat. 132, as amended (12 U.S.C. 1464); sec. 12, sec. 3, 64 Stat. 873, as amended by sec. 204, 103 Stat. 190 (12 U.S.C. 1813); 48 Stat. 892, as amended (15 U.S.C. 781).

§ 513.1 [Amended]

11. Section 513.1 is amended in the last sentence by adding "509.6(a)(1)" in place of "509.5(a)(2)".

§ 513.6 [Amended]

12. Section 513.6(b) is amended by adding "508.5" and "508.7" in place of "509a.3" and "509a.7", respectively.

Dated: June 6, 1991.

Timothy Ryan,

Director.

NATIONAL CREDIT UNION ADMINISTRATION

12 CFR Part 747

List of Subjects in 12 CFR Part 747

Administrative practice and procedure, Bank deposit insurance, Claims, Credit unions, Equal Access to Justice, Hearing procedures, Investigations, Lawyers, Penalties.

Authority and Issuance

For the reasons set forth in the common preamble, part 747 of chapter VII of title 12 of the Code of Federal Regulations is proposed to be amended as set forth below:

PART 747—ADMINISTRATIVE ACTIONS, ADJUDICATIVE HEARINGS, RULES OF PRACTICE AND PROCEDURE, AND INVESTIGATIONS

1. The authority citation for part 747 is revised to read as follows:

Authority: 12 U.S.C. 1766, 12 U.S.C. 1768, 12 U.S.C. 1784, 12 U.S.C. 1787.

2. Subpart A is revised to read as set forth at the end of the common preamble.

Subpart A—Uniform Rules of Practice and Procedure

Sec.

747.1 Scope.
747.2 Rules of construction.
747.3 Definitions.
747.4 Authority of Agency Head.
747.5 Authority of the administrative law judge.
747.6 Appearance and practice in adjudicatory proceedings.
747.7 Good faith certification.
747.8 Conflicts of interest.
747.9 Ex parte communications.
747.10 Filing of papers.
747.11 Service of papers.
747.12 Construction of time limits.
747.13 Change of time limits.
747.14 Witness fees and expenses.
747.15 Opportunity for informal settlement.
747.16 Agency's right to conduct examinations.
747.17 Collateral attacks on adjudicatory proceeding.
747.18 Commencement of proceeding and contents of notice.
747.19 Answer.
747.20 Amended pleadings.
747.21 Failure to appear.
747.22 Consolidation and severance of actions.
747.23 Motions.
747.24 Scope of document discovery.
747.25 Request for document discovery from parties.
747.26 Document subpoenas to nonparties.
747.27 Deposition of witness unavailable for hearing.
747.28 Interlocutory review.
747.29 Summary disposition.
747.30 Partial summary disposition.
747.31 Scheduling and prehearing conferences.
747.32 Prehearing submissions.
747.33 Public hearings.
747.34 Hearing subpoenas.
747.35 Conduct of hearings.
747.36 Evidence.
747.37 Proposed findings and conclusions.
747.38 Recommended decision and filing of record.
747.39 Exceptions to recommended decision.
747.40 Review by Agency Head.
747.41 Stays pending judicial review.

3. Section 747.01 (Scope) is redesignated as § 747.0 and revised to read as follows:

§ 747.0 Scope of part 747.

(a) This part describes the various formal and informal adjudicative actions and non-adjudicative proceedings available to the National Credit Union Administration Board ("NCUA Board"), the grounds for those actions and proceedings, and the procedures used in formal and informal hearings related to each available action. As mandated by section 916 of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989, this part incorporates uniform rules of practice and procedure governing formal adjudications generally, as well as proceedings involving cease-and-desist actions, assessment of civil money penalties, and removal, prohibition and suspension actions. In addition, the Uniform Rules are incorporated in other subparts of this part which provide for formal adjudications. The administrative actions and proceedings described herein, as well as the grounds and hearing procedures for each, are controlled by sections 120(b) (except where the Federal credit union is closed due to insolvency), 202(a)(3), 206, and 304(c)(3) of the FCUA. Should any provision of this part be inconsistent with these or any other provisions of the FCUA, as amended, the FCUA shall control. Judicial enforcement of any action or order described in this part, as well as judicial review thereof, shall be as prescribed under the FCUA (12 U.S.C. 1751 *et seq.*) and the Administrative Procedure Act (5 U.S.C. 500 *et seq.*).

(b) As used in this part, the term insured credit union means any Federal credit union or any state chartered credit union insured under subchapter II of the FCUA unless the context indicates otherwise.

4. Subparts B through G, I, and J are revised and subpart H is amended by revising the subpart heading and adding §§ 747.701 through 747.703 to read as follows:

Subpart B—Local Rules of Practice and Procedure [Reserved]

Subpart C—Local Rules and Procedures Applicable to Proceedings for the Involuntary Termination of Insured Status

747.201 Scope.
747.202 Grounds for termination of insurance.
747.203 Notice of charges.
747.204 Notice of intention to terminate insured status.
747.205 Order terminating insured status.
747.206 Consent to termination of insured status.
747.207 Notice of termination of insured status.
747.208 Duties after termination.

Subpart D—Local Rules and Procedures Applicable to Suspensions and Prohibitions Where Felony Charged

747.301 Scope.
747.302 Rules of practice; remainder of board of directors.
747.303 Notice of suspension or prohibition.
747.304 Removal or permanent prohibition.
747.305 Effectiveness of suspension or removal until completion of hearing.
747.306 Notice of opportunity for hearing.
747.307 Hearing.
747.308 Waiver of hearing; failure to request hearing or review based on written submissions; failure to appear.
747.309 Decision of the NCUA Board.
747.310 Reconsideration by the NCUA Board.
747.311 Relevant considerations.

Subpart E—Local Rules and Procedures Applicable to Proceedings Relating to the Suspension or Revocation of Charters and to Involuntary Liquidations

747.401 Scope.
747.402 Grounds for suspension or revocation of charter and for involuntary liquidation.
747.403 Notice of intent to suspend or revoke charter; notice of suspension.
747.404 Notice of hearing.
747.405 Issuance of order.
747.406 Cancellation of charter.

Subpart F—Local Rules and Procedures Applicable to Proceedings Relating to the Termination of Membership in the Central Liquidity Facility [Reserved]

Subpart G—Local Rules and Procedures Applicable to Recovery of Attorneys Fees and Other Expenses Under the Equal Access To Justice Act in NCUA Board Adjudications

747.601 Purpose and scope.
747.602 Eligibility of applicants.
747.603 Prevailing party.
747.604 Standards for award.
747.605 Allowable fees and expenses.
747.606 Contents of application.
747.607 Statement of net worth.
747.608 Documentation of fees and expenses.
747.609 Filing and service of applications.
747.610 Answer to application.
747.611 Comments by other parties.
747.612 Settlement.
747.613 Further proceedings.
747.614 Recommended decision.
747.615 Decision of the NCUA Board.
747.616 Payment of award.

Subpart H—Local Rules and Procedures Applicable to Investigations

747.701 Applicability.
747.702 Information obtained in investigations.
747.703 Authority to conduct investigations.

Subpart I—Local Rules Applicable to Formal Investigative Proceedings

747.801 Applicability.
747.802 Non-public formal investigative proceedings.
747.803 Subpoenas.
747.804 Oath; false statements.
747.805 Self-incrimination; immunity.
747.806 Transcripts.
747.807 Rights of witnesses.

Subpart J—Local Procedures and Standards Applicable to a Notice of Change in Senior Executive Officers, Directors or Committee Members Pursuant to Section 212 of the FCUA

747.901 Scope.
747.902 Grounds for disapproval of notice.
747.903 Procedures where notice of disapproval issued; reconsideration.
747.904 Appeal.
747.905 Judicial review.

Subpart B—Local Rules of Practice and Procedure [Reserved]

Subpart C—Local Rules and Procedures Applicable to Proceedings for the Involuntary Termination of Insured Status

§ 747.201 Scope.

Under the authority of section 206(b) of the FCUA, the NCUA Board may terminate the insured status of an insured credit union upon the grounds set forth therein and enumerated in § 747.202. The procedure for terminating the insured status of an insured credit union as therein prescribed will be followed and hearings required thereunder will be conducted in accordance with the rules and procedures set forth in this subpart and subpart A of this part. To the extent any rule or procedure of subpart A of this part is inconsistent with a rule or procedure prescribed in this subpart C, subpart C shall control.

§ 747.202 Grounds for termination of insurance.

The NCUA Board may institute proceedings to terminate the insured status of an insured credit union whenever it determines that an insured credit union—

(1) is engaging or has engaged in unsafe or unsound practices in conducting its business;

(2) is in unsafe or unsound condition to continue as an insured credit union; or

(3) is violating or has violated any applicable law, rule, regulation, order, written condition imposed by the NCUA Board in response to any application or request of the credit union, or any written agreement entered into with the NCUA Board.

§ 747.203 Notice of charges.

(a) Whenever the NCUA Board determines that grounds for termination of insured status exists, it will, for the purpose of securing correction of errant or illegal conditions, serve a notice of charges upon the concerned credit union. This notice will contain a statement describing the unsafe or unsound practices, condition or the relevant violations.

(b) In the case of an insured State-chartered credit union, the NCUA Board shall send a copy of the Notice of Charges to the appropriate State authority, if any, having supervision over the credit union.

§ 747.204 Notice of intention to terminate insured status.

Unless correction of the practices, condition, or violations set forth in the Notice of Charges is made within 120 days after service of such statement, or within a shorter period of not less than 20 days after such service as the NCUA Board may require in any case where it determines that the insurance risk with respect to such credit union could be unduly jeopardized by further delay or as the appropriate State supervisory authority shall require in the case of an insured State-chartered credit union, the Board, if it determines to proceed further, shall give to the credit union not less than 30 days' written notice of its intent to terminate the status of the credit union as an insured credit union. The notice shall contain a statement of the facts constituting the alleged unsafe or unsound practices or conditions or violations on which a hearing will be held. Such hearing shall commence not earlier than 30 days nor later than 60 days after the date of service of such notice upon the credit union, unless an

VOL 56 ISS 116 JE 17 1991 UMI

earlier or later date is set by the NCUA Board at the request of the credit union.

§ 747.205 Order terminating insured status.

If, upon the record of the hearing held pursuant to § 747.204, the NCUA Board finds that any unsafe or unsound practice or condition or violation specified in the notice has been established and has not been corrected within the time prescribed under § 747.204, the NCUA Board may issue and serve upon the credit union an order terminating its status as an insured credit union on a date subsequent to the date of such finding and subsequent to the expiration of the time specified in the Notice.

§ 747.206 Consent to termination of insured status.

Unless the credit union appears at the hearing designated in the notice of hearing by a duly authorized representative, it will be deemed to have consented to the termination of its status as an insured credit union. In the event the credit union fails to so appear at such hearing, the administrative law judge shall forthwith report the matter to the NCUA Board and the NCUA Board may thereupon issue an order terminating the credit union's insured status.

§ 747.207 Notice of termination of insured status.

Prior to the effective date of the termination of the insured status of an insured credit union under section 206(b) of the FCUA and at such time as the Board shall specify, the credit union shall mail to each member at his or her last address of record on the books of the credit union, and publish in not less than two issues of a local newspaper of general circulation, notices of the termination of its insured status, and the credit union shall furnish the NCUA Board with proof of publication of such notice. The notice shall be as follows:

Notice

[Date]

1. The status of the _____ as an insured credit union under the provisions of the Federal Credit Union Act, will terminate as of the close of business on the ____ day of _____;

2. Any deposits made by you after that date, either new deposits or additions to existing accounts, will not be insured by the National Credit Union Administration;

3. Accounts in the credit union on the ____ day of _____, ____ up to a maximum of $100,000 for each member, will continue to be insured, as provided by the Federal Credit Union Act, for one (1) year after the close of business on the ____ day of _____, _____; Provided, however, that any withdrawals after the close of business on the day of _____, _____, will reduce the insurance coverage by the amount of such withdrawals.

(Name of Credit Union)

(Address)

§ 747.208 Duties after termination.

(a) After the termination of the insured status of any credit union under section 206(b) of the FCUA, insurance of its member accounts to the extent they were insured on the effective date of such termination, less any amounts thereafter withdrawn which reduce the accounts below the amount covered by insurance on the effective date of such termination, shall continue for a period of one year, but no shares issued by the credit union or deposits made after the date of such termination shall be insured by the NCUA Board.

(b) The credit union shall continue to pay premiums to the NCUA Board during such period and the Board shall have the right to examine the credit union from time to time during the period. The credit union shall, in all other respects, be subject to the duties and obligations of an insured credit union during the one year period. If the credit union is closed for liquidation within this period, the Board shall have the same powers and rights with respect to such credit union as in the case of an insured credit union.

Subpart D—Local Rules and Procedures Applicable to Suspensions and Prohibitions Where Felony Charged

§ 747.301 Scope.

The rules and procedures set forth in this subpart are applicable to informal proceedings conducted by the NCUA Board, or a Presiding Officer designated by the Board, pursuant to section 206(i) of the FCUA to suspend, remove, and/or prohibit from office or from further participation any institution-affiliated party of an insured credit union when such a party is charged in, or convicted as a result of, or enters a pretrial diversion or other similar program as a result of, any state, Federal or territorial information or indictment or complaint, with the commission of or participation in a crime involving dishonesty or breach of trust, which crime is punishable by imprisonment for a term exceeding one year under state or Federal law. Subpart A of this part does not apply to proceedings under this subpart.

§ 747.302 Rules of practice; remainder of board of directors.

Except as otherwise specifically provided in this subpart, the following provisions shall apply to proceedings conducted under this subpart:

(a)(1) *Power of attorney and notice of appearance.* Any person who is a member in good standing of the bar of the highest court of any State, possession, territory, Commonwealth, or the District of Columbia may represent others before the NCUA Board or Presiding Officer designated by the NCUA Board upon filing with the NCUA Board a written declaration that he or she is currently qualified as provided by this paragraph, and is authorized to represent the particular party on whose behalf he acts. Any other person desiring to appear before or transact business with the NCUA Board in a representative capacity may be required to file with the NCUA Board a power of attorney showing his or her authority to act in such capacity, and he or she may be required to show to the satisfaction of the NCUA Board that he or she has the requisite qualifications. Attorneys and representatives of parties to proceedings shall file a written notice of appearance with the NCUA Board or with the Presiding Officer designated by the NCUA Board.

(2) *Summary suspension.* Contemptuous conduct by any person at an argument before the NCUA Board or at the hearing before a Presiding Officer shall be grounds for exclusion therefrom and suspension for the duration of the argument or hearing.

(b)(1) *Notice of hearing.* Whenever a hearing within the scope of this subpart is ordered by the NCUA Board, a notice of hearing shall be given by the NCUA Board to the party afforded the hearing and to any appropriate state supervisory authority. The notice shall state the time, place, and nature of the hearing and the legal authority and jurisdiction under which the hearing is to be held, and shall contain a statement of the matters of fact or law constituting the grounds for the hearing. It shall be delivered by personal service, by registered or certified mail to the last known address, or by other appropriate means, not later than 30 nor earlier than 60 days before the hearing.

(2) *Party.* The term "party" means a person or agency named or admitted as a party, or any person or agency who has filed a written request and is entitled as of right to be admitted as a party; but a person or agency may be admitted for a limited purpose.

(c)(1) *Computation of time.* In computing any period of time prescribed or allowed by this subpart, the date of the act, event or default from which the designated period of time begins to run is not to be included. The last day so computed shall be included, unless it is a Saturday, Sunday or legal holiday in the District of Columbia, in which event the period shall run until the end of the next day which is neither a Saturday, Sunday, nor such legal holiday. Intermediate Saturdays, Sundays, and legal holidays shall be included in the computation unless the time within which the act is to be performed is ten days or less in which event Saturdays, Sundays, and legal holidays shall not be included.

(2) *Service by mail.* Whenever any party has the right or is required to do some act or take some proceeding, within a period of time prescribed in this subpart, after the service upon him of any document or other paper of any kind, and such service is made by mail, three days shall be added to the prescribed period from the date when the matter served is deposited in the U.S. mail.

(d) *Nonpublication of submissions.* Unless and until otherwise ordered by the NCUA Board, the notice of hearing, the transcript, written materials submitted during the hearing, the Presiding Officer's recommendation to the NCUA Board and any other papers filed in connection with a hearing under this subpart, shall not be made public, and shall be for the confidential use only of the NCUA Board, the Presiding Officer, the parties and appropriate authorities.

(e) *Remainder of board of directors.* (1) If at any time, because of the suspension of one or more directors pursuant to this subpart, there shall be on the board of directors of an insured credit union less than a quorum of directors not so suspended, all powers and functions vested in or exercisable by such board shall vest in and be exercisable by the director or directors on the board not so suspended, until such time as there shall be a quorum on the board of directors.

(2) In the event all of the directors of an insured credit union are suspended pursuant to this subpart, the NCUA Board shall appoint persons to serve temporarily as directors in their place pending the termination of such suspensions, or until such time as those who have been suspended cease to be directors of the credit union and their respective successors have been elected by the members at an annual or special meeting and have taken office.

(3) Directors appointed temporarily by the NCUA Board pursuant to paragraph (e)(2) of this section, shall, within 30 days following their appointment, call a special meeting for the election of new directors, unless during such 30-day period—

(i) the regular annual meeting is convened; or

(ii) the suspensions giving rise to the appointment of temporary directors are terminated.

§ 747.303 Notice of suspension or prohibition.

Whenever an institution-affiliated party of an insured credit union is charged in any state, Federal or territorial information or indictment or complaint with the commission of or participation in a crime involving dishonesty or breach of trust, which crime is punishable by imprisonment for a term exceeding one year under state or Federal law, the NCUA Board may, if continued service or participation by the concerned party may pose a threat to the interests of the credit union's members or may threaten to impair public confidence in the credit union, by written notice served upon such party, suspend him or her from office, or prohibit him or her from further participation in any manner in the affairs of the credit union, or both. A copy of the notice of suspension or prohibition shall also be served upon the credit union. This suspension or prohibition shall remain in effect until such information, indictment, or complaint is finally disposed of, or until such suspension or prohibition is terminated by the NCUA Board.

§ 747.304 Removal or permanent prohibition.

In the event that a judgment of conviction or an agreement to enter a pretrial diversion or other similar program is entered against the institution-affiliated party, and at such time as the judgment, if any, is not subject to further appellate review, the NCUA Board may, if continued service or participation by such party may pose a threat to the interests of the credit union's members or may threaten to impair public confidence in the credit union, issue and serve upon the individual an order removing him or her from office or prohibiting him or her from further participation in any manner in the conduct of the affairs of the credit union except with the consent of the NCUA Board. A copy of such order will also be served upon such credit union. A finding of not guilty or other disposition of the charge will not preclude the NCUA Board from thereafter instituting proceedings, pursuant to the provisions of section 206(g) of the FCUA and subpart A of this part, to remove such director, committee member, officer, or other person from office or to prohibit his or her further participation in the affairs of the credit union.

§ 747.305 Effectiveness of suspension or removal until completion of hearing.

Any notice of suspension or prohibition issued under § 747.303 and any order of removal or prohibition issued under § 747.304 will be effective upon service on the concerned party and will remain effective and outstanding until the completion of any hearing or appeal authorized under section 206(i) of the FCUA and this subpart, unless such notice of suspension or order of removal is terminated by the NCUA Board.

§ 747.306 Notice of opportunity for hearing.

(a) Any notice of suspension or prohibition issued pursuant to § 747.303, and any order of removal or prohibition issued pursuant to § 747.404, shall be accompanied by a further notice to the concerned individual that he or she may, within 30 days of service of such notice, request in writing an informal hearing at which he or she may present evidence and argument that his or her continued service to or participation in the conduct of the affairs of the credit union does not, or is not likely to, pose a threat to the interests of the credit union's members or threaten to impair confidence in the credit union. Any notice of the opportunity for such a hearing shall be accompanied by a description of the hearing procedure and the criteria to be considered.

(b) A request for a hearing filed pursuant to paragraph (a) of this section shall state with particularity the relief desired, the grounds therefor, and shall include, when available, supporting evidence. The request and supporting evidance shall be filed in writing with the Secretary of the Board, National Credit Union Administration, Washington, DC 20456.

§ 747.307 Hearing.

(a) Upon receipt of a request for a hearing which complies with § 747.306, the NCUA Board will order an informal hearing to commence within the following 30 days in Washington, DC, or at such other place as the NCUA Board designates, before a Presiding Officer designated by the NCUA Board to conduct the hearing. At the request of the concerned party, the NCUA Board may order the hearing to commence at a time more than 30 days after the receipt of the request for such hearing.

(b) The notice of hearing shall be served by the NCUA Board upon the party or parties afforded the hearing and shall set forth the time and place of the hearing and the name and address of the Presiding Officer.

VOL 56 ISS 116 JE 17 1991 UMI

(c) The subject individual may appear at the hearing personally, through counsel, or personally with counsel. The individual shall have the right to introduce relevant and material written materials (or, at the discretion of the NCUA Board, oral testimony), and to present an oral argument before the Presiding Officer. A member of the enforcement staff of the Office of General Counsel of the NCUA may attend the hearing and may participate as a party. Neither the formal rules of evidence nor the adjudicative procedures of the Administrative Procedure Act (5 U.S.C. 554–557), nor Subpart A of this part shall apply to the hearing. The proceedings shall be recorded and a transcript furnished to the individual upon request and after the payment of the cost thereof. The NCUA Board shall have the discretion to permit the presentation of witnesses, within specified time limits, so long as a list of such witnesses is furnished to the Presiding Officer at least ten days prior to the hearing. Witnesses shall not be sworn, unless specifically requested by either party or directed by the Presiding Officer. The Presiding Officer may examine any witness and each party shall have the opportunity to cross-examine any witness presented by an opposing party. Upon the request of either the subject individual or the representative of the Office of General Counsel, the record shall remain open for a period of five business days following the hearing, during which time the parties may make any additional submissions to the record. Thereafter, the record shall be closed.

(d) In the course of or in connection with any proceeding under this subpart, the NCUA Board and the Presiding Officer will have the power to administer oaths and affirmations, to take or cause depositions to be taken, and to issue, revoke, quash, or modify subpoenas and subpoenas duces tecum. If the NCUA Board permits the presentation of witnesses, the NCUA Board or the Presiding Officer may require the attendance of witnesses from any place in any state or in any territory or other place subject to the jurisdiction of the United States at any designated place where such proceeding is being conducted. Witnesses subpoenaed shall be paid the same fees and mileage as are paid witnesses in the District Courts of the United States. The NCUA Board or the Presiding Officer may require the production of documents from any place in any such state, territory, or other place.

(e) The Presiding Officer will make his or her recommendations to the Board, where possible, within ten business days following the close of the record.

§ 747.306 Waiver of hearing; failure to request hearing or review based on written submissions; failure to appear.

(a) The subject individual may, in writing, waive an oral hearing and instead elect to have the matter determined by the NCUA Board on the basis of written submissions alone.

(b) Should any concerned party fail to request in writing an oral hearing or consideration based on written submissions alone within 30 days of service of the notice described in § 747.308, he or she will be deemed to have consented to the NCUA Board's action.

(c) Unless the concerned party appears at the hearing personally or by duly appointed representative, he or she will be deemed to have consented to the NCUA Board's action.

§ 747.309 Decision of the NCUA Board.

(a) Within 60 days following the hearing, or receipt of the subject individual's written submissions where hearing has been waived pursuant to § 747.308, the NCUA Board shall notify the institution-affiliated party whether the suspension or prohibition will be continued, terminated, or otherwise modified, or whether the order of removal or prohibition will be rescinded or otherwise modified. Such notification shall contain a statement of the basis for the decision of the NCUA Board, if that decision is adverse to the respondent party. In the case of a decision favorable to the respondent on the subject of a prior order of removal or prohibition, the NCUA Board shall take prompt action to rescind or otherwise modify the order of removal or prohibition.

§ 747.310 Reconsideration by the NCUA Board.

(a) The subject individual shall have ten business days following receipt of the decision of the NCUA Board in which to petition the NCUA Board for initial reconsideration.

(b) The subject individual also shall be entitled to petition the NCUA Board for reconsideration of its decision any time after the expiration of a 12-month period from the date of the NCUA Board's decision, but no petition for reconsideration may be made within 12 months of a previous petition.

(c) Any petition shall state with particularity the basis for reconsideration, the relief sought, and any exceptions the individual has to the NCUA Board's findings. An individual's petition may be accompanied by a memorandum of points and authorities in support of his or her petition and any supporting documentation the individual may wish to have considered.

(d) No hearing need be granted on such petition for reconsideration. Promptly following receipt of the petition, the Board shall render its decision.

§ 747.311 Relevant considerations.

In deciding the question of suspension, prohibition, or removal under this subpart, the NCUA Board will consider the following:

(a) Whether the alleged offense is a crime which is punishable by imprisonment for a term exceeding one year under state or Federal law, and which involves dishonesty or breach of trust;

(b) Whether the continued presence of the subject individual in his or her position may pose a threat to the interests of the credit union's members because of the nature and extent of the individual's participation in the affairs of the insured credit union and/or the nature of the offense with the commission of or participation in which the individual has been charged;

(c) Whether there is cause to believe that there may be an erosion of public confidence in the integrity, safety, or soundness of a particular credit union (either generally or in the particular locality in which the credit union is situated) if the subject individual is permitted to remain in his or her position in an insured credit union;

(d) Whether the individual is covered by the credit union's fidelity bond and, if so, whether the bond is likely to be revoked, or whether coverage under the bond will be affected adversely as a result of the information, indictment, complaint, judgment of conviction or entry into a pretrial diversion or other similar program; and

(e) The NCUA Board may consider any other factors which, in the specific case, appear relevant to the decision to continue in effect, rescind, terminate, or modify a suspension, prohibition, or removal order, except that it shall not consider the ultimate question of the guilt or innocence of the subject individual with regard to the crime with which he or she has been charged.

Subpart E—Local Rules and Procedures Applicable to Proceedings Relating to the Suspension or Revocation of Charters and to Involuntary Liquidations

§ 747.401 Scope.

The rules and procedures set forth in this subpart and Subpart A of this part are applicable to proceedings by the NCUA Board pursuant to section 120(b)(1) of the FCUA to suspend or revoke the charter of a solvent Federal credit union, and to place a solvent Federal credit union into involuntary liquidation. To the extent a rule or procedure set forth in Subpart A of this part is inconsistent with a rule or procedure set forth in this subpart E, subpart E shall control.

§ 747.402 Grounds for suspension or revocation of charter and for involuntary liquidation.

(a) *Grounds in general.* The NCUA Board may suspend or revoke the charter of any Federal credit union, and place such credit union into involuntary liquidation and appoint a liquidating agent therefor, upon its finding that the credit union has violated any provision of its charter or bylaws or of the FCUA or regulations issued thereunder.

(b) *Immediate suspension.* In any case where the Board determines that the grounds set forth in paragraph (a) of this section exist and that immediate action is necessary in order to prevent further dissipation of credit union assets or earnings, or further weakening of the credit union's condition, or to otherwise protect the interest of the credit union's insured members or the National Credit Union Share Insurance Fund, it may order without prior notice the immediate suspension of the charter of such credit union, and if the circumstances so warrant, may take possession of all books, records, assets, and property of every description of such credit union.

§ 747.403 Notice of intent to suspend or revoke charter; notice of suspension.

(a) Upon its determination that one or more of the grounds listed in § 747.402(a) exists, or that because of conditions described in § 747.402(b) immediate suspension of charter is necessary, the NCUA Board shall cause to be served upon that credit union a notice of intent to suspend or revoke charter and of intent to place into involuntary liquidation, or a notice of suspension. Such notice shall contain a statement of the facts which constitute the grounds for the action, a recitation of the options available to the credit union under paragraph (b) of this section, and an explanation of the results that will occur if the credit union fails to exercise said options.

(b) Not later than 40 days after the receipt of the notice provided for in paragraph (a) of this section, the Federal credit union may file with the NCUA Board a statement in writing setting forth the grounds and reasons why its charter should not be suspended or revoked and why it should not be placed into involuntary liquidation; or in lieu of a written statement, request an oral hearing which shall be conducted in accordance with the procedures set forth in this subpart. This statement or request shall be accompanied by a certified copy of a resolution of the board of directors of the Federal credit union concerned authorizing such statement or request, such certification to be made by the president and secretary of the board of directors.

(c) If the Federal credit union concerned does not exercise either alternative available in paragraph (b) of this section within the time required, it shall be deemed to have admitted the facts alleged in the notice and shall be deemed to have consented to the relief sought.

§ 747.404 Notice of hearing.

(a) Upon receipt of a request for hearing which complies with § 747.403(b), the NCUA Board shall transmit the request to the Office of Financial Institution Adjudication ("OFIA"). Such hearing shall commence no earlier than 30 days nor later than 60 days after the date the OFIA receives the request for a hearing, unless an earlier or later date is requested by the Federal credit union concerned and is granted by the NCUA Board in its discretion.

(b) Except as provided in § 747.405(b), the procedures of the Administrative Procedure Act (5 U.S.C. 554–557) and subpart A of this part will apply to the hearing.

(c) Unless the Federal credit union shall appear at such hearing by a duly authorized representative it shall be deemed to have consented to the suspension or revocation of its charter and to the placing of said credit union into involuntary liquidation.

§ 747.405 Issuance of order.

(a) In the event of such consent as referred to in §§ 747.403(c) or 747.404(c), or if upon the record made at any such hearing as referred to in § 747.403(b), the NCUA Board finds that the charter of the Federal credit union concerned should be suspended or revoked and the credit union closed and placed into involuntary liquidation, it shall cause to be served on such credit union an order directing the suspension or revocation of its charter and directing that it be closed and placed into involuntary liquidation. Such order shall contain a statement of the findings upon which the order is based. Additionally, the NCUA Board shall appoint a liquidating agent or agents.

(b) The NCUA Board shall render its decision and cause such order to be served not later than 45 days after receipt of consent, or written submissions as the case may be, or in the case of a formal hearing after service or the notice of submission referred to in § 747.405(a).

(c) Upon the receipt of a copy of the order which provides that the Federal credit union concerned be placed into involuntary liquidation, the officers and directors of that Federal credit union shall immediately deliver to the agent for the liquidating agent possession and control of all books, records, assets, and property of every description of the Federal credit union, and the agent for the liquidating agent shall proceed to convert said assets to cash, collect all debts due to said Federal credit union and to wind up its affairs in accordance with the provisions of the FCUA.

§ 747.406 Cancellation of charter.

Upon the completion of the liquidation and certification by the agent for the liquidating agent that the distribution of the assets of the Federal credit union has been completed, the NCUA Board shall cancel the charter of the Federal credit union concerned.

Subpart F—Local Rules and Procedures Applicable to Proceedings Relating to the Termination of Membership in the Central Liquidity Facility [Reserved]

Subpart G—Local Rules and Procedures Applicable to Recovery of Attorneys Fees and Other Expenses Under the Equal Access to Justice Act in NCUA Board Adjudications

§ 747.601 Purpose and scope.

This subpart contains the regulations of the NCUA implementing the Equal Access to Justice Act (5 U.S.C. 504), as amended ("EAJA"). The EAJA provides for the award of attorneys fees and other expenses to eligible individuals and entities who are parties to proceedings conducted under this part. An eligible party may receive an award when it prevails over NCUA in a proceeding, or in a significant and discrete substantive portion of the proceeding, unless the position of the NCUA was substantially justified or special circumstances make an award unjust. The rules in this subpart describe the parties eligible for fee awards, explain how to apply for awards and the procedures and standards that NCUA will use to make them. To the extent a rule or procedure set forth in subpart A of this part is inconsistent with a rule or

procedure set forth in this subpart G, subpart G will control.

§ 747.602 Eligibility of applicants.

(a) To be eligible for an award of attorneys fees and expenses, an applicant must be a prevailing party in the proceeding for which it seeks an award and must be:

(1) An individual with a net worth of not more than $2 million;

(2) The sole owner of an unincorporated business who has a net worth of not more than $7 million, including both personal and business interests and not more than 500 employees at the time the proceeding was commenced (an applicant who owns an unincorporated business will be considered as an "individual" rather than a "sole owner of an unincorporated business" if the issues on which the applicant prevails are related primarily to personal interests rather than to business interests);

(3) A charitable or other tax-exempt organization described in section 501(c)(3) of the Internal Revenue Code (26 U.S.C. 501(c)(3)) with not more than 500 employees;

(4) A cooperative association as defined in section 15(a) of the Agricultural Marketing Act (12 U.S.C. 1141j(a)) with not more than 500 employees; or

(5) Any other partnership, corporation, association, or public or private organization with a net worth of not more than $7 million and not more than 500 employees.

(b) For the purpose of determining eligibility, the net worth of an applicant and the number of employees of an applicant shall be determined as of the date the proceeding was initiated.

(c) The applicant's net worth includes the value of any assets disposed of for the purpose of meeting an eligibility standard and excludes any obligations incurred for this purpose. Transfers of assets or obligations incurred for less than reasonably equivalent value will be presumed to have been made for this purpose.

(d) The employees of an applicant include all persons who regularly perform services for remuneration for the applicant, under the applicant's direction and control; part-time employees shall be included on a proportional basis.

(e) The net worth and number of employees of the applicant and all of its affiliates shall be aggregated to determine eligibility. Any individual, corporation or other entity that directly or indirectly controls or owns a majority of the voting shares or other interest of the applicant, or any corporation or other entity of which the applicant directly or indirectly owns or controls a majority of the voting shares or other interest, will be considered an affiliate for purposes of this subpart, unless the NCUA Board determines that such treatment would be unjust and contrary to the purposes of the EAJA in light of the actual relationship between the affiliated entities. In addition, the NCUA Board may determine that financial relationships of the applicant other than those described in this paragraph constitute special circumstances that would make an award unjust.

(f) An applicant that participates in a proceeding primarily on behalf of one or more other persons or entities that would be in eligible is not itself eligible for an award.

§ 747.603 Prevailing party.

An eligible applicant may be a "prevailing party" if the applicant wins an action after a full hearing or trial on the merits, if a settlement of the proceeding was effected on terms favorable to it, or if the proceeding against it has been dismissed. In appropriate situations an applicant may also have prevailed if the outcome of the proceeding has substantially vindicated the applicant's position on the significant substantive matters at issue, even though the applicant has not totally avoided adverse final action.

§ 747.604 Standards for award.

(a) A prevailing party may receive an award for fees and expenses incurred in connection with a proceeding, or in a significant and discrete substantive portion of the proceeding, by or against NCUA unless the position of NCUA during the proceeding was substantially justified. The burden of proving that an award should not be made is on counsel for NCUA. To avoid an award, counsel for NCUA must show that its position was reasonable in law and in fact.

(b) An award will be reduced or denied if the applicant has unduly or unreasonably protracted the proceeding or if special circumstances make the award sought unjust.

(c) Where an applicant has prevailed on one or more discrete substantive issues in a proceeding, even though all the issues were not resolved in its favor, any award shall be based on the fees and expenses incurred in connection with the discrete significant substantive issue or issues on which the applicant's position has been upheld. If such segregation of costs is not practicable, the award may be based on a fair proration of those fees and expenses incurred in the entire proceeding which would be recoverable under this section if proration were not performed.

(d) Whether separate or prorated treatment under the preceding paragraph, including the applicable proration percentage, is appropriate shall be determined on the facts of the particular case. Attention shall be given to the significance and nature of the respective issues and their separability and interrelationship.

§ 747.605 Allowable fees and expenses.

(a) Except as provided by § 747.604(b), awards will be based on rates customarily charged by persons engaged in the business of acting as attorneys, agents and expert witnesses, even if the services were made available without charge or at a reduced rate.

(b) No award under this subpart for the fee of an attorney or agent may exceed $75.00 per hour. No award to compensate an expert witness may exceed the highest rate at which NCUA is permitted to pay expert witnesses. However, an award may also include the reasonable expenses of the attorney, agent or witness as a separate item, if the attorney, agent or witness ordinarily charges clients separately for such expenses.

(c) In determining the reasonableness of the fee sought for an attorney, agent, or expert witness, the NCUA Board shall consider the following:

(1) If the attorney, agent, or expert witness is in private practice, his or her customary fee for like services, or, if he or she is an employee of the applicant, the fully allocated cost of the services;

(2) The prevailing rate for similar services in the community in which the attorney, agent, or expert witness ordinarily performs services;

(3) The time actually spent in the representation of the applicant;

(4) Such other factors as may bear on the value of the services provided.

(d) The reasonable cost of any study, analysis, report, test, project, or similar matter prepared on behalf of the party may be awarded to the extent that the charge for the service does not exceed the prevailing rate for similar services, and the study or other matter was necessary for preparation of the applicant's case.

§ 747.606 Contents of application.

(a) A prevailing eligible party, as defined in §§ 747.602, 747.603, and 747.604, seeking an award under this section, must file an application for an award of fees and expenses with the Secretary of the NCUA Board. The application shall include the following information:

(1) The identity of the applicant and the proceeding for which an award is sought;

(2) A showing that the applicant has prevailed and an identification of the issues in the proceeding on which the applicant believes that the position of NCUA was not substantially justified;

(3) A statement, with supporting documentation, that the applicant is an eligible party, as defined by § 747.602. If the applicant is an individual, he or she must state that his or her net worth does not exceed $2 million. If the applicant is not an individual, it shall state the number of its employees and that its net worth does not exceed $7 million as of the date the proceeding was initiated. However, an applicant may omit a statement of net worth if:

(i) It attaches a copy of a ruling by the Internal Revenue Service that it qualifies as an organization described in section 501(c)(3) of the Internal Revenue Code (26 U.S.C. 501(c)(3)) or, in the case of a tax-exempt organization not required to obtain a ruling from the Internal Revenue Service on its exempt status, a statement that describes the basis for the applicant's belief that it qualifies under such section; or

(ii) It states that it is a cooperative association as defined in section 15(a) of the Agricultural Marketing Act (12 U.S.C. 1141j(a));

(4) A Statement of the amount of fees and expenses for which an award is sought; and

(5) Any other matters that the applicant believes may assist or wishes the NCUA Board to consider in determining whether and in what amount an award should be made.

(b) The application shall be signed by the applicant or an authorized officer or attorney of the applicant. It shall also contain or be accompanied by a written verification under oath or under penalty of perjury that the information provided in the application is true and correct.

(c) The application and documentation requirements of this subpart are required by law as a prerequisite to obtaining a benefit under the Equal Access to Justice Act and this subpart.

§ 747.607 Statement of net worth.

(a) Each applicant (other than a qualified tax exempt organization or cooperative association) must provide a detailed statement showing the net worth of the applicant and any affiliates, as defined in § 747.602(a), when the proceeding was initiated. The exhibit may be in any form convenient to the applicant that provides full disclosure of the applicant's and its affiliates' assets and liabilities and is sufficient to determine whether the applicant is an eligible party. The administrative law judge or the NCUA Board may require additional information from the applicant to determine eligibility. Unless otherwise ordered by the Board or required by law, the statement shall be kept confidential and used by the NCUA Board only in making its determination of an award.

(b) If the applicant or any of its affiliates is a Federal credit union, the portion of the statement of net worth which relates to the Federal credit union shall consist of a copy of the Federal credit union's last Statement of Financial Condition filed before the initiation of the underlying proceeding.

(c) All statements of net worth shall describe any transfers of assets from or obligations incurred by the applicant or any affiliate, occurring in the six-month period prior to the date on which the proceeding was initiated, which reduced the net worth of the applicant and its affiliates below the applicable net-worth ceiling. If there were none, the applicant shall so state.

§ 747.608 Documentation of fees and expenses.

The application shall be accompanied by full documentation of the fees and expenses, including the cost of any study, analysis, audit, test, project or similar matter, for which an award is sought. A separate itemized statement shall be submitted for each professional firm or individual whose services are covered by the application, showing hours spent in connection with the proceeding by each individual, a description of the specific services performed, the rate at which each fee has been computed, any expenses for which reimbursement is sought, the total amount claimed, and the total amount paid or payable by the applicant or by any other person or entity for the services provided. The administrative law judge or the NCUA Board may require the applicant to provide vouchers, receipts, or other substantiation for any expenses claimed.

§ 747.609 Filing and service of applications.

(a) An application may be filed whenever the applicant has prevailed in the proceeding or in a significant and discrete substantive portion of the proceeding, but in no case later than 30 days after the Board's final disposition of the proceeding.

(b) If review or reconsideration is sought or taken of a decision on which an applicant believes it has prevailed, proceedings for the award of fees shall be stayed pending final disposition of the underlying controversy.

(c) As used in this subpart, final disposition means the issuance of a final order or any other final resolution of a proceeding, such as a settlement or voluntary dismissal.

(d) Any application for an award of fees and expenses shall be filed with the Secretary of the Board, National Credit Union Administration, 1776 G Street, NW, Washington, DC 20456. Any application for an award and any other pleading or document related to an application, shall be filed and served on all parties to the proceeding in the same manner as other pleadings in the proceeding, except as provided in § 747.607(a) for statements of net worth.

§ 747.610 Answer to application.

(a) Within 30 days after service of an application, counsel for NCUA may file an answer to the application. Unless counsel for NCUA requests and is granted an extension of time for filing or files a statement of intent to negotiate under paragraph (b) of this section, failure to file an answer within the 30-day period will be treated as a consent to the award requested.

(b) If counsel for NCUA and the applicant believe that the issues in the fee application can be settled, they may jointly file a statement of their intent to negotiate a settlement. The filing of this statement shall extend the time for filing an answer for an additional 30 days, and further extensions may be granted by the NCUA Board upon the joint request of counsel for NCUA and the applicant.

(c) The answer shall explain in detail any objections to the award requested and identify the facts relied on in support of counsel's position. If the answer is based on any alleged facts not already in the record of the proceeding, counsel shall include with the answer a request for further proceedings under § 747.613.

(d)(1) The applicant may file a reply if counsel for NCUA has addressed in his or her answer any of the following issues:

(i) That the position of NCUA in the proceeding was substantially justified;

(ii) That the applicant unduly protracted the proceedings; or

(iii) That special circumstances make an award unjust.

(2) The reply shall be filed within 15 days after service of the answer. If the reply is based on any alleged facts not already in the record of the proceeding, the applicant shall include with the reply a request for further proceedings under § 747.613.

VOL 56 ISS 116 JE 17 1991 UMI

§ 747.611 Comments by other parties.

Any party to a proceeding other than the applicant and counsel for NCUA may file comments on an application within 30 days after service of the application or on an answer within 15 days after service of the answer. A commenting party may not participate further in proceedings on the application unless the administrative law judge or the NCUA Board determines that the public interest requires such participation in order to permit full exploration of matters raised in the comments.

§ 747.612 Settlement.

The applicant and counsel for NCUA may agree on a proposed settlement of the award before final action on the application, either in connection with a settlement of the underlying proceeding, or after the underlying proceeding has been concluded, in accordance with NCUA's standard settlement procedure. If a prevailing party and counsel for NCUA agree on a proposed settlement of an award before an application has been filed, the application shall be filed with the proposed settlement.

§ 747.613 Further proceedings.

(a) After the expiration of the time allowed for the filing of all documents necessary for the determination of a recommended fee award, the NCUA Board shall transmit the entire record to the administrative law judge who presided at the underlying proceeding. Ordinarily, the determination of an award will be made on the basis of the written record. However, on request of either the applicant or counsel for NCUA, or on its own initiative, the administrative law judge or the NCUA Board may order further proceedings, such as an informal conference, oral argument, additional written submissions or an evidentiary hearing. Such further proceedings shall be held only when necessary for full and fair resolution of the issues arising from the application, and shall be conducted as promptly as possible.

(b) A request that the administrative law judge or the NCUA Board order further proceedings under this section shall specifically identify the information sought or the disputed issues and shall explain why the additional proceedings are necessary to resolve the issues.

§ 747.614 Recommended decision.

The administrative law judge shall file a recommended decision on the application with the NCUA Board within 60 days after completion of the proceedings on the application. The recommended decision shall include written findings and conclusions on the applicant's eligibility and status as a prevailing party, and an explanation of the reasons for any difference between the amount requested and the amount awarded. The recommended decision shall also include, if at issue, findings on whether NCUA's position was substantially justified, whether the applicant unduly protracted the proceedings, or whether special circumstances make an award unjust. If the applicant has sought an award against more than one agency, the recommended decision shall allocate responsibility for payment of any award made among the agencies, and shall explain the reasons for the allocation made. The administrative law judge shall file with and certify to the NCUA Board the record of the proceeding on the fee application, the recommended decision and proposed order. Promptly upon such filing, the NCUA Board shall serve upon each party to the proceeding a copy of the administrative law judge's recommended decision, findings, conclusions and proposed order. The provisions of this section and § 747.613 shall not apply, however, in any case where the hearing was held before the NCUA Board.

§ 747.615 Decision of the NCUA Board.

Within 15 days after service of the recommended decision, findings, conclusions, and proposed order, the applicant or counsel for NCUA may file with the NCUA Board written exceptions thereto. A supporting brief may also be filed. The NCUA Board shall render its decision within 60 days after the matter is submitted to it. The NCUA Board shall furnish copies of its decision and order to the parties. Judicial review of the NCUA Board's final decision and order may be obtained as provided in 5 U.S.C. 504(c)(2).

§ 747.616 Payment of award.

An applicant seeking payment of an award granted by the NCUA Board shall submit to the NCUA's Office of the Controller a copy of the NCUA Board's Final Decision and Order granting the award, accompanied by a statement that it will not seek review of the decision and order in the United States court. All submissions shall be addressed to the Office of the Controller, National Credit Union Administration, 1776 G Street N.W., Washington, D.C. 20456. The NCUA will pay the amount awarded within 60 days after receiving the applicant's statement, unless judicial review of the award or of the underlying decision of the adversary adjudication has been sought by the applicant or any other party to the proceeding.

Subpart H—Local Rules and Procedures Applicable to Investigations

§ 747.701 Applicability.

The rules in this subpart apply only to informal and formal investigations conducted by the NCUA Board itself or its delegates. They do not apply to adjudicative or rulemaking proceedings or to routine, periodic or special examinations conducted by the NCUA Board's staff.

§ 747.702 Information obtained in investigations.

Information and documents obtained by the Board in the course of any investigation, unless made a matter of public record by the NCUA Board, shall be deemed non-public, but the NCUA Board approves the practice whereby the General Counsel may engage in, and may authorize any person acting on his or her behalf or at his or her direction to engage in, discussions with representatives of domestic or foreign governmental authorities, self-regulatory organizations, and with receivers, trustees, masters and special counsels or special agents appointed by and subject to the supervision of the courts of the United States, concerning information obtained in individual investigations, including investigations conducted pursuant to any order entered by the NCUA Board or its General Counsel pursuant to delegated authority.

§ 747.703 Authority to conduct investigations.

(a) The General Counsel and persons acting on his or her behalf and at his or her direction may conduct such investigations into the affairs of any insured credit union or institution-affiliated parties as deemed appropriate to determine whether such credit union or party has violated, is violating or is about to violate any provision of the NCUA, the NCUA Board's regulations or other relevant statutes or regulations that may bear on a party's fitness to participate in the affairs of a credit union. The General Counsel and persons acting on his or her behalf may investigate whether any party is unfit to participate in the affairs of a credit union, whether formal enforcement proceedings are warranted, or such other matters as the General Counsel or his or her designee, in his or her discretion, shall deem appropriate. Such investigations may be conducted either informally or formally.

(b) Formal investigations involve the exercise of the NCUA Board's subpoena power and are referred to here as formal investigative proceedings. In formal investigative proceedings, the General Counsel and those to whom he or she delegates authority to act on his or her behalf and at his or her direction have augmented investigatory powers and need not rely on the powers available to them in informal investigations, and they may gather evidence through the issuance of subpoenas compelling the production of documents or testimony as well. In informal investigations evidence may be gathered ordinarily through the use of investigatory procedures or credit union examinations and through voluntary statements and submissions.

(c) The NCUA Board has delegated authority to the General Counsel, or designee thereof, to institute formal investigative proceedings by the entry of an order indicating the purpose of the investigation and the designation of persons to conduct that investigation on his or her behalf and at his or her direction. This delegation also extends to the NCUA Board's role as liquidator and conservator of insured credit unions. The power to issue a subpoena may not be delegated outside the agency. The General Counsel may amend such order as he deems appropriate.

Subpart I—Local Rules Applicable to Formal Investigative Proceedings

§ 747.801 Applicability.

The rules in this subpart are applicable to a witness who is sworn in a formal investigative proceeding. Formal investigative proceedings may be held before the NCUA Board, before one or more of its members, or before any officer designated by the NCUA Board or its General Counsel, as described in subpart H of this part, and with or without the assistance of such other counsel as the NCUA Board deems appropriate, for the purpose of taking testimony of witnesses, conducting an investigation and receiving other evidence. The term "officer conducting the investigation" shall mean any of the foregoing.

§ 747.802 Non-public formal investigative proceedings.

Unless otherwise ordered by the NCUA Board, all formal investigative proceedings shall be non-public.

§ 747.803 Subpoenas.

(a) *Issuance.* In the course of a formal investigative proceeding the officer conducting the investigation may issue a subpoena directing the party named therein to appear before the officer conducting the investigation at a specified time and place to testify or to produce documentary evidence, or both, relating to any matter under investigation.

(b) *Service.* Service of subpoenas shall be effected in the following manner:

(1) Service upon a natural party. Delivery of a copy of a subpoena to a natural person may be effected by—

(i) Handing it to the person;

(ii) Leaving it at his or her office with the person in charge thereof or, if there is no one in charge, by leaving it at a conspicuous place there;

(iii) Leaving it at his or her dwelling place or usual place of abode with some person of suitable age and discretion who is found there; or

(iv) Mailing it by registered or certified mail to him at his or her last known address. In the event that personal service as described in this paragraph is impracticable, any other method whereby actual notice is given to the respondent may be employed.

(2) Service upon other persons. When the person to be served is not a natural person, delivery of a copy of the subpoena may be effected by—

(i) Handing it to a registered agent for service, or to any officer, director, or agent in charge of any office of such person;

(ii) Mailing it by registered or certified mail to any such representative at his or her last known address; or

(iii) Any other method whereby actual notice is given to any such representative.

(c) *Witness fees and mileage.* Witnesses appearing pursuant to subpoena shall be paid the same fees and mileage that are paid to witnesses in the United States district courts. Any such fees and mileage payments need be paid only upon submission of a properly completed application for reimbursement and in no event need they be paid sooner than 30 days after the appearance of the witness pursuant to subpoena.

(d) *Enforcement.* Whenever it appears to the General Counsel that any person upon whom a subpoena was properly served pursuant to these Rules is refusing to fully comply with the terms of that subpoena, then the General Counsel, in his or her discretion, may apply to the courts of the United States for enforcement of such subpoena.

§ 747.804 Oath; false statements.

At the discretion of the officer conducting the investigation, testimony of a witness may be taken under oath and administered by the officer. Any person making false statements under oath during the course of a formal investigative proceeding is subject to the criminal penalties for perjury in 18 U.S.C. 1621. Any person who knowingly and willfully makes false and fraudulent statements, whether under oath or otherwise, or who falsifies, conceals or covers up any material fact, or submits any false, fictitious or fraudulent information in connection with such a proceeding, is subject to the criminal penalties set forth in 18 U.S.C. 1001.

§ 747.805 Self-incrimination; immunity.

(a) *Self-incrimination.* Except as provided below, a witness testifying or otherwise giving information in a formal investigative proceeding may refuse to answer questions on the basis of his or her right against self-incrimination granted by the Fifth Amendment of the Constitution of the United States.

(b) *Immunity.* (1) No officer conducting any formal investigative proceeding (or any other informal investigation or examination) shall have the power to grant or promise any party any immunity from criminal prosecution under the laws of the United States or of any other jurisdiction.

(2) If the NCUA Board believes that the testimony or other information sought to be obtained from any party may be necessary to the public interest and that party has refused or is likely to refuse to testify or provide other information on the basis of his or her privilege against self-incrimination, the NCUA Board, with the approval of the Attorney General, may issue an order requiring the party to give testimony or provide other information that he or she has previously refused to provide on the basis of self-incrimination.

(3) Whenever a witness refuses, on the basis of his privilege against self-incrimination, to testify or provide other information in a formal investigative proceeding, and the officer conducting the investigation communicates to that person an order of the NCUA Board requiring him or her to testify or provide other information, the witness may not refuse to comply with the order on the basis of his or her privilege against self-incrimination; but no testimony or other information compelled under the order (or any information directly or indirectly derived from such testimony or other information) may be used against the witness in any criminal case, except a prosecution for perjury, giving a false statement, or otherwise failing to comply with the order.

VOL 56 ISS 116 JE 17 1991 UMI

§ 747.806 Transcripts.

Transcripts, if any, of formal investigative proceedings shall be recorded solely by the official reporter, or by any other person or means designated by the officer conducting the investigation. A party who has submitted documentary evidence or testimony in a formal investigative proceeding shall be entitled, upon written request, to procure a copy of his or her documentary evidence or a transcript of his or her testimony on payment of the appropriate fees: *Provided, however,* That in a nonpublic formal investigative proceeding the NCUA Board may for good cause deny such request or the NCUA Board may place reasonable limitations upon the use of the documentary evidence and transcript. In any event, any witness, upon proper identification, shall have the right to inspect the official transcript of the witness's own testimony.

§ 747.807 Rights of witnesses.

(a) In the event that a formal investigative proceeding is conducted pursuant to a specific order entered by the NCUA Board or by its General Counsel, then any party who is compelled or requested to provide documentary evidence or testimony as part of such proceeding shall, upon request, be shown a copy of the NCUA Board's or its delegate's order. Copies of such orders shall not be provided for their retention to such persons requesting same except in the sole discretion of the General Counsel or his designee.

(b) Any party compelled to appear, or who appears by request or permission of the officer conducting the investigation, in person at a formal investigative proceeding may be accompanied, represented and advised by counsel who is a member of the bar of the highest court of any state; *Provided however,* That all witnesses in such proceeding shall be sequestered, and unless permitted in the discretion of the officer conducting the investigation, no witness or the counsel accompanying any such witness shall be permitted to be present during the examination of any other witness called in such proceeding.

(c)(1) The right of a witness to be accompanied, represented and advised by counsel shall mean the right to have an attorney present during any formal investigative proceeding and to have the attorney—

(i) Advise such person before, during and after such testimony;

(ii) Question such person briefly at the conclusion of his testimony to clarify any answers such person has given; and

(iii) Make summary notes during such testimony solely for the use of such person.

(2) From time to time, in the discretion of the officer, it shall be necessary for persons other than the witness and his or her counsel to attend non-public investigative proceedings. For example, the officer may deem it appropriate that outside counsel to the NCUA Board attend and advise him or her concerning the proceeding including the examination of a particular witness. In these circumstances, outside counsel would not be an officer as that term is used. In other circumstances, it may be appropriate that a technical expert (such as an accountant) accompany the witness and his or her counsel in order to assist counsel in understanding technical issues. These latter circumstances should be rare, are left to the discretion of the officer conducting the investigation, and shall not in any event be allowed to serve as a ruse to coordinate testimony between witnesses, to oversee or supervise the testimony of any witness, or otherwise defeat the beneficial effects of the witness sequestration rule.

(d) The officer conducting the investigation may report to the NCUA Board any instances where any witness or counsel has been guilty of dilatory, obstructionist or contumacious conduct during the course of a formal investigative proceeding or any other instance of violations of these rules. The NCUA Board will thereupon take such further action as the circumstance may warrant including barring the offending person from further participation in the particular formal investigative proceeding or even from further practice before the Board.

Subpart J—Local Procedures and Standards Applicable to a Notice of Change in Senior Executive Officers, Directors or committee Members Pursuant to Section 212 of the FCUA

§ 747.901 Scope.

The rules and procedures set forth in this subpart shall apply to the notice filed by a credit union pursuant to section 212 of the FCUA (12 U.S.C. 1791) and § 701.14 of this chapter, for the consent of the NCUA to add to or replace an individual on the board of directors or supervisory or credit committee, or to employ any individual as a senior executive office or change the responsibilities of any individual to a position of senior executive officer where the credit union either has been chartered less than 2 years; or is in "troubled condition," as defined in § 701.14 of this chapter. Subpart A of this part shall not apply to any proceeding under this subpart.

§ 747.902 Grounds for disapproval of notice.

The NCUA Board or its designee may issue a notice of disapproval with respect to a notice submitted by a credit union pursuant to section 212 of the FCUA and § 701.14 of this chapter, where the competence, experience character or integrity of the individual with respect to whom such notice is submitted indicates that it would not be in the best interest of the members of the credit union or the public to permit the individual to be employed by or associated with, such credit union.

§ 747.903 Procedures where notice of disapproval issued; reconsideration.

(a) The notice of disapproval shall be served upon the federally insured credit union and the candidate for director, committee member or senior executive officer. The notice of disapproval shall:

(1) Summarize or cite the relevant consideration specified in § 747.902;

(2) Inform the individual and the credit union that, within 15 days of receipt of the notice of disapproval, they can request reconsideration by the Regional Director of the initial determination, or can appeal the determination directly to the NCUA Board;

(3) Specify what additional information, if any, must be constant in the reconsideration.

(b) The request for reconsideration by the Regional Director must be filed at the appropriate Regional Office.

(c) The Regional Director shall act on a request for reconsideration within 30 days of its receipt.

§ 747.904 Appeal.

(a) *Time for filing.* Within 15 days after issuance of a Notice of Disapproval or a determination on a request for reconsideration by the Regional Director, the individual or credit union (henceforth petitioner) may appeal by filing with the NCUA Board a written request for appeal.

(b) *Contents of request.* Any appeal must be in writing and include:

(1) The reasons why NCUA should review its disapproval; and

(2) Relevant, substantive and material documents that for good cause were not previously set forth in the notice required to be filed pursuant to section 212 of the FCUA and § 701.14 of this chapter.

(c) *Procedures for review of request.* Within 30 days of the NCUA Board's receipt of an appeal, the NCUA Board may request in writing that the petitioner submit additional facts and records to support the appeal. The petitioner shall have 15 days from the date of issuance of such written request to provide such additional information. Failure by the petitioner to provide additional information may, as determined solely by the NCUA Board or its designee, result in denial of the petitioner's appeal.

(d) *Determination on appeal by NCUA Board or its designee.* (1) Within 90 days from the date of the receipt of an appeal by the NCUA Board or its designee or of its receipt of additional information requested under paragraph (c) of this section, the NCUA Board or its designee shall notify the petitioner whether the disapproval will be continued, terminated, or otherwise modified. The NCUA Board or its designee shall promptly rescind or modify the notice of disapproval where the decision is favorable to the petitioner.

(2) The determination by the NCUA Board on the appeal shall be provided to the petitioner in writing, stating the basis for any decision of the NCUA Board or its designee that is adverse to the petitioner, and shall constitute a final order of the NCUA Board.

(3) Failure by the NCUA Board to issue a determination on the petitioner's appeal within the 90-day period prescribed under paragraph (d) (1) of this section shall be deemed a denial of the appeal for purpose of § 747.905.

§ 747.905 Judicial review.

(a) Failure to file an appeal within the applicable time periods, either to the initial determination or to the decision a request for reconsideration, shall constitute a failure by the petitioner to exhaust available administrative remedies and, due to such failure, any objections to the initial determination or request for reconsideration shall be deemed to be waived and such determination shall be deemed to have been accepted by, and shall be binding upon, the petitioner.

(b) For purposes of seeking judicial review of actions taken pursuant to this section, suit may be filed in the United States District Court for the district where the requester resides, where the credit union's principal place of business is located, or in the District of Columbia.

Subparts K and L [Removed]

5. Subparts K and L are removed.

Dated: June 5, 1991.

[Docket No. 25456; Amendment No. 108-9]

RIN 2120-AD92

Flight and Cabin Crew Notification Guidelines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This final rule amends the Federal Aviation Regulations and implements a statutory requirement for the notification of flight and cabin crewmembers of threats to the security of their flight. The Aviation Security Improvement Act of 1990 amended title III of the Federal Aviation Act of 1958 and directed the Administrator of the FAA to implement guidelines for such notification. This amendment is needed to clarify an air carrier's responsibility to disseminate threat information to inflight security coordinators and establishes new requirements to disseminate this information to flight and cabin crewmembers. Air carriers are also required to provide any evaluation of the threat information and countermeasures to be applied. This action is intended to enhance civil aviation security.

EFFECTIVE DATE: July 17, 1991.

FOR FURTHER INFORMATION CONTACT: Frederick P. Falcone, Office of Civil Aviation Security Policy and Plans, Policy and Standards Division (ACP-110), Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591, telephone (202) 267-7296.

SUPPLEMENTARY INFORMATION:

Background and Discussion of the Rule

The Federal Aviation Administration (FAA) undertook this rulemaking to comply with a legislative mandate imposed by the Aviation Security Improvement Act of 1990 (the Act), Public Law 101-604, which was signed into law on November 16, 1990. Section 109 of the Act amended title III of the Federal Aviation Act of 1958 (49 U.S.C. app. 1341-1358) and directed the Administrator of the FAA to develop guidelines for ensuring notification of the flight and cabin crews of an air carrier flight of threats to the security of such flight in appropriate cases.

On January 28, 1991, the FAA issued a notice of proposed rulemaking (NPRM) (56 FR 4322; February 4, 1991) to amend § 108.19 of the Federal Aviation Regulations, 14 CFR 108.19, to provide such guidelines. Under the proposed rule, upon receipt of a specific and credible threat to the security of a flight, a certificate holder would be required immediately to notify the ground and in-flight security coordinators of the threat, any evaluation thereof, and any countermeasures to be applied. In addition, the certificate holder would be required to ensure that the in-flight security coordinator (which is the pilot in command under 14 CFR 108.10) notifies the flight and cabin crews of the same threat information.

The current system for evaluating and responding to threats to civil aviation is founded on the principle that it is best for intelligence experts to filter threat information before providing it to aviation personnel directly responsible for dealing with those threats. The air carrier's security experts, generally in consultation with the FAA and other government entities, evaluate threat information against specific FAA-established criteria to determine "specificity" and "credibility." (The terms "specific" and "credible" are not interdependent and are commonly applied by intelligence experts to threat information involving a well defined target and which has been authenticated.)

Excluding those threats which are judged to be groundless or not requiring the application of specific countermeasures is a practical approach, given the hundreds of bogus threats received annually. Eliminating bogus threats is also critical to ensure that real threats are perceived as serious, not diluted in impact by a multiplicity of false alarms. This limited distribution of threat information helps ensure that genuine threats are handled as thoroughly and expeditiously as possible. In the FAA's view, it is not appropriate to provide notification to flight and cabin crews unless the threat information has been judged by security professionals to be specific and credible.

Interested persons were invited to participate in the rulemaking by submitting written comments.

Discussion of Comments

The FAA received seven comments from entities representing regional airlines, major air carriers, pilots, and flight attendants. One comment was received from a member of the general public. No comments were received from Congress or other government agencies. The commenters who express some criticism of FAA's proposed rule address policy choices the FAA described in its NPRM, while not contradicting the factual bases for the FAA's choices. None of the commenters address the Regulatory Evaluation Summary, which concerns the economic consequences of the proposed rule as published in the NPRM.

One commenter has no criticism of the proposed rule and urges that it be adopted as a final rule.

Another commenter supports the essence of the proposed rule, but with one change. This commenter, the Air Transport Association, proposes that the pilot in command decide on a case by case basis whether the crew should be notified of threat information. The FAA does not accept this suggestion. As noted in the preamble of the NPRM, the proposed rule was intended to "eliminate any discretion on this issue, and require the carrier to ensure that the in-flight security coordinator provides the flight and cabin crew with threat information along with any evaluation and the countermeasures to be applied." (56FR 4324) Adoption of this commenter's suggestion would be contrary to the interests of other crewmembers in receiving timely and accurate threat notification and runs counter to the spirit of the Act. Two commenters representing cabin crew members specifically endorse the FAA's policy choice on this issue.

A third supporting commenter urges adoption of the proposed regulatory language without change, and suggests the FAA consider appropriate amendments to the Air Carrier Standard Security Program (ACSSP), which was referenced in the NPRM. The FAA is currently evaluating the need to amend the ACSSP and may do so in connection with implementation of the final rule.

Three commenters accept the limitation in the proposed rule to credible threat information, but suggest that all credible information, even if non-specific, should be communicated to crewmembers. One of the commenters requests clarification of the FAA's definition of "specific." As explained in the NPRM, "specific" in this context refers to threat information that involves a well defined target or targets. A well defined target may include a single flight or series of flights spanning a particular period of time or geographic location. Specific threat information includes positive details describing an individual, airplane, aviation operation, or facility which suggests a particular knowledge of the intended target or targets not widely held by the general public.

If the scope of crew notification is not limited to threat information involving a well defined target, carriers would find it impossible to determine which threat information should be presented to the crew of a given flight. It would not be appropriate for carriers to relay all known, credible threat information to the crews of all flights, regardless of whether the threat information applied to that particular flight. Doing so would run the risk of inundating crews with a large quantity of irrelevant material, while obscuring the truly useful information.

This conclusion is supported by the legislation, which requires notification of the "crews of an air carrier flight of threats to the security of such flight in appropriate cases" (emphasis added). Congress did not direct the Administrator to develop guidelines for crew notification of threats to the security of *all* or *any* flights, and such notification would not be appropriate. However, carriers may provide notification to flight and cabin crews of any non-specific threats beyond the scope of this rule, if they deem it appropriate.

One commenter suggests that the FAA substitute the term "relevant" for "specific" in the language of the rule. As explained above, "specific" in this context includes information which is relevant to a single flight or series of flights. The term "specific" is preferable because it is a term of art used by security professionals.

One commenter recommends that, when practicable, a cabin crew briefing with the in-flight security coordinator should be held prior to boarding the aircraft of a flight affected by a security threat. This commenter observes that most carriers already follow this procedure and flight attendants have found briefings to be an appropriate opportunity to discuss their concerns. The FAA agrees that such briefings are an appropriate procedure for notification of threat information, and that they should be held when practicable.

Two commenters suggest that crews should be notified of all threat information, whether bogus or credible. The FAA explained in detail in the NPRM why it is inappropriate to notify crews of threat information that has not been determined to be credible. As noted in the preamble, the Report of the President's Commission on Aviation Security and Terrorism supported limiting notification to credible threats. Six commenters, all of whom represent entities directly affected by the proposed rule, either affirmatively endorse or take no exception to this conclusion.

One of these commenters expresses the opinion that security information is comparable to weather or mechanical information, and proposes that all such information should be made available to the pilot to assist him or her in dealing with various eventualities. While the FAA is sensitive to this commenter's concerns, the agency does not agree with this suggestion. The FAA recognizes that a wide diversity of skills and complex training are needed in order to serve as a pilot in command in today's environment. A pilot's training and experience equip him or her to interpret and use a wide variety of information, including weather and mechanical data, in making crucial decisions.

The interpretation of intelligence-based security information, however, has not historically been within the purview of the pilot in command. Instead, responsibility for filtering and interpreting this information has rested with airline and government intelligence and security professionals. The FAA believes it is essential that threat information be filtered and assessed by those professionals if it is to be useful to the pilot in command and crew.

As explained in the preamble to the NPRM, the FAA agrees with the Report of the President's Commission that "the professionals who analyze threat information—the intelligence and law enforcement communities" should retain authority to determine the credibility of threat information (56 FR 4324). This commenter suggests that crews should be trained to perform this evaluation. The FAA believes this suggestion is not practical and would lead to an unproductive duplication of resources.

The rule as proposed will make the most effective use of both professional security and crew resources. This measure will help ensure that crews are thoroughly informed, so that they can focus their attention on possible security problems and perform their security-related functions with a heightened level of care and awareness.

One commenter criticizes the short period allowed for comment. This comment was considered although it was received after the closing date. The FAA issued the NPRM in response to a Congressional mandate to establish crewmember notification guidelines not later than 180 days after the enactment of the Aviation Security Improvement Act. The 30 day comment period reflects the time available to promulgate this expedited rulemaking.

After careful consideration of the comments and available data, the FAA has determined that air safety and the public interest require adoption of the rule as proposed.

Regulatory Evaluation Summary

This section summarizes the full regulatory evaluation prepared by the FAA that provides more detailed estimates of the economic consequences of this final rule. This summary and the full evaluation quantify, to the extent practicable, estimated costs to the private sector, consumers, Federal, State and local governments, as well as anticipated benefits.

Executive Order 12291, dated February 17, 1981, directs Federal agencies to promulgate new regulations or modify existing regulations only if potential benefits to society for each regulatory change outweigh potential costs. This determination is normally made on the basis of a regulatory evaluation. In this case, however, the Congress has already determined that this rule is in the public interest; that is, its collective public benefits outweigh its costs to the public, because Congress has required the rule to be promulgated (The Aviation Security Improvement Act of 1990: Pub. L. 101-604). Nevertheless, the FAA has prepared this conventional regulatory evaluation of the rule. The purpose of this evaluation is not to justify this rulemaking action (which has already been done through Congressional action), but to estimate potential costs and benefits (either qualitatively or quantitatively) to promote a better understanding of the impact of the rule. The order also requires the preparation of a Regulatory Impact Analysis of all "major" rules except those responding to emergency situations or other narrowly defined exigencies. A "major" rule is one that is likely to result in an annual effect on the economy of $100 million or more, a major increase in consumer costs, or a significant adverse effect on competition.

The FAA has determined that this rule is not "major" as defined in the executive order, therefore a full regulatory analysis, including the identification and evaluation of cost-reducing alternatives to the rule, has not been prepared. Instead, the agency has prepared a more concise document termed a regulatory evaluation that analyzes only this rule without identifying alternatives. In addition to a summary of the regulatory evaluation, this section also contains a final regulatory flexibility determination required by the 1980 Regulatory Flexibility Act (Pub. L. 96-354) and an international trade impact assessment. If more detailed economic information is desired than is contained in this summary, the reader is referred to the

VOL 56 ISS 116 JE 17 1991 UMI

full regulatory evaluation contained in the docket.

Costs

The rule is expected to impose a negligible incremental cost of compliance on U.S. air carriers. In addition, the rule is not expected to impose any monetary costs on the flying public. This assessment is based on the rationales contained in the following paragraphs.

The FAA expects the costs of the rule to be negligible based on two assumptions. First, the rule is assumed not to substantially increase the costs associated with the current flow of specific and credible security threat information between air carrier management and ground and in-flight security coordinators. This is because air carriers are already providing most of the security information required by the rule to ground and in-flight security coordinators on a routine basis.

The second assumption is that air carriers will not incur additional costs beyond current industry practice, as the result of ensuring that in-flight security coordinators notify flight and cabin crewmembers of *all* specific and credible security threats. This is also true of the requirement that air carriers provide any evaluation of the threat information and countermeasures to be applied. Disclosure of this information to flight and cabin crewmembers will impose only a negligible cost of compliance on air carrier operators because they already compile specific and credible security threat information on a routine basis.

Although the FAA contends that the rule will impose a negligible cost of compliance for the notification process, it recognizes that the potential for significant costs does exist in some cases. The reason for this assessment is that in-flight security coordinators (pilots in command) have the authority to request additional countermeasures if they consider them to be justified. The magnitude of this potential cost impact will depend on the extent to which flight and cabin crews expand the field of information available to security experts, who could then decide to take additional countermeasures based upon all security information available. These measures could include delaying scheduled flights from departing or requesting airborne flights to land for the purpose of conducting additional security checks or applying countermeasures.

The average time required to conduct a security check for narrow and wide-body aircraft on the ground ranges between 3 and 5 hours. If an aircraft is airborne and forced to land for a security check, there would be an additional cost for landing fees and delay time. Another cost factor (qualitative) associated with this potential situation could be the inconvenience imposed on passengers in the form of delays. According to one air carrier, the cost of an aircraft delay as the result of conducting additional security countermeasures could be as high as $200,000 to over $1 million (in 1990 dollars) per security check. The reader is cautioned that this range should not be considered precise and incorporates a number of general assumptions. Some of the assumptions include: The delayed aircraft is the only one connected to departures from other areas, additional flight crews may be needed due to time and duty limitations, lawsuits may be filed by some passengers, costs may be incurred for another slot at the gate, plus a multitude of other factors.

Over the past 10 years, on average, air carriers have received between 650 and 750 security threats annually. An estimated 600 to 700 of these threats were anonymous that were not determined to be specific and credible. None of these anonymous threats resulted in an explosion or the discovery of a bomb. During the same period, on an annual basis 30, out of 50 credible aircraft security threats were specific. To date, there is no evidence of an explosion or discovery of a bomb relating to a specific and credible security threat.

Benefits

The final rule will generate benefits by ensuring that the current high level of aviation safety remains intact. Under the rule, air carriers will be required to provide all credible and specific security threats, as well as any evaluation thereof and countermeasures to be applied, to the ground and in-flight security coordinators. In turn, the in-flight security coordinator will notify the flight and cabin crewmembers. The flight and cabin crewmembers will benefit directly from the rule. As the "eyes and ears" of an air carrier, flight and cabin crewmembers are trained to be alert to possible security threats and to apply security procedures when a threat is suspected. The rule will better enable flight and cabin crewmembers to conduct their security responsibilities by enhancing their alertness to indications that a threat may be actually carried out. The enhanced awareness of the flight and cabin crews will subsequently benefit the in-flight security coordinator by enhancing the information he or she has as the pilot in command. The rule will benefit the traveling public by reducing the possibility that security threats to a U.S. air carrier not disclosed to flight and cabin crewmembers will result in casualty losses (namely, aviation fatalities and property damage).

Conclusions

The rule will impose only negligible incremental costs on air carriers and could result in benefits to the aviation community and flying public in the form of ensuring that the current high level of aviation safety remains intact. Therefore, the FAA concludes that the rule is cost-beneficial.

Regulatory Flexibility Determination

The Regulatory Flexibility Act of 1980 (RFA) was enacted to ensure that small entities are not unnecessarily and disproportionately burdened by Government regulations. The RFA requires agencies to review rules that may have "a significant economic impact on a substantial number of small entities." The small entities that could be potentially affected by the implementation of this rule are scheduled air carrier operators for hire that own but do not necessarily operate nine or fewer aircraft. A significant economic impact for these small entities will be an annualized cost that exceeds $105,000 (in 1990 dollars). Since the incremental cost of compliance is expected to be negligible (less than $105,000 annually for each air carrier operator), the FAA has determined that the rule will not have a significant economic impact on a substantial number of small entities.

International Trade Impact Assessment

The rule will neither have an effect on the sale of foreign aviation products or services in the United States, nor will it have an effect on the sale of U.S. products or services in foreign countries. This is because the rule is expected to impose only negligible costs on U.S. air carrier operators. This action will not result in a competitive disadvantage to U.S. carriers engaged in international flight operations.

Federalism Implications

The rule will not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this rule will not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Conclusion

For the reasons discussed in the preamble, and based on the findings in the Regulatory Flexibility Determination and the International Trade Impact Analysis, the FAA has determined that this regulation is not major under Executive Order 12291. In addition, it is certified that this regulation will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. This regulation is considered significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). A regulatory evaluation of the regulation, including a Regulatory Flexibility Determination and International Trade Impact Analysis, has been placed in the docket. A copy may be obtained by contacting the person identified under "For Further Information Contact."

List of Subjects in 14 CFR Part 108

Airplane operator security, Aviation safety, Air transportation, Air carriers, Airlines, Security measures, Transportation, Weapons.

The Amendments

In consideration of the foregoing, the Federal Aviation Administration amends part 108 of the Federal Aviation Regulations (14 CFR part 108) as follows:

PART 108—[AMENDED]

1. The authority citation for part 108 is revised to read as follows:

Authority: 49 U.S.C. App. 1354, 1356, 1357, 1421, 1424, and 1511; 49 U.S.C. 106(g); Sec. 101 *et seq.*, Pub. L. 101-604, 104 Stat. 3066.

2. Section 108.19 is amended by redesignating paragraphs (a) and (b) as (b) and (c) respectively; by adding a new paragraph (a); and by revising the section heading to read as follows:

§ 108.19 Security Threats and Procedures.

(a) Upon receipt of a specific and credible threat to the security of a flight, the certificate holder shall—

(1) Immediately notify the ground and in-flight security coordinators of the threat, any evaluation thereof, and any countermeasures to be applied; and

(2) Ensure that the in-flight security coordinator notifies the flight and cabin crewmembers of the threat, any evaluation thereof, and any countermeasures to be applied.

RIN 2137-AA42

Requirements for Cargo Tanks; Corrections

AGENCY: Research and Special Programs Administration (RSPA), DOT.

ACTION: Final rule; corrections and revisions.

SUMMARY: This amendment makes corrections and clarifying revisions to certain requirements pertaining to cargo tank motor vehicles in the Hazardous Materials Regulations (HMR, 49 CFR parts 171–180). These requirements were adopted in a final rule issued under Docket Nos. HM-183/183A (June 12, 1989, 54 FR 24962; May 22, 1990, 55 FR 21035; September 7, 1990, 55 FR 37028). The changes contained in this amendment will impose no new requirements on persons subject to the HMR.

EFFECTIVE DATE: June 17, 1991.

FOR FURTHER INFORMATION CONTACT:

Charles Hochman, telephone (202) 366–4545, Office of Hazardous Materials Technology, or Hattie Mitchell, telephone (202) 366–4488, Office of Hazardous Materials Standards, Research and Special Programs Administration, U.S. Department of Transportation, 400 Seventh Street SW., Washington, DC 20590–0001;

or

Richard Singer, telephone (202) 366–2994, Office of Motor Carriers, Federal Highway Administration, U.S. Department of Transportation, 400 Seventh Street SW., Washington, DC 20590–0001.

SUPPLEMENTARY INFORMATION: This document corrects typographical errors, omissions, and discrepancies to requirements in the HMR pertaining to cargo tank motor vehicles. Additionally, in response to inquiries received by RSPA concerning the clarity of particular requirements, changes are made which should reduce uncertainties. These changes impose no new requirements on persons subject to the HMR.

Because the amendments adopted herein clarify and correct certain provisions in the HMR, relieve certain restrictions in those regulations, and impose no new regulatory burden on any person, notice and public procedure are unnecessary. For these same reasons, these amendments are being made effective without the usual 30-day delay following publication.

The following is a section-by-section review of the amendments.

Section 107.504

The second sentence of § 172.504(c) implies that only those persons registered under the provisions of § 172.502(f) are eligible to renew their registrations. This error is corrected by changing "§ 172.502(f)" to "§ 172.502".

Section 173.33

RSPA has received several requests for clarification of the requirements contained in § 173.33(a)(2). The intent of this section is to prevent the transportation of two or more materials in the same cargo tank motor vehicle which, if mixed, would cause a vehicle fire, tank rupture or the release of acutely toxic vapors. An example of materials which would be prohibited are nitric acid and fuel oil. It was not intended to prevent the shipment of materials which if mixed would produce a moderate exothermic reaction that would not start a fire, rupture the tank or release acutely toxic vapors.

For hazardous materials offered for transportation in a cargo tank motor vehicle supplied by the motor carrier, § 173.22(a)(2) was revised in the September 7, 1990 amendment to clarify that shippers' responsibilities extend to the requirements in part 173 but not to the continuing requalification requirements contained in part 180. Section 173.33(a)(3) contains a requirement that, when the prescribed periodic retest or reinspection under subpart E of part 180 is past due, a specification cargo tank motor vehicle may not be filled and offered for transportation until the retest or reinspection has been successfully completed. Hazardous materials are often loaded at bulk loading facilities in cargo tank motor vehicles supplied by the motor carrier without the offeror in attendance. In these instances, verification of a carrier's compliance with part 180 is not possible. To alleviate this discrepancy, paragraph (a)(3) is revised to reflect that this requirement does not apply to an offeror in situations where the cargo tank is supplied by the motor carrier.

Paragraphs (c)(4) and (d)(1) contain criteria for the continued use of certain cargo tanks manufactured prior to December 31, 1990. Included are cargo tanks marked with a design pressure rather than a Maximum Allowable Working Pressure (MAWP), and cargo tanks fitted with non-reclosing pressure relief devices. The December 31, 1990 date should have been adjusted to coincide with the last date on which a cargo tank may be marked or certified to the MC specifications in effect on December 30, 1990. Accordingly in paragraphs (c)(4) and (d)(1), the date "December 31, 1990" is revised to read "August 31, 1993". In paragraph (c)(2), the December 31, 1990 date for requiring a cargo tank to be marked or remarked with an MAWP or design pressure in accordance with § 180.405(k) remains unchanged.

Many hazardous material liquids transported in cargo tanks are required to be completely blanketed with an inert gas, (e.g., see §§ 173.190 and 173.247a). To clarify the intent of the requirements of paragraph (d)(2), the wording "in its gaseous state" is revised to read "with a gas pad".

Formerly, § 173.33 contained various provisions pertaining to commodities, cargo tank design, qualification, maintenance and use of cargo tanks. Under HM-183/183A, these provisions were placed elsewhere in parts 173, 178 and 180, as appropriate. It has been brought to RSPA's attention that several provisions placed in the MC 331 specification, i.e. in §§ 178.337-1(e), 178.337-9 (b) and (d), and 178.337-15, also apply to existing MC 330 cargo tanks, and that Parts 173 and 180 contain no references to apply those requirements to MC 330 cargo tanks. RSPA plans to address reinstating these provisions for MC 330 cargo tanks in a rulemaking proposal in the near future.

Sections 173.245–17.374

In § 173.245, authorization for the use of DOT 406 cargo tanks was inadvertently omitted in the introductory text to paragraph (a)(29). This omission is corrected.

Also in the September amendment, §§ 172.101 and 173.154 were amended by increasing the concentration cut-off point for ammonium nitrate solution from "containing not less than 15% water" to "containing 35% or less water". RSPA stated in the preamble discussion that the entry for "Ammonium nitrate solution" was being revised to reflect that ammonium nitrate solutions with "35% or less water" do not meet the definition of an oxidizer. This statement should have read that such solutions with "over 35% water" do not meet the definition of an oxidizer. Also, in Docket HM-181 (December 21, 1990; 55 FR 52584), § 172.101 Hazardous Materials Table, special provision B5 to the entry "Ammonium nitrate, liquid (hot concentrated solution)" refers to "ammonium nitrate solutions with 35 percent or more water". This special provision should have referred to solutions containing "35% or less water" which are regulated as oxidizers and will be corrected under HM-181.

Section 178.337-3

Paragraph (c), containing definitions of the terms "S_1" and "S_2", is reorganized for clarity and consistency in numbering of subparagraphs. No substantive change is made. Similar changes are made to these terms in §§ 178.338 and 178.345-9.

Section 178.337-6

Paragraph (a) requires cargo tanks manufactured after August 31, 1990, to have a manhole or, for certain cargo tanks, an inspection opening. The August 31, 1990 date should have been extended to coincide with the last date for which a cargo tank may be marked or certified to the MC 331 specification in effect on December 30, 1990. Accordingly, the date "August 31, 1990" is corrected to read "August 31, 1993".

Section 178.338-3

Paragraph (c), containing definitions of the terms "S_1" and "S_2", is reorganized for clarity and consistency in numbering of subparagraphs. No substantive change is made.

Section 178.345-2

RSPA has received information to the effect that American Society for Testing and Materials (ASTM) A 607 steel has been used successfully for many years under § 178.340-3 for manufacture of cargo tanks, and that ASTM A 607 steel has chemical and physical properties similar to ASTM A 572 steel authorized under § 178.345-2. Therefore, RSPA is revising paragraph (a)(1) to permit the continued use of ASTM A 607 steel for DOT specification cargo tank motor vehicles.

Section 178.345-3

It was RSPA's intention, in paragraph (a)(1), to provide alternative methods for determining the maximum design stress to be used in calculating stresses as provided by paragraph (c); namely, either the maximum allowable stress value prescribed in Section VIII of the American Society of Mechanical Engineers (ASME) Code, or 25 percent of the actual tensile strength as determined by physical property tests of the material used. The factor of safety is the same regardless of which method is employed. Accordingly, the words "the lesser of" are removed and the words "at design conditions" are added for clarity.

Paragraph (c), containing definitions of the terms "S_1" and "S_2" is reorganized for clarity and consistency in numbering of subparagraphs. No substantive change is made. Also, the number "0.7" is corrected to read "0.75". This was a printing error.

In paragraph (g)(2), lightweight attachments are required to be constructed of materials of lesser strength than the cargo tank wall materials. This paragraph is revised to clarify that these attachments also may be made of the same material of construction as the tank head or shell to which they are welded.

Section 178.345-7

Several cargo tank manufacturers understood the wording "where discontinuity in the alignment of longitudinal shell sheets exceeds the greater of 10 degrees or eight inches," in paragraph (a)(2), to refer to the alignment of longitudinal welded seams in cargo tank shell sheets. The intent of this paragraph was to address the angularity between adjacent conical shell sections, as in double conical tanks, or between conical and cylindrical sections, as at transition structures between forward and rear shells having different cross-sectional dimensions. The numerical value of 10 degrees indicates that the "discontinuity" measured is equivalent to the "half-apex angle" as defined in Mandatory Appendix 1, 1-4 of the ASMC Code, section VIII, Division 1. The description of the angle between adjacent shell sections is revised in this amendment for clarity. In addition, the Truck Trailer Manufacturers Association (TTMA) suggested that "discontinuity in the alignment" between shell sections of "up to 30 degrees" be allowed, citing Mandatory Appendix 1, 1-5, titled "Rules for Conical Reducer Sections and Conical Heads under Internal Pressure," of the ASME Code, section VIII, Division 1. This section of the ASME Code provides analytical rules for the design of such joints with half-apex angles even greater than 30 degrees. However, RSPA believes there is no need to specifically reference this section. With the exception of those parts of the ASME Code which are specifically identified as not applying to individual specifications, all parts of the Code apply.

The limitations on welding contained in paragraph (c) do not apply to welded portions of circumferential reinforcement located external to the tank. Therefore, paragraph (c) is revised for clarity. In paragraph (d), the word "it" is replaced with the word "reinforcement" to clarify that the circumferential reinforcement would be continuous, but the ring stiffener need not be continuous.

Section 178.345-8

RSPA believes the second sentence in paragraph (d)(3) pertaining to design stress levels is unnecessary in view of the design requirements prescribed in the first sentence. Therefore, the second sentence is removed and minor editorial changes are made to the last sentence.

Section 178.345-9

Paragraph (a) requires each loading or unloading pump mounted on a cargo tank motor vehicle that may pressurize the cargo tank to have an automatic means to prevent internal pressure from exceeding the MAWP of the tank and tank mounted equipment. Upon further consideration, RSPA believes that references to the loading or unloading pump and its mounted location are not necessary and that the limitation on internal pressure during loading or unloading operations is inconsistent with the test pressures prescribed by §§ 178.346, 178.347 and 178.348. These inconsistencies are corrected by providing that during loading and unloading the pressure within a cargo tank may not exceed test pressure.

Section 178.345-10

The dynamic surge requirements for the pressure relief system, contained in paragraph (b)(3), are rearranged to clarify the prescribed requirements and their applicable implementation dates.

Section 178.345-11

In the September amendment, we stated in the preamble discussion to § 178.345-11 (55 FR 37089) that a new paragraph (a)(4)(i) [which should have read paragraph "(b)(3)(i)"] was being added to clarify that the requirement for thermal actuation of self-closing stop-valves applies only to self-closing systems. In addition, we stated that a requirement in paragraph (b) concerning a tank outlet which is not a loading/unloading outlet was being broadened to permit the outlet to be equipped with a stop-valve or other leak-tight closure. Through an oversight, neither of these changes was included in the September amendment. These oversights are corrected in this amendment. In addition, based on several requests for clarification of this section, this section is reorganized for clarity.

Section 178.346-1, 178.437-1, 178.345-1

In a letter to RSPA, the Truck Trailer Manufacturers Association (TTMA) requested an exception from paragraph

VOL
56
ISS
116
JE
17
1991
UMI

UW-13(b)(2) and the dimensional requirements in Figure UW-13.1 of the ASME Code because the tooling equipment used by many manufacturers to form heads lacks the capability of providing a flange on the head of dimensions appropriate to meet this requirement. We were unaware that changes in manufacturing equipment would be required to meet this requirement and have no data to suggest that the use of current equipment for forming heads is unsafe. Therefore, we are granting an exception from paragraph UW-13(b)(2) and the dimensional requirements in Figure UW-13.1 to authorize continued use of existing manufacturing equipment.

Section 180.2

A minor editorial change is made in paragraph (b)(2).

Section 180.405

Paragraph (b) contains an authorization for the manufacture of MC 306, MC 307, and MC 312 cargo tanks to the applicable specification in effect on December 30, 1990, until August 31, 1993. Through an oversight, MC 330 and MC 331 cargo tanks were not included but are added under this amendment. A minor editorial revision is made in paragraph (C)(1).

Paragraph (c)(2)(vii) provides that pressure relief devices and outlets on an MC 330 cargo tank may be modified to that specified in § 178.337 for the MC 331 specification. It has been brought to RSPA's attention that the previous requirements in § 173.33(h) and (k) required that outlet and valves on MC 330 cargo tanks used to transport certain compressed gases be retrofitted to meet the MC 331 specification. The provisions previously contained in § 173.33(h) are now found in §§ 173.315 (h) and (o), 178.337-8(a), 178.337-9(b) and 178.337-11, as appropriate. The subject requirements in part 178 also apply to MC 330 cargo tanks in certain compressed gas service, as provided by §§ 173.315(n) and (o)(3). The provisions previously contained in § 173.33(k) are included in § 173.315(n). Therefore, RSPA has revised paragraph 180.405(c)(2)(vii) to include a reference to § 173.315 to alert persons to those requirements.

Requirements in paragraphs (g) (1) and (2) pertaining to the leak-tightness of manhole closures on specification cargo tanks are rearranged for clarity. In addition, provisions are added to clarify that there is no requirement to retest and certify manhole assemblies on MC 310, MC 311 and MC 312 cargo tanks with a test pressure of 38 psig or greater, or on MC 304 and MC 307 cargo tanks. The first sentence in paragraph (g)(3), applying to owners of five or more DOT specification cargo tanks requiring retrofit or certification of the manhole closure, is corrected by revising the year "1990" to read "1991".

The liquid surge requirements for a reclosing pressure relief valve that is replaced on an MC specification cargo tank and the applicable implementation dates for leak-tightness conditions, as prescribed in paragrpah (h), are revised for clarity.

Section 180.407

In paragraph (g)(1)(iv), the year "1990" is corrected to read "1991". Sections 1278.346-10(d)(3), 178.347-10(d)(2) and 178.348-10(d)(2) allow tank pressure, during loading or unloading, to reach test pressure at 1.5 times the MAWP; however, § 180.407(a)(2) does not allow for pressure increase during loading and unloading. For consistency with the specification requirements, paragraph (a)(2) is revised to allow a cargo tank to reach a pressure greater than its design pressure or MAWP during loading or unloading.

In the table in paragraph (c), insulated MC 330 and MC 331 cargo tanks are required to be given an internal visual inspection at least once every five years. However, paragraph (d)(1) provides that if insulation precludes making an external visual inspection, the cargo tank must be given an internal visual inspection annually. RSPA intent was to require insulated MC 330 and MC 331 cargo tanks to be visually inspected at least once every five years, not annually. This error is corrected in this amendment.

At various places in paragraph (f)(1) and (f)(2), the wording "leak" or "leaks" is used erroneously in referring to the presence of a "hole" through the lining. The wording has been revised to read "hole" or "holes". In addition, paragraph (f)(1) is revised for closer alignment with the Rubber Manufacturers Association Technical Bulletin 13, on which the lining inspection requirements are based. No substantive change is made.

The table in paragraph (g)(iv) is revised to show both metric measures and U.S. standard unit equivalents.

Paragraph (h)(1) provides for MC 330 and MC 331 cargo tanks to be leak-tested at normal operating pressure and to prevent the tanks from being operated at higher pressures. The National Propane Gas Association (NPGA) has notified RSPA that the normal opeating pressure for cargo tanks in liquefied petroleum gas service changes substantially with the ambient temperature. NPGA stated that a cargo tank would have to be leak-tested only on the warmest day of the year in order to ensure that it was not operated at pressures exceeding the test pressure. RSPA's intention was to permit a cargo tank which is normally operated at pressure levels substantially below its MAWP to be leak-tested at a lower pressure, provided it is a high-pressure cargo tank used in dedicated service. Therefore, paragraph (h)(1) is revised to permit owners to conduct this test at any ambient temperature, but at the maximum operating pressure experienced year round. Revised paragraph (h)(1) also allows MC 330 and MC 331 cargo tanks in liquefied petroleum gas service to be leak-tested at no less than 60 psig, and the paragraph has been rearranged for clarity.

Section 180.413

Paragraphs (d)(1) (i) and (ii) are revised to clarify that an MC 306, MC 307 and MC 312 cargo tank may be stretched and rebarrelled to the same specification until "August 31, 1991", to coincide with the last date for which these cargo tanks may be marked or certified to the MC specifications in effect on December 30, 1990.

Based on several telephone calls received by RSPA, there appears to be some confusion about the recertification of a cargo tank by a Design Certifying Engineer then certain types of work are performed. Section 180.413(d)(3) requires that the design of a rebarrelled or stretched cargo tank must be certified by a design Certifying Engineer. Such certification also applies to any design types changes to the undercarriage of a cargo tank, which affects the cargo tank's structural integrity, even though no welding is performed on the cargo tank wall. Paragraph (d)(3) is revised for clarity.

In the September amendment, the amendatory language to § 180.413 should have stated that paragraph (d)(2)(v) was being revised and not paragraph (d)(1)(v). This applicable regulatory text is correctly designated as paragraph (d)(2)(v) in the October 1, 1990 edition of the CFR. Therefore, no corrective action is required.

Section 180.415

This section is rearranged for clarity. No substantive change has been made.

Administrative Notices

Executive Order 12291 and Administrative Notices

RSPA has determined that based on the corrections contained herein this rulemaking (1) is not a "major rule" under terms of Executive Order 12291; (2) will not affect non-for-profit enterprises or small governmental jurisdictions; (3) contains no policies that have Federalism implications as defined in Executive Order 12612; and (4) does not require an environmental impact statement under the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*). However, the final rule issued under Docket HM-183/183A (June 12, 1989, 54 FR 24982; May 22, 1990, 55 FR 21035; September 7, 1990, 55 FR 37028) is a significant rule under DOT implementing procedures (44 FR 11034). The original regulatory evaluation and regulatory flexibility analysis prepared for the final rule were not modified because the amendments herein do not impose additional requirements and are not substantive changes to the final rule. These documents are available for review in the docket.

List of Subjects

49 CFR Part 107

Administrative practice and procedure, Hazardous materials transportation.

49 CFR Part 173

Hazardous materials transportation, Packaging and containers, Radioactive materials, Reporting and recordkeeping requirements, Uranium.

49 CFR Part 178

Hazardous materials transportation, Motor vehicle safety, Packaging and containers, Reporting and recordkeeping requirements.

49 CFR Part 180

Hazardous materials transportation, Motor carriers, Motor vehicle safety, Packaging and containers, Reporting and recordkeeping requirements.

In consideration of the foregoing, title 49, chapter I, subchapters B and C of the Code of Federal Regulations, are amended as set forth below.

The following amendments apply to parts 107, 173, 178, and 180 in effect as of the date of publication of this final rule:

PART 107—HAZARDOUS MATERIALS PROGRAM PROCEDURES

1. The authority citation for part 107 continues to read as follows:

Authority: 49 App. U.S.C. 1421(c); 49 U.S.C. 1802, 1806, 1808-1811; 49 CFR 1.45 and 1.53; Pub. L. 89-670 (49 App. U.S.C. 1653(d), 1655).

§ 107.504 [Amended]

2. In § 107.504, the last sentence in paragraph (c) is amended by revising the reference "§107.502(f)" to read "§ 107.502".

PART 173—SHIPPERS—GENERAL REQUIREMENTS FOR SHIPMENTS AND PACKAGINGS

3. The authority citation for part 173 continues to read as follows:

Authority: 49 App. U.S.C. 1803, 1804, 1805, 1806, 1807, 1808; 49 CFR Part 1, unless otherwise noted.

4. In § 173.33, paragraph (a)(3) is revised to read as follows:

§ 173.33 Hazardous materials in cargo tank motor vehicles.

(a) * * *

(3) No person may fill and offer for transportation a specification cargo tank motor vehicle for which the prescribed periodic retest or reinspection under subpart E of part 180 of this subchapter is past due until the retest or inspection has been successfully completed. This requirement does not apply to a cargo tank supplied by a motor carrier who is other than the person offering the hazardous material for transportation (see § 177.824 of this subchapter), or to any cargo tank filled prior to the retest or inspection due date.

* * * * *

§ 173.33 [Amended]

4a. In addition, in § 173.33, the following changes are made:

a. In paragraph (c)(4), the wording "manufactured prior to December 31, 1990" is revised to read "marked or certified before August 31, 1993".

b. In paragraph (d)(1), in the second sentence, the wording "constructed before December 31, 1990" is revised to read "marked or certified before August 31, 1993".

c. In paragraph (d)(2), in the first sentence, the wording "in its gaseous state" is revised to read "with a gas pad".

§ 173.245 [Amended]

5. In § 173.245, the introductory text to paragraph (a)(29) is amended by adding "DOT 406," immediately after "MC 312,".

§§ 173.369, 173.373, 173.374 [Amended]

6. The following sections are amended by removing the wording ", and Specification MC 330 and MC 331 are equipped with internal self-closing stop-valves meeting the requirements of § 178.337-11 of this subchapter".

§ 173.369(a)(14)(iii)
§ 173.373(a)(6)(iv)
§ 173.374(a)(4)(v)

PART 178—SHIPPING CONTAINER SPECIFICATIONS

7. The authority citation for part 178 continues to read as follows:

Authority: 49 App. U.S.C. 1803, 1804, 1805, 1806, 1808; 49 CFR Part 1, unless noted.

8. In § 178.337-3, paragraph (c) is revised to read as follows:

§ 178.337-3 Structural integrity.

* * * * *

(c) Stresses resulting from static and dynamic loadings, or a combination thereof, are not uniform throughout the cargo tank motor vehicle. The following is a simplified procedure for calculating the effective stress in the cargo tank resulting from static and dynamic loadings. The effective stress (the maximum principal stress at any point) must be determined by the following formula:

$$S = 0.5\,(S_x + S_c) \pm (0.25(S_x - S_c) + S_s^2)^{.5}$$

Where:

(1) S = effective stress at any given point under the most severe combination of static and dynamic loadings that can occur at the same time, in psi.

(2) S_c = circumferential stress generated by internal and external pressure when applicable, in psi.

(3) S_x = the net longitudinal stress generated by the following loading conditions, in psi.:

(i) The longitudinal tensile stress generated by internal pressure;

(ii) The tensile or compressive stress generated by the axial load resulting from a decelerative force equal to twice the static weight of the fully loaded vehicle applied independently to each suspension assembly at the road surface;

(iii) The tensile or compressive stress generated by the bending moment resulting from a decelerative force equal to twice the static weight of the fully loaded vehicle applied independently to each suspension assembly at the road surface;

(iv) The tensile or compressive stress generated by the axial load resulting from an accelerative force equal to the static weight of the fully loaded vehicle applied to the horizontal pivot of the fifth wheel supporting the vehicle;

(v) The tensile or compressive stress generated by the bending moment resulting from an accelerative force equal to the static weight of the fully loaded vehicle applied to the horizontal pivot of the fifth wheel supporting the vehicle; and

(vi) The tensile or compressive stress generated by a bending moment produced by a vertical force equal to three times the static weight of the fully loaded vehicle.

(4) S_s = The following shear stresses that apply, in psi.:

(i) The shear stress generated by a vertical force equal to three times the static weight of the tank and contents;

(ii) The lateral shear stress generated by a lateral accelerative force which will produce an overturn but not less than 0.75 times the static weight of the fully loaded vehicle, applied at the road surface; and

(iii) The torsional shear stress generated by a lateral accelerative force which will

VOL
56
ISS
116
JE
17
1991
UMI

produce an overturn but not less than 0.75 times the static weight of the fully loaded vehicle, applied at the road surface.

* * * * *

§ 178.337 [Amended]

9. In § 178.337–6, the first sentence in paragraph (a) is amended by removing the wording "manufactured after August 31, 1990" and adding in its place "marked or certified after August 31, 1993".

10. In § 178.338–3, paragraph (c) is revised to read as follows:

§ 178.338–3 Structural integrity.

* * * * *

(c) Stresses resulting from static and dynamic loadings, or a combination thereof, are not uniform throughout the cargo tank motor vehicle. The following is a simplified procedure for calculating the effective stress in the tank resulting from static and dynamic loadings. The effective stress (the maximum principal stress at any point) must be determined by the following formula:

$S = 0.5\,(S_v + S_L) \pm (0.25(S_v - S_L) + S_s^2)^{0.5}$

Where:

(1) S = effective stress at any given point under the most severe combination of static and dynamic loadings that can occur at the same time, in psi.

(2) S_v = circumferential stress generated by internal and external pressure when applicable, in psi.

(3) S_L = the net longitudinal stress, in psi, generated by the following loading conditions:

(i) The longitudinal tensile stress generated by internal pressure;

(ii) The tensile or compressive stress generated by the axial load resulting from a decelerative force applied independently to each suspension assembly at the road surface using applicable static loadings specified in § 178.338–13 (b) and (c);

(iii) The tensile or compressive stress generated by the bending moment resulting from a decelerative force applied independently to each suspension assembly at the road surface using applicable static loadings specified in § 178.338–13 (b) and (c);

(iv) The tensile or compressive stress generated by the axial load resulting from an accelerative force applied to the horizontal pivot of the fifth wheel supporting the vehicle using applicable static loadings specified in § 178.338–13 (b) and (c);

(v) The tensile or compressive stress generated by the bending moment resulting from an accelerative force applied to the horizontal pivot of the fifth wheel supporting the vehicle using applicable static loadings specified in § 178.338–13 (b) and (c); and

(vi) The tensile or compressive stress generated by a bending moment produced by a vertical force using applicable static loadings specified in § 178.338–13 (b) and (c).

(4) S_s = The following shear stresses that apply, in psi.: The vectorial sum of the applicable shear stresses in the plane under consideration, including direct shear generated by the static vertical loading; direct lateral and torsional shear generated by a lateral accelerative force applied at the road surface, using applicable static loads specified in § 178.338–13 (b) and (c).

* * * * *

§ 178.345–2 [Amended]

11. In § 178.345–2, paragraph (a)(1) is amended by adding "ASTM A 607" immediately after "ASTM A 572" and before "ASTM A 656".

12. In § 178.345–3, paragraph (a)(1) is amended by removing the wording "the lesser of" and by adding "at design conditions" at the end of the sentence, and paragraph (c) and the first sentence of paragraph (g)(2) are revised to read as follows:

§ 178.345–3 Structural integrity.

* * * * *

(c) Stresses resulting from static or dynamic loadings, or a combination thereof, are not uniform throughout the cargo tank motor vehicle. The following is a simplified procedure for calculating the effective stress in the tank shell and heads resulting from static and dynamic loadings. The effective stress (the maximum principal stress at any point) must be determined by the following formula:

$S = 0.5(S_v + S_L) \pm (0.25(S_v - S_L)^2 + S_s^2)^{0.5}$

Where:

(1) S = effective stress at any given point under the most severe combination of static and dynamic loadings that can occur at the same time, in psi.

(2) S_v = circumferential stress generated by internal and external pressure, when applicable, in psi.

(3) S_L = the net longitudinal stress generated by the following loading conditions, in psi.:

(i) The longitudinal stresses resulting from the MAWP and from the lowest pressure at which the cargo tank may operate, in combination with the bending stress generated by the weight of the lading, the weight of the cargo tank and other structures and equipment supported by the cargo tank wall;

(ii) The tensile or compressive stress generated by the axial load resulting from a longitudinal decelerative force equal to 0.75 times the vertical reaction at each suspension assembly, applied at the road surface. The vertical reaction must be calculated based on the static weight of the fully loaded cargo tank motor vehicle;

(iii) The tensile or compressive stress generated by the bending moment resulting from a longitudinal decelerative force equal to 0.75 times the vertical reaction at each suspension assembly, applied at the road surface. The vertical reaction must be calculated based on the static weight of the fully loaded cargo tank motor vehicle;

(iv) The tensile or compressive stress generated by the axial load resulting from a longitudinal accelerative force equal to 0.75 times the static weight of the fully loaded cargo tank, applied at the horizontal pivot of the upper coupler (fifth wheel) or turntable supporting the cargo tank motor vehicle;

(v) The tensile or compressive stress generated by the bending moment resulting from a longitudinal accelerative force equal to 0.75 times the static weight of the fully loaded cargo tank applied to the horizontal pivot of the upper coupler (fifth wheel) or turntable supporting the cargo tank motor vehicle; and

(vi) The tensile or compressive stress generated by the bending moment resulting from a vertically up accelerative force equal to 0.7 times the vertical reaction, applied at each suspension assembly. The vertical reaction must be calculated based on the static weight of the lading, the weight of the cargo tank and other structures and equipment supported by the cargo tank wall.

(4) S_s = The following shear stresses that apply, in psi.:

(i) The vertical shear stress generated by a vertical force equal to 1.7 times the vertical reaction, applied at each suspension assembly. The vertical reaction must be calculated based on the static weight of the lading, the weight of the cargo tank and other structures and equipment supported by the cargo tank wall;

(ii) The lateral shear stress generated by a lateral accelerative force equal to 0.4 times the vertical reaction, applied laterally at the road surface. The vertical reaction must be calculated based on the static weight of the fully loaded cargo tank motor vehicle; and

(iii) The torsional shear stress generated by a lateral accelerative force equal to 0.4 times the vertical reaction, applied laterally at the road surface. The vertical reaction must be calculated based on the static weight of the fully loaded cargo tank motor vehicle.

* * * * *

(g) * * *

(2) A lightweight attachment to the cargo tank wall, such as a conduit clip, brakeline clip, skirting structure, lamp mounting bracket, or placard holder, must be of a construction having lesser strength than the cargo tank wall materials and may not be more than 72 percent of the thickness of the material to which it is attached. * * *

* * * * *

13. In § 178.345–7, the last sentence in paragraph (c) is amended by adding the wording "unless reinforced external to the tank" to the end of the sentence; paragraph (d) introductory text is amended by removing the words "it must" and adding, in their place, the words "reinforcement must"; and paragraph (a)(2) is revised to read as follows:

§ 178.345–7 Circumferential reinforcements.

(a) * * *

(2) Where circumferential joints are made between conical shell sections, or between conical and cylindrical shell sections, and the angle between adjacent sections is less than 160 degrees, circumferential reinforcement must be located within one inch of the shell joint, unless otherwise reinforced with structural members capable of maintaining shell stress levels authorized in § 178.345–3. When the joint is formed by the large ends of adjacent conical shell sections, or by the large end of a conical shell and a cylindrical shell section, this angle is measured inside the shell; when the joint is formed by the small end of a conical shell section and a cylindrical shell section, it is measured outside the shell.

* * * * *

§ 178.345–8 [Amended]

14. In § 178.345–8, paragraph (d)(3) is amended by removing the second sentence and revising the third sentence to read as follows: "Such impact must be considered as being uniformly applied in a horizontal plane at an angle of 30 degrees or less to the longitudinal axis of the vehicle."

15. In § 178.345–9, paragraph (a) is revised to read as follows:

§ 178.345–9 Pumps, piping, hoses and connections.

(a) Suitable means must be provided during loading or unloading operations to ensure that pressure within a cargo tank does not exceed test pressure.

* * * * *

16. In § 178.345–10, paragraph (b)(3) is revised to read as follows:

§ 178.345–10 Pressure relief.

* * * * *

(b) * * *

(3) Each pressure relief system must be designed to withstand dynamic pressure surges in excess of the design set pressure as specified in paragraphs (b)(3) (i) and (ii) of this section. Set pressure is a function of MAWP as set forth in paragraph (d) of this section.

(i) After August 31, 1992, each pressure-actuated relief system must be able to withstand dynamic pressure surge reaching 30 psig above the design set pressure and sustained above the set pressure for at least 60 milliseconds with a total volume of liquid released not exceeding one gallon before the relief system recloses to a leak-tight condition. This capacity must be demonstrated by testing. An acceptable test procedure is outlined in TTMA RP No. 81—"Performance of Spring-Loaded Pressure Relief Valves on MC 306, MC 307, and MC 312 Tanks," May 24, 1989 edition.

(ii) After August 31, 1995, each pressure relief system must be able to withstand a dynamic pressure surge reaching 30 psig above the design set pressure and sustained above the set pressure for at least 60 milliseconds with no loss of lading. This requirement must be met regardless of vehicle orientation.

* * * * *

17. Section 178.345–11 is revised to read as follows:

§ 178.345–11 Tank outlets.

(a) *General.* As used in this section, "loading/unloading outlet" means any opening in the cargo tank wall used exclusively for loading or unloading of lading, as distinguished from outlets such as manhole covers, vents, vapor recovery devices, and similar closures. Tank outlets, closures and associated piping must be protected in accordance with § 178.345–8.

(b) Each tank loading/unloading outlet must be equipped with an internal self-closing stop-valve, or alternatively, with an external stop-valve located as close as practicable to the tank wall. Each tank loading/unloading outlet must be in accordance with the following provisions:

(1) Each loading/unloading outlet must be fitted with a self-closing system capable of closing all such outlets in an emergency within 30 seconds of actuation. During normal operations the outlets may be closed manually. The self-closing system must be designed according to the following:

(i) Each self-closing system must include a remotely actuated means of closure located more than 10 feet from the loading/unloading outlet where vehicle length allows, or on the end of the cargo tank farthest away from the loading/unloading outlet. The actuating mechanism must be corrosion-resistant and effective in all types of environment and weather.

(ii) If the actuating system is accidentally damaged or sheared off during transportation, each loading/unloading outlet must remain securely closed and capable of retaining lading.

(iii) When required by part 173 of this subchapter for materials which are flammable, pyrophoric, oxidizing, or Poison B liquids, the remote means of closure must be capable of thermal activation. The means by which the self-closing system is thermally activated must be located as close as practicable to the primary loading/unloading connection and must actuate the system at a temperature not over 250° F. In addition, outlets on these cargo tanks must be capable of being remotely closed manually or mechanically.

(2) Outlets used only for loading which discharge lading above the maximum liquid level of the cargo tank need not be equipped with a self-closing system.

(c) Any loading/unloading outlet extending beyond an internal self-closing stop-valve, or beyond the innermost external stop-valve which is part of the self-closing system, must be fitted with another stop-valve at the end of such connection.

(d) Each tank outlet that is not a loading/unloading outlet must be equipped with a stop-valve or other leak-tight closure located as close as practicable to the tank outlet. Any connection extending beyond this closure must be fitted with another stop-valve or other leak-tight closure at the end of such connection.

§ 178.346–1 [Amended]

18. In § 178.346–1(d)(6), the end of the sentence is amended by removing the wording "and UW–13.1(f)" and adding, in its place, the wording "UW–13(b)(2), UW–13.1(f) and the dimensional requirements found in Figure UW–13.1".

19. In § 178.347–1(d)(6), the end of the sentence is amended by removing the wording "and UW–13.1(f)" and adding, in its place, the wording "UW–13(b)(2), UW–13.1(f), and the dimensional requirements found in Figure UW–13.1".

§ 178.348–1 [Amended]

20. Section 178.348–1(e)(2)(viii) is amended by removing the wording "and UW–13.1(f)" and adding, in its place, the wording "UW–13(b)(2), UW–13.1(f), and the dimensional requirements found in Figure UW–13.1".

PART 180—CONTINUING QUALIFICATION AND MAINTENANCE OF PACKAGINGS

21. The authority citation for part 180 continues to read as follows:

Authority: 49 App. U.S.C. 1803; 49 CFR Part 1.

22. In § 180.2, paragraph (b)(2) is revised to read as follows:

§ 180.2 Applicability.

* * * * *

(b) * * *

(2) Reintroduces into commerce a packaging that bears markings indicating compliance with this part.

§ 180.405 [Amended]

23. In § 180.405, the following changes are made:

a. The first sentence in paragraph (g)(3) is amended by revising the year "1990" to read "1991".

b. In paragraph (h), the introductory text is amended by removing the letters "DOT" appearing in the second

VOL 56 ISS 116 JE 17 1991 UMI

sentence and revising the last sentence, to read as follows: "The following requirements apply:".

c. Paragraph (h)(1) is amended by removing the last sentence, which reads "This requirement applies to DOT 406, DOT 407 and DOT 412 cargo tank motor vehicles and to all DOT MC-specification cargo tanks except MC 330, MC 331 and MC 338; and".

24. In addition in § 180.405, the last sentence in paragraph (b), paragraphs (c)(1) introductory text, (c)(2)(vii), (g)(1), (g)(2), and the first sentence in paragraph (h)(2) are revised to read as follows:

§ 180.405 Qualification of cargo tanks.

* * * * *

(b) * * * However, no cargo tank may be marked or certified after August 31, 1993, to the applicable MC 306, MC 307, MC 312, MC 331 or MC 338 specification in effect on December 30, 1990.

(c) * * * (1) A cargo tank made to a specification listed in Column 1 may be used when authorized in this part, provided the cargo tank was marked or certified before the date listed in Column 2:

* * * * *

(2) * * *

(vii) A Specification MC 330 cargo tank, to conform with a Specification MC 331 cargo tank, except as specifically required by § 173.315 of this subchapter (see §§ 178.337–8 and 178.337–9 of this subchapter).

(g) * * * (1) MC 306, MC 307, and MC 312 cargo tanks marked or certified after December 30, 1990, and DOT 406, DOT 407, and DOT 412 cargo tank motor vehicles must be equipped with manhole assemblies conforming with § 178.345–5 of this subchapter.

(2) On or before August 31, 1995, each owner of a cargo tank marked or certified before December 31, 1990, authorized for the transportation of a hazardous material, must have the cargo tank equipped with manhole assemblies conforming with § 178.345–5, except for the dimensional requirements in § 178.345–5(a), the hydrostatic testing requirements in § 178.354–5(b), and the marking requirements in § 178.345–5(e) of this subchapter. A manhole assembly meeting one of the following provisions is considered to be in compliance with this paragraph:

(i) Manhole assemblies on MC 300, MC 301, MC 302, MC 303, MC 305, MC 306, MC 310, MC 311 and MC 312 cargo tanks which are marked or certified in writing as conforming to § 178.345–5 of this subchapter or TTMA RP No. 61, or are tested and certified in accordance with TTMA TB No. 107.

(ii) Manhole assemblies on MC 304 and MC 307 cargo tanks.

(iii) Manhole assemblies on MC 310, MC 311, and MC 312 cargo tanks with a test pressure of 30 psig or greater.

* * * * *

(h) * * *

(2) After August 31, 1995, replacements for any reclosing pressure relief valve must withstand pressure surges with no loss of lading regardless of vehicle orientation. * * *

* * * * *

§ 180.407 [Amended]

25. In 180.407, paragraph (a)(2) is amended by adding the phrase "or during loading or unloading" immediately after the word "test"; the first sentence in paragraph (g)(1)(v) is amended by revising the year "1990" to read "1991"; the first sentence in paragraph (d)(1) introductory text, and paragraphs (f)(1), (f)(2), the heading of paragraph (g), the table in paragraph (g)(1)(iv), and paragraph (h)(1) are revised; and introductory text is added to paragraph (g) to read as follows:

§ 180.407 Requirements for test and inspection of specification cargo tanks.

* * * * *

(d) * * * (1) Where insulation precludes external visual inspection, the cargo tank, other than an MC 330 or MC 331 cargo tank, must be given a visual internal inspection in accordance with § 180.407(e). * * *

* * * * *

(f) * * *

(1) Rubber (elastomeric) lining must be tested for holes as follows:

(i) Equipment must consist of:

(A) A high frequency spark tester capable of producing sufficient voltage to ensure proper calibration;

(B) A probe with an "L" shaped 2.4 mm (0.09 inch) diameter wire with up to a 30.5 cm (12-inch) bottom leg (end bent to a 12.7 mm (0.5 inch) radius), or equally sensitive probe; and

(C) A steel calibration coupon 30.5 cm × 30.5 cm (12 inches × 12 inches) covered with the same material and thickness as that to be tested. The material on the coupon shall have a test hole to the metal substrate made by puncturing the material with a 22 guage hypodermic needle or comparable piercing tool.

(ii) The probe must be passed over the surface of the calibration coupon in a constant uninterrupted manner until the hole is found. The hole is detected by the white or light blue spark formed. (A sound lining causes a dark blue or purple spark.) The voltage must be adjusted to the lowest setting that will produce a minimum 12.7 mm (0.5 inch) spark measured from the top of the lining to the probe. To assure that the setting on the probe has not changed, the spark tester must be calibrated periodically using the test calibration coupon, and the same power source, probe, and cable length.

(iii) After calibration, the probe must be passed over the lining in an uninterrupted stroke.

(iv) Holes that are found must be repaired using equipment and procedures prescribed by the lining manufacturer or lining installer.

(2) Linings made of other than rubber (elastomeric material) must be tested using equipment and procedures prescribed by the lining manufacturer or lining installer.

* * * * *

(g) *Pressure test.* All components of the cargo tank wall, as defined in § 178.320(a) of this subchapter, must be pressure tested as prescribed by this paragraph.

(1) * * *

(iv) * * *

Specification	Test pressure
MC 300, 301, 302, 303, 305, 306.	20.7 kPa (3 psig) or design pressure, whichever is greater.
MC 304, 307	276.8 kPa (40 psig) or 1.5 times the design pressure, whichever is greater.
MC 310, 311, 312.	20.7 kPa (3 psig) or 1.5 times the design pressure, whichever is greater.
MC 330, 331	1.5 times either the MAWP or the re-rated pressure, whichever is applicable.
MC 338	1.25 times either the MAWP or the re-rated pressure, whichever is applicable.
DOT 406	34.5 kPa (5 psig) or 1.5 times the MAWP, whichever is greater.
DOT 407	275.8 kPa (40 psig) or 1.5 times the MAWP, whichever is greater.
DOT 412	1.5 times the MAWP.

* * * * *

(h) * * * (1) Each cargo tank must be tested for leaks in accordance with § 180.407(c). The leakage test must include product piping with all valves and accessories in place and operative, except that any venting devices set to discharge at less than the leakage test pressure must be removed or rendered inoperative during the test. Test pressure must be maintained at least 5 minutes. Suitable safeguards must be provided to protect personnel should a failure occur. MC 330 and MC 331 cargo tanks may be leak tested with the hazardous materials contained in the tank during the test. Leakage test pressure must be not less than 80 percent of the tank design pressure or MAWP, whichever is marked on the certification or specification plate, except as follows:

(i) A cargo tank with an MAWP of 690 kPa (100 psig) or more may be leak tested at its maximum normal operating pressure provided it is in dedicated service or services; or

(ii) An MC 330 or MC 331 cargo tank in dedicated liquified petroleum gas service may be leak tested at not less than 414 kPa (60 psig).

* * * * *

§ 180.413 [Amended]

26. In § 180.413, the third sentence in paragraph (c) is amended by removing the word "hydrostatically" appearing after the word "be" and before the word "pressure"; paragraph (d)(2)(iii) is amended by revising the word "regulations" to read "Regulations", and paragraphs (d)(1)(i) through (iii), and (d)(3) are revised to read as follows:

§ 180.413 Repair, modification, stretching, or rebarrelling of cargo tanks.

* * * * *

(d) * * *

(1) * * *

(i) For Specification MC 300, MC 301, MC 302, MC 303, MC 305 and MC 306 cargo tanks in accordance with Specifications MC 306 or DOT 406 until August 31, 1993, and after this date, to Specification DOT 406.

(ii) For Specification MC 304 and MC 307 cargo tanks in accordance with Specification MC 307 or DOT 407 until August 31, 1993, and after this date, to Specification DOT 407.

(iii) For Specification MC 310, MC 311, and MC 312 cargo tanks in accordance with Specification MC 312 or DOT 412 until August 31, 1993, and after this date, to Specification DOT 412.

* * * * *

(3) If the stretching or rebarrelling changes the original approved design, the rebarrelled or stretched cargo tank must be recertified by Design Certifying Engineer. Recertification of a cargo tank also applies if a change to the undercarriage (stretching) affects the structural integrity of the cargo tank, even though no welding is performed on the cargo tank wall. The person performing the stretching or rebarrelling and a Registered Inspector must certify that the stretched or rebarrelled cargo tank has been constructed and tested in accordance with the applicable specification by issuing a supplemental manufacturer's certificate. The registration number of the Registered Inspector and, if applicable, the Design Certifying Engineer must be entered on the certificate.

26a. Section 180.415 is revised to read as follows:

§ 180.415 Test and inspection markings.

(a) Each cargo tank successfully completing the test and inspection requirements contained in § 180.407 must be marked as specified in this section.

(b) Each cargo tank must be durably and legibly marked, in English, with the test date (month and year) followed by the type of test or inspection. The marking must be in letter and numbers at least 32 mm (1.25 inches) high, on the tank shell near the specification plate, or anywhere on the front head. The type of test or inspection may be abbreviated as follows: V for external visual inspection and test; I for internal visual inspection: P for pressure retest: L for lining test, K for leakage test; and T for thickness test. For example, the marking "10–85 P, V, L" would indicate that in October 1985 the cargo tank received and passed the prescribed pressure retest, external visual inspection and test, and the lining inspection.

(c) For a cargo tank motor vehicle composed of multiple cargo tanks constructed to the same specification, which are tested and inspected at the same time, one set of test and inspection markings may be used to satisfy the requirements of this section. For a cargo tank motor vehicle composed of multiple cargo tanks constructed to different specifications, which are tested and inspected at different intervals, the test and inspection markings must appear in the order of the cargo tank's corresponding location, from front to rear.

27. In § 180.417(a)(2), in the first sentence and at the beginning of the second sentence, the wording "motor vehicle" is added immediately after the wording "cargo tank".

Issued in Washington DC, on June 4, 1991, under the authority delegated in 49 CFR Part 1.

Douglas B. Ham,

Acting Administrator, Research and Special Programs Administration.

Office of Management and Budget

Cumulative Report on Rescissions and Deferrals; Notice

VOL 56 ISS 116 JE 17 1991 UMI

OFFICE OF MANAGEMENT AND BUDGET

Cumulative Report on Rescissions and Deferrals

June 1, 1991.

This report is submitted in fulfillment of the requirement of section 1014(e) of the Congressional Budget and Impoundment Control Act of 1974 (Public Law 93–344). Section 1014(e) requires a monthly report listing all budget authority for this fiscal year for which, as of the first day of the month, a special message has been transmitted to Congress.

This report gives the status, as of June 1, 1991, of 27 rescission proposals and ten deferrals contained in four special messages for FY 1991. These messages were transmitted to Congress on October 4, 1990, January 9, 1991, February 28, 1991, and April 16, 1991.

Rescissions (Table A and Attachment A)

As of June 1, 1991, there are no funds being withheld related to rescission proposals. However, a rescission proposal for $2.4 million is pending before the Congress.

Deferrals (Table B and Attachment B)

As of June 1, 1991, $4,784.4 million in budget authority was being deferred from obligation. Attachment B shows the history and status of each deferral reported during FY 1991.

Information From Special Messages

The special messages containing information on rescissions and deferrals that are covered by this cumulative report are printed in the **Federal Register** cited below:

55 FR 41436, Thursday, October 11, 1990,
56 FR 1704, Wednesday, January 16, 1991,
56 FR 10082, Friday, March 8, 1991,
56 FR 18644, Tuesday, April 23, 1991.

Richard Darman,
Director.

TABLE A—STATUS OF FY 1991 RESCISSIONS

	Amounts (in millions of dollars)
Rescissions proposed by the President	4,312.9
Rejected by the Congress	4,308.9
Funding never withheld	0
Pending before the Congress	2.4

TABLE B—STATUS OF FY 1991 DEFERRALS

	Amounts (in millions of dollars)
Deferrals proposed by the President	9,342.6
Routine Executive releases through June 1, 1991 (OMB/Agency releases of $4,556.9 million, partly offset by cumulative positive adjustment of $0.7 million.)	-4,556.2
Overturned by the Congress	0
Currently before the Congress	4,784.4

Title 3—

The President

Proclamation 6366 of June 13, 1991

Baltic Freedom Day, 1991 and 1992

By the President of the United States of America

A Proclamation

During the past year, the long struggle of the Baltic peoples to recover their freedom has been marked by both triumph and tragedy: triumph in their bold calls for liberty and independence; tragedy in the bloody events of January 1991.

The United States and, indeed, all freedom-loving nations have long denounced the infamous Molotov-Ribbentrop pact that led to the forcible incorporation of the independent Baltic States into the Soviet Union. The peoples of both the West and the Baltic States have continued to believe that the freedom of Lithuania, Latvia, and Estonia must and can be restored. Recent events suggest that our hopes have not been misplaced.

In peaceful, democratic referendums, the peoples of Estonia, Latvia, and Lithuania have asserted overwhelmingly their desire for freedom. Toward that aim, they have sought to enter into meaningful negotiations with Moscow about their status. Despite the tragic events of January 1991, which resulted in the deaths of at least 21 Lithuanians and Latvians and many more injured, a dialogue between the Baltic governments and the Soviet Union has begun. We hope that it will bear fruit, and we urge the Soviet Union to move forward with the talks.

However, the United States remains deeply concerned over the continued application of intimidation and force by Soviet authorities. Such actions are incompatible with the process of peaceful change through fair and constructive negotiations.

The United States has never and will never recognize the forcible annexation of the Baltic States by the Soviet Union. I reiterated this policy during my recent meeting with Lithuanian President Landsbergis, Estonian Prime Minister Savisaar, and Latvian Prime Minister Godmanis. This was my sixth meeting with the Baltic leadership during the past 12 months. The Administration will remain in close contact with the Baltic leadership in the months ahead.

As we commemorate "Baltic Freedom Day," we reaffirm our support for the right of the Baltic peoples to live in peace and freedom.

The Congress, by Public Law 102–17, has designated June 14, 1991, and June 14, 1992, as "Baltic Freedom Day" and has authorized and requested the President to issue a proclamation in observance of this event.

NOW, THEREFORE, I, GEORGE BUSH, President of the United States of America, do hereby proclaim the days of June 14, 1991, and June 14, 1992, as Baltic Freedom Day. I call upon the people of the United States to observe these days with appropriate ceremonies and activities to reaffirm their commitment to human rights and to freedom and democracy for all oppressed peoples.

IN WITNESS WHEREOF, I have hereunto set my hand this 13th day of June, in the year of our Lord nineteen hundred and ninety-one, and of the Independence of the United States of America the two hundred and fifteenth.

George Bush

CFR CHECKLIST

This checklist, prepared by the Office of the Federal Register, is published weekly. It is arranged in the order of CFR titles, prices, and revision dates.

An asterisk (*) precedes each entry that has been issued since last week and which is now available for sale at the Government Printing Office.

A checklist of current CFR volumes comprising a complete CFR set, also appears in the latest issue of the LSA (List of CFR Sections Affected), which is revised monthly.

The annual rate for subscription to all revised volumes is $620.00 domestic, $155.00 additional for foreign mailing.

Order from Superintendent of Documents, Government Printing Office, Washington, DC 20402. Charge orders (VISA, MasterCard, or GPO Deposit Account) may be telephoned to the GPO order desk at (202) 783-3238 from 8:00 a.m. to 4:00 p.m. eastern time, Monday—Friday (except holidays).

[1] Because Title 3 is an annual compilation, this volume and all previous volumes should be retained as a permanent reference source.

[2] No amendments to this volume were promulgated during the period Jan. 1, 1987 to Dec. 31, 1990. The CFR volume issued January 1, 1987, should be retained.

[3] No amendments to this volume were promulgated during the period Apr. 1, 1989 to Mar. 31, 1990. The CFR volume issued April 1, 1989, should be retained.

[4] No amendments to this volume were promulgated during the period Apr. 1, 1990 to Mar. 31, 1991. The CFR volume issued April 1, 1990, should be retained.

[5] No amendments to this volume were promulgated during the period July 1, 1989 to June 30, 1990. The CFR volume issued July 1, 1989, should be retained.

[6] The July 1, 1985 edition of 32 CFR Parts 1–189 contains a note only for Parts 1–39 inclusive. For the full text of the Defense Acquisition Regulations in Parts 1–39, consult the three CFR volumes issued as of July 1, 1984, containing those parts.

[7] The July 1, 1985 edition of 41 CFR Chapters 1–100 contains a note only for Chapters 1 to 49 inclusive. For the full text of procurement regulations in Chapters 1 to 49, consult the eleven CFR volumes issued as of July 1, 1984 containing those chapters.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The seal of the National Archives and Records Administration authenticates this issue of the **Federal Register** as the official serial publication established under the Federal Register Act. 44 U.S.C. 1507 provides that the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** will be furnished by mail to subscribers for $340 per year in paper form; $195 per year in microfiche form; or $37,500 per year for the magnetic tape. Six-month subscriptions are also available at one-half the annual rate. The charge for individual copies in paper or microfiche form is $1.50 for each issue, or $1.50 for each group of pages as actually bound, or $175.00 per magnetic tape. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, or charge to your GPO Deposit Account or VISA or Mastercard.

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 56 FR 12345.

THE FEDERAL REGISTER
WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.

WHO: The Office of the Federal Register.

WHAT: Free public briefings (approximately 3 hours) to present:
1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

WASHINGTON, DC

WHEN: July 2, at 9:00 am
WHERE: Office of the Federal Register, First Floor Conference Room, 1100 L Street NW., Washington, DC
RESERVATIONS: 202-523-5240

NEW ORLEANS, LA

WHEN: July 23, at 9:00 am
WHERE: Federal Building, 501 Magazine St. Conference Room 1120, New Orleans, LA

Rules and Regulations

Federal Register
Vol. 56, No. 117
Tuesday, June 18, 1991

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

7 CFR Part 2

Revision of Delegations of Authority

AGENCY: Department of Agriculture.

ACTION: Final rule.

SUMMARY: This document revises the delegations of authority from the Secretary of Agriculture and general officers of the U.S. Department of Agriculture (USDA) to reflect the creation of the position of Assistant Secretary for Natural Resources and Environment, and the abolition of the position of Assistant Secretary for Special Services.

EFFECTIVE DATE: June 18, 1991.

FOR FURTHER INFORMATION CONTACT: Robert L. Siegler, Deputy Assistant General Counsel, Office of the General Counsel, United States Department of Agriculture, Washington, DC 20250, (202) 447-6035.

SUPPLEMENTARY INFORMATION: The act making further continuing appropriations for fiscal year 1988, Public Law No. 100-202, removed funding for the Office of the Assistant Secretary for Natural Resources and Environment and provided funding for a new Office of Assistant Secretary for Special Services. As a result of that action, in 53 FR 18253, May 23, 1988, the delegations of authority from the Secretary of Agriculture to the Assistant Secretary for Natural Resources and Environment were removed and delegations of authority to the Assistant Secretary for Special Services were made. In that **Federal Register** document, the Secretary made delegations of authority directly to the Chiefs of the Forest Service and the Soil Conservation Service. In the fiscal year 1989 appropriations act for Rural Development, Agriculture, and Related Agencies, Public Law No. 100-460, the Congress funded the positions of Assistant to the Secretary for Special Services, and Assistant to the Secretary for Natural Resources and Environment. While USDA established the positions in question and delegated authority to the officials occupying those positions, it never published revised delegations of authority in the **Federal Register** to reflect the new positions. In the fiscal year 1990 appropriations act for Rural Development, Agriculture, and Related Agencies, Public Law No. 101-161, the Congress removed funding for the positions of Assistant to the Secretary for Special Services, and Assistant to the Secretary for Natural Resources and Environment, and funded the position of Assistant Secretary for Natural Resources and Environment. Accordingly, this document makes delegations of authority to the Assistant Secretary for Natural Resources and Environment. It further makes delegations of authority from the Assistant Secretary to the Chiefs of the Forest Service and the Soil Conservation Service. The delegations of authority from the Secretary of Agriculture to the Assistant Secretary for Special Services and to the Chiefs of the Forest Service and the Soil Conservation Service are removed.

This rule relates to internal agency management. Therefore, pursuant to 5 U.S.C. 553, notice of proposed rule making and opportunity for comment are not required, and this rule may be made effective less than 30 days after publication in the **Federal Register**. Further, since this rule relates to internal agency management, it is exempt from the provisions of Executive Order No. 12291. Finally, this action is not a rule as defined by Public Law No. 96-354, the Regulatory Flexibility Act, and thus is exempt from the provisions of that Act.

List of Subjects in 7 CFR Part 2

Authority delegations (Government agencies).

PART 2—DELEGATIONS OF AUTHORITY BY THE SECRETARY OF AGRICULTURE AND GENERAL OFFICERS OF THE DEPARTMENT

Accordingly, part 2, title 7, Code of Federal Regulations is amended as follows:

1. The authority citation for part 2 continues to read as follows:

Authority: 5 U.S.C. 301 and Reorganization Plan No. 2 of 1953.

Subpart C—Delegations of Authority to the Deputy Secretary, the Under Secretary for International Affairs and Commodity Programs, the Under Secretary for Small Community and Rural Development, and Assistant Secretaries

2. Section 2.19 is revised and § 2.20 is added to read as follows:

§ 2.19 Delegations of authority to the Assistant Secretary for Natural Resources and Environment.

The following delegations of authority are made by the Secretary of Agriculture to the Assistant Secretary for Natural Resources and Environment:

(a) *Related to environmental quality.* (1) Administer the implementation of the National Environmental Policy Act for the United States Department of Agriculture (USDA).

(2) Provide representation for USDA on the National Response Team on hazardous spills pursuant to Public Law 92-500 (33 U.S.C. 1151 note), and section 4 of Executive Order 11735.

(3) Represent USDA in contacts with the United States Environmental Protection Agency, the Council on Environmental Quality, and other organizations or agencies on matters related to assigned responsibilities.

(4) Formulate and promulgate USDA policy relating to environmental activity and natural resources.

(5) Provide staff support for the Secretary in the review of environmental impact statements.

(6) Provide leadership in USDA for general land use activities including implementation of Executive Order 11988, Flood Plain Management, and 11990, Protection of Wetlands.

(b) *Related to forestry.* (1) Provide national leadership in forestry. (As used here and elsewhere in this section, the term "forestry" encompasses renewable and nonrenewable resources of forests, forest-related rangeland, grassland, brushland, woodland, and alpine areas including but not limited to recreation, range, timber, minerals, watershed, wildlife and fish; natural scenic, scientific, cultural, and historic values of forests and related lands; and derivative

values such as economic strength and social well-being.)

(2) Protect, manage, and administer the national forests, national forest purchase units, national grasslands, and other lands and interests in lands administered by the Forest Service, which collectively are designated as the National Forest System. This delegation covers the acquisition and disposition of lands and interest in lands as may be authorized for the protection, management, and administration of the National Forest System, including the authority to approve acquisition of land under the Weeks Act of March 1, 1911, as amended (16 U.S.C. 521), and special forest receipts acts, as follows: (Pub. L. 337, 74th Cong., 49 Stat. 866, as amended by Pub. L. 310, 78th Cong., 58 Stat. 227; Pub. L. 505, 75th Cong., 52 Stat. 347, as amended by Pub. L. 310, 78th Cong., 58 Stat. 227; Pub. L. 634, 75th Cong., 52 Stat. 699, as amended by Pub. L. 310, 78th Cong., 58 Stat. 227; Pub. L. 748, 75th Cong., 52 Stat. 1205, as amended by Pub. L. 310, 78th Cong., 58 Stat. 227; Pub. L. 427, 76th Cong., 54 Stat. 46; Pub. L. 589, 76th Cong., 54 Stat. 297; Pub. L. 591, 76th Cong., 54 Stat. 299; Pub. L. 637, 76th Cong., 54 Stat. 402; Pub. L. 781, 84th Cong., 70 Stat. 632).

(3) As necessary for administrative purposes, divide into and designate as national forests any lands of 3,000 acres or less which are acquired under or subject to the Weeks Act of March 1, 1911, as amended, and which are contiguous to existing national forest boundaries established under the authority of the Weeks Act.

(4) Plan and administer wildlife and fish conservation rehabilitation and habitat management programs on National Forest System lands, pursuant to 16 U.S.C. 670g, 670h, and 670o.

(5) For the purposes of the National Forest System Drug Control Act of 1986 (16 U.S.C. 559 b–f), specifically designate certain specially trained officers and employees of the Forest Service, not exceeding 500, to have authority in the performance of their duties within the boundaries of the National Forest System:

(i) To carry firearms;

(ii) To enforce and conduct investigations of violations of section 401 of the Controlled Substance Act (21 U.S.C. 841) and other criminal violations relating to marijuana and other controlled substances that are manufactured, distributed, or dispensed on national forest lands;

(iii) To make arrests with a warrant or process for misdemeanor violations, or without a warrant for violations of such misdemeanors that any such officer or employee has probable cause to believe are being committed in that employee's presence or view, or for a felony with a warrant or without a warrant if that employee has probable cause to believe that the person being arrested has committed or is committing such a felony;

(iv) To serve warrants and other process issued by a court or officer of competent jurisdiction;

(v) To search, with or without a warrant or process, any person, place, or conveyance according to Federal law or rule of law; and

(vi) To seize, with or without warrant or process, any evidentiary item according to Federal law or rule of law.

(6) Authorize the Forest Service to cooperate with the law enforcement officials of any Federal agency, State, or political subdivision, in the investigation of violations of, and enforcement of, section 401 of the Controlled Substances Act (21 U.S.C. 841), other laws and regulations relating to marijuana and other controlled substances, and State drug control laws or ordinances, within the boundaries of the National Forest System.

(7) Administer programs under section 23 of the Federal Highway Act (23 U.S.C. 101(a), 120(f), 125 (a)–(c), 138, 202 (a)–(b), 203, 204 (a)–(h), 205 (a)–(d), 211, 317, 402(a)).

(8) Exercise the administrative appeal functions of the Secretary of Agriculture in review of decisions of the Chief of the Forest Service pursuant to 36 CFR part 217 and 36 CFR part 251, subpart C.

(9) Conduct, support, and cooperate in investigations, experiments, tests, and other activities deemed necessary to obtain, analyze, develop, demonstrate, and disseminate scientific information about protecting, managing, and utilizing forest and rangeland renewable resources in rural, suburban, and urban areas in the United States and foreign countries. The activities conducted, supported, or cooperated in shall include, but not be limited to: Renewable resource management research, renewable resource environmental research; renewable resource protection research; renewable resource utilization research, and renewable resource assessment research (16 U.S.C. 1641–1647).

(10) Use authorities and means available to disseminate the knowledge and technology developed from forestry research (16 U.S.C. 1645).

(11) Coordinate activities with other agencies in USDA, other Federal and State agencies, forestry schools, and private entities and individuals (16 U.S.C. 1643).

(12) Enter into contracts, grants, and cooperative agreements for the support of scientific research in forestry activities (7 U.S.C. 427i(a), 1624; 16 U.S.C. 1643–1645).

(13) Enter into cooperative research and development agreements with industry, universities, and others; institute a cash award program to reward scientific, engineering, and technical personnel; award royalties to inventors; and retain and use royalty income (16 U.S.C. 3710a–3710c).

(14) Enter into contracts, grants, or cooperative agreements to further research, extension, or teaching programs in the food and agricultural sciences (7 U.S.C. 3318).

(15) Enter into cost-reimbursable agreements relating to agricultural research, extension, or teaching activities (7 U.S.C. 3319a).

(16) Administer programs of cooperative forestry assistance in the protection, conservation, and multiple resource management of forests and related resources in both rural and urban areas (16 U.S.C. 2102–2111).

(17) Provide assistance to States in forest resources planning (16 U.S.C. 2107).

(18) Conduct a program of technology implementation for State forestry personnel, private forest landowners and managers, vendors, forest operators, public agencies, and individuals (16 U.S.C. 2107).

(19) Administer rural fire protection and control programs (16 U.S.C. 2106).

(20) Provide technical assistance on forestry technology or the implementation of the conservation reserve and softwood timber programs authorized in sections 1231–1244 and 1254 of the Food Security Act of 1985 (16 U.S.C. 3831–3844; 7 U.S.C. 1981 note).

(21) Administer forest insect, disease, and other pest management programs (16 U.S.C. 2104).

(22) Exercise the custodial functions of the Secretary for lands and interests in lands under lease or contract of sale to States and local agencies pursuant to title III of the Bankhead-Jones Farm Tenant Act and administer reserved and reversionary interests in lands conveyed under that Act (7 U.S.C. 1010–1012).

(23) Under such general program criteria and procedures as may be established by the Soil Conservation Service:

(i) Administer the forestry aspects of the programs listed in paragraphs (b)(23)(i) (A), (B), and (C) of this section on the National Forest System, rangelands with national forest boundaries, adjacent rangelands which are administered under formal agreement, and other forest lands.

(A) The cooperative river basin surveys and investigations program (16 U.S.C. 1006).

(B) The eleven authorized watershed improvement programs and emergency flood prevention measures program under the Flood Control Act (33 U.S.C. 701b–1).

(C) The small watershed protection program under the Pilot Watershed Protection and Watershed Protection and Flood Prevention Acts (7 U.S.C. 701a–h; 16 U.S.C. 1001–1009).

(ii) Exercise responsibility in connection with the forestry aspects of the resource conservation and development program authorized by title III of the Bankhead-Jones Farm Tenant Act (7 U.S.C. 1011(e)).

(24) Provide assistance to the Agricultural Stabilization and Conservation Service in connection with the agricultural conservation program, the naval stores conservation program, and the cropland conversion program (16 U.S.C. 590g–q).

(25) Jointly administer the Forestry Incentives Program with the Agricultural Stabilization and Conservation Service, in consultation with State Foresters (16 U.S.C. 2103).

(26) Provide assistance to the Farmers Home Administration in connection with grants and loans under authority of section 303 of the Consolidated Farm and Rural Development Act, 7 U.S.C. 1923; and consultation with the Department of Housing and Urban Development under the authority of 40 U.S.C. 461(e).

(27) Coordinate mapping work of USDA including:

(i) Clearing mapping projects to prevent duplication;

(ii) Keeping a record of mapping done by USDA agencies;

(iii) Preparing and submitting required USDA reports;

(iv) Serving as liaison on mapping with the Office of Management and Budget, Department of Interior, and other departments and establishments;

(v) Promoting interchange of technical mapping information, including techniques which may reduce costs or improve quality; and

(vi) Maintaining the mapping records formerly maintained by the Office of Operations.

(28) Administer the radio frequency licensing work of USDA, including:

(i) Representing USDA on the Interdepartmental Radio Advisory Committee and its Frequency Assignment Subcommittee of the National Telecommunications and Information Administration, Department of Commerce;

(ii) Establishing policies, standards, and procedures for allotting and assigning frequencies within USDA and for obtaining effective utilization of them;

(iii) Providing licensing action necessary to assign radio frequencies for use by the agencies of USDA and maintenance of the records necessary in connection therewith; and

(iv) Providing inspection of USDA's radio operations to ensure compliance with national and international regulations and policies for radio frequency use.

(29) Represent USDA in all matters relating to responsibilities and authorities under the Federal Water Power Act, as amended (16 U.S.C. 791–823).

(30) Coordinate USDA input and assistance to the Department of Commerce and other Federal agencies consistent with section 307 of the Coastal Zone Management Act of 1972 and coordinate USDA review of qualifying state and local government coastal management plans or programs prepared under the Act and submitted to the Secretary of Commerce, consistent with section 306 (a) and (c).

(31) Administer the Youth Conservation Corps Act (42 U.S.C. precede 2711 Note) for USDA.

(32) Establish and operate the Job Corps Civilian Conservation Centers on National Forest System lands as authorized by title I, sections 106 and 107 of the Economic Opportunity Act of 1964 (42 U.S.C. 2716–2717), in accordance with the terms of an agreement dated May 11, 1967, between the Secretary of Agriculture and the Secretary of Labor; and administration of other cooperative manpower training and work experience programs where the Forest Service serves as host or prime sponsor with other Departments of Federal, State, or local governments.

(33) Administer the Volunteers in the National Forests Act of 1972 (16 U.S.C. 558a–558d, 558a note).

(34) Exercise the functions of the Secretary of Agriculture authorized in the Alaska National Interest Lands Conservation Act (16 U.S.C. 3101–3215).

(35) Exercise the functions of the Secretary as authorized in the Wild and Scenic Rivers Act (16 U.S.C. 1271–1278).

(36) Jointly administer gypsy moth eradication activities with the Assistant Secretary for Marketing and Inspection Services, under the authority of section 102 of the Organic Act of 1944, as amended; and the Act of April 6, 1937, as amended (7 U.S.C. 147a, 148, 148a–148e); and the Talmadge Aiken Act (7 U.S.C. 450), by assuming primary responsibility for treating isolated gypsy moth infestations on Federal lands, and on State and private lands contiguous to infested Federal lands, and any other infestations over 640 acres on State and private lands.

(37) Exercise the functions of the Secretary authorized in the Federal Onshore Oil and Gas Leasing Reform Act of 1987 (30 U.S.C. 226 et seq.).

(c) Related to soil conservation activities.

(1) Provide national leadership in the conservation, development and productive use of the Nation's soil, water, and related resources. Such leadership encompasses soil, water, plant, and wildlife conservation; small watershed protection and flood prevention; and resource conservation and development. Integrated in these programs are erosion control, sediment reduction, pollution abatement, land use planning, multiple use, improvement of water quality, and several surveying and monitoring activities related to environmental improvement. All are designed to assure:

(i) Quality in the natural resource base for sustained use;

(ii) Quality in the environment to provide attractive, convenient, and satisfying places to live, work, and play; and

(iii) Quality in the standard of living based on community improvement and adequate income.

(2) Provide national leadership in and evaluate and coordinate land use policy, and administer the Farmland Protection Policy Act (7 U.S.C. 4201 et seq.), except as otherwise delegated to the Assistant Secretary for Science and Education in § 2.30(a)(75) of this part.

(3) Administer the basic program of soil and water conservation under Public Law No. 46, 74th Congress, as amended, and related laws (16 U.S.C. 590 a–f, i–/, q, q–1; 42 U.S.C. 3271–3274; 7 U.S.C. 2201), including:

(i) Technical assistance to land users in carrying out locally adapted soil and water conservation programs primarily through the conservation districts in the 50 States, Puerto Rico, and Virgin Islands, but also to communities, watershed groups, Federal and State agencies, and other cooperators. This authority includes such assistance as:

(A) Comprehensive planning assistance in nonmetropolitan districts;

(B) Assistance in the field of income-producing recreation on rural non-Federal lands;

(C) Forestry assistance, as part of total technical assistance to private land owners and land users when such services are an integral part of land management and such services are not

VOL 56 ISS 117 JE 18 1991 UMI

available from a State agency; and forestry services in connection with windbreaks and shelter belts to prevent wind and water erosion of lands;

(D) Assistance in developing programs relating to natural beauty; and

(E) Assistance to other USDA agencies in connection with the administration of their programs, as follows:

(*1*) To the Agricultural Stabilization and Conservation Service in the development and technical servicing of certain programs, such as the rural environmental assistance program, water bank program, Appalachian regional development program and other such similar conservation programs;

(*2*) To the Farmers Home Administration in connection with their loan and land disposition programs.

(ii) Soil Surveys, including:

(A) Providing leadership for the Federal part of the National Cooperative Soil Survey which includes conducting and publishing soil surveys;

(B) Conducting soil surveys for resource planning and development; and

(C) Performing the cartographic services essential to carrying out the functions of the Soil Conservation Service, including furnishing photographs, mosaics, and maps.

(iii) Conducting and coordinating snow surveys and making water supply forecasts pursuant to Reorganization Plan No. 4 of 1940 (5 U.S.C. App.);

(iv) Operating plant materials centers for the assembly and testing of plant species in conservation programs, including the use, administration, and disposition of lands under the administration of the Soil Conservation Service for such purposes under title III of the Bankhead-Jones Farm Tenant Act (7 U.S.C. 1010–1011); and

(v) Providing leadership in the inventorying and monitoring of soil, water, land, and related resources of the Nation.

(4) Administer the watershed protection and flood prevention programs, including:

(i) The eleven authorized watershed projects authorized under 33 U.S.C. 702b–1;

(ii) The emergency flood control work under 33 U.S.C. 701b–1;

(iii) The cooperative river basin surveys and investigations programs under 16 U.S.C. 1006;

(iv) The pilot watershed projects under 16 U.S.C. 590 a–f, and Public Law 156, 83rd Congress;

(v) The watershed protection and flood prevention program under 16 U.S.C. 1001–1009, except for responsibilities assigned to the Under Secretary for Small Community and Rural Development;

(vi) The joint investigations and surveys with the Department of the Army under 16 U.S.C. 1009; and

(vii) The Emergency Conservation Program under 16 U.S.C. 2201.

(5) Administer the Great Plains conservation program under 16 U.S.C. 590p(b).

(6) Administer the Resource Conservation and Development Program under 16 U.S.C. 590a–f; 7 U.S.C. 1010–1011; and 16 U.S.C. 3451–3461, except for responsibilities assigned to the Under Secretary for Small Community and Rural Development.

(7) Responsibility for entering into long-term contracts for carrying out conservation and environmental measures in watershed areas.

(8) Provide national leadership for and administer the Soil and Water Resources Conservation Act of 1977 (16 U.S.C. 2001 et seq.).

(9) Administer rural water quality cost-sharing program and other responsibilities assigned under section 35 of the Clean Water Act of 1977 (33 U.S.C. 1251 et seq.).

(10) Monitor actions and progress of USDA in complying with Executive Order Nos. 11988 and 11990 regarding management of floodplains and protection of wetlands; monitor USDA efforts on protection of important agricultural, forest and rangelands; and provide staff assistance to the USDA Natural Resources and Environment Committee.

(11) Administer the search and rescue operations authorized under 7 U.S.C. 2273.

(12) Perform the following functions in connection with the administration of the Colorado River Basin Salinity Control Act:

(i) Identify salt source areas and determine the salt load resulting from irrigation and watershed management practices;

(ii) Conduct salinity control studies of irrigated salt source areas;

(iii) Provide technical assistance in the implementation of salinity control projects including the development of salinity control plans, technical services for application, and certification of practice applications;

(iv) Develop plans for implementing measures that will reduce the salt load of the Colorado River;

(v) Develop and implement long-term monitoring and evaluation plans to measure and report progress and accomplishments in achieving program objectives; and

(vi) Coordinate salt source planning and monitoring and evaluation activities with USDA and with the Bureau of Reclamation, other Federal agencies and representatives of the seven basin states participating in the Colorado River Basin Salinity Control Program (43 U.S.C. 1592(c)).

(13) Provide technical assistance on soil and water conservation technology for the implementation and administration of the conservation reserve program authorized in sections 1231–1244 of the Food Security Act of 1985 (16 U.S.C. 3831–3844), and carry out responsibilities for conservation of highly erodible lands and wetlands pursuant to sections 1211–1233 of the Food Security Act of 1985 (16 U.S.C. 3821–3823).

(14) Approve and transmit to the Congress comprehensive river basin reports.

(15) Provide representation on the Water Resources Council and river basin commissions created by 42 U.S.C. 1962, and on river basin interagency committees.

(d) Related to committee management. Establish and reestablish regional, state, and local advisory committees for activities under his authority. This authority may not be redelegated.

(e) Related to defense. Administer responsibilities and functions assigned under the Defense Production Act of 1950, as amended (50 U.S.C. App. 2061 et seq.) and the Federal Civil Defense Act of 1950, as amended (50 U.S.C. 2251 App. et seq.) relating to agricultural land and water, forests and forest products, rural fire defense, and forestry research.

(f) Related to surface mining control and reclamation. Administer responsibilities and functions assigned to the Secretary of Agriculture under the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1201 et seq.).

(g) Related to environmental response.

(1) Exercise the functions delegated to the Secretary by Executive Order No. 12580 to act as Federal trustee for natural resources in accordance with section 107(f)(2)(A) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, 42 U.S.C. 9607(f)(2)(A) and section 311(f)(5) of the Federal Water Pollution Control Act, 33 U.S.C. 1321.

(2) With respect to land and facilities under his authority, to exercise the functions delegated to the Secretary by Executive Order No. 12580 under the following provisions of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 ("the Act"), as amended:

(i) Sections 104 (a), (b), and (c)(4) of the Act (42 U.S.C. 9604 (a), (b), and (c)(4)), with respect to removal and other remedial action in the event of release or threatened release of a hazardous substance, pollutant, or contaminant into the environment;

(ii) Sections 104(e)–(h) of the Act (42 U.S.C. 9604(e)–(h)), with respect to information gathering and access; compliance orders; compliance with Federal health and safety standards applicable to covered work; and emergency procurement powers;

(iii) Section 104(i)(11) of the Act (42 U.S.C. 9604(i)(11)), with respect to the reduction of exposure to significant risk to human health;

(iv) Section 104(j) of the Act (42 U.S.C. 9604(j)), with respect to the acquisition of real property and interests in real property required to conduct a remedial action;

(v) Section 105(d) of the Act (42 U.S.C. 9605(d)), with respect to petitions for preliminary assessment of a release or threatened release;

(vi) Section 105(f) of the Act (42 U.S.C. 9605(f)), with respect to consideration of the availability of qualified minority firms in awarding contracts, but excluding that portion of section 105(f) of the Act pertaining to the annual report to Congress;

(vii) Section 109 of the act (42 U.S.C. 9609), with respect to the assessment of civil penalties for violations and the granting of awards to individuals providing information;

(viii) Section 111(f) of the Act (42 U.S.C. 9611(f)), with respect to the designation of officials who may obligate money in the Hazardous Substances Superfund;

(ix) Section 113(k) of the Act (42 U.S.C. 9613(k)), with respect to establishing an administrative record upon which to base the selection of a response action;

(x) Section 116(a) of the act (42 U.S.C. 9616(a)), with respect to preliminary assessment and site inspection of facilities;

(xi) Section 117 (a) and (c) of the act (42 U.S.C. 9617(a) and (c)), with respect to public participation in the preparation of any plan for remedial action and explanation of variances from the final remedial action plan for any remedial action or enforcement action, including any settlement or consent decree entered into;

(xii) Section 119 of the Act (42 U.S.C. 9619), with respect to indemnifying response action contractors;

(xiii) Section 121 of the Act (42 U.S.C. 9621), with respect to selecting cleanup standards; and

(xiv) Section 122 of the Act (42 U.S.C. 9622), with respect to entering into settlement agreements.

§ 2.20 Reservations of authority.

The following authorities are reserved to the Secretary of Agriculture:

(a)–(b) Reserved.

(c) *Related to soil conservation activities.*

Designation of new project areas in which the resoyrce conservation and development program assistance will be provided.

3. The heading for subpart D is revised to read as follows:

Subpart D—Delegations of Authority to Other General Officers and Agency Heads

4. Sections 2.42 through 2.45 are removed.

5. Subpart G is revised to read as follows:

Subpart G—Delegations of Authority by the Assistant Secretary for National Resources and Environment

Sec.

2.59 Deputy Assistant Secretary for Natural Resources and Environment.

2.60 Chief, Forest Service

2.61 Reserved.

2.62 Chief, Soil Conservation Service.

Subpart G—Delegations of Authority by the Assistant Secretary for Natural Resources and Environment

§ 2.59 Deputy Assistant Secretary for Natural Resources and Environment.

Pursuant to § 2.19 of this part and subject to policy guidance and direction by the Assistant Secretary, the following delegation of authority is made by the Assistant Secretary for Natural Resources and Environment to the Deputy Assistant Secretary for Natural Resources and Environment, to be exercised only during the absence or unavailability of the Assistant Secretary: Perform all the duties and exercise all the powers which are now or which may hereafter be delegated to the Assistant Secretary for Natural Resources and Environment.

§ 2.60 Chief, Forest Service.

(a) *Delegations.* Pursuant to § 2.19 (a), (b), (e), (f) and (g)(2), the following delegations of authority are made by the Assistant Secretary for Natural Resources and Environment to the Chief of the Forest Service:

(1) Provide national leadership in forestry. (As used here and elsewhere in this section, the term "forestry" encompasses renewable and nonrenewable resources of forests, forest-related rangeland, grassland, brushland, woodland, and alpine areas including but not limited to recreation, range, timber, minerals, watershed, wildlife and fish; natural scenic, scientific, cultural, and historic values of forests and related lands; and derivative values such as economic strength and social well being.

(2) Protect, manage, and administer the national forests, national forest purchase units, national grasslands, and other lands and interests in lands administered by the Forest Service, which collectively are designated as the National Forest System. This delegation covers the acquisition and disposition of lands and interest in lands as may be authorized for the protection, management, and administration of the National Forest System, except that the authority to approve acquisition of land under the Weeks Act of March 1, 1911, as amended, and special forest receipts acts, as follows: (Pub. L. No. 337, 74th Cong., 49 Stat. 866, as amended by Pub. L. No. 310, 78th Cong., 58 State. 227; Pub. L. No. 505, 75th Cong., 52 Stat. 347, as amended by Pub. L. No. 310, 78th Cong., 58 Stat. 227; Pub. L. No. 634, 75th Cong., 52 Stat. 699, as amended by Pub. L. No. 310, 78th Cong., 58 Stat. 227; Pub. L. No. 748, 75th Cong., 52 Stat. 1205, as amended by Pub. L. No. 310, 78th Cong., 58 Stat. 227; Pub. L. No. 427, 76th Cong., 54 Stat. 46; Pub. L. No. 589, 76th Cong., 54 Stat. 297; Pub. L. No. 591, 76th Cong., 54 Stat. 299; Pub. L. No. 637, 76th Cong., 54 Stat. 402; Pub. L. No. 781, 84th Cong., 70 Stat. 632) is limited to acquisitions of less than $250,000 in value.

(3) As necessary for administrative purposes, divide into and designate as national forests any lands of 3,000 acres or less which are acquired under or subject to the Weeks Act of March 1, 1911, as amended, and which are contiguous to existing national forest boundaries established under the authority of the Weeks Act.

(4) Plan and administer wildlife and fish conservation rehabilitation and habitat management programs on National Forest System lands, pursuant to 16 U.S.C. 670g, 670h, and 670o.

(5) For the purposes of the National Forests System Drug Control Act of 1986 (16 U.S.C. 559–f), specifically designate certain specially trained officers and employees of the Forest Service, not exceeding 500, to have authority in the performance of their duties within the boundaries of the National Forest System:

(i) To carry firearms;

(ii) To enforce and conduct investigations of violations of section 401 of the Controlled Substance Act (21 U.S.C. 481) and other criminal violations relating to marijuana and other controlled substances that are manufactured, distributed, or dispensed on national forest lands.

(iii) To make arrests with a warrant or process for misdemeanor violations, or without a warrant for violations of such misdemeanors that any such officer or

VOL 56 ISS 117 JE 18 1991 UMI

employee has probable cause to believe are being committed in that employee's presence or view, or for a felony with a warrant or without a warrant if that employee has probable cause to believe that the person being arrested has committed or is committing such a felony;

(iv) To serve warrants and other process issued by a court or officer of competent jurisdiction;

(v) To search, with or without a warrant or process, any person, place, or conveyance according to Federal law or rule of law; and

(vi) To seize, with or without warrant or process, any evidentiary item according to Federal law or rule of law.

(6) Cooperate with the law enforcement officials of any Federal agency, State, or political subdivision, in the investigation of violations of, and enforcement of, section 401 of the Controlled Substances Act (21 U.S.C. 841), other laws and regulations relating to marijuana and other controlled substances, and State drug control laws or ordinances, within the boundaries of the National Forest System.

(7) Administer programs under section 23 of the Federal Highway Act (23 U.S.C. 101(a), 120(f), 125 (a)–(c), 136, 202 (a)–(b), 203, 204 (a)–(h), 205 (a)–(d), 211, 317, 401(a)).

(8) Administer provisions of the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1272, 1305) as they relate to management of the National Forest System.

(9) Conduct, support, and cooperate in investigations, experiments, tests, and other activities deemed necessary to obtain, analyze, develop, demonstrate, and disseminate scientific information about protecting, managing, and utilizing forest and rangeland renewable resources in rural, suburban, and urban areas in the United States and foreign countries. The activities conducted, supported, or cooperated in shall include, but not be limited to: Renewable resource management research; renewable resource-environmental research; renewable resource protection research, renewable resource utilization research, and renewable resource assessment research (16 U.S.C. 1641–1647).

(10) Use authorities and means available to disseminate the knowledge and technology developed from forestry research (16 U.S.C. 1645).

(11) Coordinate activities with other agencies in USDA, other Federal and State agencies, forestry schools, and private entities and individuals (16 U.S.C. 1643).

(12) Enter into contracts, grants, and cooperative agreements for the support of scientific research in forestry activities (7 U.S.C. 427f(a), 1624; 16 U.S.C. 1642–1645).

(13) Enter into cooperative research and development agreements with industry, universities, and others; institute a cash award program to reward scientific, engineering, and technical personnel; award royalties to inventors; and retain and use royalty income (15 U.S.C. 3710a–3710c).

(14) Enter into contracts, grants, or cooperative agreements to further research, extension, or teaching programs in the food and agricultural sciences (7 U.S.C. 3318).

(15) Enter into cost-reimbursable agreements relating to agricultural research, extension, or teaching activities (7 U.S.C. 3319a).

(16) Administer programs of cooperative forestry assistance in the protection, conservation, and multiple resource management of forests and related resources in both rural and urban areas (16 U.S.C. 2102–2111).

(17) Provide assistance to States in forest resources planning (16 U.S.C. 2107).

(18) Conduct a program of technology implementation for State forestry personnel, private forest landowners and managers, vendors, forest operators, public agencies, and individuals (16 U.S.C. 2107).

(19) Administer rural fire protection and control program (16 U.S.C. 2106).

(20) Provide technical assistance on forestry technology or the implementation of the conservation reserve and softwood timber programs authorized in sections 1231–1244 and 1254 of the Food Security Act of 1985 (16 U.S.C. 3831–3844; 7 U.S.C. 1961 note).

(21) Administer forest insect, disease, and other pest management programs (16 U.S.C. 2104).

(22) Exercise the custodial functions of the Secretary for lands and interests in lands under lease or contract of sale to States and local agencies pursuant to title III of the Bankhead-Jones Farm Tenant Act and administer reserved and reversionary interests in lands conveyed under that Act (7 U.S.C. 1010–1012).

(23) Under such general program criteria and procedures as may be established by the Soil Conservation Service:

(i) Administer the forestry aspects of the programs listed in paragraphs (a)(23)(i)(A), (B), and (C) of this section on the National Forest System, rangelands with national forest boundaries, adjacent rangelands which are administered under formal agreement, and other forest lands.

(A) The cooperative river basin surveys and investigations program (16 U.S.C. 1008).

(B) The eleven authorized watershed improvement programs and emergency flood prevention measures program under the Flood Control Act (33 U.S.C. 701b–1).

(C) The small watershed protection program under the Pilot Watershed Protection and Watershed Protection and Flood Prevention Acts (7 U.S.C. 701a–h; 16 U.S.C. 1001–1009).

(ii) Exercise responsibility in connection with the forestry aspects of the resource conservation and development program authorized by title III of the Bankhead-Jones Farm Tenant Act (7 U.S.C. 1011(e)).

(24) Provide assistance to the Agricultural Stabilization and Conservation Service in connection with the agricultural conservation program, the naval stores conservation program, and the cropland conversion program (16 U.S.C. 590g–q).

(25) Jointly administer the Forestry Incentives Program with the Agricultural Stabilization and Conservation Service, in consultation with State Foresters (16 U.S.C. 2103).

(26) Provide assistance to the Farmers Home Administration in connection with grants and loans under authority of section 303 of the Consolidated Farm and Rural Development Act, 7 U.S.C. 1923; and consultation with the Department of Housing and Urban Development under the authority of 40 U.S.C. 461(e).

(27) Coordinate mapping work of USDA including:

(i) Clearing mapping projects to prevent duplication;

(ii) Keeping a record of mapping done by USDA agencies;

(iii) Preparing and submitting required USDA reports;

(iv) Serving as liaison on mapping with the Office of Management and Budget, Department of the Interior, and other departments and establishments;

(v) Promoting interchange of technical mapping information, including techniques which may reduce costs or improve quality; and

(vi) Maintaining the mapping records formerly maintained by the Office of Operations.

(28) Administer the radio frequency licensing work of USDA, including:

(i) Representing USDA on the Interdepartmental Radio Advisory Committee and its Frequency Assignment Subcommittee of the National Telecommunications and Information Administration, Department of Commerce;

(ii) Establishing policies, standards, and procedures for allotting and assigning frequencies within USDA and for obtaining effective utilization of them;

(iii) Providing licensing action necessary to assign radio frequencies for use by the agencies of USDA and maintenance of the records necessary in connection therewith; and

(iv) Providing inspection of USDA's radio operations to ensure compliance with national and international regulations and policies for radio frequency use.

(29) Represent USDA in all matters relating to responsibilities and authorities under the Federal Water Power Act, as amended (16 U.S.C. 791–823).

(30) Coordinate USDA input and assistance to the Department of Commerce and other Federal agencies consistent with section 307 of the Coastal Zone Management Act of 1972 and coordinate USDA review of qualifying state and local government coastal management plans or programs prepared under the Act and submitted to the Secretary of Commerce, consistent with section 306 (a) and (c).

(31) Administer the Youth Conservation Corps Act (42 U.S.C. precede 2711 Note) for USDA.

(32) Establish and operate the Job Corps Civilian Conservation Centers on National Forest System lands as authorized by title I, sections 106 and 107 of the Economic Opportunity Act of 1964 (42 U.S.C. 2716–2717), in accordance with the terms of an agreement dated May 11, 1967, between the Secretary of Agriculture and the Secretary of Labor; and administration of other cooperative manpower training and work experience programs where the Forest Service serves as host or prime sponsor with other Departments of Federal, State, or local governments.

(33) Administer the Volunteers in the National Forests Act of 1972 (16 U.S.C. 558a–558d, 558a note).

(34) Exercise the functions of the Secretary of Agriculture authorized in the Alaska National Interest Lands Conservation Act (16 U.S.C. 3101–3215).

(35) Administer responsibilities and functions assigned under the Defense Production Act of 1950, as amended (50 U.S.C. App. 2061 et seq.), and the Federal Civil Defense Act of 1950, as amended (50 U.S.C. App. 2251 et seq.), relating to forests and forest products, rural fire defense, and forestry research.

(36) Represent USDA on the National Response Team on hazardous spills pursuant to Public Law 92–500 (33 U.S.C. 1151 note) and section 4 of Executive Order 1735.

(37) Exercise the functions of the Secretary as authorized in the Wild and Scenic Rivers Act (16 U.S.C. 1271–1278), except for making recommendations to the President regarding additions to the National Wild and Scenic Rivers System.

(38) Issue proposed rules relating to the authorities delegated in this section, issue final rules and regulations as provided in 36 CFR 251.70, and issue technical amendments and corrections to final rules issued by the Assistant Secretary for Natural Resources and Environment pursuant to § 2.60(b)(1).

(39) Jointly administer gypsy moth eradication activities with the Animal and Plant Health Inspection Service, under the authority of section 102 of the Organic Act of 1944, as amended; and the Act of April 6, 1937, as amended (7 U.S.C. 147a, 148, 148a–148e); and the Talmadge Aiken Act (7 U.S.C. 450), by assuming primary responsibility for treating isolated gypsy moth infestations on Federal lands, and on State and private lands contiguous to infested Federal lands, and any other infestations over 640 acres on State and private lands.

(40) With respect to land and facilities under his authority, to exercise the functions delegated to the Secretary by Executive Order 12580 under the following provisions of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 ("the Act"), as amended:

(i) Sections 104 (a), (b), and (c)(4) of the Act (42 U.S.C. 9604 (a), (b), and (c)(4)), with respect to removal and other remedial action in the event of release or threatened release of a hazardous substance, pollutant, or contaminant into the environment;

(ii) Sections 104 (e)–(h) of the Act (42 U.S.C. 9604 (e)–(h)), with respect to information gathering and access; compliance orders; compliance with Federal health and safety standards applicable to covered work; and emergency procurement powers;

(iii) Section 104(i)(11) of the Act (42 U.S.C. 9604(i)(11)), with respect to the reduction of exposure to significant risk to human health;

(iv) Section 104(j) of the Act (42 U.S.C. 9604(j)), with respect to the acquisition of real property and interests in real property required to conduct a remedial action;

(v) Section 105(d) of the Act (42 U.S.C. 9605(d)), with respect to petitions for preliminary assessment of a release or threatened release;

(vi) Section 105(f) of the Act (42 U.S.C. 9605(f)), with respect to consideration of the availability of qualified minority firms in awarding contracts, but excluding that portion of section 105(f) of the Act pertaining to the annual report to Congress;

(vii) Section 109 of the Act (42 U.S.C. 9609), with respect to the assessment of civil penalties for violations and the granting of awards to individuals providing information;

(viii) Section 111(f) of the Act (42 U.S.C. 9611(f)), with respect to the designation of officials who may obligate money in the Hazardous Substances Superfund;

(ix) Section 113(k) of the Act (42 U.S.C. 9613(k)), with respect to establishing an administrative record upon which to base the selection of a response action;

(x) Section 116(a) of the Act (42 U.S.C. 9616(a)), with respect to preliminary assessment and site inspection of facilities;

(xi) Section 117 (a) and (c) of the Act (42 U.S.C. 9617 (a) and (c)), with respect to public participation in the preparation of any plan for remedial action and explanation of variances from the final remedial action plan for any remedial action or enforcement action, including any settlement or consent decree entered into;

(xii) Section 119 of the Act (42 U.S.C. 9619), with respect to indemnifying response action contractors;

(xiii) Section 121 of the Act (42 U.S.C. 9621), with respect to selecting cleanup standards; and

(xiv) Section 122 of the Act (42 U.S.C. 9622), with respect to entering into settlement agreements.

(41) Exercise the functions of the Secretary authorized in the Federal Onshore Oil and Gas Leasing Reform Act of 1987 (30 U.S.C. 226 et seq.).

(b) *Reservations.* The following authorities are reserved to the Assistant Secretary for Natural Resources and Environment:

(1) The authority to issue final rules and regulations relating to the administration of Forest Service programs, except as provided in 36 CFR 251.70 and § 2.60(a)(38) of this part.

(2) As deemed necessary for administrative purposes, the authority to divide into and designate as national forests any lands of more than 3,000 acres acquired under or subject to the Weeks Act of March 1, 1911, as amended (16 U.S.C. 521).

(3) The authority to make recommendations to the Administrator of General Services regarding transfer to other Federal, State, or Territorial agencies lands acquired under the Bankhead-Jones Farm Tenant Act, together with recommendations on the

VOL 56 ISS 117 JE 18 1991 UMI

conditions of use and administration of such lands, pursuant to the provisions of section 32(c) of title III of the Bankhead-Jones Farm Tenant Act (7 U.S.C. 1011(c), and Executive Order 11609).

(4) Making recommendations to the President for establishing new units or adding to existing units of the National Wild and Scenic Rivers System (16 U.S.C. 1271–1278); National Scenic Trails System (16 U.S.C. 1241–1249) and the National Wilderness Preservation System (16 U.S.C. 1131–1136).

(5) Signing of declarations of taking and requests for condemnation of property as authorized by law to carry out the mission of the Forest Service (40 U.S.C. 257).

(6) Approval of acquisition of land under the Weeks Act of March 1, 1911, as amended (16 U.S.C. 521), and special forest receipts acts, as follows: (Pub. L. No. 337, 74th Cong., 49 Stat. 866, as amended by Pub. L. No. 310, 78th Cong., 58 Stat. 227; Pub. L. No. 505, 75th Cong., 52 Stat. 347, as amended by Pub. L. No. 310, 78th Cong., 58 Stat. 227; Pub. L. No. 634, 75th Cong., 52 Stat. 699, as amended by Pub. L. No. 310, 78th Cong., 58 Stat. 227; Pub. L. No. 748, 75th Cong., 52 Stat. 1205, as amended by Pub. L. No. 310, 78th Cong., 58 Stat. 227; Pub. L. No. 427, 76th Cong., 54 Stat. 46; Pub. L. No. 589, 76th Cong., 54 Stat. 297; Pub. L. No. 591, 76th Cong., 54 Stat. 299; Pub. L. No. 637, 76th Cong., 54 Stat. 402; Pub. L. No. 781, 84th Cong., 70 Stat. 632) of $250,000 or more in value for national forest purposes.

§ 2.61 [Reserved]

§ 2.62 Chief, Soil Conservation Service.

(a) *Delegations.* Pursuant to § 2.19 (a), (c), (e), (f) and (g)(2), the following delegations of authority are made by the Assistant Secretary for Natural Resources and Environment to the Chief of the Soil Conservation Service:

(1) Provide national leadership in the conservation, development and productive use of the Nation's soil, water, and related resources. Such leadership encompasses soil, water, plant, and wildlife conservation; small watershed protection and flood prevention; and resource conservation and development. Integrated in these programs are erosion control, sediment reduction, pollution abatement, land use planning, multiple use, improvement of water quality, and several surveying and monitoring activities related to environmental improvement. All are designed to assure:

(i) Quality in the natural resource base for sustained use;

(ii) Quality in the environment to provide attractive, convenient, and satisfying places to live, work, and play; and

(iii) Quality in the standard of living based on community improvement and adequate income.

(2) Participate in evaluation and coordination land use policy and in providing national leadership in implementing the Farmland Protection Policy Act (7 U.S.C. 4201 et seq.) except as otherwise delegated to the Administrator, Extension Service in § 2.108(a)(22) and the Director, National Agricultural Library in § 2.109(a)(15) of this part.

(3) Administer the basic program of soil and water conservation under Public Law No. 46, 74th Congress, as amended, and related laws (16 U.S.C. 590 a–f, 1–7, q, q–1; 42 U.S.C. 3271–3274; 7 U.S.C. 2201), including:

(i) Technical assistance to land users in carrying out locally adapted soil and water conservation programs primarily through the conservation districts in the 50 States, Puerto Rico, and Virgin Islands, but also to communities, watershed groups, Federal and State agencies, and other cooperators. This authority includes such assistance as:

(A) Comprehensive planning assistance in nonmetroplitan districts;

(B) Assistance in the field of income-producing recreation on rural non-Federal lands;

(C) Forestry assistance, as part of total technical assistance to private land owners and land users when such services are an integral part of land management and such services are not available from a State agency; and forestry services in connection with windbreaks and shelter belts to prevent wind and water erosion of lands;

(D) Assistance in developing programs relating to natural beauty; and

(E) Assistance to other USDA agencies in connection with the administration of their programs, as follows:

(*1*) To the Agricultural Stabilization and Conservation Service in the development and technical servicing of certain programs, such as the rural environmental assistance program, water bank program, Appalachian regional development program and other such similar conservation programs;

(*2*) To the Farmers Home Administration in connection with their loan and land disposition programs.

(ii) Soil Surveys, including:

(A) Providing leadership for the Federal part of the National Cooperative Soil Survey which includes conducting and publishing soil surveys;

(B) Conducting soil surveys for resource planning and development; and

(C) Performing the cartographic services essential to carrying out the functions of the Soil Conservation Service, including furnishing photographs, mosaics, and maps.

(iii) Conducting and coordinating snow surveys and making water supply forecasts pursuant to Reorganization Plan No. 4 of 1940 (5 U.S.C. App.);

(iv) Operating plant materials centers for the assembly and testing of plant species in conservation programs, including the use, administration, and disposition of lands under the administration of the Soil Conservation Service for such purposes under title III of the Bankhead-Jones Farm Tenant Act (7 U.S.C. 1010–1011); and

(v) Providing leadership in the inventorying and monitoring of soil, water, land, and related resources of the Nation.

(4) Administer the watershed protection and flood prevention programs, including:

(i) The eleven authorized watershed projects authorized under 33 U.S.C. 702b–1, except for responsibilities assigned to the Forest Service;

(ii) The emergency flood control work under 33 U.S.C. 701b–1, except for responsibilities assigned to the Forest Service;

(iii) The cooperative river basin surveys and investigations programs under 16 U.S.C. 1006, except for responsibilities assigned to the Forest Service;

(iv) The pilot watershed projects under 16 U.S.C. 590 a–f, and Public Law No. 156, 83rd Congress, except for responsibilities assigned to the Forest Service;

(v) The watershed protection and flood prevention program under 16 U.S.C. 1001–1009, except for responsibilities assigned to the Farmers Home Administration and the Forest Service;

(vi) The joint investigations and surveys with the Department of the Army under 16 U.S.C. 1009; and

(vii) The Emergency Conservation Program under 16 U.S.C. 2201.

(5) Administer the Great Plains conservation program under 16 U.S.C. 590p(b).

(6) Administer the Resource Conservation and Development Program under 16 U.S.C. 590 a–f; 7 U.S.C. 1010–1011; and 16 U.S.C. 3451–3461, except for responsibilities assigned to the Farmers Home Administration.

(7) Responsibility for entering into long-term contracts for carrying out conservation and environmental measures in watershed areas.

(8) Provide national leadership for and administer the Soil and Water Resources Conservation Act of 1977 (16 U.S.C. 2001 et seq.), except for responsibilities assigned to other USDA agencies.

(9) Administer rural water quality cost-sharing programs and other responsibilities assigned under section 35 of the Clean Water Act of 1977 (33 U.S.C. 1251 et seq.).

(10) Monitor actions and progress of USDA in complying with Executive Order Nos. 11988 and 11990 regarding management of floodplains and protection of wetlands; monitor USDA efforts on protection of important agricultural, forest and rangelands; and provide staff assistance to the USDA Natural Resources and Environment Committee.

(11) Administer the search and rescue operations authorized under 7 U.S.C. 2273.

(12) Perform the following functions in connection with the administration of the Colorado River Basin Salinity Control Act:

(i) Identify salt source areas and determine the salt load resulting from irrigation and watershed management practices;

(ii) Conduct salinity control studies of irrigated salt source areas;

(iii) Provide technical assistance in the implementation of salinity control projects including the development of salinity control plans, technical services for application, and certification of practice applications;

(iv) Develop plans for implementing measures that will reduce the salt load of the Colorado River;

(v) Develop and implement long-term monitoring and evaluation plans to measure and report progress and accomplishments in achieving program objectives; and

(vi) Coordinate salt source planning and monitoring and evaluation activities with USDA and with the Bureau of Reclamation, other Federal agencies and representatives of the seven basin states participating in the Colorado River Basin Salinity Control Program (43 U.S.C. 1593(c)).

(13) Provide technical assistance on soil and water conservation technology for the implementation and administration of the conservation reserve program authorized in sections 1231–1244 of the Food Security Act of 1985 (16 U.S.C. 3831–3844), and carry out responsibilities for conservation of highly erodible lands and wetlands pursuant to sections 1211–1233 of the Food Security Act of 1985 (16 U.S.C. 3821–3823).

(14) Approve and transmit to the Congress comprehensive river basin reports.

(15) Provide representation on the Water Resources Council and river basin commissions created by 42 U.S.C. 1962, and on river basin interagency committees.

(16) Administer responsibilities and functions assigned under the Defense Production Act of 1950, as amended (50 U.S.C. App. 2061 et seq.), and the Federal Civil Defense Act of 1950, as amended (50 U.S.C. App. 2251 et seq.), relating to agricultural lands and water.

(17) Administer the Abandoned Mine Reclamation Program for Rural Lands and other responsibilities assigned under the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1201 et seq.), except for responsibilities assigned to the Forest Service.

(18) With respect to land and facilities under his authority, to exercise the functions delegated to the Secretary by Executive Order No. 12580 under the following provisions of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 ("the Act"), as amended:

(i) Sections 104 (a), (b), and (c)(4) of the Act (42 U.S.C. 9604 (a), (b), and (c)(4)), with respect to removal and other remedial action in the event of release or threatened release of a hazardous substance, pollutant, or contaminant into the environment;

(ii) Sections 104 (e)–(h) of the Act (42 U.S.C. 9604 (e)–(h)), with respect to information gathering and access; compliance orders; compliance with Federal health and safety standards applicable to covered work; and emergency procurement powers;

(iii) Section 104(i)(11) of the Act (42 U.S.C. 9604(i)(11)), with respect to the reduction of exposure to significant risk to human health;

(iv) Section 104(j) of the Act (42 U.S.C. 9604(j)), with respect to the acquisition of real property and interests in real property required to conduct a remedial action;

(v) Section 105(d) of the Act (42 U.S.C. 9605(d)), with respect to petitions for preliminary assessment of a release or threatened release;

(vi) Section 105(f) of the Act (42 U.S.C. 9605(f)), with respect to consideration of the availability of qualified minority firms in awarding contracts, but excluding that portion of section 105(f) of the Act pertaining to the annual report to Congress;

(vii) Section 109 of the Act (42 U.S.C. 9609), with respect to the assessment of civil penalties for violations and the granting of awards to individuals providing information;

(viii) Section 111(f) of the Act (42 U.S.C. 9611(f)), with respect to the designation of officials who may obligate money in the Hazardous Substances Superfund;

(ix) Section 113(k) of the Act (42 U.S.C. 9613(k)), with respect to establishing an administrative record upon which to base the selection of a response action;

(x) Section 116(a) of the Act (42 U.S.C. 9616(a)), with respect to preliminary assessment and site inspection of facilities;

(xi) Section 117 (a) and (c) of the Act (42 U.S.C. 9617 (a) and (c)), with respect to public participation in the preparation of any plan for remedial action and explanation of variances from the final remedial action plan for any remedial action or enforcement action, including any settlement or consent decree entered into;

(xii) Section 119 of the Act (42 U.S.C. 9619), with respect to indemnifying response action contractors;

(xiii) Section 121 of the Act (42 U.S.C. 9621), with respect to selecting cleanup standards; and

(xiv) Section 122 of the Act (42 U.S.C. 9622), with respect to entering into settlement agreements.

(b) *Reservations of authority.*

The following authorities are reserved to the Assistant Secretary for Natural Resources and Environment:

(1) Executing cooperative agreements and memoranda of understanding for multi-agency cooperation with conservation districts and other districts organized for soil and water conservation within States, territories, possessions, and American Indian Nations.

(2) Approving additions to authorized Resource Conservation and Development Projects that designate new project areas in which resource conservation and development program assistance will be provided, and withdrawing authorization for assistance, pursuant to 16 U.S.C. 590a–f; 7 U.S.C. 1010–1011; 16 U.S.C. 3451–3461.

(3) Giving final approval to and transmitting to the Congress watershed work plans that require congressional approval.

For subparts C and D.

BILLING CODE 3410-01-M

Agricultural Marketing Service

7 CFR Part 52

[FV-91-330]

RIN 0581-AA19

Processed Fruits and Vegetables, Processed Products Thereof, and Certain Other Processed Food Products Regulations Governing Inspection and Certification

AGENCY: Agricultural Marketing, USDA.

ACTION: Final rule.

SUMMARY: This final rule revises the Regulations Governing Inspection and Certification of Processed Fruits and Vegetables, Processed Products Thereof, and Certain Other Processed Food Products by increasing the fees charged for the inspection of processed fruits and vegetables and certain other products. The revision will adjust the fees to recover the costs of performing inspection services, as authorized by the Agricultural Marketing Act of 1946.

EFFECTIVE DATE: June 18, 1991.

FOR FURTHER INFORMATION CONTACT: Mr. Raymondo O'Neal, Processed Products Branch, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture, P.O. Box 96456, room 0709, South Building, Washington, DC 20090-6456, telephone (202) 447-5021.

SUPPLEMENTARY INFORMATION: This final rule has been reviewed under Executive Order 12291 and Departmental Regulation 1512-1 and has been designated as a "nonmajor" rule. It will not result in an annual effect on the economy of $100 million or more. There will be no major increase in cost or prices to consumers, individual industries, Federal, State, or local government agencies, or geographic regions. It will not result in significant adverse effects on competition, employment, investments, productivity, innovations, or the ability of the United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The Administrator, Agricultural Marketing Service (AMS), has certified that this action will not have a significant economic impact on a substantial number of small entities, as defined in the Regulatory Flexibility Act, Public Law 96-354 (5 U.S.C. 601).

The final rule reflects fee increases needed to recover the costs of services rendered in accordance with the Agricultural Marketing Act (AMA) of 1946. Furthermore, the inspection, grading and certification program for processed fruits and vegetables and related products is voluntary.

The AMA authorizes voluntary official inspection, grading, and certification on a user-fee basis, of processed food products including processed fruits, vegetables, and processed products made from them. The AMA provides that reasonable fees be collected from the user of the program services to cover as nearly as practicable the costs of services rendered. This final rule will amend the schedule for fees and charges for services rendered to the processed fruit and vegetable industry to reflect the costs currently associated with the program.

AMS regularly reviews these programs to determine if fees are adequate. Since the last fee change December 11, 1989 (54 FR 50731), program operating costs have increased. The major contributing factors have been two salary increases for Federal employees—a 3.5-percent pay increase effective January 1, 1990, and a 4.1-percent pay increase effective January 1, 1991.

Employee salary and fringe benefits are major program costs that account for approximately 65 percent of the total operating budget. In addition, the following increases occurred in program operating expenses: (1) A 13.3-percent increase in the cost of support services during FY-90; (2) a projected inflationary cost increase of 4.0 percent for fiscal year 1991. The Agency has determined that due to the aforementioned increases in program operating costs, these programs will incur over a $1,750,000 loss in fiscal year 1991. Therefore, it is found that good cause exists for making this final rule effective upon publication in the **Federal Register.**

A notice of proposed rulemaking was published in the **Federal Register** (56 FR 11113-11114) on March 15, 1991, with a thirty day comment period. The comment period closed on April 15, 1991. Interested persons were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the Agricultural Marketing Service. No comments were received regarding this proposed rule. However, miscellaneous non-substantive changes are made herein for clarity.

Pursuant to 5 U.S.C. 553, it is found and determined that good cause exists for not postponing the effective date of this action until 30 days after publication in the **Federal Register** because: (1) The program will incur over a $1,750,000 loss in fiscal year 1991 alone; (2) this action should be made effective upon publication in the **Federal Register** so that fees will reflect the costs of services rendered as soon as possible and; (3) interested persons were afforded a thirty day comment period and no comments were received.

List of Subjects in 7 CFR Part 52

Food grades and standards, Food labeling, Frozen foods, Fruit juices, Fruits, reporting and recordkeeping requirements, Vegetables.

Accordingly, for the reasons set forth in the preamble, the Regulations Governing Inspection and Certification of Processed Fruits and Vegetables, Processed Products Thereof, and Certain Other Processed Food Products (7 CFR 52.42, 52.50, 52.51), are amended as follows:

PART 52—[AMENDED]

1. The authority citation for part 52 continues to read as follows:

Authority: Agricultural Marketing Act of 1946, secs. 203, 205, 60 Stat. 1087, as amended, 1090, as amended (7 U.S.C. 1622, 1624).

2. Section 52.42 is revised to read as follows:

§ 52.42 Schedule of fees.

Unless otherwise provided in a written agreement between the applicant and the Administrator, the fee for any inspection service performed under the regulations in this part, shall be at the rate of $34.50 per hour plus an additional one-half the hourly rate per hour for all scheduled overtime hours. When work is performed on a holiday, an additional hour shall be charged at the regular hourly rate for each hour worked.

3. Section 52.50 is revised to read as follows:

§ 52.50 Travel and other expenses.

Charges may be made to cover the cost of travel time incurred in connection with the performance of any inspection service, including appeal inspections, at the rate of $34.50 per hour. This includes time spent waiting for transportation as well as time spent traveling, but not to exceed eight hours of travel time for any one person for any one day: And provided further, that if travel is by common carrier, no hourly charge may be made for travel time outside the employee's official work hours.

4. Section 52.51 is amended by revising paragraphs (c) introductory text, (c)(1), (c)(2), (c)(5), (d) introductory text, (d)(1), and (d)(5) to read as follows:

§ 52.51 Charges for inspection services on a contract basis.

* * * * *

(c) Charges for year-round in-plant inspection services on a contract basis will be billed to the applicant monthly for all hours worked with a minimum of 40 hours per week for each inspector assigned to perform the inspection services in accordance with the following schedule:

(1) For personnel assigned on a year-round basis: Each inspector—$29.00 per hour.

(2) For personnel assigned on less than a year-round basis: Each inspector—$34.50 per hour. In-plant sampler—$14.00 per hour.

* * * * *

(5) *Overtime.* All overtime hours will be charged at the regular rates specified in paragraphs (c)(1) and (2) of this section, plus one-half the hourly rate, per hour.

(d) Charges for less than year-round in-plant inspection services (four or more consecutive 40 hour weeks) on a contract basis will be billed to the applicant monthly for all hours with a minimum of 40 hours for each inspector assigned to perform the inspection services in accordance with the following schedule: [1]

(1) Each inspector—$35.50 per hour.[1]

* * * * *

(5) *Overtime.* All overtime hours will be charged at the regular rates specified in paragraphs (d)(1) and (2) of this section, plus one-half the hourly rate, per hour.

* * * * *

Dated: June 12, 1991.

Daniel D. Haley,

Administrator.

[FR Doc. 91-14458 Filed 6-17-91; 8:45 am]

BILLING CODE 3410-02-M

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

14 CFR Part 1214

Space Shuttle; Authority of Space Shuttle Commander

ACTION: Final rule.

[1] Except a minimum of 8 hours per day will be billed in lieu of a minimum of 40 hours a week.

SUMMARY: NASA is amending 14 CFR part 1214 by revising the part title and subpart 1214.7, "The Authority of the Space Shuttle Commander." This revision changes all references to "Space Transportation System (STS)" to read "Space Shuttle" and it also includes a minor word change in paragraph 1214.702(c). This rule sets forth the authority of the Space Shuttle Commander.

EFFECTIVE DATE: June 18, 1991.

ADDRESSES: Office of Space Flight, Code M, NASA Headquarters, Washington, DC 20546.

FOR FURTHER INFORMATION CONTACT: Joseph M. Bosa, Jr., 202-453-2582.

SUPPLEMENTARY INFORMATION: On August 22, 1979, NASA published its final rule, 14 CFR part 1214 subpart 7, in the **Federal Register** on March 7, 1980 (45 FR 14845). This rule sets forth the authority of the Space Shuttle Commander who is ultimately responsible for maintaining order and discipline and for the safety of all personnel aboard a Space Shuttle flight, as well as for the safety of the Space Shuttle itself, Space Shuttle elements and payloads. Under this rule, the Commander's authority applies to all persons aboard the Space Shuttle, including those persons engaged in extravehicular activity (EVA), and includes the right to use any reasonable and necessary means, including physical force, to ensure that such responsibility is fulfilled.

Since this action is administrative in nature and involves Agency policy management procedures, no public comment period is required.

The National Aeronautics and Space Administration has determined, that:

1. This rule is not subject to the requirements of the Regulatory Flexibility Act, 5 U.S.C. 601-612, since it will not exert a significant economic impact on a substantial number of small business entities.

2. This rule is not a major rule as defined in Executive Order 12291.

List of Subjects in 14 CFR Part 1214

Reimbursement, Payload specialist, Space flight participant, Memento, Personnel reliability, Authority of Commander, Space Shuttle, Astronaut candidate recruitment/selection, Duty-free entry of space articles, Small self-contained payload.

PART 1214—SPACE SHUTTLE

For reasons set forth in the Preamble, 14 CFR part 1214 subpart 7 is amended as follows:

1. The authority citation for subpart 1214.7 continues to read as follows:

Authority: Pub. L. 85-568, 72 Stat. 426 (42 U.S.C. 2473 and 2475; 18 U.S.C. 799); Art. VIII, TIAS 6347 (18 U.S.C. 2410).

2. The title heading for subpart 1214.7 is revised to read as follows:

Subpart 1214.7—The Authority of the Space Shuttle Commander

3. Section 1214.700 is revised to read as follows:

§ 1214.700 Scope.

This subpart establishes the authority of the Space Shuttle commander to enforce order and discipline during all flight phases of a Shuttle flight to take whatever action in his/her judgment is necessary for the protection, safety, and well-being of all personnel and on-board equipment, including the Space Shuttle elements and payloads. During the final launch countdown, following crew ingress, the Space Shuttle commander has the authority to enforce order and discipline among all on-board personnel. During emergency situations prior to liftoff the Space Shuttle commander has the authority to take whatever action in his/her judgment is necessary for the protection or security, safety, and well-being of all personnel on board.

4. Section 1214.701 is amended by revising paragraphs (a), (c), and (f) to read as follows:

§ 1214.701 Definitions.

(a) *Space Shuttle Elements* consists of the Orbiter, an External Tank, two Solid Rocket Boosters, Spacelab, Upper Stage Boosters (Solid Spinning Upper Stage and Interim Upper Stages) and others as specified in NASA Management Instruction 8040.9.

* * * * *

(c) A *flight* is the period from launch to landing of a Space Shuttle—a single round trip. (In the case of a forced landing the Space Shuttle commander's authority continues until a competent authority takes over the responsibility for the Orbiter and for the persons and property aboard.)

* * * * *

(f) *Personnel on board* refers to those astronauts or other persons actually in the Orbiter or Spacelab during any flight phase of a Space Shuttle flight (including any persons who may have transferred from another vehicle) and including any persons performing extravehicular activity associated with the mission.

5. Section 1214.702 is amended by revising the section title and paragraphs (a), (c), and (d) to read as follows:

VOL 56 ISS 117 JE 18 1991 UMI

§ 1214.702 Authority and responsibility of the Space Shuttle commander.

(a) During all flight phases of a Space Shuttle flight, the Space Shuttle commander shall have the absolute authority to take whatever action is in his/her discretion necessary to

(1) Enhance order and discipline,

(2) Provide for the safety and well being of all personnel on board, and

(3) Provide for the protection of the Space Shuttle elements and any payload carried or serviced by the Space Shuttle. The commander shall have authority throughout the flight to use any reasonable and necessary means, including the use of physical force, to achieve this end.

* * * * *

(c) The authority of the commander extends to all Space Shuttle elements, payloads, and activities originating with or defined to be a part of the Space Shuttle mission.

(d) The commander may, when he/she deems such action to be necessary for the safety of the Space Shuttle elements and personnel on board, subject any of the personnel on board to such restraint as the circumstances require until such time as delivery of such individual or individuals to the proper authorities is possible.

6. Section 1214.703 is amended by revising paragraphs (a), (c), and (d) to read as follows:

§ 1214.703 Chain of command.

(a) The *Commander* is a career NASA astronaut who has been designated to serve as commander on a particular flight, and who shall have the authority described in § 1214.702 of this part. Under normal flight conditions (other than emergencies or when otherwise designated) the Space Shuttle commander is responsible to the Flight Director, Johnson Space Center, Houston, TX.

* * * * *

(c) Before each flight, the other flight crew members (Mission Specialists) will be designated by the Director of Flight Operations, Johnson Space Center, Houston, TX, in the order in which they will assume the authority of the commander under this Subpart in the event that the commander and pilot are both not able to carry out their duties.

(d) The determinations, if any, that a crew member in the chain of command is not able to carry out his or her command duties and is, therefore, to be relieved of command, and that another crew member in the chain of command is to succeed to the authority of the commander, will be made by the Director of the Johnson Space Center.

7. Section 1214.704 is amended by revising paragraph (a) to read as follows:

§ 1214.704 Violations.

(a) All personnel on board a Space Shuttle flight are subject to the authority of the commander and shall conform to his/her orders and direction as authorized by this subpart.

* * * * *

Dated: June 5, 1991.

Richard H. Truly,

Administrator.

BILLING CODE 7510-01-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Assistant Secretary for Housing—Federal Housing Commissioner

24 CFR Part 203

[Docket No. R-91-1515; FR-2936-C-02]

RIN 2502-AF17

Single Family FHA Mortgage Insurance Premiums; Interim Rule; Correction

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Interim rule; correction.

SUMMARY: On May 30, 1991 the Department published an interim rule in the **Federal Register** (56 FR 24622) establishing new premium requirements for FHA single family mortgage insurance. The effective date of this final rule was given as July 1, 1991. Through inadvertence, relevant portions of the actual text of the regulation referred to the new MIP premium requirements taking effect after July 1, 1991 rather than on or after July 1, 1991. The purpose of this document is to correct these errors in the regulatory text.

DATES: Effective date: July 1, 1991. Comment due date: July 29, 1991.

FOR FURTHER INFORMATION CONTACT: Stephen A. Martin, Director, Office of Insured Single Family Housing, room 9266, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, DC 20410-8000, telephone (202) 708-3046, TDD (202) 708-4594. (These are not toll-free numbers.)

SUPPLEMENTARY INFORMATION: The Department published an interim rule in the **Federal Register** on May 30, 1991 entitled, "Single Family Mortgage Insurance Premiums" (56 FR 24622). Under the heading, "Effective Date," the rule sets forth a date of July 1, 1991. However, in various relevant portions of the actual text of the rule, the new MIP requirements are referred to as taking effect after July 1, 1991. The correct description of the effective date in the text should be on or after July 1, 1991.

List of Subjects in 24 CFR Part 203

Hawaiian Natives, Home improvement, Indians: Lands, Loan programs: Housing and community development, Mortgage insurance, Reporting and recordkeeping requirements, Solar energy.

Accordingly, in FR Doc. 91-12707, published in the **Federal Register** on May 30, 1991, at 56 FR 24622, 24 CFR part 203 is amended by correcting § 203.259a(b), the undesignated center heading preceding § 203.284, the heading to § 203.284 and § 203.284(b)(1) to read as follows:

PART 203—MUTUAL MORTGAGE INSURANCE AND REHABILITATION LOANS

1. The authority citation for 24 CFR part 203 continues to read as follows:

Authority: Secs. 203, 211, National Housing Act (12 U.S.C. 1709, 1715b); sec. 7(d), Development of Housing and Urban Development Act 42 U.S.C. 3535(d)). Subpart C is also issued under sec. 230, National Housing Act (12 U.S.C. 1715u).

§ 203.259a [Corrected]

2. On page 24624, in the third column, § 203.259a(b) is corrected to read as follows:

* * * * *

(b) The Commissioner shall charge an up-front MIP pursuant to § 203.284 for mortgages that are executed on or after July 1, 1991, that are obligations of the Mutual Mortgage Insurance Fund.

* * * * *

§ 203.284 [Corrected]

3. On page 24625, in the first column, the undesignated center heading preceding § 203.284 and the heading to § 203.284 are corrected to read as follows:

Calculation of Mortgage Insurance Premium on or After July 1, 1991

§ 203.284 Calculation of up-front MIP on or after July 1, 1991.

4. On page 24625, in the second column, § 203.284(b)(1) is corrected to read as follows:

* * * * *

(b) * * *

(1) *1991 and 1991*—For mortgages executed during fiscal years 1991 and 1992 but on or after July 1, 1991, the Commissioner shall establish and collect the following premiums:

* * * * *

Dated: June 12, 1991.

Proposed Rules

Federal Register
Vol. 56, No. 117
Tuesday, June 18, 1991

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation

7 CFR 1427

Upland Cotton Marketing Certificate Provisions

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Proposed rule.

SUMMARY: The Food, Agriculture, Conservation and Trade Act of 1990 ("the 1990 Act") amended the Agricultural Act of 1949 ("the 1949 Act") to provide that, during the period beginning August 1, 1991, and ending July 31, 1996, the Commodity Credit Corporation ("CCC") shall, under certain specified price conditions, make payments in the form of marketing certificates ("certificates") to first handlers and to domestic users or exporters of upland cotton. This proposed rule would amend 7 CFR part 1427 to implement these provisions.

DATES: Comments must be received on or before July 1, 1991, in order to be assured of consideration.

ADDRESSES: Submit comments to: Bruce R. Weber, Director, Commodity Analysis Division, USDA–ASCS, room 3741–S. P.O. Box 2415, Washington, DC 20013.

FOR FURTHER INFORMATION CONTACT: Charles V. Cunningham, Leader, Fibers Group, Commodity Analysis Division, USDA–ASCS, room 3756–S, P.O. Box 2415, Washington, DC 20013 or call (202) 447–7954.

SUPPLEMENTARY INFORMATION: This proposed rule has been reviewed under USDA procedures implementing Executive Order 12291 and Departmental Regulation 1512–1 and has been designated as "nonmajor". It has been determined that these program provisions will not result in:

(1) An annual effect on the economy of $100 million or more;

(2) A major increase in costs or prices for consumers, individual industries, State or local governments or geographical regions; or

(3) Significant adverse effects on competition, employment, investment, productivity, innovation or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The titles and numbers of the federal assistance programs, as found in the catalogue of Federal Domestic Assistance, to which this notice applies are:

Title	Numbers
Commodity Loans and Purchases	10.051
Cotton Production Stabilization	10.052

It has been determined that the Regulatory Flexibility Act is not applicable since CCC is not required by 5 U.S.C. 553 or any other provision of law to publish a notice of proposed rulemaking with respect to the subject matter of these determinations.

It has been determined by environmental evaluation that this action will have no significnt impact on the quality of the human environment. Therefore, neither an environmental assessment nor an Environmental Impact Statement is needed.

This provision is not subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials. See the notice related to 7 CFR part 3015, subpart V, published at 48 CFR 29115 (June 24, 1983).

Information collection requirements contained in this regulation (7 CFR part 1427) will be submitted to the Office of Management and Budget (OMB) in accordance with the provisions of 44 U.S.C. chapter 35.

Comments are requested with respect to this proposed rule, and such comments shall be considered in developing the final rule. These program provisions must be implemented by August 1, 1991. Accordingly, the public comment period ends on July 1, 1991. This will allow CCC time to consider the coments received before the final determinations are made.

Background

The 1990 Act amended the 1949 Act to provide that, if during the period beginning August 1, 1991, and ending July 31, 1996, CCC determines that the prevailing world market price for upland cotton, adjusted to United States quality and location ("adjusted world price") is less than the current loan repayment rate for a crop of upland cotton and that the cotton loan program and the loan deficiency payment program have failed to make domestically produced upland cotton competitive on the world market, then CCC shall make payments, in the form of comodity certificates to eligible first handlers of upland cotton who have entered into an Upland Cotton First Handler Agreement with CCC to participate in the first handler program. These provisions are similar to provisions which were authorized by the Food Security Act of 1985 (the 1985 Act) applicable for the period August 1, 1986 through July 31, 1991, except in the 1985 Act the authority to issue certificates was limited to certificates which were exchangeable only for extra long staple and upland cotton.

The 1990 Act also amended the 1949 Act by adding new provisions to provide that, if during the period beginning August 1, 1991, and ending July 31, 1996, CCC determined that, for any consecutive 4-week period, the Friday through Thursday average price quotation for the lowest-priced United States growth, as quoted for Middling one and three thirty-seconds inch ("M 1 3/32 inch") cotton, delivered C.I.F. (cost insurance and freight) northern Europe ("U.S. Northern Europe price") exceeds the Friday through Thursday average price quitation for the five lowest-priced growths of the growths quoted for M 1 3/32 inch cotton, delivered C.I.F. northern Europe ("Northern Europe price"), by more than 1.25 cents per pound each week, then CCC shall make payments, in the form of commodity certificates, to eligible domestic users and exporters of upland cotton on documented sales made in the week following such 4-week period.

This proposed rule would amend 7 CFR part 1427 to set forth the terms and conditions of the upland cotton first handler marketing certificate program and the the upland cotton user marketing certificate program. This proposed rule is published separate from other proposed amendments to 7 CFR part 1427 because these amendments focus upon the implementation of the marketing certificate programs whereas the other proposed amendments focus on the cotton loan program. Accordingly, the following provisions are proposed:

A. Implementation of the Upland Cotton First Handler Marketing Certificate Program.

Under this proposed rule, the upland cotton first handler marketing certificate program would be implemented in a manner similar to the first handler certificate program that was implemented for the 1986 crop of upland cotton pursuant to the authority of the 1985 Act, except that certificates made available under this program would be exchangeable for any commodity made available by CCC, whereas, certificates under the 1986 program were exchangeable only for upland cotton and extra long staple cotton.

B. Implementation of the Upland Cotton User Marketing Certificate Program.

Proposed major provisions of the upland cotton user marketing certificate program are:

1. Eligible cotton would be domestically produced upland cotton baled lint, including Below Grade cotton, which is purchased by an eligible domestic user or sold for export by an eligible exporter under a written contract entered into on or after August 1, 1991 and before July 31, 1996, during a Friday through Thursday period in which a payment rate is in effect and which is delivered to the eligible domestic user or exported by the eligible exporter by not later than September 30, 1996, exclusive of new crop cotton for which a written contract was entered into prior to the week in which a Northern Europe forward price for that crop of cotton was available for four consecutive weeks.

2. An eligible domestic user would be anyone, including a producer or approved cooperative marketing association, regularly engaged in purchasing eligible cotton for processing such cotton in the United States, who has entered into an agreement with CCC to participate in the program.

3. An eligible exporter would be anyone, including a producer or an approved cooperative marketing association, regularly engaged in selling eligible cotton for exportation from the United States for processing such cotton outside the United States, who has entered into an agreement with CCC to participate in the program.

4. The payment rate would be based on the amount that the U.S. Northern Europe price exceeds the Northern Europe price by more than 1.25 cents per pound during the fourth week of a consecutive four week period in which the U.S. Northern Europe price exceeded the Northern Europe price each week by more than 1.25 cents per pound. During the period when both current shipment prices and forward shipment prices are available, two payment rates would be determined, one based on the Northern Europe current prices and one based on the Northern Europe forward prices.

5. The payment would be made on documented sales and exports made during the week following the consecutive four week period.

6. The date of the written contract for purchase of the cotton by the domestic user or for sale of the cotton for export by the exporter would be used as the date for determining the payment rate.

7. The weight for payment would be based, for domestic users, on the net weight on which settlement for payment was based and, for exporters, on the original warehouse weight, the ginned weight if the cotton was not placed in a warehouse, or on reweights if the exporter pays the cost of having the bales reweighed.

8. Payment would be made after the cotton is received by the domestic user or after a bill of lading is issued for cotton that is being exported.

9. Payments would be made in the form of commodity certificates which would be exchangeable for any commodity made by CCC.

10. Eligible domestic users and exporters would have to enter into an Upland Cotton Domestic User/Exporter Agreement with CCC in order to participate in the program.

List of Subjects in 7 CFR Part 1427

Cotton, Loan programs (agriculture), Price support programs, Warehouses, Marketing certificate programs.

Accordingly, 7 CFR part 1427 is proposed to be amended as follows:

PART 1427—COTTON

1. The authority citation for 7 CFR part 1427 is revised to read as follows:

Authority: 7 U.S.C. 1421, 1423, 1425, 1444, and 1444–2; 15 U.S.C. 714b and 714c.

2. The subpart heading and text for §§ 1427.50 through 1427.55 are revised and §§ 1427.56 through 1427.58 are added to the subpart as set forth below.

3. Subpart—Upland Cotton Marketing Certificate Program Regulations §§ 1427.100 through 1427.108) is added as follows:

1427.56 Commodity certificates.
1427.57 Payment rate.
1427.58 Payment.

Subpart—Upland Cotton User Marketing Certificate Program Regulations

1427.100 Applicability.

1427.101 Administration.
1427.102 Definitions.
1427.103 Eligible and ineligible upland cotton.
1427.104 Eligible domestic users and exporters.
1427.105 Upland Cotton Domestic User/Exporter Agreement.
1427.106 Commodity certificates.
1427.107 Payment rate.
1427.108 Payment.

* * * * *

Subpart—Upland Cotton First User Marketing Certificate Program Regulations

§ 1427.50 Applicability.

(a) The regulations of this subpart are applicable during the period beginning August 1, 1991, and ending July 31, 1996. These regulations set forth the terms and conditions under which the Commodity Credit Corporation ("CCC") shall make payments, in the form of commodity certificates, to eligible first handlers of upland cotton who have entered into an Upland Cotton First Handler Agreemernt with CCC to participate in the first handler marketing certificate program, in accordance with section 103B(a)(5)(B) of the Agricultural Act of 1949, as amended.

* * * * *

Subpart—Upland Cotton First Handler Marketing Certificate Program Regulations

Sec.
1427.50 Applicability.
1427.51 Administration.
1427.52 Definitions.
1427.53 Eligible upland cotton.
1427.54 Eligible first handlers.
1427.55 Upland cotton first handler agreement.

(b) If, during the period beginning August 1, 1991, and ending July 31, 1996, CCC determines that the adjusted world price for upland cotton determined in accordance with § 1427.25 is less than the loan repayment rate for a crop of upland cotton determined in accordance with § 1427.19(c) and that the cotton loan program implemented in accordance with § 1427.8 and that the loan deficiency payment program implemented in accordance with § 1427.23, have failed to make domestically produced upland cotton competitive on the world market, then CCC shall make payments in accordance with the provisions of this subpart to eligible first handlers of upland cotton.

(c) Additional terms and conditions are set forth in the Upland Cotton First Handler Agreement which must be executed by the first handler in order to receive such payments.

(d) Forms which are used in administering the first handler

marketing certificate program shall be prescribed by CCC.

§ 1427.51 Administration.

(a) The first handler marketing certificate program shall be administered under the general supervision of the Executive Vice President, CCC, or a designee, or Administrator, ASCS, or a designee, and shall be carried out in the field by ASCS's Kansas City Commodity Office (KCCO) and Kansas City Management Office (KCMO).

(b) The KCCO and KCMO, and representatives and employees thereof, do not have the authority to modify or waiver any of the provisions of the regulations of this subpart.

(c) No provision or delegation herein to KCCO or KCMO shall preclude the Executive Vice President, CCC, or a designee, or the Administrator, ASCS, or a designee, from determining any question arising under the program or from reversing or modifying any determination made by KCCO or KCMO.

(d) The Executive Vice President, CCC, or a designee, or the Administrator, ASCS, or a designee, may authorize KCCO or KCMO to waive or modify deadlines and other program requirements in cases where lateness or failure to meet such other requirements do not affect adversely the operation of the first handler marketing certificate program.

(e) A representative of CCC may execute first handler marketing certificate payment applications, Upland Cotton First Handler Agreements and related documented only under the terms and conditions determined and announced by CCC.

(f) Certificate payment applications, Upland Cotton First Handler Agreements and related documents not executed in accordance with the terms and conditions determined and announced by CCC, including any purported execution prior to the date authorized by CCC, shall be null and void.

§ 1427.52 Definitions.

The definitions set forth in this section shall be applicable for all purposes of program administration. The terms defined in § 1427.3 of this part and part 1413 of this chapter shall also be applicable.

Baled lint means cotton which has passed through the ginning process and has been baled.

Loose means samples removed from bales of upland cotton for classification purposes which have been rebaled.

Reprocessed gin motes means cotton waste material primarily resulting from the lint cleaning operation during the ginning process that have had a substantial volume of the non-lint content removed and which have been baled.

§ 1427.53 Eligible upland cotton.

(a) For the purposes of this subpart, eligible upland cotton is domestically produced 1991 or subsequent crop upland cotton which meets the requirements of paragraphs (b) and (c) of this section.

(b) Eligible upland cotton must be either—

(1) Baled lint which is not pledged as collateral for a price support loan;

(2) Baled lint which has been pledged as collateral for a price support loan but which has been redeemed with cash;

(3) Baled lint which has been classified by USDA's Agricultural Marketing Service as Below Grade;

(4) Loose; or

(5) Reprocessed gin motes.

(c) Eligible upland cotton must not be:

(1) Cotton with respect to which a payment, in accordance with the provisions of this subpart, has been made available;

(2) Cotton which was obtained with a commodity certificate in accordance with the provisions of Part 1470 of this chapter; or

(3) Domestically produced cotton which has been exported or which has been exported and reimported.

§ 1427.54 Eligible first handlers.

(a) For the purposes of this subpart, the following persons shall be considered to be eligible first handlers:

(1) A person regularly engaged in buying or selling eligible upland cotton who has entered into an agreement with CCC to participate in the first handler marketing certificate program;

(2) A producer of upland cotton who sells directly to domestic textile mills or for export or who tenders upland cotton on a New York Futures Exchange number 2 contract and who has entered into an agreement with CCC to participate in the first handler marketing certificate program; and

(3) A cooperative marketing association, approved in accordance with part 1425 of this chapter, that acquires the upland cotton production of its members and that has entered into an agreement with CCC to participate in the first handler marketing certificate program.

(b) Applications for payment in accordance with this subpart must contain documentation required by the provisions of the Upland Cotton First Handler Agreement and instructions issued by CCC.

§ 1427.55 Upland cotton first handler agreement.

(a) Payments in accordance with this subpart shall be made available to eligible first handlers who have entered into an Upland Cotton First Handler Agreement with CCC and who have complied with the terms and conditions set forth in this subpart, the Upland Cotton First Handler Agreement and instructions issued by CCC.

(b) Upland Cotton First Handler Agreements may be obtained from Cotton Branch, CRD, Kansas City Commodity Office, P.O. Box 419205, Kansas City, Missouri 64141–6205. In order to participate in the program authorized by this subpart, first handlers must execute the Upland Cotton First Handler Agreement and forward an original and two copies to KCCO.

§ 1427.56 Commodity certificates.

Payments in accordance with this subpart shall be made available in the form of commodity certificates issued in accordance with part 1470 of this chapter.

§ 1427.57 Payment rate.

The payment rate for the purposes of calculating payments made available in accordance with this subpart shall be based upon the difference between the adjusted world price for upland cotton determined in accordance with § 1427.25 and the loan repayment rate determined in accordance with § 1427.10 and the Upland Cotton First Handler Agreement. A coarse count adjustment shall be applied in accordance with § 1427.25(f) and the Upland Cotton First Handler Agreement. Payment rates for eligible cotton other than upland cotton baled lint shall be based on a percentage of the basic rate for baled lint, exclusive of coarse count adjustment, as specified in the Upland Cotton First Handler Agreement.

§ 1427.58 Payment.

(a) Payments in accordance with this subpart shall be determined by multiplying:

(1) The payment rate, determined in accordance with § 1427.57, by

(2) The net weight (gross weight minus the weight of bagging and ties), determined as specified in the Upland Cotton First Handler Agreement, of eligible upland cotton that is purchased by an eligible first handler for either domestic consumption or export during a period in which a payment rate is established.

(b) Eligible upland cotton will be considered to be purchased by the first handler on the date title to the cotton passes to the first handler, as determined by CCC.

(c) Payments in accordance with this subpart shall be made available upon application for payment and submission of supporting documentation, as required by the provisions of the Upland Cotton First Handler Agreement and instructions issued by CCC.

Subpart—Upland Cotton User Marketing Certificate Program Regulations

§ 1427.100 Applicability.

(a) The regulations of this subpart are applicable during the period beginning August 1, 1991 and ending July 31, 1996. These regulations set forth the terms and conditions under which the Commodity Credit Corporation ("CCC") shall make payments, in the form of commodity certificates ("certificates") to eligible domestic users and exporters of upland cotton who have entered into an Upland Cotton Domestic User/Exporter Agreement with CCC to participate in the upland cotton user marketing certificate program in accordance with section 103B(a)(5)(B) of the Agricultural Act of 1949, as amended.

(b) If, during the period beginning August 1, 1991, and ending July 31, 1996, CCC determines that, for any consecutive 4-week period, the Friday through Thursday average price quotation for the lowest-priced United States growth, as quoted for Middling one and three thirty-seconds inch ("M 1–3/32 inch") cotton, delivered C.I.F. (cost, insurance and freight) northern Europe ("U.S. Northern Europe price") exceeds the Friday through Thursday average price quotation for the five lowest-priced growths, as quoted for M 1–3/32 inch cotton, delivered C.I.F. northern Europe ("Northern Europe price") by more than 1.25 cents per pound, then CCC shall make payments in accordance with the provisions of this subpart to eligible domestic users and exporters of upland cotton.

(c) Additional terms and conditions are set forth in the Upland Cotton Domestic User/Exporter Agreement which must be executed by the domestic user or exporter in order to receive such payments.

(d) Forms which are used in administering the upland cotton user marketing certificate program shall be prescribed by CCC.

§ 1427.101 Administration.

(a) The upland cotton user marketing certificate program shall be administered under the general supervision of the Executive Vice President, CCC, or a designee, or Administrator, ASCS or a designee, and shall be carried out in the field by ASCS's Kansas City Commodity Office (KCCO) and Kansas City Management Office (KCMO).

(b) The KCCO and KCMO, and representatives and employees thereof, do not have the authority to modify or waive any of the provisions of the regulations of this subpart.

(c) No provision or delegation herein to KCCO or KCMO shall preclude the Executive Vice President, CCC, or a designee, or the Administrator, ASCS, or a designee, from determining any question arising under the program or from reversing or modifying any determination made by KCCO or KCMO.

(d) The Executive Vice President, CCC, or a designee, or the Administrator, ASCS, or a designee, may authorize KCCO or KCMO to waive or modify deadlines and other program requirements in cases where lateness or failure to meet such other requirements do not affect adversely the operation of the upland cotton user marketing certificate program.

(e) A representative of CCC may execute upland cotton user marketing certificate payment applications, Upland Cotton Domestic User/Exporter Agreements and related documents only under the terms and conditions determined and announced by CCC.

(f) Certificate payment applications, Upland Cotton Domestic User/Exporter Agreements and related documents not executed in accordance with the terms and conditions determined and announced by CCC, including any purported execution prior to the date authorized by CCC, shall be null and void.

§ 1427.102 Definitions.

The definitions set forth in this section shall be applicable for all purposes of program administration. The terms defined in sections 1427.3 and 1427.52 of this part and part 1413 of this chapter shall also be applicable.

Current shipment price means, during the period in which two daily price quotations are available for the growths quoted for Middling one and three thirty-seconds inch cotton ("M 1–3/32"), C.I.F. (cost, insurance and freight) northern Europe, the price quotation for cotton for shipment no later than August/September of the current calendar year.

Forward shipment price means, during the period in which two daily price quotations are available for the growths quoted for M 1–3/32 inch cotton, C.I.F. northern Europe, the price quotation for cotton for shipment no earlier than October/November of the current calendar year.

New crop cotton means upland cotton planted during the calendar year that includes the August 1 that begins the next marketing year.

Northern Europe current price means the average of the current shipment prices for the preceding Friday through Thursday for the five lowest-priced growths of the growths quoted for M 1–3/32 inch cotton, C.I.F. northern Europe.

Northern Europe forward price means the average of the forward shipment prices for the preceding Friday through Thursday for the five lowest-priced growths of the growths quoted for M 1 3/32 inch cotton, C.I.F. northern Europe.

Northern Europe price means, during the period when only one daily price quotation is available for the growths quoted for M 1 3/32 inch cotton, C.I.F. northern Europe, the average of the quotations for the preceding Friday through Thursday for the five lowest-priced growths of the growths quoted for M 1 3/32 inch cotton, C.I.F. northern Europe.

Old crop cotton means upland cotton planted during or prior to the calendar year that includes the August 1 that begins the current marketing year, but planted no earlier than January 1, 1991.

U.S. Northern Europe current price means the average for the preceding Friday through Thursday of the current shipment prices for the lowest-priced United States growth as quoted for M 1 3/32 inch cotton, C.I.F. northern Europe.

U.S. Northern Europe forward price means the average for the preceding Friday through Thursday of the forward shipment prices for the lowest-priced United States growth as quoted for M 1 3/32 inch cotton, C.I.F. northern Europe.

U.S. Northern Europe price means, during the period when only one daily price quotation is available for the United States growths quoted for M 1 3/32 inch cotton, C.I.F. northern Europe, the average for the preceding Friday through Thursday of the lowest-priced United States growth as quoted for M 1 3/32 inch cotton, C.I.F. northern Europe.

§ 1427.103 Eligible and ineligible upland cotton.

(a) For the purposes of this subpart, eligible upland cotton is domestically produced upland cotton baled lint, including baled lint classified by USDA's Agricultural Marketing Service as Below Grade, which is purchased by an eligible domestic user or sold for

VOL
56

18
1991
UMI

export by an eligible exporter under a written contract entered into on or after August 1 1991 and on or before July 31, 1996, during a Friday through Thursday period in which a payment rate, determined in accordance with § 1427.107, is in effect and which is delivered to the eligible domestic user or exported by the eligible exporter by not later than September 30, 1996.

(b) For the purposes of this subpart, ineligible upland cotton is:

(1) Cotton for which a written contract for purchase or sale was entered into prior to the week in which a Northern Europe forward price for new crop cotton was available for four consecutive weeks;

(2) Cotton with respect to which a payment, in accordance with the provisions of this subpart, has been made available;

(3) Loose;

(4) Reprocessed gin motes; and

(5) Imported cotton.

§ 1427.104 Eligible domestic users and exporters.

(a) For the purposes of this subpart, the following persons, including producers or cooperative marketing associations approved in accordance with part 1425 of this chapter, shall be considered to be eligible domestic users and exporters of upland cotton:

(1) A person regularly engaged in purchasing eligible upland cotton for processing such cotton in the United States ("domestic user"), who has entered into an agreement with CCC to participate in the upland cotton user marketing certificate program; or

(2) A person regularly engaged in selling eligible upland cotton for exportation from the United States for processing such cotton outside the United States ("exporter"), who has entered into an agreement with CCC to participate in the upland cotton user marketing certificate program.

(b) Applications for payment in accordance with this subpart must contain documentation required by the provisions of the Upland Cotton Domestic User/Exporter Agreement and instructions issued by CCC.

§ 1427.105 Upland Cotton Domestic User/Exporter Agreement.

(a) Payments in accordance with this subpart shall be made available to eligible domestic users and exporters who have entered into an Upland Cotton Domestic User/Exporter Agreement with CCC and who have complied with the terms and conditions set forth in this subpart, the Upland Cotton Domestic User/Exporter Agreement and instructions issued by CCC.

(b) Upland Cotton Domestic User/Exporter Agreements may be obtained from Cotton Branch, CRD, Kansas City Commodity Office, P.O. Box 419205, Kansas City, Missouri 64141-6205. In order to participate in the program authorized in this subpart, domestic users and exporters must execute the Upland Cotton Domestic User/Exporter Agreement and forward an original and two copies to KCCO.

§ 1427.106 Commodity certificates.

Payments in accordance with this subpart shall be made available in the form of commodity certificates issued in accordance with part 1470 of this chapter.

§ 1427.107 Payment rate.

(a) For contracts for upland cotton purchased by domestic mills or sold for export by exporters entered into on or after August 1, 1991, and on or before July 31, 1996, the payment rate for the purposes of calculating payments made available in accordance with this subpart shall be determined by CCC as follows:

(1) During the period when only the Northern Europe price is available:

(i) For contracts for purchase or sale of upland cotton entered into between August 1 of the calendar year in which the crop was planted and the day prior to the day on which the Northern Europe current price and the Northern Europe forward price first become available which specify delivery of old crop cotton by not later than September 30 of the year following the year in which the crop was planted, the payment rate shall be the difference in the fourth week between the U.S. Northern Europe price minus 1.25 cents per pound, and the Northern Europe price. If the upland cotton contracted for purchase or sale which was actually delivered was new crop cotton, the payment rate shall be zero.

(ii) For contracts for purchase or sale of upland cotton that specify delivery of new crop cotton, the payment rate shall be zero.

(2) During a period when both the Northern Europe current price and the Northern Europe forward price are available and the Northern Europe current price and the Northern Europe forward price have been available for four consecutive weeks:

(i) For contracts for purchase or sale of upland cotton which specify delivery of old crop cotton by not later than September 30 of the year following the year in which the crop was planted, the payment rate shall be the difference in the fourth week between the U.S. Northern Europe current price minus 1.25 cents per pound, and the Northern Europe current price.

(ii) For contracts for purchase or sale of upland cotton which specify delivery of old crop cotton after September 30 of the year following the year in which the crop was planted, the payment rate shall be the difference in the fourth week between the U.S. Northern Europe forward price minus 1.25 cents per pound, and the Northern Europe forward price.

(iii) For contracts for purchase or sale of upland cotton which specify delivery of new crop cotton, the payment rate shall be the difference in the fourth week between the U.S. Northern Europe forward price minus 1.25 cents per pound, and the Northern Europe forward price.

(iv) If the upland cotton contracted for purchase or sale in accordance with paragraphs (a)(2)(i) through (a)(2)(iii) which was actually delivered was not produced in the same crop year as specified in the contract, the payment rate for such cotton shall be:

(A) For contracts entered into in accordance with paragraph (a)(2)(i), the lesser of the payment rate established in paragraph (a)(2)(i), or the difference in the fourth week of the comparable period between the U.S. Northern Europe forward price minus 1.25 cents per pound, and the Northern Europe forward price.

(B) For contracts entered into in accordance with paragraph (a)(2)(ii), the lesser of the payment rate established in paragraph (a)(2)(ii), or the difference in the fourth week of the comparable period between the U.S. Northern Europe current price minus 1.25 cents per pound, and the Northern Europe current price.

(C) For contracts entered into in accordance with paragraph (a)(2)(iii), the lesser of the payment rate established in paragraph (a)(2)(iii), or the difference in the fourth week of the comparable period between the U.S. Northern Europe current price minus 1.25 cents per pound, and the Northern Europe current price.

(b) Notwithstanding the provisions in paragraph (a), whenever a 4-week period contains a combination of Northern Europe prices only for one to three weeks and Northern Europe current prices and Northern Europe forward prices only for one to three weeks such as occurs in the spring when the Northern Europe price is succeeded by the Northern Europe current price and the Northern Europe forward price ("spring transition period"), and at the start of a new marketing year when the Northern Europe current price and the Northern Europe forward price are succeeded by the Northern Europe price ("marketing year transition"):

(1) In the case of the spring transition period, the Northern Europe current price and the U.S. Northern Europe current price in combination with the Northern Europe price and the U.S. Northern Europe price shall be taken into consideration during such 4-week periods to determine whether a payment is triggered. The Northern Europe current price and the U.S. Northern Europe current price in the fourth week shall be used to establish the payment rate.

(2) In the case of the marketing year transition period, the Northern Europe forward price and the U.S. Northern Europe forward price in combination with the Northern Europe price and the U.S. Northern Europe price shall be taken into consideration during such 4-week periods to determine whether a payment is triggered. The Northern Europe price and the U.S. Northern Europe price in the fourth week shall be used to establish the payment rate.

(c) Notwithstanding the requirements of this section, with respect to contracts for purchase or sale that specify delivery of the cotton by not later than September 30 of the applicable year, the domestic user or exporter has until October 31 of such year to complete the delivery to the domestic user or to export the cotton. If the delivery or exportation is not completed by October 31, the cotton will be ineligible for payment.

(d) For the purposes of this subpart—

(1) With respect to the determination of the U.S. Northern Europe price, the U.S. Northern Europe current price, the U.S. Northern Europe forward price, the Northern Europe price, the Northern Europe current price and the Northern Europe forward price—

(i) If daily quotes are not available for one or more days of the 5-day period, the available quotes during the period will be used.

(ii) If no daily quotes are available for the entire 5-day period for either or both the U.S. Northern Europe price and the Northern Europe price during the period when only one daily price quotation is available for each growth quoted for M 1 3/32 inch cotton, delivered C.I.F. northern Europe; or the U.S. Northern Europe current price and the Northern Europe current price; or the U.S. Northern Europe forward price and the Northern Europe forward price, that week will not be taken into consideration, in which case no payment rate shall be established.

(2) With respect to the determination of the U.S. Northern Europe price, U.S. Northern Europe current price, and the U.S. Northern Europe forward price, if a quote for either the U.S. Memphis territory or the California/Arizona territory as quoted for M 1 3/32 inch cotton, delivered C.I.F. northern Europe, is not available for each or any day of the 5-day period, the available quote will be used.

§ 1427.108 Payment.

(a) Payments in accordance with this subpart shall be determined by multiplying:

(1) The payment rate, determined in accordance with § 1427.107, by

(2) The net weight (gross weight minus the weight of bagging and ties) determined in accordance with paragraph (b) of this section, of eligible upland cotton that is purchased by an eligible domestic user or sold by an eligible exporter for exportation from the United States during the Friday through Thursday period following a week in which a payment rate is established.

(b) For the purposes of this subpart, the net weight shall be determined based upon:

(1) For domestic users, the weight on which settlement for payment was based ("landed mill weight");

(2) For exporters, the original warehouse weight or the ginned weight if the cotton was no placed in a warehouse, of the eligible cotton unless the exporter obtains and pays the cost of having all the bales in the shipment reweighed by a licensed weigher and furnishes a copy of the certified reweights.

(c) For the purposes of this subpart, eligible upland cotton will be considered purchased by the domestic user or sold by the exporter on the date the contract for purchase or sale is confirmed in writing.

(d) Payments in accordance with this subpart shall be available upon application for payment and submission of supporting documentation, including proof of receipt of the eligible cotton by the domestic user or proof of export by the exporter, as required by the provisions of the Upland Cotton Domestic User/Exporter Agreement and instructions issued by CCC.

Signed at Washington, DC on June 13, 1991.

Keith D. Bjerke,

Executive Vice President Commodity Credit Corporation.

[INTL-0870-89]

RIN 1545-AO24

Earnings Stripping (Section 163(j))

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed Income Tax Regulations relating to section 163(j) of the Internal Revenue Code, regarding "earnings stripping." This action is necessary because of changes to the applicable tax law made by the Omnibus Budget Reconciliation Act of 1989, Public Law 101-239, 103 Stat. 2106.

DATES: Written comments must be received by August 19, 1991. Requests to speak at a public hearing (with outlines of oral comments) scheduled for September 25, 1991, must be received by September 4, 1991. See notice of hearing published elsewhere in this issue of the Federal Register.

ADDRESSES: Send comments, requests to appear at the public hearing, and outlines of comments to be presented, to: Internal Revenue Service, P.O. Box 7604, Ben Franklin Station, attention: CC:CORP:T:R (INTL-0870-89), room 5228, Washington, DC 20044.

FOR FURTHER INFORMATION CONTACT: Concerning the regulation generally, phone Jack Feldman, at (202) 566-6645, or Jeffrey Vinnik, at (202) 566-6442; concerning § 1.163(j)-6, phone Elizabeth Karzon, at (202) 566-6442 (not toll-free calls), or write to the Office of Associate Chief Counsel (International), within the Office of Chief Counsel, Internal Revenue Service, P.O. Box 7604, Ben Franklin Station, attention: CC:CORP:T:R (INTL-0870-89), Washington, DC 20044. Concerning the hearing, phone Felicia Daniels, Regulations Unit, at (202) 566-3935 (not a toll-free call).

SUPPLEMENTARY INFORMATION:

Paperwork Reduction Act

The collection of information contained in this notice of proposed rulemaking has been submitted to the Office of Management and Budget for review in accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. 3504(h)). Comments on the collection of information should be sent to the Office of Management and Budget, attn: Desk Officer for the

VOL 56 ISS 117 JE 18 1991 UMI

Department of the Treasury, Office of Information and Regulatory Affairs, Washington, DC 20503, with copies to the Internal Revenue Service, attn: IRS Reports Clearance Officer T:FP, Washington, DC 20224.

The collection of information in these regulations is in § 1.163(j)–5(d). This information is required by the Internal Revenue Service to verify elections made by the taxpayer. The likely respondents are businesses or for profit institutions.

These estimates are an approximation of the average time expected to be necessary for a collection of information. They are based on information is available to the Internal Revenue Service. Individual respondents may require greater or less time, depending on their particular circumstances.

Estimated total annual reporting burden: 1,196 hours.

The estimated annual burden per respondent varies from 20 minutes to 40 minutes, depending on individual circumstances, with an estimated average of .52 hours.

Estimated number of respondents: 2,300.

Estimated annual frequency of responses: 1.

Background

This document contains proposed amendments to the Income Tax Regulations (26 CFR part 1) under section 163(j) of the Internal Revenue Code.

Explanation of Provisions

Section 163(j) was added to the Internal Revenue Code of 1986 by the Omnibus Budget Reconciliation Act of 1989, Public Law 101–239, 103 Stat. 2106, to prevent erosion of the U.S. base by means of excessive deductions for interest paid by a taxable corporation to a tax exempt (or partially tax exempt) related person. The payment of excessive deductible interest that is tax exempt (or partially tax exempt) in the hands of a related person is referred to as "earnings stripping." These proposed regulations implement section 163(j) as follows.

Section 1.163(j)–1

Section 1.163(j)–1(a) provides the primary operative rule that no deduction shall be allowed for interest expense paid or accrued directly or indirectly by a corporation to a related person if no tax is imposed with respect to such interest. The disallowance rules do not apply if the payor corporation is either an S corporation or a foreign corporation (except as provided under § 1.163(j)–6, relating to foreign corporations with effectively connected income). Paragraph (a)(2) provides that the amount of disallowed interest expense (the year's disallowed interest expense) is limited to the lesser of exempt related person interest expense (defined in paragraph (a) of § 1.163(j)–2) or excess interest expense (defined in paragraph (b) of § 1.163(j)–2). Paragraph (a)(3) provides that interest expense disallowed in a taxable year is carried forward to succeeding taxable years as disallowed interest expense carryforwards.

Paragraph (b) provides that, in addition to the limitation on disallowance provided under paragraph (a)(2), a deduction for exempt related person interest expense shall not be disallowed for any taxable year in which the debt-equity ratio of the payor corporation is less than or equal to 1.5 to 1 determined on the last day of that year. Although section 163(j)(2)(A)(ii) grants the Service the authority to determine the debt-equity ratio more frequently than annually, a more frequent determination was not adopted because many taxpayers might have difficulty in obtaining the required information prior to the close of their taxable years. However, to prevent possible manipulation of a strictly annual determination of the debt equity ratio, paragraphs (b)(4) and (c)(5) of § 1.163(j)–3 provide anti-avoidance rules.

Paragraph (c) provides that disallowed interest expense carryforward is allowable in the carryforward year only to the extent of any excess limitation for that year as defined in § 1.163(j)–2(c). In determining whether a deduction is allowed in a carryforward year for disallowed interest expense carryforward, the payor corporation's debt-equity ratio in such year is not relevant.

Paragraph (d) provides rules for the carryforward of excess limitation. Excess limitation is carried forward to each of the three succeeding taxable years and reduces (and is also reduced by) excess interest expense in a carryforward year without regard to whether the payor corporation has exempt related person interest expense or whether the payor corporation satisfies the debt-equity ratio safe harbor test in a carryforward year. Pre-effective date notional excess limitation may be carried forward to post-effective date taxable years in certain cases, as provided under § 1.163(j)–10(c).

Paragraph (e) provides that the disallowance of interest under section 163(j) does not affect the payor corporation's determination of earnings and profits.

Paragraph (f) provides a general anti abuse rule to prevent the avoidance of section 163(j) and these regulations.

Section 1.163(j)–2

Section 1.163(j)–2 provides definitions. Paragraph (a) defines "exempt related person interest expense" as interest paid or accrued by a corporation described in § 1.163(j)–1 to a related person (as defined in paragraph (g)) if no tax is imposed on such interest under the rules of § 1.163(j)–4. Paragraph (b) defines "excess interest expense" as the excess of the payor corporation's net interest expense over 50 percent of its adjusted taxable income plus the amount of any excess limitation carryforward. Paragraph (c) defines "excess limitation" as the excess of 50 percent of a corporation's adjusted taxable income over its net interest expense. Paragraph (d) defines "net interest expense" as the excess of a corporation's interest expense over its interest income for the taxable year. Net interest expense is computed without regard to any disallowed interest expense carryforward.

Paragraph (e) provides rules for the determination of interest income and expense, including rules dealing with the treatment of bond premium and market discount and rules for determining the interest income and expense of a corporate partner in a partnership. Under these rules, a corporate partner is treated as the payor of its share of the partnership's interest expense. The Internal Revenue Service plans to publish rules which treat interest equivalents as interest for purposes of section 163(j) and solicits comments regarding the scope and operation of such rules. These rules will generally be prospective with respect to transactions entered into in the ordinary course of business. However, in the case of transactions entered into with a purpose of avoiding section 163(j), the rules regarding interest equivalents may be retroactive.

Paragraph (e) also contains an anti-avoidance rule providing that certain substitute payments under section 1058 will be treated as interest expense.

Paragraph (f) defines adjusted taxable income as taxable income computed without regard to carryforwards and disallowances under section 163(j) and with certain adjustments. Some of these adjustments are stipulated in section 163(j); others have been added pursuant to regulatory authority granted by section 163(j)(6)(A)(ii). In general, the purpose of these adjustments is to modify taxable income to more closely reflect the cash flow of the corporation. Thus, for example, paragraph (f) provides for an addback of interest excluded from gross income under section 103, since such amounts increase cash available to the payor corporation. Similarly, cash expended with respect to amounts which are permanently disallowed as deductions under sections 265 and 279 are subtracted under paragraph (f) in computing adjusted taxable income, since such expenditures have reduced the amount of available cash to service loans. Paragraph (f)(4) provides special rules dealing with the effect of an adjusted taxable loss on other computations required by these regulations.

Except as provided in § 1.163(j)–6, only the adjustments prescribed in paragraph (f) shall be made in determining adjusted taxable income. The Service, however, solicits comments on whether particular adjustments should either be added to, or deleted from, paragraph (f). Such comments should address, among other issues, the administrative burden of the proposed rules and any suggested revisions.

Under paragraph (g)(1), a related person is defined as a person related to the taxpayer within the meaning of section 267(b) or 707(b)(1). For this purpose, the attribution rules of section 267(c) apply. In determining whether persons are related, the substance of ownership, rather than its form, controls. Under paragraph (g)(3), the date for testing relatedness is the date upon which an item of interest expense accrues. Thus, changes in the relationship between the payor corporation and the payee after the accrual date are irrelevant. The daily accrual rule of section 1272(a) applies, regardless of the taxpayer's method of accounting. Paragraph (g)(4) provides special rules for certain partnerships regarding relatedness.

Section 1.163(j)–3

Section 1.163(j)–3 provides rules for the computation of the debt-equity ratio. Debt is determined under paragraph (b)(1) in accordance with generally applicable tax principles. Thus, in general, a contingent liability for financial accounting purposes that has not accrued for tax purposes will not be treated as a liability for purposes of section 163(j). Paragraph (b)(1) also has special rules for discount obligations consistent with section 163(j)(2)(C)(ii). Paragraph (b)(2)(i) provides a limited exclusion from debt for certain short term liabilities, and paragraph (b)(2)(ii) provides a similar exclusion for commercial financing liabilities.

Paragraph (b)(3) provides that liabilities incurred by a partnership are treated as incurred by each partner in accordance with the rules of section 752. Paragraph (b)(4) provides an anti-rollover rule to prevent abuse by a corporation of the year-end determination of the debt-equity ratio.

Equity is defined under paragraph (c)(1) as the sum of money and the adjusted basis of assets (determined according to generally applicable tax principles) reduced, but not below zero, by the corporation's debt. Paragraph (c)(2) provides for adjustments to be made to the basis of stock in certain nonincludible corporations based on the principles of section 864(e)(4). Under paragraph (c)(3), assets are reduced by the amount of short term liabilities excluded from debt under paragraph (b)(2). Paragraph (c)(4) provides that in determining the assets of a corporation that owns an interest in a partnership, the partner shall treat the adjusted basis of its partnership interest as an asset. Paragraph (c)(5) provides a general anti-avoidance rule, plus an anti-stuffing rule to prevent possible abuse by a corporation of the year-end determination of debt-equity ratio.

Paragraph (d) provides that the spot rate on the last day of the taxable year is used to translate the debt and equity of a qualified business unit with a non-dollar functional currency.

Comments are solicited with respect to determining the debt and assets of financial institutions and insurance companies, including the effect of reserves on such determinations.

Section 1.163(j)–4

Section 1.163(j)–4 provides rules addressing whether interest paid or accrued is subject to U.S. tax. Paragraph (a) states the general rule that interest paid or accrued by a corporation is not subject to tax for purposes of section 163(j) if no U.S. tax is imposed under subtitle A of the Internal Revenue Code or if U.S. tax is reduced under a treaty. Paragraph (b) provides that income subject to U.S. tax at a reduced rate under a treaty will be treated in part as interest subject to tax and in part as tax-exempt interest.

Paragraph (c) provides that the determination as to whether interest is subject to U.S. tax is made on the date the interest is received or accrued by the payee, whichever is relevant for purposes of taxing the payee.

Paragraph (d) provides rules under which certain interest paid to special entities, including controlled foreign corporations ("CFCs"), passive foreign investment companies ("PFICs"), foreign personal holding companies, and DISCs, is treated as subject to U.S. tax. See H.R. Rep. No. 247, 101st Cong., 1st Sess. 1240, 1244 (1989) (hereafter, "House Report"). Paragraph (d)(1) generally provides that interest paid or accrued to a CFC is treated as subject to U.S. tax to the extent that such interest is included in the CFC's net foreign personal holding company income under § 1.954–1T(c) and results in an inclusion in the gross income of a U.S. shareholder under section 951(a)(1)(A)(i). A similar rule is provided for foreign personal holding companies in paragraph (d)(3). Interest paid or accrued to a PFIC that is not a CFC, with respect to which a QEF election has been made by a U.S. shareholder, is treated as subject to U.S. tax to the extent that such interest is included in the QEF's ordinary earnings and results in an inclusion in such shareholder's income under section 1293(a)(1)(A). Producer's loan interest that is treated as a deemed distribution to a DISC's shareholder under section 995(b)(1)(A) also is treated as subject to U.S. tax.

Section 1.163(j)–5

Section 1.163(j)–5 implements the directive of section 163(j)(6)(C) that all members of the same affiliated group be treated as one taxpayer. In order to implement this directive, the basic rules of these regulations have been modified as necessary to carry out the purposes of section 163(j). See section 163(j)(7) (A) and (B).

Section 1.163(j)–5(b) applies the rules of section 163(j) (other than the debt-equity ratio computations discussed below) to consolidated groups. For this purpose, all of the members of the consolidated group make the computations required by section 163(j) and these regulations on a consolidated basis. If a corporation ceases to be a member of the consolidated group, any disallowed interest expense carryforward of the group is apportioned to the member based on the ratio of the member's exempt related person interest expense to the group's exempt related person interest expense. However, corporations ceasing to be members of the group generally may not carry forward any portion of the group's excess limitation carryforward to separate return years.

Section 1.163(j)–5(c) provides comparable rules applicable to other affiliated groups. For this purpose, section 1.163(j)–5(a)(3) expands the definition of affiliated groups under section 1504(a) by applying the attribution rules of section 318 to determine stock ownership. Thus, an affiliated group under these rules may

VOL 56 ISS 117 JE 18 1991 UMI

include a consolidated group, and the consolidated group is treated as a single member of the affiliated group for purposes of making computations for the affiliated group. Section 1.163(j)–5(c) requires each group member to take into account the relevant items of income, expense, and carryover of all group members. If members of an affiliated group have different taxable years, then the computations required by section 163(j) are separately determined for each member on an affiliated group basis by aggregating the relevant items for all group members whose taxable years end with or within the taxable year of the member making the computations.

Section 1.163(j)–5(c)(2) provides a four step process for making the affiliated group computations and for allocating amounts among group members. The four step process is necessary because the group members do not all join in filing the same return.

Section 1.163(j)–5(d) generally provides that for purposes of applying the debt-equity ratio safe harbor test described in § 1.163(j)–1(b), the debt-equity ratio of a corporation that is a member of an affiliated group (whether or not a consolidated group) is determined by aggregating the separately determined debt and assets of the members (adjusted as described in paragraphs (d)(2) and (d)(3)). Debt and assets arising from certain interaffiliate transactions are disregarded.

Section 163(j)–5(e) provides special rules that address distortions in the debt-equity ratio that may arise in a qualified stock purchase, as defined in section 338(d)(3), if no election is made to step up the basis of the assets of the target corporation and its affiliates. (This distortion may arise because the affiliated group rules of section 163(j) look through to the underlying assets of an acquired corporation rather than its stock basis.) If the purchasing corporation so elects, the special rules of § 1.163(j)–5(e) look to the adjusted basis of the target's stock (adjusted for liabilities) and amortize these amounts (the "special basis") over a fixed period. At the end of any taxable year, a taxpayer may elect out of the fixed stock write-off method and use the adjusted basis of the assets of the target corporation in determining the group's debt-equity ratio.

The Service recognizes the complexity of the affiliated group rules in § 1.163(j)–5 and solicits comments on how these rules might be improved, simplified or clarified, whether in the context of consolidated groups or otherwise. Comments are also solicited as to whether, under what circumstances, and to what extent it might be appropriate to extend the fixed stock write-off method to nontaxable acquisitions of stock or assets. Finally, the Service is considering whether and how to impose a conformity requirement under paragraph (e) of this section that would prevent a group from selectively applying the fixed stock write-off method only when the purchase price of a target company exceeds the target's basis in its assets. The Service solicits comments on the appropriateness of such a rule, and on how such a rule might be implemented.

Section 1.163(j)–6

This section limits the carryover of certain tax attributes by corporations which join consolidated groups or affiliated groups (as defined in § 1.163(j)–5(a)), as well as with respect to transactions described in section 381(a).

Paragraph (a) limits the use of disallowed interest expense carried forward from non-affiliation years by corporations joining a group or that transfer or distribute their assets in a transaction described in section 381(a). The only restriction under these regulations on the use of such disallowed interest expense is with respect to the use of non-affiliation year excess limitation carryforward to absorb the disallowed interest expense. The same limitation applies with respect to corporations joining groups, whether the groups are consolidated groups or affiliated groups. See §§ 1.163(j)–5(b) (relating to consolidated groups) and (c) (relating to other affiliated groups). Where there is a section 382 ownership change, the disallowed interest expense carryforward may be limited by the section 382 limitation. In addition, the deductibility of a corporation's disallowed interest expense carried forward to a taxable year after it joins a consolidated group may be limited by the separate return limitation year rules under § 1.1502–15.

Paragraph (b)(1) limits the use of excess limitation carried forward from non-affiliation years by corporations joining a group. The limitation is similar to the limitation on the carryover of net operating losses under the "SRLY" rules of § 1.1502–21(c) (i.e., generally such carryforward may be used by the corporation to the extent that it would have been available for use had no affiliation occurred). If a consolidated group acquires another group, whether or not consolidated, the amount of the acquired group's excess limitation carryforward (if any) from non-affiliation years that may be used by the consolidated group is determined by treating the former members of the acquired group as a single member of the acquiring group. Computations with respect to the acquired group are made under § 1.163(j)–5(c), and the results of these computations are taken into account by the group under § 1.163(j)–5(b).

Paragraph (b)(2) provides that a corporation's excess limitation carryforward from a non-affiliation year is reduced to zero immediately after a transfer or distribution of its assets in a transaction described in section 381(a) (other than a transaction described in section 368(a)(1)(F)). Paragraph (b)(3) provides an anti-abuse rule. Paragraphs (c) and (d) provide definitions and anti-duplication rules.

The Service recognizes the complexity of the affiliated group rules and solicits comments on how these rules might be improved, simplified or clarified, whether in the context of consolidated groups or otherwise.

Section 1.163(j)–7

This section addresses the interaction of section 163(j) and certain other Code provisions. Paragraph (a) provides that interest expense is not considered paid or accrued for purposes of section 163(j) until such interest would be deductible but for such section.

Paragraph (b) addresses other Code provisions which permanently disallow interest, which defer the deductibility of interest, or which limit the deductibility of certain deductions including interest, specifically the "at risk" rules under section 465 and the passive activity loss rules under section 469. In each of these cases, section 163(j) is applied after the application of such provisions. Thus, section 163(j) will not apply to interest expense which is permanently disallowed as a deduction under provisions such as sections 265 and 279. Where the deductibility of interest expense is deferred as under sections 163(e)(3) and 267(a)(3), section 163(j) will not apply until a deduction for such interest expense is otherwise allowable. Similarly, sections 465 and 469 are applied before section 163(j) to disallow interest expense. Once section 163(j) is applied, section 469 is not reapplied.

Paragraph (b)(4) addresses the interaction of section 163(j) and Code provisions relating to the capitalization of certain interest expense. Under this paragraph, the capitalization rules are applied before section 163(j). For all purposes under section 163(j), capitalized interest is not treated as interest expense. It is anticipated that regulations to be issued under section 263A(f) will provide: (1) That exempt related person interest expense which is attributable to traced debt will be capitalized; and (2) with respect to interest expense that is not attributable to traced debt, interest expense that is not exempt related person interest expense will be capitalized before interest expense that is exempt related person interest expense.

The Service proposes to adopt these rules for capitalized interest, notwithstanding the legislative history of section 163(j) (see House Report at 1244), because it believes that other approaches would require substantial additional complexity. The Service will revisit this decision if it believes that the proposed rule gives rise to significant tax avoidance.

Paragraph (b)(5) provides that section 246A is applied before section 163(j). Any reduction in the dividends received deduction under section 246A reduces interest expense taken into account under section 163(j).

Section 1.163(j)–8

This section concerns the application of section 163(j) to foreign corporations that have incomes gain, or loss that is effectively connected, or deemed effectively connected, with the conduct of a U.S. trade or business. A foreign corporation is permitted to allocate a portion of its worldwide interest expense to the effectively connected income of its U.S. trade or business. This section disallows the exempt related person interest expense of a foreign corporation based on the same principles that apply to disallow a domestic corporation's exempt related person interest expense. To determine if interest allocated to the effectively connected income of the U.S. trade or business is paid to an exempt related person, the rules of section 884(f) apply. Thus, interest paid by the U.S. trade or business (within the meaning of section 884(f)(1)(A)) is treated as paid directly to the recipient of the interest, and will be treated as paid to a related person if the recipient is related to the foreign corporation. Excess interest (within the meaning of section 884(f)(1)(B)) is treated as paid by a wholly owned domestic subsidiary of the foreign corporation to the foreign corporation, and hence is treated as paid to a related person. Additional rules provide that this section does not affect the computation of a foreign corporation's effectively connected earnings and profits or U.S. net equity for purposes of section 884.

Section 1.163(j)–9

The Service expects to publish regulations addressing guarantees in the near future. The rules with respect to guarantees will be prospective. Nonetheless, in cases presenting fact patterns similar to that described in *Plantation Patterns, Inc.* v. *Commissioner*, 462 F.2d 712 (5th Cir.), *cert. denied*, 409 U.S. 1076 (1972), the Service will continue to seek to characterize purported guaranteed debt as equity. The Service's position on back-to-back loans is set forth in revenue rulings including Rev. Rul. 84–152, 1984–2 C.B. 381, Rev. Rul. 84–153, 1984–2 C.B. 383, and Rev. Rul. 87–89, 1989–2 C.B. 195.

Comments are solicited on rules regarding guarantees and back-to-back loans.

Section 1.163(j)–10

In general, section 163(j) provides for disallowance of interest paid or accrued in taxable years beginning after July 10, 1989. However, interest that would otherwise be disallowed under the general rule will not be disallowed if paid with respect to a fixed-term obligation outstanding on July 10, 1989 (a grandfathered obligation). An obligation will cease to be treated as grandfathered if its term is extended, or if it is revised in a transaction that results in the obligee being deemed to have made an exchange of debt instruments under section 1001 of the Code. Under an anti-avoidance rule, a grandfathered obligation also will cease to be so treated if it is acquired by a person related to the obligor as part of a transaction that otherwise would circumvent the purposes of the effective date rules.

A limited grandfathering also exists under section 163(j) for interest paid with respect to obligations issued pursuant to a written contract binding on July 10, 1989. A contract will be treated as binding for this purpose only if it was enforceable by an unrelated third party on July 10, 1989, and at all times thereafter until the obligation is issued.

A very limited transition rule exists with respect to demand obligations outstanding on July 10, 1989. Interest paid or accrued prior to September 1, 1989, with respect to such demand loans shall not be disallowed by section 163(j) even though it was paid or accrued in a taxable year beginning after July 10, 1989.

A final effective date rule concerns the computation of excess limitation carryforward with respect to the first three taxable years to which section 163(j) applies. In computing a taxpayer's disallowed interest expense under section 163(j), the taxpayer may take into account amounts that would have been excess limitation carryforward had the statute been in effect with respect to interest paid or accrued in taxable years beginning after July 10, 1989.

General Comments

The Service solicits comments on whether, and to what extent, the rules of section 163(j) and these regulations comport with the arm's length standards for "thin capitalization." In particular, the Service invites comments on the proper application of the arm's length standard to related party debt; on the use of a cash-flow versus a debt-equity standard; and on the problems of tax administration in this area. See H.R. Conf. Rep. No. 386, 101st Cong., 1st Sess. 568–570 (1989).

Special Analyses

It has been determined that these rules are not major rules as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required. It also has been determined that section 553(b) of the Administrative Procedure Act (5 U.S.C. chapter 5) and the Regulatory Flexibility Act (5 U.S.C. chapter 6) do not apply to these regulations, and, therefore, an initial Regulatory Flexibility Analysis is not required. Pursuant to section 7805(f) of the Internal Revenue Code, these regulations will be submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on their impact on small business.

Comments and Public Hearing

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably a signed original and eight copies) to the Internal Revenue Service. All comments will be available for public inspection and copying. A public hearing will be held on September 25, 1991. See notice of hearing published elsewhere in this issue of the **Federal Register**.

Drafting Information

The principal authors of these regulations are Jack Feldman and Jeffrey Vinnik. However, the principal author of § 1.163(j)–8 is Elizabeth Karzon. Messrs. Feldman and Vinnik and Ms. Karzon are of the Office of Associate Chief Counsel (International), within the Office of Chief Counsel, Internal Revenue Service. Other personnel from the Internal Revenue Service and Treasury

Income taxes, Reporting and recordkeeping requirements.

Proposed amendments to the regulations

Accordingly, 26 CFR part 1 is proposed to be amended as follows:

PART 1—INCOME TAX REGULATIONS; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

PARAGRAPH 1. The authority for part 1 continues to read in part:

Authority: 26 U.S.C. 7805 * * *

PAR. 2. Sections 1.163(j)–0 through 1.163(j)–10 are added as follows:

§ 1.163(j)–0 Table of contents.

This section contains a listing of the major headings of §§ 1.163(j)–1 through 1.163(j)–10.

§ 1.163(j)–1 Limitation on deduction for certain interest paid or accrued by a corporation to related persons.

(a) In general.
(1) Deduction for exempt related person interest expense disallowed.
(2) Limitation on disallowance of deduction.
(3) Disallowed interest expense carryforward.
(b) Debt-equity ratio safe harbor test.
(c) Treatment of disallowed interest expense carryforward.
(1) In general.
(2) Effect of debt-equity safe harbor.
(d) Carryforward of excess limitation.
(e) Effect on earnings and profits.
(f) Anti-avoidance rule.
(g) Examples.
(h) Cross-references.

§ 1.163(j)–2 Definitions.

(a) Exempt related person interest expense.
(b) Excess interest expense.
(c) Excess limitation.
(d) Net interest expense.
(e) Interest income and expense.
(1) In general.
(2) Treatment of bond premium and market discount.
(3) Interest equivalents. [Reserved]
(4) Interest income of partnerships.
(5) Interest expense of partnerships.
(6) Certain substitute payments.
(f) Adjusted taxable income.
(1) In general.
(2) Additions.
(3) Subtractions.
(4) Effect of adjusted taxable loss.
(g) Related persons.
(1) In general.
(2) Anti-abuse rule.
(3) When related person status is tested.
(4) Special rule for certain partnerships.
(5) Examples.

§ 1.163(j)–3 Computation of debt-equity ratio.

(a) In general.
(b) Debt.
(1) In general.
(2) Exclusions.
(3) Liabilities of a partnership.
(4) Anti-rollover rule.
(c) Equity.
(1) In general.
(2) Treatment of stock of certain nonincludible corporations.
(3) Reduction in assets for excluded liabilities.
(4) Partnership interests owned by a corporation.
(5) Anti-avoidance rule.
(d) Determining the debt and equity of a non-dollar functional currency QBU.

§ 1.163(j)–4 Interest not subject to tax.

(a) In general.
(b) Partially exempt interest.
(c) Date for determining whether interest is subject to U.S. tax.
(d) Certain interest paid to special entities.
(1) Controlled foreign corporations.
(2) Passive foreign investment companies.
(3) Foreign personal holding companies.
(4) Producer's loan interest paid to a DISC.

§ 1.163(j)–5 Affiliated group rules.

(a) Certain related corporations treated as one taxpayer.
(1) Scope.
(2) Affiliated corporations.
(3) Certain unaffiliated corporations.
(4) Tie-breaker rules.
(b) Operative rules for consolidated groups.
(1) In general.
(2) Items determined on a consolidated basis.
(3) Exempt related person interest expense.
(4) Deferred intercompany gain.
(5) Carryforwards to current taxable year.
(6) Members leaving the group.
(7) Examples.
(c) Operative rules for other groups.
(1) In general.
(2) Determination and allocation of group items.
(3) Examples.
(d) Debt-equity ratio of related corporations treated as one taxpayer.
(1) In general.
(2) Adjustments to group members' debt.
(3) Adjustments to group members' assets.
(e) Election to use fixed stock write-off method for certain stock acquisitions.
(1) In general.
(2) Post-acquisition adjustments to special basis.
(3) Election out of fixed stock write-off method.
(4) Method for making elections.
(5) Definitions.
(6) Inclusion of target debt notwithstanding use of fixed stock write-off method.

§ 1.163(j)–6 Limitation on carryforward of tax attributes.

(a) Disallowed interest expense carryforward.
(1) Affiliated groups.
(2) Section 381(a) transactions.
(3) Section 382 and SRLY.
(c) Example.
(b) Excess limitation carryforward.
(1) Affiliated groups.
(2) Section 381(a) transactions.
(3) Anti-avoidance rules.
(c) Affiliation and non-affiliation years.
(1) In general.
(2) Predecessors and successors.
(3) Formation of affiliated groups.
(d) Anti-duplication rule.

§ 1.163(j)–7 Relationship to other provisions affecting the deductibility of interest.

(a) Paid or accrued.
(b) Coordination of section 163(j) and certain other provisions.
(1) Disallowed interest provisions.
(2) Deferred interest provisions.
(3) At risk rules and passive activity loss provisions.
(4) Capitalized interest expense.
(5) Reductions under section 246A.
(c) Examples.

§ 1.163(j)–8 Application of section 163(j) to certain foreign corporations.

(a) Scope.
(b) Disallowed interest expense.
(c) Definitions.
(1) In general.
(2) Net interest expense.
(3) Adjusted taxable income.
(4) Excess interest expense.
(5) Excess limitation.
(d) Determination of interest paid to a related person.
(e) Debt-equity ratio.
(f) Exemple.
(g) Coordination with branch profits tax.
(1) Effect on effectively connected earnings and profits.
(2) Effect on U.S. net equity.
(3) Example.

§ 1.163(j)–9 Guarantees and back-to-back loans. [Reserved]

§ 1.163(j)–10 Effective dates.

(a) In general.
(b) Exceptions.
(1) Interest paid on certain fixed-term obligations outstanding on July 10, 1989.
(2) Demand loans.
(c) Carryforward of excess limitation from pre-effective date taxable years to post-effective date taxable years.
(d) Examples.

§ 1.163(j)–1 Limitation on deduction for certain interest paid or accrued by a corporation to related persons.

(a) *In general*—(1) *Deduction for exempt related person interest expense disallowed.* Except as provided in this section, no deduction shall be allowed for exempt related person interest expense (as defined in § 1.163(j)–2(a)) paid or accrued during the taxable year directly or indirectly by—

(i) A domestic corporation (other than an S corporation as defined in section 1361), or

(ii) Under the special rules described in § 1.163(j)–8, a foreign corporation with income, gain, or loss that is effectively connected (or treated as effectively connected) with the conduct of a trade or business in the United States.

(2) *Limitation on disallowance of deduction.* The amount of exempt related person interest expense disallowed as a deduction in any taxable year (described hereafter as the year's "disallowed interest expense") shall not exceed the payor corporation's excess interest expense (as defined in § 1.163(j)–2(b)) for that year.

(3) *Disallowed interest expense carryforward.* Disallowed interest expense shall be carried forward to the succeeding taxable year (hereafter, a "disallowed interest expense carryforward"). A deduction for disallowed interest expense carryforward may be allowed as provided in paragraph (c) of this section.

(b) *Debt-equity ratio safe harbor test.* No deduction shall be disallowed under paragraph (a) of this section for exempt related person interest expense paid or accrued in any taxable year in which the payor corporation's debt-equity ratio (determined as provided in § 1.163(j)–3) is less than or equal to 1.5 to 1 on the last day of the taxable year.

(c) *Treatment of disallowed interest expense carryforward*— (1) *In general.* A deduction for disallowed interest expense carryforward is allowed in a carryforward year if and to the extent that there is excess limitation (as defined in § 1.163(j)–2(c)) for such year. Any disallowed interest expense carryforward not so deductible shall be carried forward to the succeeding taxable year.

(2) *Effect of debt-equity safe harbor.* The debt-equity ratio in a carryforward year is not relevant in determining whether disallowed interest expense carryforward is deductible in such year. Rather, disallowed interest expense carryforward is deductible only to the extent of the excess limitation for such year.

(d) *Carryforward of excess limitation.* If a corporation has excess limitation (as defined in § 1.163(j)–2(c)) for any taxable year, the amount of such excess limitation, reduced by disallowed interest expense carryforward to that year, shall be carried forward to each of the three succeeding taxable years. In each of those years, such carryforward shall reduce, and be reduced by, the amount, if any, of the corporation's excess interest expense for such year computed without regard to the carryforward. The excess limitation carryforward shall reduce, and be reduced by, excess interest expense in a carryforward year without regard to whether the corporation pays or accrues any exempt related person interest expense in that year, or whether the corporation satisfies the debt-equity ratio safe harbor test described in paragraph (b) of this section for that year. If a corporation has carryforwards from more than one taxable year, such carryforwards shall reduce, and be reduced by, excess interest expense in the order in which they arose. For purposes of all the reductions described in this paragraph, excess limitation, excess limitation carryforward, and excess interest expense shall not be reduced below zero. For rules regarding the effect of an adjusted taxable loss with respect to excess limitation carryforward, see § 1.163(j)–2(f)(4)(ii).

(e) *Effect on earnings and profits.* The disallowance and carryforward of a deduction for interest expense under this section shall not affect whether or when such interest expense reduces earnings and profits of the payor corporation.

(f) *Anti-avoidance rule.* Arrangements, including the use of partnerships or trusts, entered into with a principal purpose of avoiding the rules of section 163(j) and these regulations shall be disregarded or recharacterized to the extent necessary to carry out the purposes of section 163(j).

(g) *Examples.* The following examples illustrate the rules of this section.

Example 1 (i) A, a domestic corporation, is a wholly owned subsidiary of F, a foreign corporation. During its taxable year ending December 31, 1990, A has adjusted taxable income of $100, which includes $20 of interest income, and $80 of interest expense, of which $60 is paid or accrued to F. The balance of the interest expense is paid to unrelated persons. Interest paid to F by A is not subject to U.S. tax due to a tax treaty. A does not satisfy the debt-equity ratio safe harbor test in 1990, and has no excess limitation carried forward to that year.

(ii) A's excess interest expense for 1990 is $20, which is the difference between its net interest expense and 50 percent of its adjusted taxable income ($70 − $50 = $20). Since for 1990, the amount of A's exempt related person interest expense ($60) is greater than its excess interest expense ($20), a deduction for $20 of A's exempt related person interest expense is disallowed under paragraph (a) of this section. A's 1990 disallowed interest expense is carried forward to A's succeeding taxable year.

Example 2 (i) The facts are the same as in paragraph (i) of Example 1. In 1991, A has $120 of adjusted taxable income, net interest expense of $50, and $20 of disallowed interest expense carried forward from 1990. All of A's interest expense for 1991 is paid to unrelated persons. A does not satisfy the debt-equity ratio safe harbor test in 1991.

(ii) A has excess limitation (as defined in § 1.163(j)–2 (c)) of $10 ($60 (50% of adjusted taxable income) − $50 (net interest expense)) in 1991. In 1991, A may deduct the interest expense paid or accrued in that year to unrelated persons, plus $10 of disallowed interest expense carryforward from 1990. The balance of A's disallowed interest expense carryforward from 1990 ($10) is carried forward to A's 1992 taxable year.

Example 3 (i) The facts are the same as in paragraph (i) of Example 2. In 1992, A satisfies the debt-equity ratio safe harbor test, has adjusted taxable income of $210, and net interest expense of $100. All A's interest expense for 1992 is paid or accrued to F.

(ii) In 1992, A has excess limitation of $5 ($105 (50% of adjusted taxable income) − $100 (net interest expense)). Applying the principles of paragraph (c) of this section, A's $10 of disallowed interest expense carryforward from 1991 (see Example 2, paragraph (ii)) is allowed in 1992 only to the extent of the $5 of excess limitation for that year. The remaining $5 of disallowed interest expense carried forward from 1991 is carried forward to A's 1993 taxable year.

Example 4(i) The facts are the same as in paragraph (i) of Example 3. In 1993, A satisfies the debt-equity ratio safe harbor test, has adjusted taxable income of $100, and has net interest expense of $75, all of which is paid or accrued to F.

(ii) A's excess interest expense for 1993 is $25 ($75 (A's net interest expense)—$50 (50% of its adjusted taxable income)). Applying the principles of paragraphs (a) and (b) of this section, section 163(j) does not disallow a deduction in 1993 for any of A's excess interest expense that is exempt related person interest expense. Under paragraph (c) of this section, A's $5 of disallowed interest expense carryforward from 1992 (see Example 3, paragraph (ii)) is not deductible in 1993, and is carried forward to A's 1994 taxable year.

(h) *Cross-references.* For rules regarding affiliated groups for purposes of section 163(j), see § 1.163(j)–5. For rules limiting the deductibility of disallowed interest expense carryforward and restricting the use of excess limitation carried forward to taxable years after the occurrence of certain corporate transactions, see § 1.163(j)–6.

§ 1.163(j)–2 Definitions.

(a) *Exempt related person interest expense.* The term "exempt related person interest expense" means interest expense that is (or is treated as) paid or accrued by a corporation described in § 1.163(j)–1 (a) to a related person (within the meaning of paragraph (g) of this section) if no tax is imposed with respect to such interest under rules provided in § 1.163(j)–4.

(b) *Excess interest expense.* The term "excess interest expense" means the excess, if any, of a corporation's net interest expense (as defined in paragraph (d) of this section) over the sum of 50 percent of its adjusted taxable income (as defined in paragraph (f) of

VOL 56 ISS 117 JE 18 1991 UMI

this section) plus any excess limitation carried forward to the taxable year (under the rules of § 1.163(j)–1(d)). See paragraph (f)(4)(ii) of this section for rules regarding the effect of an adjusted taxable loss on the computation of excess interest expense.

(c) *Excess limitation.* The term "excess limitation" means the excess, if any, of 50 percent of a corporation's adjusted taxable income (as defined in paragraph (f) of this section) over its net interest expense (as defined in paragraph (d) of this section). (d) *Net interest expense.* The term "net interest expense" means the excess, if any, of the amount of interest expense paid or accrued (directly or indirectly) by a corporation during the taxable year over the amount of interest includible (directly or indirectly) in its gross income for such year.

(d) *Net interest expense.* The term "net interest expense means the excess, if any, of the amount of interest expense paid or accrued (directly or indirectly) by a corporation during the taxable year over the amount of interest includible (directly or indirectly) in its gross income for such year.

(e) *Interest income and expense*—(1) *In general.* Interest income shall generally be determined under section 61 and shall include original issue discount as provided in sections 1272 through 1275 (adjusted, under section 1272(a)(7), for any acquisition premium paid by a subsequent holder), acquisition discount as provided in sections 1281 through 1283, and amounts that are treated as original issue discount under section 1286 (pertaining to stripped bonds). Interest expense shall generally be determined under section 163(a) and shall include original issue discount as provided in section 163(e). Interest expense for a taxable year does not take into account any disallowed interest expense carried forward to that year under the rules of § 1.163(j)–1. Interest income or expense with respect to a debt instrument denominated in a nonfunctional currency (or the payments of which are determined with reference to a nonfunctional currency) shall be determined in accordance with section 988 and the regulations thereunder. For rules regarding the relationship of section 163(j) to other Code provisions under which a deduction for interest expense may be disallowed or deferred, see § 1.163(j)–7.

(2) *Treatment of bond premium and market discount*—(i) *Bond Premium.* In the case of any bond with respect to which an election made under section 171(c) is in effect, amortizable bond premium (as defined in section 171(b)) shall reduce interest income. Bond premium included in income by the issuer under the principles of § 1.61–12 (or the successor provision thereof) shall reduce interest expense.

(ii) *Market discount.* Gain treated as ordinary income on the disposition of a market discount bond under section 1276(a) shall be treated as interest income.

(3) *Interest equivalents.* [Reserved]

(4) *Interest income of partnerships.* Interest paid or accrued to a partnership shall be treated under section 163(j) and these regulations (other than paragraph (g) of this section) as paid or accrued to the partners of the partnership in proportion to each partner's distributive share (as defined in section 704) of the partnership's interest income for the taxable year.

(5) *Interest expense of partnerships.* Interest expense paid or accrued by a partnership and the tax exempt interest expense of a partnership (within the meaning of § 1.163(j)–4) shall be treated for all purposes under section 163(j) and these regulations as paid or accrued by the partners of the partnership in proportion to each partner's distributive share (as defined in section 704) of the partnership's interest expense and tax exempt interest expense, respectively, for the taxable year. Thus, a corporation which is a partner in a partnership shall be treated as paying or accruing its share of the partnership's interest expense, and is treated as the payor of such interest expense.

(6) *Certain substitute payments*—(i) *In general.* If pursuant to an agreement meeting the requirements of section 1058 (b), there is a transfer of securities (as defined in section 1236(c)) between related persons (within the meaning of paragraph (g) of this section), payments described in section 1058(b)(2) with respect to such transferred securities ("substitute payments") shall be treated as interest expense for purposes of section 163(j) and these regulations.

(ii) *Effective date.* This paragraph (e)(6) shall be effective with respect to substitute payments paid or accrued after July 18, 1991.

(f) *Adjusted taxable income*—(1) *In general.* The term "adjusted taxable income" means a corporation's taxable income for the taxable year, computed without regard to any carryforwards or disallowances under section 163(j), and determined with the modifications described in paragraphs (f)(2) and (f)(3) of this section. A corporation's adjusted taxable income may be a negative amount (*i.e.* an adjusted taxable loss). See paragraph (f)(4) of this section for rules regarding the effect of an adjusted taxable loss.

(2) *Additions.* The following amounts shall be added to a corporation's taxable income to determine its adjusted taxable income:

(i) The net interest expense (as defined in paragraph (d) of this section) for the taxable year;

(ii) The net operating loss deduction under section 172;

(iii) Deductions for depreciation under sections 167 and 168;

(iv) Deductions for the amortization of intangibles and other amortized expenditures (*e.g.*, start-up expenditures under section 195 and organizational expenditures under section 248);

(v) Deductions for depletion under section 611;

(vi) Carryovers of excess charitable contributions (within the meaning of section 170 (d)(2)), to the extent allowable as a deduction in the taxable year;

(vii) The increase, if any, between the end of the preceding year and the end of the current year in accounts payable (other than interest payable) that are included in the computation of taxable income;

(viii) The decrease, if any, between the end of the preceding taxable year and the end of the current taxable year in accounts receivable (other than interest receivable) that are included in the computation of taxable income;

(ix) Interest which is excluded from gross income under section 103;

(x) The dividends received deduction as provided under section 243 [other than deductions under section 243 (a)(3)];

(xi) The increase, if any, in the LIFO recapture amount (as defined in section 312(n)(4)(B)) between the end of the preceding taxable year and the end of the current taxable year; and

(xii) Any deduction in the taxable year for capital loss carrybacks or carryovers.

(3) *Subtractions.* The following amounts shall be subtracted from taxable income to determine adjusted taxable income:

(i) With respect to the sale or disposition of property (including a sale or disposition of property by a partnership), any depreciation, amortization, or depletion deductions which were allowed or allowable for the taxpayer's taxable years beginning after July 10, 1989, with respect to such property;

(ii) With respect to the sale or disposition of stock of a member of a consolidated group that includes the selling corporation, an amount equal to the investment adjustments (as defined under §§ 1.1502–32 and 1.1502–32T) with respect to such stock that are attributable to deductions described in paragraph (f)(3)(i) of this section;

(iii) With respect to the sale or other disposition of an interest in a partnership, an amount equal to the taxpayer's distributive share of deductions described in paragraph (f)(3)(i) of this section with respect to property held by the partnership at the time of such sale or other disposition;

(iv) The decrease, if any, between the end of the preceding taxable year and the end of the current taxable year in accounts payable (other than interest payable) which are included in the computation of the corporation's taxable income;

(v) The increase, if any, between the end of the preceding taxable year and the end of the current taxable year in accounts receivable (other than interest receivable) which are included in the computation of the corporation's taxable income;

(vi) Amounts that would be deductible but for section 265 (regarding expenses and interest relating to tax-exempt income) or 279 (regarding interest on indebtedness incurred by a corporation to acquire stock or assets of another corporation);

(vii) The amount of any charitable contribution (as defined in section 170(c)) made during the taxable year that exceeds the amount deductible in that year by reason of section 170(b)(2);

(viii) The decrease, if any, in the LIFO recapture amount (as defined in section 312 (n)(4)(B)) between the end of the preceding taxable year and the end of the current taxable year; and

(ix) The amount of any net capital loss (as defined in section 1222(10)) for the taxable year.

(4) *Effect of adjusted taxable loss*—(i) *In general.* If a payor corporation has an adjusted taxable loss for the taxable year, then its adjusted taxable income shall be treated as zero.

(ii) *Effect on excess limitation carryforward.* The amount of an adjusted taxable loss reduces excess limitation carryforward for the purpose of determining whether there is excess interest expense for a taxable year.

(iii) *Adjusted taxable loss not carried forward.* An adjusted taxable loss in one taxable year shall not affect the determination of a corporation's adjusted taxable income for any other taxable year.

(g) *Related persons*—(1) *In general.* The term "related person" means any person who is related to the taxpayer within the meaning of sections 267(b) or 707(b)(1). For this purpose, the constructive ownership and attribution rules of section 267(c) shall apply.

(2) *Anti-abuse rule.* In determining whether persons are related, the substance, rather than the form, of ownership is controlling. Thus, for example, the principles of § 1.957–1 (b)(2) shall apply to determine whether an arrangement to shift formal voting power or formal ownership of shares away from any person for the purpose of avoiding the application of section 163 (j) shall be given effect.

(3) *When related person status is tested.* Whether a person is related to a payor corporation under section 163(j) is determined with respect to an item of interest expense when such interest expense accrues. For this purpose (notwithstanding the rules in § 1.163(j)–7), interest expense (including amounts treated as interest under this section) shall be treated as accruing daily under principles similar to section 1272(a). Also for this purpose, interest described in paragraph (e)(5) of this section shall be treated as accrued by a partner as it is accrued, under the principles of the preceding sentence, by the partnership. Changes in the relationship between the payor corporation and the payee after an item of interest expense accrues shall not be taken into account.

(4) *Special rule for certain partnerships*—(i) *Less than 10 percent of partnership held by tax exempt persons.* Any interest expense paid or accrued to a partnership directly or indirectly by a payor corporation that (without regard to this paragraph (g)(4)) is related to the partnership within the meaning of this paragraph (g) shall not be treated as paid or accrued to a related person if less than 10 percent of the capital and profits interests in such partnership are held by persons with respect to whom no tax is imposed on such interest by subtitle A of the Internal Revenue Code under rules provided in § 1.163(j)–4. However, the preceding sentence shall not apply to treat as interest paid to an unrelated person any interest that (under rules described in this section) is includible in the gross income of a partner in such a partnership who is itself a related person with respect to the payor of such interest.

(ii) *Reduction of tax by treaty.* If a treaty between the United States and a foreign country reduces the rate of tax imposed by subtitle A of the Code on a partner's distributive share of any interest paid or accrued to a partnership, such partner's interest in the partnership shall, for purposes of § 1.163(j)–2(g)(4)(i), be treated as held in part by a taxable person and in part by a tax exempt person in accordance with the rules described in § 1.163(j)–4(b).

(5) *Examples.* The principles of this paragraph (g) are illustrated by the following examples.

Example 1. (i) Fifty-one percent of the total combined voting power and value of domestic corporation A is owned by a domestic tax-exempt corporation, D1; the remainder is owned by foreign corporation F1. F1 is organized under the laws of country Z. Under a U.S. tax treaty with country Z, interest paid by A to F1 is exempt from U.S. tax under the rules of § 1.163 (j)–4.

(ii) Under these facts, D1 is related to A under section 267(b)(3) (because D1 and A are members of the same controlled group of corporations, as defined in section 267(f)), and interest payments made by A to D1 are exempt related person interest expense, a deduction for which may be disallowed under section 163(j). F1 is not related to A within the meaning of sections 267(b) or 707(b)(1). Deductions for interest paid by A to F1 are not subject to disallowance under section 163(j).

Example 2. (i) The facts are the same as in paragraph (i) of Example 1, except that D1 and F1 each own 50 percent of the vote and value of X's stock.

(ii) Unless the substance of D1's and F1's ownership differs from its form, so that paragraph (g)(2) of this section (regarding abusive ownership structures) applies, none of the interest paid by A to D1 or F1 is subject to disallowance under section 163(j).

Example 3. (i) A, a domestic corporation whose taxable year is the calendar year, is a wholly owned subsidiary of F, a foreign corporation. A is a partner, with a one-third share in the capital and profits interests, of P, a domestic partnership whose taxable year is the calendar year. During its taxable year ending December 31, 1990, and taking into account its interest in P, A has adjusted taxable income of $126.67. A's directly incurred interest income and expense for the taxable year are $20 and $90. Of the $90 of interest expense, $60 is paid or accrued to F.

(ii) P's interest income and interest expense for the taxable year of the partnership ending December 31, 1990, are $20 and $50, respectively. A's share of these amounts (determined under rules described in § 1.163(j)–2) are $6.67 and $16.67, respectively. Of P's $50 interest expense for the taxable year, $20 is paid or accrued to F, and the balance is paid or accrued to persons unrelated to A or to any of the other partners of P.

(iii) Interest paid or treated as paid to F by A is not subject to U.S. tax due to a tax treaty. Taking into account A's investment in the partnership (under rules described in § 1.163 (j)–3), A does not satisfy the debt-equity ratio safe harbor test in 1990.

(iv) Under § 1.163(j)–1(a) and paragraphs (e) (4) and (5) of this section, in its taxable year ending December 31, 1990, A is required to take into account the interest income and interest expense it directly incurs, plus its share of P's interest income and interest expense. Thus, A's interest income for 1990 is $26.67, and its interest expense is $106.67. A's excess interest expense for 1990 is $16.67, which is the difference between its net interest expense ($106.67 (interest expense) −$26.67 (interest income) = $80) and 50 percent of its adjusted taxable income (($126.67 x 50% = $63.33).

(v) For 1990, under the rule described in paragraph (e)(5) of this section, the amount of A's exempt related person interest expense is $66.67 ($60 + $6.67 = $66.67). Since that amount is greater than its excess interest expense ($16.67), section 163 (j) disallows a

VOL 56 ISS 117 JE 18 1991 UMI

deduction for $16.87 of A's interest expense for the taxable year. That disallowed interest expense is carried forward to A's 1991 taxable year.

Example 4. (i) X, a domestic corporation, is wholly owned by Y, a partnership. A treaty between the United States and foreign country U reduces the rate of tax on interest paid to residents of country U from 30 percent (the applicable rate for related person interest under sections 871 and 881 in the absence of a treaty) to 15 percent. Nineteen percent of the capital and profits interests of partnership Y are held by Z, a country U corporation entitled to claim the reduced (treaty) rate of tax on interest income; the balance is held by unrelated persons not exempt from U.S. tax on their distributive shares of interest paid by the corporation to the partnership.

(ii) Under paragraph (g)(4) of this section, less than ten percent (19 percent divided by two (30/15)) of Y's capital and profits interests are treated as held by persons who are tax exempt. Accordingly, all interest paid to partnership Y by corporation X is treated as paid to an unrelated person.

§ 1.163(j)–3 Computation of debt-equity ratio.

(a) *In general.* For purposes of section 163(j), the term "debt-equity ratio" means the ratio that the debt of the corporation bears to the equity of the corporation. For rules defining debt and equity, see paragraphs (b) and (c) of this section. For rules regarding the computation of the debt and equity of an affiliated group or a foreign corporation, see §§ 1.163(j)–5 or 1.163(j)–8, respectively.

(b) *Debt*—(1) *In general.* The debt of a corporation means its liabilities determined according to generally applicable tax principles. Thus, the amount taken into account on the issue date with respect to a debt instrument which is not issued at a discount or a premium shall be the issue price. The amount taken into account with respect to any debt with original issue discount shall be its issue price plus the portion of the original issue discount previously accrued as determined under the rules of section 1272 (determined without regard to section 1272(a)(7) or (b)(4)). In addition, with respect to the issuer, unamortized bond premium shall be treated as debt.

(2) *Exclusions.* Short-term liabilities as defined in paragraph (b)(2)(i) of this section and commercial financing liabilities as defined in paragraph (b)(2)(ii) of this section shall be excluded from characterization as debt.

(i) *Short-term liabilities.* The term "short-term liabilities" means accrued operating expenses, accrued taxes payable, and any account payable for the first 90 days of its existence provided that no interest is accrued with respect to any portion of such 90 day period.

(ii) *Commercial financing liabilities.* The term "commercial financing liabilities" means any liability if it—

(A) Is incurred by the obligor under a commercial financing agreement (such as an automobile "floorplan" agreement) to buy an item of inventory;

(B) Is secured by the item;

(C) Is due on or before sale of the item; and

(D) If entered into between related parties, has terms that are comparable to the terms of such financing agreements between unrelated parties in the same (or a similar) industry.

(3) *Liabilities of a partnership.* In determining the debt of a corporation that owns an interest in a partnership (directly or indirectly through one or more pass-through entities), liabilities of the partnership shall be treated as liabilities incurred directly by each partner in the same manner and proportions that the liabilities of the partnership are treated as shared by its partners under section 752.

(4) *Anti-rollover rule.* Decreases in a corporation's aggregate debt during the last 90 days of its taxable year shall be disregarded to the extent that the corporation's aggregate debt is increased during the first 90 days of the succeeding taxable year.

(c) *Equity*—(1) *In general.* Equity means the sum of money and the adjusted basis of all other assets of the corporation reduced (but not below zero) by the taxpayer's debt (as defined in paragraph (b) of this section). Whether an item constitutes an asset shall be determined according to generally applicable tax principles.

(2) *Treatment of stock of certain nonincludible corporations.* Under the general rule of paragraph (c)(1) of this section, assets include the adjusted basis of stock of any corporation which is not an includible corporation (as defined under section 1504(b)). The adjusted basis of stock held in a corporation which is not an includible corporation shall be further adjusted under principles similar to those in section 864(e)(4) if the taxpayer (or the members of an affiliated group of which the taxpayer is a member) owns stock in the corporation satisfying the requirements of section 864(e)(4)(B)(ii). *Cf.* § 1.861–12T(c)(2).

(3) *Reduction in assets for excluded liabilities.* The amount of a taxpayer's equity under paragraph (c) (1) and (2) of this section shall be reduced (but not below zero) by an amount equal to the amount of liabilities excluded under paragraph (b)(2) of this section.

(4) *Partnership interests owned by a corporation.* In determining the assets of a corporation that owns an interest in a partnership, the corporation shall treat as an asset the adjusted basis of its partnership interest.

(5) *Anti-avoidance rules*—(i) *In general.* An asset of the taxpayer shall be disregarded in computing the taxpayer's debt-equity ratio if the principal purpose for acquiring the asset was to reduce the taxpayer's debt-equity ratio.

(ii) *Anti-stuffing rule.* In determining a corporation's equity, any transfer of assets made by a related person to the corporation during the last 90 days of its taxable year shall be disregarded to the extent that there is a transfer of the same or similar assets by the corporation to a related person during the first 90 days of the corporation's succeeding taxable year. However, this rule shall not apply to the extent that there is full consideration for a transfer in money or property (as that term is defined in section 317(a)).

(d) *Determining the debt and equity of a non-dollar functional currency QBU.* In determining the dollar value of liabilities and assets on the books of a qualified business unit that has a functional currency other than the dollar, such liabilities and assets shall be translated at the spot rate on the last day of the taxable year.

§ 1.163(j)–4 Interest not subject to tax.

(a) *In general.* Interest paid or accrued by a corporation under the rules of § 1.163(j)–1 is not subject to tax for purposes of section 163(j) if no U.S. tax is imposed with respect to such interest under subtitle A of the Internal Revenue Code (determined without regard to net operating losses or net operating loss carryovers), taking into account any applicable treaty obligation of the United States. For this purpose, whether interest paid or accrued to a partnership is subject to tax is determined at the partner level.

(b) *Partially exempt interest.* Interest that is subject to a reduced rate of tax under any treaty obligation of the United States applicable to the recipient shall be treated as in part subject to the statutory tax rate under sections 871 or 881 and in part not subject to tax, based on the proportion that the rate of tax under the treaty bears to the statutory tax rate. Thus, for purposes of section 163(j), if the statutory tax rate is 30 percent, and pursuant to a treaty U.S. tax is instead limited to a rate of 10 percent, two-thirds of such interest shall be considered interest not subject to tax.

(c) *Date for determining whether interest is subject to U.S. tax.* The determination of whether interest is subject to U.S. tax is made on the date the interest is received or accrued by the payee, whichever is relevant under normally applicable U.S. tax principles for purposes of determining the tax, if any, on the payee.

(d) *Certain interest paid to special entities*—(1) *Controlled foreign corporations*—(i) *In general.* Interest that is paid or accrued to a foreign corporation described in section 957(a) (a "controlled foreign corporation") and that is not otherwise subject to tax under paragraph (a) of this section shall be deemed subject to tax to the extent that such interest is included in the foreign corporation's net foreign personal holding company income under § 1.954–1T(c) and results in an inclusion in the gross income of a United States shareholder under section 951(a)(1)(A)(i) (or would have been included in a United States shareholder's gross income but for an election under § 1.954–1T(d)).

(ii) *Effect of section 952(c)(1)(A) (earnings and profits) limitation.* For purposes of paragraph (d)(1) of this section, if a controlled foreign corporation's subpart F income for the taxable year is limited under section 952(c)(1)(A), each category of subpart F income described in section 952(a), and, within each such category, each component thereof, shall be treated as reduced ratably.

(iii) *Net foreign personal holding company income.* To determine whether an item of interest income is included in a controlled foreign corporation's net foreign personal holding company income for the taxable year, the expenses allocable to such interest shall be deemed to bear the same ratio to the total expenses allocable to the controlled foreign corporation's net foreign personal holding company income (determined pursuant to § 1.954–1T(c)) as the amount of such interest bears to the controlled foreign corporation's gross foreign personal holding company income (determined under § 1.954–1T(a)(2)(i)).

(iv) *Related person interest.* If related person interest is allocated to the item of interest under the provisions of § 1.904–5(c)(2) and paragraph (d)(1)(iii) of this section, and if the United States shareholder receiving such related person interest is subject to United States tax, then, for purposes of paragraph (d)(1)(i) of this section, such allocable related person interest shall be deemed to be net foreign personal holding company income that results in an inclusion under section 951(a)(1)(A)(i).

(v) *Section 78 amount.* Any foreign taxes that are allocable to an item of interest income satisfying the requirements of paragraph (d)(1)(i) of this section and that are included in a United States shareholder's income under section 78 (or would have been included, but for an election under § 1.954–1T(d)) shall, for purposes of paragraph (d)(1)(i) of this section, be deemed to be net foreign personal holding company income that results in an inclusion under section 951(a)(1)(A)(i).

(2) *Passive foreign investment companies*—(i) *In general.* Interest that is not otherwise subject to tax under paragraph (a) of this section, and that is paid or accrued to a passive foreign investment company (as defined in section 1296) that is not a controlled foreign corporation, and which a U.S. person has elected under section 1295 to treat as a qualified electing fund ("QEF"), shall be treated as subject to tax to the extent that such interest is included in the QEF's ordinary earnings (as defined in section 1293(e)(1)) and results in an inclusion in income of such U.S. person under section 1293(a)(1)(A).

(ii) *Ordinary earnings.* In determining whether an item of interest income is included in the ordinary earnings of a passive foreign investment company, the item shall be reduced by deductions allocable and apportionable to that item under §§ 1.861–8 through 1.861–14T.

(iii) *Section 78 amount.* Any foreign taxes that are allocable to an item of interest income satisfying the requirements of paragraph (d)(2)(i) of this section and that are included in a U.S. person's income under section 78 pursuant to section 1293(f) shall, for purposes of paragraph (d)(2)(i) of this section, be deemed to be ordinary earnings that are included in the income of a U.S. person under section 1293(a)(1)(A).

(3) *Foreign personal holding companies*—(i) *In general.* Interest that is not otherwise subject to tax under paragraph (a) of this section, and that is paid or accrued to a foreign personal holding company (as defined in section 552) that is neither a passive foreign investment company nor a controlled foreign corporation, shall be treated as subject to tax to the extent that such interest is included in the company's undistributed foreign personal holding company income (as defined in section 556) and results in an inclusion in income of a U.S. person under section 551(a).

(ii) *Undistributed foreign personal company income.* In determining whether an item of interest income is included in the undistributed foreign personal holding company income of a foreign personal holding company, the item shall be reduced by deductions allocable and apportionable to that item under §§ 1.861–8 through 1.861–14T.

(iii) *Effect of distributions.* Any amount that would be treated as subject to tax by virtue of this paragraph (d)(3) but for a dividends paid deduction under section 561 shall be treated subject to tax.

(4) *Producer's loan interest paid to a DISC.* Interest paid or accrued with respect to a DISC (as defined in section 992) that is treated as interest with respect to a producer's loan (as defined in section 993(d)) is treated as subject to U.S. tax if such interest is taxed to the shareholders of the DISC under section 995(b)(1)(A).

§ 1.163(j)–5 Affiliated group rules.

(a) *Certain related corporations treated as one taxpayer*—(1) *Scope.* This section applies section 163(j) to certain related corporations which are (or are treated as) members of an affiliated group and which under section 163(j)(6)(C) and (7) are treated as a single taxpayer. Paragraphs (a)(2) and (a)(3) of this section describe the corporations that are subject to such treatment. (For purposes of section 163(j) and these regulations, the rules in regulations under section 1502 apply, but unless the context otherwise requires, the term "member" means a corporation that is, or is treated as, a member of an affiliated group under this paragraph (a), and the term "group" refers collectively to the member and the other corporations that are so treated.) Paragraph (a)(4) of this section provides rules that treat a corporation as a member of a single affiliated group if the rules of this paragraph (a) would otherwise cause it to be treated as a member of more than one affiliated group. Paragraph (b) of this section provides rules regarding the computation of items of income, expense, and carryovers under section 163(j) for an affiliated group of corporations if all of the members of such group join in the filing of a single consolidated return for the taxable year under section 1501. Paragraph (c) of this section provides rules for corporations that are not members of consolidated groups which are subject to the rules of § 1.163(j)–5(b). Paragraph (d) of this section provides rules regarding the computation of the debt-equity ratio for purposes of applying the debt-equity

VOL 56 ISS 117 JE 18 1991 UMI

ratio safe harbor test described in § 1.163(j)–2(b). Paragraph (e) of this section provides rules regarding the treatment of, and an election pertaining to, assets of certain acquired corporations.

(2) *Affiliated corporations.* To the extent provided in this section, all the members of an affiliated group (as defined in section 1504(a)) of which a corporation is a member on the last day of its taxable year shall be treated as one taxpayer for purposes of section 163(j) and this section, without regard to whether such affiliated group files a consolidated return pursuant to section 1501.

(3) *Certain unaffiliated corporations*—(i) *In general.* If at least 80 percent of the total voting power and total value of the stock of an includible corporation (as defined in section 1504(b)) is owned, directly or indirectly, by another includible corporation, the first corporation shall be treated as a member of an affiliated group that includes the other corporation and its affiliates. The attribution rules of section 318 shall apply for purposes of determining indirect stock ownership under this paragraph (a)(3).

(ii) *Example.* The principles of this paragraph (a)(3) are illustrated by the following example.

Example. X and Y are wholly owned domestic subsidiaries of F, a foreign corporation. X and Y are not members of an affiliated group under section 1504(a) because F is not itself an includible corporation under section 1504(b)(3). However, under paragraph (a)(3) of this section, X and Y are treated as members of an affiliated group, since, under section 318(a)(2)(C), X is treated as owning indirectly 100 percent of Y, and Y is treated as owning indirectly 100 percent of X.

(4) *Tie-breaker rules.* If the rules of this paragraph (a) would treat a corporation as a member of more than one affiliated group, then the principles of section 1563(b)(4) and the regulations thereunder shall determine the group of which such corporation shall be treated as a member.

(b) *Operative rules for consolidated groups*—(1) *In general.* If all of the members of the affiliated group are members of a single consolidated group for the taxable year, the computations required by section 163(j) and these regulations (other than the computation of the group's debt-equity ratio under paragraph (d) of this section) shall be made in accordance with the rules of this paragraph (b). See paragraph (c) of this section for rules applicable to affiliated groups not described in the preceding sentence.

(2) *Items determined on a consolidated basis.* The computations required by section 163(j) and these regulations shall be determined for the group on a consolidated basis. For example, the group's taxable income shall be the consolidated taxable income determined under § 1.1502–11 (without regard to any carrybacks or disallowances under section 163(j)), and the group's net interest expense shall be the excess, if any, of the group's aggregate interest expense over the group's aggregate interest income (as provided in §§ 1.163(j)–2 (d) and (e)). Similarly, the group's excess interest expense shall be determined by reference to the group's net interest expense, adjusted taxable income, and excess limitation carryforward (as determined under paragraph (b)(5) of this section). Except as provided in paragraphs (b) (5) and (6) of this section, disallowed interest expense carryforwards and excess limitation carryforwards shall also be determined on a consolidated basis.

(3) *Exempt related person interest expense.* In determining the group's exempt related person interest expense, interest expense shall be treated as paid or accrued to a related person (within the meaning of § 1.163(j)–2(g)) if it would be so treated if paid or accrued to the same payee by any member of the group.

(4) *Deferred intercompany gain.* For purposes of determining the adjusted taxable income of the group, the following special rules shall apply—

(i) Any gain on a deferred intercompany transaction (including any gain described in § 1.1502–14T(a)) that is restored in accordance with the rules under §§ 1.1502–13(d) or 1.1502–13T(f) shall be subtracted from the group's consolidated taxable income.

(ii) If property is disposed of under § 1.1502–13 (e)(2) or (f) or § 1.1502–13T(m), any amount subtracted from the group's consolidated taxable income in a previous taxable year with respect to such property under paragraph (b)(4)(i) of this section shall be added to the group's consolidated taxable income.

(iii) *Example.* The principles of this paragraph (b)(4) are illustrated by the following example.

Example (i) On January 1, 1991, X, a member of an affiliated group which files a consolidated return for the calendar year, purchases property for $200 from an unrelated person. X depreciates the property over a 5-year period. On January 1, 1993, when X's basis in the property is $0, X sells the property to Y, another member of the group, for $600, which is the property's fair market value at such time. The sale is a deferred intercompany transaction under § 1.1502–13, and X's gain of $360 is deferred under § 1.1502–13(c). In the hands of Y the property is once again depreciable over a 5-year period. The group claims a depreciation deduction with respect to the property of $60 in 1993, which results in the restoration of $40 of X's deferred gain under § 1.1502–13T(a) for such year.

(ii) As provided in paragraph (b)(4)(i) of this section, the group's taxable income for 1993 is reduced by $60, the amount of restored gain under § 1.1502–13T(a) with respect to the transferred property. In addition, as provided in § 1.163(j)–2(b)(2)(iii) and paragraph (b)(2) of this section, the group's taxable income for 1993 is increased by $40, the amount of the group's depreciation deduction with respect to the transferred property for such year.

(iii) On January 1, 1997, Y sells the property for $200 to an unrelated person and recognizes gain of $80. The sale results in restoration of $160 of gain under § 1.1502–13T(m) with respect to the earlier transfer of property from X to Y. Thus, Y's sale results in the group's 1997 consolidated taxable income increasing by $120 prior to any adjustment under section 163(j). Under § 1.163(j)–2(b)(2)(ii), the consolidated taxable income is reduced by $240 to reflect previous depreciation deductions with respect to such property. In addition, as provided in paragraph (b)(4)(ii) of this section, the consolidated taxable income is increased by $40, the amount subtracted from the group's 1993 consolidated taxable income by virtue of the restoration of $40 of deferred gain in that year.

(5) *Carryforwards to current taxable year.* The group's disallowed interest expense carryforward or excess limitation carryforwards to the current taxable year shall be the relevant carryforwards from the group's prior taxable years, plus any disallowed interest expense carryforward or excess limitation carryforwards from separate return years permitted to be used by the group under the rules of § 1.163(j)–6.

(6) *Members leaving the group*—(i) *Disallowed interest expense carryforward.* A member leaving the group shall carry forward to its separate return years a portion of the group disallowed interest expense carryforward determined as of the end of the last consolidated return year during which the corporation was a member of the group. Such portion shall equal the amount of the group's disallowed interest expense carryforward multiplied by a fraction, the numerator of which is the aggregate amount of exempt related person interest expense paid or accrued by such member during the period when it was a member of the group, and the denominator of which is the aggregate amount of exempt related person interest expense paid or accrued by all members of the group. If a member has pre-affiliation disallowed interest expense carryforward upon entering the group, the amount of such member's disallowed interest expense carryforward shall be treated as exempt related person interest expense of both the member and the group. Further, the group's disallowed interest expense carryforward shall be reduced by the amount allocated to the member. If the member leaves the group during the consolidated return year, rules similar to the rules of § 1.1502–21(b)(2) shall apply.

(ii) *Excess limitation carryforward.* A member leaving the group shall not carry forward to its separate return years any portion of the group's excess limitation carryforward, and the group's excess limitation carryforward shall not be reduced by virtue of such member's departure from the group. However, if all the members of a consolidated group become members of another consolidated group, the acquired group's excess limitation carryforward shall become excess limitation carryforward of the corporation that was the common parent of the acquired group. For purposes of determining the extent to which this excess limitation carryforward becomes excess limitation carryforward of the acquiring group under paragraph (b)(5) of this section, see § 1.163(j)–6 (b).

(7) *Examples.* The following examples illustrate the principles of this paragraph (b).

Example 1 (i) X, Y, and Z are domestic corporations that are members of a newly formed consolidated group described in paragraph (b) of this section. X owns 100 percent of the stock of Y, and Y owns 80 percent of the stock of Z. F1, a foreign corporation, owns 60 percent of the stock of X. Any interest paid or accrued by X, Y, or Z to F1 is exempt under section 163(j) because it is exempt from U.S. withholding tax under a treaty with F1's country of residence. Such interest (including interest paid by Z) is also paid or accrued to a related person within the meaning of § 1.163(j)–2 (g) and paragraph (b) (3) of this section.

(ii) For 1991, the group's first taxable year, X, Y, and Z have the following relevant items of income and expense—

Company	Interest income	Interest expense	Exempt related person interest expense
X	$800	$500	$50
Y	200	900	600
Z		200	150
Total	800	1,600	800

(iii) Under § 1.1502–11, the group's consolidated taxable income for 1991 is $150. Adjustments to consolidated taxable income total $50, resulting in consolidated adjusted taxable income of $200. The group's net interest expense for 1991 is $800 ($1,600–$800), and its excess interest expense is $300 ($800–($1,000/2)). The group's exempt related person interest expense for 1991 is $750. The group's disallowed interest expense for 1991 is the lesser of its excess interest expense or its exempt related person interest, or $300. This $300 is a group disallowed interest expense carryforward to the group's 1992 taxable year.

Example 2.—(i) The facts are the same as in Example 1. In the group's 1992 taxable year, the members have the following relevant items of income and expense—

Company	Interest income	Interest expense	Exempt related person interest expense
X	$800	$500	$50
Y	200	900	600
Z		200	150
Total	800	1,600	800

(ii) Under § 1.1502–11, the group's consolidated taxable income for 1992 is $1,100. Adjustments to consolidated taxable income total $200, resulting in consolidated adjusted taxable income of $1,300. The group's net interest expense for 1992 is $800 ($1,600–$800), its excess interest expense is $0 ($800–($2,100/2)), and it has excess limitation for the year of $250 ($2,100/2–$800). The group is permitted to deduct all of its current exempt related person interest expense ($800), plus an amount of its disallowed interest expense carryforward from 1991 equal to its 1992 excess limitation, or $250. This leaves a disallowed interest expense carryforward to the group's 1993 taxable year of $50.

Example 3. The facts are the same as in Example 2, except that Z leaves the group on December 31, 1992. Under the rules of paragraph (b)(6)(i) of this section, Z's disallowed interest expense carryforward to its 1993 separate return year is equal to the group's remaining carryforward at the end of 1992 ($50), multiplied by a fraction, the numerator of which is $300 (the total amount of exempt related person interest expense paid or accrued by Z while it was a member of the group) and the denominator of which is $1,550 (the total amount of exempt related person interest expense paid or accrued by all members of the group). Thus, Z's carryforward to its 1993 separate return year is $9.68. The XY group's carryforward to its consolidated 1993 taxable year is reduced by that amount, and is therefore $40.32.

(c) *Operative rules for other groups*—(1) *In general*—(i) *Group members' computation years.* This paragraph (c) provides rules for the application of section 163(j) and these regulations to corporations that are members of a group not governed by paragraph (b) of this section. Under this paragraph (c), a corporation that is a group member is required to take into account the items of income, expense, and carryovers that are pertinent under section 163(j) for all group members whose taxable years end with or within the taxable year of the member with respect to which computations are required (hereafter, a "computation year").

(ii) *Treatment of consolidated subgroup.* If some of the members of a group subject to this paragraph (c) join in filing a consolidated return under section 1501 for a taxable year ("consolidated subgroup"), such consolidated subgroup shall be treated as a single member of the group for purposes of applying this paragraph (c). The consolidated subgroup's items of income, expense and carryover that are pertinent under section 163(j) and these regulations shall be determined on a consolidated group basis, as if the consolidated subgroup were described in paragraph (b) of this section.

(2) *Determination and allocation of group items.* The computations required to be made under this paragraph (c) shall be made as follows—

(i) *Step 1—Certain items determined separately.* The exempt related person interest expense, interest income, interest expense, taxable income, and adjustments to taxable income required by § 1.163(j)–2 (f), other than the adjustment for net interest expense described in § 1.163(j)–2(f)(2)(i), shall be determined separately for each member of the group.

(ii) *Step 2—Computation of certain group items*—(A) *Net interest expense.* The separately determined amounts of interest income and interest expense for each member shall be aggregated and then netted to determine the group's net interest expense.

(B) *Adjusted taxable income.* To determine the group's adjusted taxable income, the separately determined taxable income of each member and adjustments thereto (other than net interest expense) shall be aggregated, and the amount of the group's net interest expense (as determined under paragraph (c)(2)(ii)(A) of this section) shall be added to such amount.

(C) *Exempt related person interest expense.* To determine the amount of the group's exempt related person interest expense, the separately determined amounts of exempt related person interest expense for each member shall be aggregated. In making this determination, interest expense shall be treated as paid or accrued to a related person (within the meaning of § 1.163 (j)–2(g)) if it would be so treated if paid or accrued to the same payee by any member of the group.

(D) *Excess limitation carryforward.* To determine the amount of the group's excess limitation carryforward from each of the three prior computation years, the amount of each member's

VOL 56 ISS 117 JE 18 1991 UMI

excess limitation carryforward from each of such prior years shall be aggregated.

(E) *Disallowed interest expense carryforward.* To determine the amount of the group's disallowed interest expense carryforward, the amounts of disallowed interest expense carryforward of each member shall be aggregated.

(iii) *Step 3—Determination of the group's interest deduction—(A) Excess interest expense of the group.* The group's excess interest expense for the computation year shall be determined by reference to its net interest expense, adjusted taxable income, and excess limitation carryforward (as determined in Step 2). The ordering rule of § 1.163(j)-1(d) shall apply in determining which, if any, of the group's excess limitation carryforwards from prior years are absorbed in this computation.

(B) *Disallowed interest expense of the group.* The group's disallowed interest expense for the computation year shall be determined by reference to its exempt related person interest expense and excess interest expense as determined in Step 2 and Step 3, respectively. Disallowed interest expense of the group arising in the computation year shall be allocated to each member based on the following ratio:

$$\frac{\text{Exempt related person interest expense of the member for the computation year}}{\text{Exempt related person interest expense of the group for the computation year.}}$$

(C) *Excess limitation and deduction of disallowed interest expense carryforward—(1) Excess limitation.* The group's excess limitation for the computation year shall be determined by reference to its net interest expense and adjusted taxable income (as determined in *Step 2*).

(2) *Deduction of disallowed interest expense carryforward.* The amount of the group's disallowed interest expense carried forward to the current computation year (as determined in *Step 2*) that is deductible therein under § 1.163(j)-1(c) shall be determined by reference to the excess limitation of the group. The deduction for such carryforward shall be allocated to each member of the group based on the following ratio:

$$\frac{\text{Disallowed interest expense carryforward of the member from the preceding computation year}}{\text{Disallowed interest expense carryforward of the group from the preceding computation year}}$$

(D) *Excess limitation carryforward.* The excess limitation carryforward of the group, if any, from each of the two prior computation years that is not absorbed in the current computation year (as provided in Step 3) shall be allocated, by year, to each member of the group (succeeding computation years) based on the following ratio:

$$\frac{\text{Excess limitation carryforward of the member from the specific prior computation year}}{\text{Excess limitation carryforward of the group from the same prior computation year}}$$

(The group's excess limitation carryforward from the third prior computation year expires after the current computation year and therefore cannot be carried forward to the next year. See § 1.163 (j)-1 (d).)

(E) *Allocation of remaining excess limitation of the group for the computation year—(1) In general.* Excess limitation of the group for the computation year remaining after the deduction of disallowed interest expense carryforward in such year is allocated to each member of the group based on the following ratio:

$$\frac{\text{Separate excess limitation for each member of the group for the computation year}}{\text{Total of the separate excess limitations of each member of the group for the computation year}}$$

(2) Separate excess limitation. The separate excess limitation of each member shall be computed as if the member was not a member of an affiliated group for the computation year. The separate excess limitation of each member shall be determined under the rules of § 1.163 (j)-2 (c) and before reduction for the amount of any disallowed interest expense carried forward to that year by such member. For purposes of these computations, a member that has net interest income for the computation year has net interest expense of zero, and a member that has excess interest expense for the computation year has separate excess limitation of zero.

(F) *Members leaving a group.* A member leaving a group shall carry forward to succeeding taxable years any excess limitation or disallowed interest expense allocated to it under this paragraph (c). For rules limiting the use of such carryforwards when such member becomes a member of another affiliated group, or has transferred its assets in a transaction to which section 381 (a) applies, see § 1.163 (j)-5.

(3) *Examples.* The following examples illustrate the principles of this paragraph (c).

Example 1. A, B, and C are calendar-year domestic corporations that are members of an affiliated group. Table 1 depicts amounts determined in Step 1 for these corporations for their taxable years ending December 31, 1991. Under rules described in paragraph (d) of this section, this group does not satisfy the debt-equity ratio safe harbor test for 1991. Assume, for purposes of this example, that there are no excess limitation carryforwards and no disallowed interest expense carryforwards to the 1991 taxable year for any member of the group.

TABLE 1

	Interest income	Interest expense	Taxable income before applying § 163 (j)	Adjustments to taxable income (not including net interest expense)	Exempt related person interest expense
A	$600.00	$500.00	$50.00	$25.00	.....
B	200.00	900.00	200.00	75.00	$600.00
C	—	200.00	50.00	—	150.00
Total	800.00	1,600.00	300.00	100.00	750.00

(a) *Step 2 determinations.* The group's Step 2 determinations are as follows:

(1) *Net interest expense.* The separately determined interest income and interest expense of A, B, and C are aggregated. Thus, the net interest expense of the group is $800 ($1,600−$800).

(2) *Adjusted taxable income.* The separately determined taxable income and the separately determined adjustments (other than net interest expense) of A, B, and C are aggregated and added to the group's net interest expense to determine the group's adjusted taxable income of $1,200 ($300+$100+$800=$1,200).

(3) *Exempt related person interest expense.* The separately determined amounts of exempt related person interest expense of A, B, and C are aggregated to determine the group's exempt related person interest expense of $750 ($600+$150).

(b) *Step 3 determinations.* The group's Step 3 determinations are as follows:

(1) *Excess interest expense.* The group's excess interest expense is equal to its net interest expense less one-half of its adjusted taxable income (each as determined in Step 2) ($800−(½×$1,200)=$200).

(2) *Disallowed interest expense.* The group's disallowed interest is $200, which is the lesser of its exempt related person interest expense (as determined in Step 2 ($750)) or its excess interest expense (as determined in this Step 3 ($200)).

(3) *Disallowed interest expense allocations.* Disallowed interest expense for the computation year shall be allocated among A, B, and C under Step 3 based on the ratio of each member's exempt related person interest expense to the group's exempt related person interest expense. Since A has no exempt related person interest expense, no disallowed interest expense is allocated to it. Disallowed interest expense of $160 is allocated to B [($600/$750)×$200]. Disallowed interest expense of $40 is allocated to C [($150/$750)×$200]. Thus, B and C have $160 and $40, respectively, of disallowed interest expense which shall be carried forward to their next succeeding taxable years under Step 4.

Example 2. The facts are the same as in Example 1, and thus B and C have $160 and $40, respectively, of disallowed interest expense carried forward to the computation year ending December 31, 1992. Table 2 depicts the separately determined items as determined in Step 1 for the taxable years of A, B, and C ending December 31, 1992. Under rules described in paragraph (d) of this section, this group does not satisfy the debt-equity ratio safe harbor test for 1992.

TABLE 2

	Interest income	Interest expense	Taxable income before applying § 163 (j)	Adjustments to taxable income (not including net interest expense)	Exempt related person interest expense
A	$200.00	$800.00	$400.00	$50.00	$300.00
B	100.00	500.00	600.00	100.00	300.00
C	300.00	200.00	500.00	50.00	100.00
Total	600.00	1,500.00	1,500.00	200.00	700.00

(a) *Step 2 determinations.* For the 1992 computation year, the Step 2 determinations of A, B, and C are as follows:

(1) *Net interest expense.* The separately determined interest income and interest expense of A, B, and C are aggregated to determine the group's net interest expense of $900 ($1,500−$600).

(2) *Adjusted taxable income.* The separately determined taxable income and adjustments to taxable income (other than net interest expense) of A, B, and C are aggregated and added to the group's net interest expense to yield the group's adjusted taxable income of $2,600 ($1,500+$200+$900=$2,600).

(3) *Exempt related person interest expense.* Each member's separately determined amounts of exempt related person interest expense are aggregated to determine the group's exempt related person interest expense of $700 ($300+$300+$100).

(b) *Step 3 determinations.* The group has excess limitation of $400 in 1992 ((⅓×$2,600) (adjusted taxable income)−$900 (net interest expense)). All $200 of the group's disallowed interest expense carried forward to 1992 is deductible by B and C (in accordance with the allocation described in Step 3) and reduces the group's excess limitation arising in 1992 to $200 ($400−$200).

(c) Under Step 4, A, B, and C must allocate the $200 of remaining excess limitation among themselves based on the ratio that each member's separate excess limitation bears to the sum of the members' separate excess limitations.

(1) *Computation of each member's separate excess limitation.* The separate excess limitation for each member shall be determined separately, as if each member was not a member of an affiliated group. Accordingly, the separate excess limitations of A, B, and C are determined as follows. A has separate excess interest expense of $75 ($600−(⅓×$1,050)). B has a separate excess limitation of $150 (⅓×$1,100)−$400). C has separate excess limitation of $275 (⅓×$500).

(2) *Allocation of group excess limitation.* Since A has separate excess interest expense rather than separate excess limitation, no excess limitation is allocated to A. The group's excess limitation of $200 is allocated between B and C as follows. B is allocated $70.59 ($200×($150/$425)) and C is allocated $129.41 ($200×($275/$425)). Thus, B and C will carry forward $70.59 and $129.41 of excess limitation, respectively, to their succeeding taxable years.

VOL 56 ISS 117 JE 18 1991 UMI

Example 3. A, B, and C are domestic corporations that are members of the same affiliated group under the rules of paragraph (a) of this section. Table 3 depicts their Step 1 determinations for A's taxable year ending September 30, 1990, B's taxable year ending December 31, 1990, and C's taxable year ending January 31, 1991. Assume, for the taxable years illustrated in Table 3, that there is no pre-effective date excess limitation carryforward, that (under the rules described in paragraph (d) of this section) the group does not satisfy the debt-equity ratio safe harbor test the group does not satisfy the debt-equity ratio safe harbor test described in § 1.163 (j)-1 (b), and that all interest expense paid by A, B, and C is exempt related person interest expense.

TABLE 3

	Interest income	Interest expense	Taxable income before applying § 163 (j)	Adjustments to taxable income (not including net interest expense)	Exempt related person interest expense
A	$100.00	$500.00	$150.00	$50.00	$500.00
B	200.00	600.00	350.00	50.00	600.00
C		800.00	300.00	100.00	600.00
Total	300.00	1,700.00	500.00	200.00	1,700.00

(a) *A's determinations.* With respect to A's computation year ending September 30, 1990, only A is treated as a member of the affiliated group (since for B and C these are pre-effective date years). Therefore, A's disallowed interest expense is $100, which is the lesser of its excess interest expense of $100 ($400−(½×$800)) or its exempt related person interest expense ($500). A's disallowed interest expense of $100, is carried forward to A's next computation year.

(b) *B's Step 2 determinations.* For purposes of computing B's disallowed interest expense for its taxable year ending December 31, 1990, only A and B are treated as affiliated group members (since for C this is a pre-effective date year). B's Step 2 determinations are as follows:

(1) *Net interest expense.* The separately determined interest income and interest expense of A and B are aggregated to determine their net interest expense of $800 ([500+$600]−[$100+$200]).

(2) *Adjusted taxable income.* The separately determined taxable income of A and B ($150+$350) and the separately determined adjustments to their taxable income (other than net interest expense) ($50+$50) are aggregated and added to their net interest expense (as provided in Step 2) ($800) to yield the adjusted taxable income of A and B of $1,400 ($500+$100+$800).

(3) *Exempt related person interest expense.* The separately determined amounts of exempt related person interest expense of A and B are aggregated to determine their exempt related person interest expense of $1,000 ($500+$600).

(c) *B's Step 3 determinations.* B's Step 3 determinations are as follows:

(1) *Excess interest expense.* The excess interest expense of A and B is $100, which is equal to their net interest expense less one-half of their adjusted taxable income, each as determined in Step 2 ($800−(½×$1,400)).

(2) *Disallowed interest expense.* The disallowed interest expense of A and B is $100, which is the lesser of the exempt related person interest expense of A and B (as determined in Step 2 ($1,100)) or their excess interest expense (as determined in Step 3 ($100)).

(3) *Disallowed interest expense allocations.* Disallowed interest expense for the computation year is allocated to B under Step 3 based on the ratio of B's separate exempt related person interest expense ($600) to the sum of A and B's exempt related person interest expense ($1,100). Thus, the amount of disallowed interest expense allocated to B with respect to its computation year ending December 31, 1990, is $54.55 (($600/$1,100)×$100), which is carried forward to B's next computation year under Step 4. Because this is B's computation year, no allocation of disallowed interest expense for the computation year is made to A.

(d) *C's Step 2 determinations.* To compute its disallowed interest for its computation year ending January 31, 1991, C's Step 2 determinations are as follows:

(1) *Net interest expense.* The separately determined interest income and interest expense of A, B, and C are aggregated. Thus, the net interest expense of A, B, and C is $1,400 ($1,700−$300).

(2) *Adjusted taxable income.* The separately determined taxable incomes of A, B, and C ($150+$350+300) and the separately determined adjustments (other than net interest expense) of A, B, and C ($50+$50+$100) are aggregated and combined with the net interest expense of A, B, and C ($1,400, as determined in Step 2) to yield the adjusted taxable income of A, B, and C of $2,400 ($800+$200+$1,400).

(3) *Exempt related person interest expense.* The separately determined amounts of exempt related person interest expense of A, B, and C are aggregated to determine their exempt related person interest expense of $1,700 ($500+$600+$600).

(e) *C's Step 3 determination.* C's Step 3 determinations for its computation year ending January 31, 1991 are as follows:

(1) *Excess interest expense.* The excess interest expense of A, B, and C is equal to $300, which is the net interest expense of A, B, and C less one-half of their adjusted taxable incomes, each as determined in Step 2 ($1,400−(½×$2,400)).

(2) *Disallowed interest expense.* The disallowed interest expense of A, B, and C is $200, which is the lesser of the sum of the exempt related person interest expense of A, B, and C as determined in Step 2 ($1,700) or their excess interest expense as determined in this Step 3 ($200).

(3) *Disallowed interest expense allocations.* For C's computation year ending January 31, 1991, C is allocated disallowed interest expense under Step 3 based on the ratio that its exempt related person interest expense ($600) bears to the sum of the exempt related person interest expense of A, B, and C ($500+$600+$600=$1,700). The amount of disallowed interest expense allocated to C with respect to that computation year is $70.59 (($600/$1,700)×$200), which is carried forward to C's next computation year under Step 4. Because this is C's computation year, no allocation of disallowed interest expense for the computation year is made to A or B.

(d) *Debt-equity ratio of related corporations treated as one taxpayer—*(1) *In general.* In the case of an affiliated group subject to the rules of paragraphs (b) or (c) of this section, the debt-equity ratio safe harbor test described in § 1.163(j)-1(b) shall be applied on a group basis. In the case of a consolidated group subject to paragraph (b) of this section, the debt-equity ratio of the group shall be determined by aggregating the separately determined debt and assets (adjusted as described in paragraphs (d)(2) and (3) of this section) of each member of the group as of the last day of the consolidated return year. In the case of an affiliated group subject to the rules of paragraph (c) of this section, the debt-equity ratio of the group shall be determined, with respect to any member's computation year, by aggregating the separately determined debt and assets (adjusted as described in paragraphs (d)(2) and (3) of this section) of each member of the group as of the last day of its taxable year that is included in the computing member's computation year. For rules regarding the special treatment of, and an election pertaining to, assets of certain acquired corporations, see paragraph (e) of this section.

(2) *Adjustments to group members' debt.* A member's debt shall be reduced by the amount of its liabilities to another member, and by the amount of any other liability which, if included, would result in duplication of amounts in the group's aggregate debt.

(3) *Adjustments to group members' assets.* The assets of a member of a group shall be adjusted as follows—

(i) Any amount which represents direct or indirect stock ownership if any member of the affiliated group shall be eliminated from total assets of the affiliated group;

(ii) A note or other evidence of indebtedness between members of an affiliated group shall be eliminated as an asset;

(iii) With respect to transactions between members of an affiliated group in which gain or loss is deferred under §§ 1.1502–13, 1.1502–13T, 1.1502–14, or 1.1502–14T, the adjusted basis of any asset involved in such transaction shall be decreased to the extent of deferred intercompany gain, if any, that has not been taken into account; and

(iv) There shall be eliminated from the assets of the affiliated group any other amount which, if included, would result in duplication of the assets of the affiliated group.

(e) *Election to use fixed stock write-off method for certain stock acquisitions—*(1) *In general.* Notwithstanding paragraph (d)(3) of this section, in the case of a qualified stock purchase, an election may be made, in the manner described in paragraph (e)(4) of this section, to determine the group's assets in accordance with the following rules—

(i) The stock of the target corporation and target affiliates (other than stock that is described in paragraph (d)(1)(ii) of this section) shall be treated as an asset of the purchasing corporation. The basis of such stock shall be determined under section 1012, and shall be increased by the amount of the liabilities of the target corporation and target affiliates as of the close of the acquisition date. Solely for purposes of this section, these amounts (together, the "special basis") shall be amortized ratably, on a monthly basis, over the applicable fixed stock write-off period (as described in paragraph (e)(5)(vi) of this section), beginning with the first day of the month in which the acquisition date occurs.

(ii) All assets of the target corporation, target affiliates, and any other members of the affiliated group, the stock of which is owned directly or indirectly by the target or a target affiliate, shall be disregarded.

(iii) Adjustments shall be made to the special basis of the stock of the target corporation and target affiliates solely as provided in paragraphs (e)(1)(i) and (e)(2) of this section. Thus, for example, the special basis shall not be adjusted under the rules of § 1.1502–32.

(2) *Post-acquisition adjustments to special basis.* The following adjustments shall be made to the special basis of the target corporation and target affiliates—

(i) The special basis of the stock of the target corporation and target affiliates shall be increased under the rules of section 358 for any property contributed to such corporations following the acquisition date;

(ii) The special basis of the stock of the target corporation and target affiliates shall be reduced by the fair market value of any property distributed by such corporations. Solely for purposes of the preceding sentence, any transfer of assets by the target corporation, by any target affiliate, or by any corporation that would be a target affiliate but for the fact that it is not an includible corporation, to any member of the affiliated group other than such corporations, shall be deemed to be a distribution that reduces special basis, but only if such transfer qualifies for nonrecognition under any provision of the Code or is an interaffiliate loan; and

(iii) Where an adjustment is made pursuant to paragraphs (e)(2) (i) or (ii) of this section, the special basis shall be adjusted as of the last day of the month which includes the date of the transaction (or the last day of the shareholder's taxable year, whichever comes first), and the adjusted amount shall be amortized over the remaining amortization period.

(3) *Election out of fixed stock write-off method.* a taxpayer may elect out of the fixed stock write-off method for any year during the amortization period and use the adjusted tax basis of the assets of the target corporation and its target affiliates to determine its debt-equity ratio for that year and all future years.

(4) *Method for making elections—*(i) *Election to use method.* An election to use the fixed stock write-off method is made by attaching a statement to the return of the purchasing corporation (including a consolidated return, where appropriate) for the taxable year in which the election is to become effective. The election must be signed by an authorized official of, and is effective for, each member of the purchasing corporation's affiliated group.

(ii) *Election to cease to use method.* An election to cease to use the fixed stock write-off method is made by attaching a statement to the return of the purchasing corporation (including a consolidated return, where appropriate) for the taxable year in which the election is to become effective. The election must be signed by an authorized official of, and is effective for, each member of the purchasing corporation's affiliated group.

(5) *Definitions—*(i) *Qualified stock purchase.* For purposes of this paragraph (e), the term "qualified stock purchase" means a qualified stock purchase (as defined under section 338(d)(3)) with respect to which no election has been made under section 338(g), but only if the purchase is made by a corporation which is an includible corporation (as defined in section 1504(b)).

(ii) *Target corporation.* For purposes of this paragraph (e), the term "target corporation" shall mean a target corporation as defined under section 338(d)(2), but only if such corporation is includible within the purchasing corporation's affiliated group for purposes of this section.

(iii) *Target affiliate.* For purposes of this paragraph (e), the term "target affiliate" shall mean a target affiliate as defined under section 338(h)(6), but only if such corporation is includible within the purchasing corporation's affiliated group for purposes of this section.

(iv) *Purchasing corporation.* For purposes of this paragraph (e), the term "purchasing corporation" shall mean a purchasing corporation as defined under section 338(d)(1).

(v) *Acquisition date.* For purposes of this paragraph (e), the term "acquisition date" shall mean the acquisition date as defined under section 338(h)(2).

(vi) *Fixed stock write-off period—*(A) *In general.* Except as provided in paragraph (e)(5)(vi)(B) of this section, the applicable "fixed stock write-off period" means 96 months.

(B) *Acquired corporations owning long-lived assets.* If more than fifty percent, by value, of the assets of the target corporation and any target affiliates on the acquisition date are described in this paragraph (e)(5)(vi)(B), then the applicable "fixed stock write-off period means 180 months. An asset is described in this paragraph (e)(5)(vi)(B) if—

(*1*) It is inventory or a non-wasting tangible or intangible asset (*e.g.*, land or goodwill);

(*2*) In the case of a depreciable asset, it has a recovery period in excess of 25 years;

(*3*) In the case of a depletable asset, it has a recovery period for purposes of cost depletion in excess of 25 years;

VOL
56
ISS
117
JE
18
1991
UMI

(*4*) In the case of an amortizable asset, it has an amortization period in excess of 25 years.

Determinations for purposes of this paragraph (e)(5)(vi)(B) shall be made as if the asset were sold on the acquisition date, and cash, cash items, and marketable securities shall be disregarded for all purposes. A purchasing corporation is only entitled to the benefit of the paragraph (e)(5)(vi)(B) if it demonstrates that it satisfies the requirements of this paragraph in a statement attached to its return accompanying its election to use the fixed stock write-off method. Such statement must provide all necessary information, including all appropriate computations.

(6) *Inclusion of target debt notwithstanding use of fixed stock write-off method.* Debt of the affiliated group includes the liabilities of a target corporation and any target affiliates notwithstanding that the assets of such corporations are determined using the fixed stock write-off method.

§ 1.163(j)–6 Limitation on carryforward of tax attributes.

(a) *Disallowed interest expense carryforward*—(1) *Affiliated groups.* If a corporation becomes a member of an affiliated group, the amount of any disallowed interest expense carryforward from a non-affiliation year that may be deducted by the members of an affiliated group under § 1.163(j)–5 (b) or (c) may not exceed the amount, if any, of the current year's excess limitation of the affiliated group (determined under §§ 1.163(j)–2(c) and 1.163(j)–5 (b) or (c)).

(2) *Section 381(a) transactions.* The amount of any disallowed interest expense carryforward from a non-affiliation year of a transferor or distributor corporation that may be deducted by the transferee or distributee corporation (or the consolidated group of which it is a member) following a transaction described in section 381 (a) may not exceed the amount, if any, of the current year's excess limitation (determined under § 1.163(j)–2(c)).

(3) *Section 382 and SRLY.* For the application of additional limitations governing disallowed interest expense carryovers, see section 382(h) (relating to built-in deductions of loss corporations) and the regulations thereunder (including § 1.1502–91, relating to section 382(h) rule for built-in deductions of consolidated groups) and § 1.1502–15 (relating to separate return limitation year rules for built-in deductions of consolidated groups)).

(4) *Example.* The provisions of this paragraph (a) are illustrated by the following example.

Example. In 1992, Z, a non-affiliated corporation, becomes a member of a consolidated group. There is no section 382 ownership change. Under § 1.163(j)–1, Z has $3,000 of disallowed interest expense carryforward from separate return limitation years. Under § 1.163(j)–5(b), the consolidated group (including Z) has excess limitation of $2,000 for 1992 (computed without regard to any disallowed interest expense carryforward). In addition, the consolidated group has excess limitation carryforward of $1,000 from 1991. Under paragraph (a)(1) of this section, only $2,000 (the amount of the consolidated group's excess limitation for 1992) of Z's separate return limitation year disallowed interest expense carryforward is deductible in 1992. The remaining $1,000 of Z's disallowed interest expense carryforward is carried forward to subsequent years and remains subject to the limitations described in paragraph (a) of this section.

(b) *Excess limitation carryforward*—(1) *Affiliated groups*—(i) *General rule.* If a corporation becomes a member of an affiliated group, the amount of any excess limitation carryforward from a non-affiliation year that may be used by members of the group under § 1.163(j)–5 (b) or (c) may not exceed the excess, if any, of the corporation's separately computed net interest expense over 50 percent of the corporation's separately computed adjusted taxable income.

(ii) *Special rule for acquired groups.* If all the members of a group, whether or not consolidated, become members of a consolidated group, the amount of the acquired group's excess limitation carryforward (if any) from non-affiliation years that may be used by the consolidated group may not exceed the acquired group's excess interest expense (if any) for the taxable year. For this purpose, the acquired group's excess interest expense for any taxable year equals the excess interest expense of the former members of the acquired group for the taxable year computed as if they were members of a separate affiliated group making computations under § 1.163(j)–5(c).

(2) *Section 381(a) transactions.* If a corporation transfers or distributes its assets to another corporation in a transaction described in section 381(a) (other than a transaction described in section 368(a)(1)(F)), the excess limitation carryforward, if any, of the transferor or distributor from a non-affiliation year is reduced to zero immediately after the transaction.

(3) *Anti-avoidance rules.* Solely for purposes of paragraph (b)(1) of this section, in determining the net interest expense of a member or a group, interest expense paid or accrued with respect to loans incurred or assumed by such member in connection with or after becoming a member of the group are disregarded unless the loan proceeds are actually utilized by the member in its pre-affiliation business. For example, if a loan is incurred by one member of the affiliated group with excess limitation carryforward from non-affiliation years, but the proceeds of the loan are actually utilized by another member of the group, the interest expense with respect to the loan is disregarded for purposes of applying paragraph (b)(1) of this section. In addition, interest on a loan used for the acquisition of the stock of a corporation which is incurred by the acquired corporation may be disregarded for purposes of paragraph (b)(1) of this section if the facts indicate that one of the purposes for the acquired corporation's incurring the loan was to avoid the limitation of such paragraph.

(c) *Affiliation and non-affiliation years*—(1) *In general.* For purposes of this section, the taxable year of a member of an affiliated group (as defined in § 1.163(j)–5(a)) is an "affiliation year" with respect to another member if the members were members of an affiliated group (whether or not the same affiliated group as the current affiliated group) with each other on the last day of the taxable year. A "non-affiliated year" is any taxable year that is not an affiliation year.

(2) *Predecessors and successors.* For purposes of this section, any reference to a corporation or member or the years of a corporation or member includes, as the context may require, a reference to a successor or predecessor (as defined in § 1.1502–1(f)(4)) or to the years of a successor or predecessor.

(3) *Formation of affiliated groups.* For purposes of determining whether a corporation has become a member of another corporation's affiliated group solely by reason of § 1.163(j)–5(a), corporations (or affiliated groups) with greater value are deemed to acquire corporations (or affiliated groups) with lesser value and the principles of § 1.1502–75(d)(3) (governing "reverse acquisitions") shall apply.

(d) *Anti-duplication rule.* The same item of income, expense, or carryforward may not be taken into account more than once if inconsistent with the principles of section 163(j) or these regulations.

§ 1.163(j)–7 Relationship to other provisions affecting the deductibility of interest.

(a) *Paid or accrued.* For purposes of section 163(j), interest expense is not considered "paid or accrued" until such interest would be deductible but for such section.

(b) *Coordination of section 163(j) and certain other provisions*—(1) *Disallowed interest provisions.* Except as provided under § 1.163(j)–2(f)(3)(vi), interest expense which is permanently disallowed as a deduction (*e.g.* under sections 265 or 279) is not taken into account under section 163(j).

(2) *Deferred interest provisions.* Provisions which defer the deductibility of interest (such as sections 163(e)(3) and 267(a)(3)) apply before the application of section 163(j).

(3) *At risk rules and passive activity loss provisions.* Sections 465 and 469 shall be applied before applying section 163(j). There shall be no recomputation of deductions under section 469.

(4) *Capitalized interest expenses.* Provisions that require the capitalization of interest shall be applied before section 163(j). Capitalized interest is not treated as interest for any purpose under section 163(j). See regulations under section 263A(f) for ordering rules that determine whether exempt related person interest expense is capitalized under section 263A(f).

(5) *Reductions under section 246A.* Section 246A shall be applied before section 163(j). Any reduction in the dividends received deduction under section 246A shall reduce interest expense taken into account under section 163(j).

(c) *Examples.* The provisions of this section are illustrated by the following examples.

Example 1 (i) In 1990, Z, a domestic corporation that does not satisfy the debt-equity ratio safe harbor test, has $30,000 of interest expense, all of which is paid to related persons, and no interest income. Of Z's interest expense, $10,000 is permanently disallowed under section 265. The remaining $20,000 of interest expense is exempt from tax under the rules of § 1.163(j)–4. Z's adjusted taxable income for the year is $42,000.

(ii) Under paragraph (b)(1) of this section, the $10,000 interest expense that is permanently disallowed is not taken into consideration for purposes of section 163(j). Therefore, in 1990, none of Z's $20,000 interest expense is disallowed under section 163(j) since that amount is less than 50 percent of Z's 1990 adjusted taxable income ($21,000).

Example 2 (i) In 1990, Q, a domestic corporation that does not satisfy the debt-equity ratio safe harbor test, has $80,000 of adjusted taxable income and $60,000 of interest expense, of which $50,000 is exempt related person interest expense. Q has no interest income. Of Q's exempt related person interest expense, $20,000 is not currently deductible under section 267(a)(2). Assume that the $20,000 expense will be allowed as a deduction under section 267(a)(2) in 1991.

(ii) Under paragraph (b)(2) of this section, section 267(a)(2) is applied before section 163(j). Thus, in computing Q's excess interest expense for 1990, the $20,000 is not taken into account. Accordingly, in 1990, Q has no excess interest expense, since its net interest expense of $40,000 ($60,000−$20,000) is equal to 50 percent of its adjusted taxable income for the taxable year. The $20,000 of interest expense not allowed as a deduction in 1990 under section 267(a)(2) is taken into account under section 163(j) in 1991, the year in which it is allowed as a deduction under section 267(a)(2).

Example 3 (i) for 1990, H, a closely held domestic corporation that does not satisfy the debt-equity ratio safe harbor test, has $2,000 of rental income and $3,000 of deductions consisting of $1,500 of interest expense, all of which is exempt related person interest expense, $600 of rental expense, and $900 of depreciation expense. Under the passive activity loss provisions of section 469, only $2,000 of H's total expenses are allowable as deductions. These consist of $1,000 ($2,000/$3,000×$1,500) of interest expense, $400 (2,000/$3,000×$600) of rental expense, and $600 of depreciation expense ($2,000/$3,000×$900). No deduction is allowed in 1990 for H's passive activity loss of $1,000, which consists of $500 of interest expense, $200 of rental expense, and $300 of depreciation expense.

(ii) Under paragraph (b)(3) of this section, section 469 is first applied to determine the amount of interest expense allowable as a deduction ($1,000), after which the rules of section 163(j) are applied. Under section 163(j), H's $1,000 of interest expense is allowable to the extent of 50 percent of its adjusted taxable income ($1,600, determined by adding to H's taxable income (zero) its allowable deductions for interest expense ($1,000) and depreciation deductions ($600). Since H's interest expense of $1,000 (determined after applying section 469) exceeds 50 percent of its adjusted taxable income for 1990 ($800), H's excess interest expense of $200 is disallowed under section 163(j). There is no recomputation of deductions under section 469.

§ 1.163 (j)–8 Application of section 163 (j) to certain foreign corporations.

(a) *Scope.* A foreign corporation that has income, gain or loss that is effectively connected (or is treated as effectively connected) with the conduct of a trade or business in the United States for the taxable year will be subject to the rules of this section for the taxable year, provided that it has a debt-equity ratio that exceeds 1.5 to 1 on the last day of the taxable year, computed using the definitions of debt and equity under paragraph (e) of this section.

(b) *Disallowed interest expense.* In computing its effectively connected taxable income for a taxable year, a foreign corporation described in paragraph (a) of this section will not be allowed to deduct interest expense allocated to its effectively connected income that it has paid, or is deemed to have paid, to a related person (as determined under paragraph (d) of this section) if no tax is imposed with respect to such interest as determined under § 1.163(j)–4. The amount of interest expense disallowed under this paragraph (b), however, shall not exceed the corporation's excess interest expense (as defined in paragraph (c)(2) of this section). Any interest expense that is disallowed under this section may be carried forward to a subsequent taxable year of the foreign corporation and allowed in such year to the extent provided in §§ 1.163 (j)–1(c) and 1.163(j)–6 (a)(2) and (3). See § 1.163(j)–7 for rules relating to the coordination of this section with other provisions of the Code affecting the deductibility of interest.

(c) *Definitions*—(1) *In general.* The terms "net interest expense", "adjusted taxable income", "excess interest expense", and "excess limitation" shall have the same meanings as provided elsewhere in these regulations under section 163(j), with the following additions and modifications. All other terms used in this section shall have the same meanings as provided elsewhere in these regulations under section 163(j).

(2) *Net interest expense.* The net interest expense of a foreign corporation means the excess, if any, of interest expense that is allocated to the effectively connected income of the foreign corporation for the taxable year and that is taken into account under section 163(j) as provided in § 1.163(j)–7, over the amount of interest includible in its effectively connected gross income for the taxable year.

(3) *Adjust taxable income.* The adjusted taxable income of a foreign corporation is its effectively connected taxable income that is not exempt from tax by reason of a U.S. income tax treaty, modified by the additions, and subtractions provided in § 1.163(j)–2(f) that are attributable to such effectively connected income.

(4) *Excess interest expense.* The excess interest expense of a foreign corporation is the excess of its net interest expense determined under paragraph (c)(2) of this section over the sum of 50 percent of its adjusted taxable income determined under paragraph (c)(3) of this section plus any excess limitation carryforward determined under §§ 1.163 (j)–1 (d) and 1.163 (j)–6 (b) (2).

(5) *Excess limitation.* The excess limitation of a foreign corporation means the excess, if any, of 50 percent

VOL 56 ISS 117 JE 18 1991 UMI

of the adjusted taxable income of the foreign corporation (determined under paragraph (c)(9) of this section), over its net interest expense (determined under paragraph (c)(2) of this section). For rules regarding the carryforward of any excess limitation of a foreign corporation, see §§ 1.163(j)–2(d) and 1.63(j)–2(b)(2).

(d) *Determination of interest paid to a related person.* For purposes of this section, the amount of interest that is paid, or deemed paid, by a foreign corporation to a related person, as defined in § 1.163(j)–2(g), shall equal the sum of the amount of interest paid by a U.S. trade or business of the foreign corporation under section 884(f)(1)(A) to a person that is related to the foreign corporation and the amount of interest described in section 884(f)(1)(B) ("excess interest" within the meaning of § 1.884–4T(a)).

(e) *Debt-equity ratio.* For purposes of computing the debt-equity ratio of a foreign corporation subject to the rules of this section, the debt of the foreign corporation shall equal the amount of its worldwide liabilities for purposes of Step 2 of § 1.882–5, adjusted in accordance with the rules in § 1.163(j)–3(b) without regard to § 1.163(j)–(b)(3). The equity of the foreign corporation shall equal the amount of its worldwide assets for purposes of Step 2 of § 1.882–5, adjusted in accordance with the rules in § 1.163(j)–3(c) without regard to § 1.163(j)–3(c)(4), less its worldwide liabilities as determined in the preceding sentence.

(f) *Example.* The rules of paragraphs (b) through (e) of this section may be illustrated with the following example.

Example. FC, a country X corporation, is engaged in the active conduct of a trade or business in the United States. FP, a country X corporation, owns all the stock of FC. The debt-equity ratio of FC under paragraph (e) of this section is 2:1. FC has $700 of adjusted taxable income under paragraph (c)(9) of this section, and net interest expense of $600 ($600 of interest expense allocated under § 1.882–5 over $0 of effectively connected interest income) under paragraph (c)(2) of this section. Under § 1.884–4T, $500 of FC's allocated interest expense is treated as interest paid by the U.S. trade or business of FC to FP, and $100 of FC's allocated interest expense is treated as if it were paid by a wholly owned domestic corporation to FC. FC and FP are both qualified residents of country X. Under the treaty, the rate of tax on the $500 of interest paid to FP and on FC's $100 of excess interest is reduced from 30 percent to 10 percent. Thus, of the $600 of interest paid or deemed paid by FC to related persons, two-thirds of the interest is treated as tax-exempt, or $400. The excess interest expense of FC is the excess of FC's net interest expense ($600) over 50 percent of FC's adjusted taxable income ($300) or $250. Thus, $250 of the $600 of interest paid by FC to tax-exempt related persons will be disallowed in computing FC's effectively connected taxable income for the taxable year but may be carried over by FC to a subsequent taxable year.

(g) *Coordination with branch profits tax.*—(1) *Effect on effectively connected earnings and profits.* The disallowance and carryforward of interest expense under this section shall not affect when such interest expense reduces the effectively connected earnings and profits of a foreign corporation, as defined in § 1.884–1T(f).

(2) *Effect on U.S. net equity.* The disallowance and carryforward of interest expense under this section shall not affect the computation of the U.S. net equity of a foreign corporation, as defined in § 1.884–1T (c).

(3) *Example.* The principles of this § 1.163(j)–9(g) are illustrated by the following example.

Example. Assume foreign corporation FC uses money that is treated as a U.S. asset under § 1.884–1T(d)(3) in order to pay interest described in paragraph (d) of this section, and that under this section a deduction for such interest expense is disallowed. Assuming that FC's U.S. assets otherwise remain constant during the year, the U.S. assets of FC will have decreased by the amount of money used to pay the interest expense, and the U.S. net equity of FC will be computed accordingly.

§ 1.163 (j)–9 Guarantees and back-to-back loans. [Reserved]

§ 1.163 (j)–10 Effective dates.

(a) *In general.* Section 163 (j) generally applies to interest paid or accrued directly or indirectly by the payor corporation in its taxable years beginning after July 10, 1989.

(b) *Exceptions.*—(1) *Interest paid on certain fixed-term obligations outstanding on July 10, 1989.*—(i) *In general.* Interest paid or accrued with respect to a fixed-term debt obligation outstanding on July 10, 1989, shall not be treated as disallowed interest expense, even though such interest is paid or accrued in a taxable year of the payor corporation beginning after July 10, 1989. Such interest expense is, however, taken into account under section 163(j) for all other purposes (e.g. determining whether other interest expense paid or accrued during the taxable year is treated as excess interest expense).

(ii) *Certain obligations issued pursuant to written contracts binding on July 10, 1989.*—(A) *In general.* Interest paid or accrued with respect to a fixed-term obligation that is issued after July 10, 1989, pursuant to a written contract binding on that date and at all times thereafter until the issuance of the obligation, shall be treated in the same manner as interest paid or accrued with respect to a fixed-term debt obligation outstanding on July 10, 1989.

(B) *Whether a contract is binding.* In determining whether a contract is a binding contract, the following rules apply:

(*1*) A written contract between related persons (as defined in § 1.163(j)–2(g)) shall only be treated as binding on a particular date if it was enforceable on that date (whether on the basis of reliance or otherwise) by an unrelated third party.

(*2*) A written contract duly executed by authorized individuals on or before July 10, 1989, will not be considered non-binding solely because it is subject to a condition outside the control of the parties; insubstantial contract terms remain to be negotiated by the parties; or it is subject to approval by the board of directors of a corporate party where, prior to July 11, 1989, the board had authorized or been apprised of the status of negotiations and formal board approval occurred reasonably promptly following extension of the written contract without further change to the agreement (except for insubstantial contract terms).

(iii) *Modification of certain fixed-term obligations outstanding on July 10, 1989.*—(A) *In general.* If an obligation described in paragraphs (b)(1)(i) or (b)(1)(ii) of this section is modified after July 10, 1989, it shall be treated thereafter as a new obligation for purposes of section 163 (j).

(B) *Modification defined.*—(*1*) *In general.* Except as provided in this paragraph (b)(1)(iii)(B), an obligation described in paragraphs (b)(1)(i) or (b)(1)(ii) of this section shall be treated as modified for purposes of paragraph (b)(1)(iii)(A) of this section if it is revised (whether by renegotiation, assumption, reissuance, or otherwise) in a manner that would give rise to a deemed exchange of debt instruments by the obligee under section 1001. In any case, an obligation shall not be treated as modified under this paragraph (b)(1)(iii)(A) solely because a new obligor is substituted for the original obligor to reflect the terms of a reorganization described in section 368(a) or incident to a liquidation described in section 332(a).

(*2*) *Extension of maturity date.* An obligation shall be treated as modified if its maturity date is extended even if such extension would not give rise to a deemed exchange of debt instruments under section 1001.

(*3*) *Anti-abuse rule.* If a fixed-term debt obligation outstanding on July 10, 1989, or an obligation described in paragraph (b)(1)(ii)(A) of this section, is acquired by a person related to the obligor (within the meaning of § 1.163(j)–2(g)) from an obligee that is not so related, and the obligor (or any member of its affiliated group) issues new debt that has the effect of replacing the acquired debt (whether or not such issuance is to the original obligee), the acquired obligation shall be treated as modified for purposes of paragraph (b)(1)(iii) of this section.

(*2*) *Demand loans.* Interest paid or accrued prior to September 1, 1989, on a demand loan (or other obligation with no fixed term) outstanding on July 10, 1989, shall not be treated as disallowed by section 163(j) even though it is paid or accrued in a taxable year beginning after the latter date. Such interest expense is, however, taken into account under section 163(j) for all other purposes.

(c) *Carryforward of excess limitation from pre-effective date taxable years to post-effective date taxable years.* In computing a corporation's excess limitation carryforwards for its first, second, and third taxable years beginning after July 10, 1989, a corporation shall take into account amounts that would have been treated as excess limitation carryforwards to those years as if section 163(j) had been in effect throughout the corporation's taxable years beginning after July 10, 1986. For this purpose, such corporation shall be treated as having had zero excess limitation or disallowed interest expense carried forward to its first taxable year beginning after July 10, 1986.

(d) *Examples.* The following examples illustrate the operation of this section.

Example 1 (i) S is a calendar year domestic corporation. In each of 1987, 1988, 1989, and 1990, S's adjusted taxable income is $100. In 1987, 1988, 1989, and 1990, S's net interest expense is $40, $54, $55, and $50, respectively. All of S's interest expense for these years is exempt related person interest expense incurred with respect to demand loans. S does not satisfy the debt-equity ratio safe harbor test in 1990.

(ii) Pursuant to § 1.163 (j)–2 (c) and this section, S has excess limitation of $10 in 1987 which (subject to the limitations described in § 1.163 (j)–1 (d)) can be carried forward to its next three succeeding taxable years. In 1988, S's excess limitation carryforward from 1987 is reduced by $4 (its excess interest expense ($54) over 50 percent of its adjusted taxable income ($50)).

(iii) In 1989, $5 of S's $6 excess limitation carryforward from 1988 is applied against, and reduced by, S's $5 excess interest expense.

(iv) In 1990, the $1 balance of S's excess limitation carryforward from 1987 expires without tax benefit to S.

Example 2 (i) The facts are the same as in Example 1, except as follows: In 1988, S's net interest expense is $58. S's net interest expense is $55 in 1989, $50 in 1990, and $55 in 1991. S does not satisfy the debt-equity ratio safe harbor test in 1991.

(ii) In 1988, S has excess limitation carried forward from 1987 of $10, none of which is used or expires in 1988, and has excess limitation of $1 for 1988. In 1989, $5 of S's excess limitation carryforward from 1987 reduces to zero the amount of S's excess interest expense in that year. Thus, in 1990, S has total available excess limitation carryforward of $6, of which $5 is from 1987 and $1 from 1988. All $5 of S's remaining excess limitation carryforward from 1987 expires without tax benefit to S in 1990. In 1991, the $1 of excess limitation carryforward from 1988 reduces S's disallowed interest expense to $4.

Example 3 (i) D is a calendar-year domestic corporation. In 1987 and 1988, D's adjusted taxable income is $120 and its net interest expense is $80. In 1989, D's adjusted taxable income is $100 and its net interest expense is $30. In 1990, D has negative adjusted taxable income (i.e. an adjusted taxable loss) of $100 and $50 of net interest expense. In each year, all of D's net interest expense is exempt related person interest expense incurred with respect to demand loans.

(ii) D has neither excess limitation nor excess interest expense from 1987 and 1988. In 1989, D has $20 ($50–$30) of excess limitation which (subject to the limitations described in § 1.163 (j)–1 (d)) can be carried forward to its next three succeeding taxable years. In 1990, D's first taxable year in which its interest expense may be disallowed as a deduction under section 163 (j), the $20 of excess limitation D carried forward from 1989 is reduced (but not below zero) by its $100 adjusted taxable loss for that year under § 1.163 (j)–2 (f) (4). Therefore, none of D's excess limitation carryforward from 1989 can be applied to reduce D's $50 excess interest expense in 1990.

Fred T. Goldberg, Jr.,
Commissioner of Internal Revenue.

Earnings Stripping (Section 163(j)); Hearing

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of public hearing on proposed regulations.

SUMMARY: This document provides notice of public hearing on proposed regulations relating to section 163(j) of the Internal Revenue Code, regarding "earnings strippings."

DATES: The public hearing will be held on Wednesday, September 25, 1991, beginning at 10 a.m. Requests to speak and outlines of oral comments must be received by Wednesday, September 4, 1991.

ADDRESSES: The public hearing will be held in the Cash Room, Department of the Treasury Building, 1500 Pennsylvania Avenue, NW., Washington, DC. The requests to speak and outlines of oral comments should be submitted to: Internal Revenue Service, P.O. Box 7604, Ben Franklin Station, attn: CC:CORP:T:R, (INTL–0070–89), room 5228, Washington, DC 20044.

FOR FURTHER INFORMATION CONTACT: Felicia A. Daniels of the Regulations Unit, Assistant Chief Counsel (Corporate), 202–377–9226 or 202–566–3935 (not a toll-free number).

SUPPLEMENTARY INFORMATION: The subject of the public hearing is proposed regulations under section 163(j) of the Internal Revenue Code of 1986. The proposed regulations appear elsewhere in this issue of the Federal Register.

The rules of § 601.601(a)(3) of the "Statement of Procedural Rules" (26 CFR part 601) shall apply with respect to the public hearing. Persons who have submitted written comments within the time prescribed in the notice of proposed rulemaking and who also desire to present oral comments at the hearing on the proposed regulations should submit not later than Wednesday, September 4, 1991, an outline of oral comments/testimony to be presented at the hearing and the time they wish to devote to each subject.

Each speaker (or group of speakers representing a single entity) will be limited to 10 minutes for an oral presentation exclusive of the time consumed by questions from the panel for the government and answers to these questions.

Because of controlled access restrictions, attendees cannot be permitted beyond the lobby of the Department of the Treasury Building until 9:45 a.m.

An agenda showing the scheduling of the speakers will be made after outlines are received from the persons testifying. Copies of the agenda will be available free of charge at the hearing.

By direction of the Commissioner of Internal Revenue.

Dale D. Goode,
Federal Register Liaison Officer, Assistant Chief Counsel (Corporate).

Statute of Limitations on Collection After Assessment and Collection After Commencement of Judicial Proceedings

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document contains proposed regulatory amendments regarding the statute of limitations on collection after assessment and collection after the commencement of judicial proceedings. The existing regulations provide that a proceeding in court to collect an assessable tax may be begun, or a levy for the collection of an assessable tax may be made, within six years after the timely assessment of such tax. The Omnibus Budget Reconciliation Act of 1990 amended the Internal Revenue Code by extending the statute of limitations on collection after assessment from six to ten years. The existing regulations also provide that the period during which a tax liability may be collected by levy shall not be extended or curtailed by reason of a judgment against the taxpayer. The Technical and Miscellaneous Revenue Act of 1988 amended the Internal Revenue Code to provide that if a timely proceeding in court for the collection of a tax is commenced, the period during which the tax may be collected by levy shall be extended until the liability or a judgment arising out of the liability is satisfied or becomes unenforceable. The proposed regulations amend the existing regulations to conform them to the present law.

DATES: Written comments and requests for a public hearing must be received by August 2, 1991.

ADDRESSES: Send comments and requests for a public hearing to: Internal Revenue Service, P.O. Box 7604 Ben Franklin Station, Attn: CC:CORP:T:R (GL-721-88), room 5228, Washington, DC 20044.

FOR FURTHER INFORMATION CONTACT: Kevin B. Connelly, 202-535-9062 (not a toll-free call).

SUPPLEMENTARY INFORMATION:

Background

This document contains proposed regulations amending the Procedure and Administration Regulations (26 CFR part 301) under section 6502 of the Internal Revenue Code. The regulations reflect the amendment of section 6502 by section 11317 of the Omnibus Budget Reconciliation Act of 1989 (Pub. L. No. 101-239), by section 1015(a)(1) of the Technical and Miscellaneous Revenue Act of 1988 (Pub. L. No. 100-647), and by section 7811(k)(2) of the Omnibus Budget Reconciliation Act of 1989 (Pub. L. No. 101-239).

Explanation of Provisions

Section 11317 of the Omnibus Budget Reconciliation Act of 1989 (Pub. L. No. 101-508, 104 Stat. 1388) amended section 6502(a) of the Internal Revenue Code by extending the statute of limitations on collection after assessment from six years to ten years. The proposed regulation would conform the existing regulations to section 6502(a) in its present form.

Section 1015(a)(1) of the Technical and Miscellaneous Revenue Act of 1988 (TAMRA) (Pub. L. No. 100-647, 102 Stat. 3573) amended section 6502 of the Internal Revenue Code to provide that if a timely proceeding in court for the collection of a tax is commenced, the period during which the tax may be collected by levy shall be extended until the tax liability or a judgment against the taxpayer arising from the liability is satisfied or becomes "unforceable." The word "enforceable" appeared in the statute through a clerical error. The error was corrected by section 7811(k)(2) of the Omnibus Budget Reconciliation Act of 1989 (Pub. L. No. 101-239, 103 Stat. 2412), which changed the word "enforceable" to "unenforceable." The existing regulations under section 6502(a) of the Internal Revenue Code provide that the period for collection by levy after an assessment shall not be extended or curtailed by reason of a judgment against a taxpayer. This is now an incorrect statement of the law, in view of the TAMRA amendment. The proposed regulations would conform the existing regulations to section 6502(a) in its present form.

Effective dates

The proposed amendment concerning the statute of limitations on collection after assessment would be effective for taxes assessed after November 5, 1990, and for taxes assessed on or before November 5, 1990, if the period prescribed in section 6502 of the Internal Revenue Code of 1986 (determined without regard to the amendments made by the Omnibus Budget Reconciliation Act of 1990) for the collection of such taxes has not expired as of November 5, 1990. The proposed amendment concerning collection after commencement of judicial proceedings would be effective for levies issued after November 10, 1988.

Special Analyses

It has been determined that these proposed rules are not major rules as defined in Executive Order 12291. Therefore, a Regulatory Impact Analysis is not required. It has also been determined that section 553(b) of the Administrative Procedure Act (5 U.S.C. chapter 5) and the Regulatory Flexibility Act (5 U.S.C. chapter 6) do not apply to these regulations, and, therefore, an initial Regulatory Flexibility Analysis is not required. Pursuant to section 7805(f) of the Internal Revenue Code, these regulations will be submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on their impact on small business.

Comments and Requests for a Public Hearing

Before adopting these proposed regulations, consideration will be given to any written comments that are submitted (preferably a signed original and eight copies) to the Internal Revenue Service. All comments will be available for public inspection and copying in their entirety. A public hearing will be scheduled and held upon written request by any person who submits written comments on the proposed rules. Notice of the time, place and date for the hearing will be published in the Federal Register.

Drafting Information

The principal authors of these proposed regulations are Kevin B. Connelly and Anne P. Rosselot, Office of the Assistant Chief Counsel (General Litigation), Internal Revenue Service. However, personnel from other offices of the Internal Revenue Service and Treasury Department participated in their development.

List of Subjects

26 CFR Part 301

Administrative practice and procedure, Attorney, Bankruptcy, Child support, Continental shelf, Courts, Crime, Employment taxes, Estate taxes, Excise taxes, Gift taxes, Income taxes, Investigations, Law enforcement, Oil pollution, Penalties, Pensions, Reporting and recordkeeping requirements, Statistics, Taxes.

Proposed Amendments to the Regulations

Accordingly, title 26, part 301 of the Code of Federal Regulations is proposed to be amended as follows:

Paragraph 1. The authority citation for part 301 continues to read in part:

Authority: 26 U.S.C. 7805 * * *

Par. 2. § 301.6502-1 is amended by removing the words "6 years" and adding the words "10 years" in their place.

2. Paragraph (a)(2)(i) is amended by removing the words "6-year period of limitation" and adding "10-year period of limitation" in their place.

3. Paragraph (a)(3) is revised to read as set forth below.

4. Paragraph (c) is added to read as set forth below.

§ 301.6502-2 Collection after assessment.

(a) * * *

(3) If a proceeding in court for the collection of a tax is begun within the period provided in paragraph (a)(1) of this section (or within any extended period as provided in paragraph (a)(2) of this section), the period during which the tax may be collected by levy is extended until the liability for the tax or for a judgment against the taxpayer arising from the liability is satisfied or becomes unenforceable.

* * * * *

(c) **Effective dates.** (1) Paragraph (a)(1) of this section shall apply to—

(i) Taxes assessed after November 5, 1990; and

(ii) Taxes assessed on or before November 5, 1990, if the period prescribed in section 6502 of the Internal Revenue Code of 1986 (determined without regard to the amendments made by the Omnibus Budget Reconciliation Act of 1990) for the collection of such taxes has not expired as of such date.

(2) Paragraph (a)(3) of this section shall apply to levies issued after November 10, 1988.

Fred T. Goldberg, Jr.,

Commissioner of Internal Revenue.

BILLING CODE 4830-01-M

DEPARTMENT OF THE INTERIOR

Minerals Management Service

30 CFR Part 250

RIN 1010-AB34

Oil and Gas and Sulphur Operations in the Outer Continental Shelf; Information To Be Made Available to the Public

AGENCY: Minerals Management Service, Interior

ACTION: Further notice of proposed rulemaking.

SUMMARY: The Minerals Management Service's (MMS) regulations governing oil and gas and sulphur operations in the Outer Continental Shelf (OCS) include provisions for release of data and information to the public. The MMS believes that the rules need modification and clarification to ensure that the items of data and information submitted on Forms MMS-1866, Request for Reservoir Maximum Efficient Rate (MER); MMS-1867, Request for Well Maximum Production Rate (MPR); MMS-1868, Well Potential Test Report; MMS-1869, Quarterly Oil Well Test Report; and MMS-1870, Semiannual Gas Well Test Report, that are made available for public inspection are clearly identified in the regulations. This notice revises the previously published amendment to clarify which data and information submitted in association with MMS's permitting of drilling and production operations in the OCS will be available to the public.

DATES: Comments must be received or hand delivered by July 18, 1991.

ADDRESSES: Comments should be mailed or hand delivered to the Department of the Interior; Minerals Management Service; Mail Stop 4700; 381 Elden Street; Herndon, Virginia 22070; Attention: John V. Mirabella.

FOR FURTHER INFORMATION CONTACT: John V. Mirabella, Acting Chief, Engineering and Standards Branch, telephone (703) 787-1600.

SUPPLEMENTARY INFORMATION: The rules at 30 CFR part 250 governing offshore oil and gas and sulphur operations, which were published in the Federal Register on April 1, 1988, included provisions in § 250.18 governing the release of data and information to the public. Section 250.18 specifies periods of time when certain geological and geophysical data and information will be protected from disclosure to the public. Section 250.18(d) identifies specific items of data and information on Forms MMS-330, MMS-331, and MMS-331C which are to be protected from disclosure for specified time periods. The release of data and information on other MMS reporting forms is not mentioned in 30 CFR part 250. This apparent inconsistency makes it necessary to determine whether data and information submitted on Forms MMS-1866, MMS-1867, MMS-1868, MMS-1869, or MMS-1870 should be available for public inspection when the same data or information is protected from disclosure under § 250.18 when submitted on Forms MMS-330, MMS-331, or MMS-331C.

Under OCS Order No. 12, Public Inspection of Records, which was rescinded by a Federal Register Notice published April 1, 1988 (53 FR 10888), lessees were advised regarding the specific data and information that would be protected from disclosure for specified time periods. The provisions of § 250.18 are not as inclusive as OCS Order No. 12.

Under revised part 250, the Gulf of Mexico OCS Region issued further guidance in the form of a Notice to Lessees and Operators (NTL). The NTL 88-03 was issued on June 29, 1988, and provided an interpretation on the data and information to be made available to the public. To provide additional specificity in the regulations, MMS published a notice of proposed rulemaking on August 4, 1989, in the Federal Register (54 FR 32316). The proposed rule would have amended § 250.18 to identify those items of data and information submitted on MMS reporting Forms MMS-1866 and MMS-1868 that would be subject to protection from disclosure and the timetables for release of the protected data and information. The proposed rule also provided that all data and information submitted on Forms MMS-1867, MMS-1869, and MMS-1870 would be available for public inspection upon receipt.

Following the public comment period, the comments received were reviewed, further analysis conducted within MMS, and a decision was made to propose a revised rule that more closely follows the framework of OCS Order No. 12.

This proposed rule modifies the previously published proposal to provide that, with the exception of summary of the porous zones, all information on Forms MMS-330, MMS-331, and MMS-331C will be released when the well goes on production. Data and information on Forms MMS-1867, MMS-1868, MMS-1869, and MMS-1870, which are not submitted until after the well is on production, will be released upon receipt of the forms. Although MMS-1866 is submitted after the well is on production, most of the data on the form is used to estimate the reserves and will not be available for public inspection without the consent of the lessee for the same periods as those provided for in paragraph (b) of this section. The MMS believes that returning to the basic approach of releasing certain information when a well goes on production will provide a balance between the commercial interests of the lessees to protect data and information from disclosure and the interests of the public to have access to data and information concerning public lands.

VOL
56
ISS
117
JE
18
1991
UMI

Specific comments received in response to the proposed rule are discussed below.

Comment: Two commenters recommended that proprietary information received with the MPR not be released along with the MPR.

Response: Narrative information and other supporting information submitted with the MPR is released in accordance with paragraphs (a) and (b) of § 250.18 and is not affected by this rule change.

Comment: Two commenters recommended that items specified in paragraphs (d)(6)(iii) through (vii) and (ix) of § 250.18 should be released since similar information has already been released on other forms.

Response: The rule has been revised to release all information except the summary of porous zones and the reserve data when a well goes on production. This will resolve any problems of inconsistency between protection of data and information on various reporting forms.

Comment: Several commenters recommended that information be protected if similar information is available through other sources.

Response: When data and information are protected from release, it is done to maintain the commercial value of the data and information for the lessee. The fact that similar information is released on a different form is not sufficient reason to protect data and information from release.

Comment: One commenter expressed the view that information on Form MMS–1866 be treated as interpreted information and protected for 10 years rather than analyzed information which is protected for 2 years.

Response: Information on forms frequently does not fit into a clear category of either analyzed or interpreted. In deciding when information should be released, MMS has attempted to balance the protection of the lessee's commercial rights associated with the information and the public's right of access to data and information concerning public lands. In this particular case, as discussed earlier, most of the data and information submitted on Form MMS–1866 will be protected for 2 years or as otherwise provided for in paragraph (b) of this section.

Due to the changes from the August 14, 1989, proposed rule, MMS has decided to publish a new proposed rule and provide a new comment period to allow additional comments to be submitted. Comments may be submitted by the date indicated above in the **DATES** section of this preamble.

In an effort to reduce the burden associated with information collection, MMS continuously reviews forms on which information is developed. In response to this review, MMS has developed revisions to several MMS forms. These revisions have been described in **Federal Register** Notices published August 9, 1990 (55 FR 32484–32502), and August 13, 1990 (55 FR 32973). When new forms are adopted, information will be protected from being released based on the type of information. Accordingly, although this proposed rule pertains to item numbers on existing forms, information will be protected on new forms based on requirements as modified by rule changes resulting from this notice.

Author: This document was prepared by John V. Mirabella, Engineering and Technology Division, MMS.

Executive Order (E.O) 12291

The Department of the Interior (DOI) has determined that this rule will not have any effect on the economy and is not a major rule.

Regulatory Flexibility Act

The DOI has determined that this rule will not have a significant effect on a substantial number of small entities. In general, the entities that engage in offshore activities are not considered small due to the technical and financial resources and experience necessary to safely conduct such activities.

Paperwork Reduction Act

This rule does not affect any information collection which requires approval by the Office of Management and Budget under 44 U.S.C. 3501 *et seq.*

Takings Implication Assessment

The DOI has determined that the rule does not represent a governmental action capable of interference with constitutionally protected property rights. Thus, a Takings Implication Assessment has not been prepared pursuant to Equal Opportunity 12630, Government Action and Interference with Constitutionally Protected Property Rights.

National Environmental Policy Act

The DOI has determined that this action does not constitute a major Federal action affecting the quality of the human environment; therefore, preparation of an Environmental Impact Statement is not required.

List of Subjects in 30 CFR Part 250

Continental shelf, Environmental impact statements, Environmental protection, Government contracts, Incorporation by reference, Investigations, Mineral royalties, Oil and gas development and production, Oil and gas exploration, Oil and gas reserves, Penalties, Pipelines, Public lands-mineral resources, Public lands-rights-of-way, Reporting and recordkeeping requirements, Sulphur development and production, Sulphur exploration, Surety bonds.

Dated: April 26, 1991.

Barry A. Williamson,

Director, Minerals Management Service.

For the reasons set forth above, 30 CFR part 250 is proposed to be amended as follows:

PART 250—[AMENDED]

1. The authority for part 250 continues to read as follows:

Authority: Sec. 204 Pub. L. 95–372, 92 Stat. 629 (43 U.S.C. 1334).

2. Section 250.18 is amended by revising the introductory text of paragraph (d) and by adding new paragraphs (d)(4), (d)(5), (d)(6), (d)(7), and (d)(8) to read as follows:

§ 250.18 Data and information to be made available to the public.

* * * * *

(d) Data and information identified in paragraphs (d)(1) through (d)(4) of this section shall not be available for public inspection without the consent of the lessee for the same periods as those provided in paragraph (b) of this section or until the well goes on production, whichever is earlier, except that the summary of porous zones shall not be released when the well goes on production unless the period of time specified in paragraph (b) has expired. Paragraphs (d)(5) through (d)(8) of this section identify forms on which all data and information are available for public inspection.

* * * * *

(4) On Form MMS–1866, Request for Reservoir Maximum Efficient Rate (MER), in the "Basic Data Required" section, items 1 through 31.

(5) On Form MMS–1867, Request for Maximum Production Rate, all items of data and information are available for public inspection.

(6) On Form MMS–1868, Well Potential Test Report, all items of data and information are available for public inspection.

(7) On Form MMS–1869, Quarterly Oil Well Test Report, all items of data and information are available for public inspection.

(8) On Form MMS–1870, Semiannual Gas Well Test Report, all items data and information are available for public inspection.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

49 CFR Parts 218 and 229

[Docket No. LI–7; Notice 3]

RIN 2130–AA83

Event Recorders

AGENCY: Federal Railroad Administration (FRA), (DOT).

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: FRA is proposing to improve the safety of railroad operations and to enhance the quality of information available for post accident investigations by requiring event recorders on passenger trains and on heavy, fast freight trains.

DATES: (1) *Written comments:* Written comments must be received by September 20, 1991.

(2) *Public hearing:* A public hearing will be held at 10 a.m. on August 22, 1991. Persons desiring to make an oral statement at the hearing should notify the Docket Clerk before August 19, 1991.

ADDRESSES: (1) *Written comments:* Address comments to the Docket Clerk, Office of Chief Counsel, RCC–30, Federal Railroad Administration, Department of Transportation, 400 Seventh Street, SW., room 8209, Washington, DC 20590. Comments should identify the docket and notice number and five copies should be submitted. Persons wishing to receive confirmation of the receipt of their comments should include a self-addressed stamped postcard. The Dockets Section is located in room 8209 of the Nassif Building, 400 Seventh Street, SW., Washington, DC 20590. Public dockets may be reviewed between the hours of 8:30 a.m. and 5 p.m., Monday through Friday, except holidays.

(2) *Public hearing:* A public hearing will be held at room 2230, Nassif Building, 400 Seventh Street, SW., Washington, DC 20590. Persons making statements at the hearing should provide five copies of their remarks at the hearing.

FOR FURTHER INFORMATION CONTACT: Phil Olekszyk, Deputy Associate Administrator for Safety, RRS–2, room 8320A, Federal Railroad Administration, Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590 (telephone 202–366–0897), or Thomas A. Phemister, Office of Chief Counsel, Federal Railroad Administration, 400 Seventh Street, SW., Washington, DC 20590 (telphone 202–366–0635).

SUPPLEMENTARY INFORMATION:

Statutory background

Sections 10 and 21 of the Rail Safety Improvement Act of 1988 (RSIA), Public Law 100–342, 102 Stat. 624 (June 22, 1988), provide as follows:

Sec. 10. Event Recorders.

Section 202 of the Federal Railroad Safety Act of 1970 is amended by adding at the end the following new subsection:

"(m)(1)(A) The Secretary shall, within 18 months after the date of the enactment of the Rail Safety Improvement Act of 1988, issue such rules, regulations, standards, and orders as may be necessary to enhance safety by requiring that trains be equipped with event recorders within 1 year after such rules, regulations, orders, and standards are issued.

(B) If the Secretary finds that it is impracticable to equip trains as required under subparagraph (A) within the time limit under such subparagraph, the Secretary may extend the deadline for compliance with such requirement, but in no event shall such deadline be exended past 18 months after such rules, regulations, orders, and standards are issued.

"(2) For the purpose of this subsection, the term 'event recorders' means devices that—

"(A) record train speed, hot box detection, throttle position, brake application, brake operations, and any other function the Secretary considers necessary to record to assist in monitoring the safety of train operation, such as time and signal indication; and

"(B) are designed to resist tampering."

(Sec. 21. Tampering With Safety Devices.

Section 202 of the Federal Railroad Safety Act of 1970 is amended by adding at the end the following new subsection:

"(o)(1) The Secretary shall, * * *, issue such rules, regulations, orders, and standards as may be necessary to prohibit the willful tampering with, or disabling of, specified railroad safety or operational monitoring devices.

"(2)(A) * * *.

"(B) * * *.

(Subparagraphs (A) and (B) establish penalties for "railroad companies" and "individuals" who tamper with or disable safety or operational monitoring devices.)"

Proceedings to Date

On November 28, 1988, FRA published an advance notice of proposed rulemaking (ANPRM) in this docket. 53 FR 47557. The ANPRM summarized the state of FRA's knowledge about event recorders, called for written comments, and announced a public hearing to gather further information.

The substantive comments submitted by interested parties, the testimony given, and the exhibits received at the January 1989 hearing were helpful to the agency. A brief summary shows:

- That the producers of event recorders are fully capable of developing a unit that will detect and record virtually any parameter mandated by FRA;
- That the installed cost of an 8–10 event recorder ranges from $4,000 to $7,000;
- That the major railroads are ordering event recorders on most of their new locomotives;
- That the line haul railroads have between 40 and 75 percent of their road locomotives equipped with some kind of event recorder;
- That event recorders have proven useful in many major and minor accident investigations and that they have utility in monitoring engineer performance as well;
- That recorders, other than those gathering data on paper tapes, do not require daily maintenance and can be adequately maintained on the standard 92–day interval; and
- That the state of the art in event recorders is rapidly developing, both in terms of the capabilities of the equipment and in terms of its economic efficiency and that FRA should craft any event recorder requirement so that future innovations are not discouraged.

The railroad industry, especially the short line segment of it, believes that mandatory black box installations cannot be cost justified; rail labor believes that recorders are a good idea, as long as they are accurate; and the National Transportation Safety Board favors the installation of their devices. FRA is well aware of the costs of event recorders, and of the other requirements mandated by DOT, but FRA has been charged by the Congress to require that trains be equipped with event recorders if doing so will enhance safety.

On February 3, 1989, in a related proceeding, FRA published a final rule in Docket RSOR–10 (54 FR 5485). Published primarily in implementation of section 21 of the RSIA, FRA addressed tampering with "safety devices" and "operational monitoring" devices, including event recorders. In that rule, FRA prohibited tampering with event recorders and granted limited authority to deactivate such devices as were currently installed.

Background

According to the 1989 edition of Railroad Facts, a compendium of railroad industry statistics published by

VOL
56

1991
UMI

the Association of American Railroads (AAR), Washington, DC, there were approximately 20,000 locomotive units in service on the major freight railroads and Amtrak at the close of 1988. The vast majority of these were in freight or passenger road service. About two-thirds of the fleet has been added since 1970 and just under one-fourth of locomotives are eight years old or less.

Every major railroad uses event recorders of some type. Of the road locomotives in the national fleet, over 17,000 are owned and operated by ten major railroads and Amtrak. More than 9,000 of these are now equipped with a recorder retaining eight or more events and over 3,500 carry recorders for two or three events. This total of 12,500 locomotives is a significant increase from the nearly 7,500 locomotives determined to be equipped at the time FRA published the ANPRM in this proceeding in November 1988; more than 70 percent of the road locomotives on the nation's major railroads are now equipped with some form of event recorder.

Public attention focused on locomotive safety devices following the January 4, 1987, Amtrak/Conrail accident at Chase, Maryland. Several entities interested in the investigation of that accident mentioned the help that event recorders could have been in analyzing the events leading up to the fatal collision.

What an Event Recorder Does

It seems safe to say that the public perception of the role and capabilities of an event recorder is largely based on the use made of such devices in the air transport industry. In the investigation of an air disaster, it is often the flight data recorder that, together with the cockpit voice recorder, provides either the key clues about what happened leading up to the crash or the most reliable verification of a disaster hypothesis based on observations made of the debris. The importance of a flight data recorder stems from the complex, three dimensional environment in which airplanes move, the typical disintegration of the aircraft when it hits the ground, and the fact that the plane may fall to earth a considerable distance, both vertically and horizontally, from the actual "place" where the catastrophic event took place.

By contrast, railroads operate in two dimensions and, except in rare cases, investigators usually have significantly more wreckage at the actual site of the accident from which they can glean the clues that lead to a determination of cause. None of the locomotive event recorders in common use on America's railroads records as much data as the black boxes in a transport airplane and FRA has not found any railroad equipping its locomotives with anything like the cockpit voice recorders found in large passenger airplanes.

Section 10 of the RSIA defines an event recorder as a device that records "train speed, hot box detection, throttle position, brake application, brake operations," and other functions the Secretary considers necessary to assist in monitoring the safety of train operations, "such as time and signal indications."

The newer recorders in common use by the railroad industry, those on the more than 9,000 road locomotives already equipped with a device that records at least eight events, accumulate the following information:

1. Time;
2. Speed;
3. Traction motor amperage;
4. Distance traveled;
5. Throttle position;
6. Dynamic brakes;
7. Locomotive individual brake; and
8. Train brake pipe pressure reduction.

A typical locomotive-mounted device records (on magnetic tape or in digital form in a computer "memory") the last 48 hours of locomotive events. The information is stored on three data channels, with a fourth dedicated to tracking elapsed time.

The timing channel carries a constant, analog signal of 6.25 Hertz used as a time reference, especially when the data are played back. This channel is used in the generation of time, speed, and distance.

A second channel records wheel revolutions. When calibrated for drive wheel diameter, this channel, working with the time signal, is used to generate unit speed and distance travelled.

A third channel records traction motor current, thus measuring the amount of "work" the motor is performing. Among other derivatives of this data is the determination of presence and force of the dynamic brake.

The fourth channel records what has been called a "digital word." Such a word, with eight bits of information, is used to retain information on throttle position, automatic brake pipe pressure, application of the locomotive (the "independent") brake, and such parameters as direction of travel. Each condition is sampled, placed into correct order within the eight-bit digital word, and recorded. When and if the data are retrieved, a playback unit reads and decodes the proper sequence and displays the data on a readout medium such as a strip chart. Because the "digital word" recorder collects and stores "samples" of conditions, a condition change may be noted after the time in which it actually happens. This lag may be as much as 15 seconds.

Skilled technicians can use recorder data to recreate, typically, a history of the last 48 hours of a locomotive's operation. While airplane black boxes usually retain only the final minutes of a trip, locomotives need to record over a longer interval. Unless damaged, for instance, the power consist on a train is often used to remove from the scene any cars still on the tracks, clearing them for the rerailing and cleanup crews. A 48-hour "tape loop" is common, both to provide a picture of the entire trip leading to the accident and to allow the locomotives pulling a train involved in an accident to play a clean-up role without "erasing" essential data by recording over it.

Experts in accident reconstruction use all available data to determine the cause of an accident and are almost always successful. Sometimes, the initial determination is relatively easy: If the cars are tipped off the track and lying in consist order along the outside of a curve, overspeed is a safe initial assumption. Cause is also readily determined from visible evidence in cases such as a broken wheel on the first car derailed, a rail turned under the second locomotive, or marks of a derailed wheel down the ties until that car meets a switch or a grade crossing.

Other accidents are more difficult to analyze, and even seemingly simple accidents may very occasionally have contributing causes that elude investigators. FRA believes it has generally been successful in determining the cause of an accident, whether or not event recorder data are available. Of the nearly 300 accidents (of all types, including grade crossing accidents and employee fatalities) directly investigated by the agency each year, all but 3 to 6 percent are closed with known cause. Because of the nature of the railroad environment, it is usually possible to interview the crew and learn from them what was happening immediately before the accident. With recorder data, the accuracy of their statements can be verified, but even without event recorder data, the stated actions of the crew can often be programmed into train simulators and the train "run" to test the accuracy of the crew's testimony.

Event recorder data increases both the quality and the quantity of information available to the investigator, an especially important factor in analyzing complex post-accident scenes. When the death of the head-end crew means that eyewitness testimony is not available, or when the combined effects of high speed, heavy tonnage, or fire make it extremely difficult to read the physical evidence, the event recorder may provide or lead to vital intelligence otherwise destroyed. Even so, it would be wishful thinking to believe that, as more and more trains are equipped with event recorders, it will significantly change the already very low percentage of "undetermined" accidents. As an example, in 1989, FRA investigated 225 train and grade crossing accidents. In almost half the cases (44 percent) agency records show that the investigators had recorder data available to them. FRA determined the cause in all but three of the 225 accidents; of that three, two of the trains did not have event recorders and one did.

While they cannot guarantee discovery of the cause of an accident, event recorder data have demonstrated their utility. On May 12, 1989, a Southern Pacific train ran away on a hill outside San Bernardino, California, and derailed at a curve near the botton of the hill. Portions of the train and its cargo landed in a residential area, resulting in four fatalities, two serious injuries, and seventeen minor ones. An early suspected cause was poor train handling by the crew, but after rigorous analysis of all the data, including that available from the event recorders, the National Transportation Safety Board absolved the crew from blame. Instead, the crucial factors included a failure to accurately report the total weight of the trains, a failure to tell the crew about the condition of the dynamic brakes available to them, and an unclear operating rule about brake applications with heavy trailing tonnage on grades. FRA understands that Southern Pacific has made operational changes to its train handling procedures, including a change in its air brake rules, as a result of the information learned in this accident investigation. At San Bernardino, it was immediatley obvious that the train left the tracks because it was going too fast, but the data provided by the on-board event recorder also allowed investigators to look more closely at and for the cause of the overspeed. Once this was known, a "lessons learned" approach led to operational corrections aimed at enhancing the quality of information available to the engineer and improving the decision making capabilities of this key position.

FRA's mission, to enhance the safety of railroad operations overall, cannot be centered on an exhaustive look at each railroad accident. FRA must deal with the railroad industry as a whole and use a total program of investigation, incentives, research, and enforcement to foster the safest system possible. Certainly, valuable insight is possible from the detailed examination of a single accident—as is proven by the San Bernardino example and by the detailed examinations the National Transportation Safety Board performs on a handful of rail accidents each year—and the expanded availability of event recorder data will allow FRA to reap the benefits of both wide- and narrow-based accident analysis.

The Presence of Event Recorders in the Railroad Industry

As noted, major freight railroads in the United States already have more than 70 percent of their road locomotives equipped with an event recorder of some type; because most trains are powered by more than one locomotive, it is well within probability that up to 90 percent of the major freight railroads' trains are equipped with event recorders. Essentially all of the National Railroad Passenger Corporation's (Amtrak's) locomotives are equipped and, while FRA's information is incomplete, at least some commuter railroads have event recorder equipped locomotives. FRA cannot make a precise estimate of the percentage of "equipped" commuter equipment based on the information now available to this agency, nor can it be certain that the recording devices on all "equipped" power or control units meet RSIA standards. Commuter railroads and railroads operating commuter service are urged to supply this information in response to this notice.

Only a very few of the switching and terminal railroads and smaller line-haul companies have equipped their locomotives with event recorders, but these power units are most often used in low speed operations for which speed indicators are not required.

So far as FRA has been able to determine, virtually all new road locomotives purchased by major United States railroads are factory equipped with an event recorder capable of gathering and retaining information on the parameters established by the RSIA, with one exception: "Hot box" (over heated journal) detection. The reasons this "event" is not captured by any locomotive-mounted recorder in common current use are simple: First, the railroads have determined that hot box readings should be recorded at central locations and, for reasons developed below, FRA agrees with this practice. Second, the over-heated journal is something that happens outside the locomotive. Signals from hot box detectors are now routed to other locations on a railroad; bringing that signal "on board" could be done, but recording data on the locomotive that is now recorded elsewhere would be duplicative and would serve no apparent safety purpose. Third, FRA believes that the present methods of hot box detection and recording is more complete; it is also more secure in that there is virtually no chance that the data would be destroyed, altered, or tampered with in an accident.

Some railroads notify the crew of a train passing a hot box detector of both negative and positive readings, but the common procedure is either to call the crew with orders to stop and inspect a suspected hot box or to have a wayside indicator convey the same message. In either event, the fact of the detection of a suspected over-heated journal and of the notification to the crew is recorded and available for examination by FRA and railroad officials. FRA's review of the railroad industry's practices regarding hot box detection, reporting, and recording have convinced the agency that no additional requirements are necessary. There would be no safety purpose served by requiring the recording of hot box detection by a device mounted on a locomotive.

Cost and Utility Considerations

Since approximately 9,000 of the nearly 20,000 locomotives operated by the freight railroads and Amtrak are now equipped with an eight (8) event recorder, the $7,000 installed cost (a composite of costs mentioned in testimony at the ANPRM hearing in this matter) of this recorder means that the railroad industry would have to pay about $77,000,000 to equip the remainder of the fleet. The annual cost of maintenance and supply would be approximately $3,300,000 for these additional recorders. The situation with the commuter railroads, as noted earlier, is more complex due to the variety of equipment operated and the lack of precise information about the extent to which it is equipped with event recorders that meet RSIA standards. FRA's estimate is that the additional cost to have event recorders on this equipment could exceed $7,000,000. Maintenance expenses would add additional, continuing costs.

Because the smaller freight railroads are not now equipped with recorders as a general rule, the cost impact of a rule requiring event recorders on each locomotive would be borne disproportionately by this segment of

VOL 56 ISS 117 JE 18 1991 UMI

the industry. However, section 10 of the RSIA does not require each locomotive to be equipped; the statutory requirement is that, where necessary to enhance safety, trains shall be equipped.

Unlike good brakes, sound track, and qualified engineers, event recorders only indirectly prevent accidents. Their primary safety benefit lies in their use as a tool to diagnose train handling accidents, to continue building a knowledge base of accident causation and, through sampling actual train movements, to evaluate changes in methods of train operation. Event recorders also provide a way to sample the train-handling ability of an engineer in a real-world environment rather than in a locomotive simulator. Another regulatory proceeding, Docket No. RSOR-9, Qualifications for Locomotive Engineers, will deal more directly with the possibilities of and the opportunities for using electronic devices rather than human supervisors to monitor the performance of locomotive engineers.

The Need for Event Recorders

FRA has determined that event recorders are necessary in the railroad environment. Whether they are used to aid accident analysis, to record locomotive engineers, or to monitor equipment performance, event recorders provide data that is free from bias, free from the inconsistent powers of human observation, and free from the possible taint of self-interest. The data extracted from recorders can be played over and over as part of the analysis process without losing its consistency.

Event recorders provide FRA with a growing pool of verifiable factual information about how trains are operated and what happens when they become part of an accident.

Even the presence of event recorder data will not ensure the discovery of the cause of every accident nor eliminate all sources of controversy about causation, but as shown in the Southern Pacific's San Bernardino derailment, event recorder data can help direct the attention of an accident investigator to possible causes not at first suspected.

FRA has heard some interested parties say that event recorders cannot prevent accidents, they can only give information about the accident that just happened. However, the mere presence of a recorder may make train crews operate more closely to the desired parameters and adhere more strictly to the railroad's book of rules. More important, by reducing the potential for bias from accident investigations, the data from event recorders can help pinpoint operational changes that may prevent the next accident.

It is axiomatic that complex accidents are the hardest to analyze and the most likely to challenge the investigator. FRA believes that event recorders will prove most advantageous as an aid in investigating "complex" accidents, that is, accidents with the greatest potential to destroy evidence or to hamper evidence gathering. In FRA's experience, the faster a train goes, and the heavier it is, the higher the in-train dynamic forces and the more likely it is to leave a confused, complex post-accident scene.

Recognizing this, FRA proposes to require that, within 12 months of the publication of a final rule in this docket, freight trains moving at speeds of more than 30 miles per hour and with a consist of 50 or more cars, or longer than 4,000 feet, whichever is less, be powered by at least one locomotive equipped with an in-service event recorder. Section 10 of the RSIA permits an extension of this deadline upon a finding that it is impracticable to equip trains within a year; FRA welcomes comments on the proposed deadline.

There is precedent for adopting a low speed "floor" for railroad safety regulations. Federal rules now exempt locomotives that operate at 20 miles per hour or less from a mandatory speed indicator requirement (49 CFR 229.117). Twenty miles per hour is just under the maximum speed for Class two track and FRA's experience is that Class two track does not produce the kinds of complex post-accident environments that call the full capabilities of event recorders into play. This is at least partially the result of the laws of physics: The energy of a moving object, that is, the energy that must be dissipated in a train accident, varies with the square of speed. Thus, the energy of even a single rail car at 20 miles per hour is more than doubled at 30.

Speed is one parameter that can lead to a complex post-accident environment, the size of the train is another. In the railroad industry, there are two common expressions to describe "big" trains: Train length and trailing tonnage. Of the two, train length is far easier to calculate because, most of the time, it requires only a count of the cars (and an allowance for a long string of unusually long care such an multi-platform intermodel flat cars). An accurate measure of trailing tonnage means either passing the whole train across a scale or adding the known weights of all cars in the train. This may seen no more difficult that counting the cars, but so many cars move subject to a weight agreement that calculating trailing tonnage yields an estimate at best. With the lessons of the San Bernardino accident still fresh, FRA could not condone estimated trailing tonnages.

FRA realizes that 50 coal hoppers are certainly much shorter that 50 intermodal flat cars, especially if many of the latter are multi-platform cars. Thus, while "faster than 30 miles per hour and longer than 50 cars (30/50)" might be a convenient, shorthand way of thinking about the requirement under consideration, the regulation proposed in this notice would set a standard of 50 cars or 4,000 feet, whichever is less. This agency believes that such a standard will strike a fair balance between short, heavy cars and long, light ones, at least in terms of their potential to create the kind of complex accident scene for which Federal investigators see the event recorder as most advantageous.

FRA also proposes to require that, within 12 months of the publication of a final rule in this docket, all passenger trains be powerful by at least one locomotive equipped with an in-service event recorder, regardless of operating speed or train length. As with freight trains, FRA realizes that section 10 of the RSIA permits an extension of this deadline upon a finding that it is impracticable to equip trains within a year; FRA welcomes comments on the proposed deadline.

While FRA recognizes a special duty of care owed to railroad passengers, this agency is also aware that passenger trains have significant operational and equipment differences from freight trains and that these differences may allow what would otherwise seem different treatment to be accorded passenger and freight operations while maintaining equivalent, high levels of safety. In general:

- Passenger trains have faster acting brakes than freight trains, (with less draft gear slack their brake control valves can be designed to produce faster application);
- Passenger trains have a graduated release feature and a higher brake pipe pressure; with a brake pipe that is typically shorter than a freight train's, they also have less pressure gradient;
- Passenger trains have more even brake application throughout the train because there is only a little variation between the empty and loaded weight of passenger cars and because there is significantly less variation in density throughout the train;
- Passenger trains have an anti-skid feature that allows more controlled stops under adverse traction conditions;
- Passenger equipment in general, and commuter equipment in particular, is not interchanged away from its owner, thus allowing inspection and maintenance forces to become more familiar with each piece of equipment and more directly responsible for its safe and efficient operation; and
- Commuter operations are characterized by tight control over trains through automatic train control, centralized dispatching, short blocks, tight schedules, cab signals, and short trains; these factors allow fairly precise isolation of accident causes.

FRA believes that event recorders are necessary to enhance safety on big, fast freight trains and on passenger trains; in addition, FRA believes that it is appropriate for railroad safety for all railroad locomotives equipped with speed indicators to also, eventually, be equipped with event recorders. In this notice, FRA is proposing that railroad locomotives ordered new or rebuilt after 24 months from the publication of a final rule in this docket, if they are equipped with a speed indicator, be equipped with an event recorder.

For these purposes, FRA will adopt the same definition for "rebuilt" as in the glazing standards: A loocomotive shall be considered "rebuilt" if it has undergone an overhaul that has been identified by the railroad as a capital expense under Interstate Commerce Commission accounting standards.

In that the vast majority of new and rebuilt locomotives are being equipped with event recorders now, this requirement will impose virtually no additional burden on the industry; because the event recorder will, essentially, have paid for itself by the time today's new locomotives are purchased by small railroads, FRA anticipates no measurable cost penalty at the timer of that transaction, either.

FRA proposes to exempt locomotives from an event recorder requirement if they are also exempt from the speed indicator requirement at 49 CFR 229.117. FRA believes it would serve no useful safety purpose to require the recording of speed (or other operating functions) on a locomotive that was not required to have a device to indicate its speed to the engineer.

FRA has not proposed an immediate requirement to install event recorders on new and rebuilt locomotives in recognition of the long lead times typical in the acquisition of large machinery.

FRA's proposal covers only the minimum data to be recorded and maintained and does not mean in any way to limit the initiative of any railroad or any developer of event recorders to purchase, or to develop, a device with greater capabilities than are proposed here. To the same effect, this proposed rule does not touch on the issue of how data shall be captured, how it shall be stored, or how it shall be retrieved. Railroads and suppliers are encouraged to continue to make the advances in the state of the art that have characterized the recent past.

The recorders to be required by this proposal must be capable of collecting and retaining, for a 48-hour time span (that is, the most recent 48-hour period of locomotive operation) data on train speed, throttle position, brake applications and operations (including dynamic brake application and operation), time, distance, and direction of motion. This proposal includes a requirement that event recorder data be preserved for Federal investigators if an equipped locomotive is involved in an accident required to be reported under part 225.

In addition to requiring that passenger trains, and freight trains of 50 or more cars operating at speeds in excess of 30 miles per hour, be equipped with event recorders, this proposal mandates that event recorders be serviced at the quarterly inspection interval and that they be in full functional operation before the quarterly inspection is deemed to have been completed.

FRA is also proposing that, except under very limited circumstances, individuals who deliberately disable event recorders be subject to civil penalties and disqualification from safety-sensitive functions.

FRA believes that railroads may have valid reasons for turning off event recorders or for temporarily removing from service those already installed. Accordingly, it is proposed that a qualified person may temporarily remove an event recorder from service by disconnecting its power, by removing the recording medium, or by physically removing the unit from the locomotive. The reason for taking the recorder out of service must be noted on a tag attached to the device (or left in its place) and the recorder may not stay out of service beyond the next quarterly inspection. Compliance with these requirements will protect the qualified individual from allegations of tampering or deliberate disabling.

This proposal also includes a requirement that, if a train powered by a locomotive equipped with an event recorder is involved in a reportable accident, the railroad must, to the extent possible, preserve the data recorded by the device for analysis by Federal investigators.

FRA has assumed throughout the proceeding thus far that the event recorder would be installed in, and operate on electrical power from, a locomotive. If any interested party believes this is an incorrect assumption or believes that this proposal needs to be modified to accommodate railroad vehicles other than locomotives as the location of an event recorder, FRA specifically solicits such comments. In this same vein, FRA is prepared to accommodate commuter "push/pull" operations where the operating railroad has elected to place the recorder in the control car and would welcome suggested regulatory language on this point.

FRA is particularly interested in receiving comments about the kinds of events that should be recorded, for instance, on electric MU equipment used in commuting service. One major commuter authority has suggested that the parameters should be:

(1) Time;
(2) Speed;
(3) Power mode of train;
(4) Brake mode of train;
(5) Cab signal aspect; and
(6) ATC cut-out.

FRA solicits comments on this suggestion and on the cost of implementing it for MU electric commuter operations rather than the parameters now proposed.

FRA realizes that "passenger trains" includes more than Amtrak and certain commuter operations. As only some of the potential examples, while steam operations are excluded from part 229, this agency is aware that some excursion trains are powered by diesel or electric locomotives of no less historical importance than a restored steam locomotive and that steam excursions often include a current-vintage diesel locomotive as a "helper." Circus trains, together with what are commonly known as "Director's" or "Shipper's Specials" are, most likely, passenger trains, as are trains with guard cars, and with camp cars. Wreck trains, where mechanical, track, and signal forces ride to a derailment to assist in rerailing and cleanup efforts also fall under the description of passenger trains.

On the surface, FRA does not see an easy, logical reason to exclude the examples described above from the passenger train category; however, FRA is very interested in the thoughts of those most affected by inclusion or by exclusion. In the area of commuter rail operations, FRA would appreciate comments exploring the possibility that a speed and length "floor," as proposed for freight operations, will place event recorders where they will have a significantly favorable impact on railroad safety.

Finally, FRA recognizes that there may be railroad operations where event

VOL 56 ISS 117 JE 18 1991 UMI

recorders are neither necessary nor desired. In developing a final rule in this proceeding, FRA invites comments about any such operations. FRA requests that anyone furnishing information on this topic do so with as much specificity as possible, including, where applicable, such facts as accident rates/records, unique operational characteristics, and the inadaptability of particular equipment to event recorders. While the agency believes it is premature now to establish the criteria for successfully seeking a waiver of any event recorder regulation which may emerge from this proceeding, FRA is always willing to consider such petitions from affected parties.

Relation to Other Rulemaking Proceedings

In its final rule proscribing tampering with safety devices, published February 3, 1989 (54 FR 5485), FRA required installed event recorders to be operative unless the locomotive was being hauled dead-in-tow or unless the event recorder became inoperative enroute, in which case FRA imposed a notification requirement similar to that used for certain signal-related equipment that controls or restricts train operations. The AAR filed a Petition for Reconsideration in that Docket. Some of what is being proposed in this NPRM responds to that petition.

FRA agrees that it serves no safety purpose to create a situation in which a locomotive without an installed event recorder could be used in a power consist while a locomotive with an inoperative event recorder could not. FRA notes that section 10 of the RSIA seeks to have event recorders, not on locomotives, but on those trains where the equipment is necessary to enhance safety.

FRA also agrees with the AAR that restricting the operations of locomotives with inoperative event recorders may discourage their installation. As noted above, event recorders must be in operating order at the time the locomotive is cleared from the quarterly inspection, but these devices, like any mechanical or electronic device, are subject to random failures and FRA sees no safety benefit in severely restricting the operation of a locomotive costing upwards of a million dollars because of the failure of a fifty dollar part in a black box. This proposal would, of course, impose some restriction on the use of a locomotive without an operating event recorder: It could not be the only power unit on a freight train hauling 50 or more cars faster than 30 miles per hour, nor could it be the only power unit on a passenger train.

Based on FRA's further analysis and on the arguments advanced in the AAR's Petition for Reconsideration, FRA believes that, while event recorders come under the general category of safety devices by some meanings of that term and, while they may positively encourage crews to obey, they are not the kind of active safety devices that have an immediate effect on train operation. Event recorders do not function in the same way or for the same purpose as does equipment used to assure that the locomotive operator is alert, or that the engineer is not physically incapacitated, or that the person at the controls is aware of and complying with the indications of a signal or other operational control system.

Accordingly, FRA proposes to remove references to event recorders from subpart D of part 218 and to include all regulations relating to event recorders in the Railroad Locomotive Safety Standards in part 229.

The use of event recorders in the monitoring of locomotive engineer performance is covered in Docket No. RSOR-9.

Qualifications for Locomotive Engineers

Analysis by Section

Section 229.5

This section would be amended by adding a definition of "event recorder" as a tamper resistant device to record data on train speed, direction of motion, time, distance, throttle position, and brake applications and operations over the most recent 48 hours of operation of the electrical system of the locomotive on which it is installed.

Section 229.25. This section would be amended by adding a requirement that event recorders be maintained according to standards set by the manufacturer, the supplier, or the owner of the unit. A written copy of the maintenance instructions would have to be maintained at the location where the work is being done.

Section 229.135

This new section of the regulations would contain the bulk of FRA's event recorder requirements. Subsection (a) would require that passenger trains, and freight trains operated at speeds of more than 30 miles per hour and with a consist of more than 50 cars or more than 4,000 feet in length, whichever is less, be powered by at least one locomotive equipped with an in-service event recorder.

Subsection (b) would require that new and rebuilt locomotives placed in service after 24 months following the publication of a final rule in this proceeding be equipped with an event recorder.

Subsection (c) would exempt locomotives that operate at 20 miles an hour or less from the requirement to have an event recorder.

Subsection (d) would define "rebuilt" as an overhaul identified by the railroad as a capital expense under Interstate Commerce Commission accounting standards.

Subsection (e) would provide that individuals who willfully disable event recorders would be subject to civil penalties and disqualification proceedings. Subsection (f) would allow a railroad to take an event recorder out of service in one of three enumerated ways and would require that the reason for removing it from service be recorded on a tag attached to the unit or left in place of the unit. Event recorders would not remain out of service beyond the next quarterly inspection and maintenance of the locomotive on which they are installed.

Subsection (g) would provide for the security, and subsequent use by Federal investigators, of data from the recorders of locomotives involved in accidents. Subsection (h) would establish part 229 as the exclusive part dealing with locomotive event recorders.

Regulatory Impact

E.O. 12291 and DOT Regulatory Policies

This proposal has been evaluated in accordance with existing policies and procedures, and is considered to be nonmajor under Executive Order 12291 but significant under DOT policies and procedures (44 FR 11034, February 26, 1979).

In an effort to design a regulatory approach that would achieve the maximum benefits at the minimum cost to the industry, FRA developed five regulatory options:

(1) Taking no action;

(2) Requiring the installation of event recorders on all locomotives;

(3) Requiring the installation of event recorders on all new and rebuilt locomotives;

(4) Requiring event recorders on Amtrak inter-city passenger trains as well as all high-speed, heavy, tonnage freight trains; and

(5) Requiring event recorders on all passenger trains, high-speed and heavy tonnage freight trains, and all new and rebuilt locomotives.

FRA's analysis shows that, while the fourth option is the most economically efficient, the fifth option is both economically reasonable and fully responsive to the public interest as expressed by Congress in the RSIA. It will result in event recorders first being present when and where they do the most good, and at the same time direct that, over the period of the industry's normal purchase/rebuild cycle, virtually all locomotives will be equipped, thus increasing, for example, the potential that at least one unit's event recorder data will survive even a major, head-on collision. The chosen option avoids a massive, immediate, and costly retrofit program, the burden of which would fall disproportionately on small and medium sized railroads, and it will improve FRA's ability to accurately identify the causes of accidents involving complex scenarios involving emergency train handling and train dynamics.

A full analysis of economic impact, including the impact on small entities pursuant to the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), of the rule proposed here and of the other options considered by FRA has been made and is included in the docket file of this proceeding.

Regulatory Flexibility Act

These regulations will not have any measurable impact on small entities. FRA therefore certifies that this rule will not have a significant impact on a substantial number of small entities.

Paperwork Reduction Act

The proposed rule contains information collection requirements. FRA will submit these information collection requirements to the Office of Management and Budget for approval in accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 *et seq.*). FRA has endeavored to keep the burden associated with this proposal as simple and minimal as possible. The proposed sections that contain information collection requirements and the estimated time to fulfill each requirement are as follows:

Proposed Section	Brief Description	Estimated Avg. Time
229.25	Maintaining manufacturer's, supplier's, or owner's instructions for event recorder inspection, maintenance, and testing	15 min.
229.135(f)	Tagging reason for removing event recorder from service	1 min.
229.135(g)	Record of "security" of event recorder data	15 min.

All estimates include the time for reviewing instructions; searching existing data sources; gathering or maintaining the needed data; and reviewing the information. FRA solicits comments on the accuracy of the estimates, the practical utility of the information, and alternative methods that might be less burdensome to obtain this information. Persons desiring to comment on this topic should submit their views in writing to FRA and to Mr. Wayne Brough, Regulatory Policy Branch (OMB No. 2130-New), Office of Management and Budget, New Executive Office Building, 726 Jackson Place, NW., Washington, DC 20530.

Environmental Impact

This rule will not have any identifiable environmental impact.

Federalism Implications

This rule should not have substantial effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. Thus, in accordance with Executive Order 12612, preparation of a Federalism Assessment is not warranted.

The Proposed Rule

In consideration of the foregoing, FRA is proposing to amend parts 218 and 229, title 49, Code of Federal Regulations as follows

PART 218

§ 218.5 [Amended]

1. By amending § 218.51(b)(3) by removing the reference to "event recorder" so that it will read as follows:

* * * * *

(b) * * *

(3) Under the provisions of § 229.9 of this chapter, provided that when a locomotive is being operated under the provision of § 229.9(b) a designated officer has been notified of the defective alerter or deadman pedal at the first available point of communication.

§ 218.53 [Amended]

2. By amending § 218.53(c) by removing the phrase: "or to record data concerning the operation of that locomotive or the train it is powering."

§ 218.61 [Amended]

3. By removing § 218.61(c) in its entirety.

Appendix B to Part 218 [Amended]

4. By amending appendix B to part 218 by removing all references to event recorders and to devices which record data such as train speed and air brake operations.

PART 229—[AMENDED]

1. The authority citation for part 229 is revised to read as follows:

Authority: 45 U.S.C. 22–34, as amended; 45 U.S.C. 431, 437, 438, as amended, 49 App U.S.C. 1655(e), as amended; Pub. L. 100-342; and 49 CFR 1.49 (c), (g), and (m).

§ 229.4 [Amended]

2. By amending § 229.4 (information collection requirements) as required.

§ 229.5 [Amended]

3. By amending § 229.5 to redesignate paragraphs (g) through (m) as paragraphs (h) through (n) and add a new paragraph (g) as follows:

* * * * *

(g) *Event Recorder* means a device that monitors and records data on train speed, direction of motion, time, distance, throttle position, and brake applications and operations (including dynamic brake applications and operations) over the most recent 48 hours of operation of the electrical system of the locomotive on which it is installed and is designed to resist tampering.

* * * * *

§ 229.25 [Amended]

4. By amending § 229.25 by adding a new paragraph (e) as follows:

* * * * *

(e) The event recorder, if installed, shall be inspected, maintained, and tested in accordance with the instructions of the manufacturer, supplier, or owner thereof. A written copy of the instructions in use shall be kept at the point where the work is performed.

5. By adding a new § 229.135 as follows:

§ 229.135 Event recorders

(a) Effective (12 months after the publication of a final rule in this docket) passenger trains, and freight trains

VOL 56 ISS 117 JE 18 1991 UMI

operated at speeds of 30 miles an hour or more and with a consist of more than 50 cars or more than 4,000 feet long, whichever is less, must be powered by at least one locomotive equipped with an in-service event recorder.

(b) Except as provided in paragraph (c) of this section, new or rebuilt locomotives placed in service after (24 months after the publication of a final rule in this docket) shall be equipped with event recorders.

(c) Event recorders are not required on locomotives that operate exclusively at a speed of 20 miles per hour or below.

(d) For purposes of this part, a locomotive shall be considered "rebuilt" if it has undergone an overhaul that has been identified by the railroad as a capital expense under Interstate Commerce Commission accounting standards.

(e) Except as provided in paragraph (f) of this section, any individual who willfully disables an event recorder or tampers with or alters the data recorded by such a device is subject to a civil penalty as provided in appendix B of this part and to disqualification from performing safety-sensitive functions on a railroad if found unfit for such duties under the procedures in 49 CFR part 209.

(f) An event recorder may be removed from service by disconnecting its power source, by physically removing it from the locomotive on which it is installed, or by removing its recording medium, only upon the authorization of a qualified person who shall record the reasons for removing the device from service and the period during which the device will remain out of service on a tag to be applied to the device or to the place from which the device was removed, as appropriate. The tag described in § 229.9(a)(3) or other suitable tag may be used for this purpose. An event recorder may not remain out of service beyond the completion of the next periodic inspection as set forth in §§ 229.23 and 229.25 of this subpart.

(g) If any locomotive equipped with an event recorder is involved in an accident that is required to be reported under part 225, the railroad using the locomotive shall, to the extent possible, and to the extent consistent with the safety of life and property, preserve the date recorded by the device, either by safeguarding the locomotive until FRA or the National Transportation Safety Board (Board) removes the recording medium or the recorder or by removing the recording medium or the recorder from the locomotive and providing secure storage for it, for analysis by FRA or by the Board. This preservation requirement shall expire 60 days after the date of the accident unless FRA or the Board notifies the railroad in writing that the data are desired for analysis. Upon receipt of this written notification, the railroad may either deliver the data to the requesting Federal agency or retain it pending written notification from the same agency that the data are no longer necessary for analysis.

(h) Notwithstanding any other requirements in this Chapter, inspection, maintenance, and testing of event recorders is limited as set forth in § 229.23(e) of this subpart. Other than a locomotive due for periodic inspection under §§ 229.23 and 229.25 of this subpart, a locomotive with an inoperative event recorder is not deemed to be in improper condition or unsafe to operate or a non-complying locomotive under §§ 229.7 and 229.9 of this subpart.

Issued in Washington, DC., on June 11, 1991.

Gilbert E. Carmichael,
Administrator, Federal Railroad Administration.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 17

RIN 1018AB56

Endangered and Threatened Wildlife and Plants; Threatened Status Proposed for Sedum integrifolium ssp. leedyi (Leedy's roseroot)

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule.

SUMMARY: The Service proposes to list *Sedum integrifolium* ssp. *leedyi* (Leedy's roseroot) as a threatened species under the authority of the Endangered Species Act of 1973, as amended (Act). This rare inhabitant of algific talus cliffs occurs in only 6 locations (4 sites in Minnesota and two sites in New York). This species is threatened by the rarity of its fragile and unique habitat. This proposed rule, if made final, will extend Federal protection provided by the Act to *Sedum integrifolium* ssp. *leedyi*. Critical habitat is not proposed for this plant. The Service seeks data and comments from the public.

DATES: Comments from all interested parties must be received by August 19, 1991. Public hearing requests must be received by August 2, 1991.

ADDRESSES: Comments and materials concerning this proposal should be sent to Division of Endangered Species, U.S. Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111. Comments and materials received will be available for public inspection, by appointment, during normal business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Chief, Division of Endangered Species, (See ADDRESS section), at 612/725-3276 or FTS 725-3276.

SUPPLEMENTARY INFORMATION:

Background

Leedy's roseroot, *Sedum integrifolium* ssp. *leedyi* (Rosendahl et Moore) Clausen, was discovered by John L. Leedy in 1936 growing high on a limestone cliff along the Root River, in Olmsted County, Minnesota (Clausen 1975). Leedy's roseroot is an isolated subspecies of a common, western United States species. The range of the western subspecies and Leedy's roseroot do not overlap and they appear to have been isolated for a long time (approximately 10,000 years). Leedy's roseroot is more robust than most other *Sedum* sp. and it is characterized by tall floral stems. Its leaves are glaucious, oblong, and blue-green averaging 30mm long with irregularity dentate to entire margins. The plant is dioecious and the flowers are small arranged in cormybose cymes. The petals are usually dark red with varying shades of yellowish white at the base. Some populations from Minnesota have petals that are dark red to the base and others have petals with greenish white bases. Some plants in New York have petals with yellow or greenish yellow at the base. The subspecies has a thick, scaly rhizome that is usually conspicuous in the crevices of rock cliffs where it grows (Rosendahl and Moore 1947; Coffin and Pfannmuller 1988).

Leedy's roseroot grows on moderate cliffs in Minnesota (limestone cliffs with bands of bentonite) and on limestone and shale cliffs in New York. The plant is limited to those areas on the cliffs where ground water seeps through the cracks in the rock. As a result, the local environment remains cool and wet throughout the summer; a condition probably similar to the climate of the last ice age. Leedy's roseroot is believed to be a remnant of the Pleistocene flora and it may have once ranged across most of the continent before the last period of glaciation (Coffin and Pfannmuller 1988).

Leedy's roseroot was added to the Plant Notice of Review in 1980 as a Category 2 species. At present, it is known to occur in only six sites, five of these sites are viable. Four locations occur in Minnesota and two in New York. The Minnesota population is robust; each site contains 1000 to 3000 individuals and occupies over 100 yards of cliff face. The four Minnesota locations include Dear Creek and Boar Creek (in Fillmore County), Simpson Cliff and the Whitewater Wildlife Management Area (in Olmsted County) (Ostlie, *in litt.*, 1988, Coffin and Pfannmuller 1988, Reinsnider, pers. comm.). The New York population occurs on the western edge of Seneca Lake, with approximately 10,000 individuals in an area 1 mile long (Rosendahl and Moore 1947). A single robust individual plant occurs at Watkins Glen; but, it is thought to have been introduced (Clausen 1975).

Because of its unique habitat, the subspecies is often associated with other globally rare and endangered species. For example, several species of rare landsnails are often found in conjunction with Leedy's roseroot including *Novisuccinea* ssp. *A* and *N.* ssp., *Hendersonia occulta*, and *Vertigo hubrichti*. In addition, several rare plants occur at these sites including *Adoxa moschatellina*, *Chrysosplenium iowense*, *Draba arabisans*, *Arabis laevigata* (smooth rock cress), *Poa wolfii* (Wolf's spear grass) (Ostlie *in litt.*, 1988).

Summary of Factors Affecting the Species

Section 4(a)(1) of the Endangered Species Act (16 U.S.C. 1531 *et seq.*) and regulations (50 CFR part 424) promulgated to implement the listing provisions of the Act set forth the procedures for adding species to the Federal lists. A species may be determined to be an endangered or threatened species due to one or more of the five factors described in section 4(a)(1). These factors and their application to *Sedum integrifolium* ssp. *leedyi* (Leedy's roseroot) are as follows:

A. The present or threatened destruction, modification, or curtailment of its habitat or range

In Minnesota, ground water contamination and change are the greatest threat to this subspecies. Contamination of the ground water is likely through filling or dumping in sink holes adjacent to the cliffs. Sink holes are highly vulnerable because they provide direct access to the ground water and are the main source of seepage on the cliffs. One of the largest sink holes behind Simpson Cliff in Minnesota has already been used for dumping.

In New York, the Glenora Cliff site is threatened by residential development along Seneca Lake. The uplands adjacent to the cliff are primarily wooded and the homes are being built away from the cliff edge along Glenora Road. However, many homeowners have built stairs down to the lake shore and some have cleared vegetation from the cliff to enhance their view of the lake. In some areas, trees have been cut and dumped over the cliff edge onto to the areas where the roseroot grows. These changes can directly impact the plants, as well as affect the microhabitats of the area causing inadvertent damage to the population.

Agricultural pesticides in adjacent upland farmland (cropland in Minnesota and vineyards in New York) directly affect the quality of the ground water. Road building and quarrying within the karst formations of the Minnesota region pose additional threats. This type of disruption would affect the subsurface water flow in the area and change the ground water seepage at the cliff face. Since the plants require this seepage, any change could impact them. Residential development around Seneca Lake in New York could also affect ground water quality and flow.

Erosion of the cliffs is another major threat. The slopes are unstable, and in places, overlying vegetation sloughs off leaving behind bare talus and soil. Natural erosion and rock slides often result in the loss of individual plants. In 1990, runoff from heavy rains dislodged many individual plants from the cliff face at Deer Creek in Minnesota. Uncontrolled cropland runoff has cut gullies into at least one of the sites in Minnesota. Grazing is a direct threat at one Minnesota site, especially where the cliff gives way to a more gentle slope. The talus slope below the Deer Creek moderate cliff in Minnesota was extensively damaged by grazing in 1988. The grazing completely extirpated another rare plant population, *Chrysosplenium iowense*, from the site. Logging in the hardwood forests above some of the sites will cause problems with erosion in the future (Coffin and Pfannmuller 1988, Ostlie 1988).

B. Overutilization for commercial, recreational, scientific, or educational purposes

Commercial trade in this species is not known to occur. It seems unlikely that commercial trade will develop because the species is difficult to propagate or cultivate.

C. Disease or predation

None that is known to affect this taxon.

D. The inadequacy of existing regulatory mechanisms

Sedum integrifolium ssp. *leedyi* is legally protected in New York where it is listed as endangered. State law prohibits removal or destruction of the plant without permission of the landowner. The largest population at Seneca Lake in New York is privately owned. A one acre parcel of land containing Leedy's roseroot along 200 feet of Seneca Lake is legally protected by the Finger Lakes Land Trust with a conservation easement through The Nature Conservancy. The subspecies is listed as endangered in the State of Minnesota where the state endangered species act prohibits the taking, transport, or sale of any endangered or threatened plant or animal (or parts thereof). However, the Minnesota law has numerous exceptions that weaken its coverage in agricultural areas. Three of the four areas in Minnesota with Leedy's roseroot are in agricultural areas and are owned privately, the fourth site is owned and protected by the State of Minnesota (plans are needed for the specific protection of Leedy's roseroot at this site). Two of the privately owned sites have been registered in the Minnesota Registry of Natural Areas with The Nature Conservancy; but, the registry does not confer legally binding protection. The Federal Endangered Species Act offers possibilities for additional protection of this taxon through section 6 cooperation between the States and the Service, and through section 7 (interagency cooperation) requirements.

E. Other natural or manmade factors affecting its continued existence

In addition to the dangers of development, ground water contamination, erosion, and grazing, the subspecies is highly vulnerable because the areas where it is located are isolated, disjunct, few in number, and for the most part, they are privately owned and vulnerable. It is unlikely that more populations will be found in Minnesota because extensive surveys of approximately 400 algific slopes have been undertaken during the last ten years with only one new location for Leedy's roseroot in that time.

The Service has carefully assessed the best scientific and commercial information available regarding the past, present, and future threats faced by this species in determining to propose this rule. Based on this evaluation, the

VOL
56
ISS
1
17
JE
18
1991
UMI

preferred action is to list *Sedum integrifolium* spp. *leedyi* as threatened.

Critical Habitat

Section 4(a)(3) of the Act, as amended, requires that to the maximum extent prudent and determinable, the Secretary designate any habitat of a species which is considered to be critical habitat at the time the species is determined to be endangered or threatened. The Service finds that designation of critical habitat is not prudent for this species at this time. This determination is based on the premise that such a designation would not be beneficial to the species (50 CFR 424.12). The limited number of populations and individuals of Leedy's roseroot make this plant particularly vulnerable to taking, an activity difficit to enforce against and only regulated by the Act with respect to plants in cases of (1) removal and reduction to possession of listed plants from lands under Federal jurisdiction, or their malicious damage or destruction on such lands; and (2) removal, cutting, digging up, or damaging or destroying in knowing violation of any State law or regulation, including State criminal trespass law. Such provisions are difficult to enforce. Even though this species has not proven to be easily cultivated, collectors might be attracted to the locale of known populations by the publication of maps and other specific location information. The cliffs and slopes where these populations are located are unstable and trespass could increase erosion at the sites. No benefit from critical habitat designation has been identified that outweighs the threat of trespass and collection. The principal landowners have been notified of the location and importance of protecting this species habitat. Protection of this species' habitat will be addressed through the recovery process and through the section 7 jeopardy standard. The Service finds that designation of critical habitat is not presently prudent for this species.

Available Conservation Measures

Conservation measures provided to species listed as endangered or threatened under the Endangered Species Act include recognition, recovery actions, requirements for Federal protection, and prohibitions against certain practices. Recognition through listing encourages and results in conservation actions by Federal, State, and private agencies, groups, and individuals. The Endangered Species Act provides for possible land acquisition and cooperation with the States and requires that recovery actions be carried out for all listed species. The protection required of Federal agencies and the prohibitions against certain activities involving listed plants are discussed, in part, below.

Section 7(a) of the Act, as amended, requires Federal agencies to evaluate their actions with respect to any species that is proposed or listed as endangered or threatened and with respect to its critical habitat, if any is being designated. Regulations implementing this interagency cooperation provision of the Act are codified at 50 CFR part 402. Section 7(a)(4) requires Federal agencies to confer informally with the Service on any action that is likely to jeopardize the continued existence of a proposed species or result in destruction or adverse modification of proposed critical habitat. If a species is listed subsequently, section 7(a)(2) requires Federal agencies to ensure that activities they authorize, fund, or carry out are not likely to jeopardize the continued existence of such a species or to destroy or adversely modify its critical habitat. If a Fedeal action may affect a listed species or its critical habitat, the responsible Federal agency must enter into formal consultation with the Service.

The Act and its implementing regulations found at 50 CFR 17.71, and 17.72, for threatened species set forth a series of general trade prohibitions and exceptions that apply to all threatened plants. All trade prohibitions of section 9(a)(2) of the Act, implemented by 50 CFR 17.71 apply. These prohibitions, in part, make it illegal for any person subject to the jurisdiction of the United States to import or export, transport in interstate or foreign commerce in the course of a commercial activity, sell or offer for sale this species in interstate or foreign commerce, or to remove and reduce to possession the species from areas under Federal jurisdiction. In addition, for listed plants, the 1988 amendments (Pub. L. 100-478) to the Act prohibit the malicious damage or destruction on Federal lands and the removal, cutting, digging up, or damaging or destroying of listed plants in knowing violation of any State law or regulation, including State criminal trespass law. Certain exceptions apply to agents of the Service and State conservation agencies. The Act and 50 CFR 17.72 also provide for the issuance of permits to carry out otherwise prohibited activities involving threatened species under certain circumstances.

It is anticipated that few trade permits would ever be sought or issued because the species is not common in cultivation or in the wild. Requests for copies of the regulations on plants and inquiries regarding them may be addressed to the Office of Management Authority, U.S. Fish and Wildlife Service, P.O. Box 3507, Arlington, VA 22203 (703/358-2093).

Public Comments Solicited

The Service intends that any final action resulting from this proposal will be as accurate and as effective as possible. Therefore, comments or suggestions from the public, other concerned governmental agencies, the scientific community, industry, or any other interested party concerning this proposed rule are hereby solicited. Comments particularly are sought concerning:

(1) Biological, commercial trade, or other relevant data concerning any threat (or lack thereof) to this species;

(2) The location of any additional populations of this species and the reasons why any habitat should or should not be determined to the critical habitat as provided by section 4 of the Act;

(3) Additional information concerning the range, distribution, and population size of this species;

(4) Current or planned activities in the subject area and their possible impacts on this species; and

Final promulgation of the regulation(s) on this species will take into consideration the comments and any additional information received by the Service, and such communications may lead to a final regulation that differs from this proposal.

The Endangered Species Act provides for a public hearing on this proposal, if requested. Requests must be received within 45 days of the date of publication of the proposal. Such requests must be made in writing and addressed to Regional Director, U.S. Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111.

National Environmental Policy Act

The Fish and Wildlife Service has determined that an Environmental Assessment, as defined under the authority of the National Environmental Policy Act of 1969, need not be prepared in connection with regulations adopted pursuant to section 4(a) of the Endangered Species Act of 1973, as amended. A notice outlining the Service's reasons for this determination was published in the **Federal Register** on October 25, 1983 (48 FR 49244).

BILLING CODE 3410-03-M

American Cyanamid Co.; Intent to Grant an Exclusive License

AGENCY: Agricultural Research Service, USDA.

ACTION: Notice of intent.

SUMMARY: Notice is hereby given that the U.S. Department of Agriculture, Agricultural Research Service, intends to grant an exclusive license to American Cyanamid Company, Wayne, New Jersey, on U.S. Patent Application Serial No. 07/609,848, "Compositions and Methods for Biocontrol Using Fluorescent Brighteners," filed November 7, 1990.

DATES: Comments must be received on or before August 19, 1991

ADDRESSES: Send comments to: USDA-ARS-Office of Cooperative Interactions, Beltsville Agricultural Research Center, Baltimore Boulevard, Building 005, room 401-A, BARC-W, Beltsville, Maryland 20705-2350.

FOR FURTHER INFORMATION CONTACT: M. Ann Whitehead of the Office of Cooperative Interactions at the Beltsville address given above; telephone: 301/344-2786, (FTS) 344-2786.

SUPPLEMENTARY INFORMATION: The USDA-ARS intends to grant to American Cyanamid Company an exclusive license to practice the aforementioned invention. Notice of Availability was given in the Federal Register on January 31, 1991. Patent rights to this invention are assigned to the United States of America as represented by the Secretary of Agriculture. It is in the public interest to so license this invention as American Cyanamid Company has submitted a complete and sufficient application for a license and is collaborating with the Agricultural Research Service under the terms of a Cooperative Research and Development Agreement providing for further development of the invention.

The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7 and will conform to the intent of 15 U.S.C. 3710a. The prospective exclusive license may be granted unless, within sixty days from the date of this published Notice, ARS receives written evidence and argument which establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

William H. Tallent,

Assistant Administrator.

BILLING CODE 3410-03-M

Forest Service

Kitty Stover Timber Sale, Beaverhead National Forest, Beaverhead County, MT

AGENCY: Forest Service, USDA.

ACTION: Revised Notice of Intent to prepare an Environmental Impact Statement (original notice of intent was published 3/6/90 55 FR 7923).

Due to other work projects delaying the analysis, the DEIS for the Kitty Stover Timber Sale is expected to be filed with the Environmental Protection Agency (EPA) and available for public review by February 15, 1992 instead of the June 1, 1990 date published in the original Notice of Intent. Accordingly, the FEIS is re-scheduled for completion by July 1, 1992. All other information provided in 55 FR 7923 is still accurate. Additional comments on the project should be received by September 1, 1991 to receive timely consideration in preparation of the Draft EIS.

FOR FURTHER INFORMATION OR TO SUBMIT COMMENTS CONTACT: Barry Hicks, District Ranger, Dillon Ranger District, Beaverhead National Forest, 610 North Montana 59725, telephone (406) 683-3900.

Dated: June 3, 1991.

Ronald Prichard,

Forest Supervisor, Beaverhead National Forest.

BILLING CODE 3410-11-M

Rural Electrification Administration

Alabama Electric Cooperative

AGENCY: Rural Electrification Administration, USDA.

ACTION: Notice of intent to hold scoping meetings and prepare an Environmental Assessment and/or Environmental Impact Statement.

SUMMARY: Notice is hereby given that the Rural Electrification Administration (REA), pursuant to the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321 *et seq.*), the Council on Environmental Quality (CEQ) Regulations for Implementing NEPA (40 CFR parts 1500-1508), and REA Environmental Policies and Procedures (7 CFR part 1794) may prepare an Environmental Assessment or an Environmental Impact Statement (EIS) for its Federal action related to a proposal by Alabama Electric Cooperative of Andalusia, Alabama, to repower its existing McWilliams Plant. REA may provide financing assistance to Alabama Electric Cooperative for project construction cost.

Notice is also given of a public scoping meeting to be held in conjunction with the review of the possible environmental consequences and the determination of potentially significant environmental issues associated with the REA Federal action related to the proposed project.

FOR FURTHER INFORMATION CONTACT: The primary point of contact for this project is Mr. Alex M. Cockey, Jr., Director, Southeast Area—Electric, Rural Electrification Administration, room number 0270, South Agriculture Building, 14th and Independence Avenue, SW. Washington, DC 20250-1500, telephone number (202) 382-8436. For information on specific aspects of Alabama Electric Cooperative's proposal contact Mr. Mike Noel, Alabama Electric Cooperative, P.O. Box 550, Andalusia, Alabama 36420, telephone (205) 222-2571.

SUPPLEMENTARY INFORMATION: Alabama Electric Cooperative tentatively proposes to repower its McWilliams Plant by adding a 100 MW gas-fired combustion turbine to its existing 43 MW capacity.

Alternatives to be considered by REA and Alabama Electric Cooperative include: (a) No action, (b) purchase power from other utilities or independent power producers, (c) other technologies for electric generation, (d) conservation, (e) interruptible loads, and (f) load management.

A public scoping meeting related to REA's environmental review of the project will be held at the Headquarters of Alabama Electric Cooperative, Highway 29 North, Andalusia, Alabama, on Tuesday, July 30, 1991.

Comments regarding the proposed project may be submitted orally or in writing at the scoping meeting or in writing within 30 days after the July 30 meeting to REA at the address provided in this notice.

Government agencies, other organizations, and the public are invited to participate in the planning and analysis of the proposed project. Issues to be discussed at the public scoping meeting may include, but are not limited to, determination of the project scope, the nature and extent of reasonable alternatives, identification of environmental issues and the scope of those issues, and other reviews or studies that REA or other Federal, State of Alabama, or local agencies may conduct.

To be presented at the meeting will be an alternative evaluation and site selection study prepared by Alabama Electric Cooperative. The alternative evaluation and site selection study are available for public review at REA or Alabama Electric Cooperative at the address provided herein. They can also be reviewed at the Andalusia Public Library, South Three Notch Street, Andalusia, Alabama 36420, telephone 222-6612.

From information provided in the alternative evaluation, the siting study, input from interested local, State of Alabama and Federal agencies and the public, Alabama Electric Cooperative will prepare an Environmental Analysis to be submitted to REA for review. If significant effects are not evident based on a review of the Environmental Analysis and other relevant information, REA will prepare an Environmental Assessment to determine if the preparation of an EIS is warranted.

Should REA determine that the preparation of an EIS is not warranted, it will prepare a Finding of No Significant Impact (FONSI). The FONSI will be made available for public review and comment for 30 days. REA will not take its final action related to the project prior to the expiration of the 30-day period.

Any final action by REA related to the proposed project will be subject to, and contingent upon, compliance with all relevant Federal environmental laws and regulations and completion of environmental procedures as prescribed by CEQ and REA environmental policies and procedures as applicable.

Dated: June 10, 1991.

John H. Arnesen,

Assistant Administrator-Electric.

DEPARTMENT OF COMMERCE

International Trade Administration

Initiation of Antidumping and Countervailing Duty Administrative Reviews

AGENCY: International Trade Administration/Import Administration, Department of Commerce.

ACTION: Notice of initiation of antidumping and countervailing duty administration reviews.

SUMMARY: The Department of Commerce has received requests to

VOL 56 ISS 117 JE 18 1991 UMI

conduct an administrative review of various antidumping and countervailing duty orders and findings with May anniversary dates. In accordance with the Commerce Regulations, we are initiating these administrative reviews.

EFFECTIVE DATE: June 18, 1991.

FOR FURTHER INFORMATION CONTACT: Roland L. MacDonald, Office of Antidumping Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230, telephone (202) 377-2104.

SUPPLEMENTARY INFORMATION:

Background

The Department of Commerce ("the Department") has received timely requests in accordance with § 353.22(a)(1), of the Department's regulations, for an administrative review of various antidumping and countervailing duty orders and findings with May anniversary dates.

Initiation of Reviews

In accordance with § 353.22(c) and 355.22(c) of the Department's regulations, we are initiating administrative reviews of the following antidumping and countervailing duty orders and findings with May anniversary dates. We intend to issue the final results of these reviews not later than May 31, 1992.

Antidumping duty proceedings	Periods to be reviewed
Brazil:	
Frozen Concentrated Orange Juice; A-351-605—Cargill Citrus Limitada, Montecitrus Trading S.A., Coopercitrus Industrial, Frutesp S.A., Citrosuco Paulista, Frutropic, Bascitrus, Branco, Citrovale	5/1/90-4/30/91
The People's Republic of China:	
Certain Iron Construction Castings; A-570-502—China National Metals and Minerals Import and Export Corp. including the Beijing, Guangdong, Liaoning (Dalian), Jilin, and Anhui Branches, China National Machinery and Equipment Import and Export Corporation (CMEC) China National Light Industrial Products Import and Export Corp.	5/1/90-4/30/91
India:	
Circular Welded Carbon Steel Pipes and Tubes; A-533-502—Tata Iron and Steel Co., Ltd.	5/1/90-4/30/91
Japan:	
Portable Electric Typewriters; A-588-067—Matsushita Brother, Nakajima, Canon, Silver	5/1/90-4/30/91
Taiwan:	
Circular Welded Carbon Steel Pipes and Tubes; A-583-606—Kao Hsing Chang, Yieh Hsing, FEMCO, AsiaMax, Vulcan, Yieh Loong, Kalamein Plywood	5/1/90-4/30/91
Countervailing Duty Proceedings	
Brazil:	
Certain Heavy Iron Construction; Castings; C-351-504	1/1/90-12/31/90
Mexico:	
Ceramic Tile; C-201-003	1/1/90-12/31/90
Singapore:	
Antifriction Bearings (Other than Tapered Roller Bearings) and Parts Thereof; C-559-802	1/1/90-12/31/90
Sweden:	
Viscose Rayon Staple Fiber; C-401-056	1/1/90-12/31/90
Thailand:	
Ball Bearings and Parts Thereof; C-542-802	1/1/90-12/30/90

Interested parties must submit applications for administrative protective orders in accordance with § 353.34(b) and § 355.4(b) of the Department's regulations.

These initiations and this notice are in accordance with section 751(a) of the Tariff Act of 1930 (19 U.S.C. 1675(a)) and 19 CFR 353.22(c) (1989) and § 355.22(c) (1989).

Initiation of Administrative Review and Request for Revocation in Part of the Antidumping Duty Order on Certain Fresh Cut Flowers From Colombia

AGENCY: International Trade Administration/Import Administration Department of Commerce.

ACTION: Notice of initiation of administrative review and request for revocation in part of the antidumping duty order on certain fresh cut flowers from Colombia.

SUMMARY: The Department of Commerce has received requests to conduct an administrative review of the antidumping duty order on fresh cut flowers from Colombia. Requests for revocation from the antidumping order were also received from specific exporters/growers. In accordance with the Commerce Regulations, we are initiating this administrative review for the period March 1, 1990 through February 28, 1991. We are initiating this review for those named exporters/growers for whom a request for review was received and who shipped subject merchandise to the United States during the period March 1, 1990 through February 28, 1991. The Department is also noting those exporters/growers who have requested revocation from the antidumping duty order.

EFFECTIVE DATE: June 18, 1991.

FOR FURTHER INFORMATION CONTACT: Anne D'Alauro or Maria MacKay, Office of Countervailing Compliance, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230, telephone (202) 377-2786.

SUPPLEMENTARY INFORMATION:

Background

The Department of Commerce (the Department) has received timely requests in accordance with §§ 353.22 (a)(1), (a)(2), (a)(3), of the Department's regulations, for an administrative review of the antidumping duty order on fresh cut flowers from Colombia. The Department has also received requests for revocation from the exporters/growers noted.

Initiation of Review

In accordance with §§ 353.22(c) of the Department's regulations, we are initiating an administrative review on fresh cut flowers from Colombia. The Department is not initiating an administrative review of any Colombian exporters and/or producers who were not named in a review request because such exporters and/or producers were not specified as required under § 353.22(a). We intend to issue the final results of this review no later than March 31, 1992.

We received requests for review on the following specifically named exporters/growers who shipped subject merchandise during the period:

Antidumping Duty Order: Sparklers rom the People's Republic of China

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: June 18, 1991.

FOR FURTHER INFORMATION CONTACT: Michael Ready, Office of Antidumping Investigations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 377-2613.

Scope of Order

The products covered by this order are sparklers from the People's Republic of China (PRC). Sparklers are fireworks, each comprising a cut-to-length wire, one end of which is coated with a chemical mix that emits bright sparks while burning. Sparklers are currently classified under Harmonized Tariff Schedule (HTS) subheading 3604.10.00. Although the HTS subheadings are provided for convenience and customs purposes, our written description of the scope of this proceeding is dispositive.

SUPPLEMENTARY INFORMATION: In accordance with section 735(a) of the Tariff Act of 1930, as amended (the Act), on April 26, 1991, the Department made its final determination that sparklers from the PRC are being sold at less than fair value (56 FR 20588, May 6, 1991). On June 10, 1991, in accordance with section 735(d) of the Act, the ITC notified the Department that such imports materially injure a U.S. industry.

Therefore, in accordance with section 736 of the Act, the Department will direct U.S. Customs officers to assess, upon further advice by the administering authority pursuant to section 736(a)(1) of the Act, antidumping duties equal to the amount by which the foreign market value of the merchandise exceeds the United States price for all entries of sparklers from the PRC. These antidumping duties will be assessed on all unliquidated entries of sparklers from the PRC entered, or withdrawn from warehouse, for consumption on or after December 17, 1990, the date of publication of the Department's preliminary determination in the **Federal Register** (55 FR 51743). On or after the date of publication of this notice in the **Federal Register**, U.S. Customs officers must require, at the same time as importers would normally deposit estimated duties on this merchandise, a cash deposit equal to the estimated weighted-average antidumping duty margins as noted below:

Manufacturers/producers/exporters	Margin percentage
Guangxi Native Produce Import & Export Corporation, Beihai Fireworks and Firecrackers Branch	1.64
Hunan Provincial Firecrackers & Fireworks Import & Export (Holding) Corporation	93.54
Jiangxi Native Produce Import & Export Corporation, Guangzhou Fireworks Company	65.78
All others	75.88

This notice constitutes an antidumping duty order with respect to sparklers from the PRC, pursuant to section 736(a) of the Act. Interested parties may contact the Central Records Unit, room B-099 of the Main Commerce Building, for copies of an updated list of antidumping duty orders currently in effect.

This order is published in accordance with section 736(a) of the Act and 19 CFR 353.21.

Dated: June 12, 1991.

Marjorie A. Chorlins,

Acting Assistant Secretary for Import Administration.

BILLING CODE 3510-DS-M

[Application No. 90-2A007]

Export Trade Certificate Of Review

ACTION: Notice of issuance of an Amended Export Trade Certificate of Review.

SUMMARY: The Department of Commerce has issued an amendment to the Export Trade Certificate of Review granted to the United States Surimi Commission (USSC). This notice summarizes the conduct for which certification has been granted.

FOR FURTHER INFORMATION CONTACT: George Muller, Director, Office of Export Trading Company Affairs, International Trade Administration, 202-377-5131. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: Title III of the Export Trading Company Act of 1982 (15 U.S.C. 4001-21) authorizes the Secretary of Commerce to issue Export Trade Certificates of Review. The regulations implementing title III are found at 15 CFR part 325 (1990) (50 FR 1804, January 11, 1985).

The Office of Export Trading Company Affairs (OETCA) is issuing this notice pursuant to 15 CFR 325.6(b), which requires the Department of Commerce to publish a summary of a Certificate in the **Federal Register**. Under section 305(a) of the Act and 15 CFR 325.11(a), any person aggrieved by the Secretary's determination may, within 30 days of the date of this notice, bring an action in an appropriate district court of the United States to set aside the determination on the ground that the determination is erroneous.

Description of Amended Certificate

Export Trade Certificate of Review No. 90-00007 was issued to the United States Surimi Commission on August 22, 1990 (55 FR 35445, August 30, 1990). USSC previously amended its Certificate on December 12, 1990 (55 FR 53031, December 26, 1990).

USSC's Export Trade Certificate of Review has been amended to:

1. Add the following two companies as "Members" within the meaning of § 325.2(1) of the Regulations (15 CFR 325.2 (1)): Pacific Orion Seafoods, Inc., Seattle, WA (controlling entities: Bellingham Trawlers, Inc., Seattle, WA (40%); Westcod, Inc., Seattle, WA (40%); and Pacific Orion Seafoods, Inc., Seattle, WA. (20%)) and Golden Alaska Seafoods Inc., Seattle, WA (controlling entities: Nichiro Pacific, Ltd., Seattle, WA (70%) and Union Bay Industries, Inc., Seattle, WA (30%)) .

A copy of the amended Certificate will be kept in the International Trade Administration's Freedom of Information Records Inspection Facility, room 4102, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

Dated: June 12, 1991.

George Muller,

Director, Office of Export Trading Company Affairs.

BILLING CODE 3510-DR-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Establishment of an Import Limit for Certain Wool Textile Products Produced or Manufactured in the Dominican Republic

June 13, 1991.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Issuing a directive to the Commissioner of Customs establishing a limit.

EFFECTIVE DATE: June 20, 1991.

FOR FURTHER INFORMATION CONTACT: Naomi Freeman, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 377-4212. For information on the quota status of this limit, refer to the Quota Status Reports posted on the bulletin boards of each Customs port or call (202) 566-5810. For information on embargoes and quota re-openings, call (202) 377-3715.

SUPPLEMENTARY INFORMATION:

Authority: Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

Inasmuch as recent consultations held between the Governments of the United States and the Dominican Republic have not resulted in a mutually satisfactory solution on Category 448, the United States Government has decided to control imports in this category for the twelve-month period beginning on March 28, 1991 and extending through March 27, 1992.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 55 FR 50750, published on December 10, 1990). Also see 56 FR 15334, published on April 16, 1991.

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

Committee for the Implementation of Textile Agreements

June 13, 1991.

Commissioner of Customs,

Department of the Treasury, Washington, DC 20229.

Dear Commissioner: Under the terms of section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854), and the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as further extended on July 31, 1986; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended, you are directed to prohibit, effective on June 20, 1991, entry into the United States for consumption and withdrawal from warehouse for consumption of wool textile products in Category 448, produced or manufactured in the Dominican Republic and exported during the period beginning on March 28, 1991 and extending through March 27, 1992, in excess of 45,000 dozen [1].

Textile products in Category 448 which have been exported to the United States prior to March 28, 1991 shall not be subject to the limit established in this directive.

Textile products in Category 448 which have been released from the custody of the U.S. Customs Service under the provisions of 19 U.S.C. 1448(b) or 1484(a)(1)(A) prior to the effective date of this directive shall not be denied entry under this directive.

Import charges will be provided as data become available.

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The Committee for the Implementation of Textile Agreements has determined that this action falls within the foreign affairs exception of the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

SUPPLEMENTARY INFORMATION:

Authority: Executive Order 11651 of March 3, 1972, as amended; section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854).

On May 29, 1991, under the terms of the Bilateral Cotton, Man-Made Fiber, Silk Blend and Other Vegetable Fiber Textile Agreement, effected by exchange of notes dated May 30, 1987 and June 11, 1987, as amended, between the Governments of the United States and Pakistan, the United States Government requested consultations with the Government of Pakistan with respect to Categories 239 (cotton and man-made fiber infantswear) and 617 (man-made fiber twill and sateen fabric).

The purpose of this notice is to advise the public that, pending agreement on a mutually satisfactory solution concerning Categories 239 and 617, the Government of the United States has decided to control imports during the prorated period which began on May 29, 1991 and extends through August 28, 1991.

Summary market statements concerning Categories 239 and 617 follow this notice.

Anyone wishing to comment or provide data or information regarding the treatment of Categories 239 and 617, under the agreement with the Government of Pakistan, or to comment on domestic production or availability of products included in these categories, is invited to submit 10 copies of such comments or information to Auggie D. Tantillo, Chairman, Committee for the Implementation of Textile Agreements, U.S. Department of Commerce, Washington, DC 20230; ATTN: Helen L. LeGrande.

Because the exact timing of the consultations is not yet certain, comments should be submitted promptly. Comments or information submitted in response to this notice will be available for public inspection in the Office of Textiles and Apparel, room H3100, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, DC.

Further comments may be invited regarding particular comments or information received from the public which the Committee for the Implementation of Textile Agreements considers appropriate for further consideration.

The solicitation of comments regarding any aspect of the agreement or the implementation thereof is not a waiver in any respect of the exemption

[1] The limit has not been adjusted to account for any imports exported after March 27, 1991.

contained in 5 U.S.C. 553(a)(1) relating to matters which constitute "a foreign affairs function of the United States."

The United States remains committed to finding a solution concerning Categories 239 and 617. Should such a solution be reached in consultations with the Government of Pakistan, further notice will be published in the **Federal Register**.

A description of the textile and apparel categories in terms of HTS numbers is available in the CORRELATION: Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 55 FR 50756, published on December 10, 1990).

Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

Market Statement—Pakistan

Category 239—Cotton and Man-Made Fiber Infantswear

May 1991

Import Situation and Conclusion

U.S. imports of cotton and man-made fiber infantswear, Category 239, from Pakistan reached 750,416 kilograms for the year ending March 1991, almost four times the 202,234 kilograms imported during the same period a year earlier. During the first quarter of 1991, imports of Category 239 from Pakistan reached 246,182 kilograms, almost double the 126,828 kilograms imported during the first quarter of 1990.

The sharp and substantial increase in Category 239 imports from Pakistan is causing a real risk of disruption in the U.S. market for cotton and man-made fiber infantswear.

U.S. Production and Market Share

U.S. production of cotton and man-made fiber infantswear, Category 239, fell to 16,603 thousand kilograms in 1990 from 18,231 thousand kilograms in 1989, a decline of 8 percent. The domestic manufacturers' share of the cotton and man-made fiber infantswear market fell from 46 percent in 1989 to 39 percent in 1990, a decline of 7 percentage points.

U.S. Imports and Import Penetration

U.S. imports of cotton and man-made fiber infantswear, Category 239, increased 23 percent from 21,225 thousand kilograms in 1989 to 26,044 thousand kilograms in 1990. During the first three months of 1991 imports increased three percent over the level imported during the same period a year earlier. The ratio of imports to domestic production reached 156 percent in 1990, up 40 percentage points from 116 percent in 1989.

Duty-Paid Value and U.S. Producers' Price

Ninety-five percent of the Category 239 imports from Pakistan for the year ending March 1991 entered under HTSUSA number 6209.20.5040—cotton diapers. These diapers entered the U.S. at landed duty-paid values below the U.S. producers' prices for comparable diapers.

Market Statement—Pakistan

Category 617—Man-Made Fiber and Sateen Fabric

May 1991

Import Situation and Conclusion

U.S. imports of man-made fiber twill and sateen fabric, Category 617, from Pakistan reached 7,677,904 square meters during the year ending March 1991, almost four and half times the 1,736,226 square meters imported a year earlier. In the first three months of 1991, Pakistan shipped 2,321,935 square meters, nearly double their January—March 1990 level. Pakistan is the second largest supplier of Category 617, accounting for 24 percent of total imports for the year ending March 1991. In the year ending March 1990, Pakistan accounted for seven percent of total Category 617 imports.

The sharp and substantial increase of Category 617 imports from Pakistan is causing a real risk of disruption in the U.S. market for man-made fiber twill and sateen fabrics.

Import Penetration and Market Share

U.S. production of man-made fiber twill and sateen fabric dropped to 366,725,000 square meters in 1990, 19 percent below the 1989 production level and 27 percent below the 1988 level. In comparison, U.S. imports of man-made fiber twill and sateen fabrics declined to 23,597,355 square meters in 1989, then surged to 28,513,496 square meters in 1990, 21 percent above the 1989 level. Category 617 imports continue to surge, increasing 61 percent in the first three months of 1991 over the January—March 1990 level.

The U.S. producers' share of the man-made fiber twill and sateen fabric market was 93 percent in 1990, two percentage points below their 1989 share. The ratio of imports to domestic production increased from five percent in 1989 to eight percent in 1990.

Duty-Paid Value and U.S. Producers' Price

Approximately 83 percent of Category 617 imports from Pakistan during the year ending March 1991 entered under HTSUSA number 5513.12.000—3-thread or 4-thread polyester staple twill, weighing less than 170 grams per square meter. These fabrics entered the U.S. at duty-paid landed values below U.S. producers' prices for comparable twill fabrics.

Committee for the Implementation of Textile Agreements

June 13, 1991.

Commissioner of Customs,
Department of the Treasury, Washington, DC 20229.

Dear Commissioner: Under the terms of section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854), and the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as further extended on July 31, 1986; pursuant to the Bilateral Cotton, Man-Made Fiber Silk Blend and Other Vegetable Fiber Textile Agreement, effected by exchange of notes dated May 20, 1987 and June 11, 1987, as amended, between the Governments of the United States and Pakistan; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended, you are directed to prohibit, effective on June 20, 1991, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton and man-made fiber textile products in the following categories, produced or manufactured in Pakistan and exported during the period beginning on May 29, 1991 and extending through August 28, 1991, in excess of the following restraint limits:

Category	Ninety-day restraint limit [1]
239	260,161 kilograms.
617	2,533,121 square meters.

[1] The limits have not been adjusted to account for any imports exported after May 28, 1991.

Textile products in Categories 239 and 617 which have been exported to the United States prior to May 29, 1991 shall not be subject to the limits established in this directive.

Textile products in Categories 239 and 617 which have been released from the custody of the U.S. Customs Service under the provisions of 19 U.S.C. 1448(b) or 1484(a)(1)(A) prior to the effective date of this directive shall not be denied entry under this directive.

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception of the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,
Auggie D. Tantillo,

Chairman, Committee for the Implementation of Textile Agreements.

DEPARTMENT OF DEFENSE

Office of the Secretary of Defense

DOD Advisory Group on Electron Devices; Advisory Committee Meeting

SUMMARY: Working Group B (Microelectronic) of the DoD Advisory Group on Electron Devices (AGED) announces a closed session meeting.

DATES: The meeting will be held at 0900, Tuesday and Wednesday, 30–31 July 1991.

ADDRESSES: The meeting will be held at Naval Ocean Systems Center, San Diego, CA.

FOR FURTHER INFORMATION CONTACT: Warner Kramer, AGED Secretariat, 2011 Crystal Drive, suite 307, Arlington, Virginia 22202.

SUPPLEMENTARY INFORMATION: The mission of the Advisory Group is to provide the Under Secretary of Defense for Acquisition, the Director, Defense Advanced Research Projects Agency and the Military Departments with technical advice on the conduct of economical and effective research and development programs in the area of electron devices.

The Working Group B meeting will be limited to review of research and development programs which the military proposes to initiate with industry, universities, or in their laboratories. The microelectronics area includes such programs on semiconductor materials, integrated circuits, charge coupled devices and memories. The review will include classified program details throughout.

In accordance with section 10(d) of Public Law 92-463, as amended, (5 U.S.C. App. II 10(d) (1988)), it has been determined that this Advisory Group meeting concerns matters listed in 5 U.S.C. 552b(c)(1) (1988), and that accordingly, this meeting will be closed to the public.

Dated: June 13, 1991.

L.M. Bynum,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

DOD Advisory Group on Electron Devices; Advisory Committee Meeting

SUMMARY: Working Group A (Microwave Devices) of the DoD Advisory Group on Electron Devices (AGED) announces a closed session meeting.

DATES: The meeting will be held at 0900, Thursday, 1 August 1991.

ADDRESSES: The meeting will be held at Palisades Institute for Research Services, Inc., 2011 Crystal Drive, One Crystal Park, suite 307, Arlington VA 22202.

FOR FURTHER INFORMATION CONTACT: Becky F. Terry, AGED Secretariat, 2011 Crystal Drive, suite 307, Arlington, Virginia 22202.

SUPPLEMENTARY INFORMATION: The mission of the Advisory Group is to provide the Under Secretary of Defense for Acquisition, the Director, Defense Advanced Research Projects Agency and the Military Departments with technical advice on the conduct of economical and effective research and development programs in the area of electron devices.

The Working Group A meeting will be limited to review of research and development programs which the Military Departments propose to initiate with industry, universities or in their laboratories. The microwave device area includes such programs on developments and research related to microwave tubes, solid state microwave devices, electronic warfare devices, millimeter wave devices, and passive devices. This review will include details of classified defense programs throughout.

In accordance with section 10(d) of Public Law 92-463, as amended, (5 U.S.C. App. II 10(d) (1988)), it has been determined that this Advisory Group meeting concerns matters listed in 5 U.S.C. 552b(c)(1) (1988), and that accordingly, this meeting will be closed to the public.

Dated: June 13, 1991.

A0001SAIS

SYSTEM NAME:

Carpool Information/Registration System.

SYSTEM LOCATION:

Decentralized to Army installations/activity levels. Official mailing addresses are published as an appendix to the Army's compilation of record systems notices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All personnel participating in carpool programs who voluntarily provide information for release.

CATEGORIES OF RECORDS IN THE SYSTEM:

Name of individual, Social Security Number, home address and telephone, office address and telephone, map coordinates of home or nearby reference points, working hours, and similar information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 3012 and Executive Order 9397.

PURPOSE(S):

To assign and administer allocated carpool parking assignments; establish priority of assignments, assist members and applicants in contacting one another and provide printout of individuals in system to other participants who desire to arrange a carpool.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The "Blanket Routine Uses" set forth at the beginning of the Army's compilation of record system notices apply to this record system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Reference cards, computer cards, disk or tape, and file folders.

RETRIEVABILITY:

By name, Social Security Number, grid coordinate reference, and working hours.

SAFEGUARDS:

Accessible only to authorized personnel and those providing identification and purpose for which information is requested; may be accessed by persons seeking members who have provided consent for release of information.

RETENTION AND DISPOSAL:

Retained only on active participants; destroyed upon request/reassignment.

SYSTEM MANAGER(S) AND ADDRESS:

Director of Information Systems for Command, Control, Communications, and Computers, ATTN: SAIS-PDD, Department of the Army, Washington, DC 20310-0107.

NOTIFICATION PROCEDURE:

Individuals seeking to determine if information about themselves is contained in this record system should address written inquiries to the command, installation, or activity where they participated in a carpool. Official mailing addresses are published as an appendix to the Army's compilation of record systems notices.

For verification purposes, individuals should provide full name, current address, and sufficient information to permit locating the record.

RECORD ACCESS PROCEDURES:

Individuals seeking access to records about themselves contained in this record system should address written inquiries to the command, installation, or activity level. Official mailing addresses are published as an appendix to the Army's compilation of record systems notices. For verification purposes, individuals should provide full name, current address, and sufficie information to permit locating the record.

CONTESTING RECORD PROCEDURES:

The Army's rules for accessing records, contesting contents, and appealing initial agency determinations by the individual concerned are published in Department of the Army Regulation 340-21; 32 CFR part 505; or may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

From the individual.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A0025-55SAIS

SYSTEM NAME:

Request for Information Files

SYSTEM LOCATION:

Headquarters, Department of the Army, staff and field operating agencies, major commands, installations and activities receiving requests to access records pursuant to the Freedom of Information Act or to declassify documents pursuant to Executive Order 12356. Official mailing addresses are published as an appendix to the Army's compilation of record system notices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Any individual who requests an Army record under the Freedom of Information Act, or requests mandatory review of a classified document pursuant to Executive Order 12356.

CATEGORIES OF RECORDS IN THE SYSTEM:

Individual's request, related papers, correspondence between office of receipt and records custodians, Army staff offices and other government agencies; retained copies of classified or other exempt materials; and other selective documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 552; Freedom of Information Act, as amended by Public Law 93-502; and Executive Order 12356.

PURPOSE(S):

To control administrative processing of requests for information either pursuant to the Freedom of Information Act or to Executive Order 12356, including appeals from denials.

ROUTINE USES OF RECORDS, MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The "Blanket Routine Uses" set forth at the beginning of the Army's compilation of record system notices apply to this record system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders; microfilm.

RETRIEVABILITY:

By requester's surname.

SAFEGUARDS:

Records are maintained in areas accessible only to authorized personnel who are properly trained and have official need therefor.

RETENTION AND DISPOSAL:

Records reflecting granted requests are destroyed after 2 years. When requests have been denied, records are retained for 5 years; and if appealed, records are retained 4 years after final denial by the Army or 3 years after final adjudication by the courts, whichever is later.

SYSTEM MANAGER(S) AND ADDRESS:

Director of Information Systems for Command, Control, Communications, and Computers, ATTN: SAIS-PDD, Department of the Army, Washington, DC 20310-0107.

NOTIFICATION PROCEDURE:

Individuals seeking to determine if information about themselves is contained in this record system should address written inquiries to the Director of Information Systems for Command, Control, Communications, and Computers, ATTN: SAIS-PDD, Department of the Army, Washington, DC 20310-0107

For verification purposes, individual should provide enough information to permit locating the record.

RECORD ACCESS PROCEDURES:

Individuals seeking access to records about themselves contained in this record system should address written inquiries to the Director of Information Systems for Command, Control, Communications, and Computers, ATTN: SAIS-PDD, Department of the Army, Washington, DC 20310-0107.

For verification purposes, individual should provide enough information to permit locating the record.

Personal visits may be made to the office maintaining the records upon presentation of acceptable identification, such as a valid driver's license, and furnishing verbal information that can be verified.

CONTESTING RECORD PROCEDURES:

The Army's rules for accessing records, contesting contents, and appealing initial agency determinations by the individual concerned are published in Department of the Army Regulation 340-21; 32 CFR part 505; or may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

From the individual, Army organizations, Department of Defense components, and other federal, state, and local government agencies.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

The majority of records in this system are not exempted. Copies of documents residing in the office of an Initial Denial Authority having a law enforcement mission which fall within (j)(2) are exempt from the following provisions of title 5 U.S.C. 552a: (c)(3), (d), (e)(1), (e)(2), (e)(3), (e)(4)(G), (e)(4)(H), (e)(5), (e)(8), (f), and (g).

Copies of documents maintained by other Initial Denial Authorities not having a law enforcement mission which fall within 5 U.S.C. 552a (k)(1) through (k)(7) are exempt from the following provisions of Title 5 U.S.C. 552a: (c)(3), (d), (e)(1), (e)(4)(G), (e)(4)(H), and (f).

Name, subject, user identification code, news item number, user password, application program key word/author.

SAFEGUARDS:

All information is maintained in secured areas accessible only to designated individuals having official need therefor in the performance of official duties. Either Army Information Processing Installation security guards or remote location operators check access against system reports.

RETENTION AND DISPOSAL:

Individual data remains on file while a user of computer facility; destroyed on person's reassignment or termination.

SYSTEM MANAGER(S) AND ADDRESS:

Director of Information Systems for Command, Control, Communications, and Computers, ATTN: SAIS-PDD, Department of the Army, Washington, DC 20310-0107.

NOTIFICATION PROCEDURE:

Individuals seeking to determine if information about themselves is contained in this record system should address written inquiries to the Army Information Processing Installation Operations Center. Official mailing addresses as an appendix to the Army's compilation of record systems notices.

For verification purposes, individual should provide full name, sufficient details to permit locating pertinent records, and signature.

RECORD ACCESS PROCEDURES:

Individuals seeking access to records about themselves contained in this record system should address written inquiries to the Army Information Processing Installation Operations Center. Official mailing addresses as an appendix to the Army's compilation of record systems notices.

For verification purposes, individual should provide full name, sufficient details to permit locating pertinent records, and signature.

CONTESTING RECORD PROCEDURES:

The Army's rules for accessing records, contesting contents, and appealing initial agency determinations by the individual concerned are published in Department of the Army Regulation 340-21; 32 CFR Part 505; or may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

System managers, computer facility managers, automated interfaces for user codes on file at Army sites.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

A0340-21SAIS

SYSTEM NAME:

Privacy Case Files.

SYSTEM LOCATION:

These records exist at Headquarters, Department of the Army, staff and field operating agencies, major commands, installations and activities receiving Privacy Act requests. Official mailing addresses are published as an appendix to the Army's compilation of system notices.

Records also exist in offices of Access and Amendment Refusal Authorities when an individual's request to access and/or amend his/her record is denied. Upon appeal of that denial, record is maintained by the Department of the Army Privacy Review Board.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who request information concerning themselves which is in the custody of the Department of the Army or who request access to or amendment of such records in accordance with the Privacy Act of 1974, as amended.

CATEGORIES OF RECORDS IN THE SYSTEM:

Documents notifying requesters of the existence of records on them, providing or denying access to or amendment of records, acting on appeals or denials to provide access or amend records, and providing or developing information for use in litigation; Department of the Army Privacy Review Board minutes and actions; copies of the requested and amended or unamended records; statements of disagreement; and other related documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 3012; and 5 U.S.C. 552a, the Privacy Act of 1974, as amended.

PURPOSE(S):

To process and coordinate individual requests for access and amendment of personal records; to process appeals on denials of requests for access or amendment to personal records by the data subject against agency rulings; and to ensure timely response to requesters.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND PURPOSES OF SUCH USES:

The "Blanket Routine Uses" set forth at the beginning of the Army's compilation of record system notices apply to this record system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders; microfilm.

RETRIEVABILITY:

By name of requester on whom the records pertain.

SAFEGUARDS:

Records are accessed by custodian of the record system and by persons responsible for servicing the record system in performance of their official duties. Records are stored in locked cabinets or rooms.

RETENTION AND DISPOSAL:

Approved requests, denials that were not appealed, denials fully overruled by appellate authorities and appeals adjudicated fully in favor of requestor are destroyed after 4 years. Appeals denied in full or in part are destroyed after 10 years, provided legal proceedings are completed.

SYSTEM MANAGER(S) AND ADDRESS:

Director of Information Systems for Command, Control, Communications, and Computers, ATTN: SAIS-PDD, Department of the Army, Washington, DC 20310-0107.

NOTIFICATION PROCEDURE:

Individuals seeking to determine if information about themselves is contained in this record system should address written inquiries to the Director of Information Systems for Command, Control, Communications, and Computers, ATTN: SAIS-PDD, Department of the Army, Washington, DC 20310-0107.

For verification purposes, individual should provide full name, date and place of birth, current address and other personal information necessary to locate the record.

RECORD ACCESS PROCEDURES:

Individuals seeking access to records about themselves contained in this record system should address written inquiries to the office that processed the initial inquiry, access request, or amendment request. Individual may obtain assistance from the Director of Information Systems for Command, Control, Communications, and Computers, ATTN: SAIS-PDD, Department of the Army, Washington, DC 20310-0107.

For verification purposes, individual should provide full name, date and place of birth, current address and other personal information necessary to locate the record. Personal visits may be made to the office maintaining the records upon presentation of acceptable identification, such as a valid driver's license, and furnishing verbal information that can be verified from the individual's case file.

CONTESTING RECORD PROCEDURES:

The Army's rules for accessing records, contesting contents, and appealing initial agency determinations by the individual concerned are published in Department of the Army Regulation 340-21; 32 CFR part 505; or

VOL 56 ISS 117 JE 18 1991 UMI

may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

From the individual, Army organizations, Department of Defense components, and other Federal, state, and local government agencies.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

The majority of records in this system are not exempted. Copies of documents residing in the office of an Access and Amendment Refusal Authority having a law enforcement mission which fall within (j)(2) are exempted from the following provisions of Title 5 U.S.C. 552a: (c)(3), (d), (e)(1), (e)(2), (e)(3), (e)(4)(G), (e)(4)(H), (e)(5), (e)(8), (f), and (g).

Copies of documents maintained by the Department of the Army Privacy Review Board and by those Access and Amendment Refusal Authorities not having a law enforcement mission which fall within 5 U.S.C. 552a (k)(1) through (k)(7) are exempt from the following provisions of Title 5 U.S.C. 552a: (c)(3), (d), (e)(1), (e)(4)(G), (e)(4)(H), and (f).

A0360SAIS

SYSTEM NAME:

Mailing List for Army Newspapers/ Periodicals/Catalogs.

SYSTEM LOCATIONS:

Headquarters, Department of the Army staff and field operating agencies, major commands, field installations and activities, Army service schools/ colleges, Army National Guard Bureau Headquarters and field activities. Official mailing addresses are published as an appendix to the Army's compilation of system notices.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Name and current mailing address of recipients of Army and/or National Guard magazines, newspapers, professional and trade publications, journals, catalogs, admissions policies and procedures, digests, and newsletters. Recipients may be current or former Army and/or National Guard personnel, staff and faculty or graduate/ resident/correspondence student of Service Schools, military reservists, Reserve Officers Training Corps cadets, civilian academicians, professional or other personnel who have requested inclusion on mailing lists.

CATEGORIES OF RECORDS IN THE SYSTEM:

Mailing lists containing names and addresses of recipients of various periodicals published by the Army/or the National Guard which have public relations value. Types of periodicals include but are not limited to journals, catalogs, admissions policies and procedures published by military schools and colleges, medical facilities, and training institutions; and Army newspapers or digests containing official or quasi-official but non-directive data of either a technical or administrative nature.

Other personnel data may be included such as Alumni Association Member number, professional society or trade organization of which a member and related information.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 3012 and 32 U.S.C. 110.

PURPOSE(S):

To produce mailing lists for distribution of Army periodicals, newspapers and various journals, catalogs, digests and newsletters; and to perform statistical analyses and surveys of reader interest and opinion.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The "Blanket Routine Uses" set forth at the beginning of the Army's compilation of record system notices apply to this record system.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records, magnetic tape disc, cards, printouts, and addressograph plates.

RETRIEVABILITY:

By individual's name.

SAFEGUARDS:

Records are accessed and maintained only by authorized personnel who have need therefor.

RETENTION AND DISPOSAL:

Retained until no longer needed, normally until individual requests deletion, after which record is destroyed.

SYSTEM MANAGER(S) AND ADDRESS:

Heads of Department of Army staff and field operating agencies, major commands, commanders of installations/activities, Army service schools/colleges and National Guard activities that publish periodicals, command newspapers, catalogs or other special-interest recurring publications.

Official mailing addresses are published as an appendix to the Army's compilation of system notices.

NOTIFICATION PROCEDURE:

Individuals seeking to determine if information about themselves is contained in this records system should address inquiries to either the editor of the publication, registrar of the school, or the Army or National Guard Public Affairs Office publishing the periodical. Official mailing addresses are published as an appendix to the Army's compilation of system notices.

For verification purposes, individual should provide full name and current address to permit locating the record.

RECORD ACCESS PROCEDURES:

Individuals seeking access to records about themselves contained in this record system should address inquiries to either the editor of the publication, registrar of the school, or the Army or National Guard Public Affairs Office publishing the periodical. Official mailing addresses are published as an appendix to the Army's compilation of system notices.

For verification purposes, individual should provide full name and current address to permit locating the record.

CONTESTING RECORD PROCEDURES:

The Army's rules for accessing records, contesting contents, and appealing initial determinations are contained in Army Regulation 340–21; 32 CFR part 505; or may be obtained from the system manager.

RECORD SOURCE CATEGORIES:

From the individual; records of the Army or National Guard organization publishing the document.

EXEMPTIONS CLAIMED FOR THE SYSTEM:

None.

Office of Conservation and Renewable Energy

[Case No. F-027]

Energy Conservation Program for Consumer Products; Decision and Order Granting Waiver From Furnace Test Procedures to Amana Refrigeration, Inc.

AGENCY: Office of Conservation and Renewable Energy, Department of Energy.

ACTION: Decision and order.

SUMMARY: Notice is given of the Decision and Order (Case No. F-027) granting Amana Refrigeration, Inc. (Amana), a waiver for its model GUD condensing gas furnace from existing Department of Energy (DOE) test procedures regarding blower time delay for determining the model's energy efficiency.

FOR FURTHER INFORMATION CONTACT:

Cyrus H. Nasseri, U.S. Department of Energy, Office of Conservation and Renewable Energy, Mail Station CE-43, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585, (202) 586-9127.

Eugene Margolis, Esq., U.S. Department of Energy, Office of General Counsel, Mail Station GC-41, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585, (202) 586-9507.

SUPPLEMENTARY INFORMATION: In accordance with 10 CFR 430.27(g), notice is hereby given of the issuance of the Decision and Order as set out below. In the Decision and Order, Amana has been granted a waiver for its model GUD condensing gas furnace, permitting the company to use an alternate test method in determining the Annual Fuel Utilization Efficiency (AFUE).

Issued in Washington, DC, May 29, 1991.

J. Michael Davis,

Assistant Secretary, Conservation and Renewable Energy.

Decision and Order

In the matter of: Amana Refrigeration, Inc. (Case No. F-027).

Background

The Energy Conservation Program for Consumer Products (other than automobiles) established pursuant to the Energy Policy and Conservation Act (EPCA), Public Law 94-163, 89 Stat. 917, as amended by the National Energy Conservation Policy Act (NECPA), Public Law 95-619, 92 Stat. 3266, the National Appliance Energy Conservation Act of 1987 (NAECA), Public Law 100-12, and the National Appliance Energy Conservation Amendments of 1988 (NAECA 1988), Public Law 100-357, requires DOE to prescribe standardize test procedures to measure the energy consumption of certain consumer products, including furnaces. The intent of the test procedures is to provide a comparable measure of energy consumption that will assist consumers in making purchasing decisions. These test procedures appear at 10 CFR part 430, subpart B.

DOE amended the prescribed test procedures by adding 10 CFR 430.27 to create a waiver process. 45 FR 64108, September 28, 1980. Thereafter, DOE further amended its appliance test procedure waiver process to allow the Assistant Secretary for Conservation and Renewable Energy (Assistant Secretary) to grant an interim waiver from test procedure requirements to manufacturers that have petitioned DOE for a waiver of such prescribed test procedures. 51 FR 42823, November 26, 1986.

The waiver process allows the Assistant Secretary to waive temporarily test procedures for a particular basic model when a petitioner shows that the basic model contains one or more design characteristics which prevent testing according to the prescribed test procedures or when the prescribed test procedures may evaluate the basic model in a manner so unrepresentative of its true energy consumption as to provide materially inaccurate comparative data. Waivers generally remain in effect until final test procedure amendments become effective, resolving the problem that is the subject of the waiver.

The Interim Waiver provisions, added by the 1986 amendment, allow the Assistant Secretary to grant an Interim Waiver when it is determined that the applicant will experience economic hardship if the Application for Interim Waiver is denied, if it appears likely that the Petition for Waiver will be granted, and/or the Assistant Secretary determines that it would be desirable for public policy reasons to grant immediate relief pending a determination on the Petition for Waiver. An Interim Waiver remains in effect for a period of 180 days or until DOE issues its determination on the Petition for Waiver, whichever is sooner, and may be extended for an additional 180 days, if necessary.

Amana filed a "Petition for Waiver" dated May 15, 1990, in accordance with § 430.27 of 10 CFR part 430. DOE published in the Federal Register on January 9, 1991, Amana's petition and solicited comments, data and information respecting the petition. 56 FR 853. Amana also filed an "Application for Interim Waiver" under § 430.27(g) which DOE granted on January 2, 1991. 56 FR 853, January 9, 1991.

No comments were received concerning either the "Petition for Waiver" or the "Interim Waiver". DOE consulted with Federal Trade Commission (FTC), concerning the Amana petition. The FTC did not have any objections to the issuance of a waiver to Amana.

Assertions and Determinations

Amana's Petition seeks a waiver from the DOE test provisions that require a 1.5-minute time delay between the ignition of the burner and the starting of the circulating air blower. Amana requests the allowance to test using a 30-second blower time delay when testing its GUD series condensing gas furnaces. Amena states that since the 30-second delay is indicative of how this model actually operates and since such a delay results in an improvement in efficiency of approximately 1.7 percent, the waiver should be granted.

Under specific circumstances, the DOE test procedures contain exceptions which allow testing with blower delay times of less than the prescribed 1.5-minute delay. Amana indicates that it is unable to take advantage of any of these exceptions for the GUD series condensing gas furnaces.

Since the blower controls incorporated on the Amana furnace are designed to impose a 30-second blower delay in every instance of start up, and since the current provisions do not specifically address this type of control, DOE agrees that a waiver should be granted to allow the 30-second blower time delay when testing the Amana GUD condensing gas furnace. Accordingly, with regard to testing the GUD condensing gas furnace, today's Decision and Order exempts Amana from the existing provisions regarding blower controls and allows testing with the 30-second delay.

It is therefore, ordered that: (1) The "Petition for Waiver" filed by the Amana Refrigeration, Inc., (Case No. F-027) is hereby granted as set forth in paragraph (2) below, subject to the provisions of paragraphs (3), (4) and (5).

(2) Not withstanding any contrary provisions of appendix N of 10 CFR part 430, subpart B, the Amana Refrigeration, Inc. shall be permitted to test its GUD condensing gas furnace on the basis of the test procedure specified in 10 CFR part 430, with modifications set forth below:

(i) Section 3.0 of appendix N is deleted and eplaced with the following paragraph:

3.0 *Test procedure.* Testing and measurements shall be as specified in section 9 of ANSI/ASHRAE 103-82 with the exception of sections 9.2.2, 9.3.1, and 9.3.2, and the inclusion of the following additional procedures:

(ii) Add a new paragraph 3.10 to appendix N as follows:

3.10 *Gas- and oil-fueled central furnaces.* The following paragraph is in lieu of the requirement specified in section 9.3.1 of ANSI/ASHRAE 103-82. After equilibrium conditions are achieved following the cool-down test and the required measurements performed, turn on the furnace and measure the flue gas temperature, using the thermocouple grid described above, at 0.5 and 2.5 minutes after the main burner(s) come on. After the burner start-up, delay the blower start-up by 1.5 minutes (t−), unless: (1) The furnace employs a single motor to drive the power burner and the indoor air circulating blower, in which case the burner and blower shall be started together; (2) the furnace is designed to operate using an unvarying delay time that is other than 1.5 minutes, in which case the fan control shall be permitted to start the blower; or (3) the delay time results in the activation of a temperature safety device which shuts off the burner, in which case the fan control shall be permitted to start the blower. In the latter case, if the fan control is adjustable, set it to start the blower at the highest temperature. If the fan control is permitted to start the blower, measure time delay, (t−), using a stop watch. Record the measured temperatures. During the heat-up test for oil-fueled furnaces, maintain the draft in the flue pipe within ±0.01 in. of water gauge of the manufacturer's recommended on-period draft.

(iii) With the exception of the modification set forth above, Amana Refrigeration, Inc. shall comply in all respects with the test procedures specified in appendix N of 10 CFR part 430, subpart B.

(3) The waiver shall remain in effect from the date of issuance of this Order until DOE prescribes final test procedures appropriate to the GUD condensing gas furnace manufactured by Amana Refrigeration, Inc.

(4) This waiver is based upon the presumed validity of statements, allegations, and documentary materials submitted by the petitioner. This waiver may be revoked or modified at any time upon a determination that the factual basis underlying the petition is incorrect.

(5) Effective May 29, 1991, this Waiver supersedes the Interim Waiver Granted Amana Refrigeration, Inc. on January 2, 1991. 56 FR 853, January 9, 1991, (Case No. F-027).

Issued in Washington, DC, May 29, 1991.

J. Michael Davis, P.E.,

Assistant Secretary, Conservation and Renewable Energy.

BILLING CODE 6450-01-M

[Case No. F-031]

Energy Conservation Program for Consumer Products; Application for Interim Waiver and Petition for Waiver of Furnace Test Procedures from Inter-City Products Corporation

AGENCY: Office of Conservation and Renewable Energy, Department of Energy.

SUMMARY: Today's notice publishes a letter granting an Interim Waiver to Inter-City Products Corporation (Inter-City) from the existing Department of Energy (DOE) test procedures for furnaces blower time delay for the company's PGAA gas furnace.

Today's notice also publishes a "Petition for Waiver" from Inter-City. Inter-City's Petition for Waiver requests DOE to grant relief from the DOE test procedures relating to the blower time delay specification. Inter-City seeks to test using a blower delay time of 30 seconds for its PGAA gas furnace instead of the specified 1.5 minute delay between burner on-time and blower on-time. DOE is soliciting comments, data, and information respecting the Petition for Waiver.

DATE: DOE will accept comments, data, and information not later than July 18, 1991.

ADDRESSES: Written comments and statements shall be sent to: Department of Energy, Office of Conservation and Renewable Energy, Case No. F-031, Mail Stop CE-90, room 6B-025, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585 (202) 586-3012.

FOR FURTHER INFORMATION CONTACT:

Cyrus H. Nasseri, U.S. Department of Energy, Office of Conservation and Renewable Energy, Mail Station CE-43, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585, (202) 586-9127.

Eugene Margolis, Esq., U.S. Department of Energy, Office of General Counsel, Mail Station GC-41, Forrestal Building, 1000 Independence Avenue, SW., Washington, DC 20585, (202) 586-9507.

SUPPLEMENTARY INFORMATION: The Energy Conservation Program for Consumer Products (other than automobiles) was established pursuant to the Energy Policy and Conservation Act (EPCA), Public Law 94-163, 89 Stat. 917, as amended by the National Energy Conservation Policy Act (NECPA), Public Law 95-619, 92 Stat. 3266, the National Appliance Energy Conservation Act of 1987 (NAECA), Public Law 100-12, and the National

VOL 56 ISS 117 JE 18 1991 UMI

Appliance Energy Conservation Amendments of 1988 (NAECA) 1988), Public Law 100–357, which requires DOE to prescribe standardized test procedures to measure the energy consumption of certain consumer products, including furnaces. The intent of the test procedures is to provide a comparable measure of energy consumption that will assist consumers in making purchasing decisions. These test procedures appear at 10 CFR part 430, subpart B.

DOE amended the prescribed test procedures by adding 10 CFR 430.27 on September 28, 1990, creating the waiver process. 45 FR 64108. Thereafter DOE further amended the appliance test procedure waiver process to allow the Assistant Secretary for Conservation and Renewable Energy (Assistant Secretary) to grant an Interim Waiver from test procedure requirements to manufacturers that have petitioned DOE for waiver of such prescribed test procedures. 51 FR 42823, November 26, 1986.

The waiver process allows the Assistant Secretary to waive temporarily test procedures for a particular basic model when a petitioner shows that the basic model contains one or more design characteristics which prevent testing according to the prescribed test procedures or when the prescribed test procedures may evaluate the basic model in a manner so unrepresentative of its true energy consumption as to provide materially inaccurate comparative data. Waivers generally remain in effect until final test procedure amendments become effective, resolving the problem that is the subject to the waiver.

The interim waiver provisions, added by the 1986 amendment, allow the Assistant Secretary to grant an Interim Waiver when it is determined that the applicant will experience economic hardship if the Application for Interim Waiver is denied, if it appears likely that the Petition for Waiver will be granted, and/or the Assistant Secretary determines that it would be desirable for public policy reasons to grant immediate relief pending a determination on the Petition for Waiver. An Interim Waiver remains in effect for a period of 180 days or until DOE issues its determination on the Petition for Waiver, whichever is sooner, and may be extended for an additional 180 days, if necessary.

On February 18, 1991, Inter-City filed an Application for an Interim Waiver regarding blower time delay. Inter-City's Application seeks an Interim Waiver from the DOE test provisions that require a 1.5-minute time delay between the ignition of the burner and starting of the circulating air blower. Instead, Inter-City requests the allowance to test using a 30-second blower time delay when testing its PGAA gas furnace. Inter-City states that the 30-second delay is indicative of how these furnaces actually operate. Such a delay results in an energy savings of approximately 9.6 percent. Since current DOE test procedures do not address this variable blower time delay, Inter-City asks that the interim waiver be granted.

Previous waivers for this type of timed blower delay control have been granted by DOE to Coleman Company, 50 FR 2710, January 18, 1985; Magic Chef Company, 50 FR 41553, October 11, 1985; Rheem Manufacturing Company, 53 FR 48574, December 1, 1988, and 55 FR 3253, January 31, 1990; Trane Company, 54 FR 19228, May 4, 1989, and 55 FR 41580, October 12, 1990; DMO Industries, 55 FR 4004, February 8, 1990; Heil-Quaker Corporation, 55 FR 13184, April 9, 1990; Carrier Corporation, 55 FR 13182; April 9, 1990; Amana Refrigeration Inc., 56 FR 853, January 9, 1991; and Armstrong Air Conditioning, Inc., 56 FR 10553, March 13, 1991. Thus, it appears likely that the Petition for Waiver will be granted for blower time delay.

In those instances where the likely success of the Petition for Waiver has been demonstrated based upon DOE having granted a waiver for a similar product design, it is in the public interest to have similar products tested and rated for energy consumption on a comparable basis.

Therefore, based on the above, DOE is granting Inter-City an Interim Waiver for its PGAA series of gas furnaces. Pursuant to paragraph (e) of § 430.27 of the Code of Federal Regulations, the following letter granting the Application for Interim Waiver to Inter-City Products Corporation was issued.

Pursuant to paragraph (b) of 10 CFR 430.27, DOE is hereby publishing the "Petition for Waiver" in its entirety. The petition contains no confidential information. DOE solicits comments, data, and information respecting the petition.

Issued in Washington, DC, May 29, 1991.

J. Michael Davis, P.E.,

Assistant Secretary for Conservation and Renewable Energy.

Assistant Secretary, Conservation and Renewable Energy,

United States Department of Energy, 1000 Independence Avenue SW., Washington, District of Columbia 20585.

Gentlemen: Please consider this Petition for Waiver and Application for Interim Waiver pursuant to Title 10 CFR 430.27.

Waiver is requested from the test procedures covering gas furnaces found at appendix N to subpart B of 10 CFR Part 430. The current Heat-Up Test procedure requires a 1.5 minute time delay between burner and blower startup. Inter-City Products is requesting to use 30 seconds instead of 1.5 minutes for Series "PGAA" Packaged Gas Furnaces.

These models will employ an electronic blower time control that starts the blower in approximately 30 seconds. Our testing indicates an increase of .6 percent in AFUE using the 30 second time delay.

Inter-City Products Corporation seeks an interim waiver because it is likely that our waiver will be granted. Similar waivers have been granted to other manufacturers in the past.

A copy of this Petition for Waiver and Application for Interim Waiver will be sent to other manufacturers of similar type products.

Respectfully yours,

William E. Dalton,

Vice President, Engineering.

Mr. William E. Dalton,

Vice President, Engineering, Inter-City Products Corporation, 1136 Heil-Quaker Boulevard, Lavergne, TN 37086–1985.

Dear Mr. Dalton: This is in response to your February 18, 1991, Application for Interim Waiver and Petition for Waiver from the Department of Energy (DOE) test procedures for furnaces regarding blower time delay for the Inter-City Products Corporation (Inter-City) PGAA gas furnace.

Previous waivers for timed blower delay control have been granted by DOE to Coleman Company, 50 FR 2710, January 18, 1985; Magic Chef Company, 50 FR 41553, October 11, 1985; Rheem Manufacturing Company, 53 FR 48574, December 1, 1988, and 55 FR 3253, January 31, 1990; Trane Company, 54 FR 19228, May 4, 1989, and 55 FR 41580, October 12, 1990; DMO Industries, 55 FR 4004, February 8, 1990; Heil-Quaker Corporation, 55 FR 13184, April 9, 1990; Carrier Corporation, 55 FR 13182, April 9, 1990; Amana Refrigeration Inc., 56 FR 853, January 9, 1991; and Armstrong Air Conditioning Inc., 56 FR 10553, March 13, 1991.

Inter-City's Application for Interim Waiver does not provide sufficient information to evaluate what, if any, economic impact or competitive disadvantage Inter-City will likely experience absent a favorable determination on its application. However, in those instances where the likely success of the Petition for Waiver has been demonstrated, based upon DOE having granted a waiver for a similar product design, it is in the public interest to have similar products tested and rated for energy consumption on a comparable basis.

Therefore, Inter-City's Application for an Interim Waiver from the DOE test procedures for its PGAA gas furnace regarding blower time delay is granted.

Inter-City shall be permitted to test its line of PGAA gas furnace on the basis of the test procedures specified in 10 CFR part 430, subpart B, Appendix N, with the modification set forth below.

(i) Section 3.0 in appendix N is deleted and replaced with the following paragraph:

3.0 Test Procedure. Testing and measurements shall be as specified in section 9 in ANSI/ASHRAE 103–82 with the exception of sections 9.2.2, 9.3.1, and 9.3.2, and the inclusion of the following additional procedures:

(ii) Add a new paragraph 3.10 in appendix N as follows:

3.10 Gas- and Oil-Fueled Central Furnaces. After equilibrium conditions are achieved following the cool-down test and the required measurements performed, turn on the furnace and measure the flue gas temperature, using the thermocouple grid described above, at 0.5 and 2.5 minutes after the main burner(s) comes on. After the burner start-up, delay the blower start-up by 1.5 minutes (1.), unless, (1) the furnace employs a single motor to drive the power burner and the indoor air circulation blower, in which case the burner and blower shall be started together; or (2) the furnace is designed to operate using an unvarying delay time that is other than 1.5 minutes, in which case the fan control shall be permitted to start the blower; or (3) the delay time results in the activation of a temperature safety device shuts off the burner, in which case the fan control shall be permitted to start the blower. In the latter case, if the fan control is adjustable, set it to start the blower at the highest temperature. If the fan control is permitted to start the blower, measure time delay, (t.), using a stop watch. Record the measured temperatures. During the heat-up test for oil-fueled furnaces, maintain the draft in the flue pipe within +/-0.01 inch of water column of the manufacturer's recommended on-period draft.

This Interim Waiver is based upon the presumed validity of statements and all allegations submitted by the company. This interim waiver may be revoked or modified at any time upon a determination that the factual basis underlying the application is incorrect.

The Interim Waiver shall remain in effect for a period of 180 days or until DOE acts on the Petition for Waiver, whichever is sooner, and may be extended for an additional 180 day period, if necessary.

Sincerely,

J. Michael Davis,

Assistant Secretary, Conservation and Renewable Energy.

ENVIRONMENTAL PROTECTION AGENCY

[OPPE; FRL-3966-4]

Anticipated Pesticide Residues in Food; Availability of Document

AGENCY: Environmental Protection Agency.

ACTION: Notice of availability.

SUMMARY: The Document "Anticipated Pesticide Residues in Food" is available to the public. This report contains a pesticide food residue data base. Hardcopy and microfiche copies of the report can be purchased through the National Technical Information Service (NTIS). Electronic searches of the data base may also be purchased. Ordering information is provided.

DOCUMENT DESCRIPTION: "Anticipated Pesticide Residues in Food" is comprised of our volumes. Volume one describes the sources of data contained in the report, the format of the computerized data base and the recommendations of the report. Volumes two through four list the data records included in the data base.

ORDERING INFORMATION: Volume 1 has been assigned the NTIS number PB91–154591. Volumes two through four have been assigned the NTIS number PB91–154609. The NTIS number for all four volumes is PB91–154583. Use this information when ordering. The price for volume one is $17.00 ($8.00 for microfiche). The price for volumes two through four is $68.00 ($29.50 for microfiche). Orders may be placed by telephone to the NTIS order desk and charged against a deposit account of American Express, VISA, Mastercard, or sent by mail with a check, money order, or account number.

ADDRESSES: National Technical Information Services, attn: Order Desk, 5285 Port Royal Rd., Springfield, VA 22161 (703–487–4650).

DATA BASE SEARCHES: For information on procedures for having electronic data base searches carried out, contact Dynamac Corporation (301–417–6126).

FOR FURTHER INFORMATION CONTACT: Joseph C. Reinert, Waste and Chemicals Policy Division (PM–220), Office of Policy, Planning and Evaluation, EPA, 401 M Street SW., Washington, DC 20460. Office location and telephone number: Rm. 34 Waterside Mall, EPA, (202–382–7557).

Dated: June 7, 1991.

Daniel Fiorino,

Associate Director, Office of Policy Analysis.

[OPTS–44571; FRL 3929–3]

TSCA Chemical Testing; Receipt of Test Data

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the receipt of test data on 4-nonylphenol, branched (CAS No. 84852–15–3), submitted pursuant to a consent order under the Toxic Substances Control Act (TSCA). Publication of this notice is in compliance with section 4(d) of TSCA.

FOR FURTHER INFORMATION CONTACT: David Kling, Acting Director, Environmental Assistance Division (TS–799), Office of Toxic Substances, Environmental Protection Agency, Rm. E–543B, 401 M St., SW., Washington, DC 20460, (202) 554–1404, TDD (202) 554–0551.

SUPPLEMENTARY INFORMATION: Under 40 CFR 790.60, all TSCA section 4 consent orders must contain a statement that results of testing conducted pursuant to these testing consent orders will be announced to the public in accordance with section 4(d).

I. Test Data Submissions

Test data for 4 nonylphenol, branched were submitted by the Chemical Manufacturers Association's Alkylphenol and Ethoxylates Panel pursuant to a consent order at 40 CFR 799.5000. They were received by EPA on May 20, 1991. The submissions describe the chronic toxicity of nonylphenol to the Mysid, *Mysidopsis bahia*, and the early life stage toxicity of nonylphenol to the fathead minnow, *Pimephales promelas*. Environmental effects testing is required by this test rule. This chemical is used: (1) As an intermediate in the production of nonionic ethoxylated surfactants, (2) as a reactive intermediate in lube additives formaldehyde resins, polymeric stabilizers and epoxy resins, and (3) in the manufacture of phosphate antioxidant, oil additives, synthetic lubricants and corrosion inhibitors.

EPA has initiated its review and evaluation process for these data submissions. At this time, the Agency is unable to provide any determination as to the completeness of the submissions.

II. Public Record

EPA has established a public record for this TSCA section 4(d)receipt of data notice (docket number OPTS–44571). This recordincludes copies of all studies reported in this notice. The recordis available for inspection from 8 a.m. to 12 noon, and 1 p.m. to 4 p.m., Monday through Friday, except legal holidays, in the TSCA Public Docket Office, Rm. NE–G004, 401 M St., SW., Washington, DC 20460.

Authority: 15 U.S.C. 2603.

Dated: June 7, 1991.

Charles M. Auer,

Director, Existing Chemical Assessment Division, Office of Toxic Substances.

[FR Doc. 91-14450 Filed 6-17-91; 8:45 am]

BILLING CODE 6560-50-F

VOL 56 ISS 117 JE 18 1991 UMI

[OPTS-59269B; FRL 3931-2]

Certain Chemical; Approval of Modification to Test Marketing Exemption

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's approval of a modification of the test marketing period for a test marketing exemption (TME) under section 5(h)(1) of the Toxic Substances Control Act (TSCA) and 40 CFR 720.38. EPA designated the original test marketing application as TME-91-1. The test marketing conditions are described below.

EFFECTIVE DATES: June 11, 1991.

FOR FURTHER INFORMATION CONTACT: Rick Keigwin, New Chemicals Branch, Chemical Control Division (TS-794), Office of Toxic Substances, Environmental Protection Agency, Rm. E-611, 401 M St. SW., Washington, DC 20460, (202) 382-2440.

SUPPLEMENTARY INFORMATION: Section 5(h)(1) of TSCA authorizes EPA to exempt persons from premanufacture notification (PMN) requirements and permit them to manufacture or import new chemical substances for test marketing purposes if the Agency finds that the manufacture, processing, distribution in commerce, use, and disposal of the substances for test marketing purposes will not present an unreasonable risk of injury to human health or the environment. EPA may impose restrictions on test marketing activities and may modify or revoke a test marketing exemption upon receipt of new information which casts significant doubt on its finding that the test marketing activity will not present an unreasonable risk of injury.

EPA hereby approves the modification of the test marketing period for TME-91-1. EPA has determined that test marketing of the new chemical substance described below, under the conditions set out in the TME application and modification request, and for the modified time period specified below, will not present an unreasonable risk of injury to human health or the environment. Production volume, use, and the number of customers must not exceed that specified in the application. All other conditions and restrictions described in the original Notice of Approval of Test Marketing Application must be met.

T-91-1

Notice of Approval of Original Application: December 21, 1991 (55 FR 52317).

Modified Test Marketing Period: 6 month extension from the original 9 months.

The Agency reserves the right to rescind approval or modify the conditions and restrictions of an exemption should any new information come to its attention which casts significant doubt on its finding that the test marketing activities will not present an unreasonable risk of injury to human health or the environment.

Dated: June 11, 1991.

John W. Melone,

Director, Chemical Control Division, Office of Toxic Substances.

BILLING CODE 6560-50-F

FEDERAL EMERGENCY MANAGEMENT AGENCY

Anti-Arson Program

AGENCY: Federal Emergency Management Agency.

ACTION: Notice of solicitation for award of cooperative agreement.

Notice of Solicitation is hereby given that the Federal Emergency Management Agency, under the Fire Prevention and Control Act of 1974, will issue a Request for Assistance (RFA) No. EMW-91-S-3648 on or about June 1, 1991, regarding the design and implementation of an anti-arson strategy program. This program is limited to Community-Based Organizations (CBO). This notice informs the public of the availability of $280,000.00 appropriated for this program by the Federal Emergency Management Agency.

The purpose of this assistance is to focus on nationwide efforts to reduce the number of arson related fires that occur every year throughout this country.

Some broad objectives of this program are:

- To encourage neighborhood involvement in reducing arson fires through new and innovative broad spectrum programs.
- To expand the neighborhood involvement to a community-wide participation in fighting arson.
- To make information available to other neighborhoods and communities regarding successful programs.
- To increase the cooperation between neighborhood residents, community groups and public service organizations such as fire, police, building and code departments.
- To build a comprehensive community anti-arson program.

Organizations wishing to apply for this program must meet certain eligibility requirements:

a. The applicant must be a true community-based organization. Among the criteria to be used to determine whether the applicant is a true CBO are the following:

1. An organization that is made up of community representatives and is lcoated in a neighborhood within the community.

2. An organization that is designed to serve members of a neighborhood in dealing with problems on a voluntary basis.

3. A non-profit organization capable to leveraging private sector funding.

4. Must be a community-based organization that is indigenous to the neighborhood.

5. An organization must have been in existence for at least one year prior to the issuance of this RFA.

The following evaluation factors (numerically weighed to ensure consisent and balanced scoring) are for consideration by the Anti-Arson Evaluation Panel:

a. The relationship between the proposed program approach and objectives of FEMA/USFA CBO Programs (Factor weight: 10)

b. The experience of the organization relating to previous projects in fire/arson prevention (Factor weight: 10)

c. The amount of involvement demonstrated with public sector agencies such as fire, police, building codes, housing, etc. (Factor weight: 15)

d. The identification of significant problems and issues that impact on the arson problem in their neighborhood (Factor weight: 5)

e. The indication of previous projects in the neighborhood and how residents benefited from those projects in the past (Factor weight: 5)

f. Evidence of previous CBO involvement in Anti-Arson Activities and that these activities have continued and some indication of project personnel experience in community problem solving and development (Factor weight: 15)

g. Identification, availability and ability to obain resources, other that federal funding, necessary to implement and maintain the project (Factor weight: 20)

h. The commitment of the officers, directors and staff as indicated through regular attendance at organizational meetings, and meetings with public and private officials (Factor weight: 10)

i. The reasonableness, practicality and completeness of the organization's plan for implementing and managing the proposed project (Factor weight: 10)

Application for assistance must be requested in writing and addressed as follows: Federal Emergency Management Agency, Office of Acquisition Management, 500 C Street, SW., room 731, Washington, DC 20472, attn: Rhonda Hudson, Contract Specialist. Request for Assistance No. EMW-91-S-3648. Please include a self-addressed mailing label with the request.

Cooperative Agreements are anticipated to be awarded as a result of this request for assistance. It is anticipated that a minimum of five (5) and a maximum of twenty-five (25) assistance awards will be made. The minimum anticipated funding level of this program is $5,000.00 based on the criteria that will be outlined in he solicitation package.

Kenneth J. Brazelais,

Director, Office of Acquisition Management.

BILLING CODE 6718-01-M

FEDERAL MARITIME COMMISSION

Request for Additional Information

Agreement No: 202-010776-059.

Title: Asia North America Eastbound Rate Agreement.

Parties:

American President Lines, Ltd.,
Kawasaki Kisen Kaisha, Ltd.,
A.P. Moller-Maersk Line,
Mitsui O.S.K. Lines, Ltd.,
Neptune Orient Lines, Ltd.,
Nippon Liner Systems, Ltd.,
Nippon Yusen Kaisha Line,
Sea-Land Service, Inc.

Synopsis: Notice is hereby given that the Federal Maritime Commission, pursuant to section 6(d) of the Shipping Act of 1984 (46 U.S.C. app. 1705), has requested additional information from the parties to the Agreement in order to complete the statutory review of Agreement No. 202-010776-059 required by the Act. This action extends the review period as provided in section 6(c) of the Act.

By Order of the Federal Maritime Commission.

Dated: June 12, 1991.

Joseph C. Polking,

Secretary.

BILLING CODE 6730-01-M

The Board of Trustees of the Galveston Wharves/Dunavant Enterprises, Inc.; Agreement(s) Filed

The Federal Maritime Commission hereby gives notice of the filing of the following agreement(s) pursuant to section 5 of the Shipping Act of 1984.

Interested parties may inspect and obtain a copy of each agreement at the Washington, DC Office of the Federal Maritime Commission, 1100 L Street NW., room 10220. Interested parties may submit comments on each agreement to the Secretary, Federal Maritime Commission, Washington, DC 20573, within 10 days after the date of the Federal Register in which this notice appears. The requirements for comments are found in § 572.603 of title 46 of the Code of Federal Regulations. Interested persons should consult this section before communicating with the Commission regarding a pending agreement.

Agreement No.: 224-200529.

Title: The Board of Trustees of The Galveston Wharves/Dunavant Enterprises, Inc. Terminal Agreement.

Parties:

The Board of Trustees of The Galveston Wharves (Galveston),
Dunavant Enterprises, Inc. (DE).

Synopsis: The Agreement, filed June 10, 1991, provides for DE to pay Galveston the tariff wharfage rate on the first 50,000 bales of cotton shipped through the Port of Galveston in 1991 and then $0.35 per bale thereafter. The term of the Agreement expires December 31, 1991.

Dated: June 12, 1991.

By Order of the Federal Maritime Commission.

Joseph C. Polking,

Secretary.

BILLING CODE 6730-01-M

FEDERAL RESERVE SYSTEM

Area Bancshares Corporation, et al.; Acquisitions of Companies Engaged in Permissible Nonbanking Activities

The organizations listed in this notice have applied under § 225.23(a)(2) or (f) of the Board's Regulation Y (12 CFR 225.23(a)(2) or (f)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to acquire or control voting securities or assets of a company engaged in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated for the application or the offices of the Board of Governors not later than July 8, 1991.

A. Federal Reserve Bank of St. Louis (Randall C. Sumner, Vice President) 411 Locust Street, St. Louis, Missouri 63166:

1. Area Bancshares Corporation, Owensboro, Kentucky; to acquire First Federal Savings and Loan Association of Bowling Green, Bowling Green, Kentucky, and thereby engage in operating a savings and loan association pursuant to § 225.25(b)(9) of the Board's Regulation Y. This activity will be conducted in Bowling Green and Franklin, Kentucky.

B. Federal Reserve Bank of Kansas City (Thomas M. Hoenig, Vice President) 925 Grand Avenue, Kansas City, Missouri 64198:

1. Brooke Holdings, Inc., Jewell, Kansas; to acquire MidAmerica Insurance Agency, Phillipsburg, Kansas, and thereby engage in the sale of general insurance (excluding life insurance and annuities) pursuant to § 225.25(b)(8)(vi) of the Board's Regulation Y. Comments on this application must be received by July 2, 1991.

VOL 56 ISS 117 JE 18 1991 UMI

Board of Governors of the Federal Reserve System, June 12, 1991.

Jennifer J. Johnson,

Associate Secretary of the Board.

BILLING CODE 6210-01-F

Chambers Bancshares, Inc.; Notice of Application to Engage de novo in Permissible Nonbanking Activities

The company listed in this notice has filed an application under § 225.23(a)(1) of the Board's Regulation Y (12 CFR 225.23(a)(1)) for the Board's approval under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.21(a) of Regulation Y (12 CFR 225.21(a)) to commence or to engage *de novo*, either directly or through a subsidiary, in a nonbanking activity that is listed in § 225.25 of Regulation Y as closely related to banking and permissible for bank holding companies. Unless otherwise noted, such activities will be conducted throughout the United States.

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

Comments regarding the application must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than July 8, 1991.

A. Federal Reserve Bank of St. Louis (Randall C. Sumner, Vice President) 411 Locust Street, St. Louis, Missouri 63166:

1. Chambers Bancshares, Inc., Danville, Arkansas; to engage *de novo* in providing real estate appraisal services pursuant to § 225.25(b)(13) of the Board's Regulation Y. This activity will be conducted in the State of Arkansas.

Board of Governors of the Federal Reserve System, June 12, 1991.

Jennifer J. Johnson,

Associate Secretary of the Board.

BILLING CODE 6210-01-F

Eastern Illinois Bancorp, Inc., et al.; Formations of; Acquisitions by; and Mergers of Bank Holding Companies

The companies listed in this notice have applied for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) and § 225.14 of the Board's Regulation Y (12 CFR 225.14) to become a bank holding company or to acquire a bank or bank holding company. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Each application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank or to the offices of the Board of Governors. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Unless otherwise noted, comments regarding each of these applications must be received not later than July 8, 1991.

A. Federal Reserve Bank of Chicago (David S. Epstein, Vice President) 230 South LaSalle Street, Chicago, Illinois 60690:

1. Eastern Illinois Bancorp, Inc., Casey, Illinois; to become a bank holding company by acquiring 100 percent of the voting shares of The Casey National Bank, Casey, Illinois.

2. FS BancShares, Inc., Markeson, Wisconsin; to merge with Fox Lake Bankshares, Inc., Fox Lake Wisconsin, and thereby indirectly acquire State Bank of Fox Lake, Fox Lake, Wisconsin.

B. Federal Reserve Bank of Minneapolis (James M. Lyon, Vice President) 250 Marquette Avenue, Minneapolis, Minnesota 55480:

1. Hansen Freeborn, Inc., Freeborn, Minnesota; to become a bank holding company by acquiring 100 percent of the voting shares of First State Bank of Freeborn, Freeborn, Minnesota.

Board of Governors of the Federal Reserve System, June 12, 1991.

Jennifer J. Johnson,

Associate Secretary of the Board.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 91F-0177]

Seiwa Technological Laboratories, Ltd.; Filing of Food Additive Petition

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that Seiwa Technological Laboratories, Ltd., has filed a petition proposing that the food additive regulations be amended to provide for the safe use of 4-isopropyltropolone as a preservative for fresh fruits and vegetables

FOR FUTHER INFORMATION CONTACT: John W. Gordon, Center for Food Safety and Applied Nutrition (HFF-330), Food and Drug Administration, 200 C St. SW., Washington, DC 20204, 202-426-5487.

SUPPLEMENTARY INFORMATION: Under the Federal Food, Drug, and Cosmetic Act (sec. 409(b)(5) (21 U.S.C. 348(b)(5))), notice is given that Seiwa Technological Laboratories, Ltd., suite 340-650, West 41st Ave., Vancouver, B.C. Canada V5Z 2M9, has filed a petition (FAP 9A4156) proposing that the food additive regulations be amended to provide for the safe use of 4-isopropyltropolone as a preservative for fresh fruits and vegetables.

The potential environmental impact of this action is being reviewed. If the agency finds that an enviionmental impact statement is not required and this petition results in a regulation, the notice of availability of the agency's finding of no significant impact and the evidence supporting that finding will be published with the regulation in the **Federal Register** in accordance with 21 CFR 25.40(c).

Dated: June 7, 1991.

Fred R. Shank,

Director, Center for Food Safety and Applied Nutrition.

BILLING CODE 4160-01-M

Public Health Service

National Toxicology Program (NTP) Board of Scientific Counselor's Meeting; Review of Draft NTP Technical Reports

Pursuant to Public Law 92-463, notice is hereby given of the next meeting of the NTP Board of Scientific Counselor's Technical Reports Review Subcommittee on July 9 and 10, 1991, in the Conference Center, Building 101, South Campus, National Institute of Environmental Health Sciences (NIEHS), 111 Alexander Drive, Research Triangle Park, North Carolina. The meeting will begin at 9 a.m. both days and is open to the public. The primary agenda topic is the peer review of draft Technical Reports of long-term toxicology and carcinogenesis studies and short-term toxicity studies from the National Toxicology Program.

Tentatively scheduled to be peer reviewed on July 9 and 10 are draft Technical Reports of long-term studies on nine chemicals, listed alphabetically, along with supporting information in Table 1. All studies were done using Fischer 344 rats and B6C3F1 mice. The order of review is given in the far right column of the table.

Also scheduled to be peer reviewed are draft Technical Reports of toxicity studies on four chemicals, listed alphabetically, along with supporting information in Table 2. Order of presentation is given in the far right column of the table.

Additionally, if time permits, following the Technical Report reviews, there will be three scientific presentations. They are: (1) Variability in Tumor Rates Among Control F344 Rats in NTP Studies; (2) Mononuclear Cell Leukemia in the F344 Rat—Research Approaches; and (3) Evaluation of the Usefulness of Interim Sacrifices in NTP Studies.

Persons wanting to make a formal presentation regarding a particular Technical Report must notify the Executive Secretary by telephone or by mail no later than July 2, 1991, and provide a written copy in advance of the meeting so copies can be made and distributed to all Panel members and staff and make available at the meeting for attendees. Oral presentations should supplement and not just repeat the written statement. Presentations should be limited to no more than seven minutes.

The program would welcome receiving toxicology and carcinogenesis information from completed, ongoing or planned studies by others, as well as current production data, human exposure information, and use patterns on any of the studies listed in this announcement. Please contact the staff scientist as early as possible by telephone or by mail to: NIEHS, P.O. Box 12233, Research Triangle Park (RTP), North Carolina 27709.

The Executive Secretary, Dr. Larry G. Hart, P.O. Box 12233, RTP, North Carolina 27709 (telephone 919/541/3971, FTS 629-3971) will furnish final agenda, a roster of Subcommittee members, and other program information prior to the meeting. Summary minutes subsequent to the meeting will be available upon request.

Dated: June 12, 1991.

David G. Hoel,

Acting Director, National Toxicology Program.

TABLE I.—SUMMARY DATA FOR LONG TERM NTP TOXICOLOGY AND CARCINOGENESIS TECHNICAL REPORTS SCHEDULED FOR PEER REVIEW AT THE BOARD OF SCIENTIFIC COUNSELORS' PEER REVIEW PANEL MEETING ON JULY 9-10, 1991

Chemical CAS No.	Staff scientist/technical report No.	Primary uses	Route/exposure levels	Study laboratory	Review order
Gamma-butyrolactone 96-48-0	Dr. S. Eustis 919-541-3231 TR-406 07/09/91E	Intermediate in the synthesis of polyvinylpyrrolidone, dl-methionine, piperidine, phenylbutyric acid, and thiobutyric acids. Solvent for resins. Constituent of paint removers, textilbe aids. Drilling oil.	Oral, Gavage (corn oil): MR: 0,112,225, FR: 0,225, 450, M: 0, 262, 522 MG/KG/50/ per group.	Southern Research Institute.	3
C.I. Pigment Red 3 2425-85-6	Dr. K. Abdo 919-541-7819 TR-407 07/09/91E	Used in manufacture of paints, inks, plastics, rubber.	Oral in feed (feed): R: 0, 6000,12500, 25000; M: 0, 12500, 25000, 50000 PPM (60 per group).	Southern Research Institute.	5
4,4'-diamino-2,2'-stilbenedisulfonic acid. 81-11-8	Dr. J. Heiley 919-541-0294 TR-412 07/09/91E	Chemical intermediate for dyes and fluorescent brightners.	Oral in feed: R: 0, 125000, 25000, M: 0, 6250, 12500 PPM/60 per group.	International Research & Development Corp.	6
Ethylene glycol 107-21-1	Dr. M. McDonald 919-541-4132 TR-413 07/09/91E	Antifreeze in cooling and heating systems. Extraction solvent. Cleaning agency. Chemical intermediate for polyesters, urethanes, and alkyd resins, vehicle for pharmaceutical preparations, food extracts, flavorings, skin lotions (HSDB 1990).	Oral in feed (feed): MN: 0, .625,1.25, 2.5%, FM: 0,1.25, 2.5,5.0%/ 50 per group.	Southern Research Institute.	2
HC yellow 4 59820-43-8	Dr. K. Abdo 919-541-7819 TR-419 07/09/91E	In semi-permanent hair dye formulations (HSDB 1990).	Oral in feed (feed): MR: 0,0.25,0.5%, FR&M: 0,0.5,1.0%/70 per group.	T.S.I. Mason Research Institute.	4
Mercuric chloride 7487-94-7	Dr. G. Boorman 919-541-3440 TR-408 07/09/91E	Preserving wood, embalming. Browning and etching steel and iron. Reagent. Chemical intermediate. Insecticide. Fungicide. Mordant for furs. Veterinary disinfectant and antiseptic. (TDB).	Oral, Gavage: R: 0, 2.5,5, M: 0,5,10 MG/ KG/60 per group.	International Research & Develop Corp..	9

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[CO-050-4212-08]

Royal Gorge Management Framework Plan, Chaffee Co., CO

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent to prepare a planning amendment to the Royal Gorge Management Framework Plan, Colorado.

SUMMARY: The following described land, found in Chaffee County, Colorado, shall be evaluated under the criteria of section 203 of the Federal Land Policy and Management Act of 1976 (90 Stat. 2750, 43 U.S.C. 1701, 1713) for its suitability for sale under that section and the mineral estate under section 209 of the same act.

New Mexico Principal Meridian, Colorado

T.51N., R.6E., section 21, N½NE¼, SE¼NE¼ containing approximately 120 acres, 6 miles north of Salida, Colorado on US Highway 285.

The County of Chaffee wishes to purchase the land to serve "important public objectives, * * * which cannot be achieved prudently or feasibly on land other than public land and which outweigh other public objectives and values, * * * which would be served by maintaining such tract in Federal ownership." This parcel was not specifically identified for disposal in the Royal Gorge Management Framework Plan.

DATES: Interested parties may submit comments and concerns until July 19, 1991.

ADDRESSES: District Manager, Bureau of Land Management, P.O. Box 2200, Canon City, CO 81215–2200.

FOR FURTHER INFORMATION CONTACT: David Hallock, Bureau of Land Management, 3170 East Main St., Canon City, Colorado at (719) 275–0631.

Roger Underwood,
Assistant District Manager.

BILLING CODE 4310-JB-M

[CO-050-4212-14-COC-51088]

Realty Action, CO

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of realty action, COC–51088, proposed sale of public land and simultaneous conveyance of mineral interests, Conejos County, Colorado.

SUMMARY: The following land has been found suitable for modified competitive sale under section 203 and 209 of the Federal Land Policy and Management Act of 1976 (90 Stat. 2750, 43 U.S.C. 1713):

New Mexico Principal Meridian, Colorado

T.32N., R.6E.
Sec. 13, Lot 2:
Containing 5.72 acres.

The parcel of land is separated from other public land by a county road. The parcel is difficult and uneconomic to manage in federal ownership, and disposal is in conformance with land use planning. The sale will be modified competitive format, with three designated bidders: Candido Sandoval, Gallegos Ranches, and Paul Clark. The land will not be sold for less than the appraised fair market value of $550.00; in addition, the successful bidder will be responsible for survey costs of $500.00.

DATES: Comments will be accepted for 45 days from this publication. Sale date will be not less than 60 days after publication.

ADDRESSES: Comments should be sent to the District Manager, Bureau of Land Management, P.O. Box 2200, Canon City, Colorado 81215–2200.

FOR FURTHER INFORMATION CONTACT: Bill Miller, Realty specialist, BLM San Luis Resource Area, Alamosa, Colorado (719–589–4975).

SUPPLEMENTARY INFORMATION: Publication of this notice segregates the described land from the public land laws, including the mining laws, for two years from publication, or until patent issues. Any patent issued will be subject to valid existing rights, a reservation to the United States for Ditches and Canals under the Act of August 30, 1890 (26 Stat. 391) and necessary rights-of-way for the unsuccessful bidders. Designated bidders will be provided detailed sale procedures including oral bidding procedures, payment requirements, bidder qualifications, time and place of sale and patent reservations.

Roger Underwood,
Acting District Manager.

Wild and Scenic Rivers

AGENCY: Bureau of Land Management (BLM), Department of the Interior (DOI).

ACTION: Notice of availability, Draft Manual Section, Wild and Scenic Rivers—Policy and Program Direction For Identification, Evaluation, and Management.

SUMMARY: The BLM hereby gives notice to making available a proposed Draft Manual concerning policy and program direction for the identification, evaluation, and management of Wild and Scenic Rivers under the stewardship of the BLM.

DATES. Effective with publication of this notice.

ADDRESSES: Send requests for copies to Director (340), room 3360, Department of the Interior, Bureau of Land Management, 1849 C Street NW., Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: Gary G. Marsh, Recreation and Cultural Resources Branch, (202) 208–3353.

SUPPLEMENTARY INFORMATION: This Draft Manual Section makes use of existing authorities and regulations, and proposes policy, program direction, and procedural guidelines for fulfilling requirements of the Wild and Scenic Rivers Act. When finalized, it will provide the BLM line manager and program staff professional with specific policies for evaluating rivers within the BLM's resource management planning process.

In addition, it will set forth requirements for the identification, evaluation, reporting, and management of potential and existing wild, scenic, and/or recreational rivers in the National Wild and Scenic River System under the BLM's administration. This Draft Manual Section was developed as a direct result of field requests and experience, in furtherance of BLM's multiple-use mission, and in order to consolidate program guidance into one document. The Draft Manual supplements other BLM Manual Sections and guidance, e.g., BLM Manual Section 1623—Supplemental Program Guidance, and the U.S. Department of the Interior—U.S. Department of Agriculture (USDI–USDA) Final Revised Guidelines for Eligibility, Classification, and Management of River Areas (47 FR 39454).

Dated: June 3, 1991.

Cy Jamison,
Director.

National Park Service

Delaware and Lehigh Navigation Canal National Heritage Corridor

AGENCY: National Park Service; Delaware and Lehigh Navigation Canal National Heritage Corridor Commission; Interior.

ACTION: Notice of meeting.

SUMMARY: This notice sets forth the date of the forthcoming meeting of the Delaware and Lehigh Navigation Canal National Heritage Corridor Commission.

DATES: July 18, 1991 at 2 p.m.

INCLEMENT WEATHER RESCHEDULE DATE: None.

ADDRESSES: Public Safety Building, 10 East Church Street, room P–205, Bethlehem, PA 18018.

FOR FURTHER INFORMATION CONTACT: Millie Alvarez, Delaware and Lehigh Navigation Canal National Heritage Corridor Commission, 10 East Church Street, room P–208, Bethlehem, PA 18018, (215) 861–9345.

SUPPLEMENTARY INFORMATION: The Commission was established by Public Law 100–692 to assist the Commonwealth and its political subdivisions in planning and implementing an integrated strategy for protecting and promoting cultural, historical and natural resources. The Commission will report to the Secretary of the Interior and to Congress. The agenda for the meeting will focus on the planning process.

The meeting will be open to the public. Any member of the public may file a written statement concerning agenda items. The statement should be addressed to National Park Service, Mid-Atlantic Regional Office, Division of Park and Resource Planning, 260 Custom House, 200 Chestnut Street, Philadelphia, PA 19106, attention: Deirde Gibson.

Minutes of the meeting will be available for inspection four weeks after the meeting, at the above-named address.

James W. Coleman, Jr.,
Regional Director, Mid-Atlantic Region.

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Agency for International Development

Public Information Collection Requirements Submitted to OMB for Review

The Agency for International Development (A.I.D.) submitted the following public information collection requirements to OMB for review and clearance under the Paperwork Reduction Act of 1980, Public Law 96–511. Comments regarding these information collections should be addressed to the OMB reviewer listed at the end of the entry no later than ten days after publication. Comments may also be addressed to, and copies of the submissions obtained from the Reports Management Officer, Fred D. Allen, (703)–875–1573, MS/AS/ISS, room 1209B, SA–14, Washington, DC 20523–1415.

Date Submitted: June 10, 1991.
Submitting Agency: Agency for International Development.
OMB Number: 0412–0510.
Type of Submission: Revision.
Title: Information Collection Requirements Contained in A.I.D.'s Handbook 13, Grants and Cooperative Agreements.
Purpose: Section 635(b) of the Foreign Assistance Act (FAA) authorizes A.I.D. to make grants and cooperative agreements with any corporation or body of persons, whether within or without the United States, and international organizations in furtherance of the purposes and within the limitations of the FAA. A.I.D. is required to ensure the recipients are responsible and that they prudently manage public funds. These information collection and recordkeeping requirements are necessary for A.I.D. to review and monitor recipient's responsibility and compliances with U.S. Government requirements concerning use of funds.
Annual Reporting Burden
Respondents: 400; *annual responses:* 2.75; *average hours per response:* 36; *burden hours:* 39,600.
Reviewer: Marshall Mills (202) 395–7340, Office of Management and Budget, room 3201, New Executive Office Building, Washington, DC 20503.

Dated: June 10, 1991.

INTERSTATE COMMERCE COMMISSION

[Ex Parte No. 499]

Railroad Revenue Adequacy; 1989 Determination

AGENCY: Interstate Commerce Commission.

ACTION: Revision of 1989 Railroad Revenue Adequacy Determinations.

SUMMARY: On November 16, 1990, the Commission served a final decision in this proceeding (7 I.C.C.2d 158 (1990)). On January 30, 1991, the Association of American Railroads filed a Motion for Reconsideration seeking to eliminate the allocation of non-rail deferred taxes from the computation of net railway operating income. The motion for reconsideration is granted and the Commission's 1989 calculations of return on investments are revised. This revision does not change, however, the ultimate determinations of revenue adequacy or inadequacy for the involved railroads.

EFFECTIVE DATE: This decision shall be effective on June 18, 1991.

FOR FURTHER INFORMATION CONTACT: Ward L. Ginn, Jr., (202) 275–7489 (TDD for the hearing impaired: (202) 275–1721).

SUPPLEMENTARY INFORMATION: By decision served November 16, 1990, published at 7 I.C.C.2d 158 (1990), the Commission issued its revenue adequacy findings for the nation's Class I railroads for the year 1989. In that decision the Commission departed from its existing standards for calculating railroad revenue adequacy by disallowing the non-rail portion of deferred taxes as an expense in arriving at net railway operating income ("NROI"). This represented a change from prior procedures, but one that the Commission believed to be a minor technical matter. On January 30, 1991, the Association of American Railroads ("AAR") filed a motion for reconsideration arguing that this change was improper.

Upon consideration of the AAR's petition, we conclude that our decision to adjust the NROI to account for non-rail deferred taxes was improper. We therefore are eliminating this calculation. This will result in changed returns on net investment for four railroads for the year 1989. It will not impact on the findings of revenue adequacy or inadequacy for any of the railroads.

Because the instant action merely acknowledges the invalidity of our prior change and returns to the status quo existing prior to the change, a rulemaking proceeding is unnecessary.

Additional information is contained in a concurrent decision. To purchase a copy of the full decision, write to, call, or pick up in person from: Dynamic Concepts, Inc., room 2229, Interstate Commerce Commission Building, Washington, DC 20423. Telephone: (202) 289–4357/4359. (Assistance for the hearing impaired is available through TDD services (202) 275–1721.)

This action will not significantly affect either the quality of the human environment or energy conservation.

Decided: June 7, 1991.

By the Commission, Chairman Philbin, Vice Chairman Emmett, Commissioners Simmons, Phillips, and McDonald.

Sidney L. Strickland, Jr.,
Secretary.

[FR Doc. 91–14412 Filed 6–17–91; 8:45 am]
BILLING CODE 7035–01–M

[Docket No. AB–167 (Sub 1099X)],

Consolidated Rail Corp.—Abandonment Exemption—in Washington, DC; Exemption

Consolidated Rail Corporation (Conrail) has filed a notice of exemption under 49 CFR 1152 subpart F—Exempt Abandonments to abandon a 1.37-mile line between the point of connection in Conrail's Jersey Yard, milepost 0.0, and the end of the line at Buzzard Point, milepost 1.37, in Washington, DC.

Applicant has certified that: (1) No local traffic has moved over the line for at least 2 years; (2) any overhead traffic on the line can be rerouted over other lines; and (3) no formal complaint filed by a user of rail service on the line [or a State or local government entity acting on behalf of such user) regarding cessation of service over the line either is pending with the Commission or with any U.S. District Court or has been decided in favor of the complainant within the 2-year period. The

VOL
56

1991
UMI

appropriate State agency has been notified in writing at least 10 days prior to the filing of this notice.

As a condition to use of this exemption, any employee affected by the abandonment shall be protected under *Oregon Short Line R. Co.—Abandonment—Goshen*, 360 I.C.C. 91 (1979). To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10505(d) must be filed.

Provided no formal expression of intent to file an offer of financial assistance has been received, this exemption will be effective on July 18, 1991 (unless stayed pending reconsideration). Petitions to stay that do not involve environmental issues,[1] formal expressions of intent to file an offer of financial assistance under 49 CFR 1152.27(c)(2),[2] and trail use/rail banking statements under 49 CFR 1152.29 must be filed by June 28, 1991.[3] Petitions for reconsideration or requests for public use conditions under 49 CFR 1152.28 must be filed by July 8, 1991, with: Office of the Secretary, Case Control Branch, Interstate Commerce Commission, Washington, DC 20423.

A copy of any petition filed with the Commission should be sent to applicant's representative: John J. Paylor, 1138 Six Penn Center Plaza, Philadelphia, PA 19103.

If the notice of exemption contains false or misleading information, use of the exemption is void *ab initio*.

Applicant has filed an environmental report which addresses environmental or energy impacts, if any, from this abandonment.

The Section of Energy and Environment (SEE) will prepare an environmental assessment (EA). SEE will issue the EA by June 21, 1991. Interested persons may obtain a copy of the EA from SEE by writing to it (room 3219, Interstate Commerce Commission, Washington, DC 20423) or by calling Elaine Kaiser, Chief, SEE at (202) 275–7684. Comments on environmental and energy concerns must be filed within 15 days after the EA becomes available to the public.

Environmental, public use, or trail use/rail banking conditions will be imposed, where appropriate, in a subsequent decision.

Decided: June 3, 1991.

By the Commission, David M. Konschnik, Director, Office of Proceedings.

Sidney L. Strickland, Jr.,

Secretary.

[FR Doc. 91-14351 Filed 6-17-91; 8:45 am]

BILLING CODE 7035-01-M

[1] A stay will be routinely issued by the Commission in those proceedings where an informed decision on environmental issues (whether raised by a party or by the Section of Energy and Environment in its independent investigation) cannot be made prior to the effective date of the notice of exemption. See Exemption of Out-of-Service Rail Lines, 5 I.C.C.2d 377 (1989). Any entity seeking a stay involving environmental concerns is encouraged to file its request as soon as possible in order to permit this Commission to review and act on the request before the effective date of this exemption.

[2] See Exempt. of Rail Abandonment—Offers of Finan. Assist., 4 I.C.C.2d 164 (1987).

[3] The Commission will accept a late-filed trail use statement so long as it retains jurisdiction to do so.

DEPARTMENT OF JUSTICE

Office of Justice Programs; Bureau of Justice Assistance

Structured Sentencing Discretionary Grant Announcement

AGENCY: Office of Justice Programs, Bureau of Justice Assistance, Justice.

ACTION: Notice of a structured sentencing grant.

SUMMARY: The Bureau of Justice Assistance (BJA) in cooperation with the United States Sentencing Commission (USSC) announces an initiative to assist states in developing and implementing structured sentencing policies and practices that facilitate consistent and appropriate punishment of convicted offenders.

This initiative will be supported under the Edward Byrne Memorial State and Local Law Enforcement Discretionary Grant Program, authorized by the Anti-Drug Abuse Act of 1988. The initiative was described on pages 117 to 119 of the fiscal year 1991 BJA Discretionary Program Application Kit. The purpose of this initiative is to develop and disseminate information on a prototype structured sentencing program. The prototype will be based on state and USSC experience in the development, implementation and monitoring of sentencing guidelines.

BJA invites public and private organizations to submit competitive applications to develop and disseminate a prototypical structured sentencing program. Private or profit organizations must waive their fee in order to be eligible. Applicant organizations may choose to submit joint proposals with other eligible organizations as long as one organization is designated in the application as the applicant and any co-applicants are designated as such.

Up to $200,000 will be made available through a cooperative agreement for a 15 month period to support a two stage program: (1) Assessment and (2) Prototype (model) development.

DATES: The deadline for receipt of applications is 5 p.m. EDT, Monday, August 19, 1991.

ADDRESSES: All proposals must be mailed or sent to Corrections Branch, Discretionary Grants Program Division, BJA, room 600, 633 Indiana Avenue, NW., Washington, DC 20531.

FOR FURTHER INFORMATION CONTACT: Mr. Christopher Xenos at the above address. Telephone, (202) 514–5943.

SUPPLEMENTARY INFORMATION:

Table of Contents

I. Introduction.
II. Program Goals and Objectives.
III. Program Strategy.
IV. Award Amount.
V. Eligibility Requirements.
VI. Application Requirements.
VII. Procedures and Criteria for Selection.
VIII. Deadline for Receipt of Applications.
IX. Civil Rights Compliance.

I. Introduction

The Structured Sentencing Program is guided by the priorities set by the National Drug Control Strategy. These priorities call for Federal funding to states for planning, developing and implementing alternative sentencing programs for nonviolent drug offenders, including house arrest and boot camps, and which encourage the states to adopt alternative sentencing statutes, for nonviolent offenders.

The program will be designed to promote the use of appropriate sanctions for convicted offenders, and utilize Federal and state expertise for the benefit of state and local governments. A prototype for developing and implementing sentencing policies and practices in conjunction with the implementation of intermediate sanctions and other innovative sentencing options will be developed and disseminated. This program will draw directly upon the expertise of the USSC, which has promulgated Federal sentencing guidelines following an extensive research and development process. The USSC continues to monitor guidelines implementation in the Federal system.

To initiate this collaborative effort, BJA and USSC conducted a workshop with selected states to identify: (1) Issues that states must address by formulating and implementing structured sentencing; (2) state training and technical assistance needs; and (3) alternative approaches for delivering training and technical assistance. Priority needs identified by the states included: (1) Access to information regarding the ways in which states have authorized and organized programs and developed goals pertaining to sentencing guidelines; (2) access to the actual sentencing guidelines and other documents; (3) a means to communicate and interact regularly with other states; (4) quantified, comparable sentencing data that will allow for intra-state tracking and inter-state comparison; and (5) methodologies and technologies for the collection and analysis of sentencing data to facilitate program management and evaluation. The proceedings from this meeting will be made available to the recipient of this award to guide the assessment stage.

II. Program Goals and Objectives

Goals

- To develop a sentencing guideline program.
- To disseminate information about structured sentencing programs.

Objectives

- To identify promising and effective structured sentencing programs.
- To develop a prototypical structured sentencing program, based on Federal and state experiences and guidelines.
- To establish clearinghouse services to support state development and implementation of structured sentencing programs.

III. Program Strategy

This program will be conducted in two states: (1) Assessment; and (2) Prototype Development and Dissemination. The strategy will include clearinghouse services (to be implemented under a separate effort) and a national conference.

State I—Assessment

The first stage of the program consists of the identification and assessment of existing state-structured sentencing programs. The Federal sentencing guidelines developed by the USSC will be reviewed to provide a framework for the program identification and assessment process as well as for prototype development.

The products to be completed during this stage are:

- A plan specifying the method by which the assessment will be conducted;
- A draft and final report which includes:
  - —Criteria for identifying promising structured sentencing programs;
  - —Recommendations for refining the goals and objectives of the program; and
  - —Descriptions of Structured Sentencing Programs.
- Recommendations for the development of a prototype structured sentencing program; and
- A dissemination strategy to inform the field about the development of the program, the products and results of each program stage, including the establishment of clearinghouse services.

Stage II—Development of Prototype

Based on the results of the Assessment Stage, a prototype(s) Structured Sentencing Program and a program operations manual for developing, implementing, monitoring and evaluating a Structured Sentencing Program will be prepared. A national conference will be the central component of the dissemination strategy for this stage. The purpose of the conference will be to present the structured sentencing prototype and to identify state training and technical assistance needs related to implementation of the Structured Sentencing Program.

The products to be completed in this stage are:

- A plan for prototype design and for program operation manual development;
- A draft and final program operation manual; and,
- A dissemination strategy to inform the field about the development of the program and the products and results of this stage.

IV. Award Amount

Up to $200,000 has been allocated for the award. One cooperative agreement will be awarded competitively, with a project period of 15 months to support stages I and II.

V. Eligibility Requirements

Applications are invited from public and private organizations. Private for-profit organizations must waive their fee in order to be eligible. Applicant organizations may submit joint proposals with other eligible organizations. One organization must be designated in the application as the applicant and any co-applicants must be designated as such.

Applicants and co-applicants must demonstrate that they have: (1) Prior experience in the design, conduct and implementation of developmental programs; and (2) demonstrated knowledge of issues associated with structured sentencing and intermediate sanctions.

The applicants must also demonstrate that they have the management and financial capability to implement effectively a project of this size and scope.

VI. Application Requirements

All applicants must submit a completed Application for Federal Assistance (Standard Form 424), including a program narrative, a detailed budget, and budget narrative. All applications must include the information outlined in this section of the solicitation (section VI) and in part IV, Program Narrative of the application (SF–424).

Applications from more than one organization must set forth the relationships among the parties. As a general rule, organizations that describe their working relationship in the development of products and the delivery of services as primarily cooperative or collaborative in nature will be considered co-applicants.

In the event of a co-applicant submission, one co-applicant must be designated as the payee. This applicant will receive and disburse project funds and be responsible for the supervision and the coordination of the activities of the other co-applicant(s). Under this arrangement, each organization must agree to be jointly and severally responsible for all project funds and services. Each co-applicant must sign the SF–424 and indicate its acceptance of the conditions of joint and several responsibility with the other co-applicant(s).

Applications that include non-competitive contracts for the provision of specific services must include a sole source justification for any procurement in excess of $25,000.

The following information must be included in the application:

A. Organizational Capability—Applicants must demonstrate that they are eligible to compete for this cooperative agreement on the basis of the eligibility criteria specified in Section V above. Applicants must demonstrate the way in which their organizational experience and capabilities will enable them to achieve the goals and objectives of this initiative.

Applicants must demonstrate that their organization has or can establish fiscal controls and accounting procedures which assure that Federal funds available under this agreement are disbursed and accounted for properly. Applicants who have not previously received Federal funds will be asked to submit a copy of the Office of Justice Programs, Accounting System and Financial Capability Questionnaire (OJP Form 7120/1).

B. Program Goals and Objectives—A succinct statement of your

VOL 56 ISS 117 JE 18 1991 UMI

understanding of the goals and objectives of the program should be included. The application should also include a literature review, a problem statement and a discussion of the potential contribution of this program to the criminal justice field.

C. Program Strategy—Applicants should describe the proposed approach for achieving the goals and objectives as they relate to the activities and products of the program. A detailed discussion of how both stages of the program would be accomplished should be included.

D. Program Implementation Plan—Applicants should prepare a plan that outlines the major activities involved in implementing the program. Applicants should describe how they will allocate available resources to implement the program and how the program will be managed.

The plan also must include an annotated organizational chart describing the roles and responsibilities of key organizational and functional components and must list the key personnel responsible for managing and implementing the program.

E. Time-Task Plan—Applicants must develop a time-task plan for the project period including clearly identified major milestones and products. This must include designation of organizational responsibility and a schedule for the completion of the products identified in section III.

F. Products—Applicants must concisely describe the interim and final products of each stage of the program, and must address the purpose, audience and usefulness to the field of each product.

G. Program Budget—Applicants must provide a budget with a detailed justification for all costs, including the basis for computation of these costs. Applications submitted by co-applicants and/or those containing contract(s) must include detailed budgets for each organization's expenses.

VII. Procedures and Criteria for Selection

All applications will be evaluated and rated based on the extent to which they meet weighted criteria. Applications will be evaluated by a peer review panel.

The selection criteria and their point values (weights) are as follows:

A. Organizational Capability (25 points)

1. The extent and quality of organizational experience in the design and development of sentencing policies, procedures and practices.

2. Adequate fiscal controls and accounting procedures to ensure that the applicant can effectively implement a project of this size and scope, and to ensure the proper disbursement and accounting of Federal funds.

B. Soundness of the Proposed Strategy (30 Points)

Appropriateness and technical adequacy of the approach to each stage of the program for meeting the goals and objectives of the program and potential utility of proposed products.

C. Qualifications of Project Staff (20 Points)

The qualifications of staff designated to manage and implement the program including staff to be hired through contracts. (10 points)

D. Clarity and Appropriateness of the Program Implementation Plan (15 Points)

Adequacy and appropriateness of the program activities, and the project management structure; and the feasibility of the time-task plan.

E. Budget (10 Points)

The relationship of the proposed costs to the proposed strategy and tasks to be accomplished.

Applications will be evaluated by a peer review panel. The result of the peer review rating process will be a relative aggregate ranking of applications in the form of "Summary of Ratings." Peer review recommendation, in conjunction with the results of internal review, will assist the BJA Director in considering applications and in the selection of an application for funding. The BJA Director will make the final award decision.

VIII. Notification of Applications

Applicants must submit the original signed application and three copies to BJA. The necessary application forms (Standard Form 424) will be provided upon request. Applications must be received by mail or hand delivered to BJA by 5 p.m. EDT on Monday, August 19, 1991. Those applications sent by mail should be addressed to: BJA, U.S. Department of Justice, 633 Indiana Avenue, NW., Washington, DC 20531. Hand delivered applications must be taken to the BJA, room 1044, 633 Indiana Avenue, NW., Washington, DC, between the hours of 8 a.m. and 5 p.m. except Saturdays, Sundays or Federal holidays.

BJA will notify applicants in writing of the receipt of their application. Subsequently, applicants will be notified by letter whether or not their submission will be recommended for funding.

IX. Civil Rights Compliance and other Requirements

A. All recipients of BJA assistance, including any contractors, must comply with the nondiscrimination requirements of the Omnibus Crime Control and Safe Streets Act of 1968, as amended; title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000(d); section 504 of the Rehabilitation Act of 1973, as amended, 29 U.S.C. 794; title IX of the Education Amendments of 1972, 20 U.S.C. 1681; the Age Discrimination Act of 1975, as amended, 42 U.S.C. 6101–6107; and Department of Justice Regulations (28 CFR part 42, subparts C, D, E, and G).

B. In the event a Federal or state court or Federal or state administrative agency makes a finding of discrimination after a due process hearing on the grounds of race, color, religion, national origin or sex against a recipient of funds, the recipient must forward a copy of the finding to the Office for Civil Rights (OCR) of the Office of Justice Programs.

C. Applicants shall maintain such records and submit to BJA upon request timely, complete and accurate data establishing the fact that no person or persons will be or have been denied or prohibited from participation in benefits of, or denied or prohibited from obtaining employment in connection with, any program or activity funded in whole or in part with funds made available under this program because of their race, color, national origin, sex, religion, or handicap. If the recipient of Federal funds contracts with any other person or group, the contractor shall submit compliance reports to the primary recipient.

D. Applicants must submit the original application with a certification that the organization has not been debarred (Form 4662/2). Additionally, applicants must also provide, with the application, a Certification Regarding Drug-Free Workplace Requirements, (Form 4061/3), which meets the requirements of the Drug-Free Workplace Act of 1988 (102 Stat. 4308, 41 U.S.C. 707), which will be supplied with the application information package. The applicant must also submit a completed and signed standard form LLL ("Disclosure of Lobbying Activities" Report) which will be supplied with an application information package.

Gerald P. Regier,

Acting Director, Bureau of Justice Assistance.

SUPPLEMENTARY INFORMATION: The following supplementary information is provided:

Authority

This action is authorized under the Anti-Drug Abuse Act of 1988, 42 U.S.C. 3721–23.

Background

Attorney General Dick Thornburgh has directed elements of the Department of Justice to examine police use of excessive force, calling upon the Federal Bureau of Investigation, the Civil Rights Division, the Community Relations Service, and the National Institute of Justice. The Attorney General specifically requested that NIJ conduct a comprehensive study that will examine "the correlation, if any, between the incidence of police brutality and the presence or absence of department training programs and internal procedures to deter police brutality." Up to $400,000 is available for this project.

This project includes elements related to leadership, discretion, training, policymaking, and accountability as they influence the use of excessive force. The National Institute of Justice will fund a study that focuses on two central areas: (1) an overview of the nature and extent of the problem of excessive force, and (2) an examination of what is being done in training, local departmental policies, and internal control mechanisms to control the use of excessive force.

Charles B. DeWitt, Director,

National Institute of Justice.

BILLING CODE 4410–18–M

DEPARTMENT OF LABOR

Office of the Secretary

Agency Recordkeeping/Reporting Requirements Under Review by the Office of Management and Budget (OMB)

Background: The Department of Labor, in carrying out its responsibilities under the Paperwork Reduction Act (44 U.S.C. chapter 35), considers comments on the reporting and recordkeeping requirements that will affect the public.

List of Recordkeeping/Reporting Requirements Under Review. As necessary, the Department of Labor will publish a list of the Agency recordkeeping/reporting requirements under review by the Office of Management and Budget (OMB) since the last list was published. The list will have all entries grouped into new collections, revisions, extensions, or reinstatements. The Departmental Clearance Officer will, upon request, be able to advise members of the public of the nature of the particular submission they are interested in.

Each entry may contain the following information:

The Agency of the Department issuing this recordkeeping/reporting requirement.

The title of the recordkeeping/reporting requirement.

The OMB and Agency identification numbers, if applicable.

How often the recordkeeping/reporting requirement is needed.

Who will be required to or asked to report or keep records.

Whether small businesses or organizations are affected.

An estimate of the total number of hours needed to comply with the recordkeeping/reporting requirements and the average hours per respondent.

The number of forms in the request for approval, if applicable.

An abstract describing the need for and uses of the information collection.

Comments and Questions: Copies of the recordkeeping/reporting requirements may be obtained by calling the Departmental Clearance Officer, Paul E. Larson, telephone (202) 523–6331. Comments and questions about the items on this list should be directed to Mr. Larson, Office of Information Management, U.S. Department of Labor, 200 Constitution Avenue, NW., room N–1301, Washington, DC. 20210. Comments should also be sent to the Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for (BLS/DM/ESA/ETA/OLMS/MSHA/OSHA/PWBA/VETS), Office of Management and Budget, room 3208, Washington, DC 20503 (Telephone (202) 395–6880).

Any member of the public who wants to comment on a recordkeeping/reporting requirement which has been submitted to OMB should advise Mr. Larson of this intent at the earliest possible date.

Extension

Employment Standards Administration
Optional Use Payroll Form Under the Davis-Bacon Act
1215–0149; WH–347
Average 92 weeks per year
Individuals or households; State or local governments; businesses or other for profit; Federal agencies or employees; small businesses or organizations
95,572 respondents; 8,300,000 total hours; 56 min. per response; 1 form

Report is used by contractors to certify payrolls in accordance with requirements of Copeland and Davis-Bacon Acts, attesting that proper wage rates and fringe benefits were paid; reviewed by contracting agencies to verify that rates are legal and that employees are properly classified.

Signed at Washington, DC this 13th day of June, 1991.

Theresa M. O'Malley,

Acting Departmental Clearance Officer.

BILLING CODE 4510–27–M

Employment and Training Administration

Attestations Filed by Facilities Using Nonimmigrant Aliens as Registered Nurses

AGENCY: Employment and Training Administration, Labor.

ACTION: Notice.

SUMMARY: The Department of Labor (DOL) is publishing, for public information, a list of the following health care facilities which plan on employing nonimmigrant alien nurses. These organizations have attestations on file with DOL for that purpose.

ADDRESSES: Anyone interested in inspecting or reviewing the employer's attestation may do so at the employer's place of business.

VOL
56
ISS
1
17
JE
18
1991
UMI

Attestations and short supporting explanatory statements are also available for inspection in the Immigration Nursing Relief Act Public Disclosure Room, U.S. Employment Service, Employment and Training Administration, Department of Labor, room N4456, 200 Constitution Avenue, NW., Washington, DC 20210.

Any complaints regarding a particular attestation or a facility's activities under that attestation, shall be filed with a local office of the Wage and Hour Division of the Employment Standards Administration, U.S. Department of Labor. The address of such offices are found in many local telephone directories, or may be obtained by writing to the Wage and Hour Division, Employment Standards Administration, Department of Labor, room S3502, 200 Constitution Avenue, NW., Washington, DC 20210.

FOR FURTHER INFORMATION CONTACT:

Regarding the Attestation Process:

The Employment and Training Administration has established a voice-mail service for the H–1A nurse attestation process. Call Telephone Number: 202–535–0643 (this is not a toll-free number). At that number, a caller can:

(1) Listen to general information on the attestation process for H–1A nurses;

(2) Request a copy of the Department of Labor's regulations (20 CFR part 655, subparts D and E, and 29 CFR part 504, subparts D and E) for the attestation process for H–1A nurses, including a copy of the attestation form (form ETA 9029) and the instructions to the form;

(3) Listen to information on H–1A attestations filed within the preceding 30 days;

(4) Listen to information pertaining to public examination of H–1A attestations filed with the Department of Labor;

(5) Listen to information on filing a complaint with respect to a health care facility's H–1A attestation (however, see the telephone number regarding complaints, set forth below); and

(6) Request to speak to a Department of Labor employee regarding questions not answered by Nos. (1) through (4) above.

Regarding the Complaint Process:

Questions regarding the complaint process for the H–1A nurse attestation program shall be made to the Chief, Farm Labor Program, Wage and Hour Division. Telephone: 202–523–7605 (this is not a toll-free number).

SUPPLEMENTARY INFORMATION: The Immigration and Nationality Act requires that a health care facility seeking to use nonimmigrant aliens as registered nurses first attest to the Department of Labor (DOL) that it is taking significant steps to develop, recruit and retain United States (U.S.) workers in the nursing profession. The law also requires that these foreign nurses will not adversely affect U.S. nurses and that the foreign nurses will be treated fairly. The facility's attestation must be on file with DOL before the Immigration and Naturalization Service will consider the facility's H–1A visa petitions for bringing nonimmigrant registered nurses to the United States. 26 U.S.C. 1101(a)(15)(H)(i)(a) and 1121(m). The regulations implementing the nursing attestation program are at 29 CFR part 655 and 29 CFR part 504, 55 FR 50500 (December 6, 1990). The Employment and Training Administration, pursuant to 20 CFR 655.310(c), is publishing the following list of facilities which have submitted attestations which have been accepted for filing.

The list of facilities is published so that U.S. registered nurses, and other persons and organizations can be aware of health care facilities that have requested foreign nurses for their staffs. If U.S. registered nurses or other persons wish to examine the attestation (on Form ETA 9029) and the supporting documentation, the facility is required to make the attestation and documentation available. Telephone numbers of the facilities' chief executive officers also are listed, to aid public inquiries. In addition, attestations and supporting short explanatory statements (but not the full supporting documentation) are available for inspection at the address for the Employment and Training Administration set forth in the **ADDRESSES** section of this notice.

If a person wishes to file a complaint regarding a particular attestation or a facility's activities under that attestation, such complaint must be filed at the address for the Wage and Hour Divison of the Employment Standards Administration set forth in the **ADDRESSES** section of this notice.

Signed at Washington, DC, this 7th day of June, 1991.

Robert A. Schaufl,

Director, United States Employment Service.

BILLING CODE 4510-30-M

Mine Safety and Health Administration

Petitions for Modification

The following parties have filed petitions to modify the application of mandatory safety standards under section 101(c) of the Federal Mine Safety and Health Act of 1977.

1. DK & D Coal Company

[Docket No. M-91-48-C]

DK & D Coal Company, 715 Mahonoy Street, Trevorton, Pennsylvania 17881 has filed a petition to modify the application of 30 CFR 75.1400 to its No. 1 Slope Mine (I.D. No. 36-08220) located in Northumberland County, Pennsylvania. The petitioner proposes to use a slope conveyance without safety catches to transport persons.

2. Twentymile Coal Company

[Docket No. M-91-49-C]

Twentymile Coal Company, 600 Grant Street, Pittsburgh, Pennsylvania 15219 has filed a petition to modify the application of 30 CFR 75.1002 to its Foidel Creek Mine (I.D. No. 05-03636) located in Routt County, Colorado. The petitioner proposes to use 2400-volt cables and equipment to power permissible longwall mining equipment.

3. Peabody Coal Company

[Docket No. M-91-50-C]

Peabody Coal Company, P.O. Box 1233, Charleston, West Virginia 25324 has filed a petition to modify the application of 30 CFR 75.305 to its Montcoal No. 7 Mine (I.D. No. 46-01495) located in Raleigh County, West Virginia. The petitioner proposes to evaluate the ventilation on both sides of a hazardous area in the return aircourse from the longwall face in lieu of traveling.

4. Donaldson Creek Mining Company, Inc.

[Docket No. M-91-51-C]

Donaldson Creek Mining Company, Inc., P.O. Box 502, Dawson Springs, Kentucky 42408 has filed a petition to modify the application of 30 CFR 75.1710-1(a) to its Donaldson Creek Underground No. 1 Mine (I.D. No. 15-13514) located in Hopkins County, Kentucky. The petitioner requests a modification to operate self-propelled electric face equipment without cabs or canopies.

5. Sahara Coal Company, Inc.

[Docket No. M-91-52-C]

The Sahara Coal Company, Inc., P.O. Box 330, Harrisburg, Illinois 62946 has filed a petition to modify the application of 30 CFR 75.1105 to its Mine No. 21 (I.D. No. 11-00784) located in Saline County, Illinois. The petitioner proposes to enclose the electrical equipment in a monitored fire proof structure in lieu of ventilating the equipment to the return.

6. Consolidation Coal Company

[Docket No. M-91-53-C]

Consolidation Coal Company, 1800 Washington Road, Pittsburgh, Pennsylvania 15241 has filed a petition to modify the application of 30 CFR 75.901 to its Rend Lake Mine (I.D. No. 11-00601) located in Jefferson County, Illinois. The petitioner proposes to use a low- and medium-voltage circuit from a portable diesel-driven alternator and transformer to feed underground electrical equipment.

7. Americold Corporation

[Docket No. M-91-54-M]

Americold Corporation, P.O. Box 2926, Kansas City, Kansas 66110-2926 has filed a petition to modify the application of 30 CFR 57.4761 to its Inland Quarries Mine (I.D. No. 14-00156) located in Wyandotte County, Kansas. The petitioner proposes to install a 3-hour rated roll-up fire door at the underground shop.

8. Tenneco Minerals Company

[Docket No. M-91-55-M]

Tenneco Minerals Company, P.O. Box 1167, Green River, Wyoming 82935 has filed a petition to modify the application of 30 CFR 57.22305 to its Tenneco Soda Ash Project (I.D. No. 48-01295) located in Sweetwater County, Wyoming. The petitioner proposes to use nonpermissible tools in or beyond the last open crosscut.

Request for Comments

Persons interested in these petitions may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before July 18, 1991. Copies of these petition are available for inspection at that address.

Dated: June 12, 1991.

Patricia W. Silvey,

Director, Office of Standards, Regulations and Variances.

BILLING CODE 4510-43-M

Occupational Safety and Health Administration

Michigan State Standards; Approval

AGENCY: Occupational Safety and Health Administration (OSHA), Department of Labor.

ACTION: Approval of Michigan State Standards.

SUMMARY: This notice approves Michigan's occupational safety standards for Fixed Fire Equipment. These State-initiated standards constitute Amendment 2, adopted March 1, 1984, to the Michigan General Industry Safety Standards, part 9, adopted August 17, 1974, and approved by OSHA on December 3, 1976 (41 FR 53076). Where a State standard adopted pursuant to an OSHA-approved State plan, differs significantly from a comparable Federal standard or is a State-initiated standard, section 18(c)(2) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) requires that the State Standard must be "at least as effective" as the corresponding Federal standard in providing safe and healthful employment and places of employment. (The different state standard encompasses topic material covered by seven OSHA standards (29 CFR 1910.156 through 1910.164).) In addition, if the standard is applicable to a product distributed or used in interstate commerce, it must be required by compelling local conditions and must not impose any undue burden on interstate commerce.

On November 5, 1990, OSHA published a Federal Register notice (55 FR 46589) requesting public comment on both the "at least as effective" criterion as well as the product clause test of section 18(c)(2) of the Act. This notice invited interested persons to submit by December 5, 1990, written comments and views regarding the Michigan standards and whether they should be approved by the Assistant Secretary. In response to this notice, OSHA did not receive any comments

EFFECTIVE DATE: June 18, 1991.

FOR FURTHER INFORMATION CONTACT: James Foster, Director, Office of Information and Consumer Affairs, Occupational Safety and Health Administration, room N3647, 200 Constitution Avenue NW., Washington, DC 20210, Telephone 523-8148.

SUPPLEMENTARY INFORMATION:

A. Background

The requirements for the adoption and enforcement of safety and health standards by a State with a State plan approved under section 18(b) of the Act are set forth in section 18(c)(2) of the Act and in 29 CFR Part 1902, 29 CFR 1952.7, and 29 CFR 1953.21, 1953.22, and 1953.23. OSHA regulations require that States respond to the adoption of new or revised permanent Federal standards by State promulgation of comparable standards within six months of OSHA publication in the Federal Register (29 CFR 1953.23(a)); a 30-day response time is required for State adoption of a standard comparable to a Federal emergency temporary standard (29 CFR 1953.22(a)(1)). Independent State standards must be submitted for OSHA's review and approval. Newly adopted State standards or revisions to standards must be submitted for OSHA review and approval under procedures set forth in 29 CFR 1953, but are enforceable by the State prior to Federal review and approval. Section 18(c)(2) of the Act provides that if State standards which are not identical to Federal standards are applicable to products which are distributed or used in interstate commerce, such standards must be required by compelling local conditions and must not unduly burden interstate commerce. (This latter requirement is commonly referred to as the "product clause.")

On October 3, 1973, notice was published in the Federal Register (38 FR 27388) of the approval of the Michigan Plan and the adoption of subpart T to part 1952 containing the decision. The Michigan State Plan provides for the adoption of State safety standards in the following manner. In the Michigan Department of Labor, action on a new standard or an amendment to an existing standard is initiated by either the General Industry Safety Standards Commission or the Construction Safety Standards Commission, as is appropriate, in response to a Federal standards change or to the need for a State-initiated standards change recognized after research and consultation with persons knowledgeable in the field for which the standard is being considered. The Michigan Plan provides for the adoption of a standard as an enforceable State standard after due public notice and hearing and administrative review, in accordance with the Michigan Administrative Procedures Act and the Michigan Occupational Safety and Health Act (Act No. 154 of the Public Acts of 1974, as amended).

Michigan has submitted a State-initiated Plan change, which incorporated the subject standards as part of its occupational safety and health Plan. By letter of March 15, 1988, Amendment 2 of the Michigan General Industry Safety Standards, part 9, Fixed Equipment, was submitted by Douglas R. Earle, Director, Bureau of Safety and Regulation, Michigan Department of Labor, to Frank K. Strasheim, then Regional Administrator, OSHA Region V. The standards has been subjected to normal public hearing and review within the State of Michigan, were finalized on February 15, 1984, and became effective on March 1, 1984.

Public Participation

A Federal Register notice requesting public comment on both the "at least as effective" criterion as well as the "product clause test" of section 18(c)(2) of the Act was published on November 5, 1990 [55 FR 46590]. This notice invited interested persons to submit by December 5, 1990, written comments and views regarding Michigan's standard for Fixed Fire Equipment and whether it should be approved by the Assistant Secretary. In addition, comments were specifically sought on whether the standard is applicable to products which are distributed or used in interstate commerce, is required by compelling local conditions, and unduly burdens interstate commerce. In response to the November 5, 1990 Federal Register notice, OSHA received no comments.

Decision:

Having reviewed the State submission and having received no objections to the approval of the standard, OSHA has determined that:

(1) The Michigan standard for Fixed Fire Equipment is at least as effective as the Federal standard.

(2) The record on this standard includes no evidence, developed by or submitted to OSHA, that the standard amendment is not in compliance with the "product clause test" of section 18(c)(2) of the Act. OSHA therefore approves the Michigan standard for fixed fire equipment.

Location of Supplement for Inspection and Copying

A copy of the Michigan Standard applicable to Fixed Fire Equipment, along with approved State provisions for adoption of standards, may be inspected and copied during normal business hours at the following locations: Office of the Regional Administrator, U.S. Department of Labor, 230 South Dearborn, room 3244, Chicago, Illinois 60604; Office of the Director, Bureau of Safety and Regulation, Michigan Department of Labor, 7150 Harris Drive, Lansing, Michigan 48909; and Office of the Director, Directorate of Federal-State Operation, 200 Constitution Avenue NW., room N3700, Washington, DC 20210.

Authority: Sections 8, 18, Occupational Safety and Health Act of 1970 (29 U.S.C. 657, 667); Secretary of Labor's Order No. 12-71 (36 FR 8754), 8-76 (41 FR 25059), or 9-83 (48 FR 35736), as applicable; 29 CFR 1953.4.

Signed this tenth day of June 1991, in Washington, DC.

Gerard Scannell,

Assistant Secretary.

Pension and Welfare Benefits Administration

[Application No. D-8477, et al.]

Proposed Exemptions; AAXI Co., Incorporated Profit Sharing Plan, et al.

AGENCY: Pension and Welfare Benefits Administration, Labor.

ACTION: Notice of proposed exemptions.

SUMMARY: This document contains notices of pendency before the Department of Labor (the Department) of proposed exemptions from certain of the prohibited transaction restriction of the Employee Retirement Income Security Act of 1974 (the Act) and/or the Internal Revenue Code of 1986 (the Code).

Written Comments and Hearing Requests

All interested persons are invited to submit written comments or request for a hearing on the pending exemptions, unless otherwise stated in the Notice of Proposed Exemption, within 45 days from the date of publication of this **Federal Register** Notice. Comments and request for a hearing should state: (1) The name, address, and telephone number of the person making the comment or request, and (2) the nature of the person's interest in the exemption and the manner which the person would be adversely affected by the exemption. A request for a hearing must also state the issues to be addressed and include a general description of the evidence to be presented at the hearing. A request for a hearing must also state the issues to be addressed and include a general description of the evidence to be presented at the hearing.

ADDRESSES: All written comments and request for a hearing (at least three copies) should be sent to the Pension and Welfare Benefits Administration, Office of Exemption Determinations, room N-5649, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210. Attention: Application No. stated in each Notice of Proposed Exemption. The applications for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefits Administration, U.S. Department of Labor, room N-5507, 200 Constitution Avenue, NW., Washington, DC 20210.

Notice to Interested Persons

Notice of the proposed exemptions will be provided to all interested persons in the manner agreed upon by the applicant and the Department within 15 days of the date of publication in the **Federal Register**. Such notice shall include a copy of the notice of proposed exemption as published in the **Federal Register** and shall inform interested persons of their right to comment and to request a hearing (where appropriate).

SUPPLEMENTARY INFORMATION: The proposed exemptions were requested in applications filed pursuant to section 408(a) of the Act and/or section 4975(c)(2) of the Code, and in accordance with procedures set forth in 29 CFR part 2570, subpart B (55 FR 32836, 32847, August 10, 1990). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, these notices of proposed exemption are issued solely by the Department.

The applications contain representations with regard to the proposed exemptions which are summarized below. Interested persons are referred to the applications on file with the Department for a complete statement of the facts and representations.

AAXICO, Incorporated Profit Sharing Plan (the Plan) Located in Mt. Clemens, Michigan

[Application No. D-8477]

Proposed Exemption

The Department is considering granting an exemption under the authority of section 408(e) of the Act and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 20, 1975). If the exemption is granted, the restrictions of section 406(a), 406(b)(1) and (b)(2) of the Act and sanctions resulting from the application of section 4975 of the Code by reason of section 4975(c)(1)(A) through (E) of the Code shall not apply to the proposed sale of right, title and interest in a loan (the Note) made by the Plan to an unrelated third party to Mr. James L. Van Camp, a party-in-interest with respect to the Plan, provided that the Plan receives $66,500 in cash for the Note which is equal to the amount of the loan principal plus accrued interest.

Summary of Facts and Representations

1. The Plan is a profit sharing plan sponsored by AAXICO, Incorporated. As of July 31, 1990, the Plan had approximately 90 participants. The value of the Plan's assets, as of June 30, 1990, was $311,460. James L. Van Camp is trustee of the Plan, a 73-percent shareholder, and the Chairman of the Board of Directors of AAXCIO, Incorporated.

2. On January 15, 1988, the Plan extended a demand loan in the amount of $65,000 at a 12-percent annual interest rate to an individual (the Debtor). Mr. Van Camp (the Trustee) represents that the Debtor is not a party in interest with respect to the Plan. The terms of the Note include a security interest in all of the Debtor's assets. The Debtor has not made the required payments. The Trustee has declared the entire outstanding principal amount and accrued interest immediately due and payable, and has made repeated demands for payments in full. The Trustee states that the collateral supporting the Note is not adequate to satisfy payment of the Note.

3. The Trustee wishes to prevent any possible loss to the Plan, and he has proposed to purchase the Note from the Plan. He has represented that he will not benefit in any way from this transaction.[1]

The proposed purchase will prevent the Plan from initiating a default proceeding and from incurring expenses associated in bringing a default proceeding. The Trustee will pay the Plan the full amount of principal plus accrued interest less any amount the Plan should collect from the Debtor. The payment to the Plan will be in cash.

4. Arthur Anderson & Co., as an independent third party, has reviewed the Note and has stated that since the Note was issued, the Debtor has made insufficient payments of principal and interest, and the overall financial position of the Debtor is not of a quality that would support a high level of credit worthiness. Arthur Anderson & Co. represents that it can not justify a purchase price of $66,500 given the history of the payment and overall credit worthiness of the Debtor. Further, Arthur Anderson & Co. represents that the Note would yield a value less than the proposed purchase price of $66,500 (which reflects the outstanding principal amount of the Note plus accrued interest.)

5. In summary, the Trustee represents that the proposed transaction satisfies the criteria of section 408(a): (a) The sale will be a one-time transaction for cash; (b) the sale will prevent the Plan from incurring expenses caused by the Debtor's failure to repay the Note; and (c) the Plan will receive a price in excess of the value that Arthur Anderson represents the Note would yield.

[1] The Department is expressing no opinion as to whether the decision made by the Trustee to make the loan violated any provision of part 4 of title I of the Act.

FOR FURTHER INFORMATION CONTACT: Allison K. Padams of the Department, telephone (202) 523-8971. (This is not a toll-free number.)

Phoenix Mutual Life Insurance Company (Phoenix Mutual) Located in Hartford, Connecticut

[Exemption Application No. D-8511]

Proposed Exemption

The Department is considering granting an exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). If the exemption is granted the restrictions of sections 406(a) and 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to the cash sale (the Sale) on September 28, 1990, of four parcels of real property (the Properties) by the pooled Real Estate Separate Account (RESA) to the general account of Phoenix Mutual (the General Account); provided that the terms and conditions of the Sale were at least as favorable to RESA as those obtainable in an arm's-length transaction with an unrelated party.

EFFECTIVE DATE: This exemption, if granted, will be effective September 28, 1990.

Summary of Facts and Representations

1. Phoenix Mutual is a mutual life insurance company organized under the laws of the state of Connecticut and subject to supervision and examination by the insurance commissioner of that state. As of December 31, 1989, Phoenix Mutual had total assets of approximately $8.2 billion. Phoenix Mutual provides funding, asset management and other services for numerous pension and profit-sharing plans subject to title I of ERISA. As of December 31, 1989, more than $1.1 billion in institutional client assets were held in pooled and advisory accounts maintained by Phoenix Mutual.

At the end of 1989, Phoenix Mutual managed approximately $2.2 billion in real estate assets. Phoenix Mutual held in its general account on behalf of policyholders nearly $293.7 million in equity investments in real property and nearly $1.4 billion in mortgage loans. Phoenix Mutual also held more than $356 million in real estate investments on behalf of RESA.

2. RESA is an open-end, pooled real estate separate account. RESA was established on September 1, 1980, to provide an investment vehicle through which pension plans could make debt and equity investments in real estate. Approximately 215 plans which are subject to title I of ERISA and nine governmental plans participate in RESA. As of December 31, 1989, RESA held 48 real estate investments, including investments in 24 office buildings or office/industrial complexes, 16 apartment buildings or complexes, and 6 retail centers.

The applicant represents that the investment objective of RESA is to make equity and debt investments in properties that provide an attractive cash return and the maximum appreciation in value that may be prudently achieved. Investment opportunities are identified initially through Phoenix Mutual's correspondence system with seventeen unaffiliated mortgage bankers. Phoenix Mutual's real estate analysts select those investment opportunities which appear to meet Phoenix Mutual's investment criteria for presentation to its production department for further market research. Investment opportunities that are determined to be appropriate after the production department's review may be allocated to RESA if they meet RESA's investment objectives and are consistent with the diversification strategy applicable to the portfolio. Following allocation to a specific account, investment opportunities are presented to the Policy Committee for final approval.

Contractholder requests for withdrawal from RESA may be honored as of the first quarterly valuation date which falls on a date at least 90 days from the date of the request. Amounts that may be withdrawn may be limited by the cash available in RESA.

3. The Properties consist of four parcels of commercial real estate described herein in subparagraph (a) through (d). The Properties are "phased development" properties. With respect to each of the Properties, RESA and the General Account each hold investments in different phases of the same development projects.[2]

[2] In this regard, the applicant represents that the respective interests of RESA and the General Account in the different phases of the same development projects relate to entirely separate parcels of property. The Department notes that the applicant has not requested, and the Department is not proposing, any relief with regard to any possible prohibited transactions which may have occurred as a result of RESA and the General Account each holding investments in different phases of the same development projects.

(a) *Northridge Center I*

Northridge Center is a three-phase commercial office development located in Atlanta, Georgia. Phase I (Northridge Center I) of the development is a four-story office building of approximately 64,500 square feet situated on a 3.46 acre tract.

RESA acquired a fee simple interest in Northridge Center I on December 31, 1985, for an initial cost of $4,359,351. As of the date of the Sale, the total cost basis of RESA's interest in Northridge Center I was $5,875,153.

Phase II of Northridge Center is owned by Northridge Center Partners II, a joint venture in which Phoenix Founders, Inc. (Phoenix Founders), a wholly-owned subsidiary of Phoenix Mutual, holds a 90% interest. Douglas R. White, the developer of Northridge Center, holds the remaining 10% interest. Phase III of Northridge Center is owned in its entirety by Phoenix Founders.

(b) *1501-07 Johnson Square Office Park (Johnson Square I)*

Johnson Square is a three-phase commercial office development located in Marietta, Georgia. Phase I of the project is a 2.3 acre site, which is zoned for office and institutional use. Improvements to Phase I were completed in 1984 and consist of four two-story office buildings with net rentable areas of 30,397 square feet.

RESA purchased the underlying land for Phase I of Johnson Square for $191,000 from Marchman Sons Investments (Marchman) on October 28, 1982. Subsequent to its acquisition RESA entered into a 50-year ground lease with Marchman for a fixed rent of $19,100 per year plus 60 percent of net cash flow. RESA provided permanent financing in the amount of $1,545,000, which was secured by Marchman's leasehold interest. In 1985, RESA purchased the leasehold interest in Phase I. As of the date of the Sale, the total cash of RESA's interest in Johnson Square I was $2,112,691.

On December 14, 1984, Phoenix Founders purchased a 10.32 acre parcel from Marchman to complete Phases II and III of the Johnson Square project. Phoenix Founders also obtained an equity interest in the first building constructed in Phase II.

(c) *Turfway Ridge I Office Building (Turfway I)*

Turfway I is the first phase of Turfway Ridge Office Park under a development plan which calls for four office buildings on a building site located in Florence, Kentucky. Turfway I consists of a five-story office building

VOL 56 ISS 117 JE 18 1991 UMI

with a rentable area of 109,552 square feet on an 8.03 acre parcel.

On December 29, 1988, RESA purchased the underlying land of Turfway I for $1,085,000 from Turfway Ridge I Partners. Concurrent with its purchase of the land, RESA entered into a 55-year ground lease with Turfway Ridge I Partners for approximately $104,000 per year plus 50% of net cash flow. RESA also funded a $9,905,000 loan secured by the leasehold interest and improvements on the property (which are owned in fee simple by Turfway Ridge I Partners).

On March 14, 1990, the General Account purchased the underlying land of Phase II of the Turfway development from Turfway Ridge II Partners and concurrently made a leasehold loan to Turfway Ridge II Partners.

(d) *Remington Station-Phase I*

Remington Station is a three-phase partment complex development located in Westerville, Ohio. Phase I of Remington Station is a 100-unit, 12 building complex situated on a 13.115 acre parcel. The construction of Phase I was completed in 1988.

On March 9, 1989, RESA purchased the land underlying Phase I for $600,000 from Paul Isaacs (Mr. Isaacs), the developer. RESA concurrently entered into a 55-year ground lease with Mr. Isaacs fro approximately $54,000 per year, plus 50 percent of net cash flow. RESA also provided a leasehold mortgage of $4,670,000 to Mr. Isaacs. Mr. Isaacs retained a fee simple interest in the improvements, which serve as additional security for the leasehold mortgage.

The General Account acquired similar interests in Phases II and III of Remington Station From Mr. Isaacs on March 30, 1990. Phases II and III comprise 244 apartments and townhomes on approximately 22.5 acres which are adjacent to Phase I. Phases I, II and III share certain tenant recreational facilities.

4. The applicant represents that, consistent with a downturn in the real estate markets in a number of areas in the country, very few new contributions were coming into RESA prior to the Sale. The applicant further represents that several plan contractholders had submitted withdrawal requests. Cash availability was thus, unusually low, making it difficult for RESA to retire its short-term debt incurred in connection with some of its recent acquistions. The low cash availability was also prolonging the waiting period for RESA contractholders with outstanding withdrawal requests to have their interests redeemed.

5. Prior to the Sale, the applicant concluded that selling the properties would enhance RESA's performance by providing cash to retire its outstanding debt and enable RESA to satisfy withdrawal requests at an earlier date. The applicant represents that the selection of properties to sell at a price favorable to RESA was hampered by the relative lack of buyers in the current real estate market. Since the General Account owned interests in the remaining phases of the Properties, the applicant concluded that it was the most logical purchaser of the Properties.

6. On September 28, 1990, RESA's entire interests in the properties were transferred to the General Account, in accordance with the terms and conditions negotiated between Arthur Andersen & Co. (Arthur Andersen), acting as independent fiduciary on behalf of RESA (as discussed below in paragraphs 7 & 8), and Phoenix Mutual. Phoenix Mutual paid a total of $25,240,000 in cash to RESA for its interest in the Properties, broken down as follows:

	Sales price	RESA's cost
Northridge Center I	$5,900,000	$5,675,153
Johnson Square	2,670,000	2,112,691
Turfway Ridge I	11,230,000	11,000,000
Remington Station	5,440,000	5,270,000

The applicant represents that RESA paid no fees or commissions with respect to the Sale.

7. Phoenix Mutual appointed Arthur Andersen to act as independent fiduciary and independent appraiser on behalf of RESA in connection with the Sale. Arthur Andersen has acknowledged that it is a fiduciary with respect to the plans participating in RESA in connection with the Sale. Arthur Andersen in one of the largest accounting and consulting firms in the United States and has extensive experience in real estate transactions. Arthur Andersen receives less than one percent of its gross income from Phoenix Mutual and its affiliates.

8. The responsibilities of Arthur Andersen with respect to the Sale were set forth in a letter agreement (the Agreement) dated August 30, 1990. Under the Agreement, Arthur Andersen assumed responsibility as independent fiduciary on behalf of RESA to negotiate and review the terms and conditions of the Sale, and to determine whether the Sale of each of the Properties would be in the collective interests of the plans participating in RESA and that RESA would receive no less than fair market value for each Property as of the date of the Sale. Arthur Andersen was also authorized under the Agreement to determine not to go forward with the transfer of one or more of the Properties in the event it concluded that the transfers would not be in the collective interests of the plans participating in RESA.

9. As noted above in paragraph 7, Arthur Andersen was also retained by Phoenix Mutual to prepare MAI appraisals of RESA's interest in the Properties. Arthur Andersen prepared such appraisals (the Appraisals) dated July 26, 1990, and supplemented on October 26, 1990, arriving at the following valuations:

(a) Northridge I. Using the sales comparison and the income capitalization approach, the fee simple appraisal of Northridge I was valued at $5,300,000 plus an abutter's premium of $275,000.

(b) Johnson Square I. Using the cost approach, the sales comparison approach and the income capitalization approach, the fee simple interest appraisal of Johnson Square was valued at $2,200,000. The abutters' premium was valued at $100,000.

(c) Turfway Ridge I. Using the cost approach, the sales comparison approach and the income approach, the fee simple interest appraisal of Turfway Ridge I was valued at $10,400,000. The abutter's premium was valued at $307,000, and the land lease premium at $518,000.

(d) Remington Station. Using the cost approach, the sales comparison approach and the income approach, the fee simple appraisal of Remington Station was valued at $4,550,000 with an abutter's premium valued at $150,000. A land lease premium was also valued at $740,000.

10. In addition to reviewing the appraisals of the Properties, Arthur Andersen also conducted the following activities as independent fiduciary:

(a) Reviewed RESA's plan of operation, including its investment fee arrangement with Phoenix Mutual, line of credit agreements, a standard RESA contract, the current withdrawal request listing and other appropriate documents;

(b) Reviewed financial and operating reports and the budgets for each Property;

(c) Evaluated the cash flow projections for each Property;

(d) Reviewed the current rent rolls and summaries, the stability of leases, occupancy rate and tenant turnover, schedule of lease expirations, future lease commitments and the schedule of planned improvements and repairs;

(e) Examined applicable mortgage notes, leasehold agreements and management contracts for each Property;

(f) Inspected the Properties, viewed the neighborhood surrounding each Property and similar competing properties;

(g) Discussed the proposed transactions, RESA's investment objectives and other matters with RESA officers, property managers/leasing agents and other informed persons;

(h) Considered the current marketability of the Properties;

(i) Evaluated market conditions and trends in the respective local markets; and

(j) Conducted a subsequent events review for activity after the July appraisal dates to assure that the proposed sales price equaled or exceeded the value of RESA's interest in each of the Properties as of September 28, 1990.

11. Based on the independent appraisals and analysis described above, Arthur Andersen concluded that it was in the collective best interest of RESA to sell the Properties to the General Account. Arthur Andersen further concluded that the Sale should take place on September 28, 1990, consistent with RESA's investment objectives and liquidity goals, and that the final sales price for each Property exceeded RESA's total basis in the Property and equaled or exceeded the fair market value of RESA's interest in each Property.

12. In summary, the applicant represents that the statutory criteria of section 408(a) of the Act have been satisfied because:

(a) The Sale was a one-time cash transaction;

(b) The Sale liquidated a portion of RESA's portfolio, allowing it to satisfy outstanding withdrawal requests and retire a portion of its short-term debt;

(c) RESA paid no fees or commissions with respect to the Sale;

(d) The terms of the Sale, including the sales price for the Properties, was negotiated by Arthur Andersen acting as independent fiduciary on behalf of RESA; and

(e) Arthur Andersen, based on its evaluation of the independent appraisals, concluded that the Sale was in the best interest of RESA contract-holders and that the sales price equaled or exceeded RESA's total basis and the fair market value of RESA's interest in each Property.

State Auto Insurance Companies Employees Retirement Plan (the Plan) Located in Columbus, Ohio

[Application No. D-8559]

Proposed Exemption

The Department is considering granting an exemption under the authority of section 408(a) of the Act 4975(c)(2) of the Code and in accordance with the procedures set forth in 29 CFR part 2570, subpart B (55 FR 32836, 32847, August 10, 1990). If the exemption is granted, the restrictions of section 406(a), 406(b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code, shall not apply to the proposed loan by the Plan of $10 million to the State Automobile Mutual Insurance Company (the Employer), the sponsor of the Plan and as such a party in interest with respect to the Plan, provided that the terms of the transaction are at least as favorable to the Plan as an arm's-length transaction with a unrelated party.

Summary of Facts and Representations

1. The Plan is a defined benefit plan which, as of December 31, 1989, had 1,456 participants and total assets of $65,667,347. The trustees of the Plan (the Trustees) are Theodore R. Magley, Kathleen Vaughn, Terrence Bowshier, Winford Logan, and Mary Lowe, all of whom are officers or employes of the Employer. The applicant states that the decision-makers for the investment of the Plan's assets are the Trustees as well as Urlin G. Harris, Jr., Senior Vice President-Treasurer and Chief Financial Officer of the Employer, and James Duemey, Assistant Vice President and Invetment Officer of the Employer.

The Trustees have appointed the Huntington Trust Company, N.A., of Columbus, Ohio, to act as a special trustee on behalf of the Plan (the Special Trustee) for all matters concerning the proposed transaction. The Special Trustee is unrelated to the Employer and its affiliates, and has acknowledged its duties, responsibilities, and liabilities in action as a fiduciary under the Act for the Plan. The Special Trustee represents that it is a qualified, independent fiduciary for the Plan. In this regard, the Special Trustee states that it is an experienced fiduciary which manages investments for employee benefit trust accounts subject to the Act and currently acts as a trustee for approximately 1500 employee benefit plans. The Special Trustee is a wholly-owned subsidiary of the Huntington National Bank (the Huntington Bank). As of December 31, 1990, the Special Trustee had total assets of approximately $12 billion.

2. The Employer is an Ohio mutual insurance company which issues property and casualty insurance policies in seventeen states. The Employer's home office is located at 518 East Broad Street, Columbus, Ohio. The Employer has recently completed building a 146,848 square foot addition to its home office complex (the Addition). The Employer paid the total costs for construction of the Addition from its own funds, without any construction loans. However, as a source of permanent mortgage financing for the Addition, the Employer proposes to borrow $10 million from the Plan (the Loan). The applicant states that the Loan would constitute less than 20% of the total value of the Plan's assets, as of December 31, 1989. As security for the Loan, the Employer will deliver to the Plan a first mortgage interest on its home office building, including the Addition (together, the Property), at the time the Loan is made.

3. The Loan will have a term of 10 years with a fixed interest rate, which will be the greater of either 11% per annum or a rate which is no less than 200 basis points over the rate offered by the Huntington Bank on comparable mortgage loans in central Ohio as of the date of closing. The interest rate on the Loan will be adjusted by the Special Trustee after five years. The adjusted interest rate will be the greater of either the initial interest rate on the Loan or a rate which is no less than 200 basis points over the rate offered by the Huntington Bank on comparable mortgage loans at the time. The Loan will require regular quarterly payments of principal and interest based on a ten year amortization schedule.

4. The applicant represents that at the time of delivery to the Plan of the first mortgage interest on the Property, there will be no other liens or encumbrances on the Property. The applicant states that a title insurance policy for the Property will be furnished in favor of the Plan, as lender and mortgagee.

In addition, the Plan's first mortgage will be recorded with the appropriate county officials to perfect the Plan's lien. The Property will be insured against loss by fire, casualty or any other hazard, at the expense of the Employer, with the Plan designated as loss payee.

5. The Property was appraised on September 14, 1990 by Mr. Thomas P. Kohr, M.A.I., S.R.E.A., of Kohr, Royer and Griffin, Inc., an independent, qualified real estate appraiser in Columbus, Ohio (the Appraisal). The

VOL
56
ISS
117
JE
18
1991
UMI

Appraisal states that the Property had a fair market value of approximately $25 million, as of August 3, 1990. The Appraisal's valuation of the Property utilized the income value approach, with an analysis of current office rental rates within the central business district of Columbus, Ohio, and the market value approach, with an analysis of recent sales of similar office buildings in the central business district of Columbus, Ohio. The applicant represents that the Appraisal will be updated prior to the proposed transaction.

6. The Special Trustee, as the Plan's independent fiduciary, has reviewed the terms of the Loan and all the documents and relevant information in connection with the Loan, including the Appraisal. The Special Trustee represents that the terms of the Loan would be at least as favorable to the Plan as an arm's-length transaction with a unrelated party and that the Huntington Bank would consider making the same loan on these terms as a commercial lender. In this regard, the Special Trustee notes that the terms of the Loan do not provide the Plan with any pre-paid interest or "points" at the beginning of the transaction as compensation for making the Loan. However, the Special Trustee states that the 11% minimum interest rate on the Loan coupled with the rate escalator provision will more than compensate for the lack of "points" being charged on the Loan. The Special Trustee states that the Loan will offer the Plan an above "market" rate of return that is very attractive relative to other similar investment opportunities.

The Special Trustee believes that the Loan will be well secured by the Plan's first mortgage interest in the Property in the event of default. The Special trustee notes that the Property is located in the center of the central business district of Columbus, Ohio, an area that has experienced consistent growth in development in the past ten years. The Special Trustee will evaluate the information provided to update the Appraisal to confirm that the fair market value of the Property remains approximately $25 million as of the date of the transaction.

The Special Trustee has conducted an independent evaluation of the financial stability of the Employer. The Special Trustee concludes that the Employer is well capitalized and has sufficient cash flow to cover its expenses, including the proposed payments on the Loan. The Special Trustee notes that the Employer received an A+ rating from the AM Best Insurance Report in 1990 with respect to its consolidated financial position and operating performance.

The Special Trustee has reviewed the Plan's current investment portfolio and considered the diversification of the Plan's assets as well as the liquidity needs of the Plan. Based on this analysis, the Special Trustee represents that the Loan would be a prudent and proper investment for the Plan that would be in the best interests of the Plan and its participants and beneficiaries.

The Special Trustee represents that it will monitor the Loan and will take any appropriate action that becomes necessary to protect the interests of the Plan and its participants and beneficiaries, including a foreclosure on the Property in the event of default. The appraised value of the Property currently represents approximately 250% of the amount of the Loan. The Special Trustee states that it will ensure that the value of the Property will remain at least 150% of the outstanding principal on the Loan throughout the duration of the Loan. The Special Trustee states further that additional property will be used to secure the Loan if such property becomes necessary to maintain the appropriate ratio between the value of the collateral and the amount due on the Loan.

7. In summary, the applicant represents that the proposed transaction will satisfy the statutory criteria of section 408(a) of the Act and section 4975(c)(2) of the Code because: (a) The Loan will be secured by a first mortgage interest on the Property, which has an appraised market value that is 250% of the amount of the Loan; (b) the Plan will receive at least a fair market rate of return on the Loan which is commensurate with the prevailing rate for similar loans offered in the area; (c) the Special Trustee, as the independent fiduciary for the Plan, believes that the Loan would be in the best interests of the Plan and its participants and beneficiaries; (d) the Special Trustee will monitor the Loan on behalf of the Plan and will take any appropriate action necessary to safeguard the interests of the Plan; and (e) the amount of the Loan will represent less than 20% of the total assets of the Plan.

For Further Information Contact: Mr. E.F. Williams of the Department at (202) 523-8883. (This is not a toll-free number.)

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest of disqualified person from certain other provisions of the Act and/or the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(b) of the act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) Before an exemption may be granted under section 408(a) of the Act and/or section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan; and

(3) The proposed exemptions, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

(4) The proposed exemptions, if granted, will be subject to the express condition that the material facts and representations contained in each application are true and complete, and that each application accurately describes all material terms of the transaction which is the subject of the exemption.

Signed at Washington, DC, this 13th day of June, 1991.

Ivan Strasfeld,

Director of Exemption Determinations, Pension and Welfare Benefits Administration, U.S. Department of Labor.

[FR Doc. 91-14435 Filed 6-17-91; 8:45 am]

BILLING CODE 4510-29-M

[Prohibited Transaction Exemption 91-33; Exemption Application No. D-8332, et al.]

Grant of Individual Exemptions; Austin Industries, Inc. Retirement Plan for Hourly Employees, et al.

AGENCY: Pension and Welfare Benefits Administration, Labor.

ACTION: Grant of individual exemptions.

SUMMARY: This document contains exemptions issued by the Department of Labor (the Department) from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and/or the Internal Revenue Code of 1986 (the Code).

Notices were published in the **Federal Register** for the pendency before the Department of proposals to grant such exemptions. The notices set forth a summary of facts and representations contained in each application for exemption and referred interested persons to the respective applications for a complete statement of the facts and representations. The applications have been available for public inspection at the Department in Washington, DC. The notices also invited interested persons to submit comments on the requested exemptions to the Department. In addition the notices stated that any interested person might submit a written request that a public hearing be held (where appropriate). The applicants have represented that they have complied with the requirements of the notification to interested persons. No public comments and no requests for a hearing, unless otherwise stated, were received by the Department.

The notices of proposed exemption were issued and the exemptions are being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

Statutory Findings

In accordance with section 408(a) of the Act and/or section 4975(c)(2) of the Code and the procedures set forth in 29 CFR part 2570, subpart B (55 FR 32836, 32847, August 10, 1990) and based on the entire record, the Department makes the following findings:

(a) The exemptions are administratively feasible;

(b) They are in the interests of the plans and their participants and beneficiaries; and

(c) They are protective of the rights of the participants and beneficiaries of the plans.

Austin Industries, Inc., Retirement Plan for Hourly Employees (the Plan) Located in Dallas, Texas

[Prohibited Transaction Exemption 91-33; Exemption Application No. D-8332]

Exemption

The restrictions of sections 406(a), 406(b)(1) and (b)(2) and 407(a) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code, shall not apply to: (1) The proposed purchase by the Plan of shares of common stock (the Stock) of Austin Industries, Inc. (Austin) from Austin's treasury, provided that the Plan pays no more than the lesser of $7.50 per share or the fair market value of the Stock on the date of the acquisition; (2) the Plan's holding of the Stock; and (3) the acquisition and holding by the Plan of an irrevocable put option (the Put Option) which permits the Plan to sell the Stock to Austin at a price which is the higher of the Plan's acquisition price of the Stock or the appraised fair market value of the Stock at the time of the exercise of the Put Option.

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on April 10, 1991 at 56 FR 14545.

Written Comments: The Department received two written comments with respect to the proposed exemption. One was submitted by a retired employee of Austin who is receiving benefits under the Plan. He requested that the proposed exemption not be granted and that the Plan's assets be maintained exclusively in cash.

C&S Sovran Trust Company (C&S; formerly known as the Citizens and Southern Trust Company (Georgia), N.A.), the Plan's independent fiduciary, responded to this comment. C&S stated that the investment portfolio of the Plan will continue to be adequately diversified as the holding of the Stock will constitute 10% or less of the total portfolio after the purchase. In addition, the Put Option will protect the Plan's participants from any possible depreciation in the Stock. C&S commented that the suggestion that Plan assets be held exclusively in cash would not be prudent because the Plan would forego the opportunity for significant appreciation and earnings on its assets. C&S continues to conclude that the purchase by the Plan of Austin Stock is in the best interest of the Plan and its participants and beneficiaries.

The second written comment to the proposed exemption was submitted by the applicant. The applicant pointed out that in the proposed exemption, the third transaction would have exempted the sale of the Stock by the Plan to Austin under the Put Option, which permitted the Plan to sell the Stock at a price which was the higher of $7.50 per share or the appraised fair market value of the Stock at the time of the exercise of the Put Option. The applicant commented that it had represented that the Put Option will permit the Plan to sell the Stock to Austin at a price which is the greater of the Plan's acquisition price of the Stock or the Stock's current appraised fair market value. Since the Plan might pay less than $7.50 per share at its acquisition price (see transaction 1, above), the Put Option sale price should be modified to correctly reflect the applicant's representation.

The Department has considered the entire record, including the comments submitted and C&S's response to the retiree's comment, and has determined to modify the proposed exemption in accordance with the comment submitted by the applicant.

PJH Investment Company Profit Sharing Plan (the Plan) Located in St. Louis, Missouri

[Prohibited Transaction Exemption 91-34; Exemption Application No. D-8428]

Exemption

The sanctions resulting from the application of section 4975 of the Code by reason of section 4975(1)(1) (A) through (E) of the Code shall not apply to the proposed sale by the Plan of undeveloped real property to PJH Investment Company (the Partnership), a disqualified person with respect to the Plan, provided that the Plan receives no less than the fair market value of the Property at the time of the transaction.[1]

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on April 10, 1991 at 56 FR 14547.

For Further Information Contact: Allison Padams of the Department at telephone (202) 523-8971.

[1] Because the three participants of the Plan are the partners of the Partnership and the Partnership has no employees, there is no jurisdiction under title I of the Act pursuant to 29 CFR 2510.3-3(b) and 2510.3-3(c)(2). However, the Plan is under the jurisdiction of Title II of the Act pursuant to section 4975 of the Code.

VOL 56 ISS 117 JE 18 1991 UMI

Individual Retirement Account of Harold L. Campbell (the IRA) Located in La Jolla, California

[Prohibited Transaction Exemption 91-35; Exemption Application No. D-8462]

Exemption

The sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (E) of the Code shall not apply to the sale of 48,600 shares of First National Corporation, by the IRA to Mr. Harold Campbell for a price not less than the fair market value of the common stock of First National Corporation as determined by its market price on the date of the sale.[2]

For a more complete statement of the facts and representations supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on April 18, 1991 at 56 FR 14549.

For Further Information Contact: Allison Padams of the Department of Labor, telephone (202) 523-8971. (This is not a toll-free number.)

Utica Cutlery Company Pension Plan for Bargaining Unit Employees (the BU Plan) and Utica Cutlery Company Pension Plan for Non-Bargaining Unit Employees (the NBU Plan; Together, the Plans) Located in Utica, New York

[Prohibited Transaction Exemption 91-36; Exemption Application Nos. D-8466 and D-8467]

Exemption

The restrictions of section 406(b)(2) of the Act shall not apply to the proposed lending of $30,000 (the Loan) by the NBU Plan to the BU Plan, and the immediate repayment of the Loan by the BU Plan to the NBU Plan, provided that both Plans remain in the same financial position after the consummation of the transactions as they were in prior to their engaging in the transactions.

For a more complete statement of the facts and representation supporting the Department's decision to grant this exemption refer to the notice of proposed exemption published on April 10, 1991 at 56 FR 14547.

Notice to Interested Persons: The applicant represents that it was unable to comply with the notice to interested persons requirements within the time frame stated in its application. However, the applicant has represented that it notified all interested persons, in the manner agreed upon between the applicant and the Department, by May 7, 1991. Interested persons were informed that they had until June 6, 1991 to comment or request a hearing with respect to the proposed exemption. No comments or hearing requests were received by the Department.

For Further Information Contact: Gary H. Lefkowitz of the Department, telephone (202) 523-8881. (This is not a toll-free number.)

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and/or section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions to which the exemptions does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) These exemptions are supplemental to and not in derogation of, any other provisions of the Act and/or the Code, including statutory or administrative exemptions and transactional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction; and

(3) The availability of these exemptions is subject to the express condition that the material facts and representations contained in each application accurately describes all material terms of the transaction which is the subject of the exemption.

Signed at Washington, DC, this 13th day of June 1991.

Ivan Strasfeld,

Director of Exemption Determinations, Pension and Welfare Benefits Administration, Department of Labor.

SUMMARY: Under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35), agencies are required to submit proposed information collection requests to OMB for review and approval, and to publish a notice in the Federal Register notifying the public that the agency has made the submission.

Copies of the proposed forms, the requests for clearance (S.F. 83's), supporting statements, instructions, transmittal letters and other documents submitted to OMB for review, may be obtained from the Agency Clearance Officer. Comments on the items listed should be submitted to the Agency Clearance Officer and the OMB Paperwork Reduction Project.

DATES: Comments are requested by July 18, 1991. If you anticipate commenting on a form but find that time to prepare will prevent you from submitting comments promptly, you should advise the OMB Paperwork Reduction Project and the Agency Clearance Officer of your intent as early as possible.

ADDRESSES: Mr. D.A. Gerstner, NASA Agency Clearance Officer, Code NTD, NASA Headquarters, Washington, DC 20546; Office of Management and Budget, Paperwork Reduction Project (2700-0044), Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Shirley C. Peigare, NASA Reports Officer (703) 271-5542.

Reports

Title: Space Transportation System; Duty Free Entry of Space Articles.
OMB Number: 2700-0044.
Type of Request: Extension.
Frequency of Report: As required.
Type of Respondent: Individuals or households, state or local governments, businesses or other for-profit, Federal agencies or employees, non-profit institutions, small businesses or organizations.
Number of Respondents: 10.
Responses per Respondent: 1.
Hours per Response: 2.
Annual Responses: 10.
Annual Burden Hours: 20.

Abstract-Need/Uses: Public Law 97-446 authorized duty-free entry of space materials into the U.S. if NASA certifies that the statutory requirements are met. Information from applicants requesting duty-free entry is necessary to determine whether NASA should certify and if the statutory requirements are met.

Dated: June 12, 1991.
D.A. Gerstner,
Director, IRM Policy Division.

BILLING CODE 7510-01-M

[Notice 91-53]

NASA Advisory Council (NAC), Space Science and Applications Advisory Committee (SSAAC), Life Sciences Subcommittee; Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Public Law 92-463, as amended, the National Aeronautics and Space Administration announces a forthcoming meeting of the NASA Advisory Council, Space Science and Applications Advisory Committee, Life Sciences Subcommittee.

DATES: July 9, 1991, 8:30 a.m. to 5:30 p.m.; and July 10, 1991, 8:30 a.m. to 12:15 p.m.

ADDRESSES: Holiday Inn-Capitol, Clark Room, 550 C Street SW., Washington, DC 20024.

FOR FURTHER INFORMATION CONTACT: Dr. Ronald J. White, Code SB, National Aeronautics and Space Administration, Washington, DC 20546 (202/453-2126).

SUPPLEMENTARY INFORMATION: The Space Science and Applications Advisory Committee consults with and advises the NASA Office of Space Science and Applications (OSSA) on long-range plans for, work in progress on, and accomplishments of NASA's Space Science and Applications programs. The Life Sciences Subcommittee provides advice to the Life Sciences Division concerning all of its programs in the space life sciences. The Subcommittee will meet to discuss the status of OSSA, the life sciences presentation to SSAAC, and the status report on Biomedical Monitoring and

VOL 56 ISS 117 JE 18 1991 UMI

Countermeasures & Centrifuge Project. The Subcommittee is chaired by Dr. Francis J. Haddy and is composed of 24 members. The meeting will be closed on Tuesday, July 9, 1991, from 8:45 a.m. to 10:45 a.m. to allow for a discussion on qualifications of individuals being considered for membership to the Subcommittee. Such a discussion would invade the privacy of the individuals involved. Since this session will be concerned with matters listed in 5 U.S.C. 552b (c)(6),, it has been determined that the meeting will be closed to the public for this period of time. The remainder of the meeting will be open to the public up to the seating capacity of the room (approximately 50 people including members of the Subcommittee).

TYPE OF MEETING: Open—except for a closed session as noted in the agenda below.

Agenda

Tuesday, July 9

8:30 a.m.—Introduction and Chairman's Remarks.
8:45 a.m.—Closed Session.
10:45 a.m.—Life Sciences Status.
11:45 a.m.—Report on Other Advisory Committees.
1:15 p.m.—Office of Space Science and Applications Status.
2:15 p.m.—Review of Life Sciences and Issues for SSAAC Workshop.
3:45 p.m.—Review of Short Version of "A Rationale for the Life Sciences."
4:30 p.m.—Gravitational Biology Initiative.
5:30 p.m.—Adjourn.

Wednesday, July 10

8:30 a.m.—NASA Specialized Centers of Research and Training Themes for 1992.
10:15 a.m.—Status Report on Biomedical Monitoring and Countermeasures & Centrifuge Project.
11:15 a.m.—Subcommittee Discussion on Strategy and Actions.
12:15 p.m.—Adjourn.

Dated: June 12, 1991.

John W. Gaff,

Advisory Committee Management Officer, National Aeronautics and Space Administration.

[Notice 91-54]

NASA Advisory Council (NAC), Space Systems and Technology Advisory Committee (SSTAC); Meeting

AGENCY: National Aeronautics and Space Administration

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Public Law 92-463, as amended, the National Aeronautics and Space Administration announces a forthcoming meeting of the NASA Advisory Council, Space Systems and Technology Advisory Committee, Ad Hoc Review Team on Advanced Life Support Technology.

DATES: July 8, 1991, 9 a.m. to 5 p.m.; and July 9, 1991, 9 a.m. to 5 p.m.

ADDRESSES: Lockheed Engineering and Sciences Company, suite 600, Maryland Avenue SW., Washington, DC 20024.

FOR FURTHER INFORMATION CONTACT: Ms. Peggy Evanich, Office of Aeronautics, Exploration and Technology, National Aeronautics and Space Administration, Washington, DC 20546, 202/453-2857.

SUPPLEMENTARY INFORMATION: The NAC Space Systems and Technology Advisory Committee (SSTAC) was established to provide overall guidance to the Office of Aeronautics, Exploration and Technology (OAET) on space systems and technology programs. Special ad hoc review teams are formed to address specific topics. The Ad Hoc Review Team on Advanced Life Support Technology, chaired by Mr. Adrain P. O'Neal, is composed of eight members.

The meeting will be open to the public up to the seating capacity of the room (approximately 30 persons including the team members and other participants). It is imperative that the meeting be held on this date to accommodate the scheduling priorities of the participants.

TYPE OF MEETING: Open.

Agenda

July 8, 1991

9 a.m.—Review Team Discussions-Deliberations.
5 p.m.—Adjourn

July 9, 1991

9 a.m.—Review Team Discussions-Deliberations.
5 p.m.—Adjourn

Dated: June 12, 1991.

John W. Gaff,

Advisory Committee Management Officer, National Aeronautics and Space Administration.

NATIONAL FOUNDATION ON THE ARTS AND HUMANITIES

Cooperative Agreements for the Administration of a Director Fellows Project and a Stage Designer Fellows Project

AGENCY: National Endowment for the Arts.

ACTION: Notification of availability.

SUMMARY: The National Endowment for the Arts is requesting proposals leading to the award of two Cooperative Agreements, one for the administration of a Stage Designer Fellows program, the other for the Administration of a Director Fellows program. The recipients of these Cooperative Agreements will be responsible for all aspects of the programs including the solicitation of applications, disbursement of funds to awardees, and the development and coordination of appropriate assignments for the Stage Designers or Directors. Eligibility to apply for the Cooperative Agreements is limited to nonprofit organizations and individuals. Those interested in receiving the Solicitation packages should reference Program Solicitation PS 91-11 and 91-12 in their written request and include two (2) self-addressed labels. Verbal requests for the Solicitation will not be honored.

DATES: Program Solicitations PS 91-11 and 91-12 are scheduled for release approximately July 10, 1991 with proposals due August 12, 1991.

ADDRESSES: Requests for the Solicitation should be addressed to the National Endowment for the Arts, Contracts Division, room 217, 1100 Pennsylvania Avenue NW., Washington, DC 20506.

William I. Hummel,

Director, Contracts and Procurement Division.

NATIONAL SCIENCE FOUNDATION

Collection of Information Submitted for OMB Review

In accordance with the Paperwork Reduction Act and OMB Guidelines, the National Science Foundation is posting this notice of information collection that will affect the public. Interested persons are invited to submit comments by July 19, 1991. Comments may be submitted to:

(1) *NSF Clearance Officer.* Herman G. Fleming, Division of Personnel and Management, National Science Foundation, Washington, DC 20550, or by telephone, (202) 357-7335. and to:

(2) *OMB Desk Officer.* Office of Information and Regulatory Affairs, ATTN: Dan Chenok, Desk Officer, Paperwork Reduction Project. OMB, 722 Jackson Place, room 3208, NEOB, Washington, DC 20503.

Title: Assessment of the Undergraduate Faculty Enhancement Program.

Affected Public: Individuals.

Responses/Burden Hours: 500 respondents at one/half hour and 93 respondents at one and one/half hours for a total of 390 hours.

Abstract: The NSF Undergraduate Faculty Enhancement Program makes grants to colleges and professional societies to conduct short courses/workshops for faculty members in science, mathematics, and engineering to assist undergraduate faculty to learn new ideas and techniques in their fields to improve their undergraduate teaching. This is an assessment of that program.

Dated: June 13, 1991.

Herman G. Fleming,

NSF Reports Clearance Officer.

NUCLEAR REGULATORY COMMISSION

Appointments to Performance Review Boards for Senior Executive Service

AGENCY: Nuclear Regulatory Commission.

ACTION: Appointment to Performance Review Boards for Senior Executive Service.

SUMMARY: The Nuclear Regulatory Commission (NRC) has announced the following appointments to NRC Performance Review Boards.

The following individuals are appointed as members of the NRC Performance Review Board (PRB) responsible for making recommendations to the appointing and awarding authorities on performance appraisal ratings and performance awards for Senior Executives:

New Appointees:

Guy A. Arlotto, Deputy Director, Office of Nuclear Material Safety and Safeguards.
Harold R. Denton, Director, Office of Governmental and Public Affairs.
James Lieberman, Director, Office of Enforcement.
James G. Partlow, Associate Director for Projects, Office of Nuclear Reactor Regulation.

In addition to the above new appointments, the following members are continuing on the PRB:

Frank J. Congel, Director, Division of Radiation Protection and Emergency Preparedness, Office of Nuclear Reactor Regulation.
James A. Fitzgerald, Assistant General Counsel for Adjudications and Opinions, Office of the General Counsel.
Edward L. Jordan, Director, Office for Analysis and Evaluation of Operational Data.
Patricia G. Norry, Director, Office of Administration.
Carl J. Paperiello, Deputy Regional Administrator, Region III.
Dennis K. Rathbun, Director, Congressional Affairs, Office of Governmental and Public Affairs.
Themis P. Speis, Deputy Director for Research, Office of Nuclear Regulatory Research.
William B. Kerr, Director, Office of Small and Disadvantaged Business Utilization and Civil Rights, continues to serve as an ex officio non-voting member.

The following individuals will serve as members of the NRC PRB Panel that was established to review appraisals and make recommendations to the appointing and awarding authorities for NRC PRB members:

New Appointee:

William C. Parler, General Counsel.

In addition to the above new appointment, the following individuals will continue to serve on the PRB Panel:

James H. Sniezek, Deputy Executive Director for Nuclear Reactor Regulation, Regional Operations and Research, Office of the Executive Director for Operations.
Hugh L. Thompson, Jr., Deputy Executive Director for Nuclear Materials Safety, Safeguards and Operations Support, Office of the Executive Director for Operations.

Members of the NRC Recertification PRB and Recertification PRB Panel will be selected from the individuals listed below. The NRC Recertification PRB and Recertification PRB Panel are responsible for recommending to appointing authorities whether Senior Executives should be recertified, conditionally recertified or not recertified.

Eric S. Beckjord, Director, Office of Nuclear Regulatory Research.
Robert M. Bernero, Director, Office of Nuclear Material Safety and Safeguards.
Paul E. Bird, Director, Office of Personnel.
Harold R. Denton, Director, Office of Governmental and Public Affairs.
Stewart D. Ebneter, Regional Administrator, Region II.
Edward L. Jordan, Director, Office for Analysis and Evaluation of Operational Data.
John B. Martin, Regional Administrator, Region V.
Thomas E. Murley, Director, Office of Nuclear Reactor Regulation.
Patricia G. Norry, Director, Office of Administration.
William C. Parler, General Counsel.
James H. Sniezek, Deputy Executive Director for Nuclear Reactor Regulation, Regional Operations and Research, Office of the Executive Director for Operations.
Hugh L. Thompson, Jr., Deputy Executive Director for Nuclear Materials Safety, Safeguards and Operations Support, Office of the Executive Director for Operations.

All appointments are made pursuant to section 4314 of chapter 43 of title 5 of the United States Code.

EFFECTIVE DATE: June 10, 1991.

FOR FURTHER INFORMATION CONTACT: James M. Taylor, Chairman, Executive Resources Board, U.S. Nuclear Regulatory Commission, Washington, DC 20555 (301) 492-1700.

Dated at Rockville, MD, this 10th day of June 1991.

For the Nuclear Regulatory Commission.

James M. Taylor,

Chairman, Executive Resources Board.

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Investment Policy Advisory Committee; Meeting

June 10, 1991.

ACTION: Notice of meeting and determination of closing of meeting.

SUMMARY: The meeting of the Investment Policy Advisory Committee (INPAC) to be held Tuesday, June 18, 1991 in Washington, DC, from 10 a.m. to 12 p.m., will include the development, review and discussion of current issues which influence the trade policy of the United States. Pursuant to section 2155(f)(2) of title 19 of the United States Code, I have determined that this meeting will be concerned with matters the disclosure of which would seriously compromise the Government's negotiating objectives or bargaining positions.

ADDRESSES: 600 17th Street NW., Washington, DC 20506.

FOR FURTHER INFORMATION CONTACT: Mollie Van Heuven, Director, Office of Private Sector Liaison, Office of the United States Trade Representative, Executive Office of the President.

Carla A. Hills,
United States Trade Representative.

BILLING CODE 3190-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Artisan Liens on Aircraft; Recordability

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice.

SUMMARY: This notice of legal opinion is issued by the Assistant Chief Counsel for the Aeronautical Center to provide legal advice to the Aircraft Registration Branch, Mike Monroney Aeronautical Center, Oklahoma City, Oklahoma, also identified as the FAA Aircraft Registry. Since December 17, 1981, the Assistant Chief Counsel for the Aeronautical Center has issued opinions in the **Federal Register** of those states from which artisan liens will be accepted for recordation by the FAA Aircraft Registry. This opinion is to advise interested parties of the addition of the State of Arizona to that list.

ADDRESSES: Copies of prior opinions on the recordability of artisan liens from states which have statutes authorizing their recording may be obtained from: Assistant Chief Counsel for the Aeronautical Center, AAC-7, P.O. Box 25082, Oklahoma City, OK 73125-4904.

FOR FURTHER INFORMATION CONTACT: R. Bruce Carter, Office of Assistant Chief Counsel, address above, or by calling (405) 680-3296; (FTS 747-3296).

SUPPLEMENTARY INFORMATION: In the December 17, 1981, **Federal Register** Vol. 46, No. 242, page 61528, the Federal Aviation Administration, Mike Monroney Aeronautical Center, published its legal opinion on the recordability of artisan liens, with the identification of those states from which artisan liens would be accepted. In the April 23, 1984, **Federal Register**, Vol. 49, No. 79, page 17112, we advised that Florida, Nevada, and New Jersey had passed legislation which, in our opinion, allows the Aircraft Registry to accept artisan liens from those states. In the June 10, 1986, **Federal Register**, Vol. 51, No. 111, page 21046, we advised that Minnesota and New Mexico had passed legislation which, in our opinion, allows the Aircraft Registry to accept artisan liens from those states. In the June 23, 1988, **Federal Register**, Vol. 53, No. 121, page 23716, we advised that Missouri had passed legislation which, in our opinion, allows the Aircraft Registry to accept artisan liens from that state. In the September 19, 1989, **Federal Register**, Vol. 54, No. 180, page 38584, we advised that Texas was identified as a state from which artisan liens will be accepted.

In the October 17, 1989, **Federal Register**, Vol. 54, No. 242, page 51965, we advised that North Dakota was identified as a state from which artisan liens will be accepted.

In the August 8, 1990, **Federal Register**, Vol. 55, No. 151 page 31938, we advised that Michigan and Tennessee were identified as states from which artisan liens will be accepted.

The purpose of this opinion is to advise interested parties that in addition to those states identified previously, Arizona is identified as a state from which artisan liens will be accepted.

The complete list of states from which artisan liens on aircraft will be accepted as of this date are:

Alaska
Arizona
Arkansas
Florida
Georgia
Illinois
Indiana
Kansas
Kentucky
Maine
Michigan
Minnesota
Missouri
Nebraska
Nevada
New Jersey
New Mexico
North Dakota
Oklahoma
Oregon
South Carolina
South Dakota
Tennessee
Texas
Virgin Islands
Washington
Wyoming

Issued in Oklahoma City, on June 2, 1991.

Joseph R. Standell,
Assistant Chief Counsel for the Aeronautical Center

These securities are listed and registered on one or more other national securities exchange and are reported in the consolidated transaction reporting system.

Interested persons are invited to submit on or before July 3, 1991, written data, views and arguments concerning the above-referenced applications. Persons desiring to make written comments should file three copies thereof with the Secretary of the Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. Following this opportunity for hearing, the Commission will approve the applications if it finds, based upon all the information available to it, that the extensions of unlisted trading privileges pursuant to such applications are consistent with the maintenance of fair and orderly markets and the protection of investors.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,
Secretary.

Self-Regulatory Organizations; Applications for Unlisted Trading Privileges and of Opportunity for Hearing; Midwest Stock Exchange, Inc.

June 12, 1991.

The above named national securities exchange has filed applications witht the Securities and Exchange Commission ("Commission") pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and rule 12f-1 thereunder for unlisted trading privileges in the following securities:

The Vigoro Corporation
Common Stock, $.01 Par Value (File No. 7-6887)
Benton Oil & Gas Co.
Common Stock, $.01 Par Value (File No. 7-6888)
Total Canada Oil & Gas Ltd.
Common Stock, No Par Value (File No. 7-6889)
Universal Health Services, Inc.
Class B Common Stock, $.01 Par Value (File No. 7-6890)
Value City Department Stores, Inc.
Common Stock, No Par Value (File No. 7-6891)

These securities are listed and registered on one or more other national securities exchange and are reported in the consolidated transaction reporting system.

Interested persons are invited to submit on or before July 3, 1991, written data, views and arguments concerning the above-referenced applications. Persons desiring to make written comments should file three copies thereof with the Secretary of the Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549. Following this opportunity for hearing, the Commission will approve the applications if it finds, based upon all the information available to it, that the extensions of unlisted trading privileges pursuant to such applications are consistent with the maintenance of fair and orderly markets and the protection of investors.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,
Secretary.

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Investment Policy Advisory Committee; Meeting

June 10, 1991.

ACTION: Notice of meeting and determination of closing of meeting.

SUMMARY: The meeting of the Investment Policy Advisory Committee (INPAC) to be held Tuesday, June 18, 1991 in Washington, DC, from 10 a.m. to 12 p.m., will include the development, review and discussion of current issues which influence the trade policy of the United States. Pursuant to section 2155(f)(2) of title 19 of the United States Code, I have determined that this meeting will be concerned with matters the disclosure of which would seriously compromise the Government's negotiating objectives or bargaining positions.

ADDRESSES: 600 17th Street NW., Washington, DC 20506.

FOR FURTHER INFORMATION CONTACT: Mollie Van Heuven, Director, Office of Private Sector Liaison, Office of the United States Trade Representative, Executive Office of the President.

Carla A. Hills,
United States Trade Representative.

BILLING CODE 3190-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Artisan Liens on Aircraft; Recordability

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice.

SUMMARY: This notice of legal opinion is issued by the Assistant Chief Counsel for the Aeronautical Center to provide legal advice to the Aircraft Registration Branch, Mike Monroney Aeronautical Center, Oklahoma City, Oklahoma, also identified as the FAA Aircraft Registry. Since December 17, 1981, the Assistant Chief Counsel for the Aeronautical Center has issued opinions in the **Federal Register** of those states from which artisan liens will be accepted for recordation by the FAA Aircraft Registry. This opinion is to advise interested parties of the addition of the State of Arizona to that list.

ADDRESSES: Copies of prior opinions on the recordability of artisan liens from states which have statutes authorizing their recording may be obtained from: Assistant Chief Counsel for the Aeronautical Center, AAC-7, P.O. Box 25082, Oklahoma City, OK 73125-4904.

FOR FURTHER INFORMATION CONTACT: R. Bruce Carter, Office of Assistant Chief Counsel, address above, or by calling (405) 680-3296; (FTS 747-3296).

SUPPLEMENTARY INFORMATION: In the December 17, 1981, **Federal Register** Vol. 46, No. 242, page 61528, the Federal Aviation Administration, Mike Monroney Aeronautical Center, published its legal opinion on the recordability of artisan liens, with the identification of those states from which artisan liens would be accepted. In the April 23, 1984, **Federal Register**, Vol. 49, No. 79, page 17112, we advised that Florida, Nevada, and New Jersey had passed legislation which, in our opinion, allows the Aircraft Registry to accept artisan liens from those states. In the June 10, 1986, **Federal Register**, Vol. 51, No. 111, page 21046, we advised that Minnesota and New Mexico had passed legislation which, in our opinion, allows the Aircraft Registry to accept artisan liens from those states. In the June 23, 1988, **Federal Register**, Vol. 53, No. 121, page 23716, we advised that Missouri had passed legislation which, in our opinion, allows the Aircraft Registry to accept artisan liens from that state. In the September 19, 1989, **Federal Register**, Vol. 54, No. 180, page 38584, we advised that Texas was identified as a state from which artisan liens will be accepted.

In the October 17, 1989, **Federal Register**, Vol. 54, No. 242, page 51965, we advised that North Dakota was identified as a state from which artisan liens will be accepted.

In the August 6, 1990, **Federal Register**, Vol. 55, No. 151 page 31938, we advised that Michigan and Tennessee were identified as states from which artisan liens will be accepted.

The purpose of this opinion is to advise interested parties that in addition to those states identified previously, Arizona is identified as a state from which artisan liens will be accepted.

The complete list of states from which artisan liens on aircraft will be accepted as of this date are:

Alaska
Arizona
Arkansas
Florida
Georgia
Illinois
Indiana
Kansas
Kentucky
Maine
Michigan
Minnesota
Missouri
Nebraska
Nevada
New Jersey
New Mexico
North Dakota
Oklahoma
Oregon
South Caroline
South Dakota
Tennessee
Texas
Virgin Islands
Washington
Wyoming

Issued in Oklahoma City, on June 2, 1991.

Joseph R. Standell,
Assistant Chief Counsel for the Aeronautical Center.

[Summary Notice No. PE-91-23]

Petitions for Exemption; Summary of Petitions Received; Dispositions of Petitions Issued

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of petitions for exemption received and of dispositions of prior petitions.

SUMMARY: Pursuant to FAA's rulemaking provisions governing the application, processing, and disposition of petitions for exemption (14 CFR part 11), this notice contains a summary of certain petitions seeking relief from specified requirements of the Federal Aviation Regulations (14 CFR chapter I), dispositions of certain petitions previously received, and corrections. The purpose of this notice is to improve the public's awareness of, and participation in, this aspect of FAA's regulatory activities. Neither publication of this notice nor the inclusion or omission of information in the summary is intended to affect the legal status of any petition or its final disposition.

DATES: Comments on petitions received must identify the petition docket number involved and must be received on or before July 8, 1991.

ADDRESSES: Send comments on any petition in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rule Docket (AGC-10), Petition Docket No. _____, 800 Independence Avenue, SW., Washington, DC 20591.

The petition, any comments received, and a copy of any final disposition are filed in the assigned regulatory docket and are available for examination in the Rules Docket (AGC-10), room 915G, FAA Headquarters Building (FOB 10A), 800 Independence Avenue, SW., Washington, DC 20591; telephone (202) 267-3132.

FOR FURTHER INFORMATION CONTACT: Miss Jean Casciano, Office of Rulemaking (ARM-1), Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone (202) 267-9683.

This notice is published pursuant to paragraphs (c), (e), and (g) of § 11.27 of part 11 of the Federal Aviation Regulations (14 CFR part 11).

Issued in Washington, DC, on June 10, 1991.

Denise Donohue Hall,

Manager, Program Management Staff, Office of the Chief Counsel.

Petitions for Exemption

Docket No.: 28552
Petitioner: United Parcel Service
Sections of the FAR Affected: 14 CFR part 121, appendix H, phase III, item 1
Description of Relief Sought: To allow petitioner to substitute alternate criteria to qualify three simulators to Phase III subject to certain conditions and limitations.

Docket No.: 28554
Petitioner: Bannock Regional Medical Center
Sections of the FAR Affected: 14 CFR 43.3(g)
Description of Relief Sought: To allow petitioner's pilots to reverse the copilot seat from facing astern to facing forward.

Docket No.: 26557
Petitioner: United States Ultralight Association, Inc.
Sections of the FAR Affected: 14 CFR 103.1
Description of Relief Sought: To allow operation of powered ultralight vehicles up to 360 pounds empty weight, with a maximum fuel capacity of 10 gallons, a maximum power-off stall speed of 32 knots, and a maximum airspeed at full power in full flight of 72 knots.

Docket No.: 28560
Petitioner: Stanley Air Taxi, Inc.
Sections of the FAR Affected: 14 CFR 43.3(g)
Description of Relief Sought: To allow properly trained pilots employed by petitioner to perform the task of converting the cabins of certain aircraft from passenger to cargo configurations, and the reverse.

Dispositions of Petitions

Docket No: 23921
Petitioner: FlightSafety International
Sections of the FAR Affected: 14 CFR 61.56(b)(1); 61.57(c) and (d); 61.58(c)(1) and (d); 61.63(d)(2) and (d)(3); 61.67(d)(2); 61.157(d)(1), (d)(2), (e)(1), and (e)(2); part 61, appendix A; part 121, appendix H
Description of Relief Sought/ Disposition: To allow petitioner to use FAA-approved simulators to meet certain training and testing requirements.
Grant, May 31, 1991, Exemption No. 5317

Docket No: 25091
Petitioner: Allied-Signal Aerospace, Garrett Engine Division
Sections of the FAR Affected: 14 CFR 21.325(b)(1) and (b)(3)
Description of Relief Sought/ Disposition: To extend Exemption No. 4830A, which allows class I, II, and III products that are assembled and tested by Rolls-Royce Limited in East Kilbridge, Scotland, to be eligible for issuance of export airworthiness approvals.
Grant, May 31, 1991, Exemption No. 4836B

Docket No: 25173
Petitioner: Airlift International, Inc.
Sections of the FAR Affected: 14 CFR 121.371(a) and 121.378
Description of Relief Sought/ Disposition: To allow the original equipment manufacturers and foreign repair stations certificated by the civil air authorities of their respective countries to perform maintenance, preventive maintenance, and alterations outside the United States on engines, components, and spare parts of petitioner's F-27/FH-227 aircraft.
Grant, June 4, 1991, Exemption No. 4798B

Docket No: 25405
Petitioner: Peninsula Airways, Inc.
Sections of the FAR Affected: 14 CFR 43.3(e) and (g)
Description of Relief Sought/ Disposition: To extend Exemption No. 4049, as amended, which allows petitioner's pilots to remove and/or replace aircraft cabin seats and seat belts.
Grant, May 30, 1991, Exemption No. 4949B

Docket No: 25863
Petitioner: Department of Defense
Sections of the FAR Affected: 14 CFR 91.117(a) and (b), 91.127(c), 91.159(a), and 91.209(a)
Description of Relief Sought/ Disposition: To extend Exemption No. 5100, which allows petitioner to conduct air operations in support of drug law enforcement and drug traffic interdiction, subject to conditions and limitations.
Grant, October 19, 1990 Exemption No. 5106B

Docket No: 25974
Petitioner: Air Transport Association of America
Sections of the FAR Affected: 14 CFR 91.203 and 47.49
Description of Relief Sought/ Disposition: To allow temporary operation of certain registered airline aircraft without the registration and airworthiness certificates on board.
Grant, June 4, 1991, Exemption No. 5318

Petitions for Reconsideration

Docket No: 23583
Petitioner: University of North Dakota
Sections of the FAR Affected: 14 CFR part 141, appendix D
Description of Relief Sought/ Disposition: Reconsideration of Denial of Exemption No. 5295 to allow students enrolled in certain curricula to be credited more than 50 hours of pilot-in-command time while accompanied by persons who are pilots assigned by the school to specific flight crew duties.

Docket No: 26105
Petitioner: Sundstrand Corporation
Sections of the FAR Affected: 14 CFR 91.319(a)(1), (c) and (e)
Description of Relief Sought/ Disposition: Reconsideration of Denial of Exemption No. 5291 to allow petitioner to carry on its experimental aircraft company personnel and occasionally some company equipment for company business purposes.

BILLING CODE 4910-13-M

Radio Technical Commission for Aeronautics (RTCA), Special Committee 172; Meeting

Future Air-Ground Communications in the VHF Aeronautical Data Band (188-131 MHz)

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463, 5 U.S.C., appendix I), notice is hereby given for the meeting of Special Committee 172 to be held July 10-11, 1991, in the RTCA Conference Room, One McPherson Square, 1425 K Street NW., suite 500, Washington, DC 20005, commencing at 9:30 a.m.

The agenda for this meeting is as follows: (1) Introductory remarks; (2) Review and approve terms of reference, RTCA Paper No. 54-91/SC172-1; (3) Background briefings; (4) Develop initial work program and plan for accomplishment; (5) Assignment of tasks; (6) Other business; (7) Date and place of next meeting.

Attendance is open to the interested public but limited to space available. With the approval of the Chairman, members of the public may present oral statements at the meeting. Persons wishing to present statements or obtain information should contact the RTCA Secretariat, One McPherson Square, 1425 K Street NW., suite 500, Washington, DC 20005; (202) 682-0266. Any member of the public may present a written statement to the committee at any time.

Issued in Washington, DC, on June 7, 1991.

Clyde Miller,

Designated Officer.

[FR Doc. 91-14429 Filed 6-17-91; 8:45 am]
BILLING CODE 4910-13-M

National Highway Traffic Safety Administration

Denial of Motor Vehicle Defect Petition

This notice sets forth the reasons for the denial of a petition submitted to NHTSA under section 124 of the National Traffic and Motor Vehicle Safety Act of 1966, as amended (15 U.S.C. 1381 *et seq.*).

In February 1991, Robert I. Elms, P.E., petitioned the National Highway Traffic Safety Administration to open a defect investigation to determine whether 1983 Coachmen President motorhomes contain the following alleged safety-related defects: (1) *Overloading*—Actual operating weight of the vehicle unavoidably exceeds the Gross Vehicle Weight Rating (GVMR) assigned by the chassis manufacturer; (2) *Crankshaft Pulley*—The crankshaft pulley detached from the crankshaft of the 7.4 liter Chevrolet engine, resulting in a loss of power steering and power brakes; (3) *Suspension Air Bags*—A suspension air bag suddenly deflated while traveling at 60 mph, resulting in unexpected vehicle swaying; (4) *Exhaust Manifold Leaks*—An exhaust manifold gasket failed four times on the 7.4 liter Chevrolet engine, resulting in an exhaust gas leakage; (5) *Cruise Control*—The cruise control system turned itself off and on again intermittently, almost causing an accident on two occasions due to sudden vehicle deceleration; (6) *Rear Brake Calipers*—A rear brake caliper seized and damaged the brake rotor, causing the motorhome to swerve to the right without warning; (7) *Sidewall Attachment*—The bottom of the motorhome sidewall was not properly attached to the floor or chassis, resulting in gasoline fumes penetrating into the passenger compartment and also making it possible for an occupant to be thrown out of the vehicle if the driver had to suddenly swerve; (8) *Roof*—The roof partially delaminated and leaked, causing a risk of water damage and structural collapse; and (9) *Sidewall Construction*—The laminated sidewall construction results in inadequate sidewall strength, which may not be sufficient to protect an occupant from being thrown out of the vehicle during an accident.

A total of 462 1983 President motorhomes were built by Coachmen Industries, Incorporated (Coachmen), which manufactured the vehicles by adding the motorhome body to a GMC "P" Series chassis manufactured by General Motors Corporation (GM). A total of 852 1983 GMC "P" Series Motorhome chassis were sold by GM, 536 of which had the same weight rating and engine as the subject Coachmen motorhome.

A search of the agency's consumer complaint file produced not other relevant complaints, except for theone concerning exhaust manifold leakage (Item 4). Moreover, Coachmen and GM stated that they have no records of complaints in the subject vehicles similar to those made by the petitioner. Additionally, no relevant accidents for injuries involving these motorhomes have been reported. Because 49 CFR part 576 requires that manufacturers retain complaints and warranty records for only 5 years and the subject 1983 model year motorhomes were sold almost 8 years ago, some early complaints may have been discarded.

With respect to the alleged overloading problem (Item 1): Coachmen did not change the GVWR of 14,500 pounds, which was established by GM. Based on information provided by Coachmen, the subject motorhomes are not overloaded and have adequate load capacity for seven people, corresponding to the number of sleeping accommodations that are provided, and for a reasonable amount of luggage. The motorhome would only be overloaded if each of the 11 seats equipped with seat belts were to be occupied, and additional luggage and/or supplies were present. The petitioner alleges that his motorhome is overloaded with only the driver aboard if both fuel tanks and the water tanks are full. If this is true, it may be because additional equipment has been added to the vehicle. Owners who weigh their vehicle before leaving on a trip, as instructed by the owner's manual, should be able to use the motorhome for its intended purpose without overloading. Owners can reduce weight by traveling with less water and not filling the auxiliary fuel tank, if necessary. The braking system is rated for 1,500 pounds above the GVWR and no evidence of any overloading related safety problems was found.

With respect to the alleged crankshaft pulley problem (Item 2): The engine and pulley system in the GMC chassis was not changed by Coachmen. If the crankshaft pulley on the 7.4 liter engine detaches, the power steering reverts to manual steering immediately and the power brakes normally revert to manual brakes after three or four brake applications. A noise would also be heard and at least one warning light on the dash would illuminate. Drivers of small cars can normally cope with such failures, but drivers with limited strength could have difficulty steering a large, heavy motorhome without power assist. However, no evidence was found

VOL 56 ISS 117 JE 18 1991 UMI

that such failures have occurred at an abnormal rate. The warranty rate for pulley replacement due to any reason was only 0.5 percent. Also, the entire engine had been replaced in the petitioner's vehicle under warranty prior to the failure, indicating that the pulley that detached had not been installed at the factory, but by a mechanic who might have made an error.

With respect to suspension air bags (Item 3): The front suspension of the subject GMC chassis has an air bag on each side which supplements the steel coil spring. The suspension was not modified by Coachmen. If the air bag fails, the vehicle will dip and lean slightly, but not to the extend that the wheel is prevented from rotating or that it interferes with steering or braking. However, the driver may have to make a steering correction. An airbag failure could startle some drivers, but it is reasonable to assume that drivers would be able to cope with this situation, since drivers frequently make steering corrections in response to wind, road irregularities, or traffic.

The failure in the petitioner's vehicle occurred after it had accumulated approximately 50,000 miles during 6 years of use. Less than 1.0 percent of air bags were replaced under warranty by GM. These facts indicate that failures of the airbag are not occurring at an abnormally high rate.

With respect to engine exhaust manifold leaks (Item 4): A sufficient number of such failures occurred in 1981 through 1988 model year 7.4 liter engines to prompt GM to redesign the exhaust manifold and issue a service bulletin in 1987, which was not limited to Coachmen vehicles. A Preliminary Evaluation, PE88-036, had been conducted by NHTSA, but that investigation was closed on the basis that no safety-related defect trend was found. In most cases, the loud noise which resulted from exhaust manifold leakage resulted in owners having repairs made before any safety-related incident occurred. The petition does not provide a basis to change the conclusion reached during the previously completed investigation.

With respect to cruise control malfunction (Item 5): The cruise control system was manufactured by the Dana Company and installed by Coachmen. The petitioner claims that accidents nearly occurred due to the unexpected vehicle deceleration which occurred when the unit turned itself off on several occasions, but the unit did not cause unwanted engine power or acceleration. The resulting sudden deceleration would be less severe than if the brake was applied lightly or if the engine stalled. Also, the loss of power would be of a short duration, because the driver can restore power simply by depressing the accelerator pedal. Drivers of other vehicles do not normally follow so closely or are so inattentive that they would run into the rear of a vehicle merely because it coasts for a few seconds. The petitioner's theory that the use of electrically non-conductive body materials was causing the problem cannot be substantiated, as Coachmen installs separate ground wires for each electrical item.

With respect to rear disc brake calipers (Item 6): The braking system on the GMC chassis was not modified by Coachmen. Uneven braking results if the disc brake caliper piston becomes stuck or if the caliper cannot slide on the slider pins. Such problems are not uncommon on many makes of vehicles after several years of use, and most vehicles eventually require some type of braking system maintenance work. Warranty data provided by GM indicate that the applicable warranty rate was substantially less than 1 percent, and the consumer complaint record does not indicate any abnormality.

With respect to sidewall attachment, sidewall construction, and roof construction (Items 7, 8, and 9): The only Federal Motor Vehicle Safety Standard (FMVSS) currently in effect that applies to motorhome sidewall or roof construction is FMVSS No. 302—Flammability of Interior Materials. Coachmen stated that their motorhome meets the requirements of FMVSS No. 302, and no evidence to the contrary was obtained from any source. No evidence was obtained to support the petitioner's speculation that someone could be thrown through the wall as a result of vehicle swerving or an accident, or that the roof could collapse or detach. Coachmen utilized construction methods which are common throughout the motorhome industry.

In consideration of the available information, there appears to be no reasonable possibility that an order concerning the notification and remedy of a safety-related defect in relation to any of the petitioner's allegations would be issued at the conclusion of a new investigation. Since no evidence of a safety-related defect trend was discovered, further commitment of resources to determine whether such a trend may exist does not appear to be warranted. Therefore, the petition is denied.

Authority: Sec. 124, Pub. L. 93-492, 88 Stat. 1470 (15 U.S.C. 1410a); delegations of authority at 49 CFR 1.50 and 501.8.

Issued on: June 11, 1991.

William A. Boehly,

Associate Administrator for Enforcement.

BILLING CODE 4910-59-M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

Computer Matching Programs

AGENCY: Internal Revenue Service; Treasury Department.

ACTION: Notice.

SUMMARY: Pursuant to the Computer Matching and Privacy Protection Act of 1988, Public Law 100-503, October 18, 1988, and the Office of Management and Budget (OMB) Guidelines on the Conduct of Matching Programs, notice is hereby given of the conduct of Internal Revenue Service's computer matching programs. In accordance with various provisions of section 6103 of the Internal Revenue Code (IRC) of 1986, the computer matching programs provide Federal, State, and local agencies with tax information from IRS records to assist them in administering the programs and activities described hereafter. The purpose of these programs is to prevent or reduce fraud and abuse in certain government programs and facilitate the settlement of government claims while protecting the privacy interest of the subjects of the match.

EFFECTIVE DATE: July 18, 1991.

ADDRESSES: Inquiries may be mailed to Director, Office of Disclosure, Internal Revenue Service, P.O. Box 388, Washington, DC 20044.

FOR FURTHER INFORMATION CONTACT: Eric Banks, Tax Law Specialist, FOI/Privacy Section, Internal Revenue Service, (202) 566-3350.

SUPPLEMENTARY INFORMATION: The nature, purposes, and authorities for IRS computer matching programs are as follows:

Matches Conducted Pursuant to IRC 6103(l)(3)

Upon written request, the Service may disclose to the head of a Federal agency, which makes, guarantees, or insures certain Federal loans, whether an applicant for such a loan has a tax delinquent account.

The disclosure of a Tax Delinquent Account Status Indicator under IRC 6103(l)(3) is made only for the purpose of, and to the extent necessary in, determining the creditworthiness of the applicant for the loan in question. The information provided is extracted monthly from the Internal Revenue Service Individual Master File (Treas./IRS System 24.030 (IMF)) located at the Internal Revenue Service, Martinsburg Computing Center (MCC), in Martinsburg, West Virginia. The IMF contains tax accounts of individuals.

There are currently no (l)(3) matching agreements in effect.

Matches Conducted Pursuant to IRC 6103(l)(7)

The Service is required, upon written request, to disclose current information from returns with respect to unearned income to any Federal, State, or local agency administering certain federally approved programs to provide:

(a) Aid to Families with Dependent Children;

(b) medical assistance;

(c) Supplemental Security Income benefits;

(d) social security benefits;

(e) unemployment compensation;

(f) Food Stamps;

(g) State administered supplementary payments; or

(h) veterans' benefits.

Information is disclosed by the Service only for the purpose of, and to the extent necessary in, determining eligibility for, or the correct amount of, benefits under the aforementioned programs.

The return information is extracted on a monthly basis from the Internal Revenue Service Wage and Information Returns Processing File (Treas./IRS System 22.061 (IRP)) for the latest processing year. This file contains information returns filed by payers of income such as interest and dividends reported on Forms 1099-INT and 1099-DIV.

Federal agencies participating in (1)(7) matches, and the Privacy Act systems of records involved, are the Social Security Administration (Supplemental Security Record (SSR), HHS/SSA/OSR 90-60-0103); the Health Care Financing Administration (Income and Eligibility Verification for Medicaid Eligibility Quality Control Reviews System. HHS/HCFA/MB 09-07-2006); and the Department of Veterans Affairs (Compensation, Pension, Education and Rehabilitation Records, 58 VA 21/22; and Loan Guaranty Home, Condominium, and Manufactured Home Loan Applicant Records, Specially Adapted Housing Applicant Records and Vendee Loan Applicant Records, 55VA26). Other agencies expected to participate in (1)(7) matches are:

AL Department of Human Resources Medicaid Agency.

WA Department of Social/Health Services.
WV Department of Human Services.
WI Department of Health/Social Services.
WY Department of Health/Social Services.

Matches conducted pursuant to IRC 6103(l)(12)

The Service shall, upon written request from the Commissioner of Social Security (SSA), disclose to SSA available filing status and taxpayer identity information from the IMF (Treas./IRS System 24.030) relating to whether any medicare beneficiary identified by SSA was a married individual for any specified year after 1986, and, if so, the name of the spouse of such individual and such spouse's taxpayer identity number (TIN), but only for purposes of, and to the extent necessary in, determining the extent to which any medicare beneficiary is covered under any group health plan. This section provides further for the redisclosure of certain taxpayer identity information by SSA to Health Care Financing Administration (HCFA) upon the written request of the Administrator of HCFA. With respect to the information redisclosed by the Commissioner of SSA, the Administrator of HCFA may further disclose said information to certain qualified employers and group health plans.

The IRS information provided is extracted monthly from the IMF (Treas./IRS System 24.030).

The Federal agencies participating in (1)(12) computer matches, and the Privacy Act systems of records involved, are the Social Security Administration (Master Beneficiary Record (HHS/SSA/OSR 09-60-0090); Master Files of Social Security Number Holders (HHS/SSA/OSR 09-60-0058); and the Earnings Recording and Self-Employment System (HHS/SSA/OSR 09-60-0059)) and the Health Care Financing Administration (Carrier Medicare Claims Records (DHHS/HCFA/BPO 09-70-0501) and Intermediary Claims Records (DHHS/HCFA/BPO 09-70-0503)).

Matches conducted pursuant to IRC 6103(m)(2)

The Service may, upon written request, disclose the mailing address of a taxpayer for use by officers, employees, or agents of a Federal agency for purposes of locating such taxpayer to collect or compromise a Federal claim against the taxpayer in accordance with sections 3711, 3717, and 3718 of title 31 of the United States Code. This section also provides for the redisclosure of a taxpayer's mailing address to a consumer reporting agency, but only to allow for the preparation of a commercial credit report on the taxpayer for use by the requesting Federal agency in accordance with the Federal Claims Collection Act of 1966, as amended by the Debt Collection Act of 1982.

The IRS information provided is extracted monthly from the IMF (Treas./IRS System 24.030).

Federal agencies participating in (m)(2) matches and the Privacy Act systems of records involved, are:

Army & Air Force Exchange Service (Dishonored Check File (AAFESO 702.23) and Individual Accounts Receivable File (AAFESO 702.34)).

VOL 56 ISS 117 JE 18 1991 UMI

Army Community and Family Support Center (Nonappropriated Fund Account (A0314.09DACA)).
Army Finance & Accounting Center (Debt Collection System/FINCP–FF (AO 319.01 DACA)).
Equal Employment Opportunity Commission (Claim Collection Record (EEOC–10)).
Health Resources & Services Administration (Loan Repayment/ Debt Management Records System (HHS/HRSA/OA 09–15–0045)).
Health Care Financing Administration (Non-Provider Overpayment Recovery File (HHS/HCFA/BPO 09–70–0504)).
Housing & Urban Development (Accounting Records (HUD/DEPT–2)).
Marine Corps Finance Center (Debt Management and Collection System (N 07430–1)).
National Institutes of Health (IRS Address Request System (116841)).
Navy Finance Center (Debt Management and Collection System (N 07430–1)).
Navy Resale & Services Support Office (Bad Check and Indebtedness List (N 04066–1)).
Railroad Retirement Board (Railroad Unemployment and Sickness Insurance Benefit System (RRB–21); Railroad Retirement Survivor and Pensioner Benefit System (RRB–22); and Uncollectible Benefit Overpayment Accounts (RRB–42)).
Social Security Administration (Supplemental Security Record (HHS/ SSA/OSR 09–60–0103)).
U.S. Coast Guard (Military Pay and Personnel System (DOT/CG 623)).
U.S. Department of Education (Guaranteed Student Loan Program Pre-Claims Assistance System (ED 18–40–0031); Financial Management Information System (18–40–0033); Payroll, Attendance and Leave Records (18–11–0008); National Defense Student Loan File System (18–10–0025); Guaranteed Student Loan Paid Claim Files System (18–40–0028)).
U.S. Department of Health & Human Services (Administrative Claims System (HHS/OS/OGC 09–90–0062)).
U.S. Department of State (Records of the Inspector General and Automated Individual Cross-reference System (STATE 53)).
U.S. Department of Veterans Affairs (Compensation, Pension, Education and Rehabilitation Records (58 VA 21/22) and Loan Guarantee Home, Condominium and Manufactured Home Loan Applicant Records, Specially Adapted Housing Applicant Records, and Vendee Loan Applicant Records (55VA26)).

Matches conducted pursuant to IRC 6103(m)(4)

Upon written request from the Secretary of Education, the Service may disclose the mailing address of any taxpayer who has defaulted on certain loans extended under the Higher Education Act or Migration and Refugee Assistance Act for purposes of locating such taxpayer to collect the loan. This section further provides for the redisclosure by the Secretary of Education of a taxpayer's mailing address to any lender, or any State or nonprofit guarantee agency, participating under the Higher Education Act, or any educational institution with which the Secretary of Education has an agreement under that Act.

Redisclosure is made by the Secretary of Education for use only by officers, employees, or agents of such lender, guarantee agency, or institution whose duties relate to the collection of student loans for purposes of locating individuals who have defaulted on student loans made under such loan programs for purposes of collecting such loans.

The IRS information provided is extracted monthly from the IMF (Treas./ IRS System 24.030).

Under IRC 6103(m)(4), the U.S. Department of Education matches the Guaranteed Student Loan Program Pre-Claims Assistance System (ED 18–40–0031) with the IMF.

Matches conducted under IRC 6103(m)(5)

Upon written request from the Secretary of Health and Human Services (HHS), the Service may disclose the mailing address of any taxpayer who has defaulted on certain loans extended under the Public Health Service Act for purposes of locating such taxpayer to collect the loan. This section also provides for the redisclosure by the Secretary of HHS of a taxpayer's mailing address to any school with which the Secretary has an agreement under the Public Health Service Act, or any eligible lender participating under such Act.

Redisclosure is made by the Secretary of HHS for use only by officers, employees, or agents of such school or eligible lender whose duties relate to the collection of student loans for purposes of locating individuals who have defaulted on student loans made under the Public Health Service Act for the purposes of collecting such loans.

The IRS information provided is extracted monthly from the IMF (Treas./ IRS System 24.030).

Under IRC 6103(m)(5), the Department of Health and Human Services matches the Public Health Service and National Health Service Corps Provider Records System (HHS/HRSA/BHCDA 09–15–0037) with the IMF.

Approval of the IRS computer matching programs was granted by the Treasury Data Integrity Board on June 7, 1989.

Fred T. Goldberg, Jr.,
Commissioner of Internal Revenue.

Approved:

David M. Nummy,
Acting Assistant Secretary of the Treasury (Management).

Thursday, July 11

11:30 a.m.
Affirmation/Discussion and Vote (Public Meeting) (if needed)

ADDITIONAL INFORMATION:

By a vote of 4-0 on June 11, the Commission determined pursuant to U.S.C. 552b(e) and § 9.107(a) of the Commission's rule that "Discussion of Management-Organization and Internal Personnel Matters" (Closed—Ex. 2 and 6), be held on June 11, and on less than one week's notice to the public.

VOL 56 ISS 117 JE 18 1991 UMI

By a vote of 4–0 on June 12, the Commission determined pursuant to U.S.C. 552b(e) and § 9.107(a) of the Commission's rules that "Affirmation on Joint Motion to Stay or Vacate License Issuance by Petitioners in Shoreham Proceeding; and Final Amendments to 10 CFR Parts 2 and 35 on Quality Management Program and Reportable Events" (Public Meeting), be held on June 12, and on less than one week's notice to the public.

Note.—Affirmation sessions are initially scheduled and announced to the public on a time-reserved basis. Supplementary notice is provided in accordance with the Sunshine Act as specific items are identified and added to the meeting agenda. If there is no specific subject listed for affirmation, this means that no item has as yet been identified as requiring any Commission vote on this date.

TO VERIFY THE STATUS OF MEETINGS CALL (RECORDING): (301) 492–0292.

CONTACT PERSON FOR MORE INFORMATION: William Hill (301) 492–1661.

Dated: June 13, 1991.

William M. Hill, Jr.,

Office of the Secretary.

BILLING CODE 7590-01-M

RESOLUTION TRUST CORPORATION

Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 2:36 p.m. on Tuesday, June 11, 1991, the Board of Directors of the Resolution Trust Corporation met in closed session to consider matters relating to (1) the resolution of failed thrift institutions, and (2) the sale of assets.

In calling the meeting, the Board determined, on motion of Director C.C. Hope, Jr. (Appointive), seconded by Vice Chairman Andrew C. Hove, Jr., and concurred in by Chairman L. William Seidman, that Corporation business required its consideration of the matters on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matters could be considered in a closed meeting by authority of subsections (c)(4), (c)(8), (c)(9)(A)(ii), and (c)(9)(B) of the "Government in the Sunshine Act" (5 U.S.C. 552b).

The meeting was held in the Board Room of the Federal Deposit Insurance Corporation Building located at 550—17th Street, NW., Washington, DC.

Dated: June 13, 1991.

RESOLUTION TRUST CORPORATION.

William J. Tricarico,

Assistant Executive Secretary.

SECURITIES AND EXCHANGE COMMISSION

Agency Meeting

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94–409, that the Securities and Exchange Commission will hold the following open meeting during the week of June 17, 1991.

An open meeting will be held on Thursday, June 20, 1991, at 10:00 a.m., in Room 1C30.

The subject matter of the open meeting scheduled for Thursday, June 20, 1991, at 10:00 a.m., will be:

The Commission will hear oral arguments on appeals by Swartwood, Hesse, Inc., a registered broker-dealer, T. Marshall Swartwood, the firm's president, and Richard E. Moyer, a senior vice-president, from an administrative law judge's initial decision. For further information, please contact Richard E. Conser at (202) 272–3981.

At times, changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact: Edward Pittman at (202) 272–2400.

Dated: June 13, 1991.

Jonathan G. Katz,

Secretary.

Revisions of User Fees for Cotton Classification, Testing and Standards

Correction

In proposed rule document 91-10082 beginning on page 19815 in the issue of Tuesday, April 30, 1991, make the following corrections:

1. On page 19815, in the second column, under **Fees for Classification Under the Cotton Statistics and Estimates Act of 1927**, in the fifth line from the bottom, "5" should read "15".

2. On page 19817, in the second column, in the table, the Current and Proposed Fee entries fifth from the bottom should read respectively "28.2" and "6.00".

3. On the same page, in the third column, in the table, the fourth Current and Proposed Fee entries should respectively remain blank and read "6.00".

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

Federal Policy for the Protection of Human Subjects

AGENCY: Office of Science and Technology Policy, Executive Office of the President.

ACTION: Notice of Federal Policy for Protection of Human Subjects.

SUMMARY: The Office of Science and Technology Policy has accepted the Final Federal Policy for the Protection of Human Subjects in the form of the common rule promulgated in this issue of the **Federal Register**. The common rule was developed by the Interagency Human Subjects Coordinating Committee of the Federal Coordinating Council for Science, Engineering and Technology, in response to public comment on the notice of proposed policy for Department and Agency Implementation published in the **Federal Register** on November 10, 1988 (53 FR 45660).

Note that the Central Intelligence Agency is required by Executive Order 12333 to conform to the guidelines issued by the Department of Health and Human Services (HHS).

ADDRESSES: Requests for additional information should be addressed to Dr. Joan P. Porter, Interagency Human Subjects Coordinating Committee, Building 31, room 5B59, Bethesda, Maryland 20892. Telephone: (301) 496–7005.

D. Allan Bromley,

Director, Office of Science and Technology Policy, Executive Office of the President.

ACTION: Final rule.

SUMMARY: This document sets forth a common Federal Policy for the Protection of Human Subjects (Model Policy) accepted by the Office of Science and Technology Policy and promulgated in regulation by each of the listed Departments and Agencies. A Proposed Federal Policy for the Protection of Human Subjects published November 10, 1988 (53 FR 45661) has been revised in response to public comments. The Policy as revised is now set forth as a common final rule. For related documents, see other sections of this **Federal Register** part.

EFFECTIVE DATE: These regulations shall become effective on August 19, 1991. The Department of Education regulations (34 CFR part 97) take effect either August 19, 1991, or later if Congress takes certain adjournments. If you want to know the effective date of the Department of Education regulations in 34 CFR part 97, call or write Mr. Edward Glassman, Office of Planning, Budget and Evaluation, U.S. Department of Education, room 3127, 400 Maryland Avenue SW., Washington, DC 20202–4132. A document announcing the effective date of the Department of Education regulations will be published in the **Federal Register**. Institutions currently conducting or supporting research in accord with Multiple Project Assurances of Compliance (MPAs) approved by and on file in the Office for Protection from Research Risks (OPRR) in the Department of Health and Human Services may continue to do so in accord with the terms and conditions of their MPAs. See Supplementary Information for further details.

FOR FURTHER INFORMATION CONTACT: Dr. Joan P. Porter, (301) 496–7005. Office for Protection from Research Risks, National Institutes of Health, Building 31, room 5B59, Bethesda, MD 20892.

SUPPLEMENTARY INFORMATION:

Paperwork Reduction Act Requirements: Sections _____.103(a); _____.103(b); _____.103(b)(4)(i); _____.103(b)(4)(iii); _____.103(b)(5); _____.103(f); _____.109(d); _____.113; _____.115(a); _____.116; and _____.117 contain information collection requirements subject to approval by the Office of Management and Budget (OMB) under the Paperwork Reduction Act. HHS has submitted the request for approval to OMB on behalf of all Departments and Agencies governed by this final rule and has published elsewhere in this issue of the **Federal Register** a request for OMB expedited review and approval of the information collection requirements. OMB has assigned OMB control number 9999–0020; however, the information collection requirements will not become effective until OMB has approved them. Unless a notice is published to the contrary, the public may assume that OMB has approved the information collection requirements during the 60-day period before the final rule becomes effective.

For further information regarding OMB approval of the information collection, contact Ms. Shannah Koss-McCallum, OMB, (202) 395–7316.

Compliance Dates: Institutions that hold MPAs are permitted and encouraged to apply all provisions of this final rule as soon as it is feasible to do so. They are urged not to wait for the negotiation and approval of a revised MPA to begin to function in accord with this rule. The OPRR, acting on behalf of the Secretary, Department of Health and Human Services (HHS), will continue to renegotiate and approve MPAs in the normal periodic cycle of renewal.

Institutions that are not operating under an MPA approved by OPRR will be required to negotiate an Assurance of Compliance with the supporting Department or Agency, prior to initiating research involving human subjects.

Institutions with MPAs approved by and on file with HHS will be allowed a "grace period" of sixty days after the

VOL
56
ISS

1991
UMI

submission date for an application seeking HHS support, to provide certification of Institutional Review Board (IRB) review and approval. Exceptions may occur for reasons of Congressional mandate or special program or review requirements. In such cases, institutions will be advised that certification must be sent at an earlier time.

Background

This notice sets forth as a common rule requirements for the protection of human subjects involved in research conducted or funded by the following Federal Departments and Agencies: United States Department of Agriculture; Department of Energy; National Aeronautics and Space Administration; Department of Commerce; Consumer Product Safety Commission; International Development Cooperation Agency, Agency for International Development; Department of Housing and Urban Development; Department of Justice; Department of Defense; Department of Education; Department of Veterans Affairs; Environmental Protection Agency; National Science Foundation; Department of Health and Human Services and the Department of Transportation. Each of these Departments and Agencies have adopted the common rule as regulations to be codified as listed above.

The Food and Drug Administration (FDA) Final Rule to modify current regulations to conform to the Federal Policy are presented elsewhere in this issue of the **Federal Register**. Existing FDA regulations governing the protection of human subjects share a common core with the Federal Policy and implement the fundamental principles embodied in that policy. The agency is committed to being as consistent with the final Federal Policy as it can be, given the unique requirements of the Federal Food, Drug, and Cosmetic Act under which FDA operates; and the fact that FDA is a regulatory agency that rarely supports or conducts research under its regulations.

Adoption of the common Policy by Federal Departments and Agencies in regulatory form will implement a recommendation of the President's Commission for the Study of Ethical Problems in Medicine and Biomedical and Behavioral Research which was established on November 9, 1978, by Public Law 95–622. One of the charges to the President's Commission was to report biennially to the President, the Congress, and appropriate Federal Departments and Agencies on the protection of human subjects of biomedical and behavioral research. In carrying out that charge, the President's Commission was directed to conduct a review of the adequacy and uniformity (1) of the rules, policies, guidelines, and regulations of all Federal Departments and Agencies regarding the protection of human subjects of biomedical or behavioral research which such Departments and Agencies conduct or support, and (2) of the implementation of such rules, policies, guidelines, and regulations by such Departments and Agencies, such review to include appropriate recommendations for legislation and administrative action.

In December 1981 the President's Commission issued its First Biennial Report on the Adequacy and Uniformity of Federal Rules and Policies, and their Implementation, for the Protection of Human Subjects in Biomedical and Behavioral Research, Protecting Human Subjects.

In accord with Public Law 95–622, each Federal Department or Agency which receives recommendations from the President's Commission with respect to its rules, policies, guidelines or regulations, must publish the recommendations in the **Federal Register** and provide an opportunity for interested persons to submit written data, views and arguments with respect to adoption of the recommendations. On March 29, 1982 (47 FR 13282–13305), the Secretary, HHS, published the recommendation on behalf of all affected Departments and Agencies.

In May 1982 the Chairman of the Federal Coordinating Council for Science, Engineering, and Technology (FCCSET) appointed an *Ad Hoc* Committee for the Protection of Human Research Subjects under the auspices of the FCCSET. The Committee, chaired by Dr. Edward N. Brandt, Jr., Assistant Secretary for Health, Health and Human Services (HHS), was composed of representatives and ex-officio members of the affected Departments and Agencies. In consultation with the Office of Science and Technology Policy (OSTP) and the Office of Management and Budget, the *Ad Hoc* Committee, after considering all public comments, developed responses to the recommendations of the President's Commission. After further review and refinement, OSTP responded on behalf of all the affected Department and Agency Heads to the recommendations of the President's Commission, including the recommendation that:

> The President should, through appropriate action, require that all federal departments and agencies adopt as a common core the regulations governing research with human subjects issued by the Department of Health and Human Services (codified at 45 CFR Part 46), as periodically amended or revised, while permitting additions needed by any department or agency that are not inconsistent with these core provisions.

The *Ad Hoc* Committee agreed that uniformity is desirable among Departments and Agencies to eliminate unnecessary regulation and to promote increased understanding and ease of compliance by institutions that conduct federally supported or regulated research involving human subjects. Therefore, the *Ad Hoc* Committee developed a Model Federal Policy, which applies to research involving human subjects conducted, supported or regulated by Federal Departments and Agencies. In accordance with the Commission's recommendation, the Model Federal Policy is based on subpart A of the regulations of HHS for the protection of human research subjects (45 CFR part 46). The Proposed Model federal Policy developed by the *Ad Hoc* Committee was modified by OSTP to enhance uniformity of implementation among the affected Federal Departments and Agencies and to provide consistency with other related policies. The revised Model Federal Policy was concurred in by all affected Federal Departments and Agencies in March 1985.

An Interagency Human Subjects Coordinating Committee was chartered in October 1983 under the auspices of FCCSET to provide continued interagency cooperation in human subject research once the *Ad Hoc* Committee had completed its assignment. It is chaired by the Director of the Office for Protection from Research Risks, HHS, and composed of representatives of all Federal Departments and Agencies that conduct, support or regulate research involving human subjects. The Committee is advisory to Department and Agency Heads and, among other responsibilities, will evaluate the implementation of the Federal Policy and recommend modification as necessary.

On June 3, 1986, OSTP published for public comment in the **Federal Register** (51 FR 20204) a Proposed Model Federal Policy for Protection of Human Subjects and Response to the First Biennial Report of the President's Commission. Over 200 written comments were received concerning the publication. The Interagency Human Subjects Coordinating Committee considered these comments in the revision of a common Federal Policy proposed as a common rule on November 10, 1988, for

adoption by each of the Departments and Agencies listed. Response to the more than 60 public comments, discussion of revisions made to that publication and the final common rule follow.

Summary of Public Comments Received in Response to the November 10, 1988, **Federal Register** publication (53 FR 45661) of the Notice of Proposed Common Rulemaking, Federal Policy for the Protection of Human Subjects for 16 Federal Departments and Agencies.

In response to the November 10, 1988, publication, 66 commentators responded within the comment period, which was extended to February 8, 1989. The source of comments included institutional offices of sponsored research, departmental deans and chairs and other staff of academic institutions, institutional review board members and staff, principal investigators, and drug company representatives. Although there were 66 separate commentators, several responses were prepared by organizations each representing a consortium of institutions which had been polled concerning the notice of proposed common rulemaking. For example, the Council on Governmental Relations, the Association of American Medical Colleges, Public Responsibility for Medicine and Research, Association of American Universities, the American Medical Association and the Consortium of Social Science Associations offered comment on behalf of their member institutions.

In general, commentators endorsed the efforts of the Office of Science and Technology Policy and the Federal Departments and Agencies to develop a Common Rule for the protection of human subjects.

The majority of the comments dealt with three points in the proposed common rule, as follows:

Section _____.103(b)(5) concerns those procedures set forth in Assurances of Compliance for research conducted or supported by a federal Department or Agency. As proposed, this section required that an Assurance should include:

> Written procedures for ensuring prompt reporting to the IRB, appropriate institutional officials, and the department or agency head (i) any unanticipated problems or scientific misconduct involving risks to human subjects or others (ii) any instance of serious or continuous noncompliance with this policy or the requirements of determinations of the IRB and (iii) any suspension or termination of IRB approval.

Some commentators indicated that they believed the proposed policy would inappropriately require IRBs to notify Department and Agency heads of scientific misconduct involving risks to human subjects and others and that the scientific fraud and misconduct regulations [September 19, 1988, Responsibilities of PHS Awardee and Applicant Institutions for Dealing with and Reporting Possible Misconduct in Science (53 FR 36344)] create duplicate and potentially conflicting requirements. Several suggested that the proposed rules on misconduct should leave undisturbed other existing regulatory schemes such as human subjects regulations of the Department of Health and Human Services at 45 CFR part 46. Other commentators indicated that the IRB should not have a "police" role and that its members are potentially legally liable if they did or did not report certain misconduct activities. Concern was also noted about additional responsibility and work placed on the IRB.

Several commentators requested clarification of § _____.103(b)(5)(i) in the terms "misconduct" and "unanticipated" problems. Respondents suggested that scientific misconduct implies falsification of data, plagiarism, abuse of confidentiality, dishonesty in presenting publications, legal violations and a range of other activities which should be addressed in a separate policy involving broader institutional considerations than those appropriate for an IRB. In addition, some respondents suggested that actual "harm" rather than "possible risk" to human subjects be reported to Departments and Agencies.

Concerning § _____.103(b)(5)(iii) two commentators suggested that IRBs would be reluctant to suspend IRB-approved research for administrative infractions (such as tardiness of response to an IRB) if such suspension must be reported to an Agency. One commentator requested that revisions be made so that only suspensions or terminations for serious or continuing noncompliance with the policy or determination of the IRB need be reported to the Department or Agency head. In that way, IRBs would use suspension or termination as a administrative tool and continue to keep Departments and Agencies informed of serious problems.

One specific set of comments addressed all aspects of this section by suggesting deletion of reporting requirements to Department and Agency Heads altogether. Rather, reports to IRBs and institutional officials would be required concerning unanticipated problems involving risks to human subjects which are substantial; proven scientific fraud; instances of substantial or continuing noncompliance with the policy or the requirements or determination of the IRB; or any suspension or termination which is more more than minor or temporary.

Response

In view of the comments and the policy concerning fraud and misconduct that is now under deliberation, the Interagency Human Subjects Coordinating Committee revised § _____.103(b)(5) as follows:

> Written procedures for ensuring prompt reporting to the IRB, appropriate institutional officials, and the department or agency head of (i) any unanticipated problems involving risks to subjects or others or any serious or continuing noncompliance with this policy or the requirements or determinations of the IRB and (ii) any suspension or termination of IRB approval.

The President's Commission recommended in its 1981 *First Biennial Report* that institutional assurances should specify how "misconduct" should be reported and investigated (pp. 77–82, Recommendations 7 and 8). Since the time of the publication of the 1981 report, however, the issue of identification and reporting of misconduct has been deliberated in many other contexts and has included consideration of more than "misconduct involving risks to human subjects." In August 1989 the Department of Health and Human Services published a final rule announcing responsibilities of awardee and applicant institutions for dealing with and reporting possible misconduct in science [53 CFR 32446]. The Committee agrees that in the current context the inclusion of the term "misconduct" in the Federal Policy is confusing and misleading because other policy development efforts giving specific meaning to scientific misconduct are ongoing. Therefore, the term is deleted from this document.

The revised language is closer to that of the original provision in the Department of Health and Human Services regulations. The Interagency Committee wishes to clarify that it was never the intention of the Policy to require IRBs to report directly to Department and Agency Heads. Assurances of Compliance are negotiated between Departments or Agencies and awardee institutions. Assurances allow institutions to specify how reporting to Department and Agency Heads will take place. Reporting is the responsibility of the institutional official identified in each Assurance.

Further, the Committee wishes to clarify that "unanticipated problems" in this context includes serious and unexpected reactions to biologicals,

VOL
56
ISS
1
1
7
JE
18
1991
UMI

drugs, or medical devices. Institutions have flexibility to establish channels of reporting to meet reporting requirements of Departments and Agencies. In addition, the Committee believes it is important that suspension or termination, for whatever reason, be reported to the Department and Agency Heads.

The Sixty Day "Grace" Period

Comment

The section of the proposed Policy and Final Rule eliciting the most comments was 103(f) regarding submission of certification. That section is as follows:

> Certification is required when the research is supported by a federal department or agency and not otherwise exempted or waived under §§ _____.101 (b) or (i). An institution with an approved assurance shall certify research covered by the assurance and by § _____.103 of this policy has been reviewed and approved by the IRB. Such certification must be submitted with the application or proposal or by such later date as may be prescribed by the department or agency to which the application or proposal is submitted. Under no condition shall research covered by § _____.103 of the policy be supported prior to receipt of the certification that the research has been reviewed and approved by the IRB. Institutions without an approved assurance covering the research shall certify within 30 days after receipt of a request for such a certification from the department or agency, that the application or proposal has been approved by the IRB. If the certification is not submitted within these time limits, the application or proposal may be returned to the institution.

Most of the commentators (50) addressed the need for a grace period between the time of submission of an application for support to a Department and Agency and submission of certification by the IRB of review and approval of the proposal. A 60-day grace period was allowed in the previous Department of Health and Human Services Regulations for the Protection of Human Subjects. Under this provision, institutions with Multiple Project Assurances on file with HHS had sixty days to complete IRB review and approval and to notify HHS. This period of time roughly corresponded to the time between receipt of the application and initial scientific merit review. The groups evaluating the application for scientific merit need certification of the fact that an appropriate IRB has determined that human subject protections are adequate.

The commentators cited many reasons why a grace period is important for orderly institutional review and for protection of human subjects. Many of the comments on this section requested that the grace period be reinstated in the regulations. In brief, respondents noted that if the grace period is not allowed, investigators would be required to submit proposals to IRBs about two months earlier than at present. IRBs would be convened into emergency sessions or required to meet more frequently. Pressure to grant approval would increase.

Some commentators noted that institutions that have no Multiple Project Assurance on file with HHS are given 30 days to review and certify upon HHS request. If Multiple Project Assurance holders have no grace period, they may be at a disadvantage in time permitted for preparation and institutional review of their applications as compared to the time permitted institutions without a Multiple Project Assurance. Also, data for competitive renewals is often added just before submission to HHS so that the most current progress under the original award can be reported. If a grace period is not offered, applications may not contain information vital for appropriate peer review.

Another concern raised was that some researchers are required to modify their proposals several times before submission. The current 60-day period allows the IRB to review the final submission carefully.

One commentator indicated that the proposed provision was acceptable to the institution.

Response

Many Federal Departments and Agencies do not have application review schedules that correspond to those of HHS. A 60 day grace period is without relevance to their review systems. At the time of publication of the proposed common rule, the Interagency Committee noted that HHS intended to retain a "grace period" for institutions that have Multiple Project Assurances and announce the period through advisories that are routinely received by institutions. HHS has carefully considered the public comments and will ordinarily retain the 60-day grace period in its administrative procedures. In some programs, such as AIDS-related research, HHS has modified the receipt and review schedules in accordance with a Congressional mandate.

The Departments and Agencies, other than HHS, adopting the common rule are aware of the concerns of the institutions and will provide as much flexibility to IRBs as possible in the orderly processing of applications for support. To require a 60-day grace period or any standard grace period for all Departments and Agencies would require far-reaching changes in the review and processing systems of these organizations. Institutions will be advised of Department and Agency procedures through routine publications. Consequently, the language in the final rule remains unchanged.

Composition of the IRB

Comments

Section _____.107 of the Policy deals with composition of the IRB. Several points made by commentators are as follows:

In § _____.107(a) there is the requirement that if an IRB regularly reviews research that involves a vulnerable category of subjects, such as children, prisoners, pregnant women or mentally disabled persons, consideration shall be given to the inclusion of one or more individuals who are knowledgeable about and experienced in working with these subjects. The HHS regulations at 45 CFR part 46 promulgated in 1981 utilized a different standard, i.e., "if an IRB regularly reviews research that involves a vulnerable category of subjects, including but not limited to subjects covered by other subparts of [45 CFR part 46], the IRB shall include one or more individuals who are primarily concerned with the welfare of these subjects." The commentator indicated that his institution would retain previous standards, because advocates for special populations have been of great benefit in the IRB's decision-making process.

Another commentator wrote that in her institution, full committee review is required when a vulnerable population is involved; all committee members are advocates for subjects whether or not they themselves are involved in a vulnerable population. Adding new members would make the committee too large to be workable, she wrote.

The majority of the comments on this section were directed to the departure proposed by the Department of Education at 34 CFR part 97.107(a). The proposed departure was based on a concern for protection of mentally disabled persons and handicapped children. The departure would have provided that, for research conducted or supported by the Department of Education," when an IRB reviews research that deals with handicapped children or mentally disabled persons, the IRB shall include at least one person primarily concerned with the welfare of the research subject." The remainder of the departure reiterated the common rule's provision which required institutions to consider representation on the IRB of persons who are knowledgeable about and experienced in working with certain vulnerable subjects if the IRB regularly reviews research involving those vulnerable subjects. Twenty-one institutions commented on this proposed departure. The majority of these comments were opposed to the proposed departure.

Some commentators, while supporting the proposed language in § _____.107, stated their belief that the departure was not necessary because the policy in § _____.107 already addresses representation of the special concerns of vulnerable subjects on the IRB. Thus, the rights of handicapped children and mentally disabled persons should be represented on any IRB that regularly reviews proposals involving those individuals, and there is no constructive advantage to emphasizing these two categories of subjects. Such an emphasis was seen as a precedent with the potential for discrimination against other categories of vulnerable subjects. When special expertise is required, IRBs already have the option and the obligation to seek informed consultants, respondents noted. One commentator stated, however, "If in future staffing of our IRB, someone with expertise in this area is available and willing to serve, we would be happy to encourage such participation."

Some commentators objected to the lack of consistency among Federal Departments and Agencies and cited the Department of Education's proposed departure as being inconsistent with the purpose of the common rule.

One commentator suggested that only when the IRB regularly reviews research that deals with handicapped children or mentally disabled persons should the IRB include at least one person primarily concerned with the welfare of the research subjects. Otherwise, consultation should take place when appropriate. Another suggestion was that handicapped children and mentally disabled persons be added to the list of examples of vulnerable subjects for which an IRB that regularly reviews research might want to consider inclusion of one or more members who are knowledgeable about and experienced in working with these subjects.

Response

The Department of Education has considered these comments carefully and has decided to withdraw the departure to the common rule and to adopt the common rule as promulgated in this document. The Secretary, however, continues to believe that there is a special need to protect handicapped children and mentally disabled persons. Thus, the Secretary strongly urges institutions to included at least one person who is primarily concerned with the welfare of the research subjects whenever the research involved handicapped children or mentally disabled persons. While the Secretary agrees to the common rule provision regarding IRB representation as a general matter, the Secretary has decided to address the concerns underlined by the proposed departure on a programmatic basis under the Department of Education's programs of the National Institute on Disability and Rehabilitation Research (34 CFR parts 350 and 356). Accordingly, the Secretary amends the program regulations for these programs in a document published in another section of this **Federal Register** part.

In light of the concern of the Department of Education that these groups were not clearly identified as vulnerable populations, "handicapped" has been added to the illustrative list in § _____.107.

Comments on Other Sections

Section _____.101 explains the application of the Policy. Section _____.101(b) describes categories of research that are exempt from the Policy.

Comment

Several commentators indicated that the language and intent of this section was helpful. One commentator indicated that he believes the section was written primarily for medical and health research and should not apply to involvement of human subjects for general business interviews or surveys. The commentators recommended the exemption of information gathering related to business. Further comment suggested that all minimal risk research be exempt from the regulations.

Response

The Committee believes that the exemptions are sufficiently clear so that all types of research, not just biomedical or health research, may be reviewed using the specified criteria. In addition, the Committee has indicated that the exemptions of § _____.101(b) of the Policy provides for the exemption of certain research including much of the research used by business (e.g., survey research) in which there is little or no risk.

Section _____.101(b)(2)

Comment

Section _____.101(b)(2) is an exemption for research involving the use of educational tests, survey procedures or observation of public behavior. To paraphrase, this type of research is exempt unless information is recorded in a manner such that subjects can be identified and disclosure of the responses outside the research could place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing, employability, or reputation. Three commentators expressed concern that the additional subparts B, C, and D of the HHS regulations for the protection of human subjects are not part of the Federal policy. They noted that institutions with assurances with HHS will be required to apply provisions of those subparts in research they support or conduct, while other Federally-supported research would not be subject to the subpart requirements.

Others commenting on § _____.101(b)(2) indicated that research that could involve sensitive data could place the subjects at risk, even if information is not recorded in such a manner that human subjects can be identified and should not be exempt from provisions of the Policy. One respondent noted that one IRB reviews this type of research even if an exemption is permitted by the regulations. Another indicated that this section will exclude from normally exempt educational, survey, interview or observational research any instances wherein disclosure of subjects responses could be damaging to the subject's reputation. Because reputation is a subjective term that is difficult to define operationally, the commentator suggested that the wording be changed to limit exceptions to specific risks of "professional and sociological damage."

Response

The Interagency Committee may at a later date wish to consider incorporation or provisions of the other subparts of the HHS regulations into federal policy. However, such considerations should not delay publication of basic protections for all human subjects. At this time, institutions sponsoring research under HHS-approved assurances will adhere to provisions of all the subparts of 45 CFR part 46. A footnote has been added to § _____.101(b) indicating that

Institutions with HHS-approved assurances on file will abide by provisions of 45 CFR 46 subparts A–D. Some of the other

VOL 56 ISS 117 JE 18 1991 UMI

Departments and Agencies have incorporated all provisions of 45 CFR 46.101(b) into their policies and procedures as well. However, the exemptions at 45 CFR 46.101(b) do not apply to research involving prisoners, fetuses, pregnant women, or human in vitro fertilization, subparts B and C. The exemption at 45 CFR 46.101(b)(2) for research involving survey or interview procedures or observation of public behavior, does not apply to research with children, subpart D, except for research involving observation of public behavior when the investigator(s) do not participate in the activities being observed.

A Notice to amend subpart D, 45 CFR 46.401(a)(2)(b) to renumber exemptions to permitted and not permitted to conform the subpart D reference to the renumbered exemptions in the Common Rule is published elsewhere in this issue of the Federal Register.

Under this footnote, for research involving children, institutions that have multiple project assurances on file with OPRR will not be able to use all provisions in the exemption in § _____.101(b)(2). However, the educational tests basis for the exemption contained in § _____.101(b)(2) will still be available to institutions conducting research involving children. In developing the common rule, a number of HHS exemptions were consolidated, including the HHS educational tests exemption. The educational tests exemption has been available for use under subpart D of the HHS regulations, Additional Protections Involving Children. Thus, the footnote to the common rule continues the provision that existed under the previous regulations.

Some institutions do not choose to permit exemptions even if they are permitted by the policy. This is their prerogative, and assurances of compliance incorporate provisions for utilizing exemptions.

Section _____.101(b)(3)

Comment

Section _____.101(b)(3) described an exemption for research involving the use of educational tests, survey procedures, interview procedures, or observation of public behavior that is not exempt under the exemption in § _____.101(b)(2) if human subjects are elected or appointed public officials or candidates for public office or if Federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter. Two commentators recommended deletion of this exemption because confidentiality considerations are not the only purpose of IRB review. Other human subjects protections issues might need to be considered in research that is not exempt by the criteria described in § _____.101(b)(2). Furthermore, the commentators explained that IRBs and institutions will not know that Federal statutes afford these protections, and inconsistency and confusion is likely.

Response

At present the only statutes that meet the criteria in § _____.101(b)(3)(ii) of which the Committee is aware are those for research conducted or supported by the Department of Justice under 42 U.S.C. 3789g, and certain research conducted or supported by the National Center for Education Statistics of the Department of Education under 20 U.S.C. 1221e–1. The Department of Justice's Office of Justice Programs (OJP) has several constituent offices that conduct research that would fall under § _____.101(b)(3). The law governing OJP research activities, 42 U.S.C. 3789g(a), provides that

> Except as provided by Federal law other than this chapter, no officer or employee of the Federal Government, and no recipient of assistance under the provisions of this chapter shall use or reveal any research or statistical information furnished under this chapter by any person and identifiable to any specific private person for any purpose other than the purpose for which it was obtained in accordance with this chapter. Such information and copies thereof shall be immune from legal process, and shall not, without the consent of the person furnishing such information, be admitted as evidence or used for any purpose in any action, suit, or other judicial, legislative, or administrative proceedings.

The law governing research conducted by the National Center for Education Statistics under 20 U.S.C. 1221e–1 provides that data collected by the National Center for Education Statistics may not be used for any purpose other than the statistical purpose for which the data were collected and establishes further protections regarding that data, including a provision that they

> shall be immune from legal process, and shall not, without the consent of the individual concerned, be admitted as evidence or used for any purpose in any action, suit, or other judicial or administrative proceeding. 20 U.S.C. 1221e–1(d)(4)(B).

It is the responsibility of a Federal Department or Agency to assist the institutions proposing to conduct a research project which it supports in determining if the research is subject to the provisions of the Federal statutes meeting the criteria in § _____.101(b)(3)(ii).

Section _____.101(h)

Comment

Section _____.101(h) discusses research that takes place in foreign countries covered by the policy. One respondent endorsed this section. Another found the provision somewhat ambiguous and suggested that it be made clear that a researcher may either comply with the policy provision or may substitute the foreign procedure in lieu of the policy only following a determination by the Department or Agency Head that the foreign procedures are at least equivalent to those required in the policy. Another comment reflected that it may be difficult at the time of submitting a research proposal to a supporting Department or Agency to know if a foreign country's guidelines provide protections which are at least equivalent to the policy; the Interagency Committee or Department or Agency Heads should publish regulations or advisories indicating which are considered "equivalent."

Response

The Interagency Committee concurs that evaluation of other country's protection requirements in comparison with the policy will be an important Committee initiative and it will consider publication of notices that reflect the decisions of Department and Agency Heads.

Also in § _____.101(h), reference to Helsinki as amended in 1983 is now changed to Helsinki as amended in 1989.

Section _____.102 Definitions

Comment

Section _____.102 includes the definition section in the Federal Policy. In this section, one commentator asked for a definition of "principal investigator," since that individual bears responsibility for human subject protection. Another commentator suggested adding a definition of "scientific fraud."

Another suggestion was to take into account First Amendment concerns involving freedom of speech in situations where social scientists interview foreign and domestic government and private individuals to obtain information. Another commentator suggested that the definition of human subject in § _____.102(f) should make clear that with, respect to interview research, a distinction should be made between information provided by a person which relates to past or present events or the actions of others, as opposed to the attitudes or actions of the interviewees themselves; only in the latter case should the interviewee constitute a human subject. Also, another letter explained that in some cultures, ancestral research would not come under the definition of "human subject" because individuals were deceased. However, this type of research might be distressing to living family members.

Section _____.102(b) includes the definition of "institution." One commentator proposed that the definition of "private entity" should also be included.

Section _____.102(h) includes the definition of "IRB approval." Three commentators suggested that the term "at the institution" was not appropriate in the definition of approval as "* * * determination of the IRB that the research has been reviewed and may be conducted at an institution within the constraints set forth by the IRB and by other institutional and federal requirements." Much of the research of an institution is off-site and thus seemed to be in technical violation under the proposed language.

Response

The Interagency Committee agrees that the principal investigator is a key person for protection of human subjects and bears a broad responsibility for implementation of the requirements. The term "investigator" is used in the policy, but not "principal investigator" and no definition is provided because the responsibility for protecting human subjects is shared by the entire research team. No definition of scientific fraud has been included, and the term has been deleted from § _____.103(b)(5), as described previously.

The Committee believes that the comment on § _____.102(f), definition of "human subject," about interview content is addressed through application of exemption criteria in § _____.101(b)(2) as well as in the precise wording of the definition itself.

In response to the comments about the phrase "at the institution" in the definition of IRB approval in § _____.102(h), the Interagency Committee responds that there are instances in which the IRB has approval authority where the research is not conducted at the institutional site. The policy at § _____.114, Cooperative Research, is an important cross-reference.

Establishment and approval of other off-site IRBs may be required in some circumstances in which another institution is involved in research. The Department or Agency Heads reserve the authority to approve cooperative arrangements. The phrase "at the institution" in the definition of IRB approval should be interpreted to mean field sites and other off-site facilities over which an institution has jurisdiction.

Section _____.103 Assurances

Comment

Section _____.103 explains how compliance is assured under this Policy in research conducted or supported by a federal Department or Agency. Most of the comments on this section concerned reporting and misconduct issues in § _____.103(b)(5) or the "grace period" or timing of certification in § _____.103(f), discussed previously. Several other comments are as follows: Three respondents asked for clarification of the rationale for reporting requirements in § _____.103(a). This section requires that when the existence of an HHS-approved assurance is accepted in lieu of requiring submission of a new assurance, reports required by the Policy are to be made to the Department and Agency Heads. Reports (with the exception of certification) are also to be made to OPRR.

Another comment was prompted by review of § _____.103(b)(1) which requires inclusion in the assurance of principles governing the institution in protection of human subjects, such as a statement of ethical principles or existing codes. The commentator suggested that a statement as to the purpose of having regulations which create an IRB structure should be explicitly included in the regulations.

A comment concerning § _____.103(f) requests clarification on what type of certification documentation will be acceptable.

Response

In consideration of these comments, the Interagency Committee offers the following information. In § _____.103(a) the only reports required to be made to both the head of the Department or Agency supporting the research and the OPRR when the HHS assurance is utilized are those required under § _____.103(b)(5). The head of the Department or Agency supporting a research project must have information concerning conduct of that research including instances of unanticipated problems or serious or continuing noncompliance with the Policy or the requirements or determinations of the IRB and any suspension or termination of IRB approval. OPRR requires this information to ensure that human subjects protections under the Policy and under the HHS-approved Assurance are being properly implemented and that institutions have fulfilled their requirements in an appropriate and timely manner.

With regard to the comment concerning certification requirements in § _____.103(f), standardized language for the certification will be developed. Certification now used by HHS has been suggested as a basis for development of the language.

Section _____.107 IRB Membership

Comment

Most of the commentators on § _____.107 address the proposed departure on IRB membership for the Department of Education that has been discussed above [§ _____.107(a)]. Other comments received were as follows: Reference is made in the Policy in several places to vulnerable subject populations. One commentator indicated that all subject populations are vulnerable and that the term "exceptionally vulnerable" would be better phraseology for those instances for which additional safeguards are urged or required.

Section _____.107(b) requires that every reasonable nondiscriminatory effort be made to ensure that no IRB consists entirely of men or entirely of women, including the institution's consideration of qualified persons of both sexes. One respondent indicated that the HHS standard in the regulations published in 1981 requiring that no IRB shall be constituted entirely of men or entirely of women should be retained. A further requirement of § _____.107(b) is that no IRB may consist entirely of members of one profession. Another respondent suggested that the word "discipline" be substituted for "profession."

Response

The Committee did not believe that the suggested language changes would significantly improve the understanding or implementation of the sections. It expects that institutions will use good judgment and diligence in selecting persons as IRB members who can fulfill the requirements of § _____.107 (a) and (b) so that persons of both genders and persons with varying backgrounds will promote responsible review of the research activities. In approving Assurances, the Federal Departments and Agencies that conduct, support or regulate research will review IRB

VOL 56 ISS 117 JE 18 1991 UMI

composition to ensure that the membership is appropriate for the research, and may request that membership be supplemented if complete and adequate review of the research does not appear possible.

As regards the gender consideration in IRB composition the Committee notes that in seeking diverse membership on the IRB, the institution must consider both men and women who can contribute to the role of the IRB.

Section _____.110 Expedited Review Procedures

Comment

This section sets forth expedited review procedures for certain kinds of research involving no more than minimal risk and for minor changes in approved research. Section _____.110(b) indicates that an IRB may use the expedited review procedure under certain specified circumstances with the approval of Department or Agency heads. Four respondents noted that confusion may result in institutions if Departments or Agencies have different requirements. Furthermore, it may be burdensome to IRBs and institutions to seek Department and Agency approval for use of expedited review. One respondent recommended that the phrase "with the approval of department or agency heads" in § _____.110(b) be deleted because it will result in bureaucratic delays in approval to use the authority. Furthermore, the authority to restrict use of expedited review is found in § _____.110(d) whereby the Department or Agency head may restrict, suspend, terminate or choose not to authorize the use of the expedited review procedure.

Response

The Committee agreed that the phrase in § _____.110(b) "with the approval of department or agency heads," should be deleted because § _____.110(d) accomplished the intention of the Committee. As an example of Department and Agency use of this authority, note that HHS does not permit expedited review for institutions that do not hold Multiple Project Assurances of Compliance. Note also that some institutions which have authority to use expedited procedures choose to use full IRB review instead.

Note that parentheses have been added to the word "reviewer(s)" in § _____.110(b)(1) to clarify that one or more reviewers may carry out the expedited review procedures in accordance with § _____.110(b).

Section _____.111 Criteria for IRB Approval of Research

Comment

Three commentators requested deletion of the term "economically or educationally disadvantaged" in the examples of those who are vulnerable subjects because of lack of clarity of the term, difficulty in determining if some subjects were in this category and possible exclusion from beneficial research protocols of those deemed to be included in this category.

Response

The Committee believes that the criteria for participation and the potential vulnerability of some research subjects are still a very important consideration for IRBs. In exercising their responsibilities, IRBs are charged with evaluating the benefits and the burdens of the research so that unjust social patterns do not appear in the overall distribution of the burdens and benefits of research. The 1979 Belmont Report outlining ethical principles and guidelines for the protection of human subjects of research written by the National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research makes special note that some populations are burdened in many ways by their social circumstances and environments.

* * * when research is proposed that involves risks and does not include a therapeutic component, other less burdened classes of persons should be called on first to accept these risks of research, except where research is directly related to the specific conditions of the class involved.

* * * certain groups, such as racial minorities, the economically disadvantaged, the very sick, and the institutionalized may continually be sought as research subjects, owing to their ready availability in settings where research is conducted. Given their dependent status and their frequently compromised capacity for free consent, they should be protected against the danger of being involved in research solely for administrative convenience, or because they are easy to manipulate as a result of their illness or socioeconomic condition.

The Committee expects that in its review of equitable treatment and review of benefits and burdens, the educationally or economically disadvantaged will not be excluded from potentially beneficial research to individuals or to those persons as a class.

Section _____.113 Suspension or Termination of IRB Approval of Research

Comment

One comment was offered suggesting that institutions, not IRBs, should report to Department and Agency Heads. Another response recommended that OPRR be designated as the central coordinating office to which such notification should be sent. Designation of OPRR as the single reporting channel would ensure prompt requisite reporting to the Government, the commentator noted.

Response

This section does not require that the IRB report to the Department or Agency head. The responsibility for reporting is specified in the institution's assurance.

OPRR will receive reports if institutions have an assurance on file with the HHS which covers the research in question and will be notified in accordance with §_____.103(b)(3). OPRR cannot act as a central information office for other Departments and Agencies in receiving reports of this nature because of insufficient resources and regulatory jurisdictional considerations.

Section _____.114 Cooperative Research

Comment

Confusion may result for institutions if Departments and Agencies have differing requirements.

Response

The Committee will attempt to advise Departments and Agencies so that procedural requirements will be consistent.

Section _____.115 IRB Records

Comment

Modified language for this section was suggested to assure that confidentiality will be maintained to the greatest extent possible.

Response

The Committee agreed that confidentiality considerations are most important for IRB records. While it rejected the detailed language suggested by the commentator, it acknowledged the importance of maintaining confidentiality. It believes that the proposed language is adequate.

Section _____.116 General Requirements for Informed Consent; and

Section _____.117 Documentation of Informed Consent

Comment

One respondent wrote that the differences between §_____.116 (c) and (d) and §_____.117(c) were confusing.

Response

Section _____.116(c) specifies that an IRB may approve a consent procedure which alters some or all of the required elements of informed consent or waives the requirement to obtain informed consent in research or demonstration projects which are subject to approval of state and local authorities and which meet certain other requirements. Section _____.116(d) specifies that an IRB may, under limited circumstances [other than those of §_____.116(c)] approve a consent procedure which alters some or all of the elements of informed consent or waive the requirements to obtain informed consent for certain types of research. Section _____.117(c) specifies conditions under which an IRB may waive the requirement for the investigator to obtain a signed consent document for some or all subjects in the research.

Section _____.123 Early Termination of Research

Comment

Two commentators expressed concern the establishment of this section implies that a "blacklist" composed of individuals and institutions that, in the judgment of Department and Agency Heads, have failed to discharge properly their responsibilities for the protection of human subjects. Serious breaches of confidentiality and due process could be implied. The inclusion of the parenthetical phrase "(whether or not the research was subject to federal regulations)" was also of concern because it implies that information gathering may lead to violations of confidentiality.

Response

The Committee is aware of concerns about the need for confidentiality and due process considerations. The Committee notes that other federal regulations deal with the suspension and termination of funding. These regulations provide the requisite due process. Sources of information and criteria to be used by Department and Agency Heads for making decisions are addressed with more specificity in those regulations. The federal government does maintain information that is pertinent to the exercise of the discretionary authority to award funding. Appropriate confidentiality protections apply to that information.

Section _____.124 Conditions

Comment

A suggestion was made that additional considerations of the Department or Agency head noted in this section should be limited to those required by statute.

Response

The Committee, in its ongoing deliberations, will attempt to maintain consistency and minimize burdens to institutions.

Department and Agency—Specific Comments

Department of Education

The 34 CFR 97.107(a) departure on composition of the IRB was discussed earlier in this preamble.

The Department of Education proposed to amend §_____.101(b)(3), To what does this policy apply, by revising paragraph (b)(3)(ii) to exempt educational tests and surveys, interviews, or certain observations from coverage of the regulations if the research is conducted under a program subject to the protections of the General Education Provisions Act (GEPA). This departure would have expanded upon an exception contained in the common rule that exempted research conducted under a statute that requires that the confidentiality of the personally identifiable information be maintained, without exception, throughout the research and thereafter.

Much of the research that would have been covered by the GEPA exception is conducted by the National Center for Education Statistics (NCES). Since publication of the NPRM for the common rule, the Department has developed procedures implementing new authority under GEPA that establish absolute confidentiality for individuals who are the subjects of the NCES research which is subject to the confidentiality requirements of section 406(d)(4) of GEPA. Thus, NCES research covered by the GEPA confidentiality requirements now falls within the exception in the common rule that excludes from coverage of the regulations research under a statute that provides for absolute confidentiality [§_____.101(b)(3)(ii)] and an expanded exception for that research is unnecessary.

The Secretary has decided to withdraw the GEPA departure as being inconsistent with the Department's overall objective of ensuring that research conducted or sponsored by the Department contain the greatest possible protections consistent with the common rule. Research of the Department other than that conducted under the NCES statute will be covered by the common rule.

Comment

Four comments were received regarding the exception from the common rule requirements for programs covered by GEPA. Three of the commentators were concerned that the proposed departure removed safeguards or did not provide additional safeguards for the protection of research subjects, while possibly increasing administrative burden on IRBs. One of these three commentators was concerned that the proposed departure might prohibit certain research procedures as applied to educational practices or programs. One commentator indicated that the proposed departure would not pose any problems.

Response

The departure to §_____.101(b)(3)(ii) was based on statutes applicable to the Department that provide protection for subjects of the Department's education-related tests and surveys, interview procedures, and observation of public behavior. The protections are found in the GEPA at section 400A (control of paperwork) (20 U.S.C. 1221–3); section 406(d)(4) (confidentiality of National Center for Education Statistics data) (20 U.S.C. 1221e–1); section 438 (Family Educational Rights and Privacy Act) (20 U.S.C. 1232g); and section 439 (Protection of Pupil Rights Amendment) (20 U.S.C. 1232h). The departure was not intended to create additional burdens for IRBs but to eliminate the need for IRB approval of research in those cases where the research was subject to the GEPA. The Secretary has withdrawn the proposed departure because it is inconsistent with ensuring the greatest protection under the programs administered by the Department.

Because the departure is being withdrawn, there is no need to explain how the proposed departure would have affected research practices.

Department of Veterans Affairs (VA)

Concern was expressed that § _____.111(a)(4) and § _____.116 of

VOL
56
ISS
117
JE
18
1991
UMI

the Federal Policy would supersede the Veterans Administration Department of Medicine and Surgery (VA DM&S) Circular 10–86–50 which allows next of kin to grant consent for incompetent relatives under specific conditions.

The VA responded, however, that Federal Policy mandates informed consent by the subject, or the subject's "legally authorized representative." "Legally authorized representative" is defined to include "individual(s) * * * authorized under applicable law * * * to consent on behalf of a prospective subject * * *." Thus, the proposed consent does not preclude next of kin consent so long as such consent is "authorized under applicable law."

38 U.S.C. 4131, and VA policies promulgated thereunder, do authorize next of kin consent. Accordingly, the Common Federal Policy and current VA policies are consistent.

Department of Justice

The Department of Justice intends to retain special protections for prison populations in research it supports or conducts in accordance with 28 CFR parts 22 and 512.

Department of Defense

Comment

One response requested clarification of how the Federal Policy will extend to DOD research. Numerous questions concerning applicability to military and non-military personnel, voluntary versus mandated participation situations, identifiable data and the broad range of DOD-sponsored research were posed. The respondent indicated that formulating guidelines for informed consent is particularly important in the military context.

Response

Questions raised regarding application of the proposed regulations to DOD-supported research are reasonable and appropriate but are regarded as agency specific. DOD plans to address these particular issues through revision of DOD Directive 32–16.2, Protection of Human Subjects in DOD-supported Research.

The text of the common rule is adopted by the following Department and Agencies as set forth below:

Text of the Common Rule

The text of the Common Rule as adopted by the Department and Agencies in this document appears below:

____.121 [Reserved]
____.122 Use of federal funds.
____.123 Early termination of research support; evaluation of applications and proposals.
____.124 Conditions.

§ ____.101 To what does this policy apply?

(a) Except as provided in paragraph (b) of this section, this policy applies to all research involving human subjects conducted, supported or otherwise subject to regulation by any federal department or agency which takes appropriate administrative action to make the policy applicable to such research. This includes research conducted by federal civilian employees or military personnel, except that each department or agency head may adopt such procedural modifications as may be appropriate from an administrative standpoint. It also includes research conducted, supported, or otherwise subject to regulation by the federal government outside the United States.

(1) Research that is conducted or supported by a federal department or agency, whether or not it is regulated as defined in § ____.102(e), must comply with all sections of this policy.

(2) Research that is neither conducted nor supported by a federal department or agency but is subject to regulation as defined in § ____.102(e) must be reviewed and approved, in compliance with § ____.101, § ____.102, and § ____.107 through § ____.117 of this policy, by an institutional review board (IRB) that operates in accordance with the pertinent requirements of this policy.

(b) Unless otherwise required by department or agency heads, research activities in which the only involvement of human subjects will be in one or more of the following categories are exempt from this policy:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (i) research on regular and special education instructional strategies, or (ii) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless:

(i) Information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (ii) any disclosure of the human subjects' responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing, employability, or reputation.

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures, or observation of public behavior that is not exempt under paragraph (b)(2) of this section, if:

(i) The human subjects are elected or appointed public officials or candidates for public office; or (ii) federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research, involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in such a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department of agency heads, and which are designed to study, evaluate, or otherwise examine:

(i) Public benefit or service programs; (ii) procedures for obtaining benefits or services under those programs; (iii) possible changes in or alternatives to those programs or procedures; or (iv) possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (i) if wholesome foods without additives are consumed or (ii) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

(c) Department or agency heads retain final judgment as to whether a particular activity is covered by this policy.

(d) Department or agency heads may require that specific research activities or classes of research activities conducted, supported, or otherwise subject to regulation by the department or agency but not otherwise covered by this policy, comply with some or all of the requirements of this policy.

(e) Compliance with this policy requires compliance with pertinent federal laws or regulations which provide additional protections for human subjects.

(f) This policy does not affect any state or local laws or regulations which may otherwise be applicable and which provide additional protections for human subjects.

(g) This policy does not affect any foreign laws or regulations which may otherwise be applicable and which provide additional protections to human subjects of research.

(h) When research covered by this policy takes place in foreign countries, procedures normally followed in the foreign countries to protect human subjects may differ from those set forth in this policy. [An example is a foreign institution which complies with guidelines consistent with the World Medical Assembly Declaration (Declaration of Helsinki amended 1989) issued either by sovereign states or by an organization whose function for the protection of human research subjects is internationally recognized.] In these circumstances, if a department or agency head determines that the procedures prescribed by the institution afford protections that are at least equivalent to those provided in this policy, the department or agency head may approve the substitution of the foreign procedures in lieu of the procedural requirements provided in this policy. Except when otherwise required by statute, Executive Order, or the department or agency head, notices of these actions as they occur will be published in the **Federal Register** or will be otherwise published as provided in department or agency procedures.

(i) Unless otherwise required by law, department or agency heads may waive the applicability of some or all of the provisions of this policy to specific research activities or classes of research activities otherwise covered by this policy. Except when otherwise required by statute or Executive Order, the department or agency head shall forward advance notices of these actions to the Office for Protection from Research Risks, Department of Health and Human Services (HHS), and shall also publish them in the **Federal Register** or in such other manner as provided in department or agency procedures.[1]

§ ____.102 Definitions.

(a) *Department or agency head* means the head of any federal department or agency and any other officer or employee of any department or agency to whom authority has been delegated.

(b) *Institution* means any public or private entity or agency (including federal, state, and other agencies).

(c) *Legally authorized representative* means an individual or judicial or other body authorized under applicable law to consent on behalf of a prospective subject to the subject's participation in the procedure(s) involved in the research.

(d) *Research* means a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge. Activities which meet this definition constitute research for purposes of this policy, whether or not they are conducted or supported under a program which is considered research for other purposes. For example, some demonstration and service programs may include research activities.

(e) *Research subject to regulation*, and similar terms are intended to encompass those research activities for which a federal department or agency has specific responsibility for regulating as a research activity, (for example, Investigational New Drug requirements administered by the Food and Drug Administration). It does not include research activities which are incidentally regulated by a federal department or agency solely as part of the department's or agency's broader responsibility to regulate certain types of activities whether research or non-research in nature (for example, Wage and Hour requirements administered by the Department of Labor).

(f) *Human subject* means a living individual about whom an investigator (whether professional or student) conducting research obtains

(1) data through intervention or interaction with the individual, or

(2) identifiable private information.

Intervention includes both physical procedures by which data are gathered (for example, venipuncture) and manipulations of the subject or the subject's environment that are performed for research purposes. Interaction includes communication or interpersonal contact between investigator and subject. "Private information" includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a medical record). Private information must be individually identifiable (i.e., the identity of the subject is or may readily be ascertained by the investigator or associated with the information) in order for obtaining the information to constitute research involving human subjects.

(g) *IRB* means an institutional review board established in accord with and for the purposes expressed in this policy.

(h) *IRB approval* means the determination of the IRB that the research has been reviewed and may be conducted at an institution within the constraints set forth by the IRB and by other institutional and federal requirements.

(i) *Minimal risk* means that the probability and magnitude of harm or discomfort anticipated in the research are not greater in and of themselves than those ordinarily encountered in daily life or during the performance of

[1] Institutions with HHS-approved assurances on file will abide by provisions of title 45 CFR part 46 subparts A–D. Some of the other Departments and Agencies have incorporated all provisions of title 45 CFR part 46 into their policies and procedures as well. However, the exemptions at 45 CFR part 46.101(b) do not apply to research involving prisoners, fetuses, pregnant women, or human in vitro fertilization, subparts B and C. The exemption at 45 CFR part 46.101(b)(2), for research involving survey or interview procedures or observation of public behavior, does not apply to research with children, subpart D, except for research involving observations of public behavior when the investigator(s) do not participate in the activities being observed.

VOL 56 ISS 117 JE 18 1991 UMI

routine physical or psychological examinations or tests.

(j) *Certification* means the official notification by the institution to the supporting department or agency, in accordance with the requirements of this policy, that a research project or activity involving human subjects has been reviewed and approved by an IRB in accordance with an approved assurance.

§ ___.103 Assuring compliance with this policy—research conducted or supported by any federal department or agency.

(a) Each institution engaged in research which is covered by this policy and which is conducted or supported by a federal department or agency shall provide written assurance satisfactory to the department or agency head that it will comply with the requirements set forth in this policy. In lieu of requiring submission of an assurance, individual department or agency heads shall accept the existence of a current assurance, appropriate for the research in question, on file with the Office for Protection from Research Risks, HHS, and approved for federalwide use by that office. When the existence of an HHS-approved assurance is accepted in lieu of requiring submission of an assurance, reports (except certification) required by this policy to be made to department and agency heads shall also be made to the Office for Protection from Research Risks, HHS.

(b) Departments and agencies will conduct or support research covered by this policy only if the institution has an assurance approved as provided in this section, and only if the institution has certified to the department or agency head that the research has been reviewed and approved by an IRB provided for in the assurance, and will be subject to continuing review by the IRB. Assurances applicable to federally supported or conducted research shall at a minimum include:

(1) A statement of principles governing the institution in the discharge of its responsibilities for protecting the rights and welfare of human subjects of research conducted at or sponsored by the institution, regardless of whether the research is subject to federal regulation. This may include an appropriate existing code, declaration, or statement of ethical principles, or a statement formulated by the institution itself. This requirement does not preempt provisions of this policy applicable to department- or agency-supported or regulated research and need not be applicable to any research exempted or waived under § ___.101 (b) or (i).

(2) Designation of one or more IRBs established in accordance with the requirements of this policy, and for which provisions are made for meeting space and sufficient staff to support the IRB's review and recordkeeping duties.

(3) A list of IRB members identified by name; earned degrees; representative capacity; indications of experience such as board certifications, licenses, etc., sufficient to describe each member's chief anticipated contributions to IRB deliberations; and any employment or other relationship between each member and the institution; for example: full-time employee, part-time employee, member of governing panel or board, stockholder, paid or unpaid consultant. Changes in IRB membership shall be reported to the department or agency head, unless in accord with § ___.103(a) of this policy, the existence of an HHS-approved assurance is accepted. In this case, change in IRB membership shall be reported to the Office for Protection from Research Risks, HHS.

(4) Written procedures which the IRB will follow (i) for conducting its initial and continuing review of research and for reporting its findings and actions to the investigator and the institution; (ii) for determining which projects require review more often than annually and which projects need verification from sources other than the investigators that no material changes have occurred since previous IRB review; and (iii) for ensuring prompt reporting to the IRB of proposed changes in a research activity, and for ensuring that such changes in approved research, during the period for which IRB approval has already been given, may not be initiated without IRB review and approval except when necessary to eliminate apparent immediate hazards to the subject.

(5) Written procedures for ensuring prompt reporting to the IRB, appropriate institutional officials, and the department or agency head of (i) any unanticipated problems involving risks to subjects or others or any serious or continuing noncompliance with this policy or the requirements or determinations of the IRB and (ii) any suspension or termination of IRB approval.

(c) The assurance shall be executed by an individual authorized to act for the institution and to assume on behalf of the institution the obligations imposed by this policy and shall be filed in such form and manner as the department or agency head prescribes.

(d) The department or agency head will evaluate all assurances submitted in accordance with this policy through such officers and employees of the department or agency and such experts or consultants engaged for this purpose as the department or agency head determines to be appropriate. The department or agency head's evaluation will take into consideration the adequacy of the proposed IRB in light of the anticipated scope of the institution's research activities and the types of subject populations likely to be involved, the appropriateness of the proposed initial and continuing review procedures in light of the probable risks, and the size and complexity of the institution.

(e) On the basis of this evaluation, the department or agency head may approve or disapprove the assurance, or enter into negotiations to develop an approvable one. The department or agency head may limit the period during which any particular approved assurance or class of approved assurances shall remain effective or otherwise condition or restrict approval.

(f) Certification is required when the research is supported by a federal department or agency and not otherwise exempted or waived under § ___.101 (b) or (i). An institution with an approved assurance shall certify that each application or proposal for research covered by the assurance and by § ___.03 of this Policy has been reviewed and approved by the IRB. Such certification must be submitted with the application or proposal or by such later date as may be prescribed by the department or agency to which the application or proposal is submitted. Under no condition shall research covered by § ___.103 of the Policy be supported prior to receipt of the certification that the research has been reviewed and approved by the IRB. Institutions without an approved assurance covering the research shall certify within 30 days after receipt of a request for such a certification from the department or agency, that the application or proposal has been approved by the IRB. If the certification is not submitted within these time limits, the application or proposal may be returned to the institution. (Approved by the Office of Management and Budget under Control Number 9999-0020.)

§ ___.104 [Reserved]

§ ___.105 [Reserved]

§ ___.106 [Reserved]

§ ___.107 IRB membership.

(a) Each IRB shall have at least five members, with varying backgrounds to promote complete and adequate review of research activities commonly

conducted by the institution. The IRB shall be sufficiently qualified through the experience and expertise of its members, and the diversity of the members, including consideration of race, gender, and cultural backgrounds and sensitivity to such issues as community attitudes, to promote respect for its advice and counsel in safeguarding the rights and welfare of human subjects. In addition to possessing the professional competence necessary to review specific research activities, the IRB shall be able to ascertain the acceptability of proposed research in terms of institutional commitments and regulations, applicable law, and standards of professional conduct and practice. The IRB shall therefore include persons knowledgeable in these areas. If an IRB regularly reviews research that involves a vulnerable category of subjects, such as children, prisoners, pregnant women, or handicapped or mentally disabled persons, consideration shall be given to the inclusion of one or more individuals who are knowledgeable about and experienced in working with these subjects.

(b) Every nondiscriminatory effort will be made to ensure that no IRB consists entirely of men or entirely of women, including the institution's consideration of qualified persons of both sexes, so long as no selection is made to the IRB on the basis of gender. No IRB may consist entirely of members of one profession.

(c) Each IRB shall include at least one member whose primary concerns are in scientific areas and at least one member whose primary concerns are in nonscientific areas.

(d) Each IRB shall include at least one member who is not otherwise affiliated with the institution and who is not part of the immediate family of a person who is affiliated with the institution.

(e) No IRB may have a member participate in the IRB's initial or continuing review of any project in which the member has a conflicting interest, except to provide information requested by the IRB.

(f) An IRB may, in its discretion, invite individuals with competence in special areas to assist in the review of issues which require expertise beyond or in addition to that available on the IRB. These individuals may not vote with the IRB.

§ ___.108 IRB functions and operations.

In order to fulfill the requirements of this policy each IRB shall:

(a) Follow written procedures in the same detail as described in § ___.103(b)(4) and, to the extent required by, § ___.103(b)(5).

(b) Except when an expedited review procedure is used (see § ___.110), review proposed research at convened meetings at which a majority of the members of the IRB are present, including at least one member whose primary concerns are in nonscientific areas. In order for the research to be approved, it shall receive the approval of a majority of those members present at the meeting.

§ ___.109 IRB review of research.

(a) An IRB shall review and have authority to approve, require modifications in (to secure approval), or disapprove all research activities covered by this policy.

(b) An IRB shall require that information given to subjects as part of informed consent is in accordance with § ___.116. The IRB may require that information, in addition to that specifically mentioned in § ___.116, be given to the subjects when in the IRB's judgment the information would meaningfully add to the protection of the rights and welfare of subjects.

(c) An IRB shall require documentation of informed consent or may waive documentation in accordance with § ___.117.

(d) An IRB shall notify investigators and the institution in writing of its decision to approve or disapprove the proposed research activity, or of modifications required to secure IRB approval of the research activity. If the IRB decides to disapprove a research activity, it shall include in its written notification a statement of the reasons for its decision and give the investigator an opportunity to respond in person or in writing.

(e) An IRB shall conduct continuing review of research covered by this policy at intervals appropriate to the degree of risk, but not less than once per year, and shall have authority to observe or have a third party observe the consent process and the research.

(Approved by the Office of Management and Budget under Control Number 9999-0020.)

§ ___.110 Expedited review procedures for certain kinds of research involving no more than minimal risk, and for minor changes in approved research.

(a) The Secretary, HHS, has established, and published as a Notice in the **Federal Register**, a list of categories of research that may be reviewed by the IRB through an expedited review procedure. The list will be amended, as appropriate after consultation with other departments and agencies, through periodic republication by the Secretary, HHS, in the **Federal Register**. A copy of the list is available from the Office for Protection from Research Risks, National Institutes of Health, HHS, Bethesda, Maryland 20892.

(b) An IRB may use the expedited review procedure to review either or both of the following:

(1) Some or all of the research appearing on the list and found by the reviewer(s) to involve no more than minimal risk.

(2) Minor changes in previously approved research during the period (of one year or less) for which approval is authorized.

Under an expedited review procedure, the review may be carried out by the IRB chairperson or by one or more experienced reviewers designated by the chairperson from among members of the IRB. In reviewing the research, the reviewers may exercise all of the authorities of the IRB except that the reviewers may not disapprove the research. A research activity may be disapproved only after review in accordance with the non-expedited procedure set forth in § ___.108(b).

(c) Each IRB which uses an expedited review procedure shall adopt a method for keeping all members advised of research proposals which have been approved under the procedure.

(d) The department or agency head may restrict, suspend, terminate, or choose not to authorize an institution's or IRB's use of the expedited review procedure.

§ ___.111 Criteria for IRB approval of research.

(a) In order to approve research covered by this policy the IRB shall determine that all of the following requirements are satisfied:

(1) Risks to subjects are minimized: (i) By using procedures which are consistent with sound research design and which do not unnecessarily expose subjects to risk, and (ii) whenever appropriate, by using procedures already being performed on the subjects for diagnostic or treatment purposes.

(2) Risks to subjects are reasonable in relation to anticipated benefits, if any, to subjects, and the importance of the knowledge that may reasonably be expected to result. In evaluating risks and benefits, the IRB should consider only those risks and benefits that may result from the research (as distinguished from risks and benefits of therapies subjects would receive even if not participating in the research). The IRB should not consider possible long-range effects of applying knowledge gained in the research (for example, the

VOL 56 ISS 117 JE 18 1991 UMI

possible effects of the research on public policy) as among those research risks that fall within the purview of its responsibility.

(3) Selection of subjects is equitable. In making this assessment the IRB should take into account the purposes of the research and the setting in which the research will be conducted and should be particularly cognizant of the special problems of research involving vulnerable populations, such as children, prisoners, pregnant women, mentally disabled persons, or economically or educationally disadvantaged persons.

(4) Informed consent will be sought from each prospective subject or the subject's legally authorized representative, in accordance with, and to the extent required by § ____.116.

(5) Informed consent will be appropriately documented, in accordance with, and to the extent required by § ____.117.

(6) When appropriate, the research plan makes adequate provision for monitoring the data collected to ensure the safety of subjects.

(7) When appropriate, there are adequate provisions to protect the privacy of subjects and to maintain the confidentiality of data.

(b) When some or all of the subjects are likely to be vulnerable to coercion or undue influence, such as children, prisoners, pregnant women, mentally disabled persons, or economically or educationally disadvantaged persons, additional safeguards have been included in the study to protect the rights and welfare of these subjects.

§ ____.112 Review by institution.

Research covered by this policy that has been approved by an IRB may be subject to further appropriate review and approval or disapproval by officials of the institution. However, those officials may not approve the research if it has not been approved by an IRB.

§ ____.113 Suspension or termination of IRB approval of research.

An IRB shall have authority to suspend or terminate approval of research that is not being conducted in accordance with the IRB's requirements or that has been associated with unexpected serious harm to subjects. Any suspension or termination of approval shall include a statement of the reasons for the IRB's action and shall be reported promptly to the investigator, appropriate institutional officials, and the department or agency head.

(Approved by the Office of Management and Budget under Control Number 9999–0020.)

§ ____.114 Cooperative research.

Cooperative research projects are those projects covered by this policy which involve more than one institution. In the conduct of cooperative research projects, each institution is responsible for safeguarding the rights and welfare of human subjects and for complying with this policy. With the approval of the department or agency head, an institution participating in a cooperative project may enter into a joint review arrangement, rely upon the review of another qualified IRB, or make similar arrangements for avoiding duplication of effort.

§ ____.115 IRB records.

(a) An institution, or when appropriate an IRB, shall prepare and maintain adequate documentation of IRB activities, including the following:

(1) Copies of all research proposals reviewed, scientific evaluations, if any, that accompany the proposals, approved sample consent documents, progress reports submitted by investigators, and reports of injuries to subjects.

(2) Minutes of IRB meetings which shall be in sufficient detail to show attendance at the meetings; actions taken by the IRB; the vote on these actions including the number of members voting for, against, and abstaining; the basis for requiring changes in or disapproving research; and a written summary of the discussion of controverted issues and their resolution.

(3) Records of continuing review activities.

(4) Copies of all correspondence between the IRB and the investigators.

(5) A list of IRB members in the same detail as described in § ____.103(b)(3).

(6) Written procedures for the IRB in the same detail as described in § ____.103(b)(4) and § ____.103(b)(5).

(7) Statements of significant new findings provided to subjects, as required by § ____.116(b)(5).

(b) The records required by this policy shall be retained for at least 3 years, and records relating to research which is conducted shall be retained for at least 3 years after completion of the research. All records shall be accessible for inspection and copying by authorized representatives of the department or agency at reasonable times and in a reasonable manner. (Approved by the Office of Management and Budget under Control Number 9999–0020.)

§ ____.116 General requirements for informed consent.

Except as provided elsewhere in this policy, no investigator may involve a human being as a subject in research covered by this policy unless the investigator has obtained the legally effective informed consent of the subject or the subject's legally authorized representative. An investigator shall seek such consent only under circumstances that provide the prospective subject or the representative sufficient opportunity to consider whether or not to participate and that minimize the possibility of coercion or undue influence. The information that is given to the subject or the representative shall be in language understandable to the subject or the representative. No informed consent, whether oral or written, may include any exculpatory language through which the subject or the representative is made to waive or appear to waive any of the subject's legal rights, or releases or appears to release the investigator, the sponsor, the institution or its agents from liability for negligence.

(a) Basic elements of informed consent. Except as provided in paragraph (c) or (d) of this section, in seeking informed consent the following information shall be provided to each subject:

(1) A statement that the study involves research, an explanation of the purposes of the research and the expected duration of the subject's participation, a description of the procedures to be followed, and identification of any procedures which are experimental;

(2) A description of any reasonably foreseeable risks or discomforts to the subject;

(3) A description of any benefits to the subject or to others which may reasonably be expected from the research;

(4) A disclosure of appropriate alternative procedures or courses of treatment, if any, that might be advantageous to the subject;

(5) A statement describing the extent, if any, to which confidentiality of records identifying the subject will be maintained;

(6) For research involving more than minimal risk, an explanation as to whether any compensation and an explanation as to whether any medical treatments are available if injury occurs and, if so, what they consist of, or where further information may be obtained;

(7) An explanation of whom to contact for answers to pertinent questions about the research and research subjects' rights, and whom to contact in the event of a research-related injury to the subject; and

(8) A statement that participation is voluntary, refusal to participate will involve no penalty or loss of benefits to which the subject is otherwise entitled, and the subject may discontinue participation at any time without penalty or loss of benefits to which the subject is otherwise entitled.

(b) Additional elements of informed consent. When appropriate, one or more of the following elements of information shall also be provided to each subject:

(1) A statement that the particular treatment or procedure may involve risks to the subject (or to the embryo or fetus, if the subject is or may become pregnant) which are currently unforeseeable;

(2) Anticipated circumstances under which the subject's participation may be terminated by the investigator without regard to the subject's consent;

(3) Any additional costs to the subject that may result from participation in the research;

(4)The consequences of a subject's decision to withdraw from the research and procedures for orderly termination of participation by the subject;

(5) A statement that significant new findings developed during the course of the research which may relate to the subject's willingness to continue participation will be provided to the subject; and

(6) The approximate number of subjects involved in the study.

(c) An IRB may approve a consent procedure which does not include, or which alters, some or all of the elements of informed consent set forth above, or waive the requirement to obtain informed consent provided the IRB finds and documents that:

(1) The research or demonstration project is to be conducted by or subject to the approval of state or local government officials and is designed to study, evaluate, or otherwise examine: (i) Public benefit of service programs; (ii) procedures for obtaining benefits or services under those programs; (iii) possible changes in or alternatives to those programs or procedures; or (iv) possible changes in methods or levels of payment for benefits or services under those programs; and

(2) The research could not practicably be carried out without the waiver or alteration.

(d) An IRB may approve a consent procedure which does not include, or which alters, some or all of the elements of informed consent set forth in this section, or waive the requirements to obtain informed consent provided the IRB finds and documents that:

(1) The research involves no more than minimal risk to the subjects;

(2) The waiver or alteration will not adversely affect the rights and welfare of the subjects;

(3) The research could not practicably be carried out without the waiver or alteration; and

(4) Whenever appropriate, the subjects will be provided with additional pertinent information after participation.

(e) The informed consent requirements in this policy are not intended to preempt any applicable federal, state, or local laws which require additional information to be disclosed in order for informed consent to be legally effective.

(f) Nothing in this policy is intended to limit the authority of a physician to provide emergency medical care, to the extent the physician is permitted to do so under applicable federal, state, or local law. (Approved by the Office of Management and Budget under Control Number 9999–0020.)

§ ____.117 Documentation of informed consent.

(a) Except as provided in paragraph (c) of this section, informed consent shall be documented by the use of a written consent form approved by the IRB and signed by the subject or the subject's legally authorized representative. A copy shall be given to the person signing the form.

(b) Except as provided in paragraph (c) of this section, the consent form may be either of the following:

(1) A written consent document that embodies the elements of informed consent required by § ____.116. This form may be read to the subject or the subject's legally authorized representative, but in any event, the investigator shall give either the subject or the representative adequate opportunity to read it before it is signed; or

(2) A short form written consent document stating that the elements of informed consent required by § ____.116 have been presented orally to the subject or the subject's legally authorized representative. When this method is used, there shall be a witness to the oral presentation. Also, the IRB shall approve a written summary of what is to be said to the subject or the representative. Only the short form itself is to be signed by the subject or the representative. However, the witness shall sign both the short form and a copy of the summary, and the person actually obtaining consent shall sign a copy of the summary. A copy of the summary shall be given to the subject or the representative, in addition to a copy of the short form.

(c) An IRB may waive the requirement for the investigator to obtain a signed consent form for some or all subjects if it finds either:

(1) That the only record linking the subject and the research would be the consent document and the principal risk would be potential harm resulting from a breach of confidentiality. Each subject will be asked whether the subject wants documentation linking the subject with the research, and the subject's wishes will govern; or

(2) That the research presents no more than minimal risk of harm to subjects and involves no procedures for which written consent is normally required outside of the research context.

In cases in which the documentation requirement is waived, the IRB may require the investigator to provide subjects with a written statement regarding the research. (Approved by the Office of Management and Budget under Control Number 9999–0020.)

§ ____.118 Applications and proposals lacking definite plans for involvement of human subjects.

Certain types of applications for grants, cooperative agreements, or contracts are submitted to departments or agencies with the knowledge that subjects may be involved within the period of support, but definite plans would not normally be set forth in the application or proposal. These include activities such as institutional type grants when selection of specific projects is the institution's responsibility; research training grants in which the activities involving subjects remain to be selected; and projects in which human subject's involvement will depend upon completion of instruments, prior animal studies, or purification of compounds. These applications need not be reviewed by an IRB before an award may be made. However, except for research exempted or waived under § ____.101 (b) or (i), no human subjects may be involved in any project supported by these awards until the project has been reviewed and approved by the IRB, as provided in this policy, and certification submitted, by the institution, to the department or agency.

§ ____.119 Research undertaken without the intention of involving human subjects.

In the event research is undertaken without the intention of involving human subjects, but it is later proposed to involve human subjects in the research, the research shall first be reviewed and approved by an IRB, as provided in this policy, a certification submitted, by the institution, to the department or agency.

VOL 56 ISS 117 JE 18 1991 UMI

and final approval given to the proposed change by the department or agency.

§ ___.120 Evaluation and disposition of applications and proposals for research to be conducted or supported by a federal department or agency.

The department or agency head will evaluate all applications and proposals involving human subjects submitted to the department or agency through such officers and employees of the department or agency and such experts and consultants as the department or agency head determines to be appropriate. This evaluation will take into consideration the risks to the subjects, the adequacy of protection against these risks, the potential benefits of the research to the subjects and others, and the importance of the knowledge gained or to be gained.

(b) On the basis of this evaluation, the department or agency head may approve or disapprove the application or proposal, or enter into negotiations to develop an approvable one.

§ ___.121 [Reserved]

§ ___.122 Use of federal funds.

Federal funds administered by a department or agency may not be expended for research involving human subjects unless the requirements of this policy have been satisfied.

§ ___.123 Early termination of research support; evaluation of applications and proposals.

(a) The department or agency head may require that department or agency support for any project be terminated or suspended in the manner prescribed in applicable program requirements, when the department or agency head finds an institution has materially failed to comply with the terms of this policy.

(b) In making decisions about supporting or approving applications or proposals covered by this policy the department or agency head may take into account, in addition to all other eligibility requirements and program criteria, factors such as whether the applicant has been subject to a termination or suspension under paragarph (a) of this section and whether the applicant or the person or persons who would direct or has have directed the scientific and technical aspects of an activity has have, in the judgment of the department or agency head, materially failed to discharge responsibility for the protection of the rights and welfare of human subjects (whether or not the research was subject to federal regulation).

§ ___.124 Conditions.

With respect to any research project or any class of research projects the department or agency head may impose additional conditions prior to or at the time of approval when in the judgment of the department or agency head additional conditions are necessary for the protection of human subjects.

Public Health Service

Agency Forms Submitted to the Office of Management and Budget for Clearance

The following request has been submitted to the Office of Management and Budget (OMB) for clearance in compliance with the Paperwork Reduction Act (44 U.S.C. chapter 35). Expedited review by OMB has been requested as described below.

(Call PHS Reports Clearance Officer on 202–245–2100 for copies of submission)

Federal Policy for the Protection of Human Subjects—New—This submission is for approval of the information requirements associated with the common rule for the protection of human subjects of research conducted, supported or regulated by the following Federal departments and agencies: Department of Agriculture, Department of Energy, National Aeronautics and Space Administration, Department of Commerce, Consumer Product Safety Commission, Agency for International Development, Department of Housing and Urban Development, Department of Justice, Department of Defense, Department of Education, Department of Veterans' Affairs, Environmental Protection Agency, Department of Transportation, Central Intelligence Agency, and Department of Health and Human Services.

Adoption of the common Federal policy by these departments and agencies will implement a recommendation of the President's Commission for the Study of Ethical Problems in Medicine and Biomedical and Behavioral Research. The Office of Science and Technology Policy established an Interagency Human Subjects Coordinating Committee under the Federal Coordinating Council for Science Engineering and Technology. This group prepared a proposed Model Federal Policy for the Protection of Human Subjects that was published as a proposed policy in 1988 and again as a proposed common rule on November 10, 1988. After revision of the proposed common rule in response to public comments, the final common rule is being published elsewhere in this issue of the Federal Register. The common rule is based on Department of Health and Human Services (DHHS) regulations (45 CFR part 46, subpart A), the basic HHS Policy for the Protection of Human Subjects.

Respondents: Individuals or households, State or local governments, businesses or other for-profit, Federal agencies or employees, non-profit institutions, small businesses or organizations.

The total number of respondents affected by these information requirements is estimated at 3,831. The total annual response burden for these requirements including all Federal departments and agencies subject to the common rule, is estimated at 187,408 hours divided as follows: 22,982 hours for recordkeeping requirements and 164,426 hours for reporting and disclosure requirements.

Additional Information:

DHHS has submitted this request for approval to OMB on behalf of all Departments and Agencies governed by this final rule. It is critical to receive OMB review and approval for the information requirements so that the common rule for the Protection of Human Subjects may be effective 60 days after publication. Federal Departments and Agencies have ongoing research programs to which the common rule will apply, and they are seeking the most expeditious time frame in which to begin protection of human subject policies and procedures. In addition, institutions supported or regulated by the involved Departments and Agencies have requested implementation of the final rule as soon as possible to lessen burden of compliance with numerous, sometimes inconsistent, procedures for the protection of human subjects required by the various Federal Departments and Agencies.

OMB has been requested to review and approve the information requirements in the common rule on an expedited basis no later than August 2, 1991. In keeping with the requirements for expedited review, we are publishing this announcement in the same issue as the proposed final rule. The information requirements are separately identified in the preamble to the rule, printed elsewhere in this issue. There are no separate forms or instructions for which approval is being sought.

OMB Desk Officer: Shannah Koss-McCallum.

Because of the time frame in which OMB has been asked to act on this request, any comments and recommendations for the proposed information collection should be provided directly to the OMB Desk Officer designated above by telephone at (202) 395–7316 or by express mail at the following address: Human Resources and Housing Branch, New Executive Office Building, room 3002, Washington, DC 20503.

Dated: May 31, 1991.

Sandra K. Mahkorn,

1Deputy Assistant Secretary for Public Health Policy.

[Docket No. 87N-0032]

RIN 0905-AC52

Protection of Human Subjects; Informed Consent; Standards for Institutional Review Boards for Clinical Investigations

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending its regulations on institutional review boards (IRB's) and on informed consent to conform them to the "Federal Policy for the Protection of Human Research Subjects" (Federal Policy) published elsewhere in this issue of the Federal Register. Existing FDA regulations governing the protection of human subjects share a common core with the Federal Policy and implement the fundamental principles embodied in that policy.

EFFECTIVE DATE: August 19, 1991.

FOR FURTHER INFORMATION CONTACT: Richard M. Klein, Office of Health Affairs (HFY–20), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–1382.

SUPPLEMENTARY INFORMATION:

I. Background

FDA is charged by statute with ensuring the protection of the rights, safety, and welfare of human subjects who participate in clinical investigations involving articles subject to section 505(i), 507(d), or 520(g) of the Federal Food, Drug, and Cosmetic Act (the act) (21 U.S.C. 355(i), 357(d), or 360j(g)), as well as clinical investigations that support applications for research or marketing permits for products regulated by FDA, including food and color additives, drugs for human use, medical devices for human use, biological products for human use, and electronic products.

In the Federal Register of January 27, 1981, FDA adopted regulations governing informed consent of human subjects (21 CFR part 50; 46 FR 8942) and regulations establishing standards for the composition, operation, and responsibilities of IRB's that review clinical investigations involving human subjects (21 CFR part 56; 46 FR 8958). At the same time, the Department of Health and Human Services (HHS) adopted regulations on the protection of human research subjects (45 CFR part 46; 46 FR 8366). The FDA and HHS regulations share a common framework.

In December 1981, the President's Commission for the study of Ethical Problems in Medicine and Biomedical and Behavioral Research (the commission) issued its "First Biennial Report on the Adequacy and Uniformity of Federal Rules and Policies, and their Implementation, for the Protection of Human Subjects in Biomedical and Behavioral Research, Protecting Human Subjects." The commission recommended that all Federal departments and agencies adopt the HHS regulations (45 CFR part 46).

In May 1982, the President's Science Advisor, Office of Science and Technology Policy (OSTP), appointed an ad hoc Committee for the Protection of Human Research Subjects (the committee), under the auspices of the Federal Coordinating Council for Science, Engineering, and Technology (FCCSET), to respond to the recommendations of the commission. The committee, composed of representatives and ex officio members from departments and agencies that conduct, support, or regulate research involving human subjects, developed responses to the commission in consultation with OSTP and the Office of Management and Budget (OMB).

The committee agreed that uniformity of Federal regulations on human subject protection is desirable to eliminate unnecessary regulations and to promote increased understanding by institutions that conduct federally-supported or regulated research. The committee developed a model policy which OSTP later modified and, with the concurrence of all affected Federal departments and agencies, published as a proposal in the Federal Register of June 3, 1986 (51 FR 20204). More than 200 comments were submitted in response to the proposal. Published elsewhere in this issue of the Federal Register is the final rule on the Federal Policy.

FDA concurs in that final rule. In the Federal Register of November 10, 1988 (53 FR 45678), the agency proposed to amend its regulations in 21 CFR parts 50 and 56 to conform them to the Federal Policy to the extent permitted by the act. The agency is committed to being as consistent with the final Federal Policy as it can be, given the unique requirements of the act and the fact that FDA is a regulatory agency that rarely supports or conducts research under its regulations. However, as explained in the proposed rule, FDA must diverge from §§ ____.101(b) and ____.116(d) of the Federal Policy.

FDA received 22 comments on the proposed rule from sponsors of regulated research, institutional review board members and staff, academic institutions, medical societies, and lawyers. Several comments were prepared by organizations, each representing a consortia of institutions that had been polled concerning the proposed rule.

A. General Comments

1. The majority of comments supported the agency's efforts to conform to the Federal Policy.

2. The majority of comments received concerned the proposal to amend § 56.108(b) to require that IRB's follow written guidelines for ensuring the reporting of scientific misconduct and of unanticipated problems to the IRB, institutional officials, and FDA. Two comments noted that this provision would make the IRB the institutional body that investigates alleged fraud severely damaging the IRB/investigator relationship and possibly diminishing the effectiveness of the IRB in protecting human subjects. Several comments noted that the proposed additional reporting requirements would duplicate investigator and sponsor reporting requirements and would be difficult for the IRB to enforce. One comment said that this section may adversely affect the IRB/institution relationship and asked how FDA intended to ensure that reporting occurred. One comment interpreted the provision as applicable to animal studies and wondered whether IRB's would be responsible for contacting sponsors. One comment expressed concern that the workload of the IRB would increase and adversely affect the recruitment of new members. One comment sought to exclude Adverse Drug Reaction reports. One comment argued that the reporting requirement was unauthorized by law.

Two comments from sponsors requested that sponsor notification be added under proposed § 56.108(b), noting that an investigator engaged in misconduct is unlikely to report that misconduct to the IRB, and that the sponsor is the entity that frequently detects misconduct through its extensive monitoring practices. In addition, these comments requested clarification of the office in FDA to which scientific misconduct should be reported. Several comments requested that FDA define or clarify "scientific misconduct" and "unanticipated problems."

Since the proposed model policy was published, the Public Health Service published a final rule concerning fraud and misconduct in science (54 FR 32446,

VOL
56
ISS
117
JE
18
1991
UMI

August 8, 1988). Because that rule directs institutions to establish provisions for the investigation of alleged scientific fraud and misconduct, the mention of "scientific misconduct" has been deleted, as unnecessary, from the model policy. Because FDA only proposed to require that IRB's report scientific misconduct to be consistent with the model policy, it has deleted this requirement from its final rule. This action should allay many of the concerns expressed in the comments.

Moreover, FDA believes that the comments misconstrued the intent of § 56.108(b). This section requires simply that an IRB have procedures by which it checks to ensure in reviewing each study presented, that provision has been made in the study to notify the IRB, appropriate institutional officials, and FDA in the specified circumstances. Section 56.108(b) does not require that the IRB itself provide the notification to either the institution or to FDA, unless such reporting would not otherwise occur. Although FDA's regulations include reporting requirements for certain types of investigational articles (see, e.g., 21 CFR parts 312 (investigational drugs) and 812 (investigational devices)), there are no such provisions for other articles that may be the subject of an investigation (e.g. food additives). Because all regulated research to be conducted at an institution will come before the IRB, FDA finds that the IRB is the appropriate entity to charge with the responsibility for ensuring that reporting of the specified problems to the IRB, the institution, and the agency will occur.

3. One comment urged FDA to move toward the adoption of an assurance system as established for the other agencies within HHS to guarantee compliance with regulations for the protection of human subjects.

FDA continues to believe that it would be inappropriate for it to adopt this mechanism. As stated in the final rule in the **Federal Register** of January 27, 1981 (46 FR 8959, comment 2), the benefits of assurance from IRB's that are subject to FDA jurisdiction, but not otherwise to HHS jurisdiction, do not justify the increased administrative burdens that would result from an assurance system. FDA relies on its Bioresearch Monitoring Program, along with its educational efforts, to assure compliance with these regulations.

4. One comment expressed concern over FDA's proposed divergences from sections 101(h) and 116(d) of the Federal Policy. The comment contended that it is sometimes impossible to obtain informed consent, as defined by FDA's regulations, in foreign clinical trials.

As stated in the proposed rule (53 FR 45679), FDA does not have the authority to accept the procedures followed in a foreign country in lieu of informed consent as required by the act for studies that are conducted under a research permit that it grants. The comment did not provide any information that would compel a different conclusion.

B. Comments on Definitions

5. One comment suggested that the word "discomfort" used in proposed §§ 50.3(i) and 56.102(i) is difficult to define and is subjective.

FDA believes that the meaning of "discomfort" is sufficiently clear. FDA interprets this term to have its ordinary meaning; that is, to mean the extent to which a subject may be made uncomfortable by the article that is the subject of the research.

6. One comment asserted that proposed § 56.102(m), the definition of "IRB approval," suggests an intent to change the procedural requirements of IRB approval.

FDA proposed to add this definition to make the regulations conform to the Federal Policy and to clarify the meaning of the phrase "IRB approval" under this rule. The addition of this definition is not intended to effect a substantive change in part 56. In the preamble to its August 8, 1978 proposal of the IRB regulation (43 FR 35186 at 35197), FDA presented a thorough discussion of its authority to require IRB review.

7. One comment stated that the reference to "other institutional and Federal requirements" in proposed § 56.102(m) goes beyond FDA's ability to determine other institutional requirements and may be counterproductive where there is conflict between the institutional requirements and FDA or HHS requirements. The suggestion is made to delete "and other institutional * * * requirements."

This definition is intended to make clear that IRB approval is to be based on a determination that the proposed research is acceptable under any applicable institutional requirements, applicable law, and standards of professional conduct and practice. If there are conflicts between the institutional requirements and Federal law, those conflicts obviously must be resolved in favor of the Federal law. However, institutional requirements often address matters not addressed by Federal law. Therefore, FDA finds it appropriate to mention both institutional and Federal requirements in this definition.

8. One comment suggested substituting "clinical investigation" for the word "research" in § 56.102(m).

FDA rejects the suggestion. FDA has defined "clinical investigation" in § 56.102(c) to be synonymous with "research" (46 FR 8976). Because FDA desires to conform to the Federal Policy and in the absence of a compelling argument to diverge from it, FDA is using the word used in the Federal Policy.

9. Several comments suggested deleting "at an institution" from § 56.102(m), contending that this phrase may confuse the original intent of the meaning of IRB approval. Another comment noted that much research today is conducted outside the institutional setting.

FDA rejects the comments. In 1981, when FDA adopted the IRB regulations, FDA intentionally defined "institution" broadly to include "any public or private entity or agency" (§ 56.102(f); 46 FR 8963, comment 27). Thus, § 56.102(m) is consistent with the original intent of the IRB regulations.

10. One comment suggested revising § 56.102(m) to read "IRB approval means * * * that the research has been reviewed for undue risk to the subject and may be conducted * * *."

FDA rejects the suggestion. The suggested change does not adequately describe the role of the IRB. The IRB's review of studies and informed consent documents includes numerous considerations in addition to whether the study presents undue risks to the human subjects involved.

C. Comments on Exemptions From IRB Requirements

11. One comment requested that no exemptions from IRB requirements be granted for those populations already identified as vulnerable.

FDA did not propose that studies involving vulnerable populations be exempt from IRB review. The only exemptions from the IRB review requirements were established in the 1981 final rule (46 FR 8942; 21 CFR 56.104). The use of an investigational article is exempt from IRB review if the investigation started before July 27, 1981, before the requirement of IRB review was in effect, or if it involves an emergency use of the test article, in which case there is not time for IRB review before the article is used. The agency found that in these circumstances, the considerations that support granting an exemption outweigh those that would support denying it (46 FR 8965, comment 48). The comment did not provide any basis for reconsidering

or revising this judgment. The agency points out that the latter considerations (emergency use), which is the only basis on which a new study would be exempt, applies only to particular uses of an article and would not provide the basis for an exemption for the use of an article in a particular population. Therefore, FDA finds that this comment provides no basis for modifying its regulations.

12. One comment suggested that FDA completely exempt "minimal risk" studies from IRB review.

FDA rejects the comment. The determination of minimal risk can be made only by members of the IRB, not the investigator or the sponsor. The burden of an expedited review of a protocol to determine if it presents minimal risk is not so great as to justify the requested exemption.

D. Comments on IRB Membership

13. Three comments suggested that FDA define in § 56.107 the specific members to be included on an IRB. Several comments suggested that FDA define, in new § 56.107(c), "non-scientific" and "scientific." Two comments suggested that the IRB include "one member who has an understanding of the medical risks involved." Another comment suggested that § 56.107(c) be clarified to include a statement requiring that at least one member of the IRB have an understanding of the scientific method.

FDA rejects these comments. FDA has chosen not to prescribe professional membership requirements for IRB members. The regulations allow for flexibility in the makeup of the IRB (see 46 FR 8968, comment 55). They require, however, that there be at least one member whose concerns are in nonscience areas and one member who has the professional competency to review the proposed research, such as a physician. FDA interprets "competency" in this context to include the ability to understand the scientific method. The agency believes that the membership requirements that it has adopted are adequate to ensure that an IRB will be able to fully consider the issues presented by a study.

14. One comment suggested that the proposed change in § 56.107(a), allowing IRB's that regularly review studies that involve vulnerable categories of subjects to consider including as a member an individual knowledgeable about, and experienced in, working with vulnerable populations, will afford less human subject protection than the current regulation.

The current regulation states that an IRB that regularly reviews research involving vulnerable populations should include as members individuals who are primarily concerned with the welfare of vulnerable subjects. Revised § 56.107(a) lists categories of subjects who are considered vulnerable and requires that the institution, or other authority, consider including individuals knowledgeable and experienced in working with these types of subjects as voting members on the IRB. This revision is not intended to lessen in any way the protections for vulnerable populations under FDA's regulations. As explained in the proposal (53 FR 45679), FDA is making this change only to conform to the language of the Federal Policy.

FDA on its own initiative is adding parenthesis to the word "reviewers" in § 56.110(b)(1) to permit a continuance of existing IRB review procedures.

E. Comments on IRB Functions and Operations

15. Several comments sought clarification of new § 56.108(b)(1) with regard to the definition and interpretation of "any unanticipated problems involving risks to human subjects and others" and the level of risk to be reported.

FDA interprets this phrase to mean an unexpected adverse experience that is not listed in the labeling for the test article. Such experience includes an event that may be symptomatically and pathophysiologically related to an event listed in the labeling but that differs from the event because of greater specificity or severity. The word "others" has previously been defined as persons who are participating in clinical trials under the same or similar protocols or who may be affected by products or procedures developed in those trials (see 53 FR 45661, 45665; November 10, 1988).

F. Comments on Expedited Review Procedures

16. One comment read the parenthetical change in § 56.110(b), "of one year or less," as affecting a change from the current regulations.

FDA disagrees with the comment. Under current regulations, the IRB may approve a study that will continue beyond 1 year, such as a longitudinal followup study. The IRB is obligated, however, under § 56.109(e) (21 CFR 56.109(e)), to conduct continuing review of the research at intervals appropriate to the degree of risk that it presents but not less than once a year.

17. One comment stated that expedited review procedures should never be used in research that involves vulnerable populations.

FDA disagrees with the comment. Expedited review procedures may only be used to review research that involves minimal risk as defined in § 56.102(i) or to review minor changes in previously approved research (§ 56.110(b)). The determination that such conditions apply must be made by the chairperson of the IRB, or by one or more experienced members of the IRB designated by the chairperson. Thus, research involving vulnerable populations will not be subject to expedited review unless a member of the IRB has affirmatively determined that the subjects will not be exposed to any greater risk of harm than they encounter in daily life or during routine physical or psychological examinations or tests, or that a change in research that has been reviewed by the whole IRB is minor. Obviously, in making these determinations, the IRB member must consider the nature of the subject population. Moreover, if expedited review is undertaken, the reviewer may exercise all the authority of the IRB, including the authority under § 56.111(a)(3) to ensure that any special problems of vulnerable populations have been addressed. Thus, FDA believes that vulnerable populations will not be involved in research that has been subject to expedited review procedures without full consideration of whether such research should be subject to expedited review at all and, if so, of their interests. Therefore, FDA does not agree with the comment.

G. Comments on Criteria for IRB Approval of Research

18. One comment suggested deleting "* * * economically or educationally disadvantaged persons * * *" from new § 56.111(a)(3), stating that it would be impossible for the IRB or the clinical investigator to make that determination.

FDA disagrees with the comment. As stated in § 56.111(b), FDA expects the IRB to make sure that adequate protections are included in those clinical investigations in which vulnerable subjects will be participating. There is no requirement for the IRB to make a determination that individual subjects are disadvantaged. However, the IRB is required to determine whether it is likely that vulnerable individuals will be involved in the study, and, if so, whether adequate safeguards have been included to protect the study subjects or whether additional safeguards are necessary.

II. Environmental Impact

The agency has determined under 21 CFR 25.24(a)(8) that this action is of a type that does not individually or

VOL 56 ISS 117 JE 18 1991 UMI

cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

III. Economic and Regulatory Assessments

FDA has examined the economic consequences of the final amendments to its regulations pertaining to IRB's and to informed consent in accordance with the criteria in section 1(b) of Executive Order 12291 and found that these amendments would not be a major rule under the Executive Order. The agency also has considered the effect that the final rule would have on small entities including small businesses in accordance with the Regulatory Flexibility Act (Pub. L. 96-354). The agency certifies that there will not be a significant economic impact on a substantial number of small entities. FDA explained the basis for these conclusions in the proposal (53 FR 45681). The agency did not receive any comments that suggest contrary conclusions. This final rule contains information collections subject to the Paperwork Reduction Act of 1980. These information collections have been approved under OMB control number 0910-0130.

List of Subjects in

21 CFR Part 50

Prisoners, Reporting and recordkeeping requirements, Research, Safety.

21 CFR Part 56

Reporting and Recordkeeping requirements, Research, Safety.

Therefore, under the Federal Food, Drug, and Cosmetic Act and the Public Health Service Act, 21 CFR parts 50 and 56 are amended as follows:

PART 50—PROTECTION OF HUMAN SUBJECTS

1. The authority citation for 21 CFR part 50 continues to read as follows:

Authority: Secs. 201, 406, 408, 409, 502, 503, 505, 506, 507, 510, 513-516, 518-520, 701, 706, 801 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321, 346, 346a, 348, 351, 352, 353, 355, 356, 357, 360, 360c-360f, 360h-360j, 371, 376, 381); secs. 215, 301, 351, 354-360F of the Public Health Service Act (42 U.S.C. 216, 241, 262, 263b-263n).

2. Section 50.3 is amended by revising paragraph (l) to read as follows:

§ 50.3 Definitions.

* * * * *

(l) *Minimal risk* means that the probability and magnitude of harm or discomfort anticipated in the research are not greater in and of themselves than those ordinarily encountered in daily life or during the performance of routine physical or psychological examinations or tests.

* * * * *

PART 56—INSTITUTIONAL REVIEW BOARDS

3. The authority citation for 21 CFR part 56 continues to read as follows:

Authority: Secs. 201, 406, 408, 409, 501, 502, 503, 505, 506, 507, 510, 513-516, 518-520, 701, 706, 801 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321, 346, 346a, 348, 351, 352, 353, 355, 356, 357, 360, 360c-360f, 360h-360j, 371, 376, 381); secs. 215, 301, 351, 354-360F of the Public Health Service Act (42 U.S.C. 216, 241, 262, 263b-263n).

4. Section 56.102 is amended by revising paragraph (i) and by adding new paragraph (m) to read as follows:

§ 56.102 Definitions.

* * * * *

(i) *Minimal risk* means that the probability and magnitude of harm or discomfort anticipated in the research are not greater in and of themselves than those ordinarily encountered in daily life or during the performance of routine physical or psychological examinations or tests.

* * * * *

(m) *IRB approval* means the determination of the IRB that the clinical investigation has been reviewed and may be conducted at an institution within the constraints set forth by the IRB and by other institutional and Federal requirements.

5. Section 56.104 is amended by adding new paragraph (d) to read as follows:

§ 56.104 Exemptions from IRB requirement.

* * * * *

(d) Taste and food quality evaluations and consumer acceptance studies, if wholesome foods without additives are consumed or if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural, chemical, or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

6. Section 56.107 is amended by revising paragraphs (a), (b), and (c) to read as follows:

§ 56.107 IRB membership.

(a) Each IRB shall have at least five members, with varying backgrounds to promote complete and adequate review of research activities commonly conducted by the institution. The IRB shall be sufficiently qualified through the experience and expertise of its members, and the diversity of the members, including consideration of race, gender, cultural backgrounds, and sensitivity to such issues as community attitudes, to promote respect for its advice and counsel in safeguarding the rights and welfare of human subjects. In addition to possessing the professional competence necessary to review the specific research activities, the IRB shall be able to ascertain the acceptability of proposed research in terms of institutional commitments and regulations, applicable law, and standards or professional conduct and practice. The IRB shall therefore include persons knowledgeable in these areas. If an IRB regularly reviews research that involves a vulnerable catgory of subjects, such as children, prisoners, pregnant women, or handicapped or mentally disabled persons, consideration shall be given to the inclusion of one or more individuals who are knowledgeable about the experienced in working with those subjects.

(b) Every nondiscriminatory effort will be made to ensure that no IRB consists entirely of men or entirely of women, including the instituton's consideration of qualified persons of both sexes, so long as no selection is made to the IRB on the basis of gender. No IRB may consist entirely of members of one profession.

(c) Each IRB shall include at least one member whose primary concerns are in the scientific area and at least one member whose primary concerns are in nonscientific areas.

* * * * *

7. Section 56.108 is amended by revising paragraph (a), by removing paragraph (c), by redesignating paragraph (b) as paragraph (c), by adding a new paragraph (b), and by adding a parenthetical statement to the end of the section to read as follows:

§ 56.108 IRB functions and operations.

(a) Follow written procedures: (1) For conducting its initial and continuing review of research and for reporting its findings and actions to the investigator and the institution; (2) for determining which projects require review more often than annually and which projects need verification from sources other than the investigator that no material changes have occurred since previous IRB review; (3) for ensuring prompt reporting to the IRB of changes in research activity; and (4) for ensuring that changes in approved research, during the period for which IRB approval has already been given, may not be initiated without IRB review and approval except where necessary to eliminate apparent immediate hazards to the human subjects.

(b) Follow written procedures for ensuring prompt reporting to the IRB, appropriate institutional officials, and the Food and Drug Administration of: (1) Any unanticipated problems involving risks to human subjects or others; (2) any instance of serious or continuing noncompliance with these regulations or the requirements or determinations of the IRB; or (3) any suspension or termination of IRB approval.

* * * * *

(Information collection requirements in this section were approved by the Office of Management and Budget (OMB) and assigned OMB control number 0910-0130)

8. Section 56.110 is amended by revising paragraph (b) to read as follows:

§ 56.110 Expedited review procedures for certain kinds of research involving no more than minimal risk, and for minor changes in approved research.

* * * * *

(b) An IRB may use the expedited review procedure to review either or both of the following: (1) Some or all of the research appearing on the list and found by the reviewer(s) to involve no more than minimal risk, (2) minor changes in previously approved research during the period (of 1 year or less) for which approval is authorized. Under an expedited review procedure, the review may be carried out by the IRB chairperson or by one or more experienced reviewers designated by the IRB chairperson from among the members of the IRB. In reviewing the research, the reviewers may exercise all of the authorities of the IRB except that the reviewers may not disapprove the research. A research activity may be disapproved only after review in accordance with the nonexpedited review procedure set forth in § 56.108(c).

* * * * *

9. Section 56.111 is amended by revising paragraphs (a)(3) and (b) to read as follows:

§ 56.111 Criteria for IRB approval of research.

(a) * * *

(3) Selection of subjects is equitable. In making this assessment the IRB should take into account the purposes of the research and the setting in which the research will be conducted and should be particularly cognizant of the special problems of research involving vulnerable populations, such as children, prisoners, pregnant women, handicapped, or mentally disabled persons, or economically or educationally disadvantaged persons.

* * * * *

(b) When some or all of the subjects, such as children, prisoners, pregnant women, handicapped, or mentally disabled persons, or economically or educationally disadvantaged persons, are likely to be vulnerable to coercion or undue influence additional safeguards have been included in the study to protect the rights and welfare of these subjects.

10. Section 56.115 is amended by revising paragraph (a)(6) and by adding a parenthetical statement to the end of the section to read as follows:

§ 56.115 IRB records.

(a) * * *

(6) Written procedures for the IRB as required by § 56.108 (a) and (b).

* * * * *

(Information collection requirements in this section were approved by the Office of Management and Budget (OMB) and assigned OMB control number 0910-0130)

Dated: March 29, 1991.

David A. Kessler,

Commissioner of Food and Drugs.

Louis W. Sullivan,

[FR Doc. 91-14200 Filed 6-17-91; 8:45 am]

BILLING CODE 4160-01-M

DEPARTMENT OF EDUCATION

34 CFR Parts 350 and 356

Protection Of Human Subjects—Disability and Rehabilitation Research: General Provisions, Disability and Rehabilitation Research: Research Fellowships

AGENCY: Department of Education.

ACTION: Interim final regulations with an opportunity to comment.

SUMMARY: The Secretary amends program regulations for the National Institute on Disability and Rehabilitation Research to add certain protections for handicapped children and mentally disabled persons who are the subjects of research conducted or sponsored by those programs. Specifically, the program regulations would require that when an institutional review board (IRB) reviews research involving these research subjects, the IRB must include at least one person who is primarily concerned with the welfare of the research subjects. The regulations are necessary as the result of the Department of Education's (Department) withdrawal of a departure from the common regulations for the protection of human research subjects.

DATES: Comments must be received on or before August 2, 1991. These regulations take effect either August 19, 1991, or later if the Congress takes certain adjournments. If you want to know the effective date of these regulations, call or write the Department of Education contact person. A document announcing the effective date will be published in the **Federal Register.**

ADDRESSES: All comments concerning these interim final regulations should be addressed to Mr. Edward Glassman; Office of Planning, Budget and Evaluation; U.S. Department of Education, Federal Building #6, room 3127, 400 Maryland Avenue SW., Washington, DC 20202-4132.

FOR FURTHER INFORMATION CONTACT: Edward B. Glassman, Telephone: (202) 401-3132. Deaf and hearing impaired individuals may call the Federal Dual Party Relay Service at 1-800-877-8339 (In the Washington DC area, 202 708-9300) between 8 a.m. and 7 p.m. Eastern Time.

SUPPLEMENTARY INFORMATION: The Office of Science and Technology Policy, Executive Office of the President (OSTP), published a "Proposed Model Policy for the Protection of Human Subjects" in the **Federal Register** on June 3, 1986 (51 FR 20204). OSTP adopted a final policy for the protection of human research subjects on November 10, 1988 (53 FR 45660). The Final Policy adopted by OSTP was included in proposed common regulations published in the **Federal Register** on November 10, 1988 (53 CFR 45661) by sixteen departments and agencies in the Executive Branch of the Federal Government, including the Department of Education. The final common regulations are published in another section of this **Federal Register** part.

The notice of proposed rulemaking (NPRM) for the common regulations specifically asked for comments addressing what effect promulgation of the Model Policy would have on each of the agencies involved in the proposed rulemaking. The Secretary proposed a departure from the common regulations that would require representation on an Institutional Review Board (IRB) of at least one person primarily concerned with the welfare of the research subjects whenever the research involves handicapped children or mentally disabled persons. As discussed below,

VOL 56 ISS 117 JE 18 1991 UMI

the Secretary has decided to withdraw this across-the-board departure in favor of program-specific regulations under those programs of the Department that are likely to support covered research that involves these research subjects.

Composition of the IRB

Comment

The Department proposed a departure to § ____.107(a) of the common regulations that would have required that, for all programs of the Department, "when an IRB reviews research that deals with handicapped children or mentally disabled persons, the IRB shall include at least one person primarily concerned with the welfare of the research subjects." The remainder of the departure reiterated the common rule's provision, which required institutions to consider representation on the IRB of persons who are knowledgeable about and experienced in working with certain vulnerable subjects if the IRB regularly reviews research involving those vulnerable subjects. Twenty-one institutions focused on this proposed departure in their comments. The majority of these comments were opposed to the proposed departure.

Some commenters, while supporting the proposed general language in § ____.107, stated their belief that the departure was not necessary because the policy in § ____.107 already addresses representation of the special concerns of vulnerable subjects on the IRB. Thus, the rights of handicapped children and mentally disabled persons should be represented on any IRB that regularly reviews proposals involving those individuals and there is nothing to be gained by emphasizing these two categories of subjects. Such an emphasis was seen as a precedent with the potential for discrimination against other categories of vulnerable subjects. When special expertise is required, IRBs already have the option, and, they believed, the obligation to seek informed consultants. However, one commenter stated "If in future staffing of our IRB, someone with expertise in this area is available and willing to serve, we would be happy to encourage such participation."

One commenter suggested that only when an IRB regularly reviews research that deals with handicapped children or mentally disabled persons should the IRB include at least one person primarily concerned with the welfare of the research subjects. Otherwise, consultation should take place when appropriate. Another suggestion was that handicapped children be added to the list of examples of vulnerable subjects for which an IRB that regularly reviews research might want to consider inclusion of one or more members who are knowledgeable about and experienced in working with these subjects.

Some commenters objected to the lack of consistency among Federal agencies and cited the Department of Education's proposed departure as inconsistent with the purpose of the common rule. One commenter indicated that the departure would not pose any problem.

Response

The language of the proposed departure was rooted in the Secretary's concern that the welfare of research subjects who are handicapped children or mentally disabled persons be adequately protected because of the diminished capacity of such persons to protect their own interests and their corresponding greater potential for harm. It should be noted that, while the common rule does, in general, protect the interests of vulnerable populations, it does not specifically command representation of their interests in all cases. For example, the common rule only requires that when an IRB regularly reviews research involving vulnerable subjects, consideration should be given to including on the IRB a researcher experienced in working with such subjects. Thus, the Department believes it is appropriate to offer special protection for handicapped children and mentally disabled persons, and the protection proposed in the departure would have satisfied that need.

The comments also appear to misunderstand the intent of the Department's proposed departure. Some commenters believed that the departure would require that an IRB include a permanent member to represent the special populations covered by the departure. Others appeared to believe that the departure would apply to all research of the institution that involved the special populations covered by the departure. The proposed departure would have produced neither of these results. Instead, the proposed departure would have required the addition of one member on an *ad hoc* basis only when the research is sponsored or funded by the Department of Education and purposefully requires the inclusion of handicapped children or mentally disabled persons.

As explained above, the Secretary believes that there is a special need to protect handicapped children and mentally disabled persons. However, given the broad policy objective of providing consistent treatment through common regulations, the Secretary has decided that the IRB special representation requirements contained in the proposed departure are not necessary for most of the programs of the Department, because most programs of the Department do not support research likely to involve those persons. Thus, the Secretary has decided to withdraw the departure. However, the Secretary believes that the concerns addressed by the proposed departure have a particular urgency in those programs of the Department that support a significant amount of research involving handicapped children and mentally disabled persons. Therefore, the Secretary is amending the regulations for the programs of the National Institute on Disability and Rehabilitation Research (34 CFR parts 350 and 356) to ensure that the protections that would have been afforded under the departure are implemented in those specific programs.

Although the Secretary has decided to publish this regulation in final form, due to the strong public interest created by the proposed departure, and because a number of commenters appeared to misunderstand the effect of the proposed rule, the Secretary has also decided to offer the public an additional opportunity to comment on the final rule. The address to which commenters should send their comments and the date by which those comments must be received is stated at the beginning of this preamble.

Changes

In the notice of proposed rulemaking, the proposed departure was stated as follows: "When an IRB reviews research that deals with handicapped children or mentally disabled persons, the IRB must include at least one person primarily concerned with the welfare of the research subjects." The Secretary has decided to change this language in the program-specific regulations adopted in this document to make clear that the regulation specifically protects handicapped children and mentally disabled persons when those persons are purposefully included in a research protocol, rather than incidentally. Therefore, the language has been changed to state: "When an IRB reviews research that purposefully requires inclusion of handicapped children or mentally disabled persons in the research sample, the IRB must include at least one person primarily concerned with the welfare of the research subjects."

Executive Order 12291

These regulations have been reviewed in accordance with Executive Order 12291. They are not classified as major because they do not meet the criteria for major regulations established under the Order.

Regulatory Flexibility Act Certification

The Secretary certifies that these interim final regulations will not have a significant economic impact on a substantial number of small entities.

The small entities that are affected by these interim final regulations are small institutions receiving research grants or contracts under the programs of the National Institute on Disability and Rehabilitation Research. However, the regulations do not have a significant economic impact on these entities because the regulations do not impose excessive regulatory burdens. These regulations impose minimal requirements that are necessary to ensure the proper treatment of handicapped children and mentally disabled persons under the programs of the National Institute on Disability and Rehabilitation Research.

Invitation To Comment

Interested persons are invited to submit comments and recommendations regarding these interim final regulations. Comments are specifically invited on whether other research programs of the Department should have added protections for handicapped children and mentally disabled persons.

All comments submitted in response to these regulations will be available for public inspection, during and after the comment period, in room 3127, 400 Maryland Avenue, SW., Washington, DC between the hours of 9 a.m. and 4:30 p.m., Monday through Friday of each week except Federal holidays.

To assist the Department in complying with the specific requirements of Executive Order 12291 and the Paperwork Reduction Act of 1980 and their overall requirement of reducng regulatory burden, the Secretary invites comment on whether there may be further opportunities to reduce any regulatory burdens found in these interim final regulations.

Assessment of Educational Impact

The Secretary has determined that the regulations in this document do not require transmission of information that is being gathered by or is available from any other agency or authority of the United States.

List of Subjects

34 CFR Part 350

Education, Education of the handicapped, Educational research, Grant programs—education.

34 CFR Part 356

Education, Education research, Fellowships.

(Catalog of Federal Domestic Assistance Number does not apply.)

Dated: June 6, 1991.

Lamar Alexander,

Secretary of Education.

The Secretary amends title 34 of the Code of Federal Regulations by amending parts 350 and 356 as follows:

PART 350—DISABILITY AND REHABILITATION RESEARCH: GENERAL PROVISIONS

3. The authority citation for part 350 continues to read as follows:

Authority: 29 U.S.C. 760–762, unless otherwise noted.

4. Section 350.3 is amended by revising paragraph (d) and the authority citation at the end of the section to read as follows:

§ 350.3 What regulations apply to these programs?

* * * * *

(d)(1) The regulations in 34 CFR part 97, PROTECTION OF HUMAN SUBJECTS, except § 97.107(a).

(2) Each Institutional Review Board (IRB) established under part 97 must have at least five members, with varying backgrounds to promote complete and adequate review of research activities commonly conducted by the institution. The IRB must be sufficiently qualified through the experience and expertise of its members, and the diversity of the members, including consideration of race, gender, and cultural backgrounds, and sensitivity to such issues as community attitudes, to promote respect for its advice and counsel in safeguarding the rights and welfare of human subjects. In addition to possessing the professional competence necessary to review specific research activities, the IRB must be able to ascertain the acceptability of proposed research in terms of institutional commitments and regulations, applicable law, and standards of professional conduct and practice. The IRB must therefore include persons knowledgeable in these areas. When an IRB reviews research that purposefully requires inclusion of handicapped children or mentally disabled persons as research subjects, the IRB must include at least one person primarily concerned with the welfare of these research subjects. If an IRB regularly reviews another vulnerable category of subjects, such an non-handicapped children, prisoners, pregnant women, or handicapped adults, consideration must also be given to the inclusion of one or more individuals who are knowledgeable about the experience in working with these subjects.

(Authority: 20 U.S.C. 761a, 762, 42 U.S.C. 300v-1(b))

PART 356—DISABILITY AND REHABILITATION RESEARCH: RESEARCH FELLOWSHIPS

1. The authority citation for part 356 continues to read as follows:

Authority: 29 U.S.C. 761a(d), unless otherwise noted.

2. Section 356.3 is amended by revising paragraph (c) and the authority citation at the end of the section to read as follows:

§ 356.3 What regulations apply to this program?

* * * * *

(c)(1) The regulations in 34 CFR part 97, PROTECTION OF HUMAN SUBJECTS, except § 97.107(a).

(2) Each Institutional Review Board (IRB) established under part 97 must have at least five members, with varying backgrounds to promote complete and adequate review of research activities commonly conducted by the institution. The IRB must be sufficiently qualified through the experience and expertise of its members, and the diversity of the members, including consideration of race, gender, and cultural backgrounds, and sensitivity to such issues as community attitudes, to promote respect for its advice and counsel in safeguarding the rights and welfare of human subjects. In addition to possessing the professional competence necessary to review specific research activities, the IRB must be able to ascertain the acceptability of proposed research in terms of institutional commitments and regulations, applicable law, and standards of professional conduct and practice. The IRB must therefore include persons knowledgeable in these areas. When an IRB reviews research that purposefully requires inclusion of handicapped children or mentally disabled persons as research subjects, the IRB must include at least one person primarily concerned with the welfare of these research subjects. If an IRB regularly reviews another vulnerable category of subjects, such as non-handicapped children,

VOL 56 ISS 117 JE 18 1991 UMI

prisoners, pregnant women, or handicapped adults, consideration must also be given to the inclusion of one or more individuals who are knowledgeable about and experienced in working with these subjects.

(Authority: 29 U.S.C. 761a(d), 42 U.S.C. 300v-1(b))

BILLING CODE 4000-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

45 CFR Part 46

Federal Policy for the Protection of Human Subjects: Additional Protections for Children Involved as Subjects in Research

AGENCY: Department of Health and Human Services.

ACTION: Technical amendment.

SUMMARY: This technical amendment is to correct a reference in 45 CFR part 46 subpart D (Additional Protection for Children Involved as Subjects in Research) to subpart A of that part of the Federal Register.

In the revision to subpart A, published elsewhere in this issue, the numbering of exemptions in 45 CFR part 46.101(b) changes.

The reference to those exemptions in subpart D 45 CFR part 46.401(b) is now amended accordingly.

EFFECTIVE DATE: This regulation shall become effective on August 19, 1991.

FOR FURTHER INFORMATION CONTACT: Dr. Joan P. Porter, staff Director, Interagency Human Subjects Coordinating Committee, building 31, room 5B59, Bethesda, Maryland 20892 Telephone (301) 496-7005.

List of Subjects in 45 CFR Part 46

Human subjects, Research, Reporting and record-keeping requirements, Infants and children.

PART 46—PROTECTION OF HUMAN SUBJECTS

1. The authority for part 46 is revised to read:

Authority: 5 U.S.C. 30; Sec. 474(a), 88 Stat. 352 [42 U.S.C. 289*-3(a)].

2. In subpart D—Additional Protections for Children Involved as Subjects in Research, § 46.401, paragraph (b) is revised to read as follows:

§ 46.401 To what do these regulations apply?

* * * * *

(b) Exemptions at § 46.101(b)(1) and (b)(3) through (b)(6) are applicable to this subpart. The exemption at § 46.101(b)(2) regarding educational tests is also applicable to this subpart. However, the exemption at § 46.101(b)(2) for research involving survey or interview procedures or observations of public behavior does not apply to research covered by this subpart, except for research involving observation of public behavior when the investigator(s) do not participate in the activities being observed.

* * * * *

Dated: March 29, 1991.

Louis W. Sullivan,

Secretary of Health and Human Services.

The authentic text behind the news . . .

The Weekly Compilation of **Presidential Documents**

Administration of George Bush

This unique service provides up-to-date information on Presidential policies and announcements. It contains the full text of the President's public speeches, statements, messages to Congress, news conferences, personnel appointments and nominations, and other Presidential materials released by the White House.

The Weekly Compilation carries a Monday dateline and covers materials released during the preceding week. Each issue contains an Index of Contents and a Cumulative Index to Prior Issues.

Separate indexes are published periodically. Other features include lists of acts approved by the President, nominations submitted to the Senate, a checklist of White House press releases, and a digest of other Presidential activities and White House announcements.

Published by the Office of the Federal Register, National Archives and Records Administration.

The United States Government Manual 1990/91

As the official handbook of the Federal Government, the *Manual* is the best source of information on the activities, functions, organization, and principal officials of the agencies of the legislative, judicial, and executive branches. It also includes information on quasi-official agencies and international organizations in which the United States participates.

Particularly helpful for those interested in where to go and who to see about a subject of particular concern is each agency's "Sources of Information" section, which provides addresses and telephone numbers for use in obtaining specifics on consumer activities, contracts and grants, employment, publications and films, and many other areas of citizen interest. The *Manual* also includes comprehensive name and agency/subject indexes.

Of significant historical interest is Appendix C, which lists the agencies and functions of the Federal Government abolished, transferred, or changed in name subsequent to March 4, 1933.

The *Manual* is published by the Office of the Federal Register, National Archives and Records Administration.

Rev 1-91

The Federal Register

Regulations appear as agency documents which are published daily in the **Federal Register** and codified annually in the **Code of Federal Regulations**

The Federal Register, published daily, is the official publication for notifying the public of proposed and final regulations. It is the tool for you to use to participate in the rulemaking process by commenting on the proposed regulations. And it keeps you up to date on the Federal regulations currently in effect.

Mailed monthly as part of a **Federal Register** subscription are: the LSA (List of CFR Sections Affected) which leads users of the **Code of Federal Regulations** to amendatory actions published in the daily **Federal Register**; and the cumulative **Federal Register Index.**

The **Code of Federal Regulations** (CFR) comprising approximately 196 volumes contains the annual codification of the final regulations printed in the **Federal Register**. Each of the 50 titles is updated annually.

Individual copies are seperately priced. A price list of current CFR volumes appears both in the **Federal Register** each Monday and the monthly LSA (List of CFR Sections Affected). Price inquiries may be made to the Superintendent of Documents, or the Office of the Federal Register.

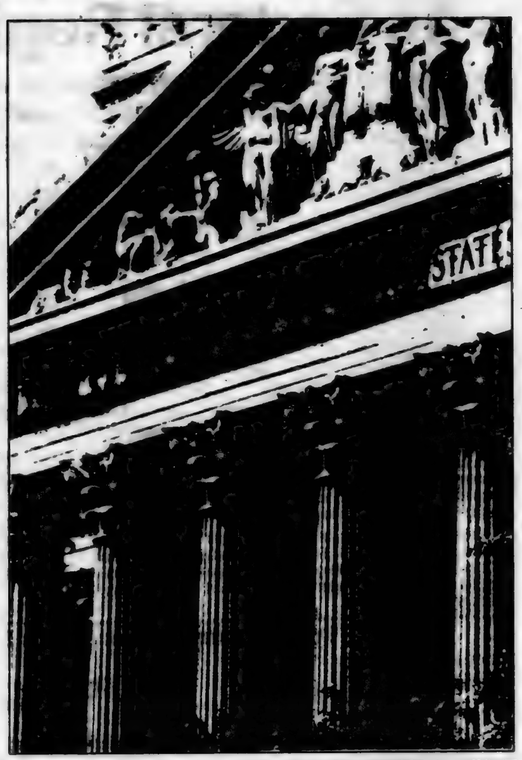
Would you like to know...

if any changes have been made to the Code of Federal Regulations or what documents have been published in the Federal Register without reading the Federal Register every day? If so, you may wish to subscribe to the *LSA (List of CFR Sections Affected)*, the *Federal Register Index*, or both.

LSA • List of CFR Sections Affected



The LSA (List of CFR Sections Affected) is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. The LSA is issued monthly in cumulative form. Entries indicate the nature of the changes—such as revised, removed, or corrected.
$21.00 per year

Federal Register Index

The index, covering the contents of the daily Federal Register, is issued monthly in cumulative form. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references.
$19.00 per year.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Note to FR Subscribers:
FR Indexes and the LSA (List of CFR Sections Affected) are mailed automatically to regular FR subscribers.

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The seal of the National Archives and Records Administration authenticates this issue of the **Federal Register** as the official serial publication established under the Federal Register Act. 44 U.S.C. 1507 provides that the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** will be furnished by mail to subscribers for $340 per year in paper form; $195 per year in microfiche form; or $37,500 per year for the magnetic tape. Six-month subscriptions are also available at one-half the annual rate. The charge for individual copies in paper or microfiche form is $1.50 for each issue, or $1.50 for each group of pages as actually bound, or $175.00 per magnetic tape. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, or charge to your GPO Deposit Account or VISA or Mastercard.

There are no restrictions on the republication of material appearing in the **Federal Register**.

How To Cite This Publication: Use the volume number and the page number. Example: 56 FR 12345.

THE FEDERAL REGISTER
WHAT IT IS AND HOW TO USE IT

FOR: Any person who uses the Federal Register and Code of Federal Regulations.

WHO: The Office of the Federal Register.

WHAT: Free public briefings (approximately 3 hours) to present:
1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
2. The relationship between the Federal Register and Code of Federal Regulations.
3. The important elements of typical Federal Register documents.
4. An introduction to the finding aids of the FR/CFR system.

WHY: To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

Rules and Regulations

Federal Register
Vol. 56, No. 118
Wednesday, June 19, 1991

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation

7 CFR Part 1421

Grain and Similarly Handled Commodities

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Final rule; correction.

SUMMARY: This action corrects two provisions which were erroneously stated in the final rule published on May 2, 1991 (56 FR 20101). Generally, that final rule amended the manner in which producers may participate in the Commodity Credit Corporation (CCC) price support programs for wheat, feed grains, rice, oilseeds (including soybeans), and farm-stored peanuts and the terms and conditions of CCC price support programs for wheat, feed grains, rice, oilseeds, and farm-stored peanuts, and specified the CCC price support loan eligibility quality requirements for the 1991 and subsequent year's crops.

EFFECTIVE DATE: June 19, 1991.

FOR FURTHER INFORMATION CONTACT: Steve P. Gill, Agricultural Marketing Specialist, Commodity Operations Division, Agricultural Stabilization and Conservation Service (ASCS), United States Department of Agriculture (USDA), P.O. Box 2415, Washington, DC 20013. Telephone (202) 447-6500.

SUPPLEMENTARY INFORMATION: This final rule has been reviewed under USDA procedures established in accordance with Executive Order 12291 and Secretary's Memorandum No. 1512-1 and it has been determined to be "non-major" because these program provisions will not result in: (1) An annual effect on the economy of $100 million or more; (2) a major increase in costs or prices for consumers, individual industries, Federal, State or local governments, or geographic regions; or (3) significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The title and number of the federal assistance program, as found in the catalogue or Federal Domestic Assistance, to which this final rule applies is Commodity Loans and Purchases, 10.051.

It has been determined that the Regulatory Flexibility Act is not applicable because CCC is not required by 5 U.S.C. 553 or any other provision of law to publish a notice of proposed rule making with respect to the subject matter of these determinations.

It has been determined by environmental evaluations for the wheat, feed grain, rice, oilseed, and farm-stored peanuts CCC price support programs that these programs will have no significant impact on the quality of the human environment.

These programs are not subject to the provisions of Executive Order 12372, which requires intergovernmental consultation with State and local officials. See the Notice related to 7 CFR part 3015, subpart V, and 48 FR 29115 (June 24, 1983).

Public reporting burden for the information collections contained in this final rule with respect price support programs for wheat, feed grain, rice, oilseeds, and farm-stored peanuts is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The information collection has previously been cleared by the Office of Management and Budget, assigned number 0560-0087.

Background

A final rule was published in the Federal Register on May 2, 1991, at 56 FR 20101 which amended regulations found at 7 CFR part 1421 with respect to the price support program for wheat, feed grain, rice, oilseeds, and farm-stored peanuts which is conducted by CCC. In amending the provisions which govern the CCC price support program, CCC erroneously stated 20/64 instead of 14/64 in setting forth the sieve size requirement for sunflower seed used for a purpose other than to extract oil and omitted the word "not" in stating how the adjusted world price (AWP) for canola will be determined. Also, the sieve size requirement is being revised for clarity. Accordingly, this final rule amends 7 CFR part 1421 to provide that (1) sunflower seed used for a purpose other than to extract oil must pass over a 14/64" round hole screen and (2) if major f.o.b. export market price quotations for canola are not available for one or more days in the 30-day period ending the Friday prior to announcement, the available quotations during the period will be used.

List of Subjects in 7 CFR Part 1421

Grains, Loan programs/agriculture, Price support programs, Warehouses.

Correction to Final Rule

Accordingly, 7 CFR part 1421 is amended as follows:

PART 1421—GRAINS AND SIMILARLY HANDLED COMMODITIES

1. The authority citation for 7 CFR part 1421 continues to read as follows:

Authority: 7 U.S.C. 1421, 1423, 1425, 1441z, 1444f-1, 1445b-3a, 1445o-3, 1445e, and 1446f; 15 U.S.C. 714b and 714c.

2. Section 1421.18 is amended by revising paragraph (b)(15)(ii)(A) to read as follows:

§ 1421.18 Warehouse-stored loans.

* * * * *

(b) * * *

(15) * * *

(ii) * * *

(A) The sunflower seed must pass over a 14/64" round hole screen.

* * * * *

3. Section 1421.25 is amended by revising the second sentence of paragraph (c)(5)(i) to read as follows:

§ 1421.25 Market price repayments.

* * * * *

(c) * * *

(5) * * *

(i) * * * If price quotations are not available for one or more days in the 30-day period ending the Friday prior to announcement, the available quotations during the period will be used. * * *

BILLING CODE 3410-05-M

7 CFR Part 1435

Sugar Assessments

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Interim rule.

SUMMARY: This interim rule sets forth the regulations necessary for the collection of the nonrefundable marketing assessment imposed on sugar processed from domestically grown sugar beets and sugarcane as required by amendments made by the Omnibus Budget Reconciliation Act of 1990 (the "Reconciliation Act") to the Agricultural Act of 1949 (the "1949 Act").

DATES: Effective date: June 19, 1991.

Comments must be received on or before July 19, 1991 in order to be assured of consideration.

ADDRESSES: Interested persons are invited to submit written comments concerning this interim rule. Comments should be mailed or delivered to Bruce R. Weber, Director, Commodity Analysis Division, Agricultural Stabilization and Conservation Service, room 3741, South Agriculture Building, U.S. Department of Agriculture, Washington, DC 20250. Comments received may also be inspected at room 3741 beween 9 a.m. and 4:30 pm., Monday through Friday except holidays.

FOR FURTHER INFORMATION CONTACT: Matt Smargiasso, Financial Management Division, Agricultural Stabilization and Conservation Service; telephone: (202) 382-0011.

SUPPLEMENTARY INFORMATION: This interim rule has been reviewed under United States Department of Agriculture (USDA) procedures implementing Executive Order 12291 and Departmental Regulation 1512-1 and has been classified as "not major". It has been determined that the provisions of this interim rule will not result in: (1) An annual effect on the economy of $100 million or more; (2) major increases in costs or prices for consumers, individual industries, Federal, State or local government agencies, or geographic regions; or (3) significant adverse effects on competition, employment, investment, productivity, innovation or on the ability of United States-based enterprises to compete in domestic or export markets.

The Executive Vice President, Commodity Credit Corporation (CCC) certifies that this interim rule will not have a significant economic impact on a substantial number of small entities. Consequently, a regulatory flexibility analysis is not required under the provisions of the Regulatory Flexibility Act.

It has been determined by an environmental evaluation that this action will not have a significant impact on the quality of the human environment. Therefore, an Environmental Assessment and an Environmental Impact Statement are not necessary for this interim rule.

The title and number of the Federal Assistance Program, as found in the Catalog of Federal Domestic Assistance, to which this interim rule applies are: Commodity Loan Purchases; 10.051.

This interim rule requires an information collection form CCC-80, see Attachment 1, which is subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1980 (44 U.S.C. chapter 35). ASCS has requested OMB to approve the information collection under expedited review before this rule is final. The public reporting burden for these collections of information is estimated to vary from 60 to 120 minutes per response, with an average of 90 minutes per response including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

The program covered by this interim rule is not subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with State and local officials. See the notice related to 7 CFR part 3015, subpart V, published at 48 FR 29115 (June 24, 1983).

The provisions of this rule are effective upon publication in the **Federal Register** since the Reconciliation Act requires the imposition of assessments on the 1991 crops of raw cane sugar and beet sugar which will soon be processed. However, comments are requested and will be taken into consideration in developing the final rule.

Statutory Background

Section 1105 of the Reconciliation Act amended section 206 of the 1949 Act to provide that for the 1991 through 1995 crops of sugarcane and sugar beets, the first processor shall remit to CCC a nonrefundable marketing assessment in an amount equal to .18 cents per pound of raw cane sugar and .193 cents per pound of beet sugar, respectively. As amended, section 206 of the 1949 Act provides for the imposition of penalties if any person fails to: Collect or remit such funds; or comply with the record keeping requirements which are necessary to ensure that such collections or remittances are made. Generally, the interim rule provides as follows:

1. *Area of coverage.* The marketing assessments apply to all first processors of domestically grown sugar beets and sugarcane operating in the 50 United States, the several territories, the District of Columbia, and Puerto Rico.

2. *Marketing Assessment Payable.* The marketing assessment shall be payable on beet sugar and raw cane sugar or an alternative sugar product processed from domestically grown 1991–1995 crops of sugar beets and sugarcane. "Domestically grown" refers to sugar beets and sugarcane grown in the areas identified in the previous paragraph.

3. *Time for Remittance.* Remittances will be due by the end of the month following the month in which the sugar beets or sugarcane were processed after June 30, 1991 until July 1, 1996.

List of Subjects in 7 CFR Part 1435

Loan programs/agriculture, Price support programs, Reporting and recordkeeping requirements, Sugar.

PART 1435— SUGAR

1. The authority citation for 7 CFR part 1435 is revised to read as follows:

Authority: 7 U.S.C. 1421, 1423, 144bg; 15 U.S.C. 714b and 714c.

2. Subpart—Regulations Governing the Protection of Sugar Producers (§§ 1435.200–1435.206) is revised to read as follows:

Subpart—Assessments

Sec.

1435.200 General statement.
1435.201 Definitions.
1435.202 Amount of the marketing assessment.
1435.203 Remittance.
1435.204 Penalty.
1435.205 Maintenance and inspection of records.
1435.206 Refunds.

Subpart—Assessments

§ 1435.200 General statement.

(a) This subpart sets forth the terms and conditions for the payment to the Commodity Credit Corporation of marketing assessments for the 1991 through 1995 crops of sugar beets and sugarcane.

(b) The marketing assessment applies to:

(1) All raw cane sugar or alternative sugar products processed from domestically produced sugarcane during the 1991 through 1995 crop years; and

(2) All beet sugar or alternative products processed from domestically produced sugar beets during the 1991 through 1995 crop years.

(c) All first processors of sugar beets and sugarcane are responsible to remit the marketing assessment. The marketing assessment shall be due and payable to the Commodity Credit Corporation by the last day of the calendar month following the month in which the sugarcane and sugar beets were processed.

§ 1435.201 Definitions.

Alternative products means sweeteners derived from sugar beets and sugarcane that CCC determines may be computed to a beet sugar or raw cane sugar equivalent for purposes of determming an assessment due CCC. Examples include, but are not limited to, liquid sucrose and cane syrup. Alternative products will be converted by weight, in accordance with the formula set forth in this part which is used to administer the CCC sugar price support loan program, in order to determine the assessment due CCC.

Beet sugar means a product derived from processing sugar beets.

First Processor means a person who commercially processes sugar beets and sugarcane into beet sugar, raw cane sugar, alternative products such as, but not limited to, liquid sucrose, cane syrup, molasses, or other products used as sweeteners.

Intermediate products means a compound such as a sucrose syrup that can be stored until being further processed into sugar or until used in its alternative form. The assessment is payable after the intermediate product is converted to beet sugar, raw cane sugar, or used in its alternative form, rather than when the intermediate product is processed.

Raw cane sugar means a product derived from processing sugarcane

§ 1435.202 Amount of the marketing assessment.

(a) First processors shall prepare a form CCC-80 each month that shows the quantity of:

(1) Beet sugar processed;

(2) Raw cane sugar processed;

(3) Alternative products processed;

(4) And intermediate products processed during the previous calendar month.

(b) The amount of the beet sugar marketing assessment to be remitted shall be the sum determined by multiplying the number of pounds, or in the case of alternative products equivalent pounds, of beet sugar processed from domestically produced sugar beets in a calendar month by .193 cents per pound. The amount of such pounds shall be specified on form CCC-80.

(c) The amount of the marketing assessment on raw cane sugar to be remitted to CCC shall be the sum determined by multiplying the number of pounds of raw cane sugar, or in the case of alternative products equivalent pounds, processed from domestically grown sugarcane in a calendar month by .18 cents per pound. The amount of such pounds shall be specified on form CCC-80.

§ 1435.203 Remittance.

Marketing assessments shall be remitted on a monthly basis and shall be due and payable to the CCC by the last day of the month following the month in which the sugar beets or sugarcane were processed. Remittances not received by the last day of the calendar month following the month the sugar beets or sugarcane were processed will be considered late and the processor shall be assessed a penalty in accordance with § 1435.204. Sugar processors shall send the remittance as specified by CCC.

§ 1435.204 Penalty.

A penalty equal to 100 percent of the price support loan rate shall be assessed on all assessment amounts a processor fails to remit to CCC. A penalty equal to 100 percent of the price support loan rate shall be assessed on any deficiencies in assessments payable to CCC, as determined by CCC, due to the processor failing to maintain adequate documentation to support the payment of the marketing assessment. In addition to the penalty, interest on unpaid assessments or deficiencies in assessments paid shall be collected from the date the marketing assessment was due CCC at the rate specified in part 1403 of this chapter beginning on the first day of the month after the payment is due in accordance with § 1435.203 and such interest shall continue to accrue until such amount is paid. Interest shall be charged for amounts that are not received by the required date; however if the payment is received within 30 days, no penalty shall apply.

§ 1435.205 Maintenance and inspection of records.

Representatives of CCC shall have the right to have access to the premises of the processor in order to inspect, examine, and make copies of the books, records, accounts, and other data as are deemed necessary by CCC or CCC's agents to verify compliance with the requirements of this subpart. Such books, records, accounts, and other written data shall be retained by the processor for not less than three years from the date the remittance is made to CCC.

§ 1435.206 Refunds.

Marketing assessments are nonrefundable. However, upon presentation of acceptable evidence to the Controller, CCC, as determined by CCC, adjustments in an assessment may be made by CCC to reflect the actual processing of raw cane sugar or beet sugar by the processor.

Note: The following Attachment 1 will not appear in the Code of Federal Regulations.

Signed at Washington, DC June 13, 1991 by:

Keith D. Bjerke,

Executive Vice President, Commodity Credit Corporation.

Attachment 1

Form Approved - OMB No. 0560-XXXX

CCC-80 (PROPOSAL 1) — U.S. DEPARTMENT OF AGRICULTURE, Commodity Credit Corporation

SUGAR PROCESSOR REPORT OF MONTHLY PRODUCTION TO DETERMINE ASSESSMENT DUE COMMODITY CREDIT CORPORATION (CCC)

1. PRODUCTION PERIOD — A. MONTH — B. YEAR

NOTE: The following statements are made in accordance with the Privacy Act of 1974 (5 USC 552a). This report is authorized by 7 CFR Part 1435, this information is necessary for the collection of the nonrefundable marketing assessment imposed on sugar processed from domestically grown sugar beets and sugarcane as required by amendments made by the Omnibus Budget Reconciliation Act of 1990 (the "Reconciliation Act") to the Agricultural Act of 1949. Furnishing the data is required; however, without it a penalty equal to 100 percent of the loan rate shall be assessed on any deficiencies in assessments payable to CCC, as determined by CCC, due to the processor failing to maintain adequate documentation to support the payment of the marketing assessment. This information may be furnished to any agency responsible for enforcing the provisions of the Act. Public reporting burden for this collection of information is estimated to average 65 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate, or any other aspect of this collection of information, including suggestions for reducing this burden, to the Department of Agriculture, Clearance Officer, OIRM, Room 404-W, Washington, D.C. 20250, and to the Office of Management and Budget, Paperwork Reduction Project (OMB No. 0560-XXXX), Washington, D.C. 20503. BILLING CODE 3410-05-C

7 CFR Part 1494

Export Bonus Programs

AGENCY: Commodity Credit Corporation, USDA.

ACTION: Interim rule with request for comments; suspension of subpart D.

SUMMARY: The Commodity Credit Corporation (CCC) is suspending the regulations at title 7, chapter XIV, part 1494, subpart D, Dairy Export Incentive Program Operations, which were published in the **Federal Register** on June 7, 1991 (56 FR 26323–26325). This suspension of subpart D will allow CCC time to re-qualify exporters for program participation before it implements the new program operations regulations.

EFFECTIVE DATE: Subpart D, published at 56 FR 26323–26325, dated June 7, 1991, is suspended until July 3, 1991.

FOR FURTHER INFORMATION CONTACT: William Hawkins at (202) 245–1635.

SUPPLEMENTARY INFORMATION: On June 7, 1991, CCC published an interim rule with request for comments in the **Federal Register**. This interim rule established in the form of regulations the criteria considered in evaluating and approving proposals for country and commodity initiatives under the Export Enhancement Program (EEP) and the Dairy Export Incentive Program (DEIP). The criteria for the EEP and the DEIP are found in subparts A and C, respectively, of 7 CFR Part 1494. This interim rule also established program operations regulations for the DEIP in subpart D. Program operations regulations for the EEP were already codified at subpart B.

The effective date for the interim rule was shown as the date of publication, June 7, 1991. This will remain the effective date for subparts A and C. However, CCC must re-qualify exporters for program participation before the program operations provisions in subpart D are implemented. In addition, subpart D is based upon subpart B, which was published in the **Federal Register** as a final rule on June 3, 1991 (56 FR 25005) but which will not become effective until July 3, 1991.

For the reasons stated above, title 7, chapter XIV, part 1494, subpart D, published at 56 FR 26323–26325, dated June 7, 1991, is suspended until July 3, 1991.

Signed this 13th day of June, 1991 at Washington, DC.

F. Paul Dickerson,

General Sales Manager and Vice President, Commodity Credit Corporation.

BILLING CODE 3410-10-M

Farmers Home Administration

7 CFR Parts 1930, 1948, 1951, and 1965

Processing Multiple Family Housing Payments

AGENCY: Farmers Home Administration, USDA.

ACTION: Final rule.

SUMMARY: The Farmers Home Administration (FmHA) is amending its regulations to reflect changes in the internal processing of collections for Multiple Family Housing loans. Prior to this change, project payments were converted to a paper based form and mailed to a central point for data conversion. This caused a delay of 4 to 15 days before the payment was processed to the account, often causing current accounts to appear delinquent on reports and in statements mailed to borrowers. The intended effect is to allow payments to be credited to the account overnight, thus assuring accurate reporting and statements.

EFFECTIVE DATE: June 19, 1991.

FOR FURTHER INFORMATION CONTACT: Jeanine Johnson, Senior Loan Specialist, Farmers Home Administration, U.S. Department of Agriculture, room 5328, South Agriculture Building, Washington, DC 20250, Telephone (202) 382–9729.

SUPPLEMENTARY INFORMATION: This final rule has been reviewed under USDA procedures established in Departmental Regulation 1512–1 which implements Executive Order 12291, and, since this action has no impact on FmHA borrowers or other members of the public, it has been determined to be exempt from those requirements because it involves only internal agency management. It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts shall be published for comment notwithstanding exemption in 5 U.S.C. 553 with respect to such rules. This action, however, is not published for proposed rulemaking since it involves internal agency management and publication for comment is unnecessary.

This document has been reviewed in accordance with 7 CFR Part 1940, Subpart G, Environmental Program. It is the determination of FmHA that this action does not constitute a major Federal Action significantly affecting the quality of the human environment and, in accordance with the National Environmental Policy Act of 1969, Public Law 91–190, an Environmental Impact Statement is not required.

For reasons set forth in the final rule related to Notice 7 CFR part 3015, subpart V (48 FR 29115, June 24, 1983), and FmHA Instruction 1940–J, "Intergovernmental Review of Farmers Home Administration Programs and Activities" (December 23, 1983), this activity is related to the following programs that are subject to intergovernmental consultations with State and local officials:

10.405—Farm Labor Housing Loan and Grants
10.411—Rural Housing Site Loans (Section 523 and 524 Site Loans)
10.415—Rural Rental Housing Loans
10.427—Rural Rental Assistance Payment (Rental Assistance)

List of Subjects

7 CFR Part 1930

Accounting, Administrative practice and procedure, Grant programs—Housing and community development, Loan programs—Housing and community development, Low and moderate income housing—Rental, Reporting requirements.

7 CFR Part 1948

Business and industry, Coal, Community development, Community facilities, Energy, Grant programs—Housing and community development, Housing, Nuclear energy, Planning, Rural areas, and Transportation.

7 CFR Part 1951

Accounting, Credit, Loan programs—Agriculture, Loan programs—Housing and community development, Low and moderate income housing loans—Servicing, Mortgages, Collection of loan payments and depositing payment through the Concentration Banking System (CBS), Financial Institutions.

7 CFR Part 1965

Administrative practice and procedure, Low and moderate income housing—Rental, Mortgages.

Therefore, chapter XVIII, title 7, Code of Federal Regulations is amended as follows:

PART 1930—GENERAL

1. The authority citation for part 1930 is amended to read as follows:

Authority: 42 U.S.C. 1480; 7 CFR 2.23; 7 CFR 2.70.

Subpart C—Management and Supervision of Multiple Family Housing Borrowers and Grant Recipients

2. Exhibit E is amended by removing VII D and revising paragraphs X.A.2.a.(3), X.A.2.b and X.B.1. to read as follows:

VOL 56 ISS 118 1991 JE 19 UMI

Exhibit E of Subpart C—Rental Assistance Program

X. * * *
A. * * *
2. * * *
a. * * *
(3) Enter the payment data via field office terminals as required in Exhibit A to subpart K of part 1951 (available in any FmHA office).
b. The District Director should verify the accuracy of the borrower's servicing address shown on the Finance Office (FO) record. When the address shown is incorrect, corrections must be made on Automated Multi-Housing Accounting System (AMAS) Screen M5A "Record Borrower/Project Data" via a field computer terminal.
B. * * *
1. As part of the servicing plan, the District Director may agree to releasing a portion of the monthly RA for project operations.
* * * * *

3. Exhibit E is further amended in the introductory text of paragraph XIV A by revising the first sentence and removing the second sentence and by revising paragraphs XV.A.1.b., XV.A.1.c. and XV.A.1.d. to read as follows:

XIV. * * *
A. When a project's obligated funds are fully disbursed under any given RA agreement number, RA will be automatically terminated by the Finance Office and no further RA requests will process against that RA agreement number. * * *
* * * * *
XV. * * *
A. * * *
1. * * *
b. The District Director will notify the borrower in writing.
c. With a suspend code on the project record, entered by the State Director through the AMAS M5A screen, the Finance Office will suspend all RA payments to the affected project.
d. The State Director may reinstate the RA to the same borrower in the same project, by removing the suspend code from the M5A screen through a field office terminal.
* * * * *

4. Exhibit H is amended by revising the introductory text of paragraph IX. and paragraph IX. A. 2. to read as follows:

Exhibit H of Subpart C—Interest Credits on Insured RRH and RCH Loans

IX. *Loan Payments:* With each payment made, the borrower will complete Form FmHA 1944–29. The FmHA representative will process the payment as required in subparts B and K of part 1951 of this chapter.
A. * * *
2. When a payment is made for any month that involves a rental surcharge, Form FmHA 1944–29 will be completed with the amount of the surcharge being inserted in the spaces provided. This form will be completed and the amount reported as a charge on the project account regardless of whether the surcharge is actually collected by the borrower.
* * * * *

PART 1948—RURAL DEVELOPMENT

5. The authority citation for part 1948 continues to read as follows:

Authority: 7 U.S.C. 1989; 7 CFR 2.23; 7 CFR 2.70.

Subpart B—Section 601—Energy Impacted Area Development Assistance Program

6. Section 1948.90 is amended by revising the last sentence of paragraph (b)(4) to read as follows:

§ 1948.90 Land transfers.

* * * * *
(b) * * *
(4) * * * Funds will be transmitted to the Finance Office in accordance with FmHA Instruction 1951–B, § 1951.58(k), available in FmHA offices.
* * * * *

PART 1951—SERVICING AND COLLECTIONS

7. The authority citation for part 1951 continues to read as follows:

Authority: 7 U.S.C. 1989; 42 U.S.C. 1480; 5 U.S.C. 301; 7 CFR 2.23; 7 CFR 2.70.

Subpart B—Collections

8. Section 1951.55 is revised to read as follows:

§ 1951.55 Receiving and processing collections.

FmHA offices receive borrower payments either through the mail or in person in the form of checks, money orders, and cash. Payments are recorded on the appropriate accounting forms which are Form FmHA 451–2, Form FmHA 1944–9, Form FmHA 1951–55, or a payment coupon. Forms FmHA 451–2 and FmHA 1944–9 are used to transmit accounting information to the Finance Office. Form FmHA 1951–55 is used to assemble payment information which the District Offices use to transmit MFH account information through field office terminals. In addition, the FmHA office records payments on a management system card, a servicing card, or a payment tracking form, as appropriate.

Subpart K—Predetermined Amortization Schedule System (PASS) Account Servicing

9. Section 1951.501 is amended by adding a new paragraph (d) to read as follows:

§ 1951.501 General.

* * * * *
(d) All MFH loan payments will be processed using Exhibit A of this subpart (available in any FmHA office).

10. Section 1951.506 is amended by revising paragraphs (a)(6) and (c) to read as follows:

§ 1951.506 Processing payments.

(a) * * *
(6) The District Director will certify that data on current tenant certifications held in the District Office supports claims on Form FmHA 1944–29. The District Director will transmit payments as directed in Exhibit A of this subpart (available in any FmHA office).
* * * * *
(c) *Uncollectible payment.* Uncollectible payments will be handled under subpart B of this part. The payment effective date for the replacement payment will be the date the replacement payment is received in the District Office, not the date of the original payment.

11. Section 1951.507 is amended by revising paragraph (e) to read as follows:

§ 1951.507 Maintaining borrower accounts.

* * * * *
(e) *Maintaining records of accounts in District Offices.* Records of accounts will be maintained in the District Office. Form FmHA 1905–6, "Management System Card—Multifamily Housing," or other system authorized by FmHA regulations will be maintained for each project. For projects on PASS, the Management System Card will be flagged with an orange signal between Position "5" and "RRH". Exhibit A–1 of this subpart (available in any FmHA office) should be used to track payments.

12. Section 1951.512 is revised to read as follows:

§ 1951.512 Changes in the application of loan payments.

District Office employees with State Director authorization according to § 1930.143 of subpart C to part 1039 of this chapter are authorized to approve reapplication of loan payments between accounts when payments have been applied in error. All authorization for reapplication of payments must conform to the policies expressed in this subpart. No change may be made if the loan is paid in full, the cancelled note or notes have been returned to the borrower, and the security instruments have been satisfied. The District Director will process the changes as prescribed in Exhibit A of this subpart (available in any FmHA office).

13. Section 1951.550 is revised to read as follows:

§ 1951.550 OMB control number.

The collection of information requirements in this regulation have been approved by the Office of Management and Budget and assigned OMB control number 0575–0106. Public reporting burden for this collection of information is estimated to be 15 minutes per response, with an average of 15 minutes per response including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Department of Agriculture, Clearance Office, OIRM, Room 404–W, Washington, DC 20250; and to the Office of Management and Budget, Paperwork Reduction Project (OMB #0575–0106), Washington, DC 20503.

PART 1965—REAL PROPERTY

14. The authority citation for part 1965 continues to read as follows:

Authority: 7 U.S.C. 1989; 42 U.S.C. 1480; 5 U.S.C. 301; 7 CFR 2.23 and 2.70.

Subpart B—Security Servicing for Multiple Housing Loans

15. Section 1965.65 is amended by revising paragraph (f)(14)(i) to read as follows:

§ 1965.65 Transfer of real estate security and assumption of loans.

* * * * *
(f) * * *
(14) * * *
(i) *Identification.* Payments received on the date of transfer will be remitted as Regular payments on Form FmHA 1951–55 "Collection Log." The payments will be credited to the transferor's borrower and project number when the payment should be credited prior to the transfer. The payments will be credited to the transferee's borrower and project number when the payment should be credited after the transfer.
* * * * *

16. Section 1965.100 is revised to read as follows:

§ 1965.100 OMB control number.

The collection of information requirements in this regulation have been approved by the Office of Management and Budget and have been assigned OMB control number 0575–0100. Public reporting burden for this collection of information is estimated to vary from 5 minutes to 4.25 hours per response, with an average of .60 hours per response including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Department of Agriculture, Clearance Officer, OIRM, Room 404–W, Washington, DC 20250; and to the Office of Management and Budget, Paperwork Reduction Project (OMB #0575–0100), Washington, DC 20503.
* * * * *

Dated: March 12, 1991.

La Verne Ausman,

Administrator, Farmers Home Administration.

BILLING CODE 3410–07–M

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

8 CFR Part 245

[INS Number: 1409–91]

RIN 1115–AB76

Adjustment of Status; Certain H–1 Nonimmigrant Nurses

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Interim rule with request for comments.

SUMMARY: This interim rule implements section 162(f) of the Immigration Act of 1990 (IMMACT 90), Public Law 101–649, November 29, 1990. The interim rule establishes procedures for the adjustment of status to that of lawful permanent resident for certain alien nurses, their spouses and children.

DATES: This interim rule is effective June 19, 1991. Written comments must be submitted on or before July 19, 1991.

ADDRESSES: Please submit written comments, in triplicate, to the Director, Policy Directives and Instructions Branch, Immigration and Naturalization Service, 425 I Street NW., room 5304, Washington, DC 20536. To ensure proper handling, please reference INS number 1409–91 on your correspondence.

FOR FURTHER INFORMATION CONTACT: Rita A. Boie, Senior Immigration Examiner, Adjudications Branch, Immigration and Naturalization Service, 425 I Street NW., room 7223, Washington, DC 20536, telephone (202) 514–5014.

SUPPLEMENTARY INFORMATION: The Immigration Nursing Relief Act of 1989, Public Law 101–238 (INRA), was enacted in response to the critical shortage of nurses in the United States. In addition to requiring medical facilities to develop, recruit and retain United States nurses, INRA allows certain alien nurses who were in the United States as of September 1, 1989, to adjust immigration status to that of lawful permanent residents, without regard to the numerical limitations generally applicable to preference immigrants.

Eligible aliens must have been in the United States as H–1 nonimmigrant registered nurses as of September 1, 1989, and employed as registered nurses in the United States for three or more years before filing for adjustment of status or must be the spouses or children of eligible nurses. All eligible aliens must apply for adjustment of status on or before March 15, 1995.

The original language of the INRA did not waive other provisions of the Immigration and Nationality Act (the Act) for either nurses or their family members. A significant number of potential INRA beneficiaries were subsequently found to be ineligible to become lawful permanent residents because they could not meet general statutory requirements for adjustment of status. Most were ineligible because they fell within the provisions of section 245(c) of the Act. Section 245(c) of the Act prohibits the adjustment of status of preference immigrants who have been employed without authorization, are not in lawful nonimmigrant status at the time the application for adjustment is filed, or have failed to continuously maintain lawful nonimmigrant status in the past.

The Service's original interim regulations relating to the adjustment of status provisions of the INRA were published at 55 FR 10395 and became effective March 16, 1990. The Service received numerous comments regarding the provisions of the original regulations. The Service received approximately 400 letters from concerned individuals and organizations. In addition, petitions were received containing the signatures of over 1,300 persons.

Almost all commenters urged the Service to extend the benefits of the INRA to family members residing abroad. Many also expressed concern about the provisions restricting the benefits of the INRA adjustment of status provisions to applicants who had

VOL 56 ISS 118 JE 19 1991 UMI

continually maintained lawful nonimmigrant status and who had not engaged in unauthorized employment in the United States. Several pointed out that, because of the extreme shortage of nurses and confusion regarding Service employment regulations, nurses were routinely encouraged to "moonlight" for health care facilities other than the petitioning hospital or clinic. Therefore, many otherwise eligible nurses would not be able to adjust status because of unauthorized employment. A few commenters requested clarification of specific portions of the regulations.

The IMMACT 90 amendments have significantly altered the provisions of the INRA. The Service is, however, limited by the terms of the amended INRA and cannot simply extend this benefit to applicants for immigrant visas. Other issues raised by many of the commenters are addressed by this rule.

Because of the volume of comments concerning the original interim regulation and the significant changes that must be made in order to implement the IMMACT 90 amendments, the Service is reissuing the INRA regulations in interim form and is again requesting public comment. Portions of the original INRA regulations not effected by IMMACT 90 are retained in this rule.

Section 162(f) of IMMACT 90 retroactively amends the INRA to allow additional alien nurses and accompanying family members to benefit from the adjustment of status provisions of the INRA. The IMMACT 90 amendments temporarily suspend portions of section 245(c) of the Act for INRA beneficiaries who apply for adjustment of status before the end of the transition period. The transition period will continue until October 17, 1991.

The IMMACT 90 amendments direct the Service to consider aliens who apply for adjustment of status under INRA before the end of the transition period, as meeting the Act's section 245(c) requirements of being in lawful nonimmigrant status and having continuously maintained lawful nonimmigrant status. The amendments also allow the Service to grant lawful permanent resident status to INRA adjustment applicants who were employed without authorization before November 29, 1990. These provisions apply to alien nurses and to their accompanying spouses and children.

The Service intends to further extend this consideration to employment taking place between November 29, 1990 and the end of the transition period. Taking this approach is necessary and appropriate, since it ensures the broadest implementation of the intent of Congress to provide for the adjustment of status of eligible nurses and their accompanying spouses and children.

The bars in section 245(c) of the Act will be reinstated after the transition period ends. An application filed after the end of the transition period will be denied if the alien engaged in unauthorized employment after November 29, 1990. The application will also be denied if the alien failed to maintain status (except through no fault of his or her own) after the end of the transition period.

The IMMACT 90 amendments are retroactive. An INRA beneficiary may file a motion to reopen an application for adjustment of status which had been denied prior to November 29, 1990, so that the application may be considered under the amended law.

The original regulation amended the list of technical violations of nonimmigrant status which will not cause an alien to be ineligible for adjustment of status. This provision, which added technical violations of nonimmigrant status committed by nurses who subsequently were reinstated to H–1 status in accordance with Public Law 101–658 (November 15, 1988) to the list, is retained in this rule.

Provisions of the original rule concerning eligibility, application period and the application have been reorganized and reworded in order to clarify the requirements for obtaining the adjustment of status benefits of the INRA.

The original rule also amended 8 CFR 245.1(f)(1) and 245.2(a)(5) to implement the INRA requirement that adjustment be accomplished under section 245 of the Act without the restrictions of sections 201 and 202 of the Act. These provisions are retained in the current rule.

This rule also makes organizational, grammatical and stylistic changes to 8 CFR part 245.

Compliance with 5 U.S.C. 553(d) as to notice of proposed rulemaking and delayed effective date are impracticable and unnecessary as the changes have been mandated by the passage of Public Law 101–649, (IMMACT 90) which retroactively amends Public Law 101–238 (INRA). Early implementation will allow alien nurses and their spouses and children to immediately obtain the additional benefits available to applicants for adjustment of status under the INRA.

In accordance with 5 U.S.C. 605(b), the Commissioner of the Immigration and Naturalization Service certifies that this rule does not have a significant economic impact on a substantial number of small entities. This rule is not a major rule within the meaning of section 1(b) of Executive Order 12291, nor does this rule have Federalism implications warranting the preparation of a Federalism Assessment in accordance with Executive Order 12612.

The information collection requirement contained in this regulation has been cleared by the Office of Management and Budget (OMB) under the provisions of the Paperwork Reduction Act. The OMB control number for this collection is contained in 8 CFR 299.5, Display of Control Numbers.

List of Subjects in 8 CFR Part 245

Aliens, Immigration, Reporting and recordkeeping requirements.

Accordingly, part 245 of chapter I of title 8 of the Code of Federal Regulations is amended as follows:

PART 245—ADJUSTMENT OF STATUS TO THAT OF PERSON ADMITTED FOR PERMANENT RESIDENCE

1. The authority citation for part 245 continues to read as follows:

Authority: 8 U.S.C. 1101, 1103, 1151, 1154, 1182, 1186a, 1255, and 1257; 8 CFR part 2.

2. In § 245.1, paragraphs (b) introductory text, (b)(4), (c)(1), (c)(2)(iv), (d)(3), (f)(1) are revised to read as follows:

§ 245.1 Eligibility.

* * * * *

(b) *Ineligible aliens.* The following categories of aliens are ineligible to apply for adjustment of status to that of a lawful permanent resident alien under section 245 of the Act:

* * * * *

(4) Any alien who, on or after January 1, 1977, was employed in the United States without authorization prior to filing an application for adjustment of status. This restriction shall not apply to an alien who is:

(i) An immediate relative as defined in section 201(b) of the Act;

(ii) A special immigrant as defined in section 101(a)(27)(H) of the Act;

(iii) Eligible for the benefits of Public Law 101–238 (the Immigration Nursing Relief Act of 1989) and files an application for adjustment of status on or before October 17; or

(iv) Eligible for the benefits of Public Law 101–238 (the Immigration Nursing Relief Act of 1989), and has not entered into or continued in unauthorized employment on or after November 29, 1990.

* * * * *

(c) * * *

(1) *Lawful Immigration Status.* For purposes of section 245(c)(2) of the Act, the term "lawful immigration status" will only describe the immigration status of an individual who is:

(i) In lawful permanent resident status;

(ii) An alien admitted to the United States in nonimmigrant status as defined in section 101(a)(15) of the Act, whose initial period of admission has not expired or whose nonimmigrant status has been extended in accordance with part 214 of this chapter;

(iii) In refugee status under section 207 of the Act, such status not having been revoked;

(iv) In asylee status under section 208 of the Act, such status not having been revoked;

(v) In parole status which has not expired, been revoked or terminated; or

(vi) Eligible for the benefits of Public Law 101–238 (the Immigration Nursing Relief Act of 1989) and files an application for adjustment of status on or before October 17, 1991.

(2) * * *

(iv) A technical violation resulting from the Service's application of the maximum five/six year period of stay for certain H–1 nurses only if the applicant was subsequently reinstated to H–1 status in accordance with the terms of Public Law 101–658 (Immigration Amendments of 1988).

* * * * *

(d) * * *

(3) Adjustment of certain nurses who were in H–1 nonimmigrant status on September 1, 1989 (Pub. L. 101–238)—

(i) *Eligibility.* An alien is eligible to apply for adjustment of status without regard to the numerical limitations of sections 201 and 202 of the Act if:

(A) The applicant was in the United States in the status of a nonimmigrant under section 101(a)(15)(H)(i) of the Act to perform services as a registered nurse as of September 1, 1989,

(B) The applicant has been employed in the United States as a registered nurse for an aggregate of three years prior to the date of application for adjustment of status,

(C) The applicant's continued employment as a registered nurse meets the standards established for certification described in section 212(a)(14) of the Act prior to June 1, 1991 or section 212(a)(5)(i) on or after June 1, 1991,

(D) The applicant is the beneficiary of a valid, unexpired visa petition filed in accordance with this chapter according him or her preference status under the provisions of the Immigration and Nationality Act, and

(E) The applicant properly files an application for adjustment of status under the provisions of section 245 of the Act.

(ii) *Application period.* To benefit from the provisions of Public Law 101–238 (the Immigration Nursing Relief Act of 1989), an alien must properly file an application for adjustment of status under section 245 of the Act on or before March 15, 1995.

(iii) *Application.* An applicant for the benefits of Public Law 101–238 must file an application for adjustment of status on Form I–485, accompanied by the fee and supporting documents described in § 245.2 of this part. Beneficiaries of Public Law 101–238 must also submit:

(A) A visa petition or evidence that the applicant is currently the beneficiary of a valid unexpired visa petition, filed in compliance with this chapter, which accords the applicant preference status under the provisions of the Immigration and Nationality Act,

(B) A request for a determination by the district director that the alien is qualified for and will engage in the occupation of registered nurse, as currently listed on Schedule A (20 CFR part 656),

(C) Evidence, in the form of letters from employers stating the beginning and ending dates of employment as a registered nurse, showing that the applicant has been employed in the United States as a registered nurse in the United States for an aggregate of three years prior to the date the application for adjustment of status is filed,

(D) Evidence that the applicant was licensed as a registered nurse during periods of qualifying employment, and

(E) Evidence which establishes that the applicant was in the United States in H–1 nonimmigrant status for the purpose of performing services as a registered nurse on September 1, 1989.

(iv) *Effect of section 245(c)(2).* An applicant for the benefits of the adjustment of status provisions of Public Law 101–238 must establish eligibility for adjustment of status under all provisions of section 245 unless those provisions have specifically been waived.

(A) *Application for adjustment of status filed on or before October 17, 1991.* An applicant who qualifies for the benefits of Public Law 101–238, who properly files an application for adjustment of status on or before October 17, 1991, may be granted adjustment of status even though the alien has engaged or is engaging in unauthorized employment. For purposes of adjustment of status, the applicant will be considered to have continuously maintained a lawful nonimmigrant status throughout his or her stay in the United States as a nonimmigrant and to be in lawful nonimmigrant status at the time the application is filed.

(B) *Application for adjustment of status filed after October 17, 1991.* An alien who files an application for adjustment of status after October 17, 1991, will be subject to the provisions of section 245(c) of the Act. The application for adjustment of status will be denied if the applicant was employed without authorization after November 29, 1990. The application will be denied if the alien failed to continuously maintain a lawful nonimmigrant status (other than through no fault of his or her own for technical reasons) or if the alien was not in lawful nonimmigrant status at the time the application was filed.

(C) *Motions to reopen.* The Immigration Act of 1990 (Public Law 101–649) which became law on November 29, 1990, retroactively amended the Immigration Nursing Relief Act of 1989 (Public Law 101–238). An alien whose application for adjustment of status under the provisions of the Immigration Nursing Relief Act of 1989 was denied before November 29, 1990, because of unauthorized employment, failure to continuously maintain a lawful nonimmigrant status or not being in lawful immigration status at the time of filing, may file a motion to reopen the adjusmtment application. The motion to reopen must be made in accordance with the provisions of 8 CFR 103.5. The service will reopen the application for adjustment of staus and enter a new decision based upon the provisions of the Immigration Nursing Relief Act, as amended by the Immigration Act of 1990.

(v) *Description of qualifying employment.* Qualifying employment as a registered nurse may have taken place at any time before the alien files the application for adjustment of status. It may have occurred before, on or after the enactment of Public Law 101–238. All qualifying employment must have occurred in the United States. The qualifying employment as a registered nurse may have occurred while the alien was in any immigration status, provided that the alien was in H–1 nonimmigrant status for the purpose of performing services as a registered nurse on September 1, 1989. The employment need not have been continuous, provided the applicant can establish that he or she engaged in qualifying

VOL 56 ISS 118 JE 19 1991 UMI

employment for a total of three or more years. Qualifying employment may include periods when the applicant possessed a provisional or temporary license to perform services as a registered nurse. Qualifying employment may not include periods when the applicant was not licensed to perform duties as a registered nurse.

(vi) *Effect of enactment on spouse or child.*

(A) *Spouse or child accompanying principal alien.* The accompanying spouse or child of an applicant for adjustment of status who benefits from Public Law 101–238, may also apply for adjustment of status. All benefits and limitations of this section, including those resulting from the implementation of the adjustment of status provisions of section 162(f) of Public Law 101–649, apply equally to the principal applicant and his or her accompanying spouse or child.

(B) *Spouse or child residing outside the United States or ineligible for adjustment of status.* A spouse or child who is ineligible to apply for adjustment of status as an accompanying spouse or child is not immediately eligible for issuance of an immigrant visa under the provisions of Public Law 101–238. However, the spouse or child may be eligible for visa issuance under other provisions of the Act.

(*1*) *Existing relationship.* A spouse or child acquired by the principal alien prior to the approval of the principal's adjustment of status application may be accorded the derivative priority date and preference category of the principal alien. The spouse or child may use the priority date and category when it becomes current, in accordance with existing limitations outlined in sections 201 and 202 of the Act. The priority date is not considered immediately available for these family members under Public Law 101–238.

(*2*) *Relationship entered into after adjustment of status is approved.* An alien who acquires lawful permanent residence under the provisions of Public Law 101–238 may file a petition under section 204 of the Act for an alien spouse, unmarried son or unmarried daughter in accordance with existing laws and regulations. The priority date is not considered immediately available for these family members under Public Law 101–238.

* * * * *

(f) * * *

(1) *Availability of immigrant visas under section 245.* An alien is not eligible for the benefits of section 245 of the Act unless an immigrant visa is immediately available to him or her at the time the application is filed. If the applicant is a preference or nonpreference alien, the current Department of State Visa Office Bulletin on Availability of Immigrant Visa Numbers will be consulted to determine whether an immigrant visa is immediately available. An immigrant visa is considered immediately available if the applicant's preference or nonpreference priority date is no later than the date shown in the Bulletin, or the Bulletin shows that number for visa applicants in his or her category are current. An immigrant visa is also considered immediately available if the applicant establishes eligibility for the benefits of Public Law 101–238. Information about the immediate availability of an immigrant visa may be obtained at any service office.

* * * * *

3. In § 245.2, paragraph (a)(5)(ii) is amended by revising the second sentence to read as follows:

§ 245.2 Application.

(a) * * *

(5) * * *

(ii) *Under section 245.* * * * An application for adjustment of status as a preference or nonpreference alien shall not be approved until an immigrant visa number has been allocated by the Department of State, except when the applicant has established eligibility for the benefits of Public Law 101–238. * * *

* * * * *

Dated: March 18, 1991.

Gene McNary,

Commissioner, Immigration and Naturalization Service.

[FR Doc. 91–14430 Filed 6–18–91; 8:45 am]

BILLING CODE 4410–10–M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 90–CE–48–AD; Amendment 39–7024; AD 91–12–13]

Airworthiness Directives; Dornier 228 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) that is applicable to Dornier 228 series airplanes. This action requires the replacement of certain horizontal stabilizer electric trim system relays and the modification of the connections to these relays. Optional electrical installations on these airplanes can cause higher specific switching cycles and higher peak currents and reduces the life of the relays and the reliability of the system. A failed relay could result in an uncommanded trim motion and possible loss of control of the airplane. The actions specified by this AD are intended to prevent electrical reliability reduction and assure proper functioning of the electric trim system.

DATES: Effective July 19, 1991. The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of July 19, 1991.

ADDRESSES: Dornier 228 Service Bulletin (SB) No. SB–228–160, dated December 18, 1989, and Dornier 228 SB No. SB–228–164, Revision 1, dated August 28, 1990, that are discussed in this AD may be obtained from Dorier Luftfahrt GmbH, Product Support, P.O. Box 3, D–8031 Wessling, Federal Republic of Germany; Telephone (49.8153)–300; Facsimile (49.8153)–30.29.85. This information may also be examined at the FAA, Central Region, Office of the Assistant Chief Counsel, room 1558, 601 E. 12th Street, Kansas City, Missouri 64106.

FOR FURTHER INFORMATION CONTACT: Mr. R. Stoer, Brussels Aircraft Certification Office, Europe, Africa and Middle East Office, FAA, c/o American Embassy, 1000 Brussels, Belgium; Telephone (322)–513.38.30; or Mr. Herman Belderok, FAA, 601 E. 12th Street, Kansas City, Missouri 64106; Telephone (816) 426–6932, ext. 2710; Facsimile (816) 426–2169.

SUPPLEMENTARY INFORMATION: A proposal to amend part 39 of the Federal Aviation Regulations to include an AD that would be applicable to certain Dornier 228 series airplanes was published in the Federal Register on November 9, 1990 (55 FR 47070). The proposed AD would have required replacement of the horizontal stabilizer electric system relays 4CC, 5CC, 8CC, and 9CC with improved relays and modification of the relay connections on certain Dornier 228 series airplanes in accordance with Dornier Service Bulletin No. SB–228–164, Revision 1, dated August 28, 1990.

Interested persons were then afforded the opportunity to participate in the making of this amendment. Three commenters responded. All three commented favorably upon the AD, but stated that the failures are not limited to only those airplanes equipped with optional installations of autopilot and/or elevator electric trim coupling systems. All three recommended that airplanes that are not equipped with these optional installations be modified in accordance with the instructions in Dornier SB No. SB–228–160, dated December 18, 1989. The FAA concurred with these comments and determined that the chances of relay failure and uncommanded trim motion are reduced if the affected airplanes that are not equipped with these optional installations are modified in accordance with the instructions in Dornier SB No. SB–228–160.

The proposal was rewritten accordingly. Since the applicability then went beyond the scope of the original proposal, a supplementary notice of proposed rulemaking was published in the Federal Register on March 8, 1991 (56 FR 9909).

Interested persons were again afforded an opportunity to participate in the making of this amendment. No comments were received on the proposed rule or the FAA's determination of the cost to the public.

The economic analysis paragraph that is discussed below, has been revised to increase the specified hourly labor rate from $40 an hour (as was cited in the preamble of the notice of proposed rulemaking (NPRM)) to $55 an hour. The FAA has determined that it is necessary to increase this rate used in calculating the cost impact associated with AD action to account for various inflationary costs in the aviation industry.

The FAA has determined that air safety and the public interest require the adoption of the rule as proposed except for the change in the economic analysis and minor editorial corrections. These minor corrections will not change the meaning of the AD nor add any additional burden upon the public than was already proposed.

It is estimated that 43 airplanes in the U.S. registry will be affected by this AD, that it will take approximately 5 hours per airplane to accomplish the required action, and that the average labor rate is approximately $55 an hour. Parts cost approximately $1,017 per airplane. Based on these figures, the total cost impact of the AD on U.S. operators is estimated to be $55,550.

The regulations adopted herein will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 12612, it is determined that this final rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

For the reasons discussed above, I certify that this action (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the final evaluation prepared for this action is contained in the Rules Docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption "ADDRESSES".

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends 14 CFR part 39 of the Federal Aviation Regulations as follows:

PART 39—[AMENDED]

1. The authority citation for Part 39 continues to read as follows:

Authority: 49 U.S.C. 1354(a), 1421 and 1423; 49 U.S.C. 106(g); and 14 CFR 11.89.

§ 39.13 [Amended]

2. Section 39.13 is amended by adding the following new AD:

AD 91–12–13 DORNIER: Amendment 39–7024; Docket No. 90–CE–48–AD.

Applicability: Model Dornier 228–100, Dornier 228–101, Dornier 228–200, Dornier 228–201, Dornier 228–202, and Dornier 228–212 airplanes (serial numbers (S/N) 7065 through 7167, S/N 8002 through 8161, and 8163 through 8190), certificated in any category.

Compliance: Required within the next 600 hours time-in-service after the effective date of this AD, unless already accomplished.

To retain the reliability of the horizontal stabilizer electric trim system, accomplish the following:

(a) Replace relays 4CC, 5CC, 8CC, and 9CC with improved relays and modify the electrical connections of these relays in accordance with the following:

(1) For airplanes that utilize the autopilot and/or trim coupling option, perform the replacements and modification in accordance with the instructions in Dornier Service Bulletin No. SB–228–164, Revision 1, dated August 28, 1990.

(2) For airplanes that do not utilize the autopilot and the trim coupling option, perform the replacements and modification in accordance with the instructions in Dornier Service Bulletin No. SB–228–160, dated December 18, 1989.

(b) Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes to a location where the requirements of this AD can be accomplished.

(c) An alternative method of compliance or adjustment of the compliance time that provides an equivalent level of safety may be approved by the Manager, Brussels Aircraft Certification Office, Europe, Africa and Middle East Office, FAA, c/o American Embassy, 1000 Brussels, Belgium. The request should be forwarded through an appropriate FAA Maintenance Inspector, who may add comments and then send it to the Manager, Brussels Aircraft Certification Office.

(d) The replacements and modifications required by this AD shall be done in accordance with Dornier 228 Service Bulletin (SB) No. SB–228–160, dated December 18, 1989, and Dornier 228 SB No. SB–228–160, dated December 18, 1989, and Dornier 228 SB No. SB–228–164, Revision 1, dated August 28, 1990. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR Part 51. Copies may be obtained from Dornier Luftfahrt GmbH, Product Support, P.O. Box 3, D–8031 Wessling, Federal Republic of Germany. Copies may be inspected at the FAA, Central Region, Office of the Assistant Chief Counsel, room 1558, 601 E. 12th Street, Kansas City, Missouri, or at the Office of the Federal Register, 1100 L Street, NW., Room 8401, Washington, DC.

This amendment becomes effective on July 19, 1991.

Issued in Kansas City, Missouri, on May 22, 1991.

Herman C. Belderok,

Acting Manager, Small Airplane Directorate, Aircraft Certification Service.

[FR Doc. 91–14616 Filed 6–18–91; 8:45 am]

BILLING CODE 4910–13–M

14 CFR Part 71

[Airspace Docket No. 91–ASO–10]

Revision of Control Zone and Transition Area, Fort Myers, FL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment revises the Fort Myers, FL Control Zone and Transition Area. On May 30, 1991 the Fort Myers VORTAC was relocated to the Southwest Florida Regional Airport and re-named the Lee County VORTAC. The existing control zone and transition area had arrival area extensions predicated on the Fort Myers VORTAC. This action eliminates the arrival area extensions northeast, southwest and northwest of the Page Field Airport. The transition area is increased from an 8.5-mile to an 11.5-mile radius of Southwest Florida Regional Airport. Additionally, a minor correction is made in the latitude/longitude coordinate position of the Page Field Airport.

VOL 56 ISS 118 JE 19 1991 UMI

EFFECTIVE DATE: 0901 u.t.c. September 19, 1991.

FOR FURTHER INFORMATION CONTACT: James G. Walters, Airspace Section, System Management Branch, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone (404) 763–7646.

SUPPLEMENTARY INFORMATION:

History

On April 11, 1991, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR Part 71) to revise the Fort Myers, FL Control Zone and Transition Area (56 FR 14668). This action was prompted by the pending relocation and re-naming of the Fort Myers VORTAC which was scheduled for May 30, 1991. The VORTAC would be relocated to Southwest Florida Regional Airport and re-named the Lee County VORTAC. This proposed action would eliminate several arrival area extensions at Page Field Airport predicated on the Fort Myers VORTAC and increase the transition area from an 8.5-mile to an 11.5-mile radius of Southwest Florida Regional Airport. Additionally, a minor correction would be made in the latitude/longitude coordinate position of Page Field Airport. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. This amendment is the same as that proposed in the notice. Sections 71.171 and 71.181 of part 71 of the Federal Aviation Regulations was republished in FAA Order 7400.6G dated September 4, 1990.

The Rule

This amendment to part 71 of the Federal Aviation Regulations revises the Fort Myers, FL Control Zone and Transition Area. Effective May 30, 1991 the Fort Myers VORTAC was relocated from Page Field Airport to Southwest Florida Regional Airport and re-named the Lee County VORTAC. This action will eliminate several arrival area extensions in vicinity of Page Field Airport which were predicated on the Fort Myers VORTAC. Also, the transition area is increased from an 8.5-mile to an 11.5-mile radius of Southwest Florida Regional Airport. Additionally, a minor correction is made in the latitude/longitude coordinate position of Page Field Airport.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, control zone.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, part 71 of the Federal Aviation Regulations (14 CFR part 71) is amended, as follows:

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. App. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Public Law 97–449, January 12, 1983); 14 CFR 11.69.

§ 71.171 [Amended]

2. Section 71.171 is amended as follows:

Fort Myers, FL [Revised]

Within a 5-mile radius of Page Field (lat. 26°35'11" N., long. 81°51'49" W.), excluding that portion that coincides with Fort Myers Southwest Florida Regional Airport Control Zone.

§ 71.181 [Amended]

3. Section 71.181 is amended as follows:

Fort Myers, FL [Revised]

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of Page Field Airport (lat. 26°35'11" N., long. 81°51'49" W.); within an 11.5-mile radius of Southwest Florida Regional Airport (lat. 26°32'10" N., long. 81°45'18" W.).

Issued in East Point, Georgia, on June 6, 1991.

Walter E. Denley,

Acting Manager, Air Traffic Division, Southern Region.

[FR Doc. 91–14562 Filed 6–18–91; 8:45 am]

BILLING CODE 4910-13-M

14 CFR Part 71

[Airspace Docket No. 91–ASO–11]

Revision of Control Zone, Fort Myers Southwest Florida Regional Airport, FL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment revises the Fort Myers Southwest Florida Regional Airport, FL Control Zone. The Fort Myers VORTAC has been relocated from Page Field to Southwest Florida Regional Airport and renamed the Lee County VORTAC. This action would add an arrival area extension to provide controlled airspace for a new standard instrument approach procedure (SIAP) based on the relocated facility. Additionally, since continuous weather reporting service is available for the airport and the control zone is operated full time, the option to establish the operating hours via Notice To Airmen (NOTAM) is removed from the control zone description.

EFFECTIVE DATE: 0901 u.t.c., September 19, 1991.

FOR FURTHER INFORMATION CONTACT: James G. Walters, Airspace Section, System Management Branch, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone (404) 763–7646.

SUPPLEMENTARY INFORMATION:

History

On April 11, 1991, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR Part 71) to revise the Fort Myers Southwest Florida Regional Airport, FL Control Zone (56 FR 14669). The proposed action would add an arrival area extension in order to provide necessary controlled airspace protection for a new SIAP predicated on the Lee County VORTAC. Additionally, it would eliminate the existing option to operate the control zone part time by NOTAM since continuous weather reporting service is now available. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. This amendment is the same as that proposed in the notice. Section 71.171 of part 71 of the Federal Aviation Regulations was republished in FAA Order 7400.6G dated September 4, 1990.

The Rule

This amendment to part 71 of the Federal Aviation Regulations revises the Fort Myers Southwest Florida Regional Airport, FL Control Zone. A new SIAP has been developed based on the newly established Lee County VORTAC and this action will add an arrival area extension to provide controlled airspace protection for instrument flight rules (IFR) aircraft executing the approach procedure. Additionally, since full time weather reporting service is now available, the option to operate the control zone part time via NOTAM is removed from the control zone description.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, Control zone.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended, as follows:

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

1. The authority citation of part 71 continues to read as follows:

Authority: 49 U.S.C. App. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Public Law 97–449, January 12, 1983); 14 CFR 11.69.

§ 71.171 [Amended]

2. Section 71.171 is amended as follows:

Fort Myers Southwest Florida Regional Airport, FL [Revised]

Within a 5-mile radius of Southwest Florida Regional Airport (lat. 26°32'10" N., long. 81°45'18" W.); within 3 miles each side of the Lee County VORTAC 251° radial extending from the 5-mile radius zone to 8.5 miles west of the VORTAC; excluding that portion which lies 3.5 miles north of and parallel to the extended centerline of Runway 6/24.

Issued in East Point, Georgia, on June 6, 1991.

Walter E. Denley,

Acting Manager, Air Traffic Division, Southern Region.

14 CFR Part 71

[Airspace Docket No. 91–ASO–13]

Revision of Transition Area, Punta Gorda, FL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment revises the Punta Gorda, FL Transition Area. This action adds an arrival area extension south of the Charlotte County Airport. This additional controlled airspace is needed to provide protection of instrument flight rules (IFR) aircraft executing a new standard instrument approach procedure (SIAP) to Runway 3 based on the Punta Gorda VOR. Additionally, a minor correction is made in the latitude/longitude coordinate position of the Charlotte County Airport.

EFFECTIVE DATE: 0901 u.t.c., September 19, 1991.

SUPPLEMENTARY INFORMATION:

History

On April 26, 1991, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to revise the Punta Gorda, FL Transition Area (56 FR 19331). This action proposed to add an arrival area extension south of the Charlotte County Airport to provide additional controlled airspace protection of IFR aircraft executing a new SIAP to Runway 3 based on the Punta Gorda VOR. Also, a minor change would be made in the latitude/longitude coordinate position of the Charlotte County Airport. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Section 71.181 of part 71 of the Federal Aviation Regulations was republished in FAA Order 7400.6G dated September 4, 1990.

The Rule

This amendment to part 71 of the Federal Aviation Regulations revises the Punta Gorda, FL Transition Area. An arrival area extension is added to provide additional controlled airspace protection for IFR aircraft executing a new VOR SIAP to Runway 3 at the Charlotte County Airport. Also, a minor correction is made in the latitude/longitude coordinate position of the airport.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, Transition area.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, part 71 of the Federal Aviation Regulations (14 CFR Part 71) is amended, as follows:

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. App. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Public Law 97–449, January 12, 1983); 14 CFR 11.69.

§ 71.181 [Amended]

2. Section 71.181 is amended as follows:

Punta Gorda, FL [Revised]

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Charlotte County Airport (lat. 26°55'02" N., long. 81°59'29" W.); within 3 miles each side of the Punta Gorda VOR (lat. 26°54'59" N., long. 81°59'28" W.) 030° and 199° radials, extending from the 6.5-mile radius

VOL 56 ISS 118 JE 19 1991 UMI

area to 8.3 miles northeast and south of the VOR.

Issued in East Point, Georgia, on June 6, 1991.

Walter E. Dooley,

Acting Manager, Air Traffic Division, Southern Region.

BILLING CODE 4910-13-M

14 CFR Part 71

[Airspace Docket No. 91-ASO-6]

Revision of Control Zone, Daytona Beach, FL

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment revises the Daytona Beach, FL Control Zone. Presently, the Ormond Beach Municipal Airport is within the Daytona Beach Control Zone. Aircraft operations within the zone are governed by weather conditions as reported at the Daytona Beach Regional Airport. This has created some difficulty since weather conditions may vary considerably between the two airports. This action eliminates that portion of the control zone which surrounds the Ormond Beach Municipal Airport, including the arrival area extension west of the airport. This action raises the floor of controlled airspace from the surface to 700 feet above the surface in vicinity of the Ormond Beach Municipal Airport. Additionally, a minor correction is made in the latitude/longitude coordinates of the Daytona Beach Regional Airport.

EFFECTIVE DATE: 0901 u.t.c., September 19, 1991.

FOR FURTHER INFORMATION CONTACT: James G. Walters, Airspace Section, System Management Branch, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone (404) 763-7646.

SUPPLEMENTARY INFORMATION:

History

On April 11, 1991, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to revise the Daytona Beach, FL Control Zone (56 FR 14670). This proposed action would eliminate that portion of the control zone which surrounds the Ormond Beach Municipal Airport including the arrival area extension west of the airport. Aircraft operations within the control zone are governed by weather observations taken at the Daytona Beach Regional Airport. Since weather conditions may vary between the two airports, it was proposed that the portion of the zone in vicinity of the Ormond Beach Municipal Airport be eliminated. If approved, the proposed action would raise the floor of controlled airspace from the surface to 700 feet above the surface in vicinity of the Ormond Beach Municipal Airport. Additionally, a minor correction would be made in the latitude/longitude coordinates of Daytona Beach Regional Airport. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. This amendment is the same as that proposed in the notice. Section 71.171 of part 71 of the Federal Aviation Regulations was republished in FAA Order 7400.6G dated September 4, 1990.

The Rule

This amendment to part 71 of the Federal Aviation Regulations revises the Daytona Beach, FL Control Zone. This action will eliminate that portion of the control zone in vicinity of the Ormond Beach Municipal Airport, including the arrival area extension west of the airport. Effectively, the floor of controlled airspace in vicinity of the Ormond Beach Municipal Airport will be raised from the surface to 700 feet above the surface. Additionally, a minor correction is made in the latitude/longitude coordinate position of the Daytona Beach Regional Airport.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, Control zone.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, part 71 of the Federal Aviation Regulations (14 CFR part 71) is amended, as follows:

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. app. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Public Law 97-449, January 12, 1983); 14 CFR 11.69.

§ 71.171 [Amended]

2. Section 71.171 is amended as follows:

Daytona Beach, FL [Revised]

Within a 5-mile radius of Daytona Beach Regional Airport (lat. 29°10'51" N., long. 81°03'22" W.).

Issued in East Point, Georgia, on June 6, 1991.

Walter E. Dooley,

Acting Manager, Air Traffic Division, Southern Region.

14 CFR Part 71

[Airspace Docket No. 91-ASO-8]

Revision of Transition Area, Yazoo City, MS

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment revises the Yazoo City, MS Transition Area. The existing transition area is centered on the Barrier Field Airport which was closed concurrent with opening the new Yazoo County Airport. The new airport is located 2.9 miles west of the old Barrier Field Airport. A new standard instrument approach procedure (SIAP) has been developed to serve Runway 35 at the Yazoo County Airport. This action centers the transition area on the new airport in order to provide controlled airspace for protection of instrument flight rules (IFR) aeronautical operations. Additionally, the operating status of the Yazoo County Airport will be changed from visual flight rules (VFR) to IFR concurrent with publication of the SIAP.

EFFECTIVE DATE: 0901 u.t.c., September 19, 1991.

FOR FURTHER INFORMATION CONTACT: James G. Walters, Airspace Section, System Management Branch, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone (404) 763-7646.

SUPPLEMENTARY INFORMATION:

History

On April 11, 1991, the FAA proposed to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to revise the Yazoo City, MS Transition Area (56 FR 14671). The existing transition area is centered on the Barrier Field Airport which was closed concurrent with opening the new Yazoo County Airport. A new SIAP has been developed to serve the Yazoo County Airport. The proposed action would center the transition on the new airport which is located 2.9 miles west of the closed Barrier Field Airport. The purpose of this proposed action was to provide additional controlled airspace for protection of IFR aeronautical operations. Also, it was proposed that the operating status of the Yazoo County Airport be changed from VFR to IFR concurrent with publication of the standard instrument approach procedure. Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Section 71.181 of part 71 of the Federal Aviation Regulations was republished in FAA Order 7400.6G dated September 4, 1990.

The Rule

This amendment to Part 71 of the Federal Aviation Regulations revises the Yazoo City, MS Transition Area. This action will center the transition area on the new Yazoo County Airport instead of the Barrier Field Airport which has been closed. A SIAP has been developed to serve Runway 35 at the new airport. This action will lower the base of controlled airspace from 1200 feet to 700 feet above the surface in vicinity of the Yazoo County Airport in order to provide additional controlled airspace for protection of IFR aeronautical operations. Additionally, the operating status of the Yazoo County Airport will be changed from VFR to IFR concurrent with publication of the Runway 35 SIAP.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

BILLING CODE 4910-13-M

14 CFR Part 71

[Airspace Docket No. 91-ANM-3]

Establishment of Transition Areas; Kemmerer, Wyoming

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes transition areas to provide a controlled airspace environment for the new non-directional radio beacon (NBD) approach to runway 34 at the Kemmerer Municipal Airport, Kemmerer, Wyoming. The transition areas will segregate aircraft operating in visual flight rules (VFR) conditions from those operating under instrument flight rules (IFR). The areas will be depicted on aeronautical charts to provide references for pilots.

EFFECTIVE DATE: 0901 u.t.c., July 25, 1991.

FOR FURTHER INFORMATION CONTACT: Robert L. Brown, ANM-535, Federal Aviation Administration, Docket No. 910-ANM-3, 1601 Lind Avenue SW., Renton, Washington 98055-4056, Telephone: (206) 227-2537.

SUPPLEMENTARY INFORMATION:

History

On April 8, 1991, the FAA proposed to amend part 71 of the Federal Aviation regulations (14 CFR part 71) to establish controlled airspace for a new NDB approach to the Kemmerer Municipal Airport (56 FR 14223). Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Accordingly, the rule is adopted as proposed. Section 71.181 of part 71 of the Federal Aviation Regulations was republished in Handbook 7400.6G dated September 4, 1990.

The Rule

This amendment to part 71 of the Federal Aviation Regulations provides controlled airspace transition areas for instrument flight rules procedures for the new NDB approach to runway 34 at the Kemmerer Municipal Airport. The intent is to segregate aircraft operating in visual flight rules conditions from those operating under instrument flight rules. The areas will be depicted on appropriate aeronautical charts so that pilots may circumnavigate the areas or comply with instrument flight rules procedures.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation safety, Transition areas.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, part 71, of the Federal

VOL 56 ISS 118 JE 19 1991 UMI

Aviation Regulations (14 CFR part 71) is amended as follows:

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. App. 1348(1), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) (Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

§ 71.181 [Amended]

2. Section 71.181 is amended as follows:

Kemmerer, Wyoming [New]

That airspace extending upward from 700 feet above the surface within 9.2-mile radius of the Kemmerer Municipal Airport (Lat. 41°49'30"N, Long. 110°33'30"W), and within 3.5 miles each side of the 179° bearing from the Kemmerer NDB (Lat. 41°49'21"N, Long. 110°33'15"W), extending from the 9.2-mile radius area to 11.5 miles south of the NDB; and that airspace extending upward from 1,200 feet above the surface between Lat. 41°48'30"N, Long. 110°02'30"W; to 41°29'00"N, Long. 110°30'30"W; to Lat. 41°48'30"N, Long. 110°43'00"W; to the point of beginning excluding that airspace within the Fort Bridger, Wyoming, Transition Area.

Issued in Seattle, Washington, on June 10, 1991.

Temple H. Johnson, Jr.,

Manager, Air Traffic Division.

[FR Doc. 91-14566 Filed 6-18-91; 8:45 am]

BILLING CODE 4910-13-M

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

14 CFR Part 1215

RIN 2700-AA29

Tracking and Data Relay Satellite System (TDRSS)

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Final rule.

SUMMARY: NASA is amending 14 CFR part 1215, subpart 1215.1, "Use and Reimbursement Policy for Non-U.S. Government Users." This subpart updates the policy governing the Tracking and Data Relay Satellite System (TDRSS) services provided to non-U.S. Government users and the reimbursement for rendering such services. This rule establishes an equitable basis for use of and reimbursement for TDRSS and service by non-U.S. Government users. The tracking, telemetry, and command services provided by the TDRSS represent a significant growth in the capability of presently available services provided via the ground tracking station network.

EFFECTIVE DATE: June 19, 1991.

ADDRESSES: Office of Space Operations, Code OX, NASA Headquarters, Washington, DC 20546.

FOR FURTHER INFORMATION CONTACT: Eugene Ferrick, 202-453-2030.

SUPPLEMENTARY INFORMATION: The TDRSS space segment consists of two satellites in geostationary orbit, with one or more additional satellites in geostationary orbit to be operated as required. The ground segment consists of a single ground terminal and the necessary operational control and interface devices and interconnecting communications circuit services located at White Sands, New Mexico.

NASA published its final rule in the Federal Register on March 9, 1983, 48 FR 9845. This amendment corrects the organizational setting and reflects new user responsibility for obtaining frequency authorizations in § 1215.107 and in appendix C. Additionally, appendix A has been updated to reflect CY 1992 reimbursement rates for use of TDRSS service. Since these changes are internal and administrative in nature and do not affect existing regulations, notice and public comment are not required.

The National Aeronautics and Space Administration has determined that:

1. This rule is not subject to the requirements of the Regulatory Flexibility Act, 5 U.S.C. 601-612, since it will not exert a significant economic impact on a substantial number of small business entities.

2. This rule is not a major rule as defined in Executive Order 12291.

List of Subjects in 14 CFR Part 1215

Satellites, Tracking and Data Relay Satellite System, Communications equipment, Government contract.

For reasons set out in the Preamble, 14 CFR part 1215, subpart 1215.1 is amended as follows:

PART 1215—TRACKING AND DATA RELAY SATELLITE SYSTEM (TDRSS)

1. The authority citation for 14 CFR part 1215 continues to read as follows:

Authority: Sec. 203, Pub. L. 85-568, 72 Stat. 429, as amended; 42 U.S.C. 2473.

2. Section 1215.100 is revised to read as follows:

§ 1215.100 General.

The TDRSS represents a major investment by the U.S. Government with the primary goal of providing improved tracking and data acquisition services to spacecraft in low earth orbit or to mobile terrestrial users such as aircraft or balloons. It is the objective of NASA to operate as efficiently as possible with the TDRSS. This is to the mutual benefit of all users. Such user consideration will permit NASA and non-NASA service to be delivered without compromising the mission objectives of any individual user. To encourage users toward achieving efficient TDRSS usage, this reimbursement policy has been established to purposely influence users to operate with TDRSS in the most efficient and orderly manner possible. Additionally, the reimbursement policy is designed to comply with the Bureau of the Budget Circular A-25 on User Charges, dated September 23, 1959, which requires that a reasonable charge should be made to each identifiable recipient for a measurable unit or amount of Government service or property from which a special benefit is derived.

3. Section 1215.101 is revised to read as follows:

§ 1215.101 Scope.

This Subpart sets forth the policy governing TDRSS services provided to non-U.S. government users and the reimbursement for rendering such services. It excludes TDRSS services provided as standard or optional services to Space Transportation Syst :m (STS) users under existing policy for Shuttle and Spacelab (14 CFR subparts 1214.1, 1214.2, and 1214.8); i.e., user command and telemetry support, which utilizes and is a part of the Shuttle or Spacelab communications system, is a Shuttle/Spacelab service. Cooperative missions are also not under the purview of this Subpart. The arrangements for TDRSS services for cooperative missions will be covered in a Memorandum of Understanding (MOU), as a consequence of negotiations between NASA and the other concerned party. Any MOU which includes provision for any TDRSS service will require signatory concurrence by the Associate Administrator for Space Operations prior to dedicating Office of Space Operations resources for support of a cooperative mission.

4. Section 1215.104 is revised to read as follows:

§ 1215.104 Apportionment and assignment of services.

No user may apportion, assign, or otherwise convey to any third party its TDRSS service. Each user may obtain service only through contractual

agreement with the Associate Administrator for Space Operations.

5. Section 1215.105 is amended by revising paragraphs (b) and (d) to read as follows:

§ 1215.105 Delivery of user data.

* * * * *

(b) User data handling requirements beyond the NGT interface will be provided as a standard service to the user, to the extent that the requirements do not exceed NASA's planned standard communications system. Any additional data transport or handling requirements exceeding NASA's capability will be dealt with as a mission-unique service.

* * * * *

(d) NASA will provide TDRSS services on a "reasonable efforts" basis and, accordingly, will not be liable for damages of any kind to the user or third parties for any reason, including but not limited to failure to provide contracted-for services. The price for TDRSS services does not include a contingency or premium for any potential damages. The user will assume any risk of damages or obtain insurance to protect against any risk.

6. Section 1215.107 is revised to read as follows:

§ 1215.107 User data security and frequency authorizations.

(a) User data security is not provided by the TDRSS. Responsibility for data security resides solely with the user. Users desiring data safeguards shall provide and operate, external to the TDRSS, the necessary equipment or systems to accomplish data security. Any such user provisions must be compatible with data flow through TDRSS and not interfere with other users.

(b) All radio frequency authorizations associated with operations pursuant to this directive are the responsibility of the user. If appropriate, authority(ies) must be obtained from the Federal Communications Commission (FCC) for operations consistent with U.S. footnote 303 of the National Table of Frequency Allocations, FCC Rules and Regulations at 47 CFR 2.106.

7. Section 1215.108 is amended by revising paragraph (a) to read as follows:

§ 1215.108 Defining user service requirements.

* * * * *

(a) Initial requests for TDRSS service from non-U.S. Government users should be addressed to NASA Headquarters, Code OX, Space Network Division, Washington, DC 20546. Upon review and preliminary acceptance of the service requirements by NASA Headquarters, the appropriate areas of GSFC will be assigned to the project to produce the detailed requirements, plans and documentation necessary for support of the mission. Changes to user requirements shall be made as far in advance as possible and shall be submitted in writing to both NASA Headquarters, Code OX, Space Network Division, and GSFC, Code 501, Greenbelt, MD 20771.

* * * * *

8. Section 1215.109 is amended by revising paragraphs (b)(2)(i) and (b)(6) introductory text to read as follows:

§ 1215.109 Scheduling user service.

* * * * *

(b) * * *

(2) * * *

(i) Launch, reentry, landing of the STS Shuttle, or other NASA launches.

* * * * *

(6) Disruptive updates are scheduled updates which, by virtue of priorities, cause previously scheduled user services to be rescheduled or deleted or are requested by the user less than 45 minutes prior to the scheduled support period.

* * * * *

9. Section 1215.111 is revised to read as follows:

§ 1215.111 User postponement of service.

The user may postpone the initiation of contracted service (e.g., user launch date) by delivery of written notification to NASA Headquarters, Code OX. Any delay in the contracted start of service date may affect the quantity of service to be provided due to commitments to other support requirements. Therefore, the validity of previous estimates of predicted support availability may no longer be applicable.

10. Section 1215.113 is amended by revising paragraphs (a) and (c) to read as follows:

§ 1215.113 User charges.

(a) The user shall reimburse NASA the sum of the charges for standard and mission-unique services. Charges will be based on the service rates applicable for the calendar year.

* * * * *

(c) The user shall reimburse NASA for the costs of any mission unique services provided by NASA.

* * * * *

11. Section 1215.114 is amended by revising paragraph (b) to read as follows:

§ 1215.114 Service rates.

* * * * *

(b) Rates for TDRSS services will be set by the Associate Administrator for Space Operations each October for the following year, January through December. Rate variations will reflect changes in operating costs, loading formulas and escalation.

* * * * *

12. Appendix A is revised to read as follows:

Appendix A to Part 1215—Estimated Service Rates in 1992 Dollars for TDRSS Standard Services (Based on NASA Escalation Estimate)

TDRSS user service rates for services rendered in CY-92 based on current projections in 1992 dollars are as follows:

Single Access Service—Forward command, return telemetry, or tracking, or any combination of these, the base rate is $168.00 per minute for non-U.S. Government users.

Multiple Access Forward Service—Base rate is $42.00 per minute for non-U.S. Government users.

Multiple Access Return Service—Base rate is $13.00 per minute for non-U.S. Government users.

13. Appendix C is revised to read as follows:

Appendix C To Part 1215—Typical User Activity Timeline

Time (approximate)	Activity
Project conceptualization (At least 3 years before launch; Ref. § 1215.108(a)).	Request NASA Headquarters perform study to determine availability of TDRSS. If accepted as a user, begin contractual negotiation by submission of $25,000 non-refundable charge, and place into mission model.
3 years before launch (Ref. § 1215.108(c))	Submit general user requirements to permit preliminary planning. Begin payment for pre-mission activities (Ref. § 1215.115(b)(5)).
18 months before launch (earlier if interfacing is expected)	Provide detailed requirements for technical definition and development of operational documents and ICD's. (Ref. § 1215.108(e)). If appropriate, initiate action with the Federal Communications Commission for license to communicate with TDRSS at least 18 months prior to launch (Ref. § 1215.107(b)).

VOL 56 ISS 118 JE 19 1991 UMI

Time (approximate)	Activity
3 weeks prior to a scheduled support period (SSP). 2 weeks prior to an SSP.	Submit scheduling request to GSFC covering a weekly period. Receive schedule from GSFC based on principles of priority (Ref. § 1215.109(b)(2)). Acknowledgement to GSFC required.
Up to 12 hours prior to an SSP.	Can cancel an SSP without charge (Ref. § 1215.113(a)(1)).
Up to 45 minutes prior to an SPP.	Can schedule an SSP if a time slot is available without impacting another user.
Between SSP minus 45 minutes and the SSP.	Schedule requests will be charged at the disruptive update rate (Ref. § 1215.109(b)(5)).
Real-Time	Emergency service requests will be responded to per the priority system (Ref. § 1215.109(b)(3)) and assessed the emergency service rate.

Dated: June 7, 1991.

Richard H. Truly,

Administrator.

BILLING CODE 7510-01-M

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Part 1211

Final Rule: Requirements for Automatic Residential Garage Door Operators

AGENCY: Consumer Product Safety Commission.

ACTION: Final rule.

SUMMARY: The Consumer Product Safety Improvement Act of 1990 provides that, as of January 1, 1991, "each automatic residential garage door opener manufactured on or after that date for sale in the United States shall conform to the entrapment protection requirements of the * * * Underwriters Laboratories, Inc. Standards for Safety—UL 325, third edition, as revised May 4, 1988." Congress stated that these requirements are to be considered a consumer product safety rule issued by the Commission under section 9 of the Consumer Product Safety Act. In this final rule, the Commission is codifying the provisions of the UL 325 standard that specify entrapment protection requirements and an additional statutory labeling requirement. As discussed in this notice, Congress also provided for revision of the entrapment protection requirements when U.S. develops additional entrapment protection provisions or, in the absence of UL activity, the Commission develops additional requirements. Additionally, Congress required that, effective July 1, 1991, manufacturers of automatic residential garage door openers must, in consultation with the CPSC, notify the public of the potential for entrapment and advise the public to test their openers.

EFFECTIVE DATE: June 19, 1991. The substance of the requirements mandated by Congress apply to automatic residential garage door openers manufactured on or after January 1, 1991 for sale in the United States, the effective date prescribed by Congress.

FOR FURTHER INFORMATION CONTACT: George Sushinsky, Project Manager, Directorate for Engineering Sciences, Consumer Product Safety Commission, Washington, DC 20207; telephone (301) 492-6494.

SUPPLEMENTARY INFORMATION:

A. Background

1. The Consumer Product Safety Improvement Act of 1990

On November 16, 1990, the President signed into law the Consumer Product Safety Improvement Act of 1990 (the "Act"). This Act reauthorized the Consumer Product Safety Commission ("CPSC") for a period of two years and specified certain products for the Commission to regulate.

Entrapment Protection Requirements

Section 203 of the Act stated that the entrapment protection requirements of the Underwriters Laboratories, Inc. ("UL") Standards for Safety—UL 325, third edition, as revised May 4, 1988, "shall be considered to be a consumer product safety rule issued by the Consumer Product Safety Commission under section 9 of the Consumer Product Safety Act." Consumer Product Safety Improvement Act of 1990, Public Law No. 101-608, Section 203(a), (b), 104 Stat. 3110. Congress provided that automatic residential garage door openers [1] manufactured on or after January 1, 1991 must conform to the UL 325 entrapment protection requirements. *Id.* Section 203(b)(1). This standard requires that an automatic garage door opener shall reverse within two seconds of contacting a two inch (50.8-mm) test object whose top inch is resilient. In addition, the standard requires that the door reopen if the bottom limit switch is not activated within thirty seconds after the control is pressed to start the closing cycle.

Congress recognized that industry is currently working with UL to develop a revised voluntary standard that would include additional entrapment protection. See H.R. Rep. No. 914, 101st Cong., 2d Sess. 20 (1990). Thus, Congress provided that additional entrapment protection requirements issued by UL in the future will also become effective as mandatory safety standards. Accordingly, section 203 provides a requirement that all residential automatic garage door openers manufactured on and after January 1, 1993 for sale in the United States must conform to any additional entrapment protection requirements of UL 325 to become effective on or before January 1, 1993. *Id.* Section 203(b)(2)(A).

If, by June 1, 1992, UL has not issued a revision to the May 4, 1988 edition of UL 325 requiring an additional entrapment protection feature or device in addition to that set forth in the May 4, 1988 standard, Congress required that the Commission must begin a rulemaking proceeding, to be completed by October 31, 1992, requiring an additional such feature or device on all automatic residential garage door openers manufactured after January 1, 1993, for sale in the United States. *Id.* Section 203(b)(2)(B).

If UL issues a revision to the May 4, 1988 standard after the Commission has started its rulemaking proceeding, the Commission must terminate its proceeding and incorporate the UL revision into the consumer product safety rule, unless the UL revision does not carry out the purpose of the Congressionally mandated entrapment protection requirements. *Id.* If UL proposes further revisions to UL 325, UL must notify the Commission and the proposed revision shall be incorporated in the consumer product safety rule (unless the Commission notifies UL within 30 days that the revision does not carry out the purposes of the Congressionally mandated requirements). *Id.* Section 203(c).

Labeling Requirements

Congress also mandated certain labeling requirements to go into effect on January 1, 1991. A manufacturer selling or offering for sale in the United States an automatic residential garage door opener on or after that date must

[1] Congress used the term "garage door opener"; however, the UL standard uses the term "garage door operator." This notice uses the terms interchangeably.

"clearly identify on any container of the system and on the system the month or week and year the system was manufactured and its conformance with the requirements of subsection (b) [UL 325 entrapment protection provisions]." *Id.* Section 203(d). These labeling requirements are satisfied by display of the UL logo or listing mark, and compliance with the date marking requirements of UL 325 on the container and the system. *Id.*

Notification Requirements

Congressionally mandated notification requirements will become effective July 1, 1991. As of that date, all manufacturers of automatic residential garage door openers must, in consultation with the Commission, "notify the public of the potential for entrapment by garage doors equipped with automatic garage door openers and advise the public to test their openers for the entrapment protection feature or device required by [the UL 325 entrapment protection provisions]." *Id.* Section 203(e).

Preemption

Congress specifically addressed the issue of preemption of other State or local requirements pertaining to automatic residential garage door openers. Subsection (f) of the Act provides that, with respect to the Congressionally-required entrapment protection provisions, "only those provisions of laws of States or political subdivisions which relate to the labeling of automatic residential garage door openers and those provisions which do not provide at least the equivalent degree of protection from the risk of injury associated with automatic residential garage door openers as the consumer product safety rule provides shall be subject to (the preemption provisions of section 26(a) of the CPSA, 15 U.S.C. 2075)." *Id.* section 203(f). Thus, state law provisions governing, for example, repair and servicing requirements, would not be preempted. See H.R. Rep. No. 914, 101st Cong., 2d Sess. 20 (1990).

Implementing Regulations

Congress provided that, should the Commission issue any regulations to implement the requirements of section 203 of the Act, the provisions of section 553 of title 5 (the Administrative Procedure Act) shall apply. Sections 7 and 9 of the CPSA will not apply to the issuance of such regulations. Consumer Product Safety Improvement Act, Section 203(g). Congress also required that "[a]ny additional or revised requirement issued by the Commission shall provide an adequate degree of protection to the public." *Id.*

2. The Consumer Product Safety Act

Section 203(a) provides that the entrapment protection provisions of UL 325 shall be deemed to be a consumer product safety rule issued under section 9 of the CPSA. Section 9 of the CPSA specifies the rulemaking procedure by which the Commission issues consumer product safety standards. 15 U.S.C. 2056. Because Congress mandated the UL provisions as a rule issued by the Commission, the regulatory procedures of section 9 do not apply. Thus, the Commission is issuing this codification of the entrapment protection provisions of UL 325 as a final rule. If, at a later date, the Commission decides to issue additional rules implementing these requirements or amending them, only the notice and comment procedure of the Administrative Procedure Act ("APA"), 5 U.S.C. 553, not the procedure provided in section 9 of the CPSA, would apply. See Consumer Product Safety Improvement Act, Section 203(g).

B. The Regulation

This notice sets forth the entrapment protection provisions of UL 325 which Congress mandated as a standard of the Commission. The provisions recounted here are only excerpts from the UL standard for safety—UL 325—for door, drapery, gate, louver, and window operators and systems. This UL standard contains many provisions not stated in this notice because Congress only mandated issuance of the entrapment protection provisions as a Commission regulation. Thus, those provisions of the UL standard that relate to entrapment protection are codified as a Commission regulation. A brief summary of the provisions follows.

Section 1211.1 provides that the standard applies to all residential garage door operators manufactured on or after January 1, 1991 for sale in the United States.

Section 1211.2 supplies the following definition of "residential garage door operator": A vehicular door operator which is (1) intended for use in a home or associated garage; (2) is rated 600 volts or less; and (3) is intended to be employed in ordinary locations in accordance with the current National Electrical Code, NFPA 70. This definition incorporates the definition of residential garage door operator contained in UL325. The Commission finds that this definition accurately reflects Congressional intent. The Commission interprets this definition to exclude garage door operators in apartment building garages, which buildings UL 325 apparently considers to be commercial.

Section 1211.3 provides an explanation of the units of measurement referred to in the standard.

Section 1211.4 sets out the requirements for protection against entrapment. Subsection (a) provides the general requirement that an automatically-reset protective device, if used, must not result in a risk of injury to persons. Subsection (b) explains in detail the testing requirements to protect against entrapment. The standard requires that an automatic garage door must not remain in contact with a two inch (50.8-mm) test object, whose top is capable of being compressed, for longer than two seconds. The operator must be tested for fifty open-and-close cycles of operation with the operator connected to the type of garage door with which it is intended to be used or, if the operator is intended to be used with more than one type of garage door, with the type of garage door specified in the standard.

Section 1211.4 further states that a residential garage door operator must not allow the door to remain in contact with an obstructing object if the lower limiting device is not activated within 30 seconds or less once the close has begun. To determine compliance with this requirement, an operator must be subjected to ten open-and-close cycles of operation while it is connected to the appropriate garage door. The testing cycles do not have to be consecutive.

This section further provides that a means to manually detach the door operator from the door must be provided, must be colored red, and must be easily distinguishable from the rest of the operator. Additional requirements for the means of manual detachment are specified in subsection (b)(12).

Section 1211.5 requires that an instruction manual must accompany a residential garage door operator and specifies the instructions that must appear in the manual. This section also requires a trial installation using the instruction manual.

Section 1211.6 requires permanent marking of the garage door operator. The marking must consist of (1) the manufacturer's name, trademark, or other descriptive marking by which the organization responsible for the product may be identified (this identification may be in a traceable code if the garage door operator is identified by the brand or trademark of a private labeler); (2) the catalog number of the equivalent; (3) the voltage, frequency, and input in amperes or watts; and (4) the date or other dating period of manufacture not exceeding any three consecutive months

VOL 56 ISS 118 JE 19 1991 UMI

(the date may be abbreviated or in an established or otherwise accepted code). If the manufacturer produces or assembles the operator at more than one factory, the marking must identify the particular factory.

Section 1211.6 further requires that residential garage door operators be provided with a separate cautionary label to be mounted near the actuating switch which specifies the means to detach the operator from the door and contains the word "CAUTION" and the following (or comparable) statement: "To reduce the risk of injury to person, operate door only when fully visible, properly adjusted, and free of obstructions. Do not permit children to play in the area of door. See instruction manual."

Section 1211.6 further requires an additional cautionary label that instructs one to detach the door from the operator if the door becomes obstructed and that shows the method to detach the operator. Finally, section 1211.6 provides that the carton and instruction manual for an operator must be marked with the word "WARNING" and a statement indicating that the operator should only be used with the appropriate door.

Section 1211.7 restates the labeling requirement established by Congress which requires a manufacturer to identify, on the container of a residential garage door opener and on the system itself, the month or week and the year the system was manufactured and that it conforms with the requirements of § 1211.4. Congress provided that UL marking would satisfy this statutory labeling requirement.

C. Product Certification and Recordkeeping

Section 14(a) of the CPSA requires that every manufacturer of a product that is subject to a consumer product safety standard and is distributed in commerce must issue a certificate which specifies any applicable consumer product safety standards and certifies that the product conforms to the applicable standards. 15 U.S.C. 2063(a)(1). This certificate must accompany the product or be furnished to any distributor or retailer to whom the product is delivered. The certificate must be based on a test of each product or on a reasonable testing program. The certificate must state the name of the manufacturer or private labeler issuing the certificate and must include the date and place of manufacture. *Id.* These certification requirements apply to garage door operators covered by this consumer product safety rule.

Section 16(b) of the CPSA authorizes the Commission to issue a rule specifying reasonable requirements for the records that a manufacturer, private labeler, or distributor of a consumer product must maintain and/or provide to the Commission in order for the Commission to determine compliance with rules issued under the CPSA. 15 U.S.C. 2065(b).

The Commission may, in the future, issue rules under sections 14(a) and 16(b) of the CPSA specifying certification and record-keeping requirements applicable to automatic residential garage door operators. Such rules would improve the Commission staff's ability to identify violative products. If the Commission does decide to issue certification and record-keeping rules it would initiate a separate rulemaking proceeding commencing with a notice of proposed rulemaking and an opportunity for public comment.

D. Effective Date

As explained above, Congress provided that the entrapment protection requirements of UL 325 would become effective as a Commission rule and that residential garage door operators manufactured on or after January 1, 1991 must conform to these requirements. Thus, the substance of these requirements became effective on that date. This codification, however, contains some editorial changes to put the requirements into regulatory language. Therefore, the codification will become effective upon publication. Because Congress has mandated the substance of the rule and the effective date for the substantive requirements, the Commission finds that a delayed effective date for the codification is unnecessary and that there is good cause, in accordance with 5 U.S.C. 553(d)(3), for making the codification effective upon publication.

List of Subjects in 16 CFR Part 1211

Consumer protection, Labeling, Packaging and containers.

For the reasons set forth in the preamble, the Consumer Product Safety Commission is amending title 16, chapter II, by adding part 1211 to read as follows:

PART 1211—SAFETY STANDARD FOR AUTOMATIC RESIDENTIAL GARAGE DOOR OPERATORS

Sec.

1211.1 Effective date.
1211.2 Definition.
1211.3 Units of measurement.
1211.4 Protection against risk of injury from entrapment.
1211.5 Instruction manual.
1211.6 UL marking requirement.
1211.7 Statutory labeling requirement.

Authority: Sec. 203, Pub. L. 101-608, 104 Stat. 3110.

§ 1211.1 Effective date.

This standard applies to all residential garage door operators manufactured on or after January 1, 1991 for sale in the United States.

§ 1211.2 Definition.

As used in this part 1211: *Residential garage door operator* means a vehicular door operator which is

(a) intended for use in a home or associated garage;

(b) is rated 600 volts or less; and

(c) is intended to be employed in ordinary locations in accordance with the current National Electrical Code, NFPA 70.

§ 1211.3 Units of measurement.

If a value for measurement as given in these requirements is followed by an equivalent value in other units, in parentheses, the second value may be only approximate. The first stated value is the requirement.

§ 1211.4 Protection against risk of injury from entrapment.

(a) *General requirements.* (1) If an automatically-reset protective device is employed, automatic restarting of a motor shall not result in a risk of injury to persons.

(2) A residential garage door operator is considered to comply with the requirement in paragraph 1211.4(a)(1) if some means is provided to prevent the motor from restarting when the protector closes.

(b) *Entrapment.* (1) Except for the first 1 foot (0.30 m) of travel as measured over the path of the moving door operating member, a downward moving residential garage door shall not remain in contact with an obstructing object as specified in paragraph 1211.4(b)(2) for more than 2 seconds.

(2) The object used for the obstruction is to be 2 inches (50.8 mm) high, resilient in the first inch, and capable of being compressed to 1 inch (25.4 mm) under 100 pounds (445 N) of force. For the tests, the object is to be placed on the garage floor and at various heights under the leading edge of the door and located in line with the driving point of the operator.

(3) An operator is to be tested for 50 open-and-close cycles of operation while the operator is connected to the type of residential garage door with which it is intended to be used or with the doors specified in paragraph 1211.4(b)(4). The force adjustment on the operator is to be at the maximum setting or at the setting that represents the most severe operating condition. Any accessories that are intended for use with the door are to be attached and the test is to be repeated.

(4) If the operator is intended to be used with more than one type of door, the operator is to be tested on a sectional door with a curved track and on a one-piece door with jamb hardware and no track. If the operator is not intended for use on either or both of these types of doors, a one-piece door with track hardware or a one-piece door with pivot hardware, as appropriate, may be used for the tests. See the marking requirements at § 1211.6(d) of this part.

(5) Compliance with the requirement in paragraph 1211.4(b)(1) may be accomplished by reversal of the rotation of the motor, by spring loading, or by other means.

(6) A residential garage door operator marketed separately from the door that it is intended to control shall have the means to comply with the requirement in paragraph 1211.4(b)(1) inherent in the operator.

(7) A residential garage door operator shall not allow the door to remain in contact with an obstructing object if the lower limiting device is not actuated in 30 seconds or less following the initiation of the close cycle. If the door is stopped manually during its descent, the 30 seconds may be measured from the resumption of the close cycle.

(8) Switches or relays used for the purpose mentioned in paragraph 1211.4(b)(7) shall be tested for 100,000 cycles of operation and shall be connected in such a manner that malfunction of the switch or relay will result in the operator being inoperative with respect to downward movement of the door.

(9) If another means, such as a solid-state device, is used for the purpose mentioned in paragraph 1211.4(b)(7) it shall be as reliable as the switch or relay mentioned in paragraph 1211.4(b)(8).

(10) To determine whether an operator complies with the requirement in paragraph 1211.4(b)(7) an operator is to be subjected to 10 open-and-close cycles of operation while connected to the door or doors specified in paragraphs 1211.4(b) (3) and (4). The cycles need not be consecutive; that is, there may be any number of motor cooling-off periods during the test. The means provided to comply with the requirement in paragraph 1211.4(b)(1) is to be inoperative or defeated during the test. An obstructing object is to be provided so that the door cannot activate a lower limiting device.

(11) During the closing cycle, the system providing compliance with paragraphs 1211.4(b) (1) and (7) shall function regardless of a short anywhere in the circuit that initiates the close cycle.

(12) A means to manually detach the door operator from the door shall be provided. The means shall be colored red and shall be easily distinguishable from the rest of the operator. It shall be capable of being adjusted to a height of 6 feet (1.8 m) above the garage floor when the operator is installed as specified in § 1211.5 (b) and (c) of this part. The means shall be constructed so that a hand can firmly grip it and detach the operator by applying a maximum of 50 pounds (220 N) of force to the means with the door obstructed in the down position. The obstructing object, as described in paragraph 1211.4(b)(2) is to be located in several different positions. If a twisting motion is involved to detach the door operator from the door, the detachment shall require a torque of not more than 10 pound-inches (1.1N m). A marking with instructions for detaching the operator shall be provided as required by § 1211.6 (b) through (c) of this part.

(13) A push of a control button or buttons that initiate movement of a door shall stop and may reverse the door on the down cycle. On the up cycle, a push of a button or buttons shall stop the door but not reverse it.

§ 1211.5 Instruction manual.

(a) A residential garage door operator shall be provided with an instruction manual. The instruction manual shall give complete instructions for the safe and correct installation, operation, and servicing of the operator. To determine whether the installation instructions in the instruction manual comply with this requirement, at paragraphs 1211.5 (b) and (e), a trial installation is to be made using the instruction manual.

(b) Instructions that clearly detail installation and adjustment procedures required to effect proper operation of the safety means provided shall be provided with each door operator.

(c) The installation instructions shall recommend that a door operator be installed 7 feet (2.1 m) or more above the floor and that the detach means be installed at a height of 6 feet (1.8 m) above the floor.

(d) If installation heights in addition to those specified in paragraph 1211.5(c) are recommended, such as for restricted height installations, they shall be evaluated during the trial installation test. See § 1211.4(b)(1) of this part.

(e) A residential garage door or door operator shall be provided with complete and specific instructions for the correct adjustment of the control mechanism and the need for periodic checking and, if needed, adjustment of the control mechanism so as to maintain satisfactory operation of the door. The instructions shall be in a form that can be mounted adjacent to the door installation and directions for the installer shall indicate the need for mounting these directions.

§ 1211.6 UL marking requirement.

(a) Unless specifically excepted, marking required in this standard shall be permanent. Ink-printed and stenciled markings, decalcomanis labels, and pressure sensitive labels are among the types of marking that are considered acceptable if they are acceptably applied and are of good quality.

(b) Except as provided below, a garage door operator shall be plainly marked, at a location where the marking will be readily visible—after installation, in the case of a permanently connected appliance—with:

(1) the manufacturer's name, trademark, or other descriptive marking by which the organization responsible for the product may be identified—hereinafter referred to as the manufacturer's name;

(2) the catalog number or the equivalent;

(3) the voltage, frequency, and input in amperes or watts; and

(4) the date or other dating period of manufacture not exceeding any three consecutive months.

(c) The ampere rating shall be included unless the full-load power factor is 80 percent or more, or, for a cord-connected operator, unless the rating is 50 watts or less. The number of phases shall be indicated if an operator is for use on a polyphase circuit. The date code repetition cycle shall not be less than 20 years.

(d) Exception No. 1: The manufacturer's identification may be in a traceable code if the operator is identified by the brand or trademark owned by a private labeler.

(e) Exception No. 2: The date of manufacture may be abbreviated or in an established or otherwise accepted code.

(f) If a manufacturer produces or assembles operators at more than one factory, each finished operator shall have a distinctive marking, which may be in code, to identify it as the product of a particular factory.

(g) A residential garage door operator shall be provided with a separate cautionary label or tag for permanent installation near the wall-mountable

VOL 56 ISS 118 JE 19 1991 UMI

electrical actuating switch. The instruction manual shall direct that the label be mounted near the switch. The label shall specify the means to detach the operator from the door and shall also contain the word "CAUTION" and the following statement or the equivalent in clearly legible form: "To reduce the risk of injury to person, operate door only when fully visible, properly adjusted, and free of obstructions. Do not permit children to play in the area of door. See instruction manual."

(h) A residential garage door operator shall be provided with a separate cautionary label attached to or adjacent at all times to the means provided to detach the operator from the garage door. This label shall be marked with the following statement or the equivalent: "If the door becomes obstructed, detach door from operator as follows." The method to detach the operator shall be shown on the label.

(i) The carton and the instruction manual for an operator shall be marked with the word "WARNING" and the following or the equivalent: "To reduce the risk of injury to persons—Use this operator only with (a) _____ door(s)."

§ 1211.7 Statutory labeling requirement.

(a) A manufacturer selling or offering for sale in the United States an automatic residential garage door operator manufactured on or after January 1, 1991, shall clearly identify on any container of the system and on the system the month or week and year the system was manufactured and its conformance with the requirements of § 1211.4 of this part.

(b) The display of the UL logo or listing mark, and compliance with the date marking requirements of UL–325, on both the container and the system, shall satisfy the requirements of this subsection.

Dated: June 12, 1991.

Sadye E. Dunn,

Secretary.

Consumer Product Safety Commission.

BILLING CODE 6355–01–M

COMMODITY FUTURES TRADING COMMISSION

17 CFR Part 4

Disclosure of Past Performance by Commodity Pool Operators and Commodity Trading Advisors

AGENCY: Commodity Futures Trading Commission.

ACTION: Final rules.

SUMMARY: The Commodity Futures Trading Commission (Commission) has adopted amendments to its rules relating to disclosure of past performance by commodity pool operators (CPOs) and commodity trading advisors (CTAs) to permit presentation of past performance, including the rate of return, by means other than that currently set forth in such rules where the Commission has approved such alternative means. These amendments are intended to assist CPOs and CTAs in presenting their past performance in a way that is not misleading and lessen the necessity for individual inquiries concerning specific methods of presenting past performance.

EFFECTIVE DATE: The amendments to rule 4.21(a)(4), rule 4.21(a)(4)(ii)(F), rule 4.21(a)(5) and rule 4.31(a)(3) are effective June 19,1991.

FOR FURTHER INFORMATION CONTACT: Susan C. Ervin, Chief Counsel, or Paul Bjarnason, Chief Accountant, Division of Trading and Markets, 2033 K Street NW., Washington, DC 20581. Telephone (202) 254–8955.

SUPPLEMENTARY INFORMATION:

I. Paperwork Reduction Act Notice

While the Commission has determined that these rule amendments will not affect the existing paperwork burden previously approved by the Office of Management and Budget, the public reporting burden for the collection of information which includes Commission Rules 4.21 and 4.31 and all other rules pertaining to the operations and activities of CPOs and CTAs and to monthly reporting by futures commission merchants (3038–0005) is estimated to average 30.6 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Joe F. Mink, CFTC Clearance Office, 2033 K Street NW., Washington, DC 20581; and to Office of Management and Budget, Paperwork Reduction Project (3038–0005), Washington, DC 20503.

II. Rule Amendments

A. Background

Commission Rules 4.21 and 4.31 [1] set forth the requirements for disclosure by CPOs to prospective pool participants and by CTAs to prospective clients, respectively. Among other things, a CPO must disclose in a Disclosure Document furnished to prospective pool participants the actual performance record of the CPO and of each of its principals [2] with respect to the particular pool described in the Document as well as any other pool operated by the CPO and by each of its principals within the preceding three years, and the actual performance record for the preceding three years of all accounts other than the pool described in the Document directed [3] by the pool's CTA and by each of the CTA's principals. Rule 4.21(a) (4) and (5). Similarly, a CTA must disclose to its prospective clients in a Disclosure Document the actual performance record for the preceding three years of all accounts directed by the CTA and by each of its principals. Commission Rule 4.31(a)(3).

The Commission requires that actual past performance be displayed in the Disclosure Document in a table showing at least quarterly for the prescribed time period [4] certain information, current as of a date not more than three months preceding the date of the Document.[5] One of the required disclosures is the rate of return (ROR) for the period. The formula for ROR is set forth in rule 4.21(a)(4)(ii)(F) with respect to past performance disclosure by a CPO for the pool described in the Document and other pools operated by the CPO and its principals in the preceding three years. That formula is incorporated by reference in rule 4.21(a)(5)(ii) with respect to disclosure by the CPO of the past performance of the pool's CTA and the CTA's principals and in rule 4.31(a)(3)(ii) with respect to disclosure by a CTA concerning its past performance and that of its principals.

The Commission recognizes, however, that due to the increasing numbers and varied operations of CPOs and CTAs,[6] there may be instances where calculation of ROR under the current rules could be misleading and an alternative method of ROR calculation would not be misleading and would provide meaningful disclosure to prospective pool participants and clients.[7] Distortions in ROR computed under the Commission's current rules could result, for example, where additions and/or withdrawals are substantial and occur early in the reporting period. The Commission raised these and other past performance disclosure issues in an interpretative statement and request for comments issued simultaneously with a companion release of the Securities and Exchange Commission regarding CPO disclosure requirements. 54 FR 5597, at 5599–5600 (February 6, 1989). Certain of the comments received in response to that release suggested alternative ROR computation methods.

Upon review of such comments and its own reconsideration of the matter, on February 27, 1991 the Commission published for comment in the **Federal Register** certain proposed amendments to its past performance rules.[8] The Commission received one comment letter on these proposals, which was from a trade association which represents CPOs and CTAs. Subject to the one exception discussed below (concerning the proposed delegation of authority to the Director of the Division of Trading and Markets), this letter supported the proposed amendments. Accordingly, based on its evaluation of the comments received and subject to the exception discussed below, the Commission has adopted the proposed amendments in the form in which they were proposed.

B. The Amendments

The Commission has determined to adopt as proposed an amendment to rule 4.21(a)(4)(ii)(F) that would permit computation of ROR pursuant to alternative methods "otherwise approved by the Commission" rather than pursuant to the current methed. As the Commission noted in its proposal, this amendment will also affect the ROR disclosure under rules 4.21(a)(5)(ii) and 4.31(a)(3)(ii), which incorporate by reference the provisions of rule 4.21(a)(4)(ii)(F).[9] Any alternative method approved by the Commission could be used, provided it does not result in the presentation of past performance in a misleading manner, even if the current method specified in the rules would also be acceptable. Use of any of the acceptable methods is subject to the overriding requirement that all material information be disclosed to existing or prospective pool participants, or existing or prospective clients, even if such information is not otherwise specifically required by the Commission's disclosure rules; thus presentations that are misleading, even if otherwise presented in accordance with Commission rules, are prohibited.[10]

The Commission has also determined to adopt as proposed amendments to the introductory text to rules 4.21(a)(4), 4.21(a)(5) and 4.31(a)(3) that would permit an alternative presentation as approved by the Commission with respect to other aspects of past performance disclosure as set forth in subsections (A) through (E) of rule 4.21(a)(4)(ii).[11]

As noted above, the Commission also proposed to amend its delegation of authority with respect to the rules governing CPOs and CTAs to permit the Director of the Division of Trading and Markets (the "Division") or the Director's designee to perform all functions reserved to the Commission under rules 4.21 and 4.31. In making this proposal the Commission noted that although the Division had previously provided relief in appropriate cases with respect to alternative methods of computation of ROR and other elements of past performance disclosure by CPOs and CTAs, such relief had necessarily been provided on a case-by-case basis. Thus the delegation of authority to the Division with respect to CPO and CTA disclosure requirements was intended to permit the Division to issue advisories and interpretations of general application from time to time as appropriate, thereby enhancing flexibility and obviating the need to apply for case-by-case relief. In light of the negative comment received on this subject, the availability of Commission procedures to address matters of general applicability, and its own reconsideration of the proposal, the Commission has concluded not to adopt this part of the proposal.

III. Related Matters

A. Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA), 5 U.S.C. 601 *et seq.*, requires that agencies, in proposing rules, consider the impact of these rules on small businesses. In this connection, the Commission previously has determined that registered commodity pool operators should not be considered small entities for purposes of the RFA.[12] With respect to community trading advisors, the Commission has stated that it would evaluate within the context of a particular rule proposal whether all or some should be considered to be small entities and, if so, that it would analyze the economic impact on them of any rule.[13] Because the rule amendments adopted herein amend the Commission's rules that currently are applicable to the above-mentioned registrants such that no additional burdens are imposed, the Commission believes that these amendments would not have a significant economic impact on the above-noted entities. Therefore, pursuant to section 3(a) of the RFA, 5 U.S.C. 605(b), the Chairman of the Commmission certifies that these final rules will not have a significant number of small entities.

B. Paperwork Reduction Act

The Paperwork Reduction Act of 1980 (PRA) 44 U.S.C. 3501 *et seq.*, imposes certain requirements on federal agencies (including the Commission) in connection with their conducting or sponsoring any collection of information as defined by the PRA. In compliance with the PRA, the Commission has submitted rules 4.21 and 4.31 and their associated information collection requirements to the Office of Management and Budget as part of information collection number 3038–0005. While these rules amendments have no burden, the group of rules of which they are a part has the following burden:

Average Burden Hours per Response	30.6
Number of Respondents	3,060
Frequency of Response	40

---

[1] 17 CFR 4.21 and 4.31 (1991). Commission rules referred to herein are found at 17 CFR ch. I (1991).

[2] For purposes of the part 4 rules, the term "principal" is defined in Commission Rule 4.10(e).

[3] For purposes of the part 4 rules, the term "directed" is defined in Commission Rule 4.10(f).

[4] Such time period may be as long as three years depending upon the trading history of the pool, the CPO, the CTA and the principals involved.

[5] Net performance for the period represents the change in the net asset value net of additions, withdrawals and redemptions. Commission Rule 4.21(a)(4)(ii)(D).

[6] As of April 30, 1991, there were 1,287 registered CPOs and 2,545 registered CTAs (some entities may be registered in both capacities).

[7] In this regard, rule 4.21(h) and rule 4.31(g), respectively, provide that compliance by a CPO or CTA with specified disclosure rules does not relieve the registrant—

from any obligation under the (Commodity Exchange) Act or the regulations thereunder, including the obligation to disclose all material information even if the information is not specifically required by this section.

[8] 56 FR 8101.

[9] The Commission issued a companion Advisory with its proposal which set forth several methods of calculating ROR in addition to the method specified in rule 4.21(a)(4)(ii)(F). 56 FR 8109 (February 27, 1991).

BILLING CODE 6351-01-M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Parts 1 and 602

[T.D. 8353]

RIN 1545-AO09

Information With Respect to Certain Foreign-Owned Corporations

AGENCY: Internal Revenue Service, Treasury.

ACTION: Final regulations.

SUMMARY: This document contains final Income Tax Regulations relating to information that must be reported and records that must be maintained under section 6038A of the Internal Revenue Code. These regulations are necessary to provide appropriate guidance for affected reporting corporations and related parties. The regulations affect any reporting corporation (that is, certain domestic corporations and foreign corporations) as well as certain related parties of the reporting corporation.

EFFECTIVE DATE: These regulations are effective for taxable years beginning after July 10, 1989, except as follows:

§ 1.6038A-1 (a), (b), (e) (2), (g) through (n).	December 10, 1990
§ 1.6038A-3	March 20, 1990
§ 1.6038A-6	November 5, 1990
§ 1.6038A-7	December 10, 1990

FOR FURTHER INFORMATION CONTACT: Carol P. Tello or Grace Perez-Navarro of the Office of Associate Chief Counsel (International), within the Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, DC 20224 (Attention: CC:CORP:T:R) (202-377-0483 (Ms. Tello), 202-287-4851 (Ms. Perez-Navarro), not toll-free calls).

SUPPLEMENTARY INFORMATION:

Paperwork Reduction Act

The collection of information contained in these regulations has been reviewed and approved by the Office of Management and Budget in accordance with the Paperwork Reduction Act of 1980 (44 U.S.C. 3504 (h)) under control number 1545-1191. The estimated average annual reporting burden per respondent is 14 hours and 19 minutes. This time estimate is included in the burden of Form 5472. The estimated average annual recordkeeping burden per recordkeeper is 10 hours.

These estimates are an approximation of the average time expected to be necessary for record maintenance and collection of information. They are based upon such information as is available to the Internal Revenue Service. Individual respondents and recordkeepers may require greater or less time, depending on their particular circumstances.

Comments concerning the accuracy of this burden estimate and suggestions for reducing this burden should be directed to the Internal Revenue Service, Attention: IRS Reports Clearance Officer T:FP, Washington, DC 20224, and to the Office of Management and Budget, Attention: Desk Officer for the Department of the Treasury, Office of Information and Regulatory Affairs, Washington, DC 20503.

Background

On December 10, 1990, the Internal Revenue Service published in the **Federal Register** proposed regulations (55 FR 50706) to the Income Tax Regulations (26 CFR part 1) under section 6038A of the Internal Revenue Code. Pursuant to section 7805 (f) of the Internal Revenue Code, the notice of proposed rulemaking was submitted to the Small Business Administration for comments on its impact on small business. Over sixty written comments were received from the public. A public hearing was held on February 22, 1991.

Explanation of Changes

General Requirements and Definitions

A number of significant changes were made to this section in response to suggestions from commentators. Most importantly, the de minimis rules now include a small corporation exception based upon the amount of gross receipts for the taxable year. This addition is in response to commentators who were concerned that a small business would not be able to meet the de minimis exception because of the requirement that the aggregate gross payments made to or received from a foreign related party be less than ten percent of the U.S. gross income of the corporation. The new small corporation exception permits corporations with less than $10,000,000 in gross receipts to be exempt from the record maintenance and authorization requirements of section 6038A.

The safe harbor for other corporations with related party transactions of de minimis value was modified to increase the amount of aggregate gross payments to $5,000,000.

Finally, the aggregation rules clarify that for purposes of the gross payments test, gross payments made to foreign related parties are added to gross payments received from foreign related parties.

In response to a number of comments, two exceptions to the definition of a reporting corporation have been provided. Where a foreign corporation doing business in the United States (i) is entitled to the benefits of the business profits article of a bilateral income tax treaty; and (ii) does not have, and is not deemed to have, a permanent establishment in the United States, the corporation is exempt from section 6038A. Additionally, a foreign corporation whose gross income is exempt from U.S. taxation under section 883 is not a reporting corporation, provided that the corporation timely and fully complies with the reporting requirements set forth in Rev. Proc. 91-12, 1991-6 I.R.B. 12, necessary to claim the exemption under section 883. If, however, upon audit, the corporation is determined to have a permanent establishment or to have gross income not exempt from U.S. taxation under section 883, section 6038A will apply.

The final regulations also clarify that the definition of a reporting corporation under § 1.6038A-1(c) applies for taxable years beginning before July 11, 1989.

Banks and other financial institutions, previously exempt from the filing requirement under section 6038A, were concerned about the effective date of provisions requiring them to file Form 5472. In response to these concerns, the information filing requirement under § 1.6038A-2 for such institutions will be effective for taxable years beginning after December 10, 1990.

A number of commentators identified the need to clarify whether the section 38 attribution rules or the section 267(c) attribution rules are to be used in applying section 267(b). The final regulations provide that the relationships enumerated in section 267(b) will be determined under the rules of section 318, except to the extent that section 267(c) creates more inclusive attribution rules.

In response to numerous comments, two examples were added to § 1.6038A-1 to illustrate the operation of the related party rules. Many commentators were concerned about the difficulty of securing the cooperation of entities in which the 25-percent foreign shareholder of the reporting corporation owns only a minority interest. The examples contrast a situation in which such a shareholder has control (within the meaning of section 482) of the minority-owned subsidiary with a situation in which it does not. The minority-owned subsidiary is a foreign related party only in the first situation.

The final regulations also incorporate a number of other changes to § 1.6038A-1. In response to concerns of some commentators, a principal operating company as well as a holding company may be authorized to act as an agent under § 1.6038A-5 for a foreign related party. The definition of a 25-percent foreign shareholder has been expanded to include persons that hold the stock of a reporting corporation either directly or indirectly; all direct and indirect 25-percent foreign shareholders must be identified on Form 5472. Also, the rule in the proposed regulations exempting controlled commercial entities as defined by section 882(a)(2)(B) from §§ 1.6038A-3 and 1.6038-5 has been deleted.

A rule permitting the reopening of an examination if the statute of limitations period for that taxable year has not expired has been added. Also added is a rule barring the reopening of a taxable year under section 6038A for examination purposes if the taxable year is open under section 6511 only for purposes of the carryback of net operating losses or net capital losses.

Finally, certain definitions contained in the text of section 6038A are effective for taxable years beginning after July 10, 1989.

Requirement of Information Return

A new exception from the filing requirement for foreign sales corporations was added to the final regulations in response to commentators who observed that under proposed § 1.6038A-2, a foreign sales corporation would be required to file Form 5472 because it is not required to file Form 5471. Under the final regulations, a foreign sales corporation that files Form 1120-FSC for a taxable year is exempt from the Form 5472 filing requirement.

Some commentators expressed concern about the potential difficulty in establishing the fair market value for transactions in which no monetary or nonmonetary consideration is paid. The final regulations are unchanged from the proposed regulations in this respect because the reasonable estimate rules contained in § 1.6038A-2(b)(6) address this problem.

Other commentators were concerned that the new category of "other amounts paid" in § 1.6038A-2(b)(3)(x) required to be reported on Form 5472 is too broad and would include such items as dividends and capital contributions. This paragraph has been clarified in the final regulations. The phrase "other amounts paid" includes only amounts that would be taken into account for the determination and computation of the taxable income of the reporting corporation.

Several commentators requested that the term "total assets," required to be provided by a reporting corporation on Form 5472, be defined. The final regulations provide that for U.S. reporting corporations the term total assets means all the assets of the reporting corporation. The regulations under section 6038C will clarify the meaning of total assets for foreign corporations engaged in a U.S. trade or business.

The final regulations adopt the suggestion of many commentators that disclosure under section 1060A be required only if the inventory costs of imported goods are greater than the costs taken into account in computing the value of the goods for customs purposes.

Finally, the final regulations clarify that if a reporting corporation is exempt from filing Form 5472 because a Form 5471 has been filed that provides duplicate information, the reporting corporation is also exempt from the record maintenane requirements of § 1.6038A–3 and the authorization of agent requirement of § 1.6038A–5. Such a reporting corporation, however, remains subject to the general record maintenance requirements of section 6001.

Record Maintenance

Most of the concerns of commentators focused on the record maintenance requirements of § 1.6038A–3. The majority of commentators stated that the requirements will impose significant burdens on affected foreign corporations. The safe harbor, in particular, was singled out for criticism. Additionally, the material profit and loss statement requirement was criticized as too complex. Many commentators requested that the term "relevant" be delineated or defined.

To be useful, the record maintenance rules must provide guidance for a wide variety of foreign persons located throughout the world, subject to varying record maintenance and record retention standards, who may have little or no familiarity with U.S. accounting and tax standards and tax administrative practices. The general guidance provided by section 6001 and the regulations thereunder do not provide the type of specific, detailed guidance that these persons may need. Additionally, section 6038A will be used by the Service to enforce all Code sections that affect the tax treatment of transactions between the reporting corporation and its foreign related parties; it is not limited to issues arising under section 482 or any other Code section.

For these reasons, an all-inclusive safe harbor is provided, with the instruction that an individual taxpayer or foreign person is required to maintain only those records that are relevant to its particular industry or business and to the U.S tax treatment of its transactions with foreign related parties. The final regulations clarify and expand upon these points.

The safe harbor also serves another function, that of limiting the number of potential profit and loss statements that a reporting corporation might otherwise be required to produce. Without a materiality standard, any product or service sold or provided within the United States, irrespective of its relative economic importance to the reporting corporation, might be the subject of a profit and loss statement.

In response to numerous comments concerning the complexity of the material profit and loss statements, the ten percent identifiable assets and the ten percent operating profit or loss tests have been eliminated from the definition of significant industry segments. For the high profit test, the rate of return on assets has been increased from 10 percent to 15 percent, the rate of return for an industry segment is compared to the group's worldwide operations, and the dollar threshold for U.S.-connected products has been raised to $100,000,000. The paragraph has been restructured to reflect the simpler tests to be applied.

Many commentators were concerned that constructing an accurate material profit and loss statement will be difficult. However, the profit and loss statement is not being used to determine precise U.S. tax liability of a reporting corporation. The tests for determining the material profit and loss statement are intended to identify in broad terms the relative importance of a particular product or product line (or service). For this purpose, any reasonable allocation methods and formats are acceptable.

Other commentators requested that the regulations state whether fair market value or basis of assets should be used for the rate of return on assets test under the high profit test. The final regulations permit any reasonable method to be used as long as that method is applied consistently. Also, the final regulations provide that current year data is to be used for the test.

To satisfy concerns about the meaning of the relevance standard, four new examples illustrate cases in which the record maintenance requirements are not applicable to the reporting corporation's foreign related parties.

In response to suggestions that section 6038A requires more burdensome recordkeeping than section 6001, a description of the record maintenance requirements under section 6001 (as stated by regulations under section 6001 and by official Service publications) has been added. This additional guidance reflects the equivalence of the requirements under the two sections.

Specifically, some commentators criticized the requirement of creating basic accounting records and material profit and loss statements if not otherwise maintained under the safe harbor as more burdensome than the requirements under section 6001. The final regulations in § 1.6038A–3(a) reflect the rule under § 1.6001–1(d) that permits a District Director to require specific records to be created upon notice to the taxpayer. The final regulations also reflect that in appropriate cases the relevant cost data required to construct a profit and loss statement is also necessary to establish the amount of gross income, deductions, credits or other matters required to be shown on an income tax return.

One commentator suggested that the regulations should apply the recordkeeping requirement only to reportable transactions. This suggestion has not been adopted because under the statute the recordkeeping requirement applies to all records that may be relevant to the tax treatment of transactions between a reporting corporation and any foreign related party.

Most commentators requested that the final regulations provide more guidance and more detail concerning the agreements that may be executed with District Directors or the Assistant Commissioner (International). The final regulations clarify that the agreement is to be executed with the District Director or the Assistant Commissioner (International) who has audit jurisdiction over the reporting corporation. The final regulations further provide that the agreement may include provisions relating to the authorization of agent requirement, the record maintenance requirement, and production and translation time periods that vary the rules contained in the final regulations.

The final regulations also clarify that a reporting corporation that enters into an agreement with a District Director or the Assistant Commissioner (International) generally will be required only to maintain those records specified under the safe harbor that permit an adequate audit of the income tax return of the reporting corporation and that, in most instances, the records required to be maintained under such an agreement would be less than what is required under the safe harbor. Further guidance with respect to District Director agreements will be issued in a revenue procedure.

One commentator suggested an independent review procedure that was endorsed by a number of other commentators. The proposal was not adopted because the regulations provide for individually negotiated agreements with District Directors.

In response to numerous concerns that the annual election to maintain records outside the United States was too burdensome, the final regulations provide that records may be maintained outside the United States if non-U.S. maintenance requirements to produce

documents are satisfied. These requirements are identical to the requirements imposed under the annual election contained in the proposed regulations; however, an agreement to meet those requirements is no longer required on Form 5472.

Finally, a clarification suggested by some commentators was adopted that limits the documents required under the category of financial and other documents filed with foreign governments within the safe harbor to the documents relevant to transactions between the reporting corporation and its foreign related parties.

Rules describing how the record maintenance requirements are to be applied to banks and other financial institutions will be coordinated with future regulations under section 6038C. The final regulations under section 6038A reserve these issues.

All records maintained by a foreign related party that are provided to the Service are tax return information, required to be kept confidential under section 6103.

Monetary Penalty

Commentators requested that the regulations describe facts or circumstances that might justify the granting of the reasonable cause exception to the imposition of the monetary penalty. Also requested was a definition of the term "small corporation" for purposes of the reasonable cause exception.

A new paragraph, "facts and circumstances taken into account," describes facts and circumstances that might justify the application of the reasonable cause exception. Specifically, if a reporting corporation could be related to a foreign person only within the meaning of section 482 and has a reasonable belief that the foreign person is not so related, reasonable cause exists if, in fact, the foreign person is related within the meaning of section 482. Also, a small corporation is defined as a corporation whose gross receipts for the taxable year are $20,000,000 or less.

Other commentators requested that review procedures be adopted for the denial of the reasonable cause exception. Review procedures are contained in Internal Revenue Manual supplements under section 6038A.

The suggestion that the application of the penalty provisions be phased in has not been adopted because the statute contains a clear effective date.

Authorization of Agent

Most commentators were concerned that the annual authorization of agent requirement would be too burdensome. The final regulations delete the annual authorization of agent requirement and provide that such authorization must be provided within 30 days of a request by the Service, rather than requiring the authorization to be filed with Form 5472.

The final regulations adopt the proposal that a single, consolidated authorization by a foreign parent for itself and on behalf of its group members be permitted. In the event that such a consolidated authorization is not legally enforceable, the noncompliance penalty adjustment under § 1.6038A–7 will apply.

The final regulations clarify that an authorization of agent executed by a foreign related party is to be disregarded in determining whether a trade or business exists for purposes of the Code or whether a permanent establishment under an income tax treaty exists for that foreign related party.

One commentator requested a rule that a subpoena or summons could not be directly issued to, or enforced against, a nonresident alien. See rule 30 of the Federal Rules of Civil Procedure. The legislative history states that the authorization of an agent by a foreign related party is limited to requests by the Service to examine records or produce testimony related to reportable transactions. The Internal Revenue Manual supplement will require that before a request for individual testimony of an employee of a foreign related party is made, every attempt to obtain the information from a U.S. person must be made. Additionally, national office review is required before a summons for individual testimony of an employee of a foreign related party may be issued.

Failure to Furnish Information

The most significant comment with respect to § 1.6038A–6 was the request to require that an applicable treaty exchange of information or Tax Information Exchange Agreement (TIEA) provision be used prior to issuing a section 6038A summons. The final regulations provide that generally a treaty exchange of information or TIEA provision will be used prior to section 6038A procedures where the information sought may be obtained on a timely and efficient basis. The absence or pendency of a treaty or TIEA request may not be asserted as grounds for refusing to comply with a summons or as a defense against the assertion of the noncompliance penalty adjustment under § 1.6038A–7.

The regulations provide that information is available on a timely and efficient basis if it can be obtained from a foreign government within 180 days. The Service's recent experience with the types of treaty requests most likely to be made under section 6038A indicates that the United States generally responds to such requests within 180 days. A new paragraph is added to clarify that the statute of limitations is suspended for the pendency of a court determination (including appeals therein) for the taxable year to which the summons that is the subject of the proceeding relates. This rule reflects the legislative history.

A suggestion that an exception be provided when the reporting corporation has acted in good faith to secure the compliance of the foreign related party was not adopted, because it is contrary to the legislative history.

The IRS Manual will instruct agents generally to use normal administrative requests and summons procedures to obtain relevant records and testimony directly from the reporting corporation. Only where these initial procedures are ineffective will the Service resort to the summons power under the agency authorization to obtain records and testimony of foreign related parties.

Also not adopted was a suggestion that an appeal to the District Director be permitted if it is determined that there has not been substantial compliance. Section 6038A(e)(4)(B) provides for review of such a determination by the federal district court having jurisdiction over the reporting corporation.

Finally, a commentator suggested that a rule be added that requires the issuance of an information document request prior to the issuance of a section 6038A summons. Such a procedure will be described in the Internal Revenue Manual.

Noncompliance Penalty

Some commentators were concerned that § 1.6038A–7 provides too much discretion to the Service. Various remedies were proposed. The legislative history is clear, however, that exercise of the sole discretion to establish allowable amounts of deductions and the cost of goods sold in the event of noncompliance is subject to only limited judicial review. The amounts established by the Service cannot be overturned by a court on the basis that the amount diverges from actual costs or other amounts incurred, or on the basis that they do not clearly reflect income. Furthermore, the fact that the amounts can be proven to be clearly erroneous by reference to materials or information that were not within the knowledge or possession of the Service should not be sufficient alone to cause a court to

VOL 56 ISS 118 JE 19 1991 UMI

redetermine allowable amounts of deductions and the cost of goods sold.

Drafting Information

The principal authors of these regulations are Carol P. Tello and Grace Perez-Navarro of the Office of Associate Chief Counsel (International), within the Office of Chief Counsel, Internal Revenue Service. Other personnel from the Internal Revenue Service and Treasury Department participated in developing these regulations.

Adoption of Amendment to the Regulations

Accordingly, 26 CFR parts 1 and 602 are amended as follows:

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Paragraph 1. The authority for part 1 is amended by adding the following citations:

Authority: 26 U.S.C. 7805 * * * Sections 1.6038A–1 through 1.6038A–7 also issued under 26 U.S.C. 6038A. * * *

Par. 2. Section 1.6038A–1 is removed.

Par. 3. New §§ 1.6038A–0 through 1.6038A–7 are added to read as follows:

§ 1.6038A–0 Table of contents.

This section lists the captions that appear in the regulations under section 6038A.

§ 1.6038A–1 **General requirements and definitions**

(a) Purpose and scope.
(b) In general.
(c) Reporting corporation.
(1) In general.
(2) 25-percent foreign-owned.
(3) 25-percent foreign shareholder.
(i) In general.
(ii) Total voting power and value.
(iii) Direct 25-percent foreign shareholder.
(iv) Indirect 25-percent foreign shareholder.
(4) Application to prior open years.
(5) Exceptions.
(i) Treaty country residents having no permanent establishment.
(ii) Qualified exempt shipping income.
(iii) Status as a foreign related party.
(d) Related party.
(e) Attribution rules.
(1) Attribution under section 318.
(2) Attribution of transactions with related parties engaged in by a partnership.
(f) Foreign person.
(g) Foreign related party.
(h) Small corporation exception.
(i) Safe harbor for reporting corporations with related party transactions of *de minimis* value.
(1) In general.
(2) Aggregate value of gross payments made or received.
(j) Related reporting corporations.
(k) Consolidated return groups.
(l) Required information.
(2) Maintenance of records and authorization of agent.
(3) Monetary penalties.
(l) District Director.
(m) Examples.
(n) Effective dates.
(1) Section 1.6038A–1.
(2) Section 1.6038A–2.
(3) Section 1.6038A–3.
(4) Section 1.6038A–4.
(5) Section 1.6038A–5.
(6) Section 1.6038A–6.
(7) Section 1.6038A–7.

§ 1.6038A–2 Requirement of return

(a) Form 5472 required.
(1) In general.
(2) Reportable transaction.
(b) Contents of return.
(1) Reporting corporation.
(2) Related party.
(3) Foreign related party transactions for which only monetary consideration is paid or received by the reporting corporation.
(4) Foreign related party transactions involving nonmonetary consideration or less than full consideration.
(5) Additional information.
(6) Reasonable estimate.
(i) Estimate within 25 percent of actual amount.
(ii) Other estimates.
(7) Small amounts.
(8) Accrued payments and receipts.
(c) Method of reporting.
(d) Time and place for filing returns.
(e) Untimely filed return.
(f) Exceptions.
(1) No reportable transactions.
(2) Transactions solely with a domestic reporting corporation.
(3) Transactions with a corporation subject to reporting under section 6038.
(4) Transactions with a foreign sales corporation.
(g) Filing Form 5472 when transactions with related parties engaged in by a partnership are attributed to a reporting corporation.
(h) Effective dates for certain reporting corporations.

§ 1.6038A–3 Record maintenance

(a) General maintenance requirements.
(1) Section 6001 and section 6038A.
(2) Safe harbor.
(3) Examples.
(b) Other maintenance requirements.
(1) Indirectly related records.
(2) Foreign related party or third-party maintenance.
(3) Translation of records.
(4) Exception for foreign governments.
(c) Specific records to be maintained for safe harbor.
(1) In general.
(2) Descriptions of categories of documents to be maintained.
(i) Original entry books and transaction records.
(ii) Profit and loss statements.
(iii) Pricing documents.
(iv) Foreign country and third party filings.
(v) Ownership and capital structure records.
(vi) Records of loans, services, and other non-sales transactions.
(3) Material profit and loss statements.
(4) Existing records test.
(5) Significant industry segment test.
(i) In general.
(ii) Form of the statements.
(iii) Special rule for component sales.
(iv) Level of specificity required.
(v) Examples.
(6) High profit test.
(i) In general.
(ii) Return on assets test.
(iii) Additional rules.
(7) Definitions.
(i) U.S.-connected products or services.
(ii) Industry segment.
(iii) Gross revenue of an industry segment.
(iv) Identifiable assets of an industry segment.
(v) Operating profit of an industry segment.
(vi) Product.
(vii) Related products or services.
(viii) Model.
(ix) Product line.
(8) Example.
(i) Facts.
(ii) Existing records test.
(iii) Significant industry segments.
(iv) High profit test.
(v) Material profit and loss statements.
(d) Liability for certain partnership record maintenance.
(e) Agreements with the District Director or the Assistant Commissioner (International).
(1) In general.
(2) Content of agreement.
(i) In general.
(ii) Significant industry segment test.
(iii) Example.
(3) Circumstances of agreement.
(4) Agreement as part of APA process.
(f) U.S. maintenance.
(1) General rule.
(2) Non-U.S. maintenance requirements.
(3) Prior taxable years.
(4) Scheduled production for high volume or other reasons.
(5) Required U.S. maintenance.
(g) Period of retention.
(h) Application of record maintenance rules to banks and other financial institutions. [Reserved]
(i) Effective dates.

§ 1.6038A–4 Monetary penalty

(a) Imposition of monetary penalty.
(1) In general.
(2) Liability for certain partnership transactions.
(3) Calculation of monetary penalty.
(b) Reasonable cause.
(1) In general.
(2) Affirmative showing required.
(i) In general.

(ii) Small corporations.
(iii) Facts and circumstances taken into account.
(c) Failure to maintain records or to cause another to maintain records.
(d) Increase in penalty where failure continues after notification.
(1) In general.
(2) Additional penalty for another failure.
(3) Cessation of accrual.
(4) Continued failures.
(e) Other penalties.
(f) Examples.
Example (1)—Failure to file Form 5472.
Example (2)—Failure to maintain records.
(g) Effective dates.

§ 1.6038A–5 Authorization of agent

(a) Failure to authorize.
(b) Authorization by related party.
(1) In general.
(2) Authorization for prior years.
(c) Foreign affiliated groups.
(1) In general.
(2) Application of noncompliance penalty adjustment.
(d) Legal effect of authorization of agent.
(1) Agent for purposes of commencing judicial proceedings.
(2) Foreign related party found where reporting corporation found.
(e) Successors in interest.
(f) Deemed compliance.
(1) In general.
(2) Reason to know.
(3) Effect of deemed compliance.
(g) Effective dates.

§ 1.6038A–6 Failure to furnish information

(a) In general.
(b) Coordination with treaties.
(c) Enforcement proceeding not required.
(d) *De minimis* failure.
(e) Suspension of statute of limitations.
(f) Effective dates.

§ 1.6038A–7 Noncompliance

(a) In general.
(b) Determination of the amount.
(c) Separate application.
(d) Effective dates.

§ 1.6038A–1 General requirements and definitions.

(a) *Purpose and scope.* This section and §§ 1.6038A–2 through 1.6038A–7 provide rules for certain foreign-owned U.S. corporations and foreign corporations engaged in trade or business within the United States (reporting corporations) relating to information that must be furnished, records that must be maintained, and the authorization of the reporting corporation to act as agent for related foreign persons for purposes of sections 7602, 7603, and 7604 that must be executed. Section 6038A(a) and this section require that a reporting corporation furnish certain information annually and maintain certain records relating to transactions between the reporting corporation and certain related parties. This section also provides definitions of terms used in section 6038A. Section 1.6038A–2 provides guidance concerning the information to be submitted and the filing of the required return. Section 1.6038A–3 provides guidance concerning the maintenance of records. Section 1.6038A–4 provides guidance concerning the application of the monetary penalty for the failure either to furnish information or to maintain records. Section 1.6038A–5 provides guidance concerning the authorization of an agent for purposes of sections 7602, 7603, and 7604. Section 1.6038A–6 provides guidance concerning the failure to furnish information requested by a summons. Finally, § 1.6038A–7 provides guidance concerning the application of the noncompliance penalty for failure by the related party to authorize an agent or by the reporting corporation to substantially comply with a summons.

(b) *In general.* A reporting corporation must furnish the information described in § 1.6038A–2 by filing an annual information return (Form 5472 or any successor), and must maintain records as described in § 1.6038A–3.

(c) *Reporting corporation*—(1) *In general.* For purposes of section 6038A, a reporting corporation is either a domestic corporation that is 25-percent foreign-owned as defined in paragraph (c)(2) of this section, or a foreign corporation that is 25-percent foreign-owned and engaged in trade or business within the United States. After November 4, 1990, a foreign corporation engaged in a trade or business within the United States at any time during a taxable year is a reporting corporation. See section 6038C.

(2) *25-percent foreign-owned.* A corporation is 25-percent foreign-owned if it has at least one direct or indirect 25-percent foreign shareholder at any time during the taxable year.

(3) *25-percent foreign shareholder*—(i) *In general.* A foreign person is a 25-percent foreign shareholder of a corporation if the person owns at least 25 percent of—

(A) The total voting power of all classes of stock of the corporation entitled to vote, or

(B) The total value of all classes of stock of the corporation.

(ii) *Total voting power and value.* In determining whether one foreign person owns 25 percent of the total voting power of all classes of stock of a corporation entitled to vote or 25 percent of the total value of all classes of stock of a corporation, consideration will be given to all the facts and circumstances of each case, under principles similar to § 1.957–1(b)(2) (consideration of arrangements to shift formal voting power away from a foreign person).

(iii) *Direct 25-percent foreign shareholder.* A foreign person is a direct 25-percent foreign shareholder if it owns directly at least 25 percent of the stock of the reporting corporation, either by vote or by value.

(iv) *Indirect 25-percent foreign shareholder.* A foreign person is an indirect 25-percent foreign shareholder if it owns indirectly (or under the attribution rules of section 318 is considered to own indirectly) at least 25 percent of the stock of the reporting corporation, either by vote or by value.

(4) *Application to prior open years.* For taxable years beginning before July 11, 1989, the definition of a reporting corporation under this paragraph applies in determining whether a foreign-owned corporation is a reporting corporation.

(5) *Exceptions*—(i) *Treaty country residents having no permanent establishment.* A foreign corporation that has no permanent establishment in the United States under an applicable income tax convention is not a reporting corporation for purposes of section 6038A and this section. Accordingly, such a foreign corporation is not subject to §§ 1.6038A–2, 1.6038A–3, and 1.6038A–5. It must timely and fully provide the required notice to the Commissioner under section 6114. See section 6114 and the regulations thereunder for the notice that such a corporation must file and the applicable penalties for failure to file such notice.

(ii) *Qualified exempt shipping income.* A foreign corporation whose gross income is exempt from U.S. taxation under section 883 is not a reporting corporation provided that it timely and fully complies with the reporting requirements required to claim such exemption. In the event that such a corporation does not timely and fully comply with the reporting requirements under sections 887 and 883, it will be a reporting corporation subject to section 6038A, including the application of the monetary penalty for failure to file required information.

(iii) *Status as foreign related party.* Nothing in this paragraph affects the determination of whether a person is a foreign related party as defined in paragraph (g) of this section.

(d) *Related party.* The term "related party" means—

(1) Any direct or indirect 25-percent foreign shareholder of the reporting corporation,

(2) Any person who is related within the meaning of sections 267(b) or 707(b)(1) to the reporting corporation or

VOL 56 ISS 118 JE 19 1991 UMI

to a 25-percent foreign shareholder of the reporting corporation, or

(3) Any other person who is related to the reporting corporation within the meaning of section 482 and the regulations thereunder. However, the term "related party" does not include any corporation filing a consolidated federal income tax return with the reporting corporation.

(e) *Attribution rules*—(1) *Attribution under section 318.* For purposes of determining whether a corporation is 25-percent foreign-owned and whether a person is a related party under section 6038A, the constructive ownership rules of section 318 shall apply, and the attribution rules of section 267(c) also shall apply to the extent they attribute ownership to persons to whom section 318 does not attribute ownership. However, "10 percent" shall be substituted for "50 percent" in section 318(a)(2)(C), and section 318(a)(3) (A), (B), and (C) shall not be applied so as to consider a U.S. person as owning stock that is owned by a person who is not a U.S. person. Additionally, section 318(a)(3)(C) and § 1.318–1(b) shall not be applied so as to consider a U.S. corporation as being a reporting corporation if, but for the application of such sections, the U.S. corporation would not be 25-percent foreign owned.

(2) *Attribution of transactions with related parties engaged in by a partnership.* The transactions in which a domestic or foreign partnership engages shall be attributed to any reporting corporation whose interest in the capital or profits of the partnership, either directly or indirectly, combined with the interests of all related parties of the reporting corporation partner, equals 25 percent or more of the total partnership interests. Attribution of such transactions shall be made only to the extent of the partnership interest held by that reporting corporation partner. See sections 875 and 702(a) and the regulations thereunder. (Attribution shall not be made however, of transactions directly between the partnership and a reporting corporation.) Accordingly, a reporting corporation partner that is deemed to engage in transactions with related parties under this rule is subject to the information reporting requirements of § 1.6038A–2, to the record maintenance requirements of § 1.6038A–3, to the monetary penalty under § 1.6038A–4, to the requirement of authorization of agent under § 1.6038A–5, to the rules of § 1.6038A–6 relating to the requirement to produce records, and to the noncompliance penalty adjustment under § 1.6038A–7.

(f) *Foreign person.* For purposes of section 6038A, a foreign person is—

(1) Any individual who is not a citizen or resident of the United States, but not including any individual for whom an election under section 6013 (g) or (h) (relating to an election to file a joint return) is in effect;

(2) Any individual who is a citizen of any possession of the United States and who is not otherwise a citizen or resident of the United States;

(3) Any partnership, association, company, or corporation that is not created or organized in the United States or under the law of the United States or any State thereof;

(4) Any foreign trust or foreign estate, as defined in section 7701(a)(31); or

(5) Any foreign government (or agency or instrumentality thereof). To the extent that a foreign government is engaged in the conduct of commercial activity as defined under section 892 and the regulations thereunder, it will be treated as a foreign person under section 6038A and this section only for purposes of the information reporting requirements of § 1.6038A–2. A foreign government will not be treated as a foreign related party for purposes of §§ 1.6038A–3 and 1.6038A–5.

For purposes of section 6038A, a possession of the United States shall be considered to be a foreign country.

(g) *Foreign related party.* A foreign related party is a foreign person as defined under paragraph (f) of this section that is also a related party as defined under paragraph (d) of this section.

(h) *Small corporation exception.* A reporting corporation that has less than $10,000,000 in U.S. gross receipts for a taxable year is not subject to §§ 1.6038A–3 and 1.6038A–5 for that taxable year. Such a corporation, however, remains subject to the information reporting requirements of § 1.6038A–2 and the general record maintenance requirements of section 6001. For purposes of this paragraph, U.S. gross receipts includes all amounts received or accrued to the extent that such amounts are taken into account for the determination and computation of the gross income of the corporation. For purposes of this test, the U.S. gross receipts of all related reporting corporations shall be aggregated.

(i) *Safe harbor for reporting corporations with related party transactions of de minimis value*—(1) *In general.* A reporting corporation is not subject to §§ 1.6038A–3 and 1.6038A–5 for any taxable year in which the aggregate value of all gross payments it makes to and receives from foreign related parties with respect to related party transactions (including monetary consideration, nonmonetary consideration, and the value of transactions involving less than full consideration), is not more than $5,000,000 and is less than 10 percent of its U.S. gross income. Such a corporation, however, remains subject to the information reporting requirements of § 1.6038A–2 and the general record maintenance requirements of section 6001. For purposes of this paragraph, U.S. gross income means the gross income reportable by the reporting corporation (or the aggregate gross income reportable by all related reporting corporations) for U.S. income tax purposes. Gross payments made to or received from foreign related parties cannot be netted; rather, the gross payments made to and received from foreign related parties are to be aggregated. Thus, for example, if a reporting corporation receives $4,700,000 of gross payments from a related party and makes $500,000 of gross payments to the same related party, it has aggregate gross payments of $5,200,000, and, therefore, does not qualify for the safe harbor under this paragraph.

(2) *Aggregate value of gross payments made or received.* The aggregate value of gross payments made to (or received from) a foreign related party with respect to foreign related party transactions is determined by totaling the dollar amounts of foreign related party transactions as described in § 1.6038A–2(b) (3) and (4) on all Forms 5472 filed by the reporting corporation or related reporting corporations.

(j) *Related reporting corporations.* A reporting corporation is related to another reporting corporation if it is related to that other reporting corporation under the principles described in paragraphs (d) and (e) of this section.

(k) *Consolidated return groups*—(1) *Required information.* If a reporting corporation is a member of an affiliated group for which a U.S. consolidated income tax return is filed, the return requirement of § 1.6038A–2 may be satisfied by filing a consolidated Form 5472. The common parent, as identified on Form 851, must attach a schedule to the consolidated Form 5472 stating which members of the U.S. affiliated group are reporting corporations under section 6038A, and which of those are joining in the consolidated Form 5472. The schedule must provide the name, address, and taxpayer identification number of each member whose transactions are included on the consolidated Form 5472. A member is not required to join in filing a consolidated Form 5472 merely because other members of the group choose to file one or more Forms 5472 on a consolidated basis.

(2) *Maintenance of records and authorization of agent.* Either the common parent or the principal operating company of an affiliated group filing a consolidated income tax return may be authorized under § 1.6038A–5 to act as the agent for foreign related persons engaged in transactions with members of the group solely for purposes of section 7602, 7603, and 7604 under section 6038A(e)(1) and § 1.6038A–5. Each member of the group, however, must maintain the records required under section 6038A (a) and § 1.6038A–3 relating to its related party transactions.

(3) *Monetary penalties.* The common parent (or principal operating company) and all reporting corporations that join in the filing of a consolidated Form 5472 are liable jointly and severally for penalties for failure to file Form 5472 and for failure to mantain records under section 6038A(d) and § 1.6038A–4(e). See § 1.1502–77(a) regarding the scope of agency of the common parent corporation.

(l) *District Director.* For purposes of the regulations under section 6038A, the term "District Director" means any District Director, or the Assistant Commissioner (International) when performing duties similar to those of a District Director with respect to any person over which the Assistant Commissioner (International) has appropriate jurisdiction.

(m) *Examples.* The following examples illustrate the rules of this section.

Example 1. P, a U.S. partnership that is engaged in a U.S. trade or business, is 75 percent owned by FC1, a foreign corporation that, in turn, is wholly owned by another foreign corporation, FC2. The remaining 25 percent of P is owned by Corp, a domestic corporation, that is wholly owned by FC3. P engages in transactions solely with FC2 and FC3. These transactions are attributed to FC1 and Corp. Under section 875, FC1 is considered as being engaged in a U.S. trade or business. For purposes of section 6038A and this section, FC1 and Corp are reporting corporations and must report their pro rata shares of the value of the transactions with FC2 and FC3. Thus, Corp must report 25 percent of P's transactions with FC3 and FC1 must report 75 percent of P's transactions with FC2.

Example 2. FC2 and FC3 are both foreign corporations that are wholly owned by FC1, also a foreign corporation. FC2 engages in a trade or business in the United States through a branch. The branch engages in related party transactions with FC1. FC2 is a reporting corporation. FC3 is a foreign related party. FC1 is a direct 25-percent foreign shareholder of both FC2 and FC3. Neither FC1 nor FC3 is a reporting corporation.

Example 3. FC1 owns 25 percent of total voting power in each of FC2 and FC3. FC2 and FC3 each own 20 percent of the total voting power of Corp, a domestic corporation. The remaining stock of Corp is owned by an unrelated domestic corporation. Neither FC2 nor FC3 is engaged in a U.S. trade or business. Under section 318(a)(2)(C) and paragraph (e) of this section, FC1 constructively owns its proportionate share of the stock of Corp owned directly by FC2 and FC3. Thus, FC1 is treated as constructively owning five percent of Corp through each of FC2 and FC3 or a total of 10 percent of the Corp stock. Consequently, Corp is not a reporting corporation because no 25 percent shareholder exists.

Example 4. FP owns 100 percent of FC1 which, in turn, owns 100 percent of FC2. FC2 owns 100 percent of FC3 which owns 100 percent of RC. FP, FC1, and FC2 are indirect 25-percent foreign shareholders of RC, and FC3 is a direct 25-percent foreign shareholder.

Example 5. FP owns 100 percent of USS, a U.S. corporation, and 25 percent of FS, a foreign corporation. The remaining 75 percent of FS is publicly owned by numerous small shareholders. Sales transactions occur between USS and FS. Applying the rules of this section, USS is a reporting corporation. It is determined that USS and FS are each controlled by FP under section 482 and the regulations thereunder. Therefore, FS is related to USS within the meaning of section 482 and is a related party to USS. Accordingly, the sales transactions between USS and FS are subject to section 6038A.

Example 6. The facts are the same as in *Example 5*, except that the remaining 75 percent of FS is owned by one shareholder that is unrelated to the FP group and it is determined that FS is not controlled by FP for purposes of section 482. Under these facts, FS is not a related party of either FP or USS. Accordingly, section 6038A does not apply to the sales transactions between FS and USS.

Example 7. P, a U.S. multinational, is a holding company that wholly owns X, a U.S. operating company, which in turn wholly owns FS, a controlled foreign corporation. Applying the rule of section 318(a)(3)(C), FS is deemed to own the stock of X that is actually held by P. However, under the rules of paragraph (e) of this section, X will not be a reporting corporation by reason of section 318.

(n) *Effective dates*—(1) *Section 1.6038A–1.* Paragraphs (c) (relating to the definition of a reporting corporation), (d) (relating to the definition of a related party), (e)(1) (relating to the application of section 318), and (f) (relating to the definition of a foreign person) of this section are effective for taxable Years beginning after July 10, 1989. The remaining paragraphs of this section are effective December 10, 1990, without regard to when the taxable year began.

(2) *Section 1.6038A–2.* Section 1.6038A–2 (relating to the requirement to file Form 5472) is generally effective for taxable years beginning after July 10, 1989. However, § 1.6038A–2 as it applies to reporting corporations whose sole trade or business in the United States is a banking, financing, or similar business as defined in § 1.864–4(c)(5)(i) is effective for taxable years beginning after December 10, 1990.

(3) *Section 1.6038A–3.* Section 1.6038A–3 (relating to the record maintenance requirement) is generally effective December 10, 1990. However, records described in § 1.6038A–3 in existence on or after March 20, 1990, must be maintained, without regard to when the taxable year to which the records relate began.

(4) *Section 1.6038A–4.* Section 1.6038A–4 (relating to the monetary penalty) is generally effective for taxable years beginning after July 10, 1989, for the failure to file Form 5472. For the failure to maintain records or the failure to produce documents under § 1.6038A–4(f)(2), the section is effective December 10, 1990, without regard to when the taxable year to which the records relate began.

(5) *Section 1.6038A–5.* Section 1.6038A–5 (relating to the authorization of agent requirement) is effective December 10, 1990, without regard to when the taxable year to which the records relate began.

(6) *Section 1.6038A–6.* Section 1.6038A–6 (relating to the failure to furnish information under a summons) is effective November 6, 1990, without regard to when the taxable year to which the summons relates began.

(7) *Section 1.6038A–7.* Section 1.6038A–7 (relating to the noncompliance penalty adjustment) is effective December 10, 1990, without regard to when the taxable year began.

§ 1.6038A–2 Requirement of return.

(a) *Form 5472 required*—(1) *In general.* Each reporting corporation as defined in § 1.6038A–1(c) (or members of an affiliated group filing together as described in § 1.6038A–1(k)) shall make a separate annual information return on Form 5472 with respect to each related party as defined in § 1.6038A–1(d) with which the reporting corporation (or any group member joining in a consolidated Form 5472) has had any reportable transaction during the taxable year. The information required by section 6038A and this section must be furnished even though it may not affect the amount of any tax due under the Code.

(2) *Reportable transaction.* A reportable transaction is any transaction

VOL 56 ISS 118 JE 19 1991 UMI

of the types listed in paragraphs (b) (3) and (4) of this section. However, if neither party to the transaction is a United States person as defined in section 7701(a)(30) and the transaction—

(i) Will not generate in any taxable year gross income from sources within the United States or income effectively connected, or treated as effectively connected, with the conduct of a trade or business within the United States, and

(ii) Will not generate in any taxable year any expense, loss, or other deduction that is allocable or apportionable to such income, the transaction is not a reportable transaction.

(b) *Contents of return*—(1) *Reporting corporation.* Form 5472 must provide the following information in the manner the form prescribes with respect to each reporting corporation:

(i) Its name, address (including mailing code), and U.S. taxpayer identification number; each country in which the reporting corporation files an income tax return as a resident under the tax laws of that country; its country or countries of organization, and incorporation; its total assets for U.S. reporting corporation; the places where it conducts its business; and its principal business activity.

(ii) The name, address, and U.S. taxpayer identification number, if applicable, of all its direct and indirect 25-percent foreign shareholders (for an indirect 25-percent foreign shareholder, explain the attribution of ownership); each country in which each 25-percent foreign shareholder files an income tax return as a resident under the tax laws of that country; the places where each 25-percent shareholder conducts its business; and the country or countries of organization, citizenship, and incorporation of each 25-percent foreign shareholder.

(iii) The number of Forms 5472 filed for the taxable year and the aggregate value in U.S. dollars of gross payments as defined in § 1.6038A–1(h)(2) made with respect to all foreign related party transactions reported on all Forms 5472.

(2) *Related party.* The reporting corporation must provide information on Form 5472, set forth in the manner the form prescribes, about each related party, whether foreign or domestic, with which the reporting corporation had a transaction of the types described in paragraphs (b) (3) and (4) of this section during its taxable year, including the following information:

(i) The name, U.S. taxpayer identification number, if applicable, and address of the related party.

(ii) The nature of the related party's business and the principal place or places where it conducts its business.

(iii) Each country in which the related party files an income tax return as a resident under the tax laws of that country.

(iv) The relationship of the reporting corporation to the related party.

(3) *Foreign related party transactions for which only monetary consideration is paid or received by the reporting corporation.* If the related party is a foreign person, the reporting corporation must set forth on Form 5472 the dollar amounts of all reportable transactions for which monetary consideration (including U.S. and foreign currency) was the sole consideration paid or received during the taxable year of the reporting corporation. The total amount of such transactions, as well as the separate amounts for each type of transaction described below, must be reported on Form 5472, in the manner the form prescribes. Where actual amounts are not determinable, a reasonable estimate (as described in paragraph (b)(6) of this section) is permitted. The types of transactions described in this paragraph are:

(i) Sales and purchases of stock in trade (inventory);

(ii) Sales and purchases of tangible property other than stock in trade;

(iii) Rents and royalties paid and received (other than amounts reported under paragraph (b)(3)(iv) of this section);

(iv) Sales, purchases, and amounts paid and received as consideration for the use of all intangible property, including (but not limited to) copyrights, designs, formulas, inventions, models, patents, processes, trademarks, and other similar intangible property rights;

(v) Consideration paid and received for technical, managerial, engineering, construction, scientific, or other services;

(vi) Commissions paid and received;

(vii) Amounts loaned and borrowed (except open accounts resulting from sales and purchases reported under other items listed in this paragraph (b)(3) that arise and are collected in full in the ordinary course of business);

(viii) Interest paid and received;

(ix) Premiums paid and received for insurance and reinsurance; and

(x) Other amounts paid or received not specifically identified in this paragraph (b)(3) to the extent that such amounts are taken into account for the determination and computation of the taxable income of the reporting corporation.

Amounts required to be reported under paragraph (b)(3)(vii) of this section shall be reported as monthly averages or outstanding balances at the beginning and end of the taxable year, as the form shall prescribe.

(4) *Foreign related party transactions involving nonmonetary consideration or less than full consideration.* If the related party is a foreign person, the reporting corporation must provide on Form 5472 a description of any reportable transaction, or group of reportable transactions, listed in paragraph (b)(3) of this section, for which any part of the consideration paid or received was not monetary consideration, or for which less than full consideration was paid or received. A description required under paragraph (b)(4) of this section shall include sufficient information from which to determine the nature and approximate monetary value of the transaction or group of transactions, and shall include:

(i) A description of all property (including monetary consideration), rights, or obligations transferred from the reporting corporation to the foreign related party and from the foreign related party to the reporting corporation;

(ii) A description of all services performed by the reporting corporation for the foreign related party and by the foreign related party for the reporting corporation; and

(iii) A reasonable estimate of the fair market value of all properties and services exchanged, if possible, or some other reasonable indicator of value.

If, for any transaction, the entire consideration received includes both tangible and intangible property and the consideration paid is solely monetary consideration, the transaction should be reported under paragraph (b)(3) of this section if the intangible property was related and incidental to the transfer of the tangible property (for example, a right to warranty services.)

(5) *Additional information.* In addition to the information required under paragraphs (b) (3) and (4) of this section, a reporting corporation must provide on Form 5472, in the manner the form prescribes, the following information:

(i) If the reporting corporation imports goods from a foreign related party, whether the costs taken into account in computing the basis or inventory cost of such goods are greater than the costs taken into account in computing the valuation of the goods for customs purposes, adjusted pursuant to section 1059A and the regulations thereunder, and if so, the reasons for the difference.

(ii) If the costs taken into account in computing the basis or inventory cost of such goods are greater than the costs taken into account in computing the valuation of the goods for customs purposes, whether the documents supporting the reporting corporation's treatment of the items set forth in paragraph (b)(5)(i) of this section are in existence and available in the United States at the time Form 5472 is filed.

(6) *Reasonable estimate*—(i) *Estimate within 25 percent of actual amount.* Any amount reported under this section is considered to be a reasonable estimate if it is at least 75 percent and not more than 125 percent of the actual amount.

(ii) *Other estimates.* If any amount reported under this paragraph (b) of this section fails to meet the reasonable estimate test of paragraph (b)(6)(i) of this section, the reporting corporation nevertheless may show that such amount is a reasonable estimate by making an affirmative showing of relevant facts and circumstances in a written statement containing a declaration that it is made under the penalties of perjury. The District Director shall determine whether the amount reported was a reasonable estimate.

(7) *Small amounts.* If any actual amount required under this section does not exceed $50,000, the amount may be reported as "$50,000 or less."

(8) *Accrued payments and receipts.* For purposes of this section, in the case of an accrual basis taxpayer, the terms "paid" and "received" shall include accrued payments and receipts, respectively.

(c) *Method of reporting.* All statements required on or with the Form 5472 under this section and § 1.6038A–5 shall be in the English language. All amounts required to be reported under paragraph (b) of this section shall be expressed in United States currency, with a statement of the exchange rates used.

(d) *Time and place for filing returns.* A Form 5472 required under this section shall be filed with the reporting corporation's income tax return for the taxable year by the due date (including extensions) of that return. A duplicate Form 5472 (including any attachments and schedules) shall be filed at the same time with the Internal Revenue Service Center, Philadelphia, PA 19255.

(e) *Untimely filed return.* If the reporting corporation's income tax return is untimely filed, Form 5472 (with a duplicate to Philadelphia) nonetheless shall be timely filed at the service center where the return is due. When the income tax return is ultimately filed, a copy of Form 5472 must be attached.

(f) *Exceptions—(1) No reportable transactions.* A reporting corporation is not required to file Form 5472 if it has no transactions of the types listed in paragraphs (b) (3) and (4) of this section during the taxable year with any related party.

(2) *Transactions solely with a domestic reporting corporation.* If all of a foreign reporting corporation's reportable transactions are with one or more related domestic reporting corporations that are not members of the same affiliated group, the foreign reporting corporation shall furnish on Form 5472 only the information required under paragraphs (b) (1) and (2) of this section, if the domestic reporting corporations provide the information required under paragraphs (b) (3) through (5) of this section. Such a foreign reporting corporation nonetheless is subject to the record maintenance requirements of § 1.6038A–3 and the requirements of §§ 1.6038A–5 and 1.6038A–6. The name, address, and taxpayer identification number of each domestic reporting corporation that provided such information must be indicated on Form 5472 in the space provided for the information under paragraphs (b) (1) and (2) of this section.

(3) *Transactions with a corporation subject to reporting under section 6038.* A reporting corporation is not required to make a return of information on Form 5472 with respect to a related foreign corporation for a taxable year for which a U.S. person that controls the foreign related corporation makes a return of information on Form 5471 that is required under section 6038 and this section, if that return contains information required under § 1.6038–2(f)(11) with respect to the reportable transactions between the reporting corporation and the related corporation for that taxable year. Such a reporting corporation also is not subject to §§ 1.6038A–3 and 1.6038A–5. It remains subject to the general record maintenance requirements of section 6001.

(4) *Transactions with a foreign sales corporation.* A reporting corporation is not required to make a return of information on Form 5472 with respect to a related corporation that qualifies as a foreign sales corporation for a taxable year for which the foreign sales corporation files Form 1120–FSC.

(g) *Filing Form 5472 when transactions with related parties engaged in by a partnership are attributed to a reporting corporation.* If transactions engaged in by a partnership are attributed under § 1.6038A–1(e)(2) to a reporting corporation, the reporting corporation need report on Form 5472 only the percentage of the value of the transaction or transactions equal to the percentage of its partnership interest. Thus, for example, if a partnership buys $1000 of widgets from the foreign parent of a reporting corporation whose partnership interest in the partnership equals 50 percent of the partnership interests (and the remaining 50 percent is held by unrelated parties), the reporting corporation must report $500 of purchases from a foreign related party on Form 5472.

(h) *Effective dates for certain reporting corporations.* For effective dates for this section, see § 1.6038A–1(n).

§ 1.6038A–3 Record maintenance.

(a) *General maintenance requirements*—(1) Section 6001 and section 6038A. A reporting corporation must keep the permanent books of account or records as required by section 6001 that are sufficient to establish the correctness of the federal income tax return of the corporation, including information, documents, or records ("records") to the extent they may be relevant to determine the correct U.S. tax treatment of transactions with related parties. Under section 6001, the District Director may require any person to make such returns, render such statements, or keep such specific records as will enable the District Director to determine whether or not that person is liable for any of the taxes to which the regulations under part I have application. See section 6001 and the regulations thereunder. Such records must be permanent, accurate, and complete, and must clearly establish income, deductions, and credits. Additionally, in appropriate cases, such records include sufficient relevant cost data from which a profit and loss statement may be prepared for products or services transferred between a reporting corporation and its foreign related parties. This requirement includes records of the reporting corporation itself, as well as to records of any foreign related party that may be relevant to determine the correct U.S. tax treatment of transactions between the reporting corporation and foreign related parties. The relevance of such records with respect to related party transactions shall be determined upon the basis of all the facts and circumstances. Section 6038A and this section provide detailed guidance regarding the required maintenance of records with respect to such transactions and specify penalties for noncompliance. Banks and other financial institutions shall follow the

VOL 56 ISS 118 JE 19 1991 UMI

specific record maintenance rules described in paragraph (b) of this section.

(2) *Safe harbor.* A safe harbor for record maintenance is provided under paragraph (c) of this section, which sets forth detailed guidance concerning the types of records to be maintained with respect to related party transactions. The safe harbor consists of an all-inclusive list of record types that could be relevant to different taxpayers under a variety of facts and circumstances. It does not constitute a checklist of records that every reporting corporation must maintain or that generally should be requested by the Service. A specific reporting corporation is required to maintain, and the Service will request, only those records enumerated in the safe harbor (including material profit and loss statements) that may be relevant to its business or industry and to the correct U.S. tax treatment of its transactions with its foreign related parties. Accordingly, not every item listed in the safe harbor must be maintained by every reporting corporation. A corporation that maintains or causes another person to maintain the records listed in paragraph (c)(2) of this section that may be relevant to its foreign related party transactions and to its business or industry will be deemed to have met the record maintenance requirements of section 6038A.

(3) *Examples.* The following examples illustrate the rules of this paragraph.

Example 1. RC, a U.S. reporting corporation, is owned by two shareholders, F and P. F is a foreign corporation that owns 30 percent of the stock of RC. P is a domestic corporation that owns the remaining 70 percent. RC purchases tangible property from F; however, the only potential audit issue with respect to these transactions is their treatment under section 482. It is determined that F does not in fact control RC and the two corporations do not constitute a group of "controlled taxpayers" for purposes of section 482 and the regulations thereunder. There are no other reportable transactions between RC and F. Under § 1.6038A–1(g), F is a foreign related party with respect to RC. Accordingly, RC is required to report its purchases of property from F under the reporting requirements of § 1.6038A–2. Nevertheless, because section 482 is not applicable to the transactions between RC and F, the records created by F with respect to its sales to RC are not relevant for purposes of determining the correct tax treatment of these transactions. RC is required to maintain its own records of these transactions under the requirements of section 6001, but the transactions are not subject to the record maintenance requirements of this section. If, however, on audit it is determined that F does control RC, all records relevant to determining the arm's length consideration for the tangible property under section 482 will be subject to these requirements.

Example 2. FP, a foreign person, owns 30 percent of the stock of RC, a reporting corporation. The remaining 70 percent of RC stock is held by persons that are not 25-percent foreign shareholders. It is determined that FP is related to RC within the meaning of section 482 and the regulations thereunder. The only transactions between FP and RC are FP's capital contributions, dividends paid from RC to FP, and loans from FP to RC. Under section 6001, RC is required to maintain all documentation necessary to establish the U.S. tax treatment of the capital contributions, dividends, and loans. RC is not required to maintain records in other categories listed in paragraph (c)(3) of this section because they are not relevant to the transactions between FP and RC. Records of FP not related to these transactions are not subject to the record maintenance requirements under section 6038A(a) and this section.

Example 3. G, a foreign multinational group, creates Sub, a wholly-owned U.S. subsidiary, in order to purchase tangible property from unrelated parties in the United States and resell such property to G. The property purchased by Sub is either used in G's business or resold to other unrelated parties by G. Sub's sole function is to act as a buyer for G and these purchases are the only transactions that G has with any U.S. affiliates. Under all the facts and circumstances of this case, it is determined that an analysis of the group's worldwide profit attributable to the property it purchases from Sub is not relevant for purposes of determining the tax treatment of the sales from Sub to G. Therefore, the records with respect to the profitability of G are not subject to the maintenance requirements of this section. However, all records related to the appropriate method under section 482 for determining an arm's-length consideration for the property sold by Sub to G are subject to the record maintenance requirements of this section.

Example 4. S, a U.S. reporting corporation, is the purchasing agent for its multinational parent group. It arranges for the purchase and export of miscellaneous tangible property to X, Y, and Z, each of which is a foreign related party. The miscellaneous tangible property is purchased from unrelated third parties for resale to X, Y, and Z. These resales of miscellaneous tangible property constitute the sole transactions between S and X, Y, and Z. The purchasing agent activity of S is not an integral part of the business activity of S or of any beneficiary of the purchasing agent services provided by S as defined in § 1.482–2(b)(7). Under § 1.482–2(b)(7), the arm's-length charge is deemed to be equal to the costs or deductions incurred with respect to the provision of the purchasing agent services. S is required to maintain records to permit verification upon audit of such costs or deductions. The records of X, Y, and Z are not relevant to the costs or deductions incurred by S with respect to its purchasing agent activities. Therefore, under section 6038A and this section, only the records maintained by S that permit verification of the costs and deductions of the purchasing agent services are relevant. Accordingly, solely with respect to these transactions, records of X, Y, and Z need not be maintained under section 6038A or this section. If, however, upon audit, it is determined that S is not merely engaging in services not integral to its business as defined in § 1.482–2(b)(7), the record maintenance requirements under section 6038A(a) and this section will be applicable to the records of S, X, Y and Z to the extent that such records are relevant for determining the correct tax treatment of transactions engaged in by X, Y, or Z with S. If S has other transactions with X, S must maintain or cause to be maintained records that may be relevant with respect to those transactions.

(b) *Other maintenance requirements*—(1) *Indirectly related records.* This section applies to records that are directly or indirectly related to transactions between the reporting corporation and any foreign related parties. An example of records that are indirectly related to such transactions is records possessed by a foreign subsidiary of a foreign related party that document the raw material or component costs of a product that is manufactured or assembled by the subsidiary and sold as a finished product by the foreign related party to the reporting corporation.

(2) *Foreign related party or third-party maintenance.* If records that are required to be maintained under this section are in the control of a foreign related party, the records may be obtained or compiled (if not already in the possession of the foreign related party or already compiled) under the direction of the reporting corporation and then maintained by the reporting corporation, the foreign related party, or a third party. Thus, for example, a foreign related party may either itself maintain such records outside the United States or permit a third party to maintain such records outside the United States, provided that the conditions described in paragraph (f) of this section are met. Upon a request for such records by the Service, a foreign related party or third party may make arrangements with the District Director to furnish the records directly, rather than through the reporting corporation.

(3) *Translation of records.* When records are provided to the Service under a request for production, any portion of such records must be translated into the English language within 30 days of a request for translation of that portion by the District Director. To the extent that any requested documents are identical to documents that have already been translated, an explanation of how such documents are identical instead may be provided. An extension of this time period may be requested under paragraph (f)(4) of this section. Appropriate extensions will be liberally granted for translation requests where circumstances warrant. If a good faith effort is made to translate accurately the requested documents within the specified time period, the reporting corporation will not be subject to the penalties in §§ 1.6038A–4 and 1.6038A–7.

(4) *Exception for foreign governments.* A foreign government is not subject to the obligation to maintain records under this section.

(c) *Specific records to be maintained for safe harbor*—(1) *In general.* A reporting corporation that maintains or causes another person to maintain the records specified in this paragraph (c) that are relevant to its business or industry and to the correct U.S. tax treatment of its transactions with its foreign related parties will deemed to have met the record maintenance requirements of this section. This paragraph provides general descriptions of the categories of records to be maintained; the particular title or label applied by a reporting corporation or related party does not control. Functional equivalents of the specified documents are acceptable. Record maintenance in accordance with this safe harbor, however, requires only the maintenance of types of documents described in paragraph (c)(2) of this section that are directly or indirectly related to transactions between the reporting corporation and any foreign related party. Additionally, to the extent the reporting corporation establishes that records in a particular category are not applicable to the industry or business of the reporting corporation and any foreign related party, maintenance of such records is not required under this paragraph. Record maintenance in accordance with this paragraph (c) generally does not require the original creation of records that are ordinarily not created by the reporting corporation or its related parties. (If, however, a document that is actually created is described in this paragraph (c), it is to be maintained even if the document is not of the type ordinarily created by the reporting corporation or its related parties.) There are two exceptions to the rule. First, basic accounting records that are sufficient to document the U.S. tax effects of transactions between related parties must be created and retained, if they do not otherwise exist. Second, records sufficient to produce material profit and loss statements as described in paragraphs (c)(2) (ii) and (3) of this section that are relevant for determining the U.S. tax treatment of transactions between the reporting corporation and foreign related parties must be created if such records are not ordinarily maintained. All internal records storage and retrieval systems used for each taxable year must be retained.

(2) *Descriptions of categories of documents to be maintained.* The following records must be maintained in order to satisfy this paragraph (c) to the extent they may be relevant to determine the correct U.S. tax treatment of transactions between the reporting corporation and any foreign related party.

(i) *Original entry books and transaction records.* This category includes books and records of original entry or their functional equivalents, however designated or labelled, that are relevant to transactions between any foreign related party and the reporting corporation. Examples include, but are not limited to, general ledgers, sales journals, purchase order books, cash receipts books, cash disbursement books, canceled checks and bank statements, workpapers, sales contracts, and purchase invoices. Descriptive material to explicate entries in the foregoing types of records, such as a chart of accounts or an accounting policy manual, is included in this category.

(ii) *Profit and loss statements.* This category includes records from which the reporting corporation can compile and supply, within a reasonable time, material profit and loss statements of the reporting corporation and all related parties as defined in § 1.6038A–1 (d) (the "related party group") that reflect profit or loss of the related party group attributable to U.S.-connected products or services as defined in paragraph (c)(7)(i) of this section. The determination of whether a profit and loss statement is material is made under the rules provided in paragraph (c)(3) of this section. The material profit and loss statements described in this paragraph (c)(2)(ii) must reflect the consolidated revenue and expenses of all members of the related party group. Thus, records in this category include the documentation of the cost of raw materials used by a related party to manufacture finished goods that are then sold by another related party to the reporting corporation. The records should be kept under U.S. generally accepted accounting principles if they are ordinarily maintained in such manner; if not, an explanation of the material differences between the accounting principles used and U.S. generally accepted accounting principles must be made available. The statements need not reflect tracing of the actual costs borne by the group with respect to its U.S.-connected products or services; rather, any reasonable method may be used to allocate the group's worldwide costs to the revenues generated by the sales of those products or services. An explanation of the methods used to allocate specific items to a particular profit and loss statement must be made available. The explanation of material differences between accounting principles and the explanation of allocation methods must be sufficient to permit a comparison of the profitability of the group to that of the reporting corporation attributable to the provision of U.S.-connected products or services.

(iii) *Pricing documents.* This category includes all documents relevant to establishing the appropriate price or rate for transactions between the reporting corporation and any foreign related party. Examples include, but are not limited to, documents related to transactions involving the same or similar products or services entered into by the reporting corporation or a foreign related party with related and unrelated parties; shipping and export documents; commission agreements; documents relating to production or assembly facilities; third-party and intercompany purchase invoices; manuals, specifications, and similar documents relating to or describing the performance of functions conducted at particular locations; intercompany correspondence discussing any instructions or assistance relating to such transactions provided to the reporting corporations by the related foreign person (or vice versa); intercompany and intracompany correspondence concerning the price or the negotiation of the price used in such transactions; documents related to the value and ownership of intangibles used or developed by the reporting corporation or the foreign related party; documents related to cost of goods sold and other expenses; and documents related to direct and indirect selling, and general and administrative expenses (for example, relating to advertising, sales promotions, or warranties).

(iv) *Foreign country and third party filings.* This category includes financial and other documents relevant to transactions between a reporting corporation and any foreign related party filed with or prepared for any foreign government entity, any independent commission, or any financial institution.

(v) *Ownership and capital structure records.* This category includes records

VOL 56 ISS 118 JE 19 1991 UMI

or charts showing the relationship between the reporting corporation and the foreign related party; the location, ownership, and status (for example, joint venture, partnership, branch, or division) of all entities and offices directly or indirectly involved in the transactions between the reporting corporation and any foreign related party; a worldwide organization chart; records showing the management structure of all foreign affiliates; and loan documents, agreements, and other documents relating to any transfer of the stock of the reporting corporation that results in the change of the status of a foreign person as a foreign related party.

(vi) *Records of loans, services, and other non-sales transactions.* This category includes relevant documents relating to loans (including all deposits by one foreign related party or reporting corporation with an unrelated party and a subsequent loan by that unrelated party to a foreign related party or reporting corporation that is in substance a direct loan between a reporting corporation and a foreign related party); guarantees of a foreign related party of debts of the reporting corporation, and vice versa; hedging arrangements or other risk shifting or currency risk shifting arrangements involving the reporting corporation and any foreign related party; security agreements between the reporting corporation and any foreign related party; research and development expense allocations between any foreign related party and the reporting corporation; service transactions between any foreign related party and the reporting corporation, including, for example, a description of the allocation of charges for management services, time or travel records, or allocation studies; import and export transactions between a reporting corporation and any foreign related party; the registration of patents and copyrights with respect to transactions between the reporting corporation and any foreign related party; and documents regarding lawsuits in foreign countries that relate to such transactions between a reporting corporation and any foreign related party (for example, product liability suits for U.S. products).

(3) *Material profit and loss statements.* For purposes of paragraph (c)(2)(ii) of this section, the determination of whether a profit and loss statement is material will be made according to the following rules. An agreement between the reporting corporation and the District Director as described in paragraph (e) of this section may identify material profit and loss statements of the related party group and describe the items to be included in any profit and loss statements for which records are to be maintained to satisfy the requirements of paragraph (c)(2)(ii) of this section. In the absence of such an agreement, a profit and loss statement will be material if it meets any of the following tests: the existing records test described in paragraph (c)(4) of this section, the significant industry segment test described in paragraph (c)(5) of this section, or the high profit test described in paragraph (c)(6) of this section.

(4) *Existing records test.* A profit and loss statement is material under the existing records test described in this paragraph (c)(4) if any member of the related party group creates or compiles such statement in the course of its business operations and the statement reflects the profit or loss of the related party group attributable to the provision of U.S.-connected products or services (regardless of whether the profit and loss attributable to U.S.-connected products or services is shown separately or included within the calculation of aggregate figures on the statement). For example, a profit and loss statement is described in this paragraph if it was produced for internal accounting or management purposes, or for disclosure to shareholders, financial institutions, government agencies, or any other persons. Such existing statements and the records from which they were complied (to the extent such records relate to profit and loss attributable to U.S.-connected products or services) are subject to the record maintenance requirements described in paragraph (c)(2)(ii) of this section.

(5) *Significant industry segment test*—(i) *In general.* A profit and loss statement is material under the significant industry segment test described in this paragraph (c)(5) if—

(A) The statement reflects the profit or loss of the related party group attributable to the group's provision of U.S.-connected products or services within a single industry segment (as defined in paragraph (c)(7)(ii) of this section);

(B) The worldwide gross revenue attributable to such industry segment is 10 percent or more of the worldwide gross revenue attributable to the group's combined industry segments; and

(C) The amount of gross revenue earned by the group from the provision of U.S.-connected products or services within such industry segment is $25 million or more in the taxable year.

(ii) *Form of the statements.* Profit and loss statements compiled for the group's provision of U.S.-connected products or services in each significant industry segment must reflect revenues and expenses attributable to the operations in such segment by all members of the related party group. Statements may show each related party's revenues and expenses separately, or may be prepared in a consolidated format. Any reasonable method may be used to allocate the group's worldwide costs within the industry segment to the U.S.-connected products or services within that segment. An explanation of the methods used to prepare consolidated statements and to allocate specific items to a particular profit and loss statement must be made available, and the records from which the consolidations and allocations were prepared must be maintained.

(iii) *Special rule for component sales.* Where the U.S.-connected products or services consist of components that are incorporated into other products or services before sale to customers, the portion of the total gross revenue derived from sales of the finished products or services attributable to the components may be determined on the basis of relative costs of production. Thus, where relevant for determining whether the $25 million threshold in paragraph (c)(5)(i)(C) of this section has been met, the amount of gross revenue derived by the related party group from the provision of the finished products or services may be reduced by multiplying it by a fraction, the numerator of which is the costs of production of the related party group attributable to the component products or services that constitute U.S.-connected products or services and the denominator of which is the costs of production of the related party group attributable to the finished products in which such components are incorporated.

(iv) *Level of specificity required.* In applying the significant industry segment test of this paragraph (c)(5), groups of related products and services must be chosen to provide a reasonable level of specificity that results in the greatest number of separate significant industry segments in comparison to other possible classifications. This determination must be made on the basis of the particular facts presented by the operations of the related party group. The following rules, however, provide general guidelines for making such classifications. First, the related party group's operations that involve the provision of U.S.-connected products should be grouped into product lines. The rules of this paragraph (c)(5) should then be applied to determine if any such product line would, standing alone, constitute a significant industry segment when compared to the related party group's operations as a whole. Any significant industry segments determined at the level of product lines should be further segregated, and tested for significant industry segments, at the level of separate products. Finally, any significant industry segments determined at the level of separate products should be segregated, and tested for significant industry segments, at the level of separate models. Similar principles should be applied in classifying and testing types of services. A profit and loss statement reflecting the related party group's provision of any product or service (or group of products or services as classified under these rules) that constitutes a significant industry segment will be considered material for purposes of this paragraph (c)(5). For definitions of the terms "product", "related products or services", "model", and "product line", see paragraph (c)(7) of this section.

(v) *Examples.* The rules for determining reasonable levels of specificity for significant industry segments may be illustrated by the following examples.

Example 1. A related party group is engaged in the manufacture and worldwide sales of automobiles and aftermarket parts. The group's operations within the categories of "automobiles" and "aftermarket parts", are each sufficient to constitute significant industry segments for the group under the rules of this paragraph (c)(5). No narrower classification of aftermarket parts results in any significant industry segments. Automobiles produced by the group are generally classified for marketing purposes by trade names; aggregating groups of automobiles by these trade names results in three significant industry segments, those for trade names A, B, and C. Finally, two car models sold under the trade name A ("A1" and "A2") and one car model sold under the trade name B ("B3"), produce sufficient revenue to constitute significant industry segments. Such classifications into trade names and car models are generally used in the related party group's industry; moreover, different types of classifications would produce fewer significant industry segments. Accordingly, a reasonable level of specificity for this related party group's industry segments would be eight categories of products consisting of "automobiles", "aftermarket parts", "A", "B", "C", "A1", "A2", and "B3".

Example 2. A related party group is engaged in manufacturing electronic goods that are distributed at retail in the United States by the reporting corporation. The group sells three types of products in the United States: televisions, radios, and video cassette recorders (VCRs). Each of these three broad product areas constitutes a significant industry segment for the group as a whole. VCRs can be further segregated by price into high-end and low-end models, and the provision of each constitutes a significant industry segment for the group. Revenues from only one VCR model, model number VCRX-10, are sufficiently large to make the provision of that model a significant industry segment. With respect to televisions, the group normally accounts for these products by size. Using this classification, portable televisions, medium-sized televisions, and consoles each constitute significant industry segments. Narrower classifications by television model numbers result in no additional significant industry segments. Finally, a single radio product line, those sold under the trade name R, produces sufficient revenue to constitute a significant industry segment, but no other radio models or product groups are large enough to constitute a significant industry segment. In each case, these classifications conform to normal business practices in the industry and result in the greatest possible number of significant industry segments for this related party group. Accordingly, a reasonable level of specificity for this related party group's industry segments would include the ten categories consisting of "VCRs", "high-end VCRs", "low-end VCRs", "model number VCRX-10", "televisions", "portable televisions", "medium-sized televisions", "console televisions", "radios", and "radio trade name R".

(6) *High profit test*—(i) *In general.* A profit and loss statement is material under the high profit test described in this paragraph (c)(6) if—

(A) The statement reflects the profit or loss of the related party group attributable to the group's provision of U.S.-connected products or services within a single industry segment (as defined in paragraph (c)(7)(ii) of this section);

(B) The amount of gross revenue earned by the group from the provision of U.S.-connected products or services within such industry segment is $100 million or more in the taxable year; and

(C) The return on assets test described in paragraph (c)(6)(ii) of this section is satisfied with respect to the products and services attributable to such segment.

Accordingly, a significant industry segment (as determined under paragraph (c)(5) of this section) must be divided into any narrower industry segments that meet the high profit test of this paragraph (c)(6), even if such narrower segments would not, standing alone, meet the significant industry segment test of paragraph (c)(5) of this section.

(ii) *Return on assets test.* An industry segment meets the return on assets test if the rate of return on assets earned by the related party group on its worldwide operations within this industry segment exceeds 15 percent, and is at least 200 percent of the return on assets earned by the group in all industry segments combined. For purposes of this paragraph, the rate of return on assets earned by an industry segment is determined by dividing that segment's operating profit (as defined in paragraph (c)(7)(v) of this section) by its identifiable assets (as defined in paragraph (c)(7)(iv) of this section).

(iii) *Additional rules.* The rules in paragraphs (c)(5)(ii) through (iv) of this section describing the application of the significant industry segment test shall apply in a similar manner for purposes of the high profit test.

(7) *Definitions.* The following definitions apply for purposes of paragraphs (c)(2)(ii), (c)(5), and (c)(6) of this section.

(i) *U.S. connected products or services.* The term "U.S.-connected products or services" means products or services that are imported to or exported from the United States by transfers between the reporting corporation and any of its foreign related parties.

(ii) *Industry segment.* An industry segment is a segment of the related party group's combined operations that is engaged in providing a product or service or a group of related products or services (as defined in paragraph (c)(7)(vii) of this section) primarily to customers that are not members of the related party group.

(iii) *Gross revenue of an industry segment.* Gross revenue of an industry segment includes receipts (prior to reduction for cost of goods sold) both from sales to customers outside of the related party group and from sales or transfers to other industry segments within the related party group (but does not include sales or transfers between members of the related party group within the same industry segment). Interest from sources outside the related party group and interest earned on trade receivables between industry segments is included in gross revenue if the asset on which the interest is earned is included among the industry segment's identifiable assets, but interest earned on advances or loans to other industry segments is not included.

(iv) *Identifiable assets of an industry segment.* The identifiable assets of an industry segment are those tangible and intangible assets of the related party group that are used by the industry segment, including assets that are used exclusively by that industry segment and an allocated portion of assets used jointly by two or more industry segments. The value of an identifiable asset may be determined using any

VOL 56 ISS 118 JE 19 1991 UMI

reasonable method (such as book value or fair market value) applied consistently. Any allocation of assets among industry segments must be made on a reasonable basis, and a description of such basis must be provided. Assets of an industry segment that transfers products or services to another industry segment shall not be allocated to the receiving segment. Assets that represent part of the related party group's investment in an industry segment, such as goodwill, shall be included in the industry segment's identifiable assets. Assets maintained for general corporate purposes (that is, those not used in the operations of any industry segment) shall not be allocated to industry segments.

(v) *Operating profit of an industry segment.* The operating profit of an industry segment is its gross revenue (as defined in paragraph (c)(7)(iii) of this section) minus all operating expenses. None of the following shall be added or deducted in computing the operating profit of an industry segment: revenue earned at the corporate level and not derived from the operations of any industry segment; general corporate expenses; interest expense; domestic and foreign income taxes; and other extraordinary items not reflecting the ongoing business operations of the industry segment.

(vi) *Product.* The term "product" means an item of property (or combination of component parts) that is the result of a production process, is primarily sold to unrelated parties (or incorporated by the related party group into other products sold to unrelated parties), and performs a specific function.

(vii) *Related products or services.* The term "related products or services" means groupings of products and types of services that reflect reasonable accounting, marketing, or other business practices within the industries in which the related party group operates.

(viii) *Model.* The term "model" means a classification of products that incorporate particular components, options, styles, and any other unique features resulting in product differentiation. Examples of models are electronic products that are sold or accounted for under a single model number and automobiles sold under a single model name.

(ix) *Product line.* The term "product line" means a group of products that are aggregated into a single classification for accounting, marketing, or other business purposes. Examples of product lines are groups of products that perform similar functions; products that are marketed under the same trade names, brand names, or trademarks; and products that are related economically (that is, having similar rates of profitability, similar degrees of risk, and similar opportunities for growth).

(6) *Example.* The application of the rules for determining material profit and loss statements under paragraphs (c)(4) through (7) of this section is illustrated by the following example.

Example. (i) *Facts.* A multinational enterprise manufactures 50 different agricultural and chemical products that are sold through Subl, its wholly owned U.S. subsidiary, and other subsidiaries located in foreign countries. The parent company of the enterprise, P, is a foreign corporation. The corporations participating in the enterprise form a related party group, and Subl is a reporting corporation for purposes of section 6038A. Under the facts and circumstances of this case, an analysis of the group's worldwide profit attributable to its products sold in the U.S. is relevant for determining an arm's length consideration under section 482 for the transfers of goods between Subl and its foreign affiliates.

(ii) *Existing records test.* For management purposes, the group prepares profit and loss statements that are segmented by sales in different geographic markets. One of these statements shows the combined worldwide profitability of the group. Another statement shows the profitability of the group attributable to its North American sales. Both of these profit and loss statements reflect aggregate figures that include sales to unrelated parties of products that have been transferred from P and other group members to Subl (that is, the group's "U.S.-connected products"). The two statements meet the existing records test described in paragraph (c)(4) of this section.

(iii) *Significant industry segments.* The group's worldwide gross revenue in all industry segments is $2 billion. An analysis of the group's 50 products demonstrates that they are reasonably grouped into eight industry segments (each of which earns roughly $250 million in worldwide gross revenue). Segments 1 through 6 relate to agricultural products and Segments 7 and 8 relate to other chemical products. More specific categories would result in groupings that generate less than 10 percent of the group's worldwide gross revenue (that is, less than $200 million each); these narrower categories would thus fail the gross revenue percentage test of paragraph (c)(5)(i)(B) of this section. The gross revenue in each of the eight segments from the sale to unrelated parties of U.S.-connected products is as follows: $180 million for Segment 1; $30 million for Segment 2; and less than $25 million for each of Segments 3 through 8. Under the $25 million threshold test of paragraph (c)(5)(i)(C) of this section, the group's significant industry segments are thus limited to Segments 1 and 2. In addition, the combined operations of the group related to agricultural products (encompassing Segments 1 through 6 on an aggregated basis), constitute a single significant industry segment.

(iv) *High profit test.* One highly profitable product line within Segment 1, HPPL, accounts for $120 million gross revenue from Sub1's domestic sales of U.S.-connected products (and thus exceeds the $100 million gross revenue threshold in paragraph (c)(6)(i)(B) of this section). The return on the identifiable assets attributable to the HPPL product line is 85 percent, which is more than 15 percent and more than twice the return on assets earned by the group from its worldwide operations in its combined industry segments. The group's industry segment for HPPL thus meets the high profit test described in paragraph (c)(6) of this section.

(v) *Material Profit and Loss Statements.* The group's material profit and loss statements consist of statements for combined worldwide sales and North American sales (under the existing records test); Segment 1, Segment 2, and aggregated Segments 1–6 (under the significant industry segment test); and HPPL (under the high profit test). Under paragraph (c) of this section, Subl is required to retain the combined worldwide sales and North American sales profit and loss statements and to maintain sufficient records so that it can compile and supply upon request statements of the group's profitability from sales of its U.S.-connected products within Segment 1, Segment 2, aggregated Segments 1–6, and HPPL. These records need not be in the possession of Subl and may be kept under the control of and produced by P or any third party. The statements for Segment 1, Segment 2, aggregated Segments 1–6, and HPPL do not require tracing of actual costs to the U.S.-connected products; rather, these statements may be prepared by using any reasonable method to allocate a portion of the industry segment's overall operating costs to the sales of U.S.-connected products within that segment.

(d) *Liability for certain partnership record maintenance.* A reporting corporation to which transactions engaged in by a partnership are attributed under § 1.6038A–1 (e)(2) is subject to the record maintenance requirements of this section to the extent of the transactions so attributed.

(e) *Agreements with the District Director*—(1) *In general.* The District Director who has audit jurisdiction over the reporting corporation may negotiate and enter into an agreement with a reporting corporation that establishes the records the reporting corporation must maintain or cause another to maintain, how the records must be maintained, the period of retention for the records, and by whom the records must be maintained in order to satisfy the reporting corporation's obligations under this section.

(2) *Content of agreement*—(i) *In general.* The agreement may include provisions relating to the authorization of agent requirement, the record maintenance requirement, and the production and translation time periods that vary the rules contained in these regulations under section 6038A. The District Director will generally require a reporting corporation to maintain only those records specified under the safe harbor provisions of paragraph (c) of this section that permit an adequate audit of the income tax return of the reporting corporation and to provide such authorizations of agent that permit adequate access to such records. In most instances, required record maintenance for a particular reporting corporation under a negotiated agreement will be less than the broad range of records described under the safe harbor provisions. Additionally, a provision specifying the effective date and the expiration date of the agreement that may vary the effective date of the regulations may be included.

(ii) *Significant industry segment test.* A District Director may determine which industry segment profit and loss statements are material for purposes of requiring the maintenance of records (under either paragraph (a)(1) of this section or the safe harbor described in paragraph (a)(2) of this section). The industry segments that the District Director determines are material need not be the industry segments that meet the significant industry segment test under paragraph (c)(5) of this section or the high profit test under paragraph (c)(6) of this section. For this purpose, a reporting corporation will be required to maintain only those records from which profit and loss statements for the related party group may be constructed with respect to industry segments identified by the District Director. To the extent that existing profit and loss statements are similar in scope and level of detail to statements for industry segments that would otherwise be described under the tests of paragraphs (c)(5) and (6) of this section, the District Director shall accept the existing statements instead of the statements that would otherwise be required under paragraphs (c)(5) and (6) of this section.

(iii) *Example.* The following example illustrates the rules of paragraph (e)(2)(ii) of this section.

Example. The District Director determines that RC, a reporting corporation that is a manufacturer of related chemical products, has two industry segments, Segment 1 and Segment 2. While both industry segments meet the significant industry segment test of paragraph 3(c)(5) of this section, Segment 1 has a relatively low volume of sales to foreign related parties. Additionally, Segment 1 consists of products that produce only a small profit margin because the product is generic and other companies also sell the product. The District Director enters into an agreement with RC that requires only records from which a profit and loss statement for the related party group can be constructed for Segment 2. Therefore, RC is not required to maintain records for Segment 1 from which a profit and loss statement for the related party group can be constructed. The other record maintenance requirements under this section apply, however.

(3) *Circumstances of agreement.* The District Director generally will enter into an agreement under this paragraph (e) upon request by the reporting corporation when the District Director believes that the District has or can obtain sufficient knowledge of the business or industry of the reporting corporation to limit the record maintenance requirement to particular documents.

(4) *Agreement as part of APA process.* An agreement with a reporting corporation under this paragraph (e) may be entered into as a part of the Advance Pricing Agreement (APA) process at any time during the APA process, insofar as the agreement relates to the subject matter of the APA.

(f) *U.S. maintenance*—(1) *General rule.* Records that must be maintained under this section must be maintained within the United States, unless the conditions described in paragraph (f)(2) of this section are met.

(2) *Non-U.S. maintenance requirements.* A reporting corporation may maintain outside the United States records not ordinarily maintained in the United States but required to be maintained in the United States under this section. However, the reporting corporation must either:

(i) Deliver to the Service the original documents (or duplicates) requested within 60 days of the request by the Service for such records and provide translations of such documents within 30 days of a request for translations of specific documents; or

(ii) Move the original documents (or duplicates) requested to the United States within 60 days of the request of the Service for such records; provide the Service with an index to the requested records, the name and address of a custodian located within the United States having control over the records, and the address where the records are located within 60 days of the Service's request for the records; and continue to maintain the records within the United States throughout the period of retention described in paragraph (g) of this section. For summons procedures with respect to records that have been moved to the United States, see sections 6038A(e), 7602, 7603, and 7604.

With respect to any material profit and loss statements required to be created (either under paragraph (c) of this section or under an agreement with the District Director), unless otherwise specified, "120 days" shall be substituted for "60 days" in this paragraph (f)(2), and labels and text with respect to such statements must be in the English language.

(3) *Prior taxable years.* The non-U.S. maintenance requirements described in paragraph (f)(2) of this section apply to records located outside the United States that were in existence on or after March 20, 1990, without regard to the taxable year to which such records relate.

(4) *Scheduled production for high volume or other reasons.* Upon a written request, for good cause shown, the District Director may grant an extension of the time for the production or translation of the requested documents. Such requests should be made within 30 days of the request for records by the Service. If an extension is needed because of the volume of records requested or the amount of translation requested, the District Director may allow production or translation to be scheduled over a period of time so that not all records need be produced or translated at the same time.

(5) *Required U.S. maintenance.* The District Director (with the concurrence of the Assistant Commissioner (International)), may require, for cause, the maintenance within the United States of any records specified in paragraph (f)(1) of this section. Such a requirement will be imposed only if there exists a clear pattern of failure to maintain or timely produce the required records. The assessment of a monetary penalty under section 6038A(d) and § 1.6038A–4 for failure to maintain records is not necessarily sufficient to require the maintenance of records within the United States.

(g) *Period of retention.* Records required to be maintained by section 6038A(a) and this section shall be kept as long as they may be relevant or material to determining the correct tax treatment of any transaction between the reporting corporation and a related party, but in no case less than the applicable statute of limitations on assessment and collection with respect to the taxable year in which the transaction or item to which the records relate affects the U.S. tax liability of the reporting corporation. *See* section 6001 and the regulations thereunder.

(h) *Application of record maintenance rules to banks and other financial institutions.* [Reserved].

(i) *Effective dates.* For effective dates for this section, see § 1.6038A–1(n).

VOL 56 ISS 118 JE 19 1991 UMI

§ 1.6038A–4 Monetary penalty.

(a) *Imposition of monetary penalty*—(1) *In general.* If a reporting corporation fails to furnish the information described in § 1.6038A–2 within the time and manner prescribed in § 1.6038A–2 (d) and (e), fails to maintain or cause another to maintain records as required by § 1.6038A–3, or (in the case of records maintained outside the United States) fails to meet the non-U.S. record maintenance requirements within the applicable time prescribed in § 1.6038A–3(f), a penalty of $10,000 shall be assessed for each taxable year with respect to which such failure occurs. Such a penalty may be imposed by the District Director or the Director of the Internal Revenue Service Center where the Form 5472 is filed. The filing of a substantially incomplete Form 5472 constitutes a failure to file Form 5472. Where, however, the information described in § 1.6038A–2 (b)(3) through (5) is not required to be reported, a Form 5472 filed without such information is not a substantially incomplete Form 5472.

(2) *Liability for certain partnership transactions.* A reporting corporation to which transactions engaged in by a partnership are attributed under § 1.6038A–1(e)(2) is subject to the rules of this section to the extent failures occur with respect to the partnership transactions so attributed.

(3) *Calculation of monetary penalty.* If a reporting corporation fails to maintain records as required by § 1.6038A–3 of transactions with multiple related parties, the monetary penalty may be assessed for each failure to maintain records with respect to each related party. The monetary penalty, however, shall be imposed on a reporting corporation only once for a taxable year with respect to each related party for a failure to furnish the information required on Form 5472, for a failure to maintain or cause another to maintain records, or for a failure to comply with the non-U.S. maintenance requirements described in § 1.6038A–3(f). An additional penalty for another failure may be imposed, however, under the rules of paragraph (d)(2) of this section. Thus, unless such failures continue after notification as described in paragraph (d) of this section, the maximum penalty under this paragraph with respect to each related party for all such failures in a taxable year is $10,000. The members of a group of corporations filing a consolidated return are jointly and severally liable for any monetary penalty that may be imposed under this section.

(b) *Reasonable cause*—(1) *In general.* Certain failures may be excused for reasonable cause, including not timely filing Form 5472, not maintaining or causing another to maintain records as required by § 1.6038A–3, and not complying with the non-U.S. maintenance requirements described in § 1.6038A–3(f). If an affirmative showing is made that the taxpayer acted in good faith and there is reasonable cause for a failure that results in the assessment of the monetary penalty, the period during which reasonable cause exists shall be treated as beginning on the day reasonable cause is established and ending not earlier than the last day on which reasonable cause existed for any such failure. Additionally, the beginning of the 90-day period after mailing of a notice by the District Director or the Director of an Internal Revenue Service Center of a failure described in paragraph (d) of this section shall be treated as not earlier than the last day on which reasonable cause existed.

(2) *Affirmative showing required*—(i) *In general.* To show that reasonable cause exists for purposes of paragraph (b)(1) of this section, the reporting corporation must make an affirmative showing of all the facts alleged as reasonable cause for the failure in a written statement containing a declaration that it is made under penalties of perjury. The statement must be filed with the District Director (in the case of failure to maintain or furnish requested information permitted to be maintained outside the United States within the time required under § 1.6038A–3(f) or a failure to file Form 5472) or the Director of the Internal Revenue Service Center where the Form 5472 is required to be filed (in the case of failure to file Form 5472). The District Director or the Director of the Internal Revenue Service Center where the Form 5472 is required to be filed, as appropriate, shall determine whether the failure was due to reasonable cause, and if so, the period of time for which reasonable cause existed. If a return has been filed as required by § 1.6038A–2 or records have been maintained as required by § 1.6038A–3, except for an omission of, or error with respect to, some of the information required or a record to be maintained, the omission or error shall not constitute a failure for purposes of section 6038A(d) if the reporting corporation that filed the return establishes to the satisfaction of the District Director or the Director of the Internal Revenue Service Center that it has substantially complied with the filing of Form 5472 or the requirement to maintain records.

(ii) *Small corporations.* The District Director shall apply the reasonable cause exception liberally in the case of a small corporation that had no knowledge of the requirements imposed by section 6038A; has limited presence in and contact with the United States; and promptly and fully complies with all requests by the District Director to file Form 5472, and to furnish books, records, or other materials relevant to the reportable transaction. A small corporation is a corporation whose gross receipts for a taxable year are $20,000,000 or less.

(iii) *Facts and circumstances taken into account.* The determination of whether a taxpayer acted with reasonable cause and in good faith is made on a case-by-case basis, taking into account all pertinent facts and circumstances. Circumstances that may indicate reasonable cause and good faith include an honest misunderstanding of fact or law that is reasonable in light of the experience and knowledge of the taxpayer. Isolated computational or transcriptional errors generally are not inconsistent with reasonable cause and good faith. Reliance upon an information return or on the advice of a professional (such as an attorney or accountant) does not necessarily demonstrate reasonable cause and good faith. Similarly, reasonable cause and good faith is not necessarily indicated by reliance on facts that, unknown to the taxpayer, are incorrect. Reliance on an information return, professional advice or other facts, however, constitutes reasonable cause and good faith if, under all the circumstances, the reliance was reasonable. A taxpayer, for example, may have reasonable cause for not filing a Form 5472 or for not maintaining records under section 6038A if the taxpayer has a reasonable belief that it is not owned by a 25-percent foreign shareholder. A reasonable belief means that the taxpayer does not know or has no reason to know that it is owned by a 25-percent foreign shareholder. For example, a reporting corporation would not know or have reason to know that it is owned by a 25-percent foreign shareholder if its belief that it is not so owned is consistent with other information reported or otherwise furnished to or known by the reporting corporation. A taxpayer may have reasonable cause for not treating a foreign corporation as a related party for purposes of section 6038A where the foreign corporation is a related party solely by reason of § 1.6038A–1(d)(3) (under the principles of section 482), and the taxpayer had a reasonable belief that its relationship with the foreign corporation did not meet the standards for related parties under section 482.

(c) *Failure to maintain records or to cause another to maintain records.* A failure to maintain records or to cause another to maintain records is determined by the District Director upon the basis of the reporting corporation's overall compliance (including compliance with the non-U.S. maintenance requirements under § 1.6038A–3(f)(2)) with the record maintenance requirements. It is not an item-by-item determination. Thus, for example, a failure to maintain a single or small number of items may not constitute a failure for purposes of section 6038A(d), unless the item or items are essential to the correct determination of transactions between the reporting corporation and any foreign related parties. The District Director shall notify the reporting corporation in writing of any determination that it has failed to comply with the record maintenance requirement.

(d) *Increase in penalty where failure continues after notification*—(1) *In general.* If any failure described in this section continues for more than 90 days after the day on which the District Director or the Director of the Internal Revenue Service Center where the Form 5472 is required to be filed mails notice of the failure to the reporting corporation, the reporting corporation shall pay a penalty (in addition to the penalty described in paragraph (a) of this section) of $10,000 with respect to each related party for which a failure occurs for each 30-day period during which the failure continues after the expiration of the 90-day period. Any uncompleted fraction of a 30-day period shall count as a 30-day period for purposes of this paragraph (d).

(2) *Additional penalty for another failure.* An additional penalty for a taxable year may be imposed, however, if at a time subsequent to the time of the imposition of the monetary penalty described in paragraph (a) of this section, a second failure is determined and the second failure continues after notification under paragraph (d)(1) of this section. Thus, if a taxpayer fails to file Form 5472 and is assessed a monetary penalty and later, upon audit, is determined to have failed to maintain records, an additional penalty for the failure to maintain records may be assessed under the rules of this paragraph if the failure to maintain records continues after notification under this paragraph.

(3) *Cessation of accrual.* The monetary penalty will cease to accrue if the reporting corporation either files Form 5472 (in the case of a failure to file Form 5472), furnishes information to substantially complete Form 5472, or demonstrates compliance with respect to the maintenance of records (in the case of a failure to maintain records) for the taxable year in which the examination occurs and subsequent years to the satisfaction of the District Director. The monetary penalty also will cease to accrue if requested information, documents, or records, kept outside the United States under the requirements of § 1.6038A–3(f) and not produced within the time specified are produced or moved to the United States under the rules of paragraph (f)(2)(ii) of this section.

(4) *Continued failures.* If a failure under this section relating to a taxable year beginning before July 11, 1989 occurs, and if the failure continues following 90 days after the notice of failure under this paragraph is sent, the amount of the additional penalty to be assessed under this paragraph is $10,000 for each 30-day period beginning after November 5, 1990, during which the failure continues. There is no limitation on the amount of the monetary penalty that may be assessed after November 5, 1990.

(e) *Other penalties.* For criminal penalties for failure to file a return and filing a false or fraudulent return, see sections 7203 and 7206 of the Code. For the penalty relating to an underpayment of tax, see section 6662.

(f) *Examples.* The following examples illustrate the rules of this section.

Example 1—Failure to file Form 5472. Corp X, a U.S. reporting corporation, engages in related party transactions with FC. Corp X does not timely file a Form 5472 or maintain records relating to the transactions with FC for Year 1 or subsequent years. The Service Center with which Corp X files its income tax return imposes a $10,000 penalty for each of Years 1, 2, and 3 under section 6038A (d) and this section for failure to provide information as required on Form 5472 and mails a notice of failure to provide inrormation. Corp X does not file Form 5472. Ninety days following the mailing of the notice of failure to Corp X an additional penaly of $10,000 is imposed. On the 135th day following the mailing of the notice of failure, Corp X files Form 5472 for Years 1, 2, and 3. The total penalty owed by Corp X for Year 1 is $30,000. ($10,000 for not timely filing Form 5472, $10,000 for the first 30-day period following the expiration of the 90-day period, and $10,000 for the fraction of the second 30-day period). The penalty for Years 2 and 3 for the failure to file Form 5472 is also $30,000 for each year, calculated in the same manner as for Year 1. The total penalty for failure to file Form 5472 for Years 1, 2, and 3 is $90,000.

Example 2—Failure to maintain records. Assume the same facts as in *Example 1.* In Year 5, Corp X is audited for Years 1 through 3. Corp X has not been maintaining records relating to the transactions with FC. The District Director issues a notice of failure to maintain records. Corp X has already been subject to the monetary penalty of $10,000 for each of Years 1, 2, and 3 for failure to file Form 5472 and, therefore, a monetary penalty under paragraph (a) of this section for failure to maintain records is not assessed. However, an additional penalty is assessed after the 90th day following the mailing of the notice of failure to maintain records. Corp X develops a record maintenance system as required by section 6038A and § 1.6038A–3. On the 180th day following the mailing of the notice of failure to maintain records, Corp X demonstrates to the satisfaction of the District Director that the newly developed record maintenance system will comply with the requirements of § 1.6038A–3 and the increase in the monetary penalty after notification ceases to accrue. The additional penalty for failure to maintain records is $30,000. An additional penalty of $30,000 per year is assessed for each of years 2 and 3 for the failure to maintain records for a total of $90,000.

(g) *Effective dates.* For effective dates for this section, see § 1.6038A–1(n).

§ 1.6038A–5 Authorization of agent.

(a) *Failure to authorize.* The rules of § 1.6038A–7 shall apply to any transaction between a foreign related party and a reporting corporation (including any transaction engaged in by a partnership that is attributed to the reporting corporation under § 1.6038A–1(e)(2)), unless the foreign related party authorizes (in the manner described in paragraph (b) of this section) the reporting corporation to act as its limited agent solely for purposes of sections 7602, 7603, and 7604 with respect to any request by the Service to examine records or produce testimony that may be relevant to the tax treatment of such a transaction or with respect to any summons by the Service for such records or testimony. The fact that a reporting corporation is authorized to act as an agent for a foreign related party is to be disregarded for purposes of determining whether the foreign related party either has a trade or business in the United States for purposes of the Code or a permanent establishment or fixed base in the United States for purposes of an income tax treaty.

(b) *Authorization by related party*—(1) *In general.* Upon request by the Service, a foreign related party shall authorize as its agent (solely for purposes of sections 7602, 7603, and 7604) the reporting corporation with which it engages in transactions. The authorization must be signed by the foreign related party or an officer of the

UMI

foreign related party possessing the authority to authorize an agent for purposes of Rule 4 of the Federal Rules of Civil Procedure. The reporting corporation will accept this appointment by providing a statement to that effect, signed by an officer of the reporting corporation possessing the authority to accept such an appointment. The agency shall be effective at all times. For taxable years beginning after July 10, 1989, the authorization and acceptance must be provided to the Service within 30 days of a request by the Service to the reporting corporation for such an authorization. The authorization must contain a heading and statement as set forth below. A foreign government is not subject to the authorization of agent requirement.

AUTHORIZATION OF AGENT

"[Name of foreign related party] hereby expressly authorizes [name of reporting corporation] to act as its agent solely for purposes of sections 7602, 7603, and 7604 of the Internal Revenue Code with respect to any request to examine records or produce testimony that may be relevant to the U.S. income tax treatment of any transaction between [name of the above-named foreign related party] and [name of reporting corporation] or with respect to any summons for such records or testimony.

Signature of or for [name of foreign related party]

(Title)

(Date)

(If signed by a corporate officer, partner, or fiduciary on behalf of foreign related party: I certify that I have the authority to execute this authorization of agent to act on behalf of [name of foreign related party]).

Type or print your name below if signing for a foreign related party that is not an individual.

[Name of reporting corporation] accepts this appointment to act as agent for [name of foreign related party] for the above purpose.

Signature for [Name of Reporting Corporation]

(Title)

(Date)

I certify that I have the authority to accept this appointment to act as agent on behalf of [name of foreign related party] and agree to accept service of process for the above purposes.

Type or print your name below.

(2) *Authorization for prior years.* A foreign related party shall authorize a reporting corporation to act as its agent with respect to taxable years for which a Form 5472 is required to be filed prior to the date on which the final regulations under section 6038A are published by providing the above executed authorization of agent within 30 days of a request by the Service for such an authorization.

(c) *Foreign affiliated groups*—(1) *In general.* A foreign corporation that has effective legal authority to make the authorization of agent under paragraph (b) of this section on behalf of any group of foreign related parties may execute such an authorization for any members of the group. A single authorization may be made on a consolidated basis. In such a case, the common parent must attach a schedule to the authorization of agent stating which members of the group would otherwise be required to separately authorize the reporting corporation as agent. The schedule must provide the name, address, relationship to the reporting corporation, and U.S. taxpayer identification number, if applicable, of each member.

(2) *Application of noncompliance penalty adjustment.* In circumstances where a consolidated authorization of agent has been executed, if the agency authorization for any member of the group is not legally effective for purposes of sections 7602, 7603, and 7604, the noncompliance penalty adjustment under section 6038A(e) and § 1.6038A–7 shall apply.

(d) *Legal effect of authorization of agent.* The legal consequences of a foreign related party authorizing a reporting corporation to act as its agent for purposes of sections 7602, 7603, and 7604 of the Code are as follows.

(1) *Agent for purposes of commencing judicial proceedings.* A reporting corporation that is authorized by a foreign related party to act as its agent for purposes of sections 7602, 7603, and 7604 (including service of process) is also the agent of the foreign related party for purposes of—

(i) The filing of a petition to quash under section 6038A(e)(4)(A) or a petition to review an Internal Revenue Service determination of noncompliance under section 6038A(e)(4)(B), and

(ii) The commencement of a judicial proceeding to enforce a summons under section 7604, whether commenced in conjunction with a petition to quash under section 6038A(e)(4)(A) or commenced as a separate proceeding in the federal district court for the district in which the person to whom the summons is issued resides or is found.

(2) *Foreign related party found where reporting corporation found.* For any purposes relating to sections 7602, 7603, or 7604 (including service of process), a foreign related party that authorizes a reporting corporation to act on its behalf under section 6038A(e)(1) and this section may be found anywhere where the reporting corporation has residence or is found.

(e) *Successors in interest.* A successor in interest to a related party must execute the authorization of agent as described in paragraph (b) of this section.

(f) *Deemed compliance*—(1) *In general.* In exceptional circumstances, the District Director may treat a reporting corporation as authorized to act as agent for a related party for purposes of sections 7602, 7603, and 7604 in the absence of an actual agency appointment by the foreign related party, in circumstances where the actual absence of an appointment is reasonable. Factors to be considered include—

(i) If neither the reporting corporation nor the other party to the transaction knew or had reason to know that the two parties were related at the time of the transaction, and

(ii) The extent to which the taxpayer establishes to the satisfaction of the District Director that all transactions between the reporting corporation and the related party were on arm's length terms and did not involve the participation of any known related party.

(2) *Reason to know.* Whether the reporting corporation or other party had reason to know that the two parties were related at the time of the transaction will be determined by all the facts and circumstances.

(3) *Effect of deemed compliance.* If a reporting corporation is deemed under this paragraph (f) to have been authorized to act as an agent for a foreign related party for purposes of sections 7602, 7603, and 7604, such deemed compliance is applicable only for that particular transaction and other reportable transactions entered into prior to the time when the reporting corporation knew or had reason to know that the related party, in fact, was related. The noncompliance rule of § 1.6038A–7 shall apply to any transaction subsequent to that time with the same related party, unless the related party actually authorizes the reporting corporation to act as its agent under paragraph (a) of this section. In addition, the record maintenance requirements of § 1.6038A–3 will apply to all subsequent transactions and, with respect to prior transactions, will apply to relevant records in existence at the time the relationship was discovered.

(g) *Effective dates.* For effective dates for this section, see § 1.6038A–1(n).

§ 1.6038A–6 Failure to furnish information.

(a) *In general.* The rules of § 1.6038A–7 may be applied with respect to a transaction between a foreign related party and the reporting corporation (including any transaction engaged in by a partnership that is attributed to the reporting corporation under § 1.6038A–1(e)(2)) if a summons is issued to the reporting corporation to produce any records or testimony, either directly or as agent for such related party, to determine the correct treatment under Title 1 of the Code of such a transaction between the reporting corporation and the related party; and if—

(1)(i) The summons is not quashed in a proceeding, if any, begun under section 6038A(e)(4) and is not determined to be invalid in a proceeding, if any, begun under section 7604 to enforce such summons; and

(ii) The reporting corporation does not substantially and timely comply with the summons, and the District Director has sent by certified or registered mail a notice under section 6038A(e)(2)(C) to the reporting corporation that it has not so complied; or

(2) The reporting corporation fails to maintain or to cause another to maintain records as required by § 1.6038A–3, and by reason of that failure, the summons is quashed in a proceeding under section 6038A(e)(4) or in a proceeding begun under section 7604 to enforce the summons, or the reporting corporation is not able to provide the records requested in the summons.

(b) *Coordination with treaties.* Where records of a related party are obtainable on a timely and efficient basis under information exchange procedures provided under a tax treaty or tax information exchange agreement (TIEA), the Service generally will make use of such procedures before issuing a summons. The absence or pendency of a treaty or TIEA request may not be asserted as grounds for refusing to comply with a summons or as a defense against the assertion of the noncompliance penalty adjustment under § 1.6038A–7. For purposes of this paragraph, information is available on a timely and efficient basis if it can be obtained within 180 days of the request.

(c) *Enforcement proceeding not required.* The District Director is not required to begin an enforcement proceeding to enforce the summons in order to apply the rules of § 1.6038A–7.

(d) *De minimis failure.* Where a reporting corporation's failure to comply with the requirement to furnish information under this section is *de minimis*, the District Director, in the exercise of discretion, may choose not to apply the noncompliance penalty. Thus, for example, in cases where a particular document or group of documents is not furnished upon request or summons, the District Director (in the District Director's sole discretion), may choose not to apply the noncompliance penalty if the District Director deems the document or documents not to have significant or sufficient value in the determination of the correctness of the tax treatment of the related party transaction.

(e) *Suspension of statute of limitations.* If the reporting corporation brings an action under section 6038A(e)(4)(A) (proceeding to quash) or (e)(4)(B) (review of secretarial determination of noncompliance), the running of any period of limitation under section 6501 (relating to assessment and collection of tax) or under section 6531 (relating to criminal prosecutions) for the taxable year or years to which the summons that is the subject of such proceeding relates shall be suspended for the period during which such proceeding, and appeals therein, are pending. In no event shall any such period expire before the 90th day after the day on which there is a final determination in such proceeding.

(f) *Effective dates.* For effective dates for this section, see § 1.6038A–1(n).

§ 1.6038A–7 Noncompliance.

(a) *In general.* In the case of any failure described in § 1.6038A–5 or § 1.6038A–6, the rules of this § 1.6038A–7 apply to the reporting corporation. In such a case—

(1) The amount of the deduction allowed under subtitle A for any amount paid or incurred by the reporting corporation to the related party in connection with such transaction, and

(2) The cost to the reporting corporation of any property acquired in such transaction from the related party or transferred by such corporation in such transaction to the related party, may be determined by the District Director.

(b) *Determination of the amount.* The amount of the deduction or the cost to the reporting corporation shall be the amount determined by the District Director (in the District Director's sole discretion) from the District Director's own knowledge or from such information as the District Director may choose to obtain through testimony or otherwise. The District Director shall consider any information or materials that have been submitted by the reporting corporation or a foreign related party. The District Director, however, may disregard any information, documents, or records submitted by the reporting corporation or the related party if (in the District Director's sole discretion) the District Director deems that they are insufficiently probative of the relevant facts.

(c) *Separate application.* If the noncompliance penalty of this section applies with respect to transactions with a related party of the reporting corporation, it will not be applied with respect to any other related parties of the reporting corporation solely upon the basis of that failure. Thus, for example, if a reporting corporation engages in transactions with related party A and related party B, and the reporting corporation does not respond to a summons for records related to the transactions between the reporting corporation and related party A, the noncompliance penalty imposed as a result of such failure will not apply to the transactions between the reporting corporation and related party B. If a separate summons is issued for records relating to the transactions between the reporting corporation and related party B and the reporting corporation does not produce such records, the noncompliance penalty may be applied to those transactions.

(d) *Effective dates.* For effective dates for this section, see § 1.6038A–1(n).

PART 602—OMB CONTROL NUMBERS UNDER THE PAPERWORK REDUCTION ACT

Par. 4. The authority for part 602 continues to read as follows:

Par. 5. The table of OMB Control Numbers in § 602.101(c) is amended by removing the entry for § 1.6038A–1 and adding the following entries to read as follows:

"§ 1.6038A–2	1545–1191"
"§ 1.6038A–3	1545–1191"

Fred T. Goldberg, Jr.,

Commissioner of Internal Revenue.

Approved:

Kenneth W. Gideon,

Assistant Secretary of the Treasury.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

29 CFR Part 1949

Office of Training and Education: Tuition Fees

AGENCY: Occupational Safety and Health Administration, Labor.

ACTION: Final rule.

SUMMARY: This rule revises the regulation governing the payment of tuition by private sector students attending training provided by the Occupational Safety and Health Administration (OSHA) Training Institute by adding categories of private sector students who are exempt from the payment of tuition. The revision sets forth the conditions under which OSHA may waive tuition fees for private sector students.

EFFECTIVE DATE: July 1, 1991.

FOR FURTHER INFORMATION CONTACT: James Foster, Director of Information and Consumer Affairs, Occupational Safety and Health Administration, U.S. Department of Labor, Room N–3647, 200 Constitution Avenue, NW., Washington, DC 20210, telephone (202) 523–8148.

SUPPLEMENTARY INFORMATION: On August 10, 1984, OSHA published part 1949 of title 29, Code of Federal Regulations, entitled "Office of Training and Education, Occupational Safety and Health Administration." This part provides regulations for the charging of tuition to private sector students in training courses offered by the OSHA Training Institute.

Since the rule was published, it has become the practice for the OSHA Training Institute to waive tuition for certain private sector students in the overall interest of furthering the aims of the occupational safety and health program. The purpose of this document is to specify these exemptions in the regulations.

Exemptions will be made for the following classes of students.

(a) Associate members of Field Federal Safety and Health Councils. These private sector individuals assist Federal managers and employees in the planning and implementation of occupational safety and health programs at Federal worksites. Their services are voluntary and unpaid. They are selected in accordance with 29 CFR 1960.88, which governs the membership of Field Federal Safety and Health Councils. They attend courses offered by the OSHA Training Institute at the request of, and for the benefit of, Federal Agencies. Since these individuals are attending the training in the capacity of unpaid volunteers, tuition will be waived in recognition of the benefit of their services to the Federal government.

(b) Students who are representatives of a foreign government. The OSHA Training Institute accepts students from foreign countries. The majority of these students attend courses as a result of cooperative efforts between the United States Government and the government of the student's country. In the interest of extending appropriate courtesy to such foreign governments, tuition will be waived for foreign students who are representatives of their governments.

(c) Private sector students attending courses which are required by OSHA for these individuals to maintain their status as certified outreach trainers. In 1972, OSHA instituted a train-the-trainer program whereby private sector individuals could attend courses for either construction or general industry and become certified by OSHA to teach 10- and 30-hour construction or general industry safety and health courses to managers and employees. The training performed by these trainers is a vital part of OSHA's program for training managers and employees in the recognition and avoidance of hazards in the workplace. In 1987, OSHA restricted this certification by requiring all certified outreach instructors to take a refresher course once every three years to maintain certification. Because these certified outreach instructors contribute to OSHA's program of safety and health education, tuition will be waived for refresher courses required for maintaining certification.

In addition to these specific waivers, the Director of the OSHA Training Institute will be given authority to grant additional waivers. Requests for these waivers must be written. For a waiver, the persons who will not pay tuition must be employed by a nonprofit organization and the waiver of tuition must be for reasons which benefit the occupational safety and health program. This provision is intended to enable OSHA to waive tuition for unforseen circumstances not covered in this regulation.

Because this rule is a statement of agency policy within the meaning of 5 U.S.C. 553(b)(A), OSHA had determined that it is unnecessary to publish it as a proposal.

List of Subjects in 29 CFR Part 1949

Intergovernmental relations, grant programs, occupational safety and health.

Authority

This document was prepared under the direction of Gerard F. Scannell, Assistant Secretary of Labor for Occupational Safety and Health, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, DC 20210.

It is issued pursuant to section 21(c) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 670) and 31 U.S.C. 9701 (a) and (b).

Signed at Washington, DC, this thirteenth day of June, 1991.

Gerard F. Scannell,

Assistant Secretary of Labor.

Part 1949 of Title 29 of the Code of Federal Regulations is amended as follows:

PART 1949—OFFICE OF TRAINING AND EDUCATION, OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION

1. The authority citation for part 1949 continues to read as follows:

Authority: Secs. 8, 20, Occupational Safety and Health Act of 1970 (29 U.S.C. 657, 670); 31 U.S.C. 9701; Secretary of Labor's Order No. 9–83 (48 FR 35736).

2. Section 1949.1 is revised to read as follows:

§ 1949.1 Policy regarding tuition fees.

(a) The OSHA Training Institute shall charge tuition fees for all private sector students attending Institute courses.

(b) The following private sector students shall be exempt from the payment of tuition fees.

(1) Associate members of Field Federal Safety and Health Councils.

(2) Students who are representatives of foreign governments.

(3) Students attending courses which are required by OSHA for the student to maintain an existing designation of OSHA certified outreach trainer.

(c) Additional exemptions may be made by the Director of the OSHA Training Institute on a case by case basis if it is determined that the students exempted are employed by a nonprofit organization and the granting of an exemption from tuition would be in the best interest of the occupational safety and health program. Individuals or organizations wishing to be considered for this exemption shall make application to the Director of the OSHA Training Institute in writing stating the reasons for an exemption from payment of tuition.

BILLING CODE 4510–26–M

DEPARTMENT OF DEFENSE

Department of the Army

32 CFR Part 636

Motor Vehicle Traffic Supervision (Specific Installations)

AGENCY: Department of the Army, DOD.

ACTION: Final rule.

SUMMARY: This part establishes motor vehicle supervision regulations specific to Fort Stewart/Hunter Army Airfield, Georgia as required by the Commanding General, Fort Stewart and implemented by the Fort Stewart Office of the Provost Marshal and Office of the Staff Judge Advocate. This regulation is applicable to all personnel serving, visiting, traveling through, desiring access to, or employed on the Fort Stewart/Hunter Army Airfield installations and all other individuals subject to motor vehicle registration and driver records requirements in 32 CFR 634. The requirements of this 32 CFR part 636 are supplement to and support 32 CFR part 634, Motor Vehicle Traffic Supervision (AR 190–5). This final rule affects all personnel resident upon, employed upon or who are in transit through the military reservation consisting of Fort Stewart/Hunter Army Airfield. Military violators may be subject to administrative action, or may be prosecuted under the Uniform Code of Military Justice. Civilian violators may be subject to administrative action, or may be prosecuted under title 18, U.S.C.; or title 40, Official Code of Georgia Annotated.

EFFECTIVE DATE: June 19, 1991.

FOR FURTHER INFORMATION CONTACT: Captain Stark, the Administrative Law Branch, Office of the Staff Judge Advocate, 24th Infantry Division (Mechanized) and Fort Stewart, ATTN: AFZP–PM, Fort Stewart, Georgia 31314–5000, (912) 767–2953/2954 or AUTOVON 870–2955/2953.

SUPPLEMENTARY INFORMATION: This regulation is punitive in nature and is in addition to the regulations in 32 CFR part 634. Military violators of its provisions may be subject to administrative action, or may be prosecuted under the Uniform Code of Military Justice. Civilian violators may be subject to administrative action, or may be prosecuted under title 18, U.S.C.; or title 40, Official Code of Georgia Annotated.

Executive Order 12291

This final rule has been reviewed under Executive Order 12291 and the Secretary of the Army has classified this action as nonmajor. The effect of the final rule on the economy will be less than $100 million.

Regulatory Flexibility Act

This final rule has been reviewed with regard to the requirements of the Regulatory Flexibility Act of 1980 and the Secretary of the Army has certified that this action does not have a significant impact on a substantial number of small entities.

Paperwork Reduction Act

This final rule does not contain reporting or recordkeeping requirements subject to approval by the Office of Management and Budget under the requirements of the Paperwork Reduction Act of 1980 (44 U.S.C. 3507).

List of Subjects in 32 CFR Part 636

Alcohol and alcoholic beverages, Drug Traffic control, Federal buildings and facilities, Motor vehicle safety, Traffic regulations.

Accordingly, 32 CFR part 636 is added to read as follows:

PART 636—MOTOR VEHICLE TRAFFIC SUPERVISION (SPECIFIC INSTALLATIONS)

Sec.

636.38 Impounding privately owned vehicles (POVs).

Appendix A to Part 636—References
Appendices B and C to Part 636 [Reserved]
Appendix D to Part 636—Glossary

Authority: 10 U.S.C. 30112(g); 5 U.S.C. 2951; Pub. L. 89–564; 80–670; 91–605; and 93–87.

§ 636.0 Scope of this part.

This part contains regulations which are in addition to the motor vehicle supervision regulations contained in 32 CFR part 634. Each subpart in this part contains additional regulations specific to the named installation.

Subpart A—Fort Stewart, Georgia

§ 636.1 Responsibilities.

In addition to the responsibilities described in § 634.4 of this subchapter, Unit Commanders will:

(a) Monitor and control parking of military and privately owned vehicles within the unit's area, to include motor pools and assigned training areas.

(b) Establish a program in accordance with 24th Infantry Division (Mechanized) and Fort Stewart Regulation 755–2 to identify abandoned privately owned vehicles in the unit's area and coordinate with the Military Police for impoundment.

(c) In coordination with the Military Police, identify problem drivers in the unit and take appropriate action to improve their driving habits.

(d) Ensure that the contents of this part are explained to all newly assigned personnel, including personnel on temporary duty with their unit for 10 days or more.

(e) Identify unit member's vehicles which have obvious safety defects (see § 636.33) and take appropriate action to have the defect corrected. Commanders who cause a vehicle to be removed from the installation without the consent of the owner could be found liable for subsequent damage done to the vehicle provided that the damage was the result of negligence on the part of the government personnel.

(f) Identify those individuals required to attend the Defensive Driving Course (DDC) or Motorcycle Defensive Driving Course (MDDC) and ensure their attendance at the course.

VOL 56 ISS 118 JE 19 1991 UMI

§ 636.2 Program objectives.

In addition to the requirements of § 634.5 of this subchapter:

(a) The entry of motor vehicles on the Fort Stewart/Hunter Army Airfield reservation is permitted by the Commanding General under the conditions prescribed by this part. Upon entering the military reservation, the driver subjects himself and his vehicle to reasonable search. The authority to search vehicles on post is subject to the provisions of AR 190–22 and AR 210–10. This part is not applicable to vehicle safety inspections and spot checks conducted primarily for purposes of safety.

(b) The Military Police may:

(1) Inspect any vehicle operated on the reservation for mechanical condition.

(2) Impound, exclude, or remove from the reservation any vehicle used as an instrument in a crime, suspected of being stolen, abandoned, inoperable, unregistered, or being operated by a person under the influence of intoxicants or drugs. No vehicle will be impounded unless the impoundment meets the requirements of AR 190–5, paragraph 6–2 (32 CFR 634.50) and § 636.38 of this subpart. In the event a vehicle is impounded as an instrument of crime (particularly in the transport of illegal drugs or weapons), coordination will be made with the appropriate civilian law enforcement agencies.

(3) Subsequent to a lawful apprehension, seize for administrative forfeiture proceedings all conveyances which are used, or are intended to be used to transport, sell or receive, process or conceal illegal drugs or drug paraphernalia, or in any way facilitate the foregoing. A conveyance is defined as any mobile object capable of transporting objects or people (e.g., automobile, truck, motorcycle, boat, airplane, etc.).

(c) The Commander or other persons designated authority by the Commander may suspend or revoke the installation driving privileges of any person as authorized by part 634 of this subchapter and this section.

(d) Unit commanders may request temporary suspension of an assigned member's installation driving privilege for cause (e.g., continued minor driving infractions, numerous parking violations, etc.). Such requests will be submitted in writing to the Commander, 24th Infantry Division (Mechanized) and Fort Stewart, ATTN: AFZP–PM, Fort Stewart, Georgia 31314–5000. Reasons for such requests will be explained. Unit commanders retain the authority to suspend a soldier's military vehicle driving privileges in accordance with AR 385–55.

§ 636.3 Suspension or revocation of driving privileges.

In addition to the requirements of § 634.10 of this subchapter:

(a) Administrative suspension or revocation of installation driving privileges applies to the operation of a motor vehicle on Fort Stewart/Hunter Army Airfield.

(b) Installation driving privileges will be suspended for up to 6 months for drivers who accumulate 12 traffic points within 12 consecutive months, or 18 traffic points within 24 consecutive months.

(c) The Garrison Commander and Deputy Garrison Commander are designated as suspension/revocation authorities for:

(1) Suspension of driving privileges should the evidence indicate that a charge of driving under the influence is warranted or;

(2) The suspension/revocation for accumulation of 12 traffic points within 12 months or 18 points within 24 consecutive months.

§ 636.4 Administrative due process for suspensions and revocations.

In addition to the requirements of § 634.11(a) of this subchapter:

(a) The Provost Marshal or his designee will provide the written notice of pending action and offer of an administrative hearing using AFZP Form Letter 316, Suspension of Installation Driving Privileges.

(b) The Garrison Commander and Deputy Garrison Commander are designated as reviewing authorities to conduct administrative hearings.

(c) Individuals who desire an administrative hearing to review a decision to impose immediate suspension, or to appeal the decision of the administrative hearing officer, will adhere to the following procedures. A request for an administrative hearing will be forwarded through their supervisory chain of command. Requests from family members or non-employee civilians can be forwarded to the Provost Marshal's Administrative Section at Fort Stewart or Hunter Army Airfield and can either be delivered or post marked within ten days of notification of the suspension action.

(d) Individuals who were initially charged with driving under the influence (DUI) based in part on a blood alcohol content (BAC) test which has not subsequently been invalidated and who are found not guilty of DUI may request a hearing to determine if their driving privileges should be restored. Such requests shall be forwarded through their chain of command to arrive at the Provost Marshal's Office (AFZP–PMA for Fort Stewart or AFZP–PM–H for Hunter Army Airfield) not later than ten working days after the date of court action.

§ 636.5 Army administrative actions against intoxicated drivers.

For this installation, in violation of State law referenced in § 634.12(a)(3) of this subchapter, means a blood alcohol content of 0.10 percent or higher as set forth in Official Code of Georgia Annotated 40–6–392(b)(3).

§ 636.6 Remedial driver training program.

For this installation remedial driving training program referenced in § 634.12(b) of this subchapter is operated by the Installation Safety Office. Driving privileges may be withheld beyond expiration of the sanction to complete remedial driving or alcohol and drug rehabilitation programs in accordance with AR 190–5, paragraphs 2–12c and d, and 5–4f (32 CFR 634.17(c) and (d) and 634.17(f)).

§ 636.7 Extensions of suspensions and revocations.

In addition to the requirements in § 634.17(a) of this subchapter, for each subsequent violation of the suspension period, an additional five years will be added to the suspension period for this installation (see Table 634.46 in § 634.46 of this subchapter).

§ 636.8 Registration policy.

In addition to the requirements of § 634.19(a) of this subchapter, motor vehicles which are owned and/or operated by a person who resides, performs duty, is employed on, or "frequently uses" the facilities of Hunter Army Airfield will be registered in accordance with the requirements of § 634.20 of this subchapter. Frequent users include but are not limited to family members, retirees, and civilians whose normal route of travel between home and work takes them through the installation.

§ 636.9 Registration requirement.

In addition to the requirements of § 634.20 of this subchapter:

(a) The Military Police will cite violators on DD Form 1408 (Warning Citation) for observed safety defects. On a periodic basis, Military Police will conduct vehicle safety inspection operations using the criteria in § 636.33.

(b) An individual possessing a valid USAREUR privately owned vehicle (POV) license may operate a motor vehicle in the State of Georgia for a period not to exceed 30 days. After the 30 day period the individual must obtain a valid license from the State of Georgia or another state to operate a motor vehicle in the State of Georgia.

(c) An individual returning a vehicle to Continental United States (CONUS) has 30 days from date of entry or 10 days after reporting for military duty to register that vehicle in the State of Georgia or another state. A temporary pass will be issued until this requirement has been met.

(d) *Liability and no-fault insurance requirements.* (1) All personnel operating vehicles on Fort Stewart/Hunter Army Airfield will obtain and maintain, at least, the minimum amount of liability and no-fault insurance required by the State of Georgia. The amounts are as follows:

(i) Liability:

(A) $15,000.00 per person per accident for bodily injury.

(B) $30,000.00 per incident for bodily injury.

(C) $10,000.00 per accident for property damage.

(ii) No-Fault—$5,000.00.

(2) Proof of this insurance will be required at the time of registration.

(e) Vehicle safety inspections are not required in the State of Georgia, however, vehicles operated on Fort Stewart/Hunter Army Airfield must be in safe operating condition and be able to pass spot vehicle safety equipment checks conducted by the Military Police. Safety criteria is set forth in § 636.33 of this subpart.

§ 636.10 Hunter Army Airfield vehicle registration.

Personnel assigned or employed at Hunter Army Airfield are required to register their privately owned vehicles within five days after arrival to the installation. Requirements for registration are listed in AR 190–5 and this part.

(a) Temporary passes may be issued to personnel not assigned to the installation but requiring temporary access to the installation. These include personnel employed by construction and material handling vehicles requiring on post access. Personnel requesting temporary passes must meet the same requirements as do personnel requiring decals.

(1) Temporary passes will not exceed 45 days. Renewal of temporary passes is prohibited except upon approval of the Installation Commander or his/her designee.

(2) Temporary passes will be conspicuously placed on the left side of the vehicle dashboard between the dashboard and the front windshield. Nothing will be placed so as to obscure the view of the temporary pass from the exterior of the vehicle. The pass will remain in this position during the entire time the vehicle is on the installation. Failure to conspicuously display the temporary pass could result in the vehicle being removed from the installation.

(3) Temporary passes will remain with the vehicle for which they were issued and not be transferred to other vehicles.

(4) Each person driving a vehicle on the installation must individually meet the drivers license requirement of the installation as well as sign the temporary pass.

(5) Temporary passes will be returned to the Vehicle Registration section when they have expired or area no longer needed.

(b) Decals are to be issued to all military and civilian employees of Hunter Army Airfield, military retirees, and contractors/vendors doing extended business on the installations. Requirements outlined in AR 190–5 (32 CFR part 634) and this part must be met before decals are issued.

(c) Personnel requiring permanent decals, who do not meet the requirements outlined in AR 190–5 (32 CFR part 634) and this part, will be issued temporary passes not to exceed 45 days. Registration requirements will be met as soon as possible after issuance of the temporary pass. A decal may then be issued.

(d) DOD decals (DD Form 2220) will be utilized for vehicle registration. Additional installation name and expiration month and year decals will be utilized with sizes and coloration as prescribed in AR 190–5 (32 CFR part 634).

(e) Decals will be permanently affixed to the vehicles for which they are registered in one of two places:

(1) Exterior, front windshield lower left corner.

(2) Front, left bumper of the vehicle, conspicuously displayed. Decals will not be affixed to the front spoilers or any other area which obscures the viewing of the decal.

(3) Installation decals will be placed directly beneath and centered on the DOD decal. Expiration decals will be placed on each side and level with the DOD decal with the month on the left and the year on the right.

(4) Decals will not be affixed to any other portion of the vehicle other than listed in § 636.10(e) (1) through (3).

§ 636.11 Installation traffic codes

In addition to the requirements in § 634.25(d) of this subchapter, on-post violations offenders will be cited under the appropriate Georgia Traffic Code as assimilated by 18 U.S.C. 13 (for civilians) and Art 134c, Uniform Code of Military Justice (UCMJ) (for military). If no Georgia Code is appropriate for a specific offense, civilians will be cited under 40 U.S.C. 318a and military personnel will be cited under Art 92, UCMJ. The Fort Stewart/Hunter Army Airfield installation traffic code conforms to the State of Georgia Traffic Law.

§ 636.12 Traffic accident investigation.

In addition to the requirements in § 634.28 of this subchapter, Military Police at Fort Stewart/Hunter Army Airfield installation will investigate reportable motor vehicle accidents involving government owned or privately owned vehicles.

§ 636.13 Traffic accident investigation reports.

In addition to the requirements in § 634.29 of this subchapter:

(a) Military Police at Fort Stewart/Hunter Army Airfield installations will record traffic accident investigations on DA Form 3946 (Military Police Traffic Accident Report) and DA Form 3975 (Military Police Report).

(b) All privately owned motor vehicle accidents on Fort Stewart or Hunter Army Airfield will be immediately reported to the Military Police for investigation. Unless an emergency situation exists, vehicle(s) involved in an accident will only be moved on order of the Military Police.

§ 636.14 Parking.

In addition to the requirements in § 634.31 of this subchapter:

(a) Military Police will enforce parking in handicapped and Commanding General reserved parking spaces at Fort Stewart/Hunter Army Airfield soldier service facilities and assess points in accordance with Table 634.46 in § 634.46 of this subchapter and Table 636.19 in § 636.19. Vehicles may be towed for such violations as parking in handicapped parking spaces and parking on a yellow curb among others.

(b) Reserved parking spaces in areas under the control of units or staff sections may be designated by the commander or staff section chief who is also responsible to control the use of these spaces.

(c) Parking spaces for tactical vehicles at the Main Exchange/Commissary area will be designated at the end of rows, farthest from the facilities. Only those vehicles properly authorized by unit commanders will be parked at the Main Exchange/Commissary area.

VOL 56 ISS 118 JE 19 1991 UMI

§ 636.15 Traffic violation reports.

In addition to the requirements in § 634.32 of this subchapter:

(a) The Provost Marshal in coordination with the Staff Judge Advocate will determine what traffic offenses will be referred to the U.S. Magistrate Court by means of DD Form 1805.

(b) Of the four available actions on the back of the DD Form 1408, supervisors of civilian employees may take one of the following two actions.

(c) No action taken: A finding of not guilty. There must be an explanation of the reason for no action taken.

(d) Administration: A finding of guilty. This includes, but is not limited to, such actions as a written warning, letter of reprimand, or suspension. Supervisors should coordinate with CPO, MER branch before taking adverse action.

(e) Reports of Commander's action taken will be forwarded to the Provost Marshal Office through the appropriate major subordinate commander.

§ 636.16 Detection, apprehension, and testing of intoxicated drivers.

In addition to the requirements in § 634.36 of this subchapter, the standard field sobriety test used by the Military Police may include the following tests:

(a) Horizontal gaze nystagmus.

(b) Walk and turn.

(c) One leg stand.

§ 636.17 Compliance with State laws.

In addition to the requirements of § 634.42 of this subchapter, the Provost Marshal will conduct necessary coordination with civil enforcement agencies to ensure receipt of information and assistance as required. The Directorate of Logistics will secure any necessary permits for military movement on public roads and highways.

§ 636.18 Driving records.

In addition to the requirements in § 634.44 of this subchapter, the Provost Marshal Office will maintain driver records.

§ 636.19 Point system application.

TABLE 636.19

Violation: Parking in a handicap zone
Points assessed: 3
Violation: Parking against a yellow curb
Points assessed: 3
Violation: Parking within 10 feet of a fire hydrant
Points assessed: 3
Violation: Impeding the flow of traffic
Points assessed: 3
Violation: Other parking violations
Points assessed: 2

§ 636.20 Point system procedures.

In addition to the requirements of § 634.47 of this subchapter:

(a) Reports of parking violations recorded on DD Form 1408 or DD Form 1805 will serve as a basis for determining point assessment.

(b) The instructions in paragraph (a) of this section also apply to the receipt of a DD Form 1408 (Armed Forces Traffic Ticket) for a parking violation.

§ 636.21 Obedience to official traffic control devices.

(a) All drivers will obey the instructions of official signs, unless directed to do otherwise by the Military Police.

(b) Official traffic control devices, such as traffic cones or barricades, are presumed to have been placed by proper authority.

§ 636.22 Speed regulations.

(a) Georgia state speed limits apply unless otherwise specified by this part.

(b) Drivers will operate their vehicles at a reasonable and prudent speed based on traffic and road conditions, regardless of posted speed limits.

(c) The speed limit on the installation is 30 miles per hour unless otherwise posted or if it falls within one of the special speed limit situations (see paragraph (d) of this section).

(d) The following special speed limits apply:

(1) When passing troop formations, 10 miles per hour.

(2) The authorized speed limit in the school zones is 15 miles per hour when any of the following conditions are present:

(i) A school crossing attendant is present.

(ii) Children are present in the area.

(iii) The flashing, yellow, caution lights are in operation.

(3) Fort Stewart housing areas, 20 miles per hour. Hunter Army Airfield housing areas, 15 miles per hour.

(4) Tactical vehicle drivers will obey posted speed limits; however, drivers will not exceed 40 miles per hour on paved roads and 25 miles per hour on unpaved roads and tank trails. Commercial Utility Cargo Vehicles (CUCV's) are tactical vehicles and will obey the following off-road driving speeds:

Day Driving:
Trails, 10 MPH
Cross Country, 8 MPH
Night Driving:
Trails, 5 MPH (with headlights)
Cross Country, 5 MPH
Night Driving:
Trails, 4 MPH (Black-out Drive)
Cross Country, 2.5 MPH

(5) Parking lots, 10 miles per hour.

(6) The authorized maximum speed limit for rough terrain forklifts when operated on hard surface roads will not exceed 15 miles per hour. These vehicles will also bear the Triangular Symbol to alert trailing vehicles as required by the Occupational Safety and Health Administration (OSHA) (29 CFR 1910.145).

§ 636.23 Turning movements.

(a) U-turns are prohibited on all streets in the cantonment area.

(b) Right-turns will be made from a position as close to the right edge or right curb of the roadway as possible.

(c) Left-turns will be made from a position as close to the center line as possible or from a left turn lane, if available.

(d) All turns will be signaled continuously beginning not less than 100 feet prior to the turn.

§ 636.24 Driving on right side of roadway; use of roadway.

(a) All drivers will use the right side of roadways, except:

(1) When passing a vehicle proceeding in the same direction.

(2) When an obstruction is blocking all or part of the right lane of the roadway.

(3) When driving on a one-way street.

(b) Drivers proceeding in opposite directions will pass to the right, each using one-half of the roadway.

(c) Drivers passing another vehicle traveling in the same direction will exercise the utmost caution and safety and will abide by all applicable traffic laws.

(d) Drivers of vehicles being passed will give way to the right and not increase their vehicle's speed.

(e) Drivers will allow a sufficient distance between their vehicle and the vehicle in front to allow a safe stop under all conditions.

§ 636.25 Right-of-way.

(a) When two vehicles enter an intersection from different highways at the same time, the driver of the vehicle on the left will yield right-of-way. When entering an intersection without traffic control devices from a highway which terminates at the intersection, that driver will yield right-of-way.

(b) Drivers turning left within an intersection will yield right-of-way to vehicles approaching from the opposite direction.

(c) Drivers approaching a stop sign will stop at the marked stop line, if present, or before entering the crosswalk, if present, or at a point nearest the intersecting roadway where the driver will yield the right-of-way, if required.

(d) Drivers approaching yield signs will slow down to a speed not exceeding 10 miles per hour and yield the right-of-way to any approaching vehicles, coming to a stop if necessary.

(e) Drivers entering or crossing a roadway from any place other than another roadway will yield the right-of-way to vehicles on the roadway.

(f) Upon the immediate approach of an authorized emergency vehicle identified as such, all drivers will yield the right-of-way to the emergency vehicle.

§ 636.26 Pedestrian's rights and duties.

(a) Pedestrians will obey all traffic control devices and regulations, unless directed to do otherwise by the Military Police.

(b) When traffic-control signals are not in place or not in operation, the driver of a vehicle will yield the right of way, by slowing down or stopping, when a pedestrian is in a crosswalk on the same side of the road as the driver's vehicle, or when the pedestrian is approaching so closely from the opposite half of the roadway as to be in danger.

(c) Pedestrians will not suddenly leave a curb or other place of safety and walk or run into the path of a vehicle which is so close to the crosswalk that it is impractical for the driver to stop.

(d) Pedestrians crossing a roadway, at a point other than a crosswalk, will yield the right-of-way.

(e) Pedestrians will not cross any intersection diagonally unless clearly authorized to do so.

(f) Every driver will exercise due care to avoid colliding with any pedestrian upon any roadway and will exercise proper precaution upon observing any child or any obviously confused, incapacitated, or intoxicated person.

(g) A person who is under the influence of intoxicating liquor or any drug to a degree which renders himself a hazard will not walk upon any roadway.

(h) Pedestrians will use sidewalks, where provided, rather than walking upon the roadway. When sidewalks are not provided, pedestrians will walk the shoulder of the roadway as far from the edge of the roadway as possible. When neither sidewalks nor a shoulder are available, pedestrians will walk on the extreme edge of the roadway, facing traffic, and will yield to all oncoming traffic.

(i) Individuals will not stand in or beside the roadway to solicit rides (hitch-hike).

(j) Individuals will not stand in or beside the roadway to solicit business, employment, or contributions from the occupant of any vehicle.

(k) Pedestrians will yield to all authorized emergency vehicles using an audible signal and/or a visual signal.

(l) The wearing of headphones or earphones by pedestrians or joggers while walking or jogging on roadways or on the shoulders of roadways is prohibited.

§ 636.27 Regulations for bicycles.

(a) Parents will not knowingly allow their children to violate any of the provisions of this section.

(b) Traffic laws and regulations in this part apply to persons riding bicycles. Bicycle riders are granted all the rights and are subject to all duties of motorized vehicle operators, except those which logically do not apply.

(c) Bicycles will be parked against the curb or in a rack, provided for that purpose, and will be secured.

(d) Bicycle riders will not attach the bicycle or themselves to any motorized vehicle operating upon the roadway.

(e) Bicycles will be ridden upon the roadway in single-file.

(f) Bicycles operated between dusk and dawn will utilize a headlight visible for a minimum of 300 feet and a rear reflector or red light visible for 300 feet to the rear.

(g) Bicycles will not be ridden without an operable brake system.

(h) Bicycles will not be ridden if the pedal, in its lowermost position, is more than 12 inches above the ground.

(i) If a bicycle/pedestrian path or sidewalk is present, bicyclists will use the patch or sidewalk instead of the roadway.

(j) Certain roadways have been designated and marked as being off-limits to bicyclists. Bicyclists will use an alternate roadway or a bicycle path rather than those roadways.

§ 636.28 Special rules for motorcycles/mopeds.

(a) Traffic laws and regulations in this part apply to persons riding motorcycles/mopeds. Motorcyle/moped operators are granted all the rights and are subject to all duties of motor vehicle operators, except those which logically do not apply.

(b) Motorcycles/moped operators will ride only while seated facing forward with one leg on either side of the vehicle on the permanent and regular seat of the vehicle. Passengers will not be carried unless the vehicle is designed to carry a passenger. Passengers will only be carried in a manner which neither interferes with the operation of the vehicle nor obstructs the operator's view. Operators will keep both hands on the vehicle's handlebars.

(c) Motorcycle/moped operators are entitled to the use of a full lane of traffic. Motorcycle/moped operators will not pass another vehicle using the same lane as the overtaken vehicle. Motorcycles/mopeds will not be operated between lanes of traffic or between adjacent lines or rows of vehicles.

(d) Motorcycles/moped headlights and tail lights will be illuminated at anytime the vehicle is being operated.

(e) Motorcycle/moped operators will not attach their vehicle or themselves to any other motorized vehicle operating upon the roadway.

(f) Footrests will be provided for passengers. Motorcycles/mopeds will not be operated with handlebars more than 15 inches above the seat which the operator occupies. No back rest attached to the motorcycle/moped will have a sharp point at its apex.

(g) All motorcycle/moped operators/passengers will comply with the following safety requirements:

(1) Wear the following protective equipment:

(i) Properly fastened (under the chin) DOT approved helmet.

(ii) Eye protection (clear goggles or a face shield attached to the helmet).

(iii) Full-fingered gloves.

(iv) Long trousers.

(v) Long-sleeved shirt or jacket (with sleeves rolled down).

(vi) Leather boots or over-the-ankle shoes.

(vii) High-visibility garments (bright color for day and retro-reflective for night).

(2) Motorcycle/moped headlights will be turned on at all times.

(3) Motorcycle/moped must have two rear-view mirrors (one mirror on each side of the handlebars).

(4) Use of headphones or earphones while driving is prohibited.

(h) Military personnel, civilian employees, and family member drivers of a privately or government-owned motorcycle/moped (two or three wheeled motor driven vehicles) are required to attend and complete an approved Motorcycle Defense Driving Course (MDDC) prior to operation of the motorcycle/moped on the installation. Upon completion of the course, personnel will be provided with a MDDC card. Personnel are authorized to operate their motorcycle/moped on the installation for the purpose of attending

VOL 56 ISS 118 JE 19 1991 UMI

the motorcycle safety course. Attendance may be verified by contacting the Installation Safety Office.

§ 636.29 Go-carts, minibikes, and all terrain vehicles (ATV's).

(a) Operators of "go-carts," "minibikes," and ATV's 16 years of age or older, must comply with applicable Georgia State Law and Fort Stewart traffic laws and regulations contained in this part.

(b) "Go-carts," "minibikes," and ATV's operated on installation roadways are required to meet the requirements of this part and the Georgia Traffic Code.

(c) Off-road vehicles will only be operated in areas specified by the DPCA. The DPCA will specify conditions for off-road operation.

(d) "Go-carts," "minibikes," and ATV's will only be operated during daylight hours and will not be operated during periods of inclement weather or reduced visibility.

(e) Operators and passengers of "go-carts," "minibikes," and ATV's must wear approved protective helmets, eye protection, and footwear (open-toed footwear is prohibited).

(f) Soldiers or sponsors of persons operating "go-carts," "minibikes," and ATV's are responsible for the safe operation of the vehicle.

§ 636.30 Stopping, standing and parking.

(a) Drivers will not stop, park, or leave standing their vehicle, whether attended or unattended, upon the roadway when it is possible to stop, park or leave their vehicle off the roadway. In any case, parking or standing the vehicle upon the roadway will only be done in an emergency.

(b) Vehicles, not clearly identified as operated by a handicapped individual, will not be parked in a handicapped parking space.

(c) Whenever Military Police find a vehicle parked or stopped in violation of this section, they may immediately move, or cause to be moved, the vehicle off the roadway. At the direction of the Provost Marshall, or his designee, vehicles parked in restricted or reserved parking spaces, may be moved.

(d) The Military Police may remove or cause to be removed, to a safe place, any unattended vehicle illegally left standing upon any highway or bridge or within 10 feet of any railroad track on the installation.

(e) As a crime prevention measure, the Military Police may pick up keys left in vehicles, secure the vehicle in place, and post a notice directing the owner to proceed to the MP station to claim his/her keys. The program will be adequately publicised and will only be invoked after a conscientious attempt to locate the owner.

(f) No driver will stop, stand, or park a vehicle:

(1) On the roadway side of any vehicle stopped or parked at the edge of a curb or a street.

(2) On a sidewalk.

(3) Within an intersection.

(4) On a crosswalk.

(5) Alongside or opposite any street excavation or obstruction when traffic would be obstructed.

(6) Upon a bridge or other elevated structure.

(7) On any railroad tracks or within 10 feet of any rail road track.

(8) On any controlled-access highway.

(9) Where prohibited by official signs.

(10) Alongside any roadway in any manner which obstructs traffic.

(g) No driver will stand or park a vehicle, whether occupied or not, except momentarily to pick up or discharge a passenger or passengers:

(1) In front of a public or private driveway.

(2) Within 10 feet of a fire hydrant.

(3) Within 20 feet of a crosswalk at an intersection.

(4) Within 20 feet upon the approach to any flashing signal, a stop sign, yield sign, or traffic control signal located at the side of a roadway.

(5) Within 20 feet of a driveway entrance to any fire station and on the side of a street opposite the entrance to any fire station within 75 feet of said entrance (when properly sign posted).

(6) At any place where official signs prohibit standing.

(7) Adjacent to any curb painted yellow or identified, by signs, as a "No Parking" area.

(8) Along a roadway against the flow of traffic.

(9) Within 20 feet of any building in what would reasonably be considered a "fire-lane" unless specified as a parking space.

(10) Parallel parking along the curb is authorized in housing areas unless otherwise posted.

(11) Parking is prohibited upon lawns or grassed (seeded) areas, unless specifically authorized by the Provost Marshal. This prohibition is not intended, however, to extend to those locations designated as bivouac sites, range areas, etc.

(12) No dual-wheeled or tandem-wheeled recreational vehicles and trailers will be stored at government quarters. All other recreational vehicles, to include campers, trailers, boats, pop-up campers, and camper shells may be parked in the driveway area or under the carport of individual quarters. To prevent injury to children playing on and around trailers, one tire on each side of the trailer will be chocked in front and back. Trailer tongues, without installed supports, will either be left on the ground or supported in such a manner as to preclude the support tipping over and allowing the trailer tongue to fall. If the vehicle creates a safety hazard or is an eyesore, personnel are encouraged to use the storage facilities available at the Outdoor Recreation Center, Holbrook Pond, Fort Stewart, or at the Private Vehicle Storage area at Hunter Army Airfield. House trailers are not authorized to be parked in the quarters area. Campers, camper trailers, and tents will not be approved for occupancy in the quarters area. Parking of recreational vehicles on the street will be limited to 24 hours for owners to load and unload the vehicle at the owner's quarters.

(h) No driver will use a parking lot, sidewalk, fire lane, or vacant property to drive on in order to avoid a traffic control device or alter the traffic flow plan unless authorized to do so by the Military Police or a traffic control device.

§ 636.31 Abandoned vehicles.

(a) Any MP or DOD police officer who finds or has knowledge of a motor vehicle which has been left unattended or abandoned on a street, road, highway, parking lot, or any other real property of the installation for a period of at least 72 hours may be authorized by the Provost Marshal or his designee to cause said motor vehicle to be moved to an impoundment lot for storage.

(b) Any MP or DOD police officer who, under the provisions of this section, causes any motor vehicle to be moved to an impoundment lot or other temporary place of safety is acting with proper authority and within the scope of that officer's employment, except that any wanton or intentional damage done to any motor vehicle by any MP or DOD police officer should not be within the scope of either that officer's authority or employment.

(c) Unit commanders, with knowledge of an abandoned vehicle in their unit area, should attempt to identify the owner and have them remove the vehicle. When owners cannot be identified or are no longer assigned to this command, unit commanders will notify the MP's to initiate impoundment procedures.

(d) Civilian vehicles left abandoned on the reservation will be towed to an impoundment lot for further disposition.

(e) Personnel experiencing motor vehicle trouble may authorize the MP desk to obtain the assistance of a civilian wrecker, but in doing so, the government assumes no liability of payment for such services or possible resulting damage.

§ 636.32 Miscellaneous instructions.

(a) All unattended motor vehicles will have the engine stopped and the ignition locked.

(b) Vehicles will not be operated when so loaded with passengers and/or goods that the driver's view is blocked or control over the driving mechanism is interfered with.

(c) Drivers, other than on official business, will not follow any emergency vehicle, operating under emergency conditions, closer than 500 feet or park closer than 500 feet to any emergency vehicle stopped for an emergency.

(d) No vehicle will be driven over a fire hose unless directed to do so by a fire official, or the Military Police.

(e) Ground guides will be posted, during backing, at the left rear of any ¾ ton or larger vehicle.

(f) All vehicles carrying a load will have the load secured and/or covered to prevent the load from blowing or bouncing off the vehicle.

(g) A red flag or red light, visible for at least 100 feet from the rear will be attached to any load protruding beyond the rear of any vehicle.

(h) Troop marches, physical training runs, etc., will not be conducted in a manner that will interfere with motor vehicle traffic on the Fort Stewart/Hunter Army Airfield reservation.

(1) Units participating in parades and related practices, road marches, etc., will not conduct such marches upon any hard surface road or traffic way unless coordination has been made with the Provost Marshal Office.

(2) Physical training runs, exercises, or tests will not be conducted upon any hard surface road or traffic way unless such is specifically allowed in 24th Infantry Division (Mechanized) and Fort Stewart Regulation 350–1.

(i) Congested housing areas on the installation require special precaution on the part of drivers and persons living in those areas.

(1) Parents can assist drivers in this regard by reminding their children that housing area streets are extremely dangerous and that playing in the street is prohibited.

(2) Bus stops are sites particularly prone to large numbers of children playing immediately adjacent to or actually in the roadway while awaiting arrival of the school bus.

(3) Complaints received by the MP desk, concerning children playing in the streets, must be investigated in the interest of safety. Repeated violations could result in further action by the chain of command.

(j) Vehicles and/or trailers will not be towed with a chain or rope (vehicles may be towed by another privately owned vehicle by use of a rigid tow bar).

(k) At entrances to Fort Stewart/Hunter Army Airfield where a gate guard is positioned, drivers are required to obey his/her instructions. During hours of darkness, headlights will be switched to parking lights upon approach to the gate.

(l) Motorists will drive with headlights illuminated at any time from a half hour after sunset to a half hour before sunrise and at any time when it is raining in the driving zone and at any other time when there is not sufficient visibility to render clearly discernible persons and vehicles on the highway at a distance of 500 feet ahead.

(m) Motor vehicles will not be operated if visibility to the front, rear, or side is rendered unsafe and improper from fogged or iced-over windows.

(n) Aircraft runways, taxiways, and aprons at Hunter Army Airfield and Wright Army Airfield and "OFF-LIMITS" to all privately owned vehicles.

(o) Extensive repairs to automobiles will not be undertaken in housing areas, parking lots, or other similar areas. Repairs extending over a 24 hour period will be considered extensive.

(p) Tactical vehicles will not be driven in housing areas. Post police or vehicles on similar details may drive in the housing areas as required.

(q) Active duty personnel residing on post are encouraged to have their privately owned bicycles, "go-carts," and "minibikes" registered with the Provost Marshal's Office (Registration Branch) in conjunction with the Installation Crime Prevention Program.

(r) All personnel operating a vehicle on Fort Stewart/Hunter Army Airfield will have proof of insurance for the vehicle, in the vehicle at all times.

§ 636.33 Vehicle safety inspection criteria.

(a) The vehicle safety inspection criteria listed in this paragraph (a) are general in nature; specific evaluation techniques for these criteria are contained in Georgia Traffic Law.

(1) Headlights—every vehicle, except motorcycles, will have at least two headlights, one on each side of the front of the vehicle, capable of illuminating 500 feet to the front. Motorcycles will have one headlight.

(2) Tail Lamps—every vehicle will have at least one red, self-illuminating lamp, on the rear of the vehicle, visible from 500 feet to the rear.

(3) Registration Plate Lamp—every vehicle will have a lamp designed to illuminate the registration plate with white light making the plate legible from a distance of 50 feet.

(4) Rear Reflectors—every vehicle, except motorcycles, will have two red reflectors on the rear. Motorcycles will have one red reflector.

(5) Stop Lamp—every vehicle will have at least one red or yellow stop lamp on the rear which will be actuated upon application of the foot brake.

(6) Turn Signals—every vehicle will be equipped with electrical or mechanical turn signals capable of indicating any intention to turn either to the right or to the left, and visible from the front and rear. This requirement does not apply to any motorcycle or motor-driven cycle manufactured prior to 1 January 1972.

(7) Brakes—every vehicle will be equipped with brakes adequate to control the movement of and to stop and hold such vehicle.

(8) Horn—every vehicle will be equipped with an operable horn, capable of emitting sound audible for at least 200 feet.

(9) Muffler—every vehicle will have a muffler in good working order and in constant operation.

(10) Mirror—every vehicle, from which the driver's view is obstructed, will be equipped with a mirror reflecting a view of the highway for a distance of at least 200 feet to the rear.

(11) Windows—the view through vehicle windows will not be obstructed by any sign, poster, or other nontransparent material. Windshields and rear windows will not have starburst or spider webbing effect greater than 3 inches by 3 inches. No opaque or solid material including, but not limited to cardboard, plastic, or taped glass will be employed in lieu of glass.

(12) Windshield Wipers—every vehicle, except motorcycles, will be equipped with operable windshield wipers.

(13) Tires—every vehicle will be equipped with serviceable rubber tires which will have a tread depth of at least two thirty-seconds of an inch.

(14) Suspension Systems—no vehicle will have its rear end elevated above the vehicle manufacturer's designated height (49 CFR 570.8).

(b) The criteria listed in paragraph (a) of this section are not necessarily an inclusive list. A vehicle may be deemed unsafe to operate when any part of the

VOL 56 ISS 118 JE 19 1991 UMI

vehicle is defective and renders the vehicle dangerous to others.

§ 636.34 Restraint systems.

(a) Restraint systems (seat belts) will be worn by all operators and passengers of U.S. Government vehicles on or off the installations.

(b) Restraint systems will be worn by all civilian personnel (family members, guests, and visitors) driving or riding in a private owned vehicle on the Fort Stewart/Hunter Army Airfield installations.

(c) Restraint systems will be worn by all soldiers and Reserve Component members on active Federal service driving or riding in a private owned vehicle whether on or off the installations.

(d) Infant/child restraint devices (car seats) are required in private owned vehicles for children 4 years old or under and not exceeding 45 pounds in weight.

(e) Restraint systems are required only in cars manufactured after model year 1966.

(f) The operator of a vehicle is responsible for ensuring the use of seat belts, shoulder restraints, and child restraining systems when applicable and may be cited for failure to comply (40 U.S.C. 318a).

(g) Passengers (over the age of 16) are responsible for ensuring that their seat belts/shoulder restraints are used when applicable and may be cited for failure to comply (40 U.S.C. 318a).

§ 636.35 Headphones and earphones.

The wearing of headphones or earphones is prohibited while driving a U.S. Government vehicle, POV, motorcycle, or other self-propelled two-wheel, three-wheel, or four-wheel vehicle powered by a motorcycle type engine. This does not negate the requirement for wearing hearing protection when conditions or good judgment dictate use of such protection.

§ 636.36 Alcoholic beverages.

(a) Consuming alcoholic beverages as an operator or passenger in or on U.S. Government or privately owned vehicles is prohibited.

(b) Consuming alcoholic beverages on any roadway, parking lot, or where otherwise posted is prohibited.

(c) Having open containers of alcoholic beverages in vehicles or areas not designated for the consumption of alcohol is prohibited.

§ 636.37 Use of "Denver Boot" device.

The "Denver Boot" device will be used by Military Police as an additional technique to assist in the enforcement of parking violations when other reasonably effective but less restrictive means of enforcement (such as warnings, ticketing, reprimands, suspensions, or revocations of on-post driving privileges) have failed, or immobilization of the private owned vehicle is necessary for safety.

(a) The use of booting devices will be limited to application by the Military Police under the following conditions:

(1) Immobilization of unsafe, uninspected, or unregistered vehicles.

(2) Immobilization of vehicles involved in criminal activity.

(3) For repeat offenders of the parking violations outlined in this supplement. Three or more parking violations within 6 months constitutes grounds to boot the vehicle.

(4) At the discretion of the Provost Marshal or his designee, on a case-by-case basis.

(b) Booted vehicle will be marked, for driver notification, by placing an orange in color notice on the vehicle windshield. The notice will contain information on why the vehicle was booted and instructions on how to have the booting device properly removed by the Military Police (see figure 636.37).

FIGURE 636.37. DRIVER BOOTING DEVICE NOTICE

1. Your vehicle is illegally parked and has been secured in place by the Military Police with a vehicle restraining device. Do not move this vehicle until the restraining device is properly removed by the Military Police.
2. Any movement, or attempted movement, of this vehicle could result in damage to the device and the vehicle. You will be responsible for any such damage to the vehicle and/or the restraining device.
3. Any removal, or attempted removal, of the device could result in you being charged with a criminal offense.
4. To have this device properly removed by the Military Police, contact the following:

Mon–Fri, 7: a.m.–5: p.m., Bldg 292, Phone 767–2848/8659

Non-Duty Hours, Bldg 285, Phone 767–2822

NOTICE

§ 636.38 Impounding privately owned vehicles (POVs).

This section provides the standards and procedures for towing, inventorying, searching, impounding, and disposing of private owned vehicles.

(a) *Implied consent to vehicle impoundment.* Any person granted the privilege of operating a motor vehicle on the Fort Stewart/Hunter Army Airfield installations shall be deemed to have given his or her consent for the removal and temporary impoundment of the privately owned vehicle when it is parked illegally for unreasonable periods, interfering with operations, creating a safety hazard, disabled by accident, left unattended in a restricted or controlled area, or abandoned. Such vehicles will be towed by a contracted civilian wrecker service and placed in that service's storage lot. Such persons further agree to reimburse the civilian wrecker service for the cost of towing and storage should their vehicle be removed or impounded.

(b) *Standards of impoundment.* (1) Privately owned vehicles will not be impounded unless they clearly interfere with ongoing operations or movement of traffic, threaten public safety or convenience, are involved in criminal activity, contain evidence of criminal activity, or are stolen or abandoned.

(2) The impoundment of a privately owned vehicle is inappropriate when reasonable alternatives to impoundment exist.

(i) An attempt will be made to locate the owner of the privately owned vehicle and have the vehicle removed.

(ii) The vehicle may be moved a short distance to a legal parking area and temporarily secured until the owner is located.

(iii) Another responsible person may be allowed to drive or tow the privately owned vehicle with permission from the owner, operator, or person empowered to control the vehicle. In this case, the owner, operator, or person empowered to control the vehicle will be informed that the Military Police are not responsible for safeguarding the privately owned vehicle.

(3) Impounding of privately owned vehicle is justified when any of the following conditions exist:

(i) The privately owned vehicle is illegally parked—

(A) On a street or bridge, or is double parking and interferes with the orderly flow of traffic.

(B) On a sidewalk, within an intersection, or a cross-walk, on a railroad track, in a fire lane, or is blocking a driveway, so that the vehicle interferes with the operations or creates a safety hazard to other roadway users or the general public. An example would be a vehicle parked within 15 feet of a fire hydrant or blocking a properly marked driveway of a fire station or aircraft-alert crew facility.

(C) When blocking an emergency exit door of any public place (installation theater, club, dining facility, hospital, or other facility).

(D) In a "tow-away" zone that is so marked with proper signs.

(ii) The privately owned vehicle interferes with—

(A) Street cleaning operations and attempts to contact the owner have been unsuccessful.

(B) Emergency operations during a natural disaster or fire or must be removed from the disaster area during cleanup operations.

(iii) The privately owned vehicle has been used in a crime or contains evidence of criminal activity.

(iv) The owner or person in charge has been apprehended and is unable or unwilling to arrange for custody or removal.

(v) The privately owned vehicle is mechanically defective and is a menace to others using the public roadways.

(vi) The privately owned vehicle is disabled by a traffic incident and the operator is either unavailable or physically incapable of having the vehicle towed to a place of safety for storage or safekeeping.

(vii) Military Police reasonably believe the vehicle is abandoned.

(c) *Towing and storage.* (1) Impounded privately owned vehicles will be towed and stored by a contracted wrecker service.

(2) An approved impoundment area belonging to the contracted worker service will be used for the storage of impounded vehicles. This area will assure adequate accountability and security of towed vehicles. One set of keys to the enclosed area will be maintained by the Military Police.

(3) Temporary impoundment and towing of privately owned vehicles for violations of this supplement or involvement in criminal activities will be accomplished under the direct supervision of the Military Police.

(d) *Procedure for impoundment.* (1) Unattended privately owned vehicles.

(i) DD Form 2504 (Abandoned Vehicle Notice) will be conspicuously placed on privately owned vehicles considered unattended. This action will be documented by an entry in the Military Police desk journal.

(ii) The owner will be allowed three days from the date the privately owned vehicle is tagged to remove the vehicle before impoundment action is initiated. If the vehicle has not been removed after three days, it will be removed by a contracted civilian wrecker service. A DD Form 2505 (Abandoned Vehicle Removal Authorization) will be completed and issued to the contractor by the Military Police.

(iii) After the vehicle has been removed, the Military Police will complete DD Form 2506 (Vehicle Impoundment Report) as a record of the actions taken.

(A) An inventory listing personal property will be done to protect the owner, Military Police, the Contractor, and the Commander.

(B) The contents of a closed container such as a suitcase inside the vehicle need not be inventoried. Such articles should be opened only if necessary to identify the owner of the vehicle or if the container might contain explosives or otherwise present a danger to the public. Merely listing the container and sealing it with security tape will suffice.

(C) Personal property will be placed in the Military Police found property room for safe keeping.

(iv) DD Form 2507 (Notice of Vehicle Impoundment) will be forwarded by certified mail to the address of the last known owner of the vehicle to advise the owner of the impoundment action, and request information concerning the owner's intentions pertaining to the disposition of the vehicle.

(2) *Stolen privately owned vehicles or vehicles involved in criminal activity.*

(i) When the privately owned vehicle is to be held for evidentiary purposes, the vehicle will remain in the custody of the Military Police or CID until law enforcement purposes are served.

(ii) Recovered stolen privately owned vehicles will be released to the registered owner, unless held for evidentiary purposes, or to the law enforcement agency reporting the vehicle stolen.

(iii) A privately owned vehicle held on request of other authorities will be retained in the custody of the Military Police or CID until the vehicle can be released to such authorities.

(e) *Search incident to impoundment based on criminal activity.* Search of a privately owned vehicle in conjunction with impoundment based on criminal activity will likely occur in one of the following general situations:

(1) The owner or operator is not present. This situation could arise during traffic and crime-related impoundments and abandoned vehicle seizures. A property search related to an investigation of criminal activity should not be conducted without search authority unless the item to be seized is in plain view or is readily discernible on the outside as evidence of criminal activity. When in doubt, proper search authority should be sought, during duty hours, through the Chief, Criminal Law Branch of the Office of Staff Judge Advocate and after duty hours from the Duty Judge Advocate, before searching.

(2) The owner or operator is present. This situation can occur during either a traffic or criminal incident, or if the operator is apprehended for a crime or serious traffic violation and sufficient probable cause exists to seize the vehicle. This situation could also arise during cases of intoxicated driving or traffic accidents in which the operator is present but incapacitated or otherwise unable to make adequate arrangements to safeguard the vehicle. If danger exists to the Military Police or public or if there is risk of loss or destruction of evidence, an investigative type search of the vehicle may be conducted without search authority.

(f) *Disposition of vehicles after impoundment.* (1) If a privately owned vehicle is impounded for evidentiary purposes, the vehicle can be held for as long as the evidentiary or law enforcement purpose exists. The vehicle must then be returned to the owner without delay unless directed otherwise by competent authority.

(2) If the vehicle is unclaimed after 45 days from the date notification was mailed to the last known owner or the owner released the vehicle by properly completing DD Form 2505, the vehicle will be disposed of by one of the following procedures:

(i) Release to the lienholder, if known.

(ii) Processed as abandoned property in accordance with DOD 4160.21–M.

Appendix A to Part 636—References

Publications and forms referenced in this part may be viewed at the Office of the Provost Marshall on any major Army installation or may be obtained from the National Technical Information Service, U.S. Department of Commerce, 5285 Port Royal Road, Springfield, VA 22161.

In addition to the related publications listed in appendix A to part 634 of this subchapter, the following publications provide a source of additional information:

FS Reg 190–7, Emergency Vehicle Operation
FS Reg 350–1, Active Component Training
FS Reg 385–14, Post Range Regulation
FS Reg 755–2, Lost, Abandoned, or Unclaimed Privately Owned Personal Property

In addition to the prescribed forms used in appendix A to part 634 of this subchapter, the following forms should be used:

AFZP Form Letter 316, Suspension of Driving Privileges
DA Form 3946, Military Police Traffic Accident Report
DA Form 3975, Military Police Report
DD Form 1920, Alcohol Influence Report

BILLING CODE 3710-08-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[MI3-1-5075; FRL-3966-2]

Approval and Promulgation of Implementation Plans; Michigan

AGENCY: Environmental Protection Agency (USEPA).

ACTION: Notice of final rulemaking.

SUMMARY: USEPA is disapproving a site-specific revision to the Michigan State Implementation Plan (SIP) for ozone for the James River-KVP Plant in Kalamazoo County. The revision concerns volatile organic compounds (VOC) emissions from surface coating lines and would constitute an emissions trade (bubble) for the printing and coating lines, based upon multiple day "time averaging" of emissions and the extension of compliance dates. USEPA is disapproving this revision because it does not meet USEPA's policy requirements on bubbles, compliance date extensions, and extended averaging times.

EFFECTIVE DATE: This final rulemaking becomes effective on July 19, 1991.

ADDRESSES: Copies of the SIP revision request and other materials relating to this rulemaking are available for inspection at the following address: (It is recommended that you telephone Charles H. Hatten, at (312) 886-6031, before visiting the Region V office.) U.S. Environmental Protection Agency, Region V, Air Toxics and Radiation Branch (5AT-26), 230 South Dearborn Street, Chicago, Illinois, 60604.

FOR FURTHER INFORMATION CONTACT: Charles H. Hatten, Air Toxics and Radiation Branch (5AT-26), U.S. Environmental Protection Agency, Region V, Chicago, Illinois 60604, (312) 886-6031.

SUPPLEMENTARY INFORMATION: On January 27, 1984, the Michigan Department of Natural Resources (MDNR) submitted Consent Order Number 21-1983 for James River-KVP as a revision to its SIP. This revision concerns operations located at the James River-KVP Plant in Kalamazoo County, a "rural" county which has been designated as a nonattainment area for ozone. Michigan submitted additional information for James River-KVP on May 3, 1984, and May 25, 1984. On July 23, 1984, the State of Michigan submitted an "Alteration" to Consent Order No. 21-1983. Further information was submitted by the State on February 22, 1985.

The James River-KVP Plant has three types of emission sources to Michigan VOC regulations: A 55 parchment machine, a solvent coater, and a gravure graphic arts line consisting of six rotogravure presses. The parchment machines and solvent coater are regulated within the Michigan SIP by Rule 336.1610. The rotogravure printing and coating operations are regulated within the Michigan SIP by Rule 336.1624. The SIP revision seeks a bubble with multiple day "time averaging" and an extension of compliance dates for the James River-KVP emission sources.

Proposed Rulemaking Action

On May 10, 1989, USEPA proposed to disapprove the site-specific revision to the Michigan SIP for the James River-KVP Plant.[1] Comments on this notice of proposed rulemaking were received from counsel representing James River-KVP. However, the comments submitted by the commentor were not intended to refute the bases for USEPA's proposed disapproval. Instead, the commentor speculated on potential modifications to the proposed SIP revision which would address USEPA's objections. Because these comments do not deal with the underlying bases for USEPA's proposed disapproval of the current SIP revision, USEPA does not believe that these comments are relevant to the rulemaking currently before the Agency and is not responding to them in this rulemaking.[2]

Final Rulemaking Action

USEPA disapproves this requested SIP revision for the following reasons (as detailed in the May 10, 1989, **Federal Register** notice):

(1) The revision does not meet the requirements of the 1986 Emissions Trading Policy Statement (ETPS).

(2) The State did not demonstrate that the application of reasonably available control technology at James River-KVP is infeasible on a daily basis or that daily emissions cannot be determined.

(3) The State did not provide a demonstration that the use of long-term averaging (greater than 24-hour averaging) will not jeopardize either ambient standards attainment or the reasonable further progress (RFP) plan for the area.

(4) The Consent Order does not satisfy USEPA's compliance date extension policy.

Today's action makes final the action proposed at May 10, 1989 (54 FR 21053). As noted elsewhere in this notice, USEPA received no adverse public comment on the proposed action. As a direct result, the Regional Administrator has reclassified this action from a Table One to a Table Two action under the processing procedures established at 54 FR 2214. On January 6, 1989, the Office of Management and Budget waived Table Two SIP revisions (54 FR 2222) from the requirements of Section 3 of Executive Order 12291 for a period of 2 years.

Nothing is this action should be construed as permitting or allowing or establishing a precedent for any future request for revision to any SIP. Each request for revision to the SIP shall be considered separately in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements.

The Agency has reviewed this request for revision of the federally-approved SIP conformance with the provisions of the 1990 Amendments enacted on November 15, 1990, in addition to the 1977 Amendments of the Clean Air Act. The Agency has determined that this action does not conform with the statute as amended and must be disapproved. The Agency has examined the issue of whether this action should be reviewed only under the provisions of the law as it existed on the date of submittal to the Agency (i.e., prior to November 15, 1990) and has determined that the Agency must apply the new law to this revision.

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by August 19, 1991. Filing a petition for reconsideration by the Administrator of this final rule does not effect the finality of this rule for the purpose of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See 307(b)(2).)

BILLING CODE 6560-50-M

[1] For a discussion of the history of the variance, the current Michigan SIP requirements, the emission limits contained in Consent Order 21-1983 (as altered), USEPA's current bubble policy, USEPA's extended averaging time criteria, USEPA's compliance date extension criteria, and USEPA's evaluation of the James River-KVP revision, please refer to the May 10, 1989 (54 FR 20153), **Federal Register** and to Technical Support Documents (TSD) dated April 20, 1984, December 17, 1986, and March 17, 1987.

[2] James River-KVP has the option of submitting a new SIP revision to the State of Michigan, which it then may submit to USEPA as a revision to the Michigan SIP. However, USEPA can only act today on the proposed SIP that has been submitted by the MDNR.

40 CFR Part 180

RIN 2070-AB78

Pesticide Tolerance for Ethyl 3-Methyl-4-(Methylthio)Phenyl(1-Methylethyl) Phosphoramidate

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This document establishes a tolerance for residues of the nematicide ethyl 3-methyl-4-(methylthio)phenyl (1-methylethyl) phosphoramidate (also referred to in this document as fenamiphos) in or on the raw agricultural commodity bok choy. The regulation to establish a maximum permissible level for residues of the nematicide in or on the commodity was requested in a petition submitted by the Interregional Research Project No. 4 (IR-4).

EFFECTIVE DATE: This regulation becomes effective June 19, 1991.

ADDRESSES: Written objections, identified by the document control number, [PP 0E3845/R1110], may be submitted to: Hearing Clerk (A-110), Environmental Protection Agency, rm. 3708, 401 M St., SW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: By mail: Hoyt Jamerson, Emergency Response and Minor Use Section (H-7505C), Registration Division, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: rm. 716C, CM #2, 1921 Jefferson Davis Highway, Arlington, VA 22202, (703)-557-2310.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of February 21, 1991 (56 FR 7003), EPA issued a proposed rule that gave notice that the Interregional Research Project No. 4 (IR-4), New Jersey Agricultural Experiment Station, P.O. Box 231, Rutgers University, New Brunswick, NJ 08903, had submitted pesticide petition (PP) 0E3845 to EPA on behalf of the Agricultural Experiment Station of California.

The petition requested that the Administrator, pursuant to section 408(e) of the Federal Food, Drug, and Cosmetic Act, propose to establish tolerances for the residues of the nematicide fenamiphos (ethyl 3-methyl-4-(methylthio) phenyl (1-methylethyl) phosphoramidate) in or on the raw agricultural commodity bok choy at 0.5 part per million (ppm). The petitioner proposed that this use be limited to California based on the geographical representation of the residue data submitted. Additional residue data will be required to expand the area of usage. Persons seeking geographically broader registration should contact the Agency's Registration Division at the address provided above.

There were no comments or requests for referral to an advisory committee received in response to the proposed rule.

The data submitted in the petition and other relevant material have been evaluated and discussed in the proposed rule. Based on the data and information considered, the Agency concludes that the tolerance will protect the public health. Therefore, the tolerance is established as set forth below.

Any person adversely affected by this regulation may, within 30 days after the date of publication in the **Federal Register**, file written objections and/or a request for a hearing with the Hearing Clerk at the address given above. The objections submitted must specify the provisions of the regulation deemed objectionable and the other grounds for the objections. If a hearing is granted, the objection must include a statement of the factual issue(s) on which a hearing is requested and the requestor's contentions on each such issue. A request for a hearing will be granted if the Administrator determines that the material submitted shows the following: there is a genuine and substantial issue of fact; there is a reasonable possibility that available evidence identified by the request would, if established, resolve one or more of such issues in favor of the requestor, taking into account uncontested claims or facts to the contrary; and resolution of the factual issue(s) in the manner sought by the requestor would be adequate to justify the action requested.

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-354, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (46 FR 24950).

List of Subjects in 40 CFR Part 180

Administrative practice and procedure, Agricultural commodities, Pesticides and pests, Reporting and recordkeeping requirements.

Dated: May 28, 1991.

Douglas D. Campt,

Director, Office of Pesticide Programs.

Therefore, 40 CFR part 180 is amended as follows:

PART 180—[AMENDED]

1. The authority citation for part 180 continues to read as follows:

Authority: 21 U.S.C. 346a and 371.

2. In § 180.349(c), by adding and alphabetically inserting the raw agricultural commodity bok choy, to read as follows:

§ 180.349 Ethyl 3-methyl-4-(methylthio)phenyl (1-methylethyl) phosphoramidate; tolerances for residues.

BILLING CODE 6560-50-F

VOL 56 ISS 118 JE 19 1991 UMI

40 CFR Part 271

[FRL-3964-9]

Ohio: Final Authorization of State; Hazardous Waste Management Program: Response to Comments and Corrections

AGENCY: Environmental Protection Agency.

ACTION: Immediate final rule: Response to comments and corrections.

SUMMARY: This notice addresses two comments received in response to the April 8, 1991, **Federal Register** (56 FR 14203) regarding Ohio's provisions for the listing of K090 and K091 as hazardous waste found in Ohio Administrative Code 3745-51-32. Additionally, today's notice includes two provisions of Ohio's hazardous waste management program which were inadvertently left out of the April 8, 1991, **Federal Register**. Finally, today's notice corrects the table of authorities previously published in the **Federal Register** dated April 8, 1991, regarding final authorization of revisions to Ohio's hazardous waste management program.

DATES: Final authorization for Ohio's program revisions shall be effective August 19, 1991, unless EPA publishes a prior **Federal Register** action withdrawing this Immediate Final Rule. Public comments on the two omitted provisions will be accepted until the close of business, July 19, 1991.

ADDRESSES: These provisions were made available to the public for review during the public comment period for the original application and are still available at the organizations at the U.S. Environmental Protection Agency, Region V, Waste Management Division, Office of RCRA, Regulatory Development Section, 5HR-JCK-13, 230 South Dearborn, Chicago, Illinois 60604.

FOR FURTHER INFORMATION CONTACT: Ms. Virginia Kroncke, (312) 353-4716 [FTS8-353-4716].

SUPPLEMENTARY INFORMATION:

I. Response to Comments

Two commenters suggested that Ohio should not be authorized for the Non-HSWA rule—Identification and Listing of Hazardous Waste; and Designation, Reportable Quantities, and Notification, 53 FR 35412, September 13, 1988. Both commenters cite *American Mining Congress* v. *U.S. EPA*, (AMC) 907 F2d 1179 (D.C. Cir. 1990) as authority to withhold authorizing Ohio for this rule. The commenters correctly point out that in AMC, the court remanded the Agency's decision for "fuller explanation of its decision to list K084, K086, and, in some respects, K090 and K091" at 907 F.2d 1191. However, this court order in no way removed these wastes from regulation as hazardous wastes under 40 CFR 261. Therefore, the State may apply for and receive authorization for its analog to 40 CFR 261.

Furthermore, the State programs are allowed to be "more stringent and broader in scope" than the Federal program as provided in 40 CFR 271.1(i) (1) and (2). Thus, even if these wastes are excluded from the Federal listing of hazardous waste, Ohio may still apply for authorization of a hazardous waste management program which lists these wastes as hazardous.

II. Additions

Two provisions of Ohio's hazardous waste management program were inadvertently left out of the April 8, 1991, **Federal Register**. These two provisions are listed here and can be found on the amended table of authorities printed below. On [insert date 60 days after publication] (unless EPA publishes a prior FR action withdrawing this immediate final rule), Ohio will be authorized to carry out, in lieu of the Federal program, these provisions of the State's program which are analogous to the following provisions of the Federal program (in addition to the provisions listed in the April 8, 1991, **Federal Register**): Location Standards for Salt Domes, Salt Beds, Underground Mines and Caves (FR 7/15/87), analogous state authority Ohio Administrative Code (OAC), chapter 3745, rules 54-18(C) and 65-18 effective 12/30/89; and Permit Life (FR 7/15/87), analogous State authority OAC rule 50-54(A) effective 3/4/85.

III. Corrections

One commenter pointed out that several corrections and additions to the table of authorities were necessary to reflect the current analogous State authority. EPA has amended the table of authorities with the corrected analogous sections reprinted below.

The following corrections are made to Volume 56, Number 67 Federal Register appearing on page 14203 and 14204, in the issue of April 8, 1991.

Federal requirement	Analogous state authority
★ Dioxin Waste Listing and Management Standards, 50 FR 1978-2006, January 14, 1985.	Ohio Administrative Code (OAC), Chapter 3745, rules 50-44(A)(7), 50-44(C)(2)(g), (3)(i), (4)(k), (5)(i), (7)(i), effective 6/3/90; Rules 51-31, appendix to rule 51-31, 51-33(F), appendix to rule 51-11, 55-75(C) & (D), effective 6/29/90; Rule 65-01, effective 4/1/90; Rules 51-05(E)(1) & (2), 51-07(B)(1) & (3), 51-20, 51-30(D), appendix to rule 51-30, 57-43(A), 66-83(A) & (B), effective 12/30/89; Rules 56-33(A) & (B), 56-60(A) & (B), 56-83(A) & (B), 57-18(A) & (B), and 66-52(A) & (B), effective 1/30/90;
★ Waste Minimization, 50 FR 28702, July 15, 1985	Rules 50-40(C), 50-56(J)(2), 52-41(A)(6)-(8), 54-70(I), 54-73(B)(9), effective 12/30/89;
★ Location Standards for Salt Domes, Salt Beds, Underground Mines and Caves, 50 FR 28702.	Rules 54-18(C), 65-18, effective 12/30/89;
★ Liquids in Landfills, 50 FR 28702, July 15, 1985	Rules 57-14, 66-14(A) & (D), effective 12/30/89;
★ Ground-Water Monitoring, 50 FR 28702, July 15, 1985	Rule 54-90(B), effective 12/30/89;
★ Cement Kilns, 50 FR 28702, July 15, 1985	Rule 51-05(A)(2), effective 12/30/89; Rule 51-33, effective 6/29/90; Rule 56-42(C), effective 5/28/87;
★ Permit Life, 50 FR 28702, July 15, 1985	Rule 50-54(A), effective 3/4/85;
★ Listing of TDI, DNT, and TDA Wastes, 50 FR 42936-42943, October 23, 1985	Rules 51-33(F), 51-11, effective 6/29/90; Rules 51-20, 51-30, 51-32, effective 12/30/89;

Federal requirement	Analogous state authority
★ Burning of Waste Fuel and Used Oil, Fuel in Boilers and Industrial Furnaces, 50 FR 49164-49212, November 29, 1985, (as amended on November 19, 1986, at 51 FR 41900-41904, and April 13, 1987, at 52 FR 11819-11822).	Rules 51-03(C)(2)(b)(ii), 51-05(B), 51-06(A)(2)(c), (3)(c) & (g)-(i), 56-45(A)-(E) & (G), 56-46, 56-50(A)-(E), 56-51(A) & (B), effective 12/30/89; Rules 56-53, 56-54, effective 12/8/88; Rules 57-40(A)(2), 56-40(A) & (B), 56-42(A) & (B), 56-43(A)-(C), 56-44, 56-52, 56-40, effective 5/28/87;
★ Listing of Four Spent Solvents, 51 FR 6541-6542, February 25, 1986	Rules 51-31, 51-33, appendix to rule 51-11, effective 6/29/90; Appendix to rules 51-20, 51-30, effective 12/30/89;
★ Standards for Hazardous Waste Storage and Treatment Tank Systems, 51 FR 25470-25486, July 14, 1986.	Rules 50-10(A)(2), (6), (14), (19), (31), (49), (53), (59), (67), (69), (95), (98), (107), (108), & (119), 50-44(A)(5) & (13), 50-44(C)(2), effective 6/3/90; Rules 51-04 (A)(6), 54-15(B)(4), 55-90, 66-90, 66-93, effective 6/29/90; Rules 52-34 (A)(1), (D)(2) & (3), 65-15(B)(4), effective 4/1/90; Rules 54-73 (B)(6), 65-13(B)(6), 65-73(B)(3) & (6), 66-95, 66-992, effective 12/30/89; Rules 55-10(B)(3), 55-40(B)(3), 55-91, 55-92, 55-93, 55-94, 55-95, 55-96, 55-97, 55-98, 55-99, 66-10(B)(3), 66-40(B), 66-91, 66-92, 66-94, 66-96, 66-97, 66-98, 66-99, 66-991, effective 12/8/88;
★ Listing of EBDC 51 FR 37723-37729 October 24, 1986	Rule 51-30, appendix II to rule 51-20, effective 12/30/89; Rule 51-32, effective 6/29/90;

40 CFR Part 281

[FRL-3966-9]

New Hampshire; Final Approval of State Underground Storage Tank Program

AGENCY: Environmental Protection Agency.

ACTION: Notice of final determination on New Hampshire's application for final approval.

SUMMARY: The State of New Hampshire has applied for final approval of its underground storage tank program under subtitle I of the Resource Conservation and Recovery Act (RCRA). The Environmental Protection Agency (EPA) has reviewed New Hampshire's application and has reached a final determination that New Hampshire's underground storage tank program satisfies all the requirements necessary to qualify for final approval. Thus, EPA is granting final approval to the State of New Hampshire to operate its program.

EFFECTIVE DATE: Final approval for New Hampshire shall be effective at 1 p.m., July 19, 1991.

FOR FURTHER INFORMATION CONTACT: Susan Hanamoto, Office of Underground Storage Tanks, HPU-1, U.S. EPA, Region I, JFK Federal Building, Boston, MA 02203, 617/573-5748.

SUPPLEMENTARY INFORMATION:

A. Background

Section 9004 of RCRA enables EPA to approve state underground storage tank programs to operate in a state in lieu of the federal underground storage tank program. To qualify for final authorization, a state's program must: (1) Be "no less stringent" than the federal program, and (2) provide for

VOL 56 ISS 118 JE 19 1991 UMI

adequate enforcement (Section 9004 (a) and (b) of RCRA, 42 U.S.C. 6991c (a) and (b)).

On January 8, 1991, EPA acknowledged receiving from the State of New Hampshire a complete official application to obtain final approval to administer its underground storage tank program. On April 22, 1991, EPA published a tentative decision announcing its intent to grant New Hampshire final approval of its program. Further background on the tentative decision to grant approval appears at 56 FR 16276, April 22, 1991.

Along with the tentative determination, EPA announced the availability of the application for public comment and the date of a public hearing on the application. EPA requested advance notice for testimony and reserved the right to cancel for lack of public interest. Since there was no public request, the public hearing was canceled. No public comments were received regarding EPA's approval of New Hampshire's underground storage tank program.

B. Decision

I conclude that the State of New Hampshire's application for final approval meets all of the statutory and regulatory requirements established by subtitle I of RCRA. Accordingly, New Hampshire is granted final approval to operate its underground storage tank program. The State of New Hampshire now has the responsibility for managing all regulated underground storage tank facilities within its borders and carrying out all aspects of the federal underground storage tank program except with regard to Indian lands where EPA will have regulatory authority. New Hampshire also has primary enforcement responsibility, although EPA retains the right to conduct inspections under section 9005 of RCRA, 42 U.S.C. 6991d and to take enforcement actions under section 9006 of RCRA, 42 U.S.C. 6991e.

Compliance With Executive Order 12291

The Office of Management and Budget has exempted this rule from the requirements of Section 3 of Executive Order 12291.

Certification Under the Regulatory Flexibility Act

Pursuant to the provisions of 5 U.S.C. 605(b), I hereby certify that the approval will not have a significant economic impact on a substantial number of small entities. This approval effectively suspends the applicability of certain federal regulations in favor of the State of New Hampshire's program, thereby eliminating duplicative requirements for owners and operators of underground storage tanks within the State. It does not impose any new burdens on small entities. This rule, therefore, does not require flexibility analysis.

BILLING CODE 6560-50-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR PART 64

[Docket No. FEMA 7515]

Suspension of Community Eligibility

AGENCY: Federal Emergency Management Agency, FEMA.

ACTION: Final rule.

SUMMARY: This rule identifies communities, where the sale of flood insurance has been authorized under the National Flood Insurance Program (NFIP), that are suspended on the effective dates listed within this rule because of noncompliance with the floodplain management requirements of the program. If FEMA receives documentation that the community has adopted the required floodplain management measures prior to the effective suspension date given in this rule, the suspension will be withdrawn by publication in the **Federal Register**.

EFFECTIVE DATE: The third date ("Susp.") listed in the fourth column.

FOR FURTHER INFORMATION CONTACT: Frank H. Thomas, Assistant Administrator, Office of Loss Reduction, Federal Insurance Administration, (202) 646-2717, Federal Center Plaza, 500 C Street, Southwest, room 417, Washington, DC 20472.

SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP), enables property owners to purchase flood insurance which is generally not otherwise available. In return, communities agree to adopt and administer local floodplain management aimed at protecting lives and new construction from future flooding. Section 1315 of the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4022), prohibits flood insurance coverage as authorized under the National Flood Insurance Program (42 U.S.C. 4001-4128) unless an appropriate public body adopts adequate floodplain management measures with effective enforcement measures. The communities listed in this notice no longer meet that statutory requirement for compliance with program regulations (44 CFR part 59 *et. seq.*) Accordingly, the communities will be suspended on the effective date in the fourth column. As of that date, flood insurance will no longer be available in the community. However, some of these communities may adopt and submit the required documentation of legally enforceable floodplain management measures after this rule is published but prior to the actual suspension date. These communities will not be suspended and will continue their eligibility for the sale of insurance. A notice withdrawing the suspension of the communities will be published in the **Federal Register**. In the interim, if you wish to determine if a particular community was suspended on the suspension date, contact the appropriate FEMA Regional Office or the NFIP servicing contractor.

In addition, the Federal Emergency Management Agency has identified the special flood hazard areas in these communities by publishing a Flood Insurance Rate (FIRM). The date of the FIRM if one has been published, is indicated in the fifth column of the table. No direct Federal financial assistance (except assistance pursuant to the Disaster Relief Act of 1974 not in connection with a flood) may legally be provided for construction or acquisition of buildings in the identified special flood hazard area of communities not participating in the NFIP and identified for more than a year, on the Federal Emergency Management Agency's initial flood insurance map of the community as having flood-prone areas. (section 202(a) of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), as amended). This prohibition against certain types of Federal assistance becomes effective for the communities listed on the date shown in the last column.

The Administrator finds that notice and public comment under 5 U.S.C. 553(b) are impracticable and unnecessary because communities listed in this final rule have been adequately notified.

Each community receives a 6-month, 90-day, and 30-day notification addressed to the Chief Executive Officer that the community will be suspended unless the required floodplain management measures are met prior to the effective suspension date. Since these notifications have been made, this final rule may take effect within less than 30 days.

Pursuant to the provisions of 5 U.S.C. 605(b), the Administrator, Federal Insurance Administration, FEMA, hereby certifies that this rule if promulgated will not have a significant economic impact on a substantial number of small entities. As stated in section 2 of the Flood Disaster Protection Act of 1973, the establishment of local floodplain management together with the availability of flood insurance decreases the economic impact of future flood losses to both the particular community and the nation as a whole. This rule in and of itself does not have a significant economic impact. Any economic impact results from the community's decision not to (adopt) (enforce) adequate floodplain management, thus placing itself in noncompliance with the Federal standards required for community participation. In each entry, a complete chronology of effective dates appears for each listed community.

44 CFR Part 65

[Docket No. FEMA-7025]

Changes in Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency.

ACTION: Interim rule.

SUMMARY: This rule lists communities where modification of the base (100-year) flood elevations is appropriate because of new scientific or technical data. New flood insurance premium rates will be calculated from the modified base (100-year) elevations for new buildings and their contents and for second layer coverage on existing buildings and their contents.

DATES: These modified base flood elevations are currently in effect and revise the Flood Insurance Rate Map(s) (FIRMs) in effect prior to this determination for each listed community.

From the date of the second publication of these changes in a newspaper of local circulation, any person has ninety (90) days in which he can request through the community that the Administrator reconsider the changes. The modified elevations may be changed during the 90-day period.

ADDRESSES: The modified base flood elevations for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the following table.

FOR FURTHER INFORMATION CONTACT: Mr. William R. Locke, Chief, Risk Studies Division, Federal Insurance Administration, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-2754.

SUPPLEMENTARY INFORMATION: Numerous changes made in the base (100-year) flood elevations on the FIRMs for each community make it administratively infeasible to publish, in this notice, all of the changes contained on the maps. However, this rule includes the address of the Chief Executive Officer of the community, where the modified base flood elevation determinations are made available for inspection.

Any request for reconsideration must be based upon knowledge of changed conditions, or upon new scientific or technical data.

The modifications are made pursuant to section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234) and are in accordance with the National Flood Insurance Act of 1968, as amended (title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 44 CFR 65.4).

For rating purposes, the currently effective community number is shown and must be used for all new policies and renewals.

The modified base (100-year) flood elevations are the basis for the floodplain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or to remain qualified for participation in the National Flood Insurance Program.

These modified elevations, together with the floodplain management measures required by 60.3 of the program regulations, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, state or regional entities.

The changes in base flood elevations are in accordance with 44 CFR 65.4.

Pursuant to the provisions of 5 U.S.C. 605(b), the Administrator, to whom authority has been delegated by the Director, Federal Emergency Management Agency, hereby certifies that this rule, if promulgated, will not have a significant economic impact on a substantial number of small entities. This rule provides routine legal notice of technical revisions made to designated special flood hazard areas on the basis of updated information and imposes no new requirements or regulations on participating communities.

C.M. "Bud" Schauerte,
Administrator, Federal Insurance Administration.
[FR Doc. 91-14442 Filed 6-18-91; 8:45 am]
BILLING CODE 6718-03-M

44 CFR Part 65

Changes in Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency.

ACTION: Final rule.

SUMMARY: Modified base (100-year) flood elevations are finalized for the communities listed below.

These modified elevations will be used in calculating flood insurance premium rates for new buildings and their contents and for second layer coverage on existing buildings and their contents.

EFFECTIVE DATE: The effective dates for these modified base flood elevations are indicated on the following table and revise the Flood Insurance Rate Map(s) (FIRMs) in effect for each listed community prior to this date.

ADDRESSES: The modified base flood elevations for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the following table.

FOR FURTHER INFORMATION CONTACT: Mr. William R. Locke, Chief, Risk Studies Division, Federal Insurance Administration, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-2754.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency gives notice of the final determinations of modified base flood elevations for each community listed. These modified elevations have been published in newspaper(s) of local circulation and ninety (90) days have elapsed since that publication. The Administrator has resolved any appeals resulting from this notification.

Numerous changes made in the base (100-year) flood elevations on the FIRMs for each community make it administratively infeasible to publish, in this notice, all of the changes contained on the maps. However, this rule includes the address of the Chief Executive Officer of the community, where the modified base flood elevation determinations are made available for inspection.

The modifications are made pursuant to section 206 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234) and are in accordance with the National Flood Insurance Act of 1968, (Pub. L. 90-448), 42 U.S.C. 4001-4128, and 44 CFR part 65.

For rating purposes, the currently effective community number is shown and must be used for all new policies and renewals.

The modified base (100-year) flood elevations are the basis for the floodplain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or to remain qualified for participation in the National Flood Insurance Program.

These modified elevations, together with the floodplain management measures required by § 60.3 of the program regulations, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, state or regional entities.

These modified base flood elevations shall be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for second layer coverage on existing buildings and their contents.

The changes in base flood elevations are in accordance with 44 CFR 65.4.

Pursuant to the provisions of 5 U.S.C. 605(b), the Administrator, to whom authority has been delegated by the Director, Federal Emergency Management Agency, hereby certifies that this rule, if promulgated, will not have a significant economic impact on a substantial number of small entities. This rule provides routine legal notice of technical revisions made to designated special flood hazard areas on the basis of updated information and imposes no new requirements or regulations on participating communities.

44 CFR Part 67

Final Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency.

ACTION: Final rule.

SUMMARY: Modified base (100-year) flood elevations are finalized for the communities listed below.

These modified elevations are the basis for the floodplain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or to remain qualified for participation in the National Flood Insurance Program.

EFFECTIVE DATE: The date of issuance of the revised Flood Insurance Rate Map (FIRM) showing modified base flood elevations for the community. This date may be obtained by contacting the office where the maps are available for inspection as indicated on the table below.

ADDRESSES: See table below.

FOR FURTHER INFORMATION CONTACT: Mr. William R. Locke, Chief, Risk Studies Division, Federal Insurance Administration, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-2754.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency gives notice of the final determinations of modified base flood elevations for each community listed. These modified elevations have been published in newspaper(s) of local circulation and an opportunity for the community or individuals to appeal the proposed determination to or through the community for a period of ninety (90) days has been provided. The proposed modified elevations were also published in the **Federal Register**. The Administrator has resolved any appeals resulting from these notifications.

This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1968 (title XIII of the Housing and Urban Development Act of 1968, (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 44 CFR part 67.

Pursuant to the provisions of 5 U.S.C. 605(b), the Administrator, to whom authority has been delegated by the Director, Federal Emergency Management Agency, hereby certifies, for reasons set out in the proposed rule, that this rule, if promulgated, will not have a significant economic impact on a substantial number of small entities. Also, this rule is not a major rule under terms of Executive Order 12291, so no regulatory analyses have been prepared. It does not involve any collection of information for purposes of the Paperwork Reduction Act.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 89-130; RM-6966; RM-6990]

Radio Broadcasting Services; Medical Lake and Davenport, Washington, and Sandpoint, ID

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission, at the request of Sunbrook Communications II, L.P. and Blue Sky Broadcasting: (1) Substitutes Channel 270C2 for Channel 237A at Medical Lake, Washington, and modifies the license of Station KAAR(FM) accordingly; (2) substitutes Channel 237C1 for Channel 237A at Sandpoint, Idaho, and modifies the license of Station KPND(FM) accordingly; and (3) substitutes Channel 247A for unoccupied but applied for Channel 273A at Davenport, Washington. See 54 FR 26219, June 22, 1989. The applicant for Channel 273A at Davenport may amend its application to specify Channel 247A without loss of cut-off protection. With this action, this proceeding is terminated. See Supplementary Information, *infra*.

EFFECTIVE DATE: July 29, 1991.

FOR FURTHER INFORMATION CONTACT: Leslie K. Shapiro, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION: Channel 270C2 can be allotted to Medical Lake in compliance with the Commission's minimum distance separation requirements with a site restriction of 14.8 kilometers (9.2 miles) northwest to accommodate Sunbrook's desired transmitter site, at coordinates 47-41-30 and 117-46-00. Channel 237C1 can be allotted to Sandpoint with a site restriction of 34.6 kilometers (21.5 miles) northeast to avoid short-spacings to Station CBTA-FM, Channel 238C, Trail, British Columbia, Canada, to unoccupied and unapplied for Channel 239C at Trail, British Columbia, and to the pending application (BPH-900616ID) of Station KLER-FM for Channel 237C3, Orofino, Idaho, at coordinates 46-25-19 and 116-08-30. Channel 247A can be allotted to Davenport without the imposition of a site restriction at coordinates 47-39-06 and 118-09-06.

This is a synopsis of the Commission's Report and Order, MM Docket No. 89-130, adopted May 30, 1991, and released June 13, 1991. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractor, Downtown Copy Center, (202) 452-1422, 1714 21st Street, NW., Washington, DC 20036.

[MM Docket No. 90-263; FCC 91-155]

Settlement Agreements Among Applicants for Construction Permits

AGENCY: Federal Communications Commission.

ACTION: Final rule; petitions for reconsideration.

SUMMARY: In responding to petitions for reconsideration and a request to defer the effective date, the Commission clarifies and modifies the rules adopted in its Report and Order (56 FR 373, January 4, 1991) in this proceeding. These rules limit payments that may be received by competing applicants for construction permits for new broadcast stations or modifications to facilities of existing stations. The Commission modified the settlement payment limits to permit recovery of expenses at any stage in the comparative hearing process. The Commission clarified that it will not apply the settlement limitations to settlement arrangements that are part of a *bona fide* merger of the settling applicants. This action is taken as part of the Commission's continuing effort to eliminate abuse of the Commission's licensing processes.

EFFECTIVE DATE: August 1, 1991.

ADDRESSES: Federal Communications Commission, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Beverly McKittrick, Mass Media Bureau, Policy and Rules Division, (202) 632-5414.

SUPPLEMENTARY INFORMATION: Public reporting burden for § 73.3525 (3060-0213) is estimated to be 8 hours per respondent, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to the Federal Communications Commission, Office of Managing Director, Paperwork Reduction Project, Washington, DC 20554, and to the Office of Management and Budget, Paperwork Reduction Project (3060-0213), Washington, DC 20503.

This is a synopsis of the Commission's Memorandum Opinion and Order in MM Docket No. 90-263, adopted May 9, 1991, and released May 15, 1991. The complete text of this Memorandum Opinion and Order is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street NW., Washington, DC, and also may be purchased from the Commission's copy contractor, Downtown Copy Center, (202) 452-1422, 1114 21st Street NW., Washington, DC.

Synopsis of Memorandum Opinion and Order

1. Through this decision, the Commission clarified and modified the rules adopted in the Report and Order in this proceeding to reflect its effort to eliminate abuse of Commission processes by limiting the payments that can be made to settle cases involving competing applications for construction permits for new broadcast stations or modifications to facilities of existing stations.

2. On reconsideration, the Commission was persuaded that an across-the-board limitation on settlement payments to expenses is sufficient to deter speculative applicants because it forecloses applicants from making a profit on settlements. While an absolute bar on settlement payments after the start of the trial would no doubt encourage earlier settlements, the Commission was concerned that this may prevent *bona fide* applicants with limited financial resources from prosecuting their applicants past the start of the trial. Moreover, by making it impossible for parties to fully recoup their expenses at later hearing stages, such a policy would discourage those that had decided against early settlement from settling at some later point. Therefore, the Commission concluded that, in the context of comparative proceedings involving applicants for new stations, the benefit of eliminating settlement payments after the trial starts, encouraging earlier settlements, was insufficient to outweigh the possible adverse consequences of such a prohibition. In light of the modification of our settlement policy, applicants will be able to recoup their expenses at any point in the comparative new proceeding.

3. The Commission clarified that its new rules would not apply to settlements by merger of applicants. The rules limiting settlement payments to legitimate expenses should not be applied in such a manner as to preclude or unduly hinder legitimate merger transactions involving competing applicants. The Commission noted that it will rely on the broad principles of case-by-case analysis outlined in Venton Corporation, 90 FCC 2d 307 (1982). In addition, the Commission intends to follow certain specified guidelines in reviewing merger proposals for legitimacy. First, it will examine with a heightened level of scrutiny any merger proposal where the dismissing applicant receives cash, either up-front or on a deferred basis, and the payment is guaranteed regardless of the outcome of the business venture. The Commission will accord similar scrutiny to any merger proposal that provides for cash or similar liquid asset payments to the dismissing applicant in excess of its out-of-pocket expenses. Finally, out of concern for the potential abuse of its processes that the merger exception may engender, the Commission will be inclined to disallow merger settlements that present a close question. To aid the Commission in its scrutiny of merger settlement agreements, the Commission will require applicants to submit a full explanation and justification of the parties' exchange of consideration in addition to the itemization of expenses required in non-merger settlements.

4. The Commission denied the request to defer the effective date of the settlement limits and to require applicants who pay their hearing fee on or before March 21, 1991, to serve notice of such payment of competing applicants. This deferral and notice requirement would provide a longer period for an applicant to offer unlimited settlement payments to other applicants after ascertaining, by payment of hearing fees, which of the other applicants intended to go forward and should be approached about settlement. The Commission pointed out that pending applicants have had ample notice of the Commission's intention to impose settlement limits and can settle without any limits before the effective date of the adopted rules.

5. The Commission affirmed its determination that the proposal to create a minority media ownership trust was beyond the scope of this proceeding because it implicates a board range of issues unrelated to the issues in this proceeding. It will be considered separately. The Commission rejected a proposal to create an exception for minorities to a general prohibition against third-party buyouts. The Commission noted that while it is interested in new and creative proposals to foster its longstanding goal of diversifying ownership of broadcast media, it cannot adopt policies that hold substantial potential for abuse of Commission processes.

Final Regulatory Flexibility Statement

6. Pursuant to the Regulatory Flexibility Act of 1980, 5 U.S.C. 605, it is certified that the adopted rule will have a beneficial impact on entities of all sizes because it will reduce the number of competing applications filed in bad faith. As a result, hearings will likely be less complex in terms of numbers of parties and issues. This will be especially beneficial to small entities with limited financial resources.

7. Accordingly, *it is ordered,* That the Petition for Partial Reconsideration of the Federal Communications Bar Association *is granted.*

8. *It is further ordered,* That the Petition for Reconsideration filed by Hampton Broadcasting *et al. is granted* to the extent indicated above and *is denied* in all other aspects.

9. *It is further ordered,* That the Petition for Partial Reconsideration and Request for Deferral of Effective Date filed by Melanie Bruton *et al. is denied.*

10. *It is further ordered,* That the Petition for Reconsideration, or in the Alternative Petition for Rulemaking filed by the National Association for the Advancement of Colored People, *et al. is denied* to the extent indicated above.

11. *It is further ordered,* That the Motion for Partial Deferral of Effective Date filed by the Federal Communications Bar Association is Dismissed as Moot.

12. *It is further ordered,* That pursuant to the authority contained in sections 4 and 303 of the Communications Act of 1934, as amended, 47 U.S.C. 154 and 303, parts 73 and 74 of the Commission's Rules, 47 CFR parts 73 and 74, *are amended* as set forth below, effective August 1, 1991, subject to Office of Management and Budget approval.

List of Subjects in 47 CFR Part 73 and 74

Radio broadcasting, Television broadcasting.

Amendatory Text

PART 73—[AMENDED]

Parts 73 and 74 of title 47 of the Code of Federal Regulations are amended as follows:

1. The authority citation for part 73 continues to read as follows:

Authority: 47 U.S.C. Sections 154 and 303.

2. Section 73.3525 is revised to read as follows:

§ 73.3525 Agreements for removing application conflicts.

(a) Except as provided in § 73.3523 regarding dismissal of applications in comparative renewal proceedings, whenever applicants for a construction permit for a broadcast station enter into an agreement to procure the removal of a conflict between applications pending before the FCC by withdrawal or amendment of an application or by its dismissal pursuant to § 73.3568, all parties thereto shall, within 5 days after entering into the agreement, file with the FCC a joint request for approval of such agreement. The joint request shall be accompanied by a copy of the agreement, including any ancillary agreements, and an affidavit of each party to the agreement setting forth:

(1) The reasons why it is considered that such agreement is in the public interest;

(2) A statement that its application was not filed for the purpose of reaching or carrying out such agreement;

(3) A certification that neither the applicant nor its principals has received any money or other consideration in excess of the legitimate and prudent expenses of the applicant; *Provided:* That this provision shall not apply to *bona fide* merger agreements;

VOL 56 ISS 118 JE 19 1991 UMI

(4) The exact nature and amount of any consideration paid or promised;

(5) An itemized accounting of the expenses for which it seeks reimbursement; and

(6) The terms of any oral agreement relating to the dismissal or withdrawal of its application.

(b) Whenever two or more conflicting applications for construction permits for broadcast stations pending before the FCC involve a determination of fair, efficient and equitable distribution of service pursuant to section 307(b) of the Communications Act, and an agreement is made to procure the withdrawal (by amendment to specify a different community or by dismissal pursuant to § 73.3568) of the only application or applications seeking the same facilities for one of the communities involved, all parties thereto shall file the joint request and affidavits specified in paragraph (a) of this section.

(1) If upon examination of the proposed agreement the FCC finds that withdrawal of one of the applications would unduly impede achievement of a fair, efficient and equitable distribution of radio servce among the several States and communities, then the FCC shall order that further opportunity be afforded for other persons to apply for the facilities specified in the application or applications to be withdrawn before acting upon the pending request for approval of the agreement.

(2) Upon release of such order, any party proposing to withdraw its application shall cause to be published a notice of such proposed withdrawal at least twice a week for 2 consecutive weeks within the 3-week period immediately following release of the FCC's order, in a daily newspaper of general circulation published in the community in which it was proposed to locate the station. However, if there is no such daily newspaper published in the community, the notice shall be published as follows:

(i) If one or more weekly newspapers of general circulation are published in the community in which the station was proposed to be located, notice shall be published in such a weekly newspaper once a week for 3 consecutive weeks within the 4-week period immediately following the release of the FCC's order.

(ii) If no weekly newspaper of general circulation is published in the community in which the station was proposed to be located, notice shall be published at least twice a week for 2 consecutive weeks within the 3-week period immediately following the release of the FCC's order in the daily newspaper having the greatest general circulation in the community in which the station was proposed to be located.

(3) The notice shall state the name of the applicant; the location, frequency and power of the facilities proposed in the application; the location of the station or stations proposed in the applications with which it is in conflict; the fact that the applicant proposes to withdraw the application; and the date upon which the last day of publication shall take place.

(4) Such notice shall additionally include a statement that new applications for a broadcast station on the same frequency, in the same community, with substantially the same engineering characteristics and proposing to serve substantially the same service area as the application sought to be withdrawn, timely filed pursuant to the FCC's rules, or filed, in any event, within 30 days from the last date of publication of the notice (notwithstanding any provisions normally requiring earlier filing of a competing application), will be entitled to comparative consideration with other pending mutually exclusive affidavits.

(5) Within 7 days of the last day of publication of the notice, the applicant proposing to withdraw shall file a statement in triplicate with the FCC giving the dates on which the notice was published, the text of the notice and the name and location of the newspaper in which the notice was published.

(6) Where the FCC orders that further opportunity be afforded for other persons to apply for the facilities sought to be withdrawn, no application of any party to the agreement will be acted upon by the FCC less than 30 days from the last day of publication of the notice specified in paragraph (b)(2) of this section. Any applications for a broadcast station on the same frequency in the same community, with substantially the same engineering characteristics and proposing to serve substantially the same service area as the application sought to be withdrawn, filed within the 30-day period following the last date of publication of the notice (notwithstanding any provisions normally requiring earlier filing of a competing application), or otherwise timely filed, will be entitled to comparative consideration with other pending mutually exclusive applications. If the application of any party to which the new application may be in conflict has been designated for hearing, any such new application will be entitled to consolidation in the proceeding.

(c) Except where a joint request is filed pursuant to paragraph (a) of this section, any applicant filing an amendment pursuant to § 73.3522(a) or a request for dismissal pursuant to § 73.3568(a) which would remove a conflict with another pending application; or a petition for leave to amend pursuant to § 73.3522 (b) or (c) which would permit a grant of the amended application or an application previously in conflict with the amended application; or a request for dismissal pursuant to § 73.3568(c), shall file with it an affidavit as to whether or not consideration (including an agreement for merger of interests) has been promised to or received by such applicant, directly or indirectly, in connection with the amendment, petition or request.

(d) Upon the filing of a petition for leave to amend or to dismiss an application for broadcast facilities which has been designated for hearing or upon the dismissal of such application on the FCC's own motion pursuant to § 73.3568(b), each applicant or party remaining in hearing, as to whom a conflict would be removed by the amendment or dismissal shall submit for inclusion in the record of that proceeding an affidavit stating whether or not he has directly or indirectly paid or promised consideration (including an agreement for merger of interests) in connection with the removal of such conflict.

(e) Where an affidavit filed pursuant to paragraph (c) of this section states that consideration has been paid or promised, the affidavit shall set forth in full all relevant facts, including, but not limited to, the material listed in paragraph (a) of this section for inclusions in affidavits.

(f) Affidavits filed pursuant to this section shall be executed by the applicant, permittee or licensee, if an individual; a partner having personal knowledge of the facts, if a partnership; or an officer having personal knowledge of the facts, if a corporation or association.

(g) Requests and affidavits which relate to an application which has not been designated for hearing shall bear the file number of such application. If the affiant is also an applicant, the affidavit shall also bear the file number of affiant's pending application(s). Requests and affidavits which relate to an application which is designated for hearing shall bear the file number of that application and the hearing docket number and will be acted on by the presiding officer.

(h) For the purposes of this section an application shall be deemed to be "pending" before the FCC and a party shall be considered to have the status of an "applicant" from the time an application is filed with the FCC until an order of the FCC granting or denying it is no longer subject to reconsideration by the FCC or to review by any court.

(i) For purposes of this section, "legitimate and prudent expenses" are those expenses reasonably incurred by an applicant in preparing, filing, prosecuting, and settling its application for which reimbursement is being sought.

(j) For purposes of this section, "other consideration" consists of financial concessions, including, but not limited to the transfer of assets or the provision of tangible pecuniary benefit, as well as non-financial concessions that confer any type of benefit on the recipient.

(k) For purposes of this section, an "ancillary agreement" means any agreement relating to the dismissal of an application or settling of a proceeding, including any agreement on the part of an applicant or principal of an applicant to render consulting services to another party or principal of another party in the poroceeding.

Note: Although § 74.780 of the Rules makes this section generally applicable to low power TV, TV translators, and TV booster stations, paragraph (b) of this section shall not be applicable to such stations.

PART 74—[AMENDED]

1. The authority citation for part 74 continues to read as follows:

Authority: 47 U.S.C. Sections 154 and 303.

2. Section 74.780 is amended by revising the sentence that cross-references § 73.3525, to read as follows:

§ 74.780 Broadcast regulations applicable to translators, low power, and booster stations.

* * * * *

Section 73.3525—Agreements for removing application conflicts.

* * * * *

Federal Communications Commission.

BILLING CODE 6712-01-M

DEPARTMENT OF ENERGY

48 CFR Parts 915, 917, 950 and 970

Acquisition Regulation

AGENCY: Department of Energy.

ACTION: Final rule.

SUMMARY: On February 7, 1991, the Department of Energy (DOE) published an Interim Final Rule which amended the Department of Energy Acquisition Regulation (DEAR) regarding its contracting practices and fee arrangements with its profit making and fee bearing (hereinafter referred to as "profit making") management and operating (M&O) contractors. 56 FR 5064. These amendments were made in order to clarify the responsibilities in the performance of these contracts while providing additional incentives to enhance the accountability of M&O contractors to DOE. In today's notice, DOE responds to significant comments on the interim final rule which raise new arguments.

This final rule adopts as final the interim final rule published in the **Federal Register** on February 7, 1991, with certain minor changes as indicated below.

EFFECTIVE DATES: July 19, 1991.

FOR FURTHER INFORMATION CONTACT:

Stephen D. Mournighan, Office of Policy, PR-12, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585 (202) 586-8182

Lawrence R. Oliver, Assistant General Counsel, for Procurement and Finance (GC-34), 1000 Independence Avenue, SW., Washington, DC 20585 (202) 586-2440

OR

Mary Ann Masterson, Deputy Assistant General Counsel for Procurement and Finance, 1000 Independence Avenue, SW., Washington, D.C. 20585 (202) 586-1900

SUPPLEMENTARY INFORMATION:

I. Background
II. Discussion of Comments Received
III. Procedural Requirements

I. Background

1. Introduction

On February 7, 1991, DOE published a notice of interim final rulemaking with opportunity for public comment. The interim final rule amended DOE regulations regarding contracting practices and fee arrangements with profit making management and operating (M&O) contractors. 56 FR 5064. In the preamble, DOE provided an opportunity for public comment on the interim final rule (IFR). The principal purpose of today's notice is to respond to comments DOE received which raise new arguments or perspectives warranting a formal response. A secondary purpose is to make minor changes, in the nature of technical corrections and clarifications, to the IFR which do not alter the text substantively. Details regarding the procedural background of this rulemaking and previous responses to public comments appear in the preamble to the IFR.

2. Summary of IFR

In the administration of its profit making M&O contracts, the accountability portion of the rule clarified the responsibilities of the parties and provided additional incentives directed toward improved accountability of M&O contractors. One of DOE's objectives in implementing this new rule is to emphasize the importance it places on the responsibility and accountability of its M&O contractors for excellent performance, particularly in the areas of environment, health and safety, in managing and operating DOE facilities.

In addition, the structure and amounts of fees to be paid to its profit making M&O contractors were changed to compensate profit making M&O contractors for the increased financial exposure placed on M&O contractors by the accountability provisions of the final rule. First, an important purpose of the award fee provisions of the final rule is to provide another management tool to promote performance above expected levels by establishing a fee arrangement which provides strong financial incentives for contractor performance at substantially higher levels than those which were utilized under the old fee structure. In addition, contractors who perform at less than satisfactory levels will find a portion of their basic fee to be at risk. Second, the fee schedules which were included in the old DEAR provisions were issued in 1983 and have been updated to recognize the economic impacts of inflation since that time. Third, the techniques for establishing fees in award fee have been revised.

II. Discussion of Comments Received

Comments on the IFR were required to be received on or before April 8, 1991. DOE received comments from eight commenters in response to the IFR. DOE has reviewed and analyzed all of the comments received.

DOE's specific responses to issues raised by the commenters to the IFR are addressed to the extent that such comments differ from those provided in response to the RPR or the extent that different arguments have been advanced or facts provided in support of additional changes to the provisions contained in the IFR.

1. Insurance

Comment: One commenter raised the question whether "similar types of required insurance [which] remain an allowable cost" include DOE's retrospective-rated insurance plans, which in addition to covering Worker's

VOL 56 ISS 118 JE 19 1991 UMI

Compensation also cover Employer's Liability and General Liability coverage.

"[S]imilar types of required insurance" refers to insurance listed as an allowable cost in DEAR 970.5204–3(d)(8)(ii) and 970.5204–14(d)(8)(ii). This clause generally covers legally required insurance, such as unemployment and workmen's compensation, and personnel related insurance plans, such as employee health and retirement plans. Employer and general liability insurance would not be covered. This type of coverage would be inconsistent with a fundamental principle of the final rule, which is not to reimburse contractors for insuring against the financial risk of incurring Avoidable Costs.

2. Liability Cap for Subcontractors

Comment: One commenter suggested that, with respect to financial guarantees required of subcontractors, the final rule should provide (1) that the guarantee remain in effect for a period of one year after expiration or termination of the subcontract and (2) that the same flexibility as to the form and amount of the required financial guarantee afforded the contractor's financial guarantee, including the option of retainage, should be provided to subcontractors.

DOE agrees with these comments and the necessary changes have been made to the final rule. These changes may be found at new DEAR subsection 970.5204–55(b) (2).

3. Subcontractors and Environmental Restoration Contractors

Comment: One commenter questioned the limitation on the financial obligations of fixed price subcontractors under subsection 970.5204–55(b) (1) to the fee or profit earned under the fixed price subcontract. The commenter believed that fixed price subcontractors should take all the financial risk of rework, losses, fines and penalties and damage to government property as they do now.

DOE is aware that, in most instances, fixed price subcontractors do bear substantially all of such financial risks. However, it is anticipated that there may be a number of subcontractors, including fixed price subcontractors, performing work in the future which may involve difficult, non-routine efforts, and some degree of uncertainty and risk. This may often be the case in environmental clean-up efforts in particular. In addition, not all fixed price contracts are the same with regard to the assumption of financial risks and/or with regard to the type of financial incentives provided. DOE has concluded that until it has had the opportunity to gain some experience with this process, the reasons for limiting the fixed price subcontractor's financial obligation provided in the IFR are more persuasive. No change has been made from the IFR.

4. Litigation Costs and Control

Comment: One commenter raised questions concerning the mechanics for the application of the litigation clause and whether current practices, including submission of pleadings for review to DOE counsel and other contacts with DOE counsel, should continue or whether the Contracting Officer must be contacted first to authorize this involvement.

The question whether and to what extent DOE counsel should review directly and/or control ongoing litigation will be decided on a case by case basis. Contractors should consult with the Contracting Officer to determine the appropriate course of action in each case.

5. Government Property

Comment: One commenter raised questions concerning the mechanics and application of property valuation for loss of or damage to government property and the basis on which a Contracting Officer could determine depreciated value to be the appropriate measure instead of replacement cost.

DOE is continuing to review the question of property valuation for lost, damaged or stolen government property and will be supplying additional guidance to Contracting Officers as part of its implementation of this final rule. However, resolution of questions concerning property valuation will necessarily vary depending on the circumstances and facts of each case.

6. Non-Profit Subcontractors of Profit-Making M&O Contractors

Comment: One commenter sought clarification on whether or not the accountability provisions apply to non-profit subcontractors of profit-making M&O contractors.

Non-Profit subcontractors of profit-making M&O contractors are exempt from the accountability provisions of the rule. To clarify this issue, language has been added to DEAR 970.5204–13, *Allowable costs and fixed-fee (Management and Operating contracts)*, (36) (ii); as well as DEAR 970.5204–14(e), *Allowable costs and fixed-fee (Support contracts)*, Items of unallowable costs, (34) (ii); and DEAR 950.7011, *General contract authority indemnity*, (c) (2).

7. Liability for Ordinary Negligence and Third Party Liability

Comment: One commenter asked for DOE's rationale for adopting an indemnification policy for non-nuclear damage which is perceived by the commenter to be inconsistent with the indemnification policy under the Price-Anderson Act.

A major public policy underlying the Price-Anderson Act is adequate protection, and compensation, of the public in the event of a nuclear accident. The policy underlying this Rulemaking is to enhance accountability of M&O contractors and provide incentives for improvement in the contractual performance of their non-nuclear related responsibilities. As the rationale for this rule is not the same as the Price-Anderson Act, there is no basis for treatment of these potential liabilities in the same manner. Holding M&O contractors responsible for their activities within their control and responsibility is consistent with the management responsibility these contractors would have in their non-governmental business operations, many of which involve high risks, and sound management practices generally. The Final Rule has not changed in this regard.

This final rule applies only to DOE's profit making M&O contractors and subcontractors.

III. Procedural Requirements

1. Review Under Executive Order 12291

Executive Order 12291 requires that a regulatory impact analysis be prepared prior to promulgation of a "major rule," and subject to certain exceptions, provides for submission of rules to the Office of Management and Budget (OMB) for formal regulatory review. The term "major rule" is defined by Executive Order 12291 to include "any regulation that is likely to result in: (1) An annual effect on the economy of $100 million or more; (2) A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or (3) Significant adverse effects on competition, employment, investment, productivity, innovations, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets."

For reasons set forth in detail in the preamble to the IFR, DOE concluded that this rulemaking does not involve a "major rule". Today's notice does not affect that conclusion.

DOE submitted the IFR to OMB as described in the preamble to the IFR. OMB completed its review.

2. Review Under the Regulatory Flexibility Act

In the preamble to the IFR, DOE concluded that the rule would not have a significant economic impact on a substantial number of small entities and that no regulatory flexibility analysis was necessary. DOE reaffirms that conclusion.

3. Review Under the Paperwork Reduction Act

In the preamble to the IFR, DOE concluded that the rule did not contain new "information collection" requirements requiring clearance by OMB pursuant to the Paperwork Reduction Act of 1980 (44 U.S.C. 3501, *et seq.*). DOE reaffirms that conclusion.

4. Review Under the National Environmental Policy Act

It has been and continues to be DOE's policy that contractors comply with all applicable environmental requirements. DOE anticipates that the DEAR amendments adopted in today's Final Rule will act to encourage diligence in fulfilling this commitment. However, it is not possible at this time to speculate concerning specific actions, if any, which may be taken in response to the rule, or whether they would have significant environmental effects. Therefore, no meaningful NEPA analysis can be prepared in conjunction with promulgation of this rule. DOE will continue to examine individual actions to determine the appropriate level of NEPA review.

5. Review Under Executive Order 12612

Executive Order 12612, 52 FR 41285 (October 30, 1987) requires that regulations, rules, legislation, and any other policy actions be reviewed for any substantial direct effects on States, on the relationship between the national government and the States, or in the distribution of power and responsibilities among various levels of government. If there are sufficient substantial direct effects, then the Executive Order requires preparation of a federalism assessment to be used in all decisions involved in promulgating and implementing a policy action.

Today's Final Rule will revise certain policy and procedural requirements. However, DOE has determined that none of the revisions will have a substantial direct effect on the institutional interests or traditional functions of States.

List of Subjects in 48 CFR Parts 915, 917, 950 and 970

Government contracts, DOE management and operating contracts.

Issued in Washington, DC on June 7, 1991.

Silas B. Fisher,

Director, Office of Procurement, Assistance and Program Management.

Accordingly, 48 CFR parts 915, 917, 950, and 970 are revised to read as follows:

PART 915—CONTRACTING BY NEGOTIATION

1. The authority citation for part 915 continues to read as follows:

Authority: 42 U.S.C. 7254; 40 U.S.C. 486(c).

2. Section 915.971–5 is amended by revising paragraphs (d), (f), and (h) to read as follows:

915.971–5 Fee schedules.

* * * * *

(d) The following schedule sets forth the base for construction contracts:

CONSTRUCTION CONTRACTS SCHEDULE

Fee base (dollars)	Fee (dollars)	Fee (percent)	Incr. (percent)
100,000	5,400	5.40	5.30
300,000	16,000	5.33	5.00
500,000	26,000	5.20	4.80
1,000,000	50,000	5.00	3.55
3,000,000	121,000	4.03	3.00
5,000,000	181,000	3.62	2.62
10,000,000	312,000	3.12	2.36
15,000,000	431,000	2.87	2.01
25,000,000	632,000	2.53	1.79
40,000,000	900,000	2.25	1.58
60,000,000	1,216,000	2.03	1.43
80,000,000	1,502,000	1.88	1.29
100,000,000	1,759,000	1.76	1.15
150,000,000	2,333,000	1.56	0.99
200,000,000	2,829,000	1.41	0.73
300,000,000	3,563,000	1.19	0.63
400,000,000	4,186,000	1.05	0.52
500,000,000	4,706,000	0.94	
Over $500 million	4,706,000		[1] 0.52

[1] 0.52% excess over $500 million.

* * * * *

(f) The following schedule sets forth the base for construction management contracts:

CONSTRUCTION MANAGEMENT CONTRACTS SCHEDULE

Fee base (dollars)	Fee (dollars)	Fee (percent)	Incr. (percent)
100,000	5,400	5.40	5.30
300,000	16,000	5.33	5.00
500,000	26,000	5.20	4.80
1,000,000	50,000	5.00	3.55
3,000,000	121,000	4.03	3.00
5,000,000	181,000	3.62	2.62
10,000,000	312,000	3.12	2.36
15,000,000	431,000	2.87	2.01
25,000,000	632,000	2.53	1.79
40,000,000	900,000	2.25	1.58
60,000,000	1,216,000	2.03	1.43
80,000,000	1,502,000	1.88	1.29
100,000,000	1,759,000	1.76	1.15
150,000,000	2,333,000	1.56	0.99
200,000,000	2,829,000	1.41	0.73
300,000,000	3,563,000	1.19	0.63
400,000,000	4,186,000	1.05	0.52
500,000,000	4,706,000	0.94	
Over $500 million	4,706,000		[1] 0.52

[1] 0.52% excess over $500 million.

CONSTRUCTION MANAGEMENT CONTRACTS SCHEDULE—Continued

Fee base (dollars)	Fee (dollars)	Fee (percent)	Incr. (percent)
25,000,000	632,000	2.53	1.79
40,000,000	900,000	2.25	1.58
60,000,000	1,216,000	2.03	1.43
80,000,000	1,502,000	1.88	1.29
100,000,000	1,759,000	1.76	
Over $100 million	1,759,000		[1] 1.29

[1] 1.29% excess over $100 million.

* * * * *

(h) The schedule of fees for consideration of special equipment purchases and for consideration of the subcontract program under a construction management contract is as follows:

SPECIAL EQUIPMENT PURCHASES/ SUBCONTRACT WORK SCHEDULE

Fee base (dollars)	Fee (dollars)	Fee (percent)	Incr. (percent)
100,000	1,500	1.50	1.50
200,000	3,000	1.50	1.50
400,000	6,000	1.50	1.50
600,000	9,000	1.50	1.50
800,000	12,000	1.50	1.00
1,000,000	15,000	1.50	1.00
2,000,000	25,000	1.25	0.85
4,000,000	42,000	1.05	0.70
6,000,000	56,000	0.93	0.65
8,000,000	69,000	0.86	0.60
10,000,000	81,000	0.81	0.56
15,000,000	109,000	0.73	0.48
25,000,000	157,000	0.63	0.43
40,000,000	222,000	0.56	0.40
60,000,000	301,000	0.50	0.36
80,000,000	372,000	0.47	0.34
100,000,000	439,000	0.44	0.25
150,000,000	566,000	0.38	0.21
200,000,000	670,000	0.34	0.12
300,000,000	793,000	0.26	
Over $300 million	793,000		[1] 0.12

[1] 0.12% excess over $300 million.

3. The introductory text to section 915.972(a) is revised to read as follows:

915.972 Special consideration for cost-plus-award-fee contracts.

(a) When a contract is to be awarded on a cost-plus-award-fee basis in accordance with 916.404–2, several special considerations are appropriate. Fee objectives for management and operating contracts, including those using the Construction or Construction Management fee schedules from section 915.971–5, shall be developed pursuant to the procedures set forth in section 970.1509–6. Fee objectives for other cost-plus-award-fee contracts shall be developed as follows:

* * * * *

VOL 56 ISS 118 JE 19 1991 UMI

PART 917—SPECIAL CONTRACTING METHODS

4. The Authority citation for part 917 continues to read as follows:

Authority: 42 U.S.C. 7254; 42 U.S.C. 2160.

917.605 [Amended]

5. Section 917.605 is amended by revising paragraph (b)(2)(iii) to read as follows:

(b) * * *

(2) * * *

(iii) Where the contract is a cost-plus-award-fee (CPAF) or similar arrangement, include a discussion of award fee experience since the date that the contract was last extended, showing the basic fee, award fee pool, award fee appraisals, and award fee earned.

* * * * *

PART 950—EXTRAORDINARY CONTRACTUAL ACTIONS

6. The authority citation for part 950 continues to read as follows:

Authority: 42 U.S.C. 7254; 40 U.S.C. 486(c).

7. In section 950.7011 paragraph (c) is revised to read as follows:

950.7011 General contract authority indemnity.

* * * * *

(c) (1) While it is normally DOE policy to require its non-management and operating contractors to obtain insurance coverage against public liability for nonnuclear risks, there may be circumstances in which a contractual indemnity may be warranted to protect a DOE non-management and operating contractor against liability for uninsured nonnuclear risks.

(2) It is DOE policy that, except to the extent required by the direction of the Contracting Officer and in the case of Small Businesses and Small Disadvantaged Businesses and non-profit subcontractors, management and operating contractors shall not obtain reimbursement for bonds or insurance to cover otherwise unallowable Avoidable Costs. M&O contractors may only be reimbursed for insurance against nonnuclear risk above the liability ceiling provided in 970.5204–55, subject to the approval of the Contracting Officer.

* * * * *

PART 970—DOE MANAGEMENT AND OPERATING CONTRACTS

8. The authority citation for part 970 continues to read as follows:

Authority: Sec. 161 of the Atomic Energy Act of 1954 (42 U.S.C. 2201), Sec. 644 of the Department of Energy Organization Act, Pub. L. 95–91 (42 U.S.C. 7254), Sec. 201 of the Federal Civilian Employee and Contractor Travel Expenses Act of 1985 (41 U.S.C. 420) and Sec. 1534 of the Department of Defense Authorization Act, 1986, Pub. L. 99–145 (42 U.S.C. 7256a), as amended.

9. Section 970.1509–5 paragraph (b) is revised to read as follows:

970.1509–5. Limitations.

* * * * *

(b) The applicable schedules and maximum fees are:

PRODUCTION EFFORTS

Fee base (dollars)	Fee (dollars)	Fee (percent)	Incr. (percent)
Up to $1 Million			7.00
1,000,000	70,000	7.00	6.20
3,000,000	194,000	6.47	5.55
5,000,000	305,000	6.10	4.48
10,000,000	529,000	5.29	3.86
15,000,000	723,000	4.82	3.39
25,000,000	1,062,000	4.25	3.06
40,000,000	1,521,000	3.80	2.67
60,000,000	2,054,000	3.42	2.35
80,000,000	2,524,000	3.16	2.14
100,000,000	2,952,000	2.95	1.32
150,000,000	3,813,000	2.41	1.02
200,000,000	4,123,000	2.06	0.56
300,000,000	4,576,000	1.56	0.48
400,000,000	5,162,000	1.29	0.41
500,000,000	5,574,000	1.11	
Over $500 million	5,574,000		[1] 0.41

[1] 0.41% excess over $500 million.

RESEARCH AND DEVELOPMENT EFFORTS

Fee base (dollars)	Fee (dollars)	Fee (percent)	Incr. (percent)
25,000	2,500	10.00	10.00
50,000	5,000	10.00	10.00
100,000	10,000	10.00	8.00
200,000	18,000	9.00	8.00
400,000	34,000	8.50	7.50
600,000	49,000	8.17	7.00

500,000,000	6,556,000	1.31	
Over $500 million	6,556,000		[1] 0.46

[1] 0.46% excess over $500 million.

10. In section 970.1509–6 paragraphs (b), (c), (d) and (e) are revised to read as follows:

970.1509–6 Special considerations—award fee.

* * * * *

(b) In management and operating contracts, the basic fee portion of the fee negotiation objective shall be established equal to what would otherwise have been the applicable fixed fee established in accordance with 970.1509–4. This basic fee includes a 50% base fee and a 50% "at risk fee." No variations from this objective are authorized without the prior approval of the Procurement Executive. The basic fee shall be paid in equal monthly installments, in accordance with the clause at 970.5204–16, Payments and Advances. However, in the event the contractor's performance is judged by the Fee Determination Official to fall into the performance categories of Marginal or Unsatisfactory, as those terms are defined in subparagraph (d) of this section, the contractor shall be required to refund to the Government up to 50% of the basic fee paid for that evaluation period at a rate of 5% for each performance point below 76, as shown in the table in subparagraph (d) of this section.

(c) The award fee portion of the fee objective for a management and operating contract shall be established for each contract using the following formula:

Basic Fee Amount X (multiplied by the) Applicable Award Fee Factor. The applicable award fee factor shall be established according to the following category placements as set forth below:

Defense Facility—A
Defense Facility—B
Enrichment Plant
Miscellaneous

Individual DOE facilities which are operated under award fee arrangements will be assigned to each category by the Procurement Executive, whose designee shall distribute a list of such assignments to all Heads of Contracting Activities (HCAs). In assigning facilities to categories, the Procurement Executive will consider the factors listed below, to determine the risks—technical, management, and financial—which the contractor will assume in fulfilling the contract requirements. Contracts which involve higher levels of risks shall be placed in higher categories and be eligible for higher award fees. The Procurement Executive, or designee, shall review the category assignments on a regular basis or upon request by the HCA for a particular contract. Reassignments may be made based upon a change in contract requirements or changes in any of the following factors:

(1) Placement of the facility on the EPA's National Priority List (NPL). Facilities which are listed on the NPL shall be considered to involve higher risks.

(2) Nature of the contractor's work at the facility. Contracts involving the management of facilities listed on the NPL or requiring the environmental restoration of NPL sites, shall be considered to involve higher risks, whereas contracts involving unrelated work may be considered of lesser risk, regardless of NPL designations.

(3) Size of the facility in relationship to the areas of risk. Management of a large facility with a minor site designated on the NPL would be considered a lesser risk than management of a small facility which includes several major sites listed on the NPL.

(4) Quantity, complexity and type of Government property for which the contractor is responsible. Contracts requiring control over large quantities of sensitive Government property shall be considered of higher risk than those involving relatively small quantities.

(5) Exposure to Third-Party Liability. Contract activities which expose the contractor to the risk of third-party liability will be considered, and such risk assessed accordingly.

(6) The extent to which the work at the facility presents health and safety risks to the workers at the facility and the public.

In considering the above factors, any risks which are indemnified by the Government (for example, by the Price-Anderson Act) will not be considered as risk to the contractor. Where a single contract involves multiple facilities falling into different categories, the basic fee amount shall be divided into amounts applicable to the operation of each facility before applying the award fee pool factor. The following potential award fees shall apply in each category (percent is stated as a percentage of the otherwise applicable maximum fixed fee amount) which is now the basic fee:

Category	Basic fee (percent)	Potential award fee (percent)	Potential maximum total (percent)
Defense Facility—A	100	200	300
Defense Facility—B	100	150	250
Enrichment Plant	100	150	250
Miscellaneous	100	100	200

(d) All management and operating contracts awarded on an award fee basis shall incorporate the following performance grading and fee conversion system into the contract, by including the system in the Performance Evaluation Plan required by the contract clause at 970.5204–54. The performance grading and fee conversion system consists of a set of adjectival grades defined in a narrative form, in terms of performance points, and the percentage of available award fee earned as follows:

FEE CONVERSION TABLE

[The contractor's performance shall be evaluated by the Fee Determination Official at the end of each evaluation period, and graded in accordance with the scale below]

Performance score	Percent of award fee earned
Outstanding	
Any score in the Outstanding category will earn 100% of the available award fee	
96 and above	100.0
Good	
95	94.0
94	88.0
93	82.0
92	75.0
91	68.0
90	60.0
89	51.0
88	43.0
87	36.0
86	30.0
85	25.0
84	20.0
83	15.0
82	10.0
81	5.0
Satisfactory	
80	0.0
79	0.0
78	0.0
77	0.0
76	0.0

Performance score	Percent of basic fee refunded
Marginal	
75	5.0
74	10.0
73	15.0
72	20.0
71	25.0
70	30.0
69	35.0
68	40.0
67	45.0
66	50.0
Unsatisfactory	
Below 65	50.0

Performance scores should be rounded to the nearest tenth of a point and the percent of award fee determined accordingly (e.g., a score of 88.4 equals 46.2% of award fee earned).

Narrative Description of Performance Adjectives

Adjective	Definition (performance description)
Outstanding	Performance substantially exceeds expected levels of performance. Several significant or notable achievements exist. No notable deficiencies in performance.
Good	Performance exceeds expected levels and some notable achievements exist. Although some notable deficiences may exist, no significant deficiencies exist.
Satisfactory	Performance meets expected levels. Minimum standards are exceeded and "good practices" are evident in contract operations. Notable achievements or notable deficiencies may or may not exist.
Marginal	Performance is less than expected. No notable achievements exist; however, some notable deficiencies exist, or any notable achievements which exist are more than offset by significant or notable deficiencies.
Unsatisfactory.	Performance is below minimum acceptable levels. Significant deficiencies causing severe impacts on mission capabilities exist. Performance at this level in any area mentioned in the Performance Evaluation Plan may result in a decision by the Fee Determination Official to withhold all award fees for the period.

Definitions

Significant: This term indicates a major event or sustained level of performance which, due to its importance, has a substantial positive or negative impact on the contractor's ability to carry out its mission.

Notable: This term indicates an event or sustained level of performance which is of lesser importance than a "significant" event, but nonetheless deserves positive or negative recognition.

(e) Prior approval of the Procurement Executive, is required for total fee (basic plus award fee pool) exceeding the guidelines in paragraph (d), of this section. Additionally, in the event use of the award fee guidelines in paragraph (d), of this section, result in total fees which exceed or are expected to exceed the statutory limitations imposed by 10 U.S.C. 2308(d) and 41 U.S.C. 254(b), prior

VOL 56 ISS 118 JE 19 1991 UMI

approval of the Procurement Executive shall be obtained.

* * * * *

11. Section 970.3102-21 is revised as follows:

970.3102-21 Fines and penalties.

(a) It is DOE policy to reimburse nonprofit management and operating contractors for fines and penalties that are incurred in the performance of their contracts. Any such reimbursement for fines and penalties incurred under the contract will be made as long as such fines and penalties are not the result of the willful misconduct or lack of good faith on the part of the contractor's officers, directors or supervising representatives.

(b)(1) It is DOE policy not to reimburse profit making management and operating contractors for fines and penalties that are incurred in the performance of their contracts where such fines or penalties are incurred as a result of contractor negligence or willful misconduct where the breach of the contractor's legal duty giving rise to such a fine or penalty involves an area of responsibility clearly placed on the contractor.

(2) For purposes of this section the phrase "fines and penalties" means a sum of money the payment of which Federal or state law or regulation exacts as punishment for or deterrence against doing some act which is prohibited, or not doing some act which is required by law or regulation. The assessment is imposed by statute or regulation as a consequence of the commission of an offense or act of omission, and the payment is intended as a punishment or deterrent. The fine or penalty may be imposed in a civil enforcement action or result from a criminal conviction. A fine or penalty shall not be construed as an assessment which is imposed as damages on the basis of civil litigation or which is imposed on the basis of strict liability, that is, without regard to the fault or negligence of the party involved.

(3) In assessing any claim for payment by the contractor for a fine or penalty as an allowable cost under the contract the Contracting Officer shall, among other factors, consider the following:

(i) Whether the act which resulted in the fine or penalty was a result of negligence, willful misconduct, or strict liability on the part of personnel of the contractor or a subcontractor, at any tier or level; and

(ii) All of the factors specified at 970.3102-22.

These are only some of the factors to be considered and do not represent all factors which may be pertinent in each case. Criminal fines and penalties which represent the judicial determination beyond a reasonable doubt that the contractor acted wrongfully are generally not considered to be an allowable cost and will not be considered by the Contracting Officer for reimbursement except under extraordinary circumstances. Any final decision to reimburse a criminal fine or penalty shall be made by the Procurement Executive and shall only be made with the concurrence of the General Counsel.

(c) It is DOE's policy not to reimburse any profit making contractor for civil or criminal penalties assessed under the Price-Anderson Amendments Act of 1988, Public Law 100-408, 42 U.S.C. 2273, 2282, and for the costs of litigation relating to such assessments, except as may be specifically provided in regulations implementing those civil and criminal penalties provisions.

12. Section 970.3102-22 is added to read as follows:

970.3102-22 Avoidable Costs for Profit Making Contractors.

In determining whether a cost is an "Avoidable Cost" for profit making contractors as specified in 970.5204-13 (e)(12) and (e)(17)(iv), 970.5204-14 (e)(10) and (e)(15)(iv), 970.5204-21(j) and 970.5204-31, the Contracting Officer, shall, among other factors, consider:

(a) Whether the contractor's conduct resulted from compliance with written direction from the Contracting Officer.

(b) Whether the contractor's conduct occurred after specific instances of noncompliance were reported by the contractor to the Contracting Officer and necessary funding or authorization to correct the conditions were unavailable.

(c) Whether the act or failure to act resulted from a violation of a formal DOE regulation or order. The Contracting Officer will also assess the completeness, efficiency and effectiveness of the contractor's internal control systems and procedures (e.g., operational, maintenance, security), as well as determine whether, in the case of damage to, destruction of, or loss of Government property, the contractor has faithfully implemented the DOE-approved property management system, whether proper training and instruction were provided to employees, whether all reasonable precautions were taken, whether problems were promptly identified and reported to DOE and whether adequate corrective actions were taken to preclude future occurrences.

(d) Whether the contractor voluntarily informed the Contracting Officer in a timely good faith manner of the condition or activity which later resulted in the incurrence of Avoidable Costs. The period of time that the contractor was aware or should have been aware of the problem prior to reporting it is also pertinent.

(e) Whether the contractor was newly selected to manage the facility and whether it had sufficient time to discern the problem and report it prior to the incurrence of Avoidable Costs.

These considerations will also be used to determine whether all or a portion of the Avoidable Cost, which would otherwise be totally nonreimbursable, may be reimbursed because of the presence of the mitigating factors described above. This decision will be made by the Contracting Officer.

13. Section 970.5204-13 is amended by revising (e)(12), and by adding new paragraphs (e)(17)(iv) and (e)(36) as follows:

§ 970.5204-13 Allowable costs and fixed fee (management and operating contracts)

* * * * *

(e) * * *

(12) *Fines and penalties.*

Note 1: In contracts with nonprofit contractors, use the following clause:

Fines and penalties, including assessed interest, resulting from violations of, or failure of the contractor to comply with, Federal, state, local or foreign laws and regulations, except when incurred as a result of compliance with the scope of work, specific terms and conditions, or other provisions of the contract or written instructions from the contracting officer authorizing in advance such payments. Civil or criminal penalties assessed under the Price-Anderson Amendments Act of 1988, 42 U.S.C. 2273, 2282, and the costs of litigation resulting from such assessments, are unallowable except as may be specifically provided in regulations implementing those civil and criminal penalty provisions.

Note 2: In contracts with profit making contractors, use the following clause:

Fines and penalties, including assessed interest and cost of litigation, that are incurred as a result of contractor and/or subcontractor negligence or willful misconduct where the breach of the legal duty of the contractor and or its subcontractor giving rise to such fine or penalty involves an area of responsibility clearly placed on the contractor and/or the subcontractor. Civil or criminal penalties assessed under the Price-Anderson Amendments Act of 1988, 42 U.S.C. 2273, 2282, and the costs of litigation resulting from such assessments are also unallowable except as may be specifically provided in regulations implementing those civil or criminal penalty provisions.

* * * * *

(17) * * *

(iv) **Note:** In contracts with profit making contractors, add the following paragraph:

or, are direct costs which are avoidable that are incurred by the contractor and/or subcontractor, at any tier or level, without any fault of DOE, exclusively as a result of the negligence or willful misconduct on the part of any of the contractor's and/or its subcontractor's personnel, at any tier or level, in performing work under the contract.

(A) Such direct costs may include, for example, additional programmatic expenses for research and development or production activities, and third party claims against the contractor, but shall not include scrap, waste and other routine damages or losses which occur as part of the cost of doing business and are reasonably anticipated and shall not include consequential damages.

(B) Costs of litigation incurred by the contractor or subcontractor in bringing or defending claims relating to these costs are also unallowable.

* * * * *

(36) **Note:** In contracts with profit making contractors, add the following clauses:

(i) Notwithstanding any other provision of this contract, the costs of bonds and insurance are unallowable to the extent they are incurred to protect and indemnify the contractor and/or subcontractor against otherwise unallowable Avoidable Costs, such as fines and penalties, third party claims, negligently or willfully caused damage to, destruction of, or loss of Government property and theft or unauthorized use of government property, except and only to the extent that such insurance or bond is required by the specific written direction of the Contracting Officer.

(ii)(A) The unallowable costs provisions of subparagraph (e)(17)(iv) dealing with avoidable costs and subparagraph (i) of this clause, the profit making provision of the clause set forth at 970.5204-13(e)(12), the clause set forth at 970.5204-21(j), and the profit making provision of the clause set forth at 970.5204-31 are not applicable to Small Businesses and Small Disadvantaged Businesses as defined in the clause of this contract entitled "Utilization of Small Business Concerns and Small Disadvantaged Business Concerns." All costs resulting from the actions or inactions of Small Businesses and Small Disadvantaged Businesses which would otherwise be determined to be Avoidable Costs are allowable costs to the contractor.

(B) The above cited provisions in subparagraph (ii)(A) are also not applicable to Non-profit subcontractors of profit-making contractors and profit making subcontractors of non-profit contractors. All costs resulting from the actions or inactions of non-profit subcontractors which would otherwise be determined to be Avoidable Costs are allowable costs to the contractor.

14. Section 970.5204-14(e) is amended by revising paragraph (e)(10), and by adding new paragraphs (e)(15)(iv) and (e)(34) as follows:

970.5204-14 Allowable costs and fixed fee (support contracts).

* * * * *

(e) * * *

(10) Fines and penalties.

Note 1: In contracts with non-profit contractors, use the following clauses:

Fines and penalties, including assessed interest, resulting from violations of, or failure of the contractor to comply with Federal, state, local or foreign laws and regulations, except when incurred as a result of compliance with the scope of work, specific terms and conditions, or other provisions of the contract or written instructions from the contracting officer authorizing in advance such payments. Civil or criminal penalties assessed under the Price-Anderson Amendments Act of 1988, 42 U.S.C. 2273, 2282, and the costs of litigation resulting from such assessments, are also unallowable except as may be specifically provided in regulations implementing those civil and criminal penalty provisions.

Note 2: In contracts with profit making contractors, use the following clause:

Fines and penalties, including assessed interest and costs of litigation, that are incurred as a result of contractor and/or subcontractor negligence or willful misconduct where the breach of the legal duty of the contractor and or subcontractor giving rise to such fine or penalty involves an area of responsibility clearly placed on the contractor and or subcontractor. Civil or criminal penalties assessed under the Price-Anderson Amendments Act of 1988, 42 U.S.C. 2273, 2282, and the costs of litigation resulting from such assessments are unallowable except as may be specifically provided in regulations implementing those civil or criminal penalty provisions.

* * * * *

(15) * * *

(iv) **Note:** In contracts with profit making contractors, add the following paragraph:

or, are direct costs which are avoidable that are incurred by the contractor and/or subcontractor, at any tier or level, without any fault of DOE, exclusively as a result of the negligence or willful misconduct on the part of any of the contractor's and/or its subcontractor's personnel, at any tier or level, in performing work under the contract.

(A) Such direct costs may include, for example, additional programmatic expenses for research and development or production activities, and third party claims against the contractor, but shall not include scrap, waste, and other routine damages or losses which occur as part of the cost of doing business and are reasonably anticipated and shall not include consequential damages.

(B) Costs of litigation incurred by the contractor and or subcontractor in bringing or defending claims relating to these costs are also unallowable.

* * * * *

(34) **Note:** In contracts with profit making contractors, add the following clauses:

(i) Notwithstanding any other provision of this contract, the costs of bonds and insurance are unallowable to the extent they are incurred to protect and indemnify the contractor and/or subcontractor against otherwise unallowable Avoidable Costs, such as fines and penalties, third party claims, negligently or willfully caused damage to, destruction of, or loss of government property and theft or unauthorized use of government property, except and only to the extent such insurance or bond is required by the specific written direction of the Contracting Officer.

(ii)(A) The unallowable costs provisions of subparagraph (e)(15)(iv) dealing with Avoidable Costs and subparagraph (i) of this clause, the profit making provision of the clause set forth at 970.5204-14(e)(10), the clause set forth at 970.5204-21(j), and the profit making provision of the clause set forth at 970.5204-31 are not applicable to Small Businesses and Small Disadvantaged Businesses as defined in the clause of this contract entitled "Utilization of Small Business Concerns and Small Disadvantaged Business Concerns." All costs resulting from the actions or inactions of Small Business and Small Disadvantaged Businesses which would otherwise be determined to be Avoidable Costs are allowable costs to the contractor.

(B) The above cited provisions in subparagraph (ii)(A) are also not applicable to nonprofit subcontractors

VOL
56

UMI

of profit making contractors and profit making subcontractors of non-profit contractors. All costs resulting from the actions or inactions of non-profit subcontractors which would otherwise be determined to be Avoidable Costs are allowable costs to the contractor.

15. Section 970.5204–16 is amended by revising the heading of the clause and revising Note 2 and paragraph (a) to read as follows:

970.5204–16 Payments and advances.

Payments and Advances (January, 1991)

* * * * *

Note 2: When award-fee provisions in this clause are used, in lieu of paragraph (a), use the following text:

(a) Payment of Basic Fee and Award Fee. The basic fee shall become due and payable in equal monthly installments, *Provided,* However, that the contractor shall refund to the Government a portion of the basic fee if its performance during an evaluation period falls below the level of acceptable performance, i.e., a performance score of 75 or less. Such refund shall be at the rate of 5% of the basic fee allocated to the evaluation period in question for each performance point below 76, as assigned by the Government Fee Determination Official (FDO), provided that no more than 50% of the basic fee shall be required to be refunded under this provision. Award fees earned shall become due and payable following the issuance by the FDO of a Determination of Award Fee Earned, in accordance with the clause of this contract entitled "Basic Fee and Award Fee."

* * * * *

16. Section 970.5204–18 is added as follows:

970.5204–18 Definition of nonprofit and profit making management and operating contractors and subcontractors.

For purposes of subsections 970.5204–13(e)(12) and (e)(17)(iv), 970.5204–14(e)(10) and (e)(15)(iv), 970.5204–21(j) and 970.5204–31, a nonprofit management and operating contractor or subcontractor is one which receives no fee and is considered nonprofit under the laws of the jurisdiction where it is incorporated. A subsidiary may be a nonprofit contractor or subcontractor if all entities above it in the corporate structure are considered nonprofit under the laws of the incorporating jurisdiction. A profit making subcontractor of a nonprofit contractor is a nonprofit subcontractor for the purpose of the applicability of the subsections specified in this paragraph. A non-profit subcontractor of a profit making contractor is also a non-profit subcontractor for purposes of the applicability of the subsections specified in this paragraph. A Contracting Officer may also treat as nonprofit a contractor whose particular corporate organization or circumstances, in the judgment of the Contracting Officer, warrants such consideration. All other management and operating contractors are considered profit making.

17. Section 970.5204–21 is amended by adding a new paragraph (j):

970.5204–21 Property.

* * * * *

(j) *Additional responsibility for risk of loss of government property.* The following paragraph (j) shall be added in contracts with profit making contractors:

Notwithstanding the limitation of liability described in paragraph (f) of this section, the contractor and/or subcontractor shall be liable, respectively, for direct costs and expenses resulting from damage to, destruction of, or loss of Government property as a direct result of contractor and/or subcontractor negligence or willful misconduct where the costs which are to be borne by the contractor and/or subcontractor are those incurred in effecting the repairs to, or replacement of, Government property. These Avoidable Costs do not include scrap, waste and other routine damages or losses which occur as part of the cost of doing business and are reasonably anticipated. Costs which shall not be reimbursable are the result of circumstances: (1) Clearly within the contractor's and/or subcontractor's sole and exclusive control and (2) resulting from acts or omissions of the contractor and/or subcontractor, in which the exercise of reasonable care would have avoided the loss or destruction or damage. In the event that such direct costs and expenses resulting from loss, or destruction of, or damage to Government property are also in part caused by third parties, other than DOE, such costs and expenses will not be reimbursed by DOE. The allocation of financial responsibility between the contractor and such third party should be determined by the parties involved. In addition, the contractor shall be liable for direct damage to, destruction of, or loss of Government property stemming from theft, embezzlement, unauthorized use, or any other ultra vires activity by any contractor or subcontractor personnel at any level. Under these circumstances the contractor shall be required to bear the cost of repairing or replacing the damaged, destroyed or lost government property. For purposes of this clause, negligence is the failure to exercise that standard of care which a reasonable and prudent person would exercise under the same or similar circumstances in an identical or similar environment.

18. Section 970.5204–31 is revised to read as follows:

970.5204–31 Litigation and claims.

(a) *Initiation of litigation.* The contractor may, with the prior written authorization of the Contracting Officer, and shall, upon the request of the Government, initiate litigation against third parties, including proceedings before administrative agencies, in connection with this contract. The contractor shall proceed with such litigation in good faith and as directed from time to time by the Contracting Officer.

(b) *Defense and settlement of claims.*

Note 1: In contracts with nonprofit contractors, add the following clause:

The contractor shall give the Contracting Officer immediate notice in writing (1) of any action, including any proceeding before an administrative agency, filed against the contractor arising out of the performance of this contract, and (2) of any claim against the contractor, the cost and expense of which is allowable under the clause entitled "Allowable Costs and Fixed-Fee." Except as otherwise directed by the Contracting Officer, in writing, the contractor shall furnish immediately to the Contracting Officer copies of all pertinent papers received by the contractor with respect to such action or claim. To the extent not in conflict with any applicable policy of insurance, the contractor may, with the Contracting Officer's approval, settle any such action or claim; shall effect, at the Contracting Officer's request, an assignment and subrogation in favor of the Government of all of the contractor's rights and claims (except those against the Government) arising out of such action or claim against the contractor; and, if required by the Contracting Officer, shall authorize representatives of the Government to settle or defend any such action or claim and to represent the contractor in, or to take charge of, any action. If the settlement or defense of an action or claim against the contractor is undertaken by the Government, the contractor shall furnish all reasonable assistance in effecting a settlement or asserting a defense. Where an action against the contractor is not covered by a policy of insurance, the contractor shall, with the approval of the Contracting Officer, proceed with the defense of the action in good faith and in such event the defense of the

action shall be at the expense of the Government, *Provided, however,* That the Government shall not be liable for such expense to the extent that it would have been compensated for by insurance which was required by law or by the written direction of the Contracting Officer, but which the contractor failed to secure or maintain through its own fault or negligence.

Note 2: In contracts with profit making contractors, add the following clause:

(1) The contractor shall give the Contracting Officer immediate notice in writing of any action, including any proceeding before an administrative agency, filed against the contractor arising out of the performance of this contract, and of any claim against the contractor the costs and expense of which the contractor would propose to submit as a claim for allowable costs under the terms of the clause entitled "Allowable Costs and Fixed-Fee."

(2) Except to the extent prohibited by the Major Fraud Act of 1988, 41 U.S.C. 256, the Contracting Officer may choose to instruct the contractor to proceed in good faith with the defense of the claim subject to the direction of the Government. Except as otherwise directed by the Contracting Officer in writing, the contractor shall furnish immediately to the Contracting Officer copies of all pertinent papers received by the contractor with respect to such action or claim. The contractor may, with the Contracting Officer's approval, settle any such action or claim. The contractor shall effect, at the Contracting Officer's request, an assignment and subrogation in favor of the Government of all of the contractor's rights and claims (except those against the Government) arising out of or related to such action or claim against the contractor, and, if required by the Contracting Officer, shall authorize representatives of the Government to settle or defend any such action or claim and to represent the contractor in, or to take charge of, any action. If the settlement or defense of an action or claim against the contractor is undertaken by the Government, the contractor shall furnish all reasonable assistance in effecting a settlement or asserting a defense. If an adverse judgment is entered against the contractor in a case where the Contracting Officer has approved and/or directed the defense as provided in this paragraph, the costs of litigation and liability for any resulting claim or damages shall be at the expense of the Government, *Provided, however,* That the Government shall not be liable for such expenses to the extent that they would have been compensated for by insurance which was required by law or by the written direction of the Contracting Officer, but which the contractor failed to secure or maintain through its own fault or negligence.

(3) Should the Contracting Officer not choose to approve or direct the defense of the litigation as provided in paragraph (2), the Government has no liability for the costs of litigation except as provided in paragraphs (4) and (5). The contractor may request that the Contracting Officer assume direction of the litigation at any point when new facts on the matter would so warrant; *Provided, however,* That the Contracting Officer may assume direction of the litigation or direct settlement, without a request from the contractor, at any time during the litigation process when the Contracting Officer determines that it is in the best interest of the Government to do so, in which case the liability for any resulting claims or damages shall be at the expense of the Government.

(4) The contractor must inform the Contracting Officer of any proposed settlement agreement. The notification shall be supported by all information available to the contractor which is pertinent to the settlement.

(i) Except to the extent prohibited by the Major Fraud Act of 1988, 41 U.S.C. 256, the Contracting Officer has the option of accepting the settlement reached by the contractor. If the settlement is accepted, the Contracting Officer and the contractor shall negotiate the Government's share of the settlement and litigation expenses. Any agreement reached at this point shall be under the authority, and subject to the restrictions, of FAR 33.210.

(ii) If the contractor proceeds without, or otherwise does not obtain, Contracting Officer approval of the settlement agreement, the cost of the agreement and all related costs of litigation shall be at the contractor's own risk and expense.

(5)(i) If the contractor has suffered a final judgment, a claim for reimbursement of the costs of litigation or any resulting damages or both may be made to the Contracting Officer. Except to the extent prohibited by the Major Fraud Act of 1988, 41 U.S.C. 256, the Contracting Officer is authorized, in his discretion, to negotiate a settlement with the contractor.

(ii) Reimbursement of costs of litigation and judgments under subparagraph (5)(i) may be paid by the Government notwithstanding the prohibitions contained in subsections 970.5204–13(e)(12) and (17)(iv), subsections 970.5204–14(e)(10) and (15)(iv) and section 970.5204–21(j) and section 970.5204–31.

(6) *Certification of costs.* The Contracting Officer may not accept any settlement or otherwise authorize reimbursement of costs and/or damages where the contractor has not certified, in the form required by the clause of this contract entitled "Disputes," the facts known by the contractor, at the time the matter is submitted for review, which form the basis upon which the contractor seeks reimbursement of these costs.

(c) *Costs of Litigation.*

"Costs of Litigation" as used herein, includes, but are not limited to, administrative and clerical expenses; the cost of legal services, whether performed by in-house or private counsel; the costs of the services of accountants, consultants, or others retained by the contractor to assist it; all elements of compensation, related costs, and expenses of employees, officers, and directors; and any similar costs incurred before, during, and after commencement of a judicial or administrative proceeding which bear direct and substantial relationship to the proceedings.

19. Section 970.5204–32 is revised to read as follows:

970.5204–32 Required bond and insurance-exclusive of Government property.

Note 1: In contracts with nonprofit contractors use the following clause:

The contractor shall procure and maintain such bonds and insurance as are required by law or by the written direction of the Contracting Officer. The terms and conditions of such bonds and insurance shall conform to the directions of the Contracting Officer. In view of the provisions of section 970.5204–21, "Property," the contractor shall not procure or maintain for its own protection any insurance covering loss or destruction of, or damage to, Government property.

Note 2: In contracts with profit makingcontractors use the following clause:

The contractor shall procure and maintain such bonds and insurance as required or approved in writing by the Contracting Officer. The terms and conditions of any such bonds and insurance shall conform to the directions of the Contracting Officer. In view of the provisions of 970.5204–21, "Property," the contractor may, at its own expense and not as an allowable cost, procure for its own protection insurance covering loss or destruction of, or damage to, Government property to compensate the contractor for any

VOL 56 ISS 118 JE 19 1991 UMI

unallowable or nonreimbursable costs incurred in connection with such property.

20. Section 970.5204-54 is revised to read as follows:

970.5204-54 Basic fee and award fee.

(a) Basic Fee and Award Fee. It is herewith agreed that a basic fee and an award fee, to be determined in accordance with the provisions of this clause, are available for payment in accordance with the clause of this contract entitled Payments and Advances.

(b) Fee Negotiations. Prior to the beginning of each fiscal year under this contract, or other appropriate period as mutually agreed upon, the contracting officer and contractor shall enter into negotiation of a basic and award fee. This contract shall be modified at the conclusion of each negotiation to reflect the negotiated amount for the basic fee and to identify the available award fee amount. It is herein agreed the award fee amount shall be assigned to evaluation periods six months in duration. If the parties are unable to agree on a reasonable fee, the contracting officer shall unilaterally determine the basic fee and the available award fee, subject to the clause of this contract entitled Disputes.

(c) Determination of Award Fee Earned.

(1) The Government shall, at the conclusion of each specified evaluation period, evaluate the contractor's performance for a determination of award fee earned.

(2) For this contract, the Government Fee Determination Official (FDO) will be (insert title of FDO). The contractor agrees that the determination as to the amount of award fee earned will be made by the Government FDO and such determination is binding on both parties and shall not be subject to appeal under the "Disputes" clause or any other appeal clause.

(3) The evaluation of contractor performance shall be in accordance with the Performance Evaluation Plan described in subparagraph (d), below. The contractor shall be promptly advised in writing of the determination, and the reasons why the award fee was or was not earned. While it is recognized that the basis for determination of the fee shall be the evaluation by the Government, in accordance with the Performance Evaluation Plan, the FDO may also consider any information available to him or her which relates to the contractor's performance of contract requirements. In the event that the contractor's performance is considered unacceptable in any area of contract performance which is specified in the Performance Evaluation Plan, even if no weight or fee is specifically assigned to the particular performance area, the FDO may at his/her discretion determine the contractor's overall performance to be unacceptable, and accordingly may withhold the entire award fee for the evaluation period.

(4) An award fee cycle usually consists of two six-month award fee periods in a single fiscal year. Unearned award fee may be carried over within a single fiscal year, or other two-period fee negotiation cycle, as may have been agreed upon. The FDO may, at his/her sole discretion, specify in a fee determination that award fee not earned during the first evaluation period of a two-period fee cycle may be allocated to the second fee period in that fee cycle. The contractor shall not, however, be entitled to earn any of this "carry-over" fee if its overall performance in the latter evaluation period does not reflect an improvement over the prior evaluation period. Overall performance evaluations in the second period which are equal to or the same as those in the first period shall not be considered as improvements providing entitlement to the carry-over portion of the award fee pool. If the single negotiation of a basic and the resulting award fee amount (fee cycle) will be for more than two evaluation periods, unearned award fees in any one of the evaluation periods established by that negotiation may be carried over only to the next period covered by that negotiation. Fees unearned under one fee cycle may not be carried forward to another fee cycle.

(d) Performance Evaluation Plan. (1) The Government shall establish unilaterally a Performance Evaluation Plan upon which the determination of the amount of award fee earned shall be based. Such Plan shall include the criteria to be considered under each area evaluated and the percentage of award fee available for each area. A copy of the Plan shall be provided to the contractor thirty (30) calendar days prior to the start of an evaluation period.

(2) The Performance Evaluation Plan will set forth the criteria upon which the contractor will be evaluated for performance relating to any technical, schedule, management, and/or cost objectives selected for evaluation.

(3) The Performance Evaluation Plan may, consistent with the contract statement of work, be revised unilaterally by the Government at any time during the period of performance. Notification of such changes shall be provided to the contractor at least thirty (30) calendar days prior to the start of the evaluation period to which the change will apply.

(e) Contractor Self-Assessment. Following each evaluation period, the contractor shall submit a self-assessment within (Insert Number) calendar days after the end of the period. This self-assessment shall address both the strengths and weaknesses of the contractor's performance during the evaluation period. Where deficiencies in performance are noted, the contractor shall describe the actions planned or taken to correct such deficiencies and avoid their recurrence. The FDO will review the contractor's self-assessment as part of his/her evaluation of the contractor's management during the period. An unrealistic self-assessment will result in lower award fee determinations. The contractor will not be penalized for a realistic self-assessment, although deficiencies noted by the contractor may be reflected in the Government's evaluation. The self-assessment itself will not be the basis for the award fee determination.

(f) Schedule for Award Determinations. The FDO shall issue the final award fee determination in accordance with a schedule set forth in the Performance Evaluation Plan. However, a determination must be made within sixty (60) calendar days after the receipt by the contracting officer of the contractor's self-assessment discussed in paragraph (e), above. If the determination is delayed beyond that date, the contractor shall be entitled to interest on the determined award fee amount at the rate established by the Secretary of the Treasury under section 12 of the Contract Disputes Act of 1978 (41 U.S.C. 611) that is in effect on the payment date. This rate is referred to as the "Renegotiation Board Interest Rate," and is published in the **Federal Register** semiannually on or about January 1 and July 1. The interest on any late award fee determination amount will accrue daily and be compounded in 30-day increments inclusive from the first day after the schedule determination date through the actual date the determination is issued. That is, interest accrued at the end of any 30-day period will be added to the determined amount of award fee and be subject to interest if not paid in the succeeding 30-day period.

21. Sections 970.5204-55 and 970.5204-56 are added as follows:

970.5204-55 Ceiling on certain liabilities for profit making contractors.

(a) The profit making contractor's potential financial obligations under the unallowable Avoidable Cost provisions contained in 970.5204-13(e)(12) and (e)(17)(iv), 970.5204-14(e)(10) and (e)(15)(iv), 970.5204-21(j), and 970.5204-31, (including (1) noncriminal fines and penalties, (2) losses which are avoidable losses or other third party claims including the costs of defense of such litigation, (3) additional programmatic expenses which are Avoidable Costs, and (4) the costs of contractor responsibility for lost or damaged Government property) shall be limited to the amount of the actual award fee earned and the actual basic fee earned under the contract (or the amount of 6-months of fixed fee in the case of cost-plus-fixed fee contracts) in the evaluation period when the event or events which led to the imposition of the incurrence of costs or liabilities or the imposition of fines and penalties occurred. This limitation or ceiling does not apply to any other categories of unallowable costs, nor shall any other unallowable costs be utilized in the calculation of that ceiling for any evaluation period. In the case of continuing activities of the contractor which occur over a number of evaluation periods and result in costs or liabilities described above, the potential financial obligation of the contractor shall be limited to the amount of the actual award fee earned and the actual basic fee earned in the single evaluation period when the incident(s) or event(s) (the negligent act(s)) giving rise to the contractor's disallowed cost or expense took place. If it is not possible to relate or reasonably allocate particular activities to individual evaluation periods, the financial obligation of the contractor shall be limited to the amount of the actual award fee earned and actual basic fee earned in the evaluation period when the amount of such nonreimbursable costs or liabilities were finally determined. If the determination as to which award fee period(s) the incident or activity occurred resulting in the unallowable avoidable costs is made following the expiration of the contract, or the contractor is otherwise replaced, the actual award fee earned and the actual basic fee earned for the last evaluation period that the contract was in effect shall be utilized after deducting disallowed Avoidable Costs that were previously charged to the contractor during that period.

(b)(1) The financial obligations of a subcontractor, at any tier or level, under the profit making contractor's and subcontractor's unallowable Avoidable Cost provisions contained in 970.5204-13(e)(12) and (e)(17)(iv), 970.5204-14(e)(10) and (e)(15)(iv), 970.5204-21(j), and 970.5204-31, (including (i) noncriminal fines and penalties, (ii) losses which are avoidable losses or other third party claims including the costs of defense of such litigation, (iii) additional programmatic expenses which are Avoidable Costs, and (iv) the costs of subcontractor responsibility for lost or damaged Government property) shall be limited to the cumulative amount of the fee or profit actually earned under the subcontract, whether cost-plus or fixed-price, during the six-month contractor evaluation period when the event or events which were caused by the subcontractor led to the incurrence of costs or liabilities or the imposition of fines and penalties occurred, *Provided, however,* If the contractor cannot reasonably determine the amount of profit earned, the amount of profit earned shall be deemed to be 15% of the subcontract price, prorated to the applicable six-month award fee period, which shall be the liability cap for such period. This limitation or ceiling does not apply to any other categories of unallowable costs. In the case of continuing activities of the subcontractor which occur over a number of contract evaluation periods and result in costs or liabilities described above, the potential financial obligation of the subcontractor shall be limited to the amount of the fee or profit earned in the single contractor evaluation period when the incident(s) or event(s) (the negligent act(s)) giving rise to the subcontractor's disallowed cost or expense took place. If it is not possible to relate or reasonably allocate particular activities to individual contractor evaluation periods, the financial obligation of the subcontractor shall be limited to the amount of the actual fee or profit earned, or the percentage of the subcontract price designated by the Contracting Officer during the evaluation period when the amount of such nonreimbursable costs or liabilities were finally determined. If the determination as to which award fee period(s) the incident or activity occurred resulting in the unallowable avoidable costs is made following the expiration of the contract, or the subcontractor is otherwise replaced, the actual fee or profit earned, or the percentage of the contract price designated by the Contracting Officer for the last contractor evaluation period that the subcontract was in effect shall be utilized, after deducting disallowed Avoidable Costs that were previously charged to the subcontractor during that period.

(2) The contractor shall cause all subcontractors to be responsible for all costs and liabilities described in this paragraph (b), up to the amount of the actual fee or profit earned in the pertinent contractor evaluation period. The contractor shall cause all subcontractors to agree to provide a reasonable financial guarantee to assure that the subcontractor will have sufficient resources to satisfy all costs and liabilities up to the amount of the actual fee or profit earned based upon the highest amount of profit or fee received by the subcontractor during the last two contractor evaluation periods. Alternatively, at the election of the subcontractor, at the end of each evaluation period the contractor may retain a percentage of the fee or profit earned as reasonably determined to be sufficient by the contractor to protect the interests of the Government. With respect to new subcontracts or subcontracts that have been in effect for less than one year (or two six-month evaluation periods), the guarantee shall be in an amount that the contractor reasonably determines to be in the best interest of the Government, but not to exceed the amount of fee or profit available for the upcoming evaluation period. The financial responsibility of the subcontractor and the guarantee or retainage of the subcontractor shall remain in effect for one year after the termination or expiration of the subcontract, at which time any financial guarantee, including retainage, shall be returned to the subcontractor.

(3) Where the amount of fee or profit earned by a subcontractor during the contractor's evaluation period is not sufficient to pay in full all Avoidable Costs incurred during that period, the excess amount of these costs will be reimbursed or otherwise treated as allowable costs to the contractor by DOE; *Provided, however,* That the contractor shall be responsible for the payment of such Avoidable Costs in excess of the subcontractor's ceiling if such costs and/or damages were caused in whole or in part by the negligence of the contractor; *Provided, further,* That, in any case, the contractor's obligation to pay Avoidable Costs incurred by the negligence of the subcontractor is limited to the extent that (i) the subcontractor's profit for that evaluation period was insufficient to pay the Avoidable Costs in full and (ii) the contractor's ceiling on Avoidable Costs liabilities specified in this subsection and in subparagraph (a) of this section has not been reached for that evaluation period. The contractor shall not require a subcontractor, at any tier or level, to

VOL 56 ISS 118 JE 19 1991 UMI

provide financial guarantees for the payment of Avoidable Costs beyond the profit or fee earned by the subcontractor in the relevant contractor's six-month evaluation period.

(4) The contractor shall cause appropriate provisions to implement the subcontractor liability ceiling and financial responsibility obligation contained in this subparagraph (b) to be inserted in every subcontract, at any tier or level, entered into with the contractor or subcontractor on, before or after the effective date of this contract, *Provided, however,* That such subcontracts shall provide that to the extent that Avoidable Costs incurred by the negligence of the subcontractor are reimbursed by the Government to the contractor, the contractor shall reimburse its subcontractor for all such costs to the extent that such subcontractor has already paid, or incurred without reimbursement, such costs; *Provided further* That all of such subcontracts shall provide that the financial guarantees provided by subcontractors to contractors shall remain in effect for not more than one year after termination or expiration of such subcontracts.

(c) The contractor shall be responsible for all costs and liabilities described in subparagraphs (a) and (b) of this section, up to the amount of the actual award fee earned and the actual basic fee earned in the pertinent evaluation period. The contractor agrees to provide, in such form and amount as shall be satisfactory to the Contracting Officer, a financial guarantee to assure that the contractor will have sufficient resources to satisfy all costs and liabilities up to the amount of the actual award fee earned and the actual basic fee earned for a period based upon the highest amount of fee received over the last four evaluation periods. Alternatively, at the election of the contractor, at the end of each evaluation period the Contracting Officer may retain a percentage of the award fee and basic fee as determined to be sufficient by the Contracting Officer to protect the interests of the Government. With respect to new contracts or contracts that have been in effect for less than two years (or four six-month evaluation periods), the guarantee shall be in an amount that the Contracting Officer determines to be in the best interest of the Government, but not to exceed the amount of award fee and basic fee available for the upcoming evaluation period. The financial responsibility of the contractor and the guarantee or retainage of the contractor shall remain in effect for one year after the termination or expiration of the contract, at which time any financial guarantee, including retainage, shall be returned to the subcontractor. Any costs or liabilities to third parties beyond the limitations described above would be reimbursed subject to the other provisions of the contract governing cost reimbursement. The contractor's potential financial risk for proceedings costs under the Major Fraud Act of 1988, 41 U.S.C. 256, or the civil or criminal penalties provisions of the Price-Anderson Amendments Act of 1988, 42 U.S.C. 2273, 2282, will not be limited except as provided in regulations implementing those provisions.

970.5204-56 Determining avoidable costs.

(a)(1) Avoidable Costs are those costs specified in 970.5204-13(e)(12) and (e)(17)(iv), 970.5204-14(e)(10) and (e)(15)(iv), 970.5204-21(j), and 970.5204-31 which are incurred by the contractor and/or its subcontractors, in carrying out the terms and conditions of the contract when:

(i) The work is clearly within the sole and exclusive control of the contractor and/or subcontractor personnel at any tier or level; and

(ii) The increased costs or expenses result from the negligence or wilful misconduct of the contractor or subcontractor personnel at any tier or level; and

(iii) DOE is not responsible in any way for the act or omission which resulted in the additional costs.

(2) The cost and expenses of litigation, settlements, and related litigation costs (including attorneys fees), fines, penalties, judgments and liabilities resulting from administrative findings, and damage to, or loss of, Government property when carrying out well understood non-experimental work and damage to, or loss of, Government property as the result of theft, embezzlement or other unauthorized use are unallowable to the extent that the acts or omissions resulting in these costs are Avoidable Costs as defined in paragraph (1) above. Such costs are unallowable except as specifically authorized by the Contracting Officer and within the scope of work in the contract.

(b) For purposes of this section, negligence is the failure to exercise that standard of care which a reasonable and prudent person would exercise under the same or similar circumstances in an identical or similar environment.

(c) Avoidable Costs shall not include the cost of losses or damages incurred by the contractor as a result of the acts or omissions of employees who, during the phase-in period of a new contract, the contractor is required to employ as a result of assuming the management of a DOE facility. The length of this phase-in period shall be ____ months. It shall in no event, however, exceed twelve months. The contractor is always responsible for the acts or omissions of any employee hired directly by the contractor.

[FR Doc. 91-14086 Filed 6-18-91; 8:45 am]
BILLING CODE 6450-01-M

INTERSTATE COMMERCE COMMISSION

49 CFR Parts 1043 and 1084

[Ex Parte No. MC-5 (Sub No. 11)]

RIN: 3120-AB63

Revision of Regulations Governing Insurance and Surety Companies Making ICC Filings

AGENCY: Interstate Commerce Commission.

ACTION: Final rule; interpretation.

SUMMARY: The Commission is issuing revised rules to clarify its intended meaning of its rules at 49 CFR Parts 1043 and 1084 governing financial responsibility requirements for motor carriers, property brokers and freight forwarders. The Commission interprets the terms "legally authorized" as used in 49 CFR 1043.8 and "authorized" as used in 49 CFR 1084.5 to describe an insurance company which has been licensed or admitted in at least one state to issue insurance policies or bonds, and clarifies its policy that it will accept certificates of insurance issued only by licensed or admitted companies.

EFFECTIVE DATE: The rules are effective on July 19, 1991.

FOR FURTHER INFORMATION CONTACT: Alice K. Ramsay (202) 275-0854 or Heber P. Hardy (202) 275-7148 (TDD for hearing impaired: (202) 275-1721).

SUPPLEMENTARY INFORMATION: Additional information is contained in the Commission's decision. To obtain a copy of the full decision write to, call, or pick up in person from: Dynamic Concepts, Inc., room 2229, Interstate Commerce Commission Building, Washington, DC 20423. Telephone: (202) 289-4357/4359. (Assistance for the hearing impaired is available through TDD services (202) 275-1721.)

Energy and Environmental Considerations

This action does not significantly affect the quality of the human environment or the conservation of energy resources.

Regulatory Flexibility Analysis

The Commission certifies that revision and clarification of the final rules will not have a significant impact upon a substantial number of small entities. These revisions do not impose excessive regulatory burdens, nor do they require unnecessary Federal supervision. Furthermore, the revisions do not require small entities to do anything substantially different in filing evidence of required coverage under 49 CFR 1043.8 and 1084.5 than is required already. We do not expect that any small entities will suffer any significant adverse economic impact. As our figures below indicate, there are numerous companies that make insurance filings at the Commission, and only a minimal number fall into the category of unlicensed excess/surplus lines insurers, leaving a large number of companies available to motor carriers to satisfy their insurance requirements. Moreover, the number of carriers using unlicensed excess/surplus lines companies is also relatively small.

The current regulations affect approximately 50,000 motor carriers of property; approximately 550 freight forwarders; and approximately 1,550 insurance and surety companies writing policies for the motor carriers and freight forwarders operating under the Commission's jurisdiction.

An estimated 835 motor carriers that are covered by unlicensed insurance companies, or 1.7 percent of the approximately 50,000 motor carriers currently covered by insurance filings, will be affected by this decision. Approximately 72 unlicensed insurance companies, or 4.6 percent of the over 1550 insurance companies making filings at the Commission, also will be affected. Notably, as of April 11, 1991, the Commission's records reflect that the above 835 motor carriers were covered by only 857 (approximately one percent) of the over 81,000 insurance filings on file and in effect.

Prior to the order by the United States Court of Appeals in *Owner-Operator Service, Inc. et al.* v. *Interstate Commerce Commission and the United States of America,* No. 90-1274, an estimated 58 unlicensed companies had made insurance filings on behalf of motor carriers. As of April 11, 1991, of the filings made by those companies, approximately 445 filings were on file and in effect. Since the court order, only 16 additional unlicensed companies have made insurance filings. As of April 11, 1991, of the filings made by the latter 16 companies, approximately 412 filings were on file and in effect. The following table illustrates that the vast majority of the 72 unlicensed insurance companies have made five or less filings:

No. of filings	No. of companies
1-5	51
6-10	7
11-50	8
50-100	5
over 200	1

There does not appear to be a problem in obtaining insurance from licensed companies. For example, when the Commission issued an order March 4, 1991, revoking all certificates filed by a licensed insurer which specialized in coverage for small motor carriers and was declared insolvent by a state court, 439 carriers were affected. During the period since that order, evidence of replacement coverage for these carriers has been filed with the Commission and, as of May 7, 1991, 89 percent of the carriers had achieved full compliance, while an additional three percent can operate under their contract authority only. It is likely that the remaining carriers that wish to continue operating will come into compliance. Of the over 390 replacement filings made on behalf of the affected carriers, as of May 7, 1991, only seven were made by unlicensed companies.

Summarizing, we do not expect these revisions to have a significant impact on a substantial number of motor carriers or insurance companies. The Commission's insurance company eligibility requirements at 49 CFR 1043.8 and 1084.5, as revised and clarified, remain substantively identical to the requirements of DOT at 49 CFR 387.11. Furthermore, because DOT does not require evidence of insurance or bonds to be filed, the filing requirements in the ICC's rules do not duplicate DOT's rules. Accordingly, this action will not require additional record keeping or report filing by small entities.

List of Subjects

49 CFR Part 1043

Insurance, Motor carriers, Surety bonds.

49 CFR Part 1084

Freight forwarders, Insurance, Surety bonds.

Decided: June 7, 1991.

By the Commission, Chairman Philbin, Vice Chairman Emmett, Commissioners Simmons, Phillips and McDonald.

Sidney L. Strickland, Jr.,

Secretary.

For the reasons set forth in the preamble, title 49, chapter X, parts 1043 and 1084 of the Code of Federal Regulations are amended as follows:

PART 1043—SURETY BONDS AND POLICIES OF INSURANCE

1. The authority citation for 49 CFR part 1043 continues to read as follows:

Authority: 49 U.S.C. 10101, 10321, 11701, 10927; 5 U.S.C. 553.

2. Section 1043.8 is revised to read as follows:

§ 1043.8 Insurance and surety companies.

A certificate of insurance or surety bond will not be accepted by the Commission unless issued by an insurance or surety company that is authorized (licensed or admitted) to issue bonds or underlying insurance policies:

(a) In each state in which the motor carrier is authorized by the Commission to operate, or

(b) In the state in which the motor carrier has its principal place of business or domicile, and will designate in writing upon request by the Commission, a person upon whom process, issued by or under the authority of a court of competent jurisdiction, may be served in any proceeding at law or equity brought in any state in which the carrier operates, or

(c) In any state, and is eligible as an excess or surplus lines insurer in any state in which business is written, and will make the designation of process agent described in paragraph (b) of this section.

PART 1084—SURETY BONDS AND POLICIES OF INSURANCE

3. The authority citation for 49 CFR part 1084 continues to read as follows:

Authority: 49 U.S.C. 10102, 10321, and 10927; 5 U.S.C. 553.

4. Section 1084.5 is revised to read as follows:

§ 1084.5 Insurance and surety companies.

A certificate of insurance or surety bond will not be accepted by the Commission unless issued by an insurance or surety company that is authorized (licensed or admitted) to issue bonds or underlying insurance policies:

BILLING CODE 7035-01-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 672

[Docket No. 901184-1042]

Groundfish of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of prohibition of retention of groundfish.

SUMMARY: The Director, Alaska Region, NMFS (Regional Director), is prohibiting further retention of pollock by vessels fishing in the Eastern Regulatory Area of the Gulf of Alaska. This action is necessary to prevent further catch of pollock in the Eastern Gulf in excess of the total allowable catch (TAC). The intent of this action is to promote optimum use of groundfish while conserving pollock stocks.

EFFECTIVE DATES: 12 noon on June 13, 1991, Alaska local time, (A.l.t.), through midnight, A.l.t., December 31, 1991.

FOR FURTHER INFORMATION CONTACT: Patsy A. Bearden, Resource Management Specialist, NMFS, 907-586-7228.

SUPPLEMENTARY INFORMATION: The Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) governs the groundfish fishery in the exclusive economic zone in the Gulf of Alaska under the Magnuson Fishery Conservation and Management Act. The FMP was prepared by the North Pacific Fishery Management Council (Council) and is implemented by regulations appearing at 50 CFR 611.92 and parts 620 and 672.

Section 672.20(a) of the regulations establishes an optimum yield (OY) range of 116,000-800,000 metric tons (mt) for all groundfish species in the Gulf of Alaska. Total allowable catches (TACs) for target species and species groups (defined at § 672.20(b)) are specified annually within the OY range and are apportioned among the regulatory areas and districts.

Under § 672.20(c)(3), if the Regional Director determines that the TAC of any target species or "other species" category in a regulatory area or district has been reached, the Secretary will publish a notice in the **Federal Register** declaring that the species or species group is to be treated as a prohibited species under § 672.20(e) in all or part of that regulatory area or district. During the time that this notice is in effect, the operator of every vessel regulated must minimize the catch of that species in the area or district, or part thereof where the notice is applicable.

Section 672.20(c)(1)(ii) provides that the Secretary, after consultation with the Council, will publish a notice in the **Federal Register** specifying the final annual TAC for each target species and the "other species" category and apportionments thereof, final prohibited species catch amounts, and final quarterly allowances of pollock. These final specifications will supersede the interim specifications.

The Secretary declined to implement initial 1991 TACs for pollock without further study, because Steller sea lions have been listed as threatened under the Endangered Species Act, and pollock are important in the diet of Steller sea lions. Additional information about pollock stocks has recently become available through a special status of stock report prepared by the Alaska Fisheries Science Center, NMFS. On the basis of this information, the Secretary is implementing a pollock TAC of 3,400 mt in the Eastern Regulatory Area of the Gulf of Alaska in a notice of initial harvest specifications for pollock, published elsewhere in this issue of the **Federal Register**.

However, the total pollock catch in the Eastern Regulatory Area has already been reached. Therefore, pursuant to § 672.20(c)(3), the Secretary is declaring that pollock must be treated in the same manner as prohibited species in the Eastern Regulatory Area of the Gulf of Alaska, effective 12 noon, A.l.t., June 14, 1991, through the remainder of this fishing year.

Classification

This action is taken under 50 CFR 672.20 and is in compliance with Executive Order 12291.

List of Subjects in 50 CFR Part 672

Fish, Fisheries, Reporting and recordkeeping requirements.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: June 13, 1991.

David S. Crestin,

Acting Director, Office of Fisheries Conservation and Management, National Marine Fisheries Service.

[FR Doc. 91-14510 Filed 6-13-91; 4:38 pm]
BILLING CODE 3510-22-M

50 CFR Parts 672 and 675

[Docket No. 910643-1143]

Groundfish of the Gulf of Alaska; Groundfish of the Bering Sea and Aleutian Islands Area

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of initial harvest specifications for pollock; emergency interim rule; reapportionment of reserves; request for comments.

SUMMARY: The Secretary of Commerce (Secretary) by this notice announces the approval of the 1991 total allowable catch (TAC) specifications for pollock and the reapportionment of pollock reserve to domestic annual processing (DAP). To ensure that pollock fishing does not jeopardize the continued existence or recovery of the threatened Steller sea lion, the Secretary, by emergency rule, is also establishing certain groundfish fishery restsrictions in the Gulf of Alaska (GOA) to minimize the adverse effects of the pollock fishery on Steller sea lions. The emergency rule contains measures that are designed to protect Steller sea lions by (1) allocating the pollock TAC for the combined Western/Central (W/C) Regulatory Areas equally between two subareas located east and west of 154°W. longitude, (2) limiting the amount of unharvested pollock TAC that may be rolled over to subsequent quarters in a fishing year, and (3) prohibiting fishing with trawl gear in the Exclusive Economic Zone (EEZ) within 10 nautical miles (nm) of 14 Steller sea lion rookeries. In order to implement the intent of these Steller sea lion emergency measures, the emergency rule also mends the definition of fishing trip for purposes of the directed fishing rule and deletes statistical area 621. Emergency action by the Secretary is necessary to prevent further economic hardship to the fishing industry and to ensure adequate safeguards, as required by the Endangered Species Act (ESA), for the threatened Steller sea lion. The actions included in this notice are intended to further the goals and objectives contained in the Fishery Management Plan for Groundfish of the GOA and the ESA.

DATES: Pollock harvest specifications are effective June 13, 1991.

Amendments to 50 CFR parts 672 and 675 are in effect from June 13, 1991, through September 17, 1991.

Comments are invited on the reapportionment of the pollock reserve to DAP through July 5, 1991. Comments also are particularly invited on the environmental assessment prepared for this action.

ADDRESSES: Copies of the environmental assessment (EA), biological opinion, and an updated status of stock assessment for GOA pollock may be obtained from Dale R. Evans, Chief, Fisheries Management Division, Alaska Region, National Marine Fisheries Service, P.O. Box 21668, Juneau, Alaska 99802. Comments should be sent to the same address.

FOR FURTHER INFORMATION CONTACT: Ronald J. Berg (Fisheries Management Division, NMFS), 907-586-7230.

SUPPLEMENTARY INFORMATION:

Background

The domestic and foreign groundfish fisheries in the EEZ of the GOA are managed by the Secretary under the FMP. The FMP was prepared by the North Pacific Fishery Management Council (Council) under the Magnuson Fishery Conservation and Management Act (Magnuson Act) and is implemented by regulations governing the foreign fishery at 50 CFR part 611 and by regulations governing the U.S. fishery at 50 CFR part 672. Additional regulations on U.S. fishermen are found at 50 CFR part 620.

At times, amendments to the FMP and/or its implementing regulations are necessary to respond to fishery conservation and management problems that cannot be addressed within the time frame of the normal procedures provided for by the Magnuson Act. Section 305(c) of the Magnuson Act provides for implementation by emergency rules to address conservation and management problems in the fishery for 90 days with a possible 90-day extension.

Because of the need to complete additional data analyses and to conclude ESA section 7 consultation, a final TAC for GOA pollock has not yet been specified for the 1991 fishing year. Because no TAC level has been specified, the directed fishery for pollock in the GOA has been closed since February 15, 1991 (56 FR 6992, February 21, 1991). The closure of the pollock fishery has caused an economic hardship to fishermen, seafood processors, and related industries. This economic hardship has been exacerbated by a second quarter GOA closure to all non-pelagic trawling because of halibut bycatch levels.

This action includes a notice to implement annual pollock TAC specifications of 3,400 metric tons (mt) for the Eastern Regulatory Area and 100,000 mt for the Western/Central (W/C) Regulatory Areas in the GOA that will be in effect during the 1991 fishing year. Under 50 CFR 672.20(a)(2)(iv), the pollock TAC specification in the W/C Regulatory Areas is apportioned into equal quarterly allowances. Because it is anticipated that DAP will require all reserve amounts of pollock, reserve amounts of pollock are reapportioned to DAP by this action. This action also includes an emergency rule to implement three measures that are necessary to ensure that pollock harvest will not jeopardize Stellar sea lions.

These measures will:

(1) Allocate the pollock TAC specification in the combined W/C Regulatory Areas equally between two subareas located east and west of 154° W. longitude;

(2) Stipulate that any unharvested amount of any quarterly allowance of TACs will be added in equal proportions to the quarterly allowances of the following quarters, resulting in a sum for each quarter not to exceed 150 percent of the initial quarterly allowance; and

(3) Prohibit fishing with trawl gear in the EEZ within 10 nm of the 14 GOA Steller sea lion rookeries. Since 4 of the 14 rookeries border the Bering Sea/Aleutian Island (BSAI) FMP area, fishing closure areas extend into the BSAI area.

A fourth emergency measure amends the definition of fishing trip and deletes statistical area 621. This fourth measure is necessary to implement the allocation of the pollock TAC east and west of 154° W. longitude.

A description of, and reasons for, this action are as follows:

A. Notice Establishing Pollock TAC Specifications

Secretarial approval of the pollock TACs—Acceptable biological catches (ABCs) and TACs for pollock, as well as for each of the target groundfish species categories managed under the FMP, are specified for each new fishing year. The process for determining ABCs and TACs for groundfish species in the GOA is established by the FMP and is implemented in regulations at 50 CFR 672.20(a). The sum of the TACs for all species must fall within the combined optimum yield (OY) range established for these species of 116,000-800,000 mt.

The Council met during December 3-7, 1990, for purposes of recommending 1991 TAC specifications for pollock, as well as other groundfish. It reviewed the best available scientific information about pollock stocks, which was contained in the Stock Assessment and Fishery Evaluation (SAFE) report, dated November 1990. The SAFE Report was prepared and presented by the GOA Groundfish Plan Team to the Council and to the Council's Scientific and Statistical Committee and Advisory Panel. Information contained in the SAFE report is incorporated herein by reference. The Council also reviewed intended industry harvest plans for 1991, and estimates made by NMFS concerning the extent to which U.S. fishermen would harvest amounts of pollock.

Information about pollock in the SAFE report was derived from:

1. The 1990 hydroacoustic survey conducted by the NMFS Alaska Fisheries Science Center (AFSC);

2. 1990 NMFS fishery observer reports;

3. Results of the 1990 bottom trawl surveys in the GOA, which were conducted by the AFSC; and

4. Groundfish catches obtained from the 1990 Weekly Production Reports.

The Council recommended ABCs and TACs for GOA groundfish totaling 773,643 mt and 331,069 mt, respectively, for the 1991 fishing year. The sum of the TACs falls within the groundfish OY range specified in the FMP. The recommended pollock ABC and TAC contributed 133,400 mt to each sum of the groundfish ABCs and TACs. Interim specifications for all groundfish were in effect on January 1, 1991 (see 55 FR 47897, November 16, 1990), based on procedures contained in regulations at 50 CFR 672.20(c)(1)(i). Interim pollock TACs of 850 mt and 17,500 mt were specified for the Eastern Regulatory Area and the W/C Regulatory Areas, respectively. A final notice of 1991 groundfish specifications, other than for pollock, was published in the **Federal Register** on March 1, 1991 (56 FR 8723).

The Council recommended 1991 pollock ABCs and TACs of 130,000 mt in the Western/Central GOA Regulatory Areas and 3,400 mt in the Eastern Regulatory Area. The 1991 Western/Central Regulatory Areas pollock TAC recommended by the Council is 82 percent higher than the 1990 GOA pollock TAC. Because of concern for potential adverse effects to Steller sea lions' food supply, NMFS decided that further evaluation of the GOA pollock TAC, and available data on the GOA

VOL
56
ISS
118
JE
19
1991
UMI

pollock fishery and Steller sea lions was needed before setting the final pollock TAC specification.

The NMFS AFSC reevaluated all available data, and has revised the 1991 pollock exploitable biomass estimate and ABC recommendation of the Western/Central GOA Regulatory Areas. These revisions stem from an improvement in the GOA bottom trawl biomass estimates, specifically, in the methods used to determine when a fishing power correction should be applied and how it should be calculated. Based on these new analyses, the AFSC now recommends an ABC of 100,000 mt for Western/Central GOA pollock, approximately 10 percent of the exploitable biomass. This ABC is appropriately conservative of the pollock stock and is supported by the best available scientific information. The proposed harvest level is substantially below the fishing mortality rate that would result in overfishing.

NMFS concluded formal section 7 consultation on the GOA FMP, GOA fishery, and 1991 TAC specifications for groundfish other than pollock on April 18, 1991. NMFS concluded formal consultation on the 1991 GOA pollock TAC specifications and emergency fishery restrictions on June 5, 1991. The biological opinions prepared during these consultations concluded that these actions are not likely to jeopardize the continued existence of any endangered or threatened species under NMFS's jurisdiction. Copies of the biological opinions may be obtained from the previously listed address.

On the basis of this information, the Secretary is implementing a pollock TAC of 100,000 mt in the W/C Regulatory Areas as listed in the following table. For the Eastern Regulatory Area, the Secretary is implementing the Council's recommended TAC of 3,400 mt.

ABCs, Initial groundfish TACs and DAPs (metric tons) for pollock in the Western/Central (W/C), Western (W), Central (C), and Eastern (E) Regulatory Areas and in the West Yakutat (WYK), Southeast Outside/East Yakutat (SEO/EYK), Gulf-Wide (GW), and Southeast Outside (SEO) Districts of the Gulf of Alaska. Amounts specified as JVP and TALFF initially are set at zero and are not shown in this table. Reserves are apportioned to DAP, effective January 1, 1991.

Species	Area	ABC	TAC-DAP
.	.	.	.
Pollock	W/C	100,000	
Statistical area	61, 62		50,000
	63		50,000
	E	3,400	3,400
Total		103,400	103,400
.	.	.	.
Total		743,643	299,589

The total pollock catch in the Eastern Regulatory Area has reached this amount. As a result, retention of pollock in the Eastern Regulatory Area is prohibited for the remainder of 1991 as described in a separate document in this issue.

Reopening of Western/Central Regulatory Areas to a Pollock Directed Fishery

The Secretary closed the directed fishery for pollock in the entire Western/Central Regulatory Areas, when the interim TAC of 17,500 mt was reached (56 FR 6992, February 21, 1991). The fishery will reopen in the combined Western/Central Regulatory Areas at noon, Alaska local time (A.l.t), on June 13, 1991. The total catch, including discards, when the fishery closed was 22,000 mt. Relative to the first quarter TAC allowance, this amount results in a harvest shortfall which will be added in equal proportions to quarterly allowances in the second, third, and fourth quarters. The amount of pollock available for the second quarter in the W/C Regulatory Areas is 13,000 mt in each subarea east and west of 154° W. longitude. The calculations made to arrive at this figure are presented in the discussion of the rollover emergency measure.

Apportionment of Pollock Reserve to Domestic Annual Processing (DAP)

The FMP stipulates, in part, that 20 percent of the pollock TAC be set aside in a reserve for possible reapportionment at a later date (§ 672.20(d)(2)(i)). Because DAP is projected to need all reserve amounts, the Secretary is reapportioning the pollock reserve to DAP under § 672.20(a)(1)(ii). By doing so, the Secretary is anticipating that the domestic industry will need all the pollock DAP amount. Comments are invited on the reapportionment for 15 days after the effective date of this notice under § 672.20(d)(5)(iv). Comments should focus on whether, and the extent to which, vessels of the United States will harvest reserve or DAP amounts for pollock during the remainder of the year and whether, and the extent to which, U.S. harvested pollock can or will be processed by U.S. fish processors or received at sea by foreign fishing vessels.

B. Measures Implemented By Emergency Rule

The Steller sea lion population has drastically declined in a large portion of its geographic range, including the GOA. This population decline prompted NMFS to list the Steller sea lion as a threatened species, and to establish certain conservation measures to aid the species' recovery (55 FR 49204, November 28, 1990). Consistent with the ESA, section 7 consultation was reinitiated on all Federal fishery management plans and fisheries, including the GOA fishery, within the range of Steller sea lions.

The 1991 GOA pollock TAC specifications were withheld until additional data analyses and section 7 consultation could be completed, primarily because of the concern that the pollock fishery removals would restrict the availability of food to Steller sea lions. As a result of the analyses conducted, NMFS determined that the emergency measures listed below are necessary to ensure that the GOA pollock fishery will not jeopardize the continued existence of Steller sea lions. Based on the economic hardship to the fishing industry, and the need to implement emergency measures to protect Steller sea lions simultaneously with the pollock fishery opening, it is contrary to the public interest to provide prior notice and opportunity to comment on the emergency measures contained in this notice.

Allocation of the pollock TAC east and west of 154° W. longitude

The final pollock specifications notice apportions the 100,000 mt pollock TAC for the W/C Regulatory Areas equally to areas (subareas) east and west of 154° W. longitude. The purpose of the 50,000 mt subarea allocations is to prevent an entire quarterly allowance from being harvested in a concentrated area within the W/C Regulatory Areas. Otherwise, such harvests could result in local depletion of pollock, which may adversely affect the feeding success of Steller sea lions. The limited available data from satellite-transmitter tagged Steller sea lions suggests that sea lions associated with the four major rookeries in the GOA that have shown the steepest recent declines feed in or around the east side of Kodiak Island. These same locations have accounted for the majority of the pollock catch since 1987. The proposed spatial allocation of the quarterly TAC will

divert some fishing effort away from these Steller sea lion foraging habitats.

This measure requires an amendment by emergency rule to the definition of a fishing trip in regulations at 50 CFR 672.20(h)(2) for purposes of managing prohibitions to directed fishing for pollock in each of the two subareas. The operator of a vessel entering a reporting area or district with a specific pollock TAC must initiate a new trip to avoid an unintentional violation. Should NMFS prohibit directed fishing for pollock in either subarea, amounts of pollock retained on board a vessel must be less than 20 percent of the amount of all other fish species retained on board that vessel at any time until any offload or transfer of any fish or fish product from that vessel or until the vessel leaves reporting areas 61 and 62 combined, or reporting area 63, or the Eastern Regulatory Area, where fishing activities commenced, whichever occurs first.

The above area division also requires an amendment by emergency rule to delete statistical area 621 (Shelikof Strait District) in 50 CFR 672.2, which is necessary, because the longitude of 154° would otherwise bisect statistical area 621, and determining which part of the pollock catch was east and west of 154° W. longitude would not be possible with existing reporting requirements under 50 CFR 672.5. Fish that might have been reported from the Shelikof Strait District must now be reported by either Reporting Area 62 or 63, as appropriate.

Limit on Rollover of the Pollock TAC Quarterly Allowances

Existing regulations at 50 CFR 672.20(a)(2)(iv) require the pollock TAC for the W/C Regulatory Areas to be divided equally into four quarterly allowances. Under this emergency rule, each 50,000 mt TAC allocation in the subareas east and west of 154° W. longitude (W/C subareas) is apportioned into 12,500 mt allowances for each calender quarter. Existing regulations also require that any unharvested amount of a quarterly allowance, or excessive harvests of a quarterly allowance, will be added to (rolled over), or subtracted from, in equal proportions, the subsequent quarters' allowances.

To prevent excessive accumulation of any quarterly allowance, an amendment to these regulations is implemented by emergency rule to limit the maximum amount of any subsequent quarterly allowance to 150 percent of the initial quarterly allowance. Thus, in 1991, because each initial quarterly allowance of each pollock TAC is 12,500 mt, the maximum amount of any subsequent quarterly allowance resulting from rollovers is 18,750 mt in each of the two subareas. The purpose of the amendment is to prevent excessive harvests of pollock, in any quarter, which could reduce amounts of food available for sea lions, or limit their feeding efficiency.

As discussed above, the first quarter catch was 22,000 mt. Based on a TAC of 100,000 mt, each quarterly apportionment is 25,000 mt. Subtracting the first quarter catch from the first quarter apportionment results in a 3,000-mt harvest shortfall. Thus, 500 mt is added to each following quarter's apportionment in each subarea east and west of 154° W. longitude resulting in 13,000 mt (the sum of 12,500 mt and 500 mt) in each subarea. Each quarterly allowance in each subarea will be subject to notices of closure under 50 CFR 672.20(c).

Trawl Closures Around Steller Sea Lion Rookeries

Closures to groundfish trawling in the EEZ within 10 nm of 14 Steller sea lion rookeries are implemented. A list of the rookeries is in § 672.24(e) of this notice.

These closures are intended to further reduce any effects that groundfish trawling may have on the Steller sea lions, particularly to their foraging success. The 10-nm closures are based on the average distance travelled by foraging female Steller sea lions during the summer reproductive period. Maintenance of the buffer zones in the non-breeding season is primarily intended to protect juvenile sea lions. Juvenile sea lions are likely to be the most susceptible to prey depletion, since they are less adept predators than adults. These young animals are also less likely to swim far from their rookery of birth, particularly during their first year. Thus, nearshore zones proximal to rookeries are likely to be important feeding areas throughout the year.

Secretarial Determinations

The Secretary has reviewed the purposes of the measures contained in this emergency rule and has determined that they are necessary and appropriate for the conservation and management of the groundfish fishery.

Classification

The Assistant Administrator for Fisheries, NOAA (Assistant Administrator), has determined that this emergency rule is necessary to respond to an emergency situation and that it is consistent with the Magnuson Act and other applicable law.

The Assistant Administrator finds that reasons summarized above justifying promulgation of this emergency rule on an emergency basis also make it impracticable and contrary to the public interest to provide notice and opportunity for prior comment or to delay for 30 days its effective date under sections 553 (b) and (d) of the Administrative Procedure Act.

The Assistant Administrator has determined that this rule will be implemented in a manner that is consistent to the maximum extent practicable with the approved coastal management program of the State of Alaska. This determination has been submitted for review by the responsible State agency under section 307 of the Coastal Zone Management Act.

An EA was prepared for this rule and the Assistant Administrator concluded that there will be no significant impact on the human environment. A copy of the EA is available from the Regional Director at the above address.

This emergency rule is exempt from the normal review procedures of Executive Order 12291 as provided in section 8(a)(1) of that order. This rule is being reported to the Director of the Office of Management and Budget with an explanation of why following the usual procedures of that order is not possible.

This rule is exempt from the procedures of the Regulatory Flexibility Act, because it is issued without opportunity for prior public comment.

This rule does not contain a collection of information requirement for purposes of the Paperwork Reduction Act.

The rule does not contain policies with federalism implications sufficient to warrant preparation of a Federalism Assessment under Executive Order 12612.

Other Matters

This action to implement pollock TAC specifications is taken under 50 CFR 611.92 and 50 CFR 672.20 and complies with Executive Order 12291. The Secretary finds that the purpose of the pollock reserves was to save portions of the TAC in case they were needed by DAP later in the fishing year rather than apportioning them to joint venture processing (JVP) or total allowable level of foreign fishing (TALFF) at the beginning of the fishing year. Because the best available information indicates that DAP will harvest all the pollock TAC, no JVP or TALFF specifications have been established, and no JVP or TALFF apportionments are expected during 1991. Because retention of a pollock reserve could result in a premature fishery closure, this apportionment to DAP is made

VOL 56 ISS 118 JE 19 1991 UMI

immediately effective under 50 CFR 672.20(d)(5)(iv)(A)(3). This apportionment is effective June 13, 1991. Comments are invited on the reserve apportionments through July 5, 1991.

List of Subjects

50 CFR Part 611

Fisheries, Foreign relations, Reporting and recordkeeping requirements.

50 CFR Parts 672 and 675

Fisheries, Reporting and recordkeeping requirements.

Dated: June 13, 1991.

Samuel W. McKeen,

Acting Assistant Administrator for Fisheries, National Marine Fisheries Service.

For the reasons set out in the preamble, 50 CFR parts 672 and 675 are amended as follows:

PART 672—GROUNDFISH OF THE GULF OF ALASKA

1. The authority citation for part 672 continues to read as follows:

Authority: 16 U.S.C. 1801 *et seq.*

§ 672.2 [Amended]

2. In § 672.2, in the definition of "statistical area," the description of "statistical area 621" is suspended from June 13, 1991, through September 17, 1991.

3. In § 672.20, paragraphs (a)(2)(iv) and (h)(2)(i) are suspended and paragraphs (a)(2)(v), (h)(2) (iii) and (iv) are added from June 13, 1991, through September 17, 1991, to read as follows:

§ 672.20 General limitations.

(a) * * *

(2) * * *

(v) The TAC for pollock in the Central and Western Regulatory Areas will be apportioned equally to statistical areas 61 and 62 combined, and to statistical area 63. Each apportionment will be divided equally into the four quarterly reporting periods of the fishing year. Within any fishing year, any unharvested amount of any quarterly allowance of TACs will be added in equal proportions to the quarterly allowances of the following quarters, resulting in a sum for each quarter not to exceed 150 percent of the initial quarterly allowance. Within any fishing year, harvests in excess of a quarterly allowance of any TAC will be deducted in equal proportions from the quarterly allowances of each of the remaining quarters of that fishing year.

* * * * *

(h) * * *

(2) * * *

(iii) From the commencement of or the continuation of fishing for any groundfish other than sablefish and pollock, after the effective date of a notice under paragraph (c)(2) of this section prohibiting directed fishing, until any offload or transfer of any fish or fish product from that vessel or until the vessel leaves the regulatory area where fishing activities commenced, whichever occurs first.

(iv) From the commencement of or continuation of fishing for pollock after the effective date of a notice under paragraph (c)(2) of this section prohibiting directed fishing until any offload or transfer of any fish or fish product from that vessel or until the vessel leaves reporting areas 61 and 62 combined, or reporting area 63, or the Eastern Regulatory Area, where fishing activities commenced, whichever occurs first.

4. In § 672.24, paragraph (e) is added from June 13, 1991, through September 17, 1991, to read as follows:

§ 672.24 Gear limitations.

* * * * *

(e) Steller sea lion areas. Trawling is prohibited year round in the Gulf of Alaska within 10 nautical miles of each of the following Steller sea lion rookeries listed at 50 CFR 227.12(a)(3): Outer Island, Sugarloaf Island, Marmot Island, Chirikof Island, Chowiet Island, Atkins Island, Chernabura Island, Pinnacle Rock, North and South Clubbing Rocks, Ugamak Island, Akun Island, Akutan Island, Adugak Island, and Ogchul Island.

PART 675—GROUNDFISH FISHERY OF THE BERING SEA AND ALEUTIAN ISLANDS AREA

5. The authority citation for part 675 continues to read as follows:

Authority: 16 U.S.C. 1801 *et seq.*

6. In §675.24, paragraph (f) is added from June 13, 1991 through September 17, 1991 to read as follows:

§ 675.24 Gear limitations.

* * * * *

(f) Steller sea lion areas. Trawling is prohibited year round in the Bering Sea and Aleutian Islands area within 10 nautical miles of each of the following Steller sea lion rookeries listed at 50 CFR 227.12(a)(3): Ugamak Island, Akun Island, Akutan Island, and Adugak Island.

[FR Doc. 14477 Filed 6-13-91; 4:36 p.m.]

BILLING CODE 3510-22-M

50 CFR Part 685

[Docket No. 910645-1145]

Pelagic Fisheries of the Western Pacific Region

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Emergency interim rule; longline area closures in the Main Hawaiian Islands.

SUMMARY: The Secretary of Commerce (Secretary) issues this emergency interim rule amending current regulations promulgated under the Fishery Management Plan for Pelagic Fisheries of the Western Pacific Region (FMP). This action is needed to minimize gear conflicts between longline and troll/handline pelagic fisheries in Main Hawaiian Island (MHI) waters. MHI waters are defined in this emergency rule as the Exclusive Economic Zone (EEZ) of the Hawaiian Islands Archipelago lying to the east of 161° West longitude. Gear conflicts have increased throughout the MHI since August 1989, when longline vessels began fishing near the Waianae Coast, an area fished heavily by troll/handline fishermen, both commercial and recreational. These conflicts have hindered fishing activities and resulted in loss of gear, in some cases due to willful destruction. Increasing tensions between pelagic user groups have led to concerns of public safety. In response, the Western Pacific Fishery Management Council (Council) has proposed, and the Secretary concurs with, implementation of this temporary emergency rule to prohibit longline fishing within 75 nautical miles (nm) around Kauai County (which includes the islands of Kauai, Niihau, and Kaula) and Honolulu County (which is the island of Oahu), and 50 nm around Hawaii County (which is the island of Hawaii) and Maui County (which includes the islands of Maui, Kahoolawe, Lanai, and Molokai).

EFFECTIVE DATE: The emergency rule is effective from 0000 hours local time June 14, 1991, to 2400 hours local time August 19, 1991.

ADDRESSES: Copies of the documentation supporting the Council's emergency action request and the environmental assessment (EA) for this action may be obtained from, and comments should be sent to, E.C. Fullerton, Director, Southwest Region, NMFS, 300 South Ferry Street, Terminal Island, CA 90731.

FOR FURTHER INFORMATION CONTACT: Kitty M. Simonds, Executive Director, Western Pacific Fishery Management Council, (808) 523-1368 or (FTS) 551-1974, Svein Fougner, Fisheries Management Division, Southwest Region, NMFS, Terminal Island, California (213) 514-6660 or (FTS) 795-6660, or Alvin Katekaru, Pacific Area Office, Southwest Region, NMFS, Honolulu, Hawaii (808) 955-8831 or (FTS) 551-2927.

SUPPLEMENTARY INFORMATION: Stocks of pelagic species around Hawaii have been traditionally harvested by both longline and trolling gear. Between 1967 and 1990, the longline fleet tripled (from approximately 45 vessels to 150 vessels), while the commercial troll/handline fleet (including charterboats) increased from 2,232 vessels to 2,409 vessels. During this same time period, total longline catches increased 3.4 times from 3.9 million pounds (lb) (1,769 metric tons (mt)) to 13.1 million lb (5,941 mt), while troll catches decreased 16 percent from 5.3 million lb (2,419 mt) to 4.5 million lb (2,041 mt).

In August 1989, conflicts between longliners, many recently arrived from the Gulf of Mexico, and troll/handline fishermen, both commercial and recreational, attracted media attention. Some of these interactions, which first occurred off Waianae, Oahu, lead to physical confrontations and destruction of gear. State officials met with both charterboat and small boat troll fishermen and with longline fishermen. As a result of these meetings a voluntary informal agreement was reached whereby longline fishermen would stay at least 20 nm from shore.

Not all longliners adhered to this informal agreement and allegations of gear conflicts escalated, particularly around the islands of Oahu, Kauai, and Maui, as the longline fleet grew. Tensions continued to mount throughout 1990 and the Council was increasingly concerned that continued gear conflicts might lead to violent confrontations.

In December 1990, the Council decided to request emergency action to impose a moratorium on new entry into the longline fishery to halt growth and provide a period of stability in which to collect data and to analyze the impact of the longline fishery on the stocks, examine the interaction between various sectors of the pelagic fishery such as the longline and troll/handline fleets, and evaluate long-term management alternatives. The emergency moratorium was implemented on April 23, 1991. The Council intends to submit a follow-up plan amendment to this emergency moratorium that would establish a 3-year moratorium on new entry into the longline fishery. The moratorium will, by limiting the number of vessels, control escalation of the gear conflicts, but does not resolve fundamentally the existing public safety problem.

Concerned about the continuing negative social impacts and potential economic impact of these interactions, the Council appointed a Pelagic Task Force in December 1990. The Task Force, comprised of longliners, commercial and recreational trollers, and handliners (including charterboat representatives), was charged with developing recommendations for possible area closures to address this problem. Public hearings were also held throughout the MHI.

The Task Force members agreed that some type of area closure was needed but could not agree on the magnitude of such area closures. Commercial and recreational trollers and handline fishermen, including charterboat representatives, who made up the majority of Task Force members recommended a minimum of 75 nm around all MHI while longliners and fish processors favored 20 to 30 nm.

After examining available data, recommendations of the Task Force, and public input, the Council concluded that a 75-nm closure around Kauai County and Honolulu County and a 50-nm closure around Maui County and Hawaii County are warranted. Examination of State of Hawaii catch reports shows that, while the majority of commercial trolling trips are taken within 20 nm of shore, an increasing number of trips are reported at distances of 50 to 60 nm off Kauai, Oahu, and the west coast of Hawaii, and 40 nm off Maui, Molokai, and Lanai. Distances travelled, and thus the potential for gear conflict, are greatest during the summer yellowfin tuna season. Little information is available from the recreational fishery but an informal poll was taken of both commercial troll and recreational fishermen in early 1991. According to respondents, the maximum distances fished were as follows: Kauai, 70 nm; Oahu, 53 nm; Maui County, 47 nm; and Hawaii, 47 nm.

Analyses of existing information with respect to the potential adverse impacts of the longline fishery on the catch per unit of effort and markets of troll/handline pelagic fishermen are inconclusive. Gaining a better understanding of the interaction between sectors is one of the objectives of the data collection and analysis plan during the planned 3-year moratorium. Preliminary 1990 data on blue marlin catches may indicate adverse interaction. Blue marlin is a highly valued recreational species that plays an important part in the Hawaii charterboat industry. Blue marlin is also a by-catch species in the longline fishery. During 1990, the longline harvest of blue marlin increased 7 percent while commercial troll landings decreased by 42 percent. Oahu troll/handline monthly catch per trip information (calculated from market data) shows that the season peak, which occurred in August and September during 1987–89 (90–125 lb or 40.5–56.3 kilograms (kg) per trip), did not occur in 1990 when catch rates remained relatively stable at 25–40 lb (11.3–16.0 kg) per trip throughout the year. Analyses of similar trends in the Atlantic fishery have shown a negative correlation between longline harvests and recreational catch rates.

Vessels in the Hawaii longline fleet range in length from about 23 feet (ft) to 113 ft (7.0 to 34.4 meters (m)). Twenty five percent of the 157 vessel fleet are less than 57 ft (17.4 m) in length. During the first 3 months of the longline permit and logbook program (November 27, 1990, to February 24, 1991), 29 percent of the total longline effort took place within the proposed 75/50-nm closure area compared to 48 percent in the remaining EEZ around the MHI and 23 percent in the NWHI. However, for the quarter of the fleet less than 57 ft (17.4 m) in length, 46 percent of the effort occurred within the proposed 75/50-nm closure area. Catches from this area accounted for 65 percent of the swordfish harvest, 40 percent of the bigeye tuna harvest, and 54 percent of the yellowfin tuna harvest by vessels under 57 ft (17.4 m) in length. This segment of the fleet, which includes a number of smaller vessels with a long history of longlining within Hawaiian waters, will be the most negatively impacted by the area closure.

From May to September, when seas are calmer and the yellowfin tuna season is at a peak, commercial and recreational trolling effort normally increases and occurs at greater distances from shore. While Federal longline logbook data are not available for that time period, state catch reports show longline effort occurring within the 75/50-num closure area, particularly between Kauai and Oahu. While the growth of the longline fleet has been temporarily halted with the emergency moratorium, other actions by the Council (e.g., a 50-nm closure in the NWHI to prevent interaction with endangered monk seals) may exacerbate gear conflicts, causing operators of longline vessels to look for alternative fishing grounds. For these reasons, emergency action is necessary

VOL
56
ISS
118
JE
19
1991
UMI

in order to have area restrictions in place by the time of greatest potential conflict. A 75-nm closure around Oahu and Kauai provides a 15-nm buffer zone beyond the maximum distance reported by commercial trolling fishermen on state catch reports. In recent years, the commercial troll, charterboat, and recreational fleets located in these areas have reported traveling to fishing grounds farther offshore. The area closure for Maui and Hawaii Counties was determined to be 50 nm based on the maximum distance reported on state catch report forms, except for east Hawaii where the maximum distance reported was 20 nm. The Council intends to follow this emergency action with an amendment incorporating area restrictions into the FMP.

This emergency rule defines the term Main Hawaiian Islands as the EEZ of the Hawaiian Islands Archipelago lying to the east of 161° West longitude. It is being defined to clarify where the area closures are being implemented and to distinguish this portion of the Hawaiian Island chain from the Northwestern Hawaiian Islands, where a protected species zone area closure was implemented under emergency regulations in April 1991.

The Council is concerned about enforcement of the area closure regulations. Automated vessel position indicating devices (transponders) hold promise for enhancing enforcement activities. The Council is currently conducting field experiments to determine the feasibility of employing transponders to monitor the location of longline vessels. When this technology is operationally available, the Council may propose new regulations that require longline vessels to carry transponders.

Classification

The Assistant Administrator for Fisheries, NOAA (Assistant Administrator), has determined that this rule is necessary to respond to an emergency situation and is consistent with the Magnuson Fishery Conservation and Management Act (Magnuson Act) and other applicable law. This rule is effective for 90 days from the date of publication under section 305(c)(3)(B) of the Magnuson Act and may be extended for an additional 90 days with the agreement of the Council. The Assistant Administrator has determined that conditions in the fishery are such that delaying this rule would pose a substantial risk of severe social conflict with potential adverse public safety implications as well as possible adverse economic impacts.

The Assistant Administrator also finds that the reasons justifying promulgation of this rule on an emergency basis make it impracticable and contrary to the public interest to provide notice and opportunity for comments upon, or to delay for 30 days the effective date of these emergency regulations under section 553 (b) and (d) of the Administrative Procedure Act.

This emergency rule is exempt from the normal review procedures of Executive Order (E.O.) 12291 as provided in section 8(a)(1) of that order. This rule is being reported to the Director of the Office of Management and Budget with an explanation of why it is not practicable to follow the regular procedures of that order.

The Council prepared an EA for this action. The Assistant Administrator concluded that there will be no significant impact on the human environment. A copy of the EA is available from the Southwest Region (see **ADDRESSES**).

An informal consultation was conducted under section 7 of the Endangered Species Act (ESA) and it was determined that this action is not likely to adversely affect any endangered or threatened species listed under the ESA.

The Assistant Administrator has determined that this emergency rule will be implemented in a manner that is consistent to the maximum extent practical with the approved coastal zone management program of the State of Hawaii. The Council requested that the State of Hawaii concur with the Assistant Administrator's finding and the State of Hawaii has concurred.

This rule does not contain a collection-of-information requirement subject to the Paperwork Reduction Act.

This emergency rule is exempt from the procedures of the Regulatory Flexibility Act because the rule is issued without opportunity for prior public comment.

This emergency rule does not contain policies with known federalism implications sufficient to warrant preparation of a federalism assessment under E.O. 12612.

List of Subjects in 50 CFR Part 685

Fisheries, Fishing.

Dated: June 13, 1991.

Michael F. Tillman,

Acting Assistant Administrator for Fisheries, National Marine Fisheries Service.

For the reasons set out in the preamble, 50 CFR part 685 is amended as follows:

PART 685—PELAGIC FISHERIES OF THE WESTERN PACIFIC REGION

1. The authority citation for part 685 continues to read as follows:

Authority: 16 U.S.C. 1801 et seq.

2. In § 685.2, effective from 0000 hours local time June 14, 1991, to 2400 hours local time August 19, 1991, new definitions for "Longline fishing prohibited area" and "Main Hawaiian Islands" are added, in alphabetical order, to read as follows:

§ 685.2 Definitions.

* * * * *

Longline fishing prohibited area means the waters within 75 nm of the Islands of Oahu, Kauai, Niihau, and Kaula, and the waters within 50 nm of the islands of Hawaii, Maui, Kahoolawe, Lanai, and Molokai, as measured from the baseline from which the seaward boundary of the State of Hawaii is defined.

Main Hawaiian Islands means the EEZ of the Hawaiian Islands Archipelago lying to the east of 161° West longitude.

* * * * *

3. In § 685.5, new paragraph (u) is added to be effective from 0000 hours local time June 14, 1991, to 2400 hours local time August 19, 1991, to read as follows:

§ 685.5 Prohibitions.

* * * * *

(u) Fish with longline gear within the longline fishing prohibited area in the Main Hawaiian Islands as defined in § 685.2 of this part.

Proposed Rules

Federal Register
Vol. 56, No. 118
Wednesday, June 19, 1991

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Rural Telephone Bank

7 CFR Part 1600

Meetings of the Board of Directors of the Rural Telephone Bank

AGENCY: Rural Telephone Bank, USDA.

ACTION: Proposed rule.

SUMMARY: The Rural Telephone Bank (Bank) proposes to amend 7 CFR chapter XVI of the Code of Federal Regulations to add a new part 1600. This new part implements the provisions of the Government in the Sunshine Act (5 U.S.C. 552b) and sets forth the procedural requirements designed to provide the public with information to the fullest extent practicable, regarding the decision making process of the Board of Directors (Board) of the Bank. The regulations include provisions for giving advance notice of meetings of the Board, for holding meetings which may lawfully be closed to the public, for maintaining copies of transcripts, electronic recordings, or minutes of closed meetings, and for the availability of the non-exempt portions of such records to the public.

All Rural Telephone Bank Borrowers will be affected by new part 1600 in that the borrowers bill be provided with information regarding the Board's decision making processes.

DATES: Public comments concerning this proposed rule must be received by the Bank or bear a postmark or its equivalent no later than July 19, 1990.

ADDRESSES: Comments may be mailed to F. Lamont Heppe, Jr., Chief, Telephone Loans and Management Staff, Rural Electrification Administration, room 2250-South Building, U.S. Department of Agriculture, Washington, DC 20250, telephone number (202) 382-8530. Comments received may be inspected in room 2250. The Bank requests an original and three copies of all documents.

FOR FURTHER INFORMATION CONTACT: F. Lamont Heppe, Jr., Chief, Telephone Loans and Management Staff, Rural Electrification Administration, room 2250-South Building, U.S. Department of Agriculture, Washington, DC 20250, telephone number (202) 382-8530.

SUPPLEMENTARY INFORMATION: This proposed rule is issued in conformance with Executive Order 12291. This action will not (1) have an annual effect on the economy of $100 million or more; (2) result in a major increase in costs or prices for consumers, individual industries, Federal, state or local government agencies, or geographic regions; or (3) result in significant adverse effects on competition, employment, investment or productivity, innovation, or on the ability of the United States-based enterprises to compete with foreign-based enterprises in domestic or export markets. Therefore, this rule has been determined to be non major.

This action does not fall within the scope of the Regulatory Flexibility Act. The Bank has concluded that promulgation of this rule would not represent a major Federal action significantly affecting the quality of the human environment under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq. (1976)) and, therefore, does not require an environmental impact statement or an environmental assessment.

This program is listed in the Catalog of Federal Domestic Assistance under No. 10.852, Rural Telephone Bank Loans. For the reasons set forth in 7 CFR part 3015, subpart V (50 FR 47034), this program is excluded from the scope of Executive Order 12372 which requires inter-governmental consultation with state and local officials.

This proposed rule contains no information collection or recordkeeping requirements which would require approval under the Paperwork Reduction Act of 1980 (44 U.S.C. 3501 et seq.).

Background

Subtitle F of the Rural Economic Development Act of 1990, (RED Act) (Pub. L. 101-624), requires the Bank to promulgate regulations that implement provisions of the Government in the Sunshine Act. Section 2363 of the RED Act requires that Bank Board meetings comply with the requirements of the Sunshine Act. Therefore, a new part 1600 is proposed to be added to 7 CFR chapter XVI to include this new requirement.

The Rural Telephone Bank is an agency and instrumentality of the United States within the United States Department of Agriculture (USDA). The Bank was established on May 7, 1971, (Pub. L. 92-12) as a lending agency operating in conjunction with the Rural Electrification Admininstration (REA) to provide supplemental financing for the REA Telephone Loan Program. The Adminsitrator of REA also serves as the Governor of the Bank, its chief executive officer.

Management of the Bank is vested in a Board of Directors. The Board consists of thirteen members; seven members are appointed by the President and six members are elected by holders of Class B and Class C Bank stock. Five of the seven Presidential appointees are officers or employees of USDA but not officers or employees of REA. Historically, these directors have been high officials of USDA who are responsible for the operation of major agencies and programs of the Department. The remaining two presidential appointees are from the general public and are not officers or employees of the Federal Government. The commercial-type and cooperative-type entities that hold Class B or C Bank stock elect six members (three from each corporate category) to serve on the Bank Board. The elected members represent the corporations that have borrowed from the Bank.

List of Subjects in 7 CFR Part 1600

Sunshine Act.

For reasons set forth in the preamble, the Bank proposes to amend 7 CFR chapter XVI to add a new part 1600 as follows:

PART 1600—GENERAL INFORMATION

Meetings of the Board of Directors of the Rural Telephone Bank

Sec.

1600.1 General.
1600.2 Definitions.
1600.3 Open meetings
1600.4 Scheduling of meetings.
1600.5 Public announcement of meetings.
1600.6 Bases for closing a meeting to the public.

Sec.
1600.7 Procedures for closing a meeting to the public
1600.8 Transcript, recording or minutes; availability to the public.

Authority: 7 U.S.C. 941 et seq.

§ 1600.1 General.

The purpose of this part is to effectuate the provisions of the Government in the sunshine Act. This part applies to the deliberations of a quorum of the Directors of the Bank required to take action on behalf of the Bank where such deliberations determine or result in the joint conduct or disposition of official Bank business. Any deliberation to which this part applies is hereinafter in this part referred to as a meeting of the Board of Directors.

§ 1600.2 Definitions.

As used in this part:

(a) *Board* means Board of Directors of the rural Telephone Bank (Bank).

(b) *Director* means an individual who is a member of the Board.

(c) *Legal Counsel* means the legal counsel of the Bank.

(d) *Meeting* means the deliberations (including those conducted by conference telephone call or by any other method) among a quorum of the Directors, where such deliberations determine or result in joint conduct of official business of the Board. For purposes of this Part, each item on the agenda of a meeting is considered a meeting or a portion of a meeting. To the extent that the discussions do not result in the beginning of deliberations or achieve a consensus on a matter of official agency business or effectively predetermine official actions, the term Meeting does not include:

(1) Deliberations to determine whether a meeting or portions of a meeting will be open or closed or whether information pertaining to closed meetings will be disclosed;

(2) Calling a meeting at a date earlier than announced as provided in § 1600.5;

(3) Changing the subject matter of a publicly announced meeting as provided in § 1066.5;

(4) Disposition of Board business by circulation of materials to individual Board members;

(5) Staff briefings of Board members;

(6) Informal background discussions among Board members and staff which clarify issues and expose varying views; or

(7) Sessions with individuals from outside the Bank where Board members listen to a presentation and may elicit additional information.

(e) *Open to public observation* means the right of any member of the public to attend and observe, but not participate or interfere in any way in an open meeting of the Board.

§ 1600.3 Open Meetings.

(a) Except as provided for in § 1600.6 every portion of every meeting of the Board shall be open to public observation. Observation does not include participation or disruptive conduct by observers, and persons engaging in such conduct will be removed from the meeting. Documents being considered at meetings of the Board may be obtained subject to the exemptions set forth in § 1600.6.

(b) Board members shall not jointly conduct or dispose of official Board business other than in accordance with this part.

(c) The Secretary of the Board shall be responsible for assuring that ample space, sufficient visibility, and adequate acoustics are provided for public observation of meetings of the Board.

§ 1600.4 Scheduling of meetings.

A decision to hold a meeting of the Board should be made as provided in the bylaws of the Bank and at least ten days prior to the scheduled meeting date in order for the Secretary of the Bank to give the public notice required by § 1600.5. Special meetings of the Board may be held on less than ten days notice if a majority of the Board determines by a recorded vote that Bank business requires that the special meeting be held on less than ten days notice. After public announcement of a meeting of the Board under the provisions of § 1600.5, the subject matter thereof, or the determination to open or close a meeting, or portion thereof, may only be changed if a majority of the Directors determines by a recorded vote that business so requires and that no earlier announcement of the change is possible.

§ 1600.5 Public announcement of meetings.

(a) Except as otherwise provided in this section, public announcement of open meetings and meetings or portions thereof closed under § 1600.7 will be made at least seven days in advance of each meeting. Except to the extent that such information is determined to be exempt from disclosure under § 1600.6, each such public announcement will state the time, place, and subject matter of the meeting, whether it is to be open or closed to the public, and the name and telephone number of the official designated to respond to requests for information about the meeting. Each such announcement shall be submitted for publication in the **Federal Register**. Copies of the announcement shall also be mailed to holders of Class B and Class C Bank stock.

(b) If a meeting is closed, the Board may omit from the announcement information usually included, if and to the extent that it finds that disclosure would be likely to have any of the consequences listed in § 1600.6.

(c) Where a majority of the Board members determine by recorded vote that Bank business requires that a meeting be called on less than ten days notice, public announcement shall be made at the earliest practicable time. Such announcement will state the time, place, and the subject matter of the meeting, whether it is to be open or closed to the public, and the name and telephone number of the official designated to respond to requests for information about the meeting.

(d) The time or place of a meeting may be changed following the public announcement required by paragraph (a) of this section only if the Secretary publicly announces such change at the earliest practicable time. The subject matter of a meeting, or the determination of the Board to open or close a meeting, or portion of a meeting, to the public, may be changed following the public announcement required by this section only if:

(1) A majority of the Directors determines by a recorded vote that business so requires and that no earlier announcement of the change was possible, and

(2) The Secretary publicly announces such change and the vote of each Director upon such change at the earliest practicable time.

(e) The earliest practicable time, as used in this subsection, means as soon as possible, which should in few, if any, instances be later than the commencement of the meeting or portion in question.

(f) Each person interested in attending an open meeting of the Board should notify the Assistant Secretary of the Board at least one business day prior to the open meeting of their intention to attend the meeting. Any person who fails to do so may not be accommodated if there is insufficient space in the meeting room.

§ 1600.6 Bases for closing a meeting to the public.

(a) A portion or portions of a Board meeting may be closed to the public and any information pertaining to such meeting otherwise required by § 1600.3 to be disclosed to the public may be withheld, where the Board determines that public disclosure of information to be discussed at such meetings is likely to:

(1) Disclose matters that are:

(i) Specifically authorized under criteria established by an Executive Order to be kept secret in the interests of national defense or foreign policy and

(ii) In fact properly classified pursuant to such Executive Order;

(2) Relate solely to the internal personnel rules and practices of the Bank;

(3) Disclose matters specifically exempted from disclosure by statute (other than the Freedom of Information Act, 5 U.S.C. 552), provided that such statute:

(i) Requires that the matters be withheld from the public in such a manner as to leave no discretion on the issue, or

(ii) Establishes particular criteria for withholding or refers to particular types of matters to be withheld;

(4) Disclose trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(5) Involve accusing any person of a crime, or formally censuring any person;

(6) Disclose information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;

(7) Disclose investigatory records compiled for law enforcement purposes, or information which if written would be contained in such records, but only to the extent that the production of such records or information would:

(i) Interfere with enforcement proceedings,

(ii) Deprive a person of a right to a fair trial or to an impartial adjudication,

(iii) Constitute an unwarranted invasion of personal privacy, or

(iv) Disclose the identity of a confidential source, and, in the case of a record compiled by a criminal enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source,

(v) Disclose investigative techniques and procedures, or

(vi) Endanger the life or physical safety of law enforcement personnel;

(8) Disclose information contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of the Bank or any other agency responsible for the regulation or supervision of financial institutions;

(9) Disclose information the premature disclosure of which would be likely to significantly frustrate implementation of a proposed action of the Board or of another agency, except that this shall not apply in any instance where the content or nature of the proposed action has already been disclosed to the public or where the Board is required by law to make such disclosure on its own initiative prior to taking final action on such proposal; or

(10) Specifically concern the Board's participation in a civil action or proceeding, an action in a foreign court or international tribunal, or an arbitration, or the initiation, conduct, or disposition by the Board of a particular case of formal agency adjudication pursuant to the procedures in 5 U.S.C. 554 or otherwise involving a determination on the record after opportunity for a hearing.

(b) Any Board meeting or portion thereof, which may be closed, or any information which may be withheld under paragraph (a) of this section, will not be closed or withheld, respectively, in any case where the Board finds the public interest requires otherwise.

§ 1600.7 Procedures for closing a meeting to the public.

(a) A majority of all Directors may vote to close a meeting or withhold information pertaining to that meeting. A separate vote shall be taken with respect to any action under § 1600.6(a). A majority of the Board may act by taking a single vote with respect to a series of meetings, a portion or portions of which are proposed to be closed to the public, or with respect to any information concerning such series of meetings, so long as each meeting in such series involves the same particular subject matter and is scheduled to be held no more than thirty days after the initial meeting in such series. The vote of each Director participating in such vote shall be recorded and no proxy shall be allowed.

(b) Whenever any person whose interest may be directly affected by a portion of the Board's meeting requests that the Board close such portion to the public on the basis of exemptions in paragraph (a) (5), (6), or (7) of § 1600.6, the Board, upon request of any one of its members, will vote whether or not to close such portion of the meeting. The vote of each Director participating in such vote shall be recorded and no proxy shall be allowed.

(c) Before every Board meeting closed on the basis of one or more of the exemptions in § 1600.6(a), the Legal Counsel will publicly certify that, in Counsel's opinion, the meeting may be closed to the public and shall state each relevant exemption.

(d) Within one business day after any vote taken pursuant to paragraph (a), (b), or (c) of this section, the Board will make publicly available a written copy of the vote, reflecting the vote of each Board member. Except to the extent that such information is exempt from disclosure, if a meeting or portion of a meeting is to be closed to the public, the Board will make publicly available within one business day after the required vote a full written explanation of its action, together with a list of all persons expected to attend the meeting and their affiliation.

§ 1600.8 Transcript, recording or minutes; availability to the public.

(a) The Secretary of the Board will maintain the following records for each Board meeting, or portion thereof which is closed to the public pursuant to a vote under § 1600.7:

(1) A copy of the Legal Counsel's certification required by § 1600.7;

(2) A copy of a statement from the presiding officer which sets forth the time and place of the closed meeting or portion thereof and a list of persons present; and

(3) A complete verbatim transcript or electronic recording adequate to record fully the proceedings of each Board meeting or portion of a meeting, except that in the case of a meeting or portion of a meeting closed to the public on the basis of exemption in paragraph (a)(8) or (10) of § 1600.6, the Secretary of the Board will maintain either a transcript, electronic recording, or a complete set of minutes. Such minutes shall fully and clearly describe all matters discussed and shall provide a full and accurate summary of actions taken and the reasons therefor, including a description of each of the views expressed on any item and the record of any roll-call vote reflecting the vote of each member on the question. All documents considered in connection with any action will be identified in such minutes.

(b) The retention period for the records required by paragraph (a) of this section will be for a period of at least two years after the particular Board meeting or until one year after the conclusion of any Board proceeding with respect to which the meeting or portion thereof was held, whichever occurs later.

(c) The Secretary of the Board will make promptly available to the public the transcript, electronic recording, transcription of the recording, or minutes of the discussion of any item on the agenda of a Board meeting, except for such item or items of such discussion as the Board determines to contain

VOL 56 ISS 118 JE 19 1991 UMI

information which may be withheld on the basis of one or more of the exemptions in § 1600.6.

(d) Requests for public inspection of electronic recording, transcripts or minutes of Board meetings shall be made to the Assistant Secretary of the Board of Directors of the Rural Telephone Bank, room 4051-South Building, U.S. Department of Agriculture, 14th Street and Independence Avenue SW., Washington, DC 20250. Requests for inspection or copies of transcripts shall specify the date of the meeting, the name of the agenda and the agenda item number; this information will appear in the notice of the meeting.

(e) The transcripts, minutes, or transcriptions of electronic recordings of a Board meeting will disclose the identity of each speaker, and will be furnished to any person at the actual cost of transcription or duplication.

Dated: May 3, 1991.

Gary C. Byrne,

Governor, Rural Telephone Bank.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Ch. I

[Summary Notice No. PR-91-12]

Petition for Rulemaking; Summary of Petition Received; Reopening of Comment Period

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of petition for rulemaking received; reopening of comment period.

SUMMARY: This action reopens the comment period of a petition for rulemaking published on April 11, 1991 (56 FR 14660). The comment period in the matter of Docket No. 26487 is being reopened for an additional 90 days in order to provide the citizens who will be affected by this proposal for additional time to submit their comments.

DATES: Comments on the petition must be received on or before: September 17, 1991.

ADDRESSES: Send comments on any petition in triplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC-10), Petition Docket No. _____, 800 Independence Avenue, SW., Washington, DC 20591.

FOR FURTHER INFORMATION CONTACT: Ida Klepper, Office of Rulemaking (ARM-1), Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone (202) 267-9688.

SUPPLEMENTARY INFORMATION:

Docket No.: 26487.

Petitioner: Mr. Harry E. McClure.

Regulations Affected: 14 CFR 43.1(b).

Description of Petition: To clarify the wording in § 43.1(b) to include provisions to control the maintenance that must be performed an amateur-built aircraft, and who is authorized to maintain them in an airworthy condition.

Petitioner's Reason for the Request: The petitioner is concerned that a large number of amateur-built aircraft are incorporating type certificated engines and propellers into their amateur-built aircraft and there are no provisions to control the maintenance that must be performed on these products and who is authorized to maintain them in an airworthy condition.

Issued in Washington, DC, on June 12, 1991.

Denise Donohue Hall,

Manager, Program Management Staff, Office of the Chief Counsel.

BILLING CODE 4910-13-M

14 CFR Part 71

[Airspace Docket No. 90-ANM-08]

Proposed Amendment, Control Zone and Transition Area, Pullman, WA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to amend the Pullman, Washington Control Zone and Transition Area. This action is necessary because a new VHF Omnidirectional Range/Distance Measuring Equipment (VOR/DME-A) approach is being established for the Pullman Airport. The effect would be to define new controlled airspace which will contain the new procedure. The intent of the action is to accurately define the controlled airspace for pilot reference. The changes would be depicted on aeronautical charts enabling pilots to determine when instrument flight rules may be required.

DATES: Comments must be received on or before August 15, 1991.

ADDRESSES: Send comments on the proposal to: Bette VanManen, ANM-538, Federal Aviation Administration, Docket No. 90-ANM-08, 1601 Lind Avenue, SW., Renton, Washington 98055-4056.

The official docket may be examined at the same address.

An informal docket may also be examined during normal business hours at the address listed above.

FOR FURTHER INFORMATION CONTACT: Bette VanManen, ANM-538, Federal Aviation Administration, Docket No. 90-ANM-08, 1601 Lind Avenue SW., Renton, Washington 98055-4056. Telephone: (206) 227-2538.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy aspects of the proposal. Communications should identify the airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 90-ANM-08." The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available for examination at the address listed above both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM's

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, System Management Branch, ANM-530, Federal Aviation Administration, 1601 Lind Avenue, SW., Renton, Washington 98055-4056.

Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRM's should also request a copy of Advisory Circular No. 11-2 which describes the application procedure.

The Proposal

The FAA proposes an amendment to §§ 71.171 and 71.181 of part 71 of the Federal Aviation Regulations (14 CFR part 71) to amend the Pullman, Washington Control Zone and Transition Area. This would define new controlled airspace which will contain the new VOR/DME-A approach being established for the Pullman-Moscow Regional Airport. The intent of this action is to accurately define the controlled airspace for pilot reference. The changes would be depicted on aeronautical charts enabling pilots to determine when instrument flight rules may be required. Sections 71.171 and 71.181 of part 71 of the Federal Aviation Regulations were republished in Handbook 7400.6G dated September 4, 1990.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, if promulgated, will not have a significant economic impact positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 71

Aviation Safety, Control zones, Transition areas.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) as follows:

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. App. 1348(a), 1354(a), 1510; Executive Order 10854; 49 U.S.C. 106(g) Revised Pub. L. 97-449, January 12, 1983); 14 CFR 11.69.

§ 71.171 [Amended]

2. Section 71.171 is amended as follows:

Pullman, WA [Revised]

Within a 4.8 mile radius of Pullman-Moscow Regional Airport (lat 46°44'36" N, long 117°06'31" W) and within 2 miles each side of the Pullman VOR/DME (lat 46°40'28" N, long 117°13'21" W) 047° radial extending from the 4.8 mile radius to the VOR/DME, and within 2 miles each side of the 046° radial extending from the 4.8 mile radius to 16 miles northeast of the VOR/DME. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and times will be continuously published in the Airport/Facility Directory.

§ 71.181 [Amended]

3. Section 71.181 is amended as follows:

Pullman, WA [Revised]

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Pullman-Moscow Regional Airport (lat 46°44'36" N, long 117°06'31" W) and within 2 miles each side of the Pullman VOR/DME (lat 46°40'28" N, long 117°13'21" W) 232° and 047° radials extending from the 5-mile radius to 8 miles southwest of the VOR/DME, and that airspace within a 24-mile radius of the Pullman VOR/DME extending clockwise from the 342° radial to a line 5 miles east of and parallel to the 046° radial of the VOR/DME; and that airspace extending upward from 1,200 feet above the surface within 9 miles northwest and 6 miles southeast of the Pullman VOR/DME 052° and 232° radials extending from 17.5 miles southwest to 7.5 miles northeast of the VOR/DME.

Issued in Seattle, Washington, on June 13, 1991.

Temple H. Johnson, Jr.,

Manager, Air Traffic Division.

26 CFR Part 1

[FI-59-89]

RIN 1545-AG37

Proceeds of Bonds Used for Reimbursement; Correction

AGENCY: Internal Revenue Service.

ACTION: Correction to notice of proposed rulemaking and notice of public hearing.

SUMMARY: This document contains corrections to the notice of proposed rulemaking (FI-59-89), which was published in the Federal Register on April 25, 1991 (56 FR 19046). The proposed regulations clarify when the allocation of bond proceeds to reimburse expenditures previously made by an issuer is treated as an expenditure of the bond proceeds.

FOR FURTHER INFORMATION CONTACT: William P. Cejudo, (202) 566-3283 (not a toll-free number).

SUPPLEMENTARY INFORMATION:

Background

The notice of proposed rulemaking that is the subject of these corrections amends the Income Tax Regulations (26 CFR part 1) to provide proposed rules regarding when the use of bond proceeds to reimburse a previously paid expenditure is treated as an expenditure of the bond proceeds for purposes of sections 103 and 141-150 of the Internal Revenue Code. The proposed regulations reflect the modifications to section 103 and the addition of sections 141-150 to the Code by the Tax Reform Act of 1986 (Pub. L. 99-514, 100 Stat. 2602).

Need for Correction

As published, the proposed regulations contain errors which may prove to be misleading and are in need of clarification.

Correction of Publication

PART 1—[CORRECTED]

Accordingly, the publication of proposed regulations (FI-59-89), which was the subject of FR Doc. 91-9561, is corrected as follows:

§ 1.103-17 [Corrected]

Paragraph 1. In the list below for § 1.103-17(f)(5) *Example 1* and *Example 2*, for each location indicated in the left column, remove the date indicated in the middle column, and add the date indicated in the right column:

Location	Remove	Add
Example 1:		
(i), line 1	1993	1994
(i), line 18	1993	1994
(i), line 19	1993	1994
(ii), line 1	1994	1995
(ii), line 7	1991	1992
(ii), line 8	1994	1995
(ii), line 13	1993	1994
(ii), line 14	1993	1994
(ii), line 15	1994	1995
(iii), line 2	1993	1994

VOL 56 ISS 118 JE 19 1991 UMI

Location	Remove	Add
(ii), line 4	1994	1995
Example 2: (i), line 17	1993	1994

§ 1.103–18 [Corrected]

Par. 2. On page 19054, column 3, § 1.103–18(a), line 4, the language "bond under section 141(d)(1)(A) relating" is corrected to read "bond under section 141(e)(1)(A) relating".

Par. 3. On page 19054, column 3, § 1.103–18(a), line 6, the language "141(d)(1)(D) relating to qualified small" is corrected to read "141(e)(1)(D) relating to qualified small".

Dale D. Goode,

Federal Register Liaison Officer, Assistant Chief Counsel (Corporate).

Income From Discharge of Indebtedness—Acquisition of Indebtedness by Person Related to the Debtor; Correction

AGENCY: Internal Revenue Service, Treasury.

ACTION: Correction to notice of proposed rulemaking.

SUMMARY: This document contains corrections to the notice of proposed rulemaking (CO–90–90), which was published on Friday, March 22, 1991 (56 FR 12135). The proposed regulations provide rules concerning the acquisition of outstanding indebtedness by a person related to the debtor from a person who is not related to the debtor.

FOR FURTHER INFORMATION CONTACT: Victor L. Penico (202) 566–3618 or Warren Joseph at (202) 566–4430 (not toll-free numbers).

SUPPLEMENTARY INFORMATION:

Background

The notice of proposed rulemaking that is the subject of these corrections proposes the addition of § 1.108–2 to part 1 of title 26 of the Code of Federal Regulations under section 108.

Need for Correction

As published, the proposed regulations contain errors which may prove to be misleading and are in need of clarification.

Correction of Publication

PART 1—[CORRECTED]

Accordingly, the publication of the proposed regulations (CO–90–90), which was the subject of FR Doc. 91–6904, is corrected as follows:

§ 1.108–2 [Corrected]

Par. 1. On page 12139, column two, in § 1.108–2, paragraph (b)(2)(ii)(B), line two, the colon is removed following the word "both" and is corrected to read "—".

Par. 2. On page 12140, column two, in § 1.108–2, paragraph (e)(2) under the heading *"Examples"*, lines six and seven, the language "jurisdiction of a court in a title 11 the gross income of the related holder" is corrected to read "jurisdiction of a court in a title 11 case and no indebtedness is qualified farm indebtedness described in section 108(g)".

Par 3. On page 12140, column two, in § 1.108–2, paragraph (e)(2), under *Example 1*, lines five, six, and seven, the language "$10,000,000 and provides for interest payments of 10 percent on December 31 of each year and a payment at maturity of" is corrected to read "$10,000,000 and provides monthly for interest payments of $80,000 payable at the end of each month and a payment at maturity of".

Par. 4. On page 12140, column two, in § 1.108–2, paragraph (e)(2), paragraph (iii) of *Example 1*, lines four and five, the language "$321,697.52, in 1993, $333,196.33; and in 1994, $345,106.15" is corrected to read "$289,144.88; in 1993, $331,286.06; and in 1994, $379,569.06".

Par. 5. On page 12140, column two, in § 1.108–2, paragraph (e)(2), under *Example 2*, line eight, the figure "$9,321,697.52" is corrected to read "$9,289,144.88".

Par. 6. On page 12140, column two, in § 1.108–2, paragraph (e)(2), under *Example 2*, line nine, the figure "$78,302.48" is corrected to read "$110,855.12".

Par. 7. On page 12140, column two, in § 1.108–2, paragraph (e)(2), under *Example 3*, line seven, the language "$9,028,808.13, which is the" is corrected to read "$9,022,621.41 which in this case equals the".

Par. 8. On page 12140, column two, in § 1.108–2, paragraph (e)(2), under *Example 3*, lines ten, eleven, and twelve, the language "($9,000,000) plus the sum of the daily portions from January 1, through February 1 ($26,808.13)" is corrected to read "($9,000,000) plus the accrued original issue discount through February 1 ($22,621.41)".

Par 9. On page 12140, column three, in § 1.108–2, paragraph (e)(2), under *Example 3*, line eight, the language "to P's adjusted basis, and under section" is corrected to read "to P's adjusted basis, and, under section".

Par. 10. On page 12140, column three, in § 1.108–2, paragraph (e)(2), under *Example 3*, line ten, the figure "$9,028,808.13" is corrected to read "$9,022,641.41".

Dale D. Goode,

Federal Register Liaison Officer, Assistant Chief Counsel (Corporate).

BILLING CODE 4830–01–M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

[Docket Number FEMA–7024]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed modified base (100-year) flood elevations listed below for selected locations in the Nation. The base (100-year flood elevations are the basis for the floodplain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or to remain qualified for participation in the National Flood Insurance Program.

DATES: The period for comment will be ninety (90) days following the second publication of the proposed rule in a newspaper of local circulation in each community.

ADDRESSES: See table below.

FOR FURTHER INFORMATION CONTACT: Mr. William R. Locke, Chief, Risk Studies Division, Federal Insurance Administration, Federal Emergency Management Agency, Washington, DC 20472, (202) 646–2754.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency gives notice of the proposed determinations of modified base flood elevations for selected locations in the nation, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (title XIII of the Housing and Urban Development Act of 1968, (Pub. L. 90–448)), 42 U.S.C. 4001–4128, and 44 CFR part 67.4(a).

These elevations, together with the floodplain management measures required by § 60.3 of the program

regulations, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements on its own; or pursuant to policies established by other Federal, state or regional entities. These proposed modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance coverage on existing buildings and their contents.

Pursuant to the provisions of 5 U.S.C. 605(b), the Administrator, to whom authority has been delegated by the Director, Federal Emergency Management Agency, hereby certifies that the proposed modified flood elevation determinations, if promulgated, will not have a significant economic impact on a substantial number of small entities. A flood elevation determination under section 1363 forms the basis for new local ordinances, which, if adopted by a local community, will govern future construction within the floodplain area. The local community voluntarily adopts floodplain ordinances in accord with these elevations. Even if ordinances are adopted in compliance with minimum Federal standards, the elevations prescribe how high to build in the floodplain and do not proscribe development. Thus, this action only forms the basis for future local actions. It imposes no new requirement; of itself has no economic impact.

List of Subjects in 44 CFR Part 67

Flood insurance, floodplains.

PART 67—[AMENDED]

1. The authority citation for part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 et seq., Reorganization Plan No. 3 of 1978, E.O. 12127.

2. The proposed modified base flood elevations for selected locations are:

PROPOSED MODIFIED BASE FLOOD ELEVATIONS

State	City/town/county	Flooding source	Location	# Depth in feet above ground. *Elevation in feet (NGVD)	
				Existing	Modified
Alabama	City of Birmingham, Jefferson County.	Unnamed Creek 31	About 1,050 feet upstream of 10th Avenue	*591	*591
			Just downstream of 1st Avenue	*605	*604
Maps available for inspection at the Community Planning Department, 710 North 20th Street, Birmingham, Alabama.					
Send comments to The Honorable Richard Arrington, Jr., Mayor, City of Birmingham, 710 North 20th Street, Birmingham, Alabama 35203.					
Georgia	Unincorporated areas of Walker County.	Chattanooga Creek	About 400 feet downstream of the confluence of Dry Creek.	*658	*660
			Just downstream of upstream crossing of State Route 193.	*685	*685
			Just upstream of upstream crossing of State Route 193.	*685	*690
			Just downstream of Nickajack Road	*700	*700
		Dry Creek	At mouth	*658	*660
			About 1,160 feet upstream of Maple Street	*660	*660
Maps available for inspection at the Property and Records Office, P.O. Box 445, Lafayette, Georgia.					
Send comments to The Honorable Roy E. Parrish, Jr., Walker County Commissioner, P.O. Box 445, Lafayette, Georgia 30728.					
Maryland	Secretary, Town Dorchester County.	Warwick River North Branch	Along northern corporate limits	None	* 6
		Warwick River South Branch	Along southern corporate limits	None	* 6
Maps available for inspection at the Town Hall, Main Street, Secretary, Maryland.					
Send comments to The Honorable Walter R. Collins, Mayor of the Town of Secretary, Dorchester County, P.O. Box 246, Secretary, Maryland 21664.					
Michigan	Township of Clinton, Macomb County.	Clinton River	Just downstream of confluence of Clinton River North Branch.	* 593	* 593
			About 2,100 feet upstream of confluence of Red Run Drain.	* 602	* 601
		Red Run Drain	At mouth	* 602	* 601
			About 2,650 feet upstream of Metropolitan Parkway.	* 605	* 604
Maps available for inspection at the Planning Department, Mr. Steve Cassin, 40700 Romeo Plank Road, Mt. Clemens, Michigan.					
Send comments to The Honorable Mark Kohl, Township Supervisor, Township of Clinton, 40700 Romeo Plank Road, Mt. Clemens, Michigan 48044.					
Nevada	Elko County Unincorporated Areas.	Susie Creek	Just below Western Pacific Railroad	None	* 4,907
			At U.S. Highway 40	None	* 4,913
			Approximately 300 feet upstream of westbound land of Interstate 80.	None	* 4,917
		Unnamed Wash	Approximately 1,500 feet downstream of Lamoille Highway.	None*	5,070
			Approximately 1,200 feet downstream of Lamoille Highway.	None	* 5,075

VOL 56 ISS 118 JE 19 1991 UMI

PROPOSED MODIFIED BASE FLOOD ELEVATIONS—Continued

State	City/town/county	Flooding source	Location	# Depth in feet above ground. *Elevation in feet (NGVD)	
				Existing	Modified
			Approximately 800 feet downstream of Lamolle Highway.	None	*5,081
			Approximately 40 feet downstream of Lamolle Highway.	None	*5,087
			Approximately 40 feet upstream of Lamolle Highway.	None	*5,094
			Approximately 300 feet upstream of Lamolle Highway.	None	*5,094

Maps are available for review at the Elko County Engineering Department, 569 Court Street, Elko, Nevada.

Send comments to the Honorable Emie Hall, Chairman, Elko County Board of Commissioners, County Courthouse, Elko, Nevada 89801.

New Jersey	Teaneck, Township Bergen County.	Overpeck Creek	At the downstream corporate limits	*9	*7
			Approximately 1,000 feet upstream of State Route 4.	*9	*8
		Teaneck Creek	At confluence with Overpeck	*9	*7
			Approximately 1,800 feet upstream of Degraw Avenue.	*9	*8
		Tributary to Overpeck Creek	At confluence with Overpeck Creek	*9	*8
			At Overpeck Avenue	*9	*8

Maps available for inspection at the Municipal Building, 816 Teaneck Road, Teaneck, New Jersey.

Send comments to The Honorable Eleanor M. Wallazek, Mayor of the Township of Teaneck, Bergen County, Municipal Building, 816 Teaneck Road, Teaneck, New Jersey 07666.

New York	Allegany, Village Cattaraugus County.	Five Mile Creek	At downstream corporate limits	* 1,416	* 1,415
			Approximately 100 feet upstream of upstream corporate limits.	* 1,417	* 1,416

Maps available for inspection at the Village Hall, 188 West Main Street, Allegany, New York.

Send comments to The Honorable Joseph M. Catalona, Mayor of the Village of Allegany, Cattaraugus County, 188 West Main Street, Allegany, New York 14706.

North Dakota	City of Rugby Pierce County.	Tributary to Rush Lake	At the downstream extraterritorial limits	*1,520	*1,518
			Just downstream of Fourth Avenue Southwest (State Highway 3).	*1,523	*1,521
			Just upstream of Third Avenue Southeast	*1,533	*1,530
			Approximately 1,800 feet upstream of the county road located east of the City of Rugby.	*1,535	*1,535

Maps are available for review at the City Auditor's Office, City Hall, 223 South Main Avenue, Rugby, North Dakota.

Send comments to The Honorable Carlie Teigen, Mayor, City of Rugby, City Hall, 223 South Main Avenue, Rugby, North Dakota 58368.

Oklahoma	Glenpool, City Tulsa County.	Nichols Creek	At the downstream side of U.S. Routes 75 & 169.	*884	*885
			33rd West Avenue (upstream corporate limits)	None	*757
		Rolling Meadows Creek	At U.S. Routes 75 & 169	None	*895
			At the upstream corporate limits	None	*727

Maps available for inspection at the City Manager's Office, 14522 Broadway, Glenpool, Oklahoma.

Send comments to The Honorable Don Bahenmeier, Mayor of the City of Glenpool, Tulsa County, P.O. Box 70, 14522 Broadway, Glenpool, Oklahoma 74037.

Oklahoma	Owasso, City Tulsa County.	Bird Creek Tributary 5A	Approximately 350 feet upstream of U.S. Highway 169.	*803	*804
			Approximately 3,150 feet upstream of 86th Street North.	*853	*854

Maps available for inspection at the Community Development Office, 207 South Cedar, Owasso, Oklahoma.

Send comments to Mr. Rodney Ray, Owasso City Manager, Tulsa County, 207 South Cedar, Owasso, Oklahoma 74055.

Oklahoma	Sequoyah County Unincorporated Areas.	West Shiloh Branch	Approximately 0.8 mile downstream of West Shiloh Avenue.	*481	*482
			Approximately 130 feet upstream of County Road.	None	*540
		Little Sallisaw Creek	Just upstream of Dogwood Street	*482	*481
			Approximately 0.5 mile upstream of Interstate Route 40.	None	*501
		Hog Creek	At confluence with Little Sallisaw Creek	*494	*491
			Approximately 0.9 mile downstream of U.S. Route 59.	*521	*522

Maps available for inspection at the Sequoyah County Conservation District, 101 McGee Drive, Sallisaw, Oklahoma.

Send comments to Mr. Bruce Tabor, Chairman of th eSequoyah County Board of Commissioners, 117 South Oak, Sallisaw, Oklahoma 74955.

Pennsylvania	Wilkes-Barre, city, Luzerne County.	Susquehanna River	Approximately .4 mile upstream of the downstream corporate limits.	*545	*545
			At upstream corporate limits	*551	*549

PROPOSED MODIFIED BASE FLOOD ELEVATIONS—Continued

State	City/town/county	Flooding source	Location	# Depth in feet above ground. *Elevation in feet (NGVD)	
				Existing	Modified
		Mill Creek	At confluence with the Susquehanna River	*551	*549
			Approximately 800 feet upstream of George Avenue.	*551	*550
		Laurel Creek	At confluence with Mill Creek	*551	*548
			Approximately 1,200 feet upstream of the confluence of Coal Brook.	*562	*561
		Coal Brook	At confluence with Laurel Run	None	*551
			Approximately 1,040 feet upstream of State Route 309.	None	*553

Maps available for inspection at the City Hall, Planning Department, 40 East Market Street, Wilkes-Barre, Pennsylvania.

Send comments to The Honorable Lee A. Namey, Mayor of the City of Wilkes-Barre, Luzerne County, 40 East Market Street, Wilkes-Barre, Pennsylvania 18711.

South Dakota	Union County	Missouri River	At the confluence with Big Sioux River (county boundary).	None	*1,090
			Approximately 3.2 miles upstream of the confluence with Big Sioux River (at river mile 737.0).	None	*1,092
			Approximately 4.4 miles upstream of the confluence with Big Sioux River (at river mile 736.2).	None	*1,093
		Big Sioux River	At the confluence with Missouri River (county boundary).	None	*1,090
			Approximately 2,200 feet downstream of Interstate Highway 29	None	*1,093
			Just downstream of Interstate Highway 29	None	*1,094

Maps are available for review at the Office of the Land Use Administrator, Union County Courthouse, 200 East Main Street, Elk Point, South Dakota.

Send Comments to The Honorable M.C. Bak, Chairman, Union County Commissioners, P.O. Box 518, Elk Point, South Dakota 57025-0640.

Virginia	Bedford, city, independent city.	Unnamed tributary to Little Otter River.	At confluence with Little Otter River	None	*841
			Approximately 850 feet upstream of Crenshaw Street.	None	*920
		West Branch	Approximately 400 feet upstream of confluence with unnamed tributary to Little Otter River.	None	*892
			At U.S. Route 460	None	*892
		Little Otter River	Approximately 500 feet downstream of State Route 43.	None	*836
			At confluence of unnamed tributary to Little Otter River.	None	*841

Maps available for inspection at the City Hall, 215 E. Main Street, Bedford, Virginia.

Send Comments to The Honorable G. Michael Shelton, Mayor of the City of Bedford, P.O. Drawer 807, Bedford, Virginia 24523.

Issued: June 10, 1991.

BILLING CODE 6718-03-M

44 CFR PART 67

[Docket No. FEMA-7020]

Proposed Flood Elevation Determination

AGENCY: Federal Emergency Management Agency.

ACTION: Proposed rule; correction.

SUMMARY: This document corrects a Notice of Proposed Determinations of base (100-year) flood elevations previously published at 56 FR 22679 on May 16, 1991. This notice corrects the name of the state in which the City of Clarksburg, Harrison County, West Virginia, is located.

FOR FURTHER INFORMATION CONTACT: William R. Locke, Chief, Risk Studies Division, Federal Insurance Administration, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-2754.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency gives notice of the correction to the Notice of Proposed Determinations of base (100-year) flood elevations for selected locations in the City of Clarksburg, Harrison County, West Virginia, previously published at 56 FR 22679 on May 16, 1991, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 44 CFR 67.

List of Subjects in 44 CFR Part 67

Flood Insurance, Floodplains.

On page 22684, in the May 16, 1991 issue of **Federal Register**, the entry under State name for Clarksburg, City, Harrison County, is corrected to read, "West Virginia".

Issued: June 7, 1991.

C.M. "Bud" Schauerte,

Administrator, Federal Insurance Administration.

BILLING CODE 6718-03-M

VOL 56 ISS 118 JE 19 1991 UMI

FEDERAL MARITIME COMMISSION

46 CFR Part 504

[Docket No. 91-28]

Procedures for Environmental Policy Analysis

AGENCY: Federal Maritime Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Maritime Commission proposes to amend its Procedures for Environmental Policy Analysis, which set forth requirements for environmental analysis of Commission actions under the National Environmental Policy Act of 1969. Specifically, the proposed amendment would categorically exclude from the requirement for an environmental analysis actions concerning non-vessel-operating common carrier ("NVOCC") filings of surety bonds and designations of resident agents for service of process pursuant to 46 CFR part 583.

DATES: Comments due on or before July 19, 1991.

ADDRESSES: Send comments (original and fifteen copies) to: Joseph C. Polking, Secretary, Federal Maritime Commission, 1100 L Street, NW., Washington, DC 20573 (202) 523-5725.

FOR FURTHER INFORMATION CONTACT: John Robert Ewers, Director, Bureau of Administration, Federal Maritime Commission, 1100 L Street, NW., Washington, DC 20573 (202) 523-5866.

SUPPLEMENTARY INFORMATION: The Commission's Procedures for Environmental Policy Analysis (46 CFR part 504) specify the types of environmental analyses required for Commission actions under the National Environmental Policy Act of 1969. Actions having a potential for environmental impact as defined in § 504.2(c) are subjected to environmental assessments that result in either findings of no significant impact (§ 504.6) or environmental impact statements (§ 504.7). Actions with little or no potential for environmental impact are categorically excluded from the requirements for environmental assessment (§ 504.4).

Section 504.4 lists routine types of Commission actions that are excluded from the requirements for analysis. The activities covered by categorical exclusion do not individually or collectively have significant effects upon the quality of the human environment, because they are purely ministerial, or because they do not significantly increase or decrease air, water or noise pollution or use of fossil fuels, recyclables or energy.

On January 15, 1991, (56 FR 1499) the Commission published an interim rule to implement the NVOCC Amendments of 1990, section 710 of Public Law 101-595. This rule contains, among other things, provisions for the filing of NVOCC surety bonds and designations of resident agents for service of process (for foreign-domiciled NVOCCs). These actions appear to have no potential for environmental impact. Accordingly, the Commission proposes to add such matters to the list of actions excluded from environmental analysis under § 504.4.

Although the Commission, as an independent regulatory agency, is not subject to Executive Order 12291, dated February 17, 1981, it has nonetheless reviewed the rule in terms of this Order and has determined that this rule is not a "major rule" because it will not result in: (1) An annual effect on the economy of $100 million or more; (2) a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or (3) significant adverse effects on competition, employment, investment, productivity, innovations, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The Federal Maritime Commission certifies, pursuant to section 605(b) of the Regulatory Flexibility Act, 5 U.S.C. 605(b), that this rule, if adopted, will not have a significant economic impact on a substantial number of small entities, including small businesses, small organizational units or small governmental organizations.

The Paperwork Reduction Act, 44 U.S.C. 3501-3520, does not apply to this notice of proposed rulemaking because the amendment to part 504 of title 46, Code of Federal Regulations, does not impose any additional reporting or recordkeeping requirements or change the collection of information from members of the public which require the approval of the Office of Management and Budget.

Lists of Subjects in 46 CFR Part 504

Environmental Impact Statements.

Therefore, pursuant to 5 U.S.C. 553, 42 U.S.C. 4332(2)(b), section 710 of Public Law 101-595 and 46 U.S.C. app. section 1716, the Federal Maritime Commission proposes to amend part 504, title 46, Code of Federal Regulations, as follows:

1. The authority citation for part 504 continues to read as follows:

Authority: 5 U.S.C. 552, 553; Sec. 21 and 43 of the Shipping Act, 1916 (46 U.S.C. app. 820 and 841a); secs. 13 and 17 of the Shipping Act of 1984 (46 U.S.C. app. 1712 and 1716); sec. 102 of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(b)) and sec. 352(b) of the Energy Policy and Conservation Act of 1975 (42 U.S.C. 6302)

2. Section 504.4 is amended by adding a new paragraph (a)(3), to read as follows:

§ 504.4 Categorical exclusions.

(a) * * *

(3) Filings by non-vessel-operating common carriers of surety bonds and designations of resident agents for service of process pursuant to 46 CFR part 583.

* * * * *

By the Commission.

Joseph C. Polking,

Secretary.

BILLING CODE 6730-01-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 91-158, RM-7719]

Radio Broadcasting Services; Medicine Lodge, KS

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document requests comments on a petition filed by Florida Public Radio, Inc., proposing the substitution of Channel 269C2 for Channel 240A at Medicine Lodge, Kansas, and modification of the construction permit for Station KREJ to specify the new channel. In accordance with section 1.420(g) of the Commission's Rules, should another party indicate interest in the Class C2 allotment, the modification cannot be implemented unless an equivalent class channel is also allotted. The coordinates for Channel 269C2 are 37-13-59 and 98-39-43.

DATES: Comments must be filed on or before August 5, 1991, and reply comments on or before August 20, 1991.

ADDRESSES: Federal Communications Commission, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner, or its counsel or consultant, as follows: Randy Henry, President, Florida Public Radio, Inc., 505 Josephine Street, Titusville, FL 32796; (petitioner).

FOR FURTHER INFORMATION CONTACT: Kathleen Scheuerle, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Notice of Proposed Rule Making, MM Docket No. 91-158, adopted May 31, 1991, and released June 13, 1991. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Dockets Branch (room 230), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractors, Downtown Copy Center, 1714 21st Street, NW., Washington, DC 20036, (202) 452-1422.

Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding.

Members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. See 47 CFR 1.1204(b) for rules governing permissible *ex parte* contact.

For information regarding proper filing procedures for comments, see 47 CFR 1.415 and 1.420.

47 CFR Part 73

[MM Docket No. 91-161, RM-7701]

Radio Broadcasting Services; Jasper, TX

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission requests comments on a petition by James M. Lout seeking the allotment of Channel 297A at Jasper, Texas, as the community's third local FM transmission service. Channel 297A can be allotted to Jasper in compliance with the Commission's minimum distance separation requirements with a site restriction of 1.5 kilometers (0.9 miles) north of the community to avoid a short-spacing to the vacant allotment of Channel 297C3, Lake Arthur, Louisiana. The coordinates for Channel 297A at Jasper are North Latitude 30-56-13 and West Longitude 93-59-47.

DATES: Comments must be filed on or before August 5, 1991, and reply comments on or before August 20, 1991.

ADDRESSES: Federal Communications Commission, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner, or its counsel or consultant, as follows: Julian P. Freret, Esq., Booth Freret & Imlay, 1920 N Street, NW., Suite 150, Washington, DC 20036 (Counsel for Petitioner).

FOR FURTHER INFORMATION CONTACT: Sharon P. McDonald, Mass Media Bureau (202) 634-6530.

47 CFR Part 80

[PR Docket No. 91-167; FCC 91-168]

Second Calling Channel on VHF Marine Radio, Channel 9

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Federal Communications Commission proposes to amend the Maritime Services Rules in PR Docket No. 91-167, FCC 91-168, to permit VHF marine radio channel 9 to be used as a second calling channel. By proposing to establish a second calling channel, it is believed that congestion on channel 16, the internationally designated distress, safety and calling frequency, will be reduced. This Rule Making was proposed by the Field Operations Bureau, Boston Marine Safety Project, as part of an ongoing effort to improve safety and distress communications procedures.

DATES: Comments must be submitted on or before August 2, 1991. Reply comments may be submitted on or before August 19, 1991.

ADDRESSES: Comments may be mailed to the Federal Communications Commission, Office of the Secretary, 1919 M Street, NW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Susan Jones, Private Radio Bureau, Aviation and Marine Branch, 2025 M Street, NW., Washington, DC 20554, (202) 632-7175.

SUPPLEMENTARY INFORMATION: To aid us in the final determination in this matter, we are conducting a study, in cooperation with the U.S. Coast Guard, on the effect of using marine VHF channel 9 as a second calling channel in the Boston Harbor and its effect on reducing congestion on channel 16. We will use results from this study and the comments we receive in this proceeding to determine any future action.

Federal Motor Carrier Safety Regulations; General; Motor Vehicle Marking

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: The FHWA is proposing to amend its commercial motor vehicle marking requirements to apply to every commercial motor vehicle subject to the Federal Motor Carrier Safety Regulations (FMCSRs). This action to include a broader range of vehicles will improve uniformity of identification of commercial motor vehicles operated on the nation's highways and aid enforcement officers in carrying out their duties.

DATES: Comments must be received on or before August 19, 1991.

ADDRESSES: Submit written, signed comments to FHWA Docket No. MC 91-6, room 4232, HCC-10, Office of the Chief Counsel, Federal Highway Administration, 400 Seventh Street, SW., Washington, DC 20590. Commenters may, in addition to submitting "hard copies" of their comments, submit a floppy disk in standard or high density formats containing files compatible with word processing programs such as WordPerfect, WordStar, or Microsoft "Word" for IBM systems, or WordPerfect or Microsoft Word for Macintosh. Commenters should clearly label submitted disk with the software format used (e.g., WordPerfect 5.0 (IBM) or Microsoft Word 4.0 (Mac)). All comments received will be available for examination at the above address from 8:30 a.m. to 3:30 p.m., e.t., Monday through Friday, except legal holidays. Those desiring notification of receipt of comments must include a self-addressed, stamped postcard.

FOR FURTHER INFORMATION CONTACT: Mr. Neill L. Thomas, Office of Motor Carrier Standards (202) 366-2981, or Mr. Paul L. Brennan, Office of the Chief Counsel (202) 366-0834, Federal Highway Administration, Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590. Office hours are from 7:45 a.m. to 4:15 p.m., e.t., Monday through Friday, except legal holidays.

SUPPLEMENTARY INFORMATION: A final rule published in the **Federal Register** on May 19, 1988 (53 FR 18042, Docket No. MC-114) (effective November 15, 1988), among other things amended part 390 of the FMCSRs by adding § 390.21, marking of commercial motor vehicles. This rule generally requires self-propelled motor vehicles operated by interstate private motor carriers of property and interstate motor carriers of migrant workers to be marked. The marking is to be located on both sides of the self-propelled vehicle and consists of the motor carrier's name or trade name, the city or community and State (name abbreviated) in which the carrier maintains its principal place of business or in which the vehicle is customarily based, and the motor carrier identification number, if issued by the FHWA, preceded by the letters "USDOT."

Four classes of motor carriers were not subject to the DOT's 1988 final rule. They included: (1) For-hire motor carriers transporting the U.S. mail in interstate commerce under contract to the United States Postal Service; (2) for-hire motor carriers of passengers transporting school children and/or school personnel in interstate commerce when such transportation is at the direction and/or under the control of a public school system and is not a "school bus operation" as defined in § 390.5; (3) for-hire motor carriers of property engaged in the emergency towing of disabled vehicles from the point of disablement to another location in interstate commerce; and (4) ICC "exempt" motor carriers (i.e., economically exempt, eg., agricultural commodity carriers). These carriers operate a significant number of commercial motor vehicles in interstate commerce.

Private motor carriers of passengers are not now subject to the FMCSRs. 49 CFR 390.3(f)(6). School Bus Fleet Magazine reports in its January 1990 issue that 36 States use contractors for the transportation of school children. Those contractors operated more than 90,000 vehicles during the 1987-1988 school year. The National Star Route Mail Contractors Association estimates that 5,500 of its members operate commercial motor vehicles.

The Interstate Commerce Commission (ICC) regulates the marking of commercial motor vehicles operated by a certain segment of the motor carrier industry. That segment is comprised of two groups of for-hire motor carriers, namely, common and contract motor carriers of property or passengers.

The ICC published a final rule entitled Identification of Vehicles in the **Federal Register** on March 27, 1990 (55 FR 11199). The Commission extended its

regulation to "govern all for-hire motor carriers except those providing (a) Joint, through, regular-route passenger service under continuing lease or interchange agreements, if the vehicle owner's name and "MC" number are displayed as prescribed at 49 CFR 1058.2, and if the carriers have filed with the Commission's appropriate Regional Director(s) and posted in each terminal and ticket agency on the involved routes a published schedule showing the points between which each joint carrier assumes control and responsibility for the vehicle's operation; and (b) Nonscheduled, charter, luxury-type passenger service using limousine-type vehicles with a capacity of six or fewer passengers."

49 CFR 1058.1

The ICC also discontinued a rulemaking in the **Federal Register** on July 11, 1990 (55 FR 28419), which would have eliminated the vehicle marking requirements of 49 CFR 1058 and adjusted the leasing regulations at 49 CFR 1057. The overwhelming majority of the comments received by the ICC indicated that the marking requirement is essential to public safety, allowing immediate identification of vehicles in situations involving moving violations, stolen equipment, security, and unauthorized or uninsured operations.

The Motor Carrier Safety Act of 1984 (MCSA of 1984) (49 U.S.C. app. 2501-2520 (1988)) authorizes the FHWA to establish vehicle marking requirements for all commercial motor vehicles, as defined in the MCSA of 1984, if the agency determines that such a requirement will assist in ensuring that commercial motor vehicles are safely maintained, equipped, loaded, and operated. Requiring all commercial motor vehicles operated in interstate commerce to meet a single identification standard would create a needed nationwide uniformity. Such action would assist Federal and State enforcement personnel in properly identifying motor carriers during roadside vehicle inspections and accident investigations, thus assuring the submission of accurate inspection and accident results and other data into the FHWA and State management information systems. Also, the general public would be able to identify and report to the motor carrier or an enforcement agency any operations being conducted in an unsafe manner by the operator of a commercial motor vehicle.

Unique identification numbers are important to provide motor carrier safety and enforcement personnel and concerned highway users a rapid and sure way to distinguish a particular motor carrier's vehicles. There are many companies with the same name but which are located in different cities or states. As an example, there are twelve independent Arrow Trucking Companies, located in twelve different cities. Without the ability to quickly identify the city and State of domicile, the name of the motor carrier alone will be of little value to the average motorist.

In view of the foregoing, the FHWA proposed to amend its marking requirement regulation to encompass all commercial motor vehicles operated in interstate commerce. Those commercial motor vehicle operated by for-hire motor carriers under authority issued by the ICC would be allowed to meet the FHWA's rules by complying with the compatible marking requirements of the ICC.
